A: Abstentions and broker non-votes are counted for purposes of determining the presence or absence of a quorum for the transaction of business. A broker non-vote occurs when a nominee holding shares of the Company's Common Stock for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that item and has not received instructions from the beneficial owner. Abstentions are counted in tabulations of the votes cast on proposals presented to stockholders as a vote against, whereas broker non-votes are not counted for purposes of determining whether a proposal has been approved.

10. Q: What does it mean if I receive more than one proxy card?

A: If your shares are registered differently or in more than one account, you will receive more than one proxy card. Sign and return all proxy cards to ensure that all your shares are voted.

PROPOSAL 1
ELECTION OF DIRECTORS

At the Annual Meeting, we will present the nominees named below and recommend that they be elected to serve as directors until the next annual stockholders meeting or until their successors are duly elected and qualified. Each nominee has consented to being named in this Proxy Statement and to serve if elected.

Your proxy will be voted for the election of the six nominees named below unless you give instructions to the contrary. Your proxy cannot be voted for a greater number of persons than the number of nominees named.

Nominees

Presented below is a description of certain biographical information, occupations and business experience for the past five years of each person nominated to become a director. Six directors are to be elected at the Annual Meeting. All nominees are current directors standing for reelection to the Board. If any nominee should become unavailable for election, your proxy may be voted for a substitute nominee selected by the Board, or the Board's size may be reduced accordingly. The Board is unaware of any circumstances likely to render any nominee unavailable. Directors of the Company hold office until the next annual stockholders meeting, until successors are elected and qualified or until their earlier resignation or removal.

On May 5, 2010, the Company's board of directors established a Nominating Committee to recommend nominees for director to the Board and to insure that such nominees possess the director qualifications set forth in the Company's Corporate Governance Guidelines. Additionally, the Nominating Committee reviews the qualifications of existing Board members before they are nominated for re-election to the Board. Once nominees are selected, the Board determines which nominees are presented to the Company's stockholders for final approval.

Each Board member other than Kenneth R. Peak and Brad Juneau is an independent director. The Board will also consider nominees recommended by stockholders. The Company's Bylaws contain provisions which address the process by which a stockholder may nominate an individual to stand for election to the Board of Directors at our Annual Meeting of Stockholders. The procedures include a requirement that notices regarding a person's nomination be received in writing from the stockholder and by the Company's Secretary not less than 60 days nor more than 90 days prior to the first anniversary of the preceding year's annual meeting. Moreover, the notice must include such nominee's written consent to be named in the Company's Proxy Statement and to serve if elected. Supporting information should include (a) the name and address of the candidate and the proposing stockholder, (b) a comprehensive biography of the candidate and an explanation of why the candidate is qualified to serve as a director taking into account the criteria identified in our corporate governance guidelines and (c) proof of ownership, the class and number of shares, and the length of time that the shares of our common stock have been beneficially owned by each of the candidate and the proposing stockholder. Minimum qualifications include extensive business experience, a solid understanding of financial statements and a reputation for integrity. Each nominee below has been recommended by the Nominating Committee.

CORPORATE GOVERNANCE

We believe that good corporate governance is important to assure that the Company is managed for the long term benefit of its stockholders. The Board and management of the Company are committed to good business practices, transparency in financial reporting and the highest level of corporate governance and ethics. The Board has specifically reviewed the provisions of the Sarbanes-Oxley Act of 2002, the rules of the Securities and Exchange Commission (“SEC”) and the NYSE MKT listing standards and rules to maintain its standards of good corporate governance.

The Board has reaffirmed existing policies and initiated actions adopting policies consistent with new rules and listing standards. In particular, we have:

Independence. After reviewing the qualifications of our current directors and nominees, and any relationships they may have with the Company that might affect their independence, the Board has determined that each director and nominee, other than Mr. Peak and Mr. Juneau, is “independent” as that concept is defined by the NYSE MKT Company Guide. Both Mr. Peak and Mr. Juneau are executive officers of the Company. In addition, JEX and the Company have entered into a series of transactions which are described under “Certain Relationships and Related Transactions”.

Mission Statement. The Company’s primary objective is to maximize stockholder value, while at all times observing the highest ethical, health, safety and environmental standards. The Company will pursue this objective through participation in the energy industry.

#PageNum#

Corporate Authority and Responsibility. All corporate authority resides in the Board, as the representative of the stockholders. Authority is delegated to management by the Board in order to implement the Company's mission. Such delegated authority includes the authorization of spending limits and the authority to hire employees and terminate their services. The independent members of the Board retain responsibility for selection, evaluation and the determination of compensation of the chief executive officer of the Company, oversight of the succession plan, approval of the annual budget, assurance of adequate systems, procedures and controls, and all matters of corporate governance. Each Board member other than Mr. Peak and Mr. Juneau is independent. Additionally, the Board provides advice and counsel to senior management.

Compensation of Directors. During the fiscal year ended June 30, 2012, each outside director of the Company received a quarterly retainer of \$20,000 payable in cash for the first quarter, and a quarterly retainer of \$28,000 payable in cash for the last three quarters, with no stock option or common stock grants. Compensation of directors is determined by Mr. Peak and the independent directors after comparing the compensation of directors at our peer group of companies. Directors do not receive any additional compensation for attending meetings or serving as a member of a committee of the Board of Directors. All directors are reimbursed for reasonable out-of-pocket expenses incurred in connection with serving as a member of the Board of Directors.

Board Size. We believe smaller to mid-size boards are more cohesive, work better together and tend to be more effective monitors than larger boards. Our Bylaws currently provide for at least three and not more than seven directors.

#PageNum#

Annual Election of Directors. In order to create greater alignment between the Board's and our stockholders' interests and to promote greater accountability to the stockholders, directors are elected annually.

Meetings. Our Board has meetings as necessary. During the fiscal year ended June 30, 2012, the Board held nine meetings and passed resolutions by unanimous written consent on one occasion. All of our Board members attended 100% of all Board and applicable committee meetings, except for Mr. Berilgen who missed one meeting due to a faulty telephone connection. During the 2011 fiscal year, the Company had five directors, all of which were present at the 2011 annual meeting. We encourage our Board to attend our annual meeting of stockholders.

Committee Structure. It is the general policy of the Company that the Board as a whole will consider all major decisions. The committee structure of the Board includes the Audit Committee, the Equity and CEO Compensation Committee, and the Nominating Committee. The Board may form other committees as it determines appropriate. A copy of the charter for each committee is available to any stockholder who requests a copy by delivering written notice to Contango Oil & Gas Company, 3700 Buffalo Speedway, Suite 960, Houston, Texas 77098.

Audit Committee. The Audit Committee was established by the Board for the purpose of overseeing the accounting and financial reporting processes of the Company and audits of the financial statements of the Company. The Audit Committee recommends the appointment of independent public accountants to conduct audits of our financial statements and internal control over financial reporting, reviews with the accountants the plan and results of the auditing engagement, approves other professional services provided by the accountants and evaluates the independence of the accountants. The Audit Committee also reviews the scope and adequacy of our system of internal controls and procedures over financial reporting. Members of the Audit Committee are Messrs. Brehmer (Committee Chairman), Berilgen, Reimer and Schoonover. Each member of the Audit Committee is independent, as independence for audit committee members is defined in the NYSE MKT listing standards and the applicable rules of the SEC. The Audit Committee met formally four times during the fiscal year ended June 30, 2012. The Board has determined that Mr. Brehmer is an "audit committee financial expert" as defined by the rules of the SEC.

Equity and CEO Compensation Committee. The Equity and CEO Compensation Committee was created by the Board on September 15, 2009 for the purpose of administering the Contango Oil & Gas Company Annual Incentive Plan (the "Incentive Plan") and the Contango Oil & Gas Company 2009 Equity Compensation Plan (the "Equity Plan"). The Equity and CEO Compensation Committee determines which executive officers will be eligible for cash bonus awards under the Incentive Plan for each fiscal year, approves the goals of such executive officer for the upcoming fiscal year, and determines the maximum cash bonus award for each executive officer eligible for an award under the Incentive Plan for the upcoming fiscal year. Under the terms of its charter, the Equity and CEO Compensation Committee also determines the compensation for Mr. Peak, the Chairman of the Company. Additionally, the Equity and CEO Compensation Committee determines which executive officers and other employees may receive stock options, stock units, stock awards, stock appreciative rights and other stock based awards and the amounts of such stock based awards. Members of the Equity and CEO Compensation Committee are Messrs. Schoonover (Committee Chairman), Berilgen, Brehmer and Reimer. Each member of the Equity and CEO Compensation Committee is an "outside director" as defined under section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code") and is "independent" as defined in the applicable rules of the SEC. The Equity and CEO Compensation Committee met formally once during the fiscal year ended June 30, 2012.

Nominating Committee. The Nominating Committee was created by the Board on May 3, 2010 for the purpose of overseeing the identification, evaluation and selection of qualified candidates for appointment or election to the Board. The Nominating Committee identifies individuals qualified to become Board members and recommends to the Board nominees for election as directors of the Company, taking into account that the Board as a whole shall have competency in industry knowledge, accounting and finance, and business judgment. The Nominating Committee seeks members from diverse backgrounds so that the Board consists of members with a broad spectrum of experience

and expertise and with a reputation for integrity. Committee shall give the same consideration to candidates for director nominees recommended by Company stockholders as those candidates recommended by others. Members of the Nominating Committee are Messrs. Schoonover (Committee Chairman), Berilgen, Brehmer and Reimer. Each member of the Nominating Committee is independent as independence for nominating committee members is defined in the NYSE Amex and the applicable rules of the SEC. The Nominating Committee met formally once during the fiscal year ended June 30, 2012.

Board Leadership Structure. The Board of Directors elected Mr. Peak as both Chairman and Chief Executive Officer, prior to Mr. Peak's medical leave of absence, for a number of reasons. Mr. Peak is the founder of the Company and beneficially owns or votes approximately 13% of the Company's common stock, making him our largest shareholder. Mr. Peak has been an active entrepreneur who built the business into a large successful gas and oil company with a market capitalization in excess of \$750 million. Furthermore, we believe that the advantages of having a single Chief Executive Officer and Chairman with extensive knowledge of our Company outweigh potential disadvantages. Mr. Peak is currently on a medical leave of absence for up to six months and Mr. Juneau is serving as President and Acting Chief Executive Officer.

Risk Oversight. We administer our risk oversight function through our Audit Committee and our Equity and CEO Compensation Committee as well as through our Board as a whole. Our Audit Committee is empowered to appoint and oversee our independent registered public accounting firm, monitor the integrity of our financial reporting processes and systems of internal controls and provide an avenue of communication among our independent auditors, management, our internal auditing department and our Board. Our Equity and CEO Compensation Committee is responsible for overseeing the management of risks related to our compensation arrangements. More information about the Company's corporate governance practices and procedures is available on the Company's website at www.contango.com.

THE BOARD RECOMMENDS A VOTE "FOR" THE ELECTION OF THE SIX NOMINEES AS DIRECTORS OF CONTANGO, TO SERVE UNTIL THE NEXT ANNUAL MEETING OF STOCKHOLDERS OR UNTIL THEIR SUCCESSORS ARE DULY ELECTED AND QUALIFIED.

PROPOSAL 2
ADVISORY VOTE ON EXECUTIVE COMPENSATION

Introduction

The Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Dodd-Frank Act”) requires that we provide our stockholders with the opportunity to vote to approve, on a non-binding, advisory basis, the compensation of our named executive officers as disclosed in this Proxy Statement and to express their views on such compensation. At our 2011 annual meeting, our shareholders approved, on an advisory basis, that an advisory vote on executive compensation should be held annually. Based on such result, the Board determined that the advisory vote will be held every year until the next advisory vote on frequency which we expect will be held at our 2017 annual meeting. We welcome the opportunity to give our stockholders an opportunity to vote on executive compensation at the Annual Meeting. This vote is not intended to address any specific item of compensation, but rather the overall compensation of the named executive officers and our philosophy, policies and practices as described in this Proxy Statement. We recognize that executive compensation is an important matter for our stockholders. As described in detail in the “Compensation Discussion and Analysis” (“CD&A”) section of this Proxy Statement, the Compensation Committee is tasked with the implementation of our executive compensation philosophy, and the core of that philosophy has been and continues to be to pay our executive officers based on performance. The executive compensation program is designed to attract and retain highly qualified executives and motivate them to maximize stockholder return. We believe that our executive compensation program achieves these goals by providing a combination of short- and long-term incentive compensation to reward near-term excellent performance and to encourage executives’ commitment to our long-range, strategic business goals. Stockholders are encouraged to read the CD&A section of this Proxy Statement, which discusses in detail how our compensation policies and procedures implement our compensation philosophy.

Text of the Resolution to be Adopted

As a matter of good corporate governance and in accordance with Section 14A of the Securities Exchange Act of 1934, the Board of Directors is asking stockholders to vote “FOR” the following resolution: “RESOLVED, that the stockholders of Contango Oil & Gas Company (the “Company”) approve, on an advisory basis, the compensation of the named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, the 2012 Summary Compensation Table and the other related tables and disclosure in the Company’s Proxy Statement for the 2012 Annual Meeting of the Stockholders of the Company .” As an advisory vote, this proposal is not binding on the Board or the Equity and CEO Compensation Committee. Although the vote is non-binding, the Board and the Equity and CEO Compensation Committee value the opinions of our stockholders, and will carefully consider the outcome of the vote in its ongoing evaluation of the Company’s executive compensation program and when making future compensation decisions for executive officers. In particular, to the extent there is any significant vote against the compensation of our named executive officers as disclosed in this Proxy Statement, we will consider our shareholders’ concerns and the Equity and CEO Compensation Committee will evaluate whether any actions are necessary to address those concerns.

THE BOARD RECOMMENDS THAT THE STOCKHOLDERS VOTE “FOR” THE APPROVAL OF THE COMPENSATION OF THE NAMED EXECUTIVE OFFICERS.

PROPOSAL 3
RATIFICATION OF THE SELECTION OF OUR AUDITORS

The Board has appointed Grant Thornton LLP, independent public accountants, for the examination of the accounts and audit of our financial statements for the fiscal year ending June 30, 2013. Grant Thornton LLP also served in such capacity for the fiscal year ended June 30, 2012. At the Annual Meeting, the Board will present a proposal to the stockholders to approve and ratify the engagement of Grant Thornton LLP. The Board expects that representatives of Grant Thornton LLP will be present and will have the opportunity to make a statement, if they desire, and to respond to appropriate questions. The Audit Committee will consider the failure to ratify its selection of Grant Thornton LLP as independent public accountants as a direction to select other auditors for the fiscal year ending June 30, 2013.

Audit Committee Pre-Approval Policies and Procedures

All of the 2012 audit and non-audit services provided by Grant Thornton LLP were pre-approved by the Audit Committee. The non-audit services which were pre-approved by the Audit Committee were also reviewed to ensure compatibility with maintaining the accounting firm's independence.

The Audit Committee has established pre-approval policies and procedures related to the provision of audit and non-audit services. Under these procedures, the Audit Committee selects and appoints outside auditors, considers the independence and effectiveness of the outside auditors, approves the fees and other compensation to be paid to the outside auditors and is responsible for oversight of the outside auditors and reviews any revisions to the estimates of audit and non-audit fees initially approved. The Audit Committee's procedures prohibit the independent auditor from providing any non-audit services unless the service is permitted under applicable law and is pre-approved by the Audit Committee. The Audit Committee receives the written disclosures required by generally accepted auditing standards. The Audit Committee annually requires the outside auditors to provide the Audit Committee with a written statement delineating all relationships between the outside auditors and the

Company. The Audit Committee actively engages in a dialogue with the outside auditors with respect to any disclosed relationships or services that may impact the objectivity and independence of the outside auditors, and meets privately with the outside auditors four times per year, without management present. The Audit Committee recommends that the Board of Directors take appropriate action in response to the outside auditors' report to satisfy itself of the outside auditors' independence. The scope of services and fees are required to be compatible with the maintenance of the accounting firm's independence, including compliance with SEC rules and regulations.

THE BOARD RECOMMENDS A VOTE "FOR" THE RATIFICATION OF THE SELECTION OF GRANT THORNTON LLP AS INDEPENDENT PUBLIC ACCOUNTANTS.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This section of the Proxy Statement describes and analyzes our executive compensation philosophy and program in the context of the compensation paid during the last fiscal year to our named executive officers. You should read this section of the Proxy Statement in conjunction with the advisory vote that we are conducting on the compensation of our named executive officers (see Proposal No. 2), as it contains information that is relevant to your voting decision.

Overview of 2012 fiscal year Performance and Compensation. We are engaged in the exploration, development and production of oil and natural gas primarily offshore in the Gulf of Mexico. During the fiscal year ended June 30, 2012, because of the significant challenges faced by the oil and gas industry in the Gulf of Mexico following the accident onboard the deepwater drilling rig Deepwater Horizon (the “Deepwater Horizon” incident), the Company’s revenues decreased by approximately 11% and production decreased by approximately 3%. Other factors contributing to the decrease include lower average equivalent sales prices received for the period, and our Eloise North well which stopped producing in October 2011. Since this well's recompletion as our Mary Rose #5 well in January 2012, the well has only produced intermittently. Partially offsetting this decrease in production is our Vermilion 170 well which began producing in fiscal year 2012.

Philosophy. The Company’s compensation philosophy is to pay for performance. Accordingly, the Company’s executive compensation program is designed to attract and retain highly qualified executives and to motivate them to maximize stockholder return. It is intended to provide overall competitive compensation levels and incentive pay levels that vary based on the achievement of company-wide performance objectives and individual performance. In particular, the incentive compensation of Mr. Peak, the Company’s founder and Chairman, is determined by the independent directors of the Board, and is based predominantly upon the achievement of corporate performance objectives, and the achievement of those objectives has a significant impact on the incentive compensation of each other senior executive officer. The compensation packages for the other executive officers are determined by Mr. Peak.

Corporate Performance Objectives. In establishing the corporate performance objectives, the Company uses metrics that it believes investors would use in evaluating management’s performance and in determining whether to purchase the Company’s stock. For the fiscal year ended June 30, 2012, the Company’s corporate performance objectives consisted of (i) striving for an accident free record for operated wells, (ii) maintaining a strong environmental record, (iii) increasing our year over year stock price, (iv) increasing net debt-adjusted reserves per fully diluted share, (v) incurring tax-effected finding and development costs of less than \$3.00 per Mcfe, and (vi) the Company’s stock price performance exceeding the year-to-year stock price performance of a group of exploration focused companies—the S&P 600 Small Cap Index. Each objective is important on its own merit and is considered in the totality of the Company’s overall performance. Each objective is weighted equally, with objectives (iii) through (vi) being quantitatively measured. The amount of bonus, if any, is a function of level of achievement. The Company believes these metrics are important to its stockholders, and that achieving them will eventually result in an increase in stockholder value.

CEO Compensation Review Process. Mr. Peak is evaluated with respect to the Company’s achievement of the above performance objectives as a whole. The independent members of the Board hold responsibility for selection, evaluation and the determination of compensation of the Chief Executive Officer. The Board’s decisions relating to Mr. Peak’s base salary levels reflect the Board’s views as to the broad scope of responsibilities of Mr. Peak and the Board’s subjective assessment of Mr. Peak’s impact on the Company’s overall success. The independent members of the Board review compensation levels for executives in the Company’s Peer Group (defined below) as well as achievement of Company performance objectives in determining Mr. Peak’s compensation.

The Board's decisions relating to cash bonus awards and equity awards (in the form of stock options and/or restricted stock) for Mr. Peak are based on annual performance objectives for Mr. Peak adopted at the beginning of

#PageNum#

the applicable year and are designed to allow awards and grants to be eligible for deductibility under Section 162(m) of the Code.

Senior Executive Review Process. Mr. Peak conducts an annual review of the base salary, cash bonus awards and equity awards made to each other senior executive officer. In each case, Mr. Peak takes into account the executive's broad scope of responsibilities and experience and compares these to competitive compensation levels provided by the Company's Peer Group (defined below). The Company has a small group of executive officers and Mr. Peak works closely with each executive officer on a daily basis. Mr. Peak evaluates each executive with respect to contribution to the Company's success, performance, strengths and weaknesses, and commitment to being a team player. Based upon this personal evaluation, Mr. Peak makes his assessment and determines compensation for each executive officer.

Market Compensation Data. The Company has selected a list of five peer companies (the "Peer Group"), all of which are comparably sized and focus predominantly on the off-shore Gulf of Mexico oil and gas exploration and production industry. These companies share the business risk of drilling and operating in the offshore Gulf of Mexico and have reasonably comparable financial factors with the Company, such as revenue, market capital, net income, and total assets. Companies focused on onshore shale plays are excluded because of the different capital needs and business risks associated with their exploration and production models. Companies similar in size but in unrelated industries are not included because the Company typically does not hire executives from such companies, nor would the Company be likely to lose executives to such companies:

Contango 2012 Peer Group

1. ATP Oil & Gas Corporation
2. Callon Petroleum Company
3. Energy XXI (Bermuda) Limited
4. McMoRan Exploration Co.
5. W&T Offshore, Inc.

Components of Senior Executive Compensation. The primary elements of annual compensation for senior executives are base salary, cash bonus awards (which fall within the SEC's definition of "Non-Equity Incentive Plan Compensation" for the purposes of the Summary Compensation Table and otherwise) and equity awards. Each component is addressed in the context of individual, Company performance, competitive conditions and the Company's philosophy regarding common stock issuance and dilution. In determining competitive compensation levels, the Company analyzes data that includes information regarding the general natural gas and oil exploration and production industry. A major distinguishing feature between the compensation for the Company's senior executives and the majority of publicly-traded companies, including exploration and production companies, is that the Company's senior executives are compensated almost entirely with cash salary and cash bonus and receive no stock options or restricted stock. Except as noted in the Summary Compensation Table, the Company's senior executives did not receive any form of non-cash compensation during the fiscal year ending June 2012, other than medical and insurance benefits, which are made available to all of the Company's employees. None of the executive officers have an agreement with the Company that govern aspects of their compensation, as described below under "Employment and Severance Agreements."

Aggregate compensation for each senior executive is designed to align the executive's incentives with the long-term interests of the Company's stockholders. The Company only has eight employees and as a result, our executives are required to simultaneously manage a variety of different responsibilities and projects. The Company predominantly uses cash bonus awards to reward performance, but may use equity awards to create incentives for future performance. Contango does not look to assign a fixed weighting to any individual component of compensation, as it believes that aggregate compensation for each executive must be tailored to meet the competitive characteristics applicable to the executive's personal and professional circumstances, as well as the performance of the Company. Mr. Peak has the discretion to modify the individual components of compensation for each senior executive.

Base Salary. Competitive base salaries are necessary to attract and retain well qualified executives. Base salaries are intended to provide a level of certainty and stability with respect to compensation from year to year. Mr. Peak determines base salaries for the other executive officers by evaluating the responsibilities of the position, the experience of the individual, the performance of the individual, and the competitive marketplace for similar management talent. Mr. Peak's salary review process includes a comparison of total compensation for comparable positions within Contango's Peer Group.

Mr. Peak may make base salary adjustments on a periodic basis to maintain the desired levels of base salaries for all Company employees. Mr. Peak determines annual salary adjustments by evaluating the competitive marketplace and the performance of Contango and the executive officers, as well as any increased responsibilities assumed by the executive officers. Although Mr. Peak does not give specific weight to any particular factor, the most weight is given to the executive's performance (in determining whether to adjust above or below the current salary level), and a significant but lesser weight is given to the comparative data. Salary adjustments generally are determined and implemented on a 12-month cycle, but Mr. Peak may undertake more frequent adjustments as he deems appropriate.

The independent directors of the Board may adjust Mr. Peak's base salary for similar reasons. Mr. Peak's base salary was \$150,000 from the Company's inception in 1999, through the fiscal year 2009. In fiscal year 2010, the Board increased the base salary of Mr. Peak to \$750,000 per year, and increased it again in fiscal year 2011 to \$950,000 per year, to make his salary more competitive with that of the Peer Group, as well as to recognize the increased personal risks in serving as the Chief Executive Officer of a publicly held energy company as a result of the Sarbanes-Oxley Act, the numerous new regulations of the Bureau of Ocean Energy Management ("BOEM") and the Bureau of Safety and Environmental Enforcement ("BSEE") following the Deepwater Horizon incident, and the Dodd-Frank Wall Street Reform and Consumer Protection Act.

For the fiscal year ended 2012, Mr. Peak set the annual base salary of Mr. Castro, Ms. Makalskaya, Mr. Duncan, and Mr. Cambron at \$250,000 each. No other changes to the Named Executive Officer's base salaries have been made since the date of the last Proxy Statement.

Bonuses. All executives, including Mr. Peak, are eligible to receive a cash bonus award tied directly to the Company's achievement of financial, operational, and strategic objectives and the executive's personal achievements. Cash bonuses are designed to reward our executives for maximizing annual operating and financial performance. Bonuses for other senior executives are determined by Mr. Peak on an annual basis. Mr. Peak bases executive bonuses on management's achievement during the fiscal year, and on the corporate performance objectives adopted by the Company. Mr. Peak believes that cash bonuses should be greater than market, when salaries and equity awards are below industry median pay levels.

Mr. Peak believes that the Company's compensation levels, and in particular the size of cash bonuses paid, should take into account the absence of equity bonuses (stock options and restricted stock) as well as the absence of other common executive perquisites such as:

- Matching 401(k) contributions
- Profit-sharing programs
- Change in control payments
- Termination payments
- Continuing medical and outplacement services upon retirement or termination
- Individual life insurance or excess liability policies
- Matching gifts program
- Personal financial and tax advice services
- Security services
- Defined contribution retirement plans

- Company airplane
- Company leased vehicles.

In fiscal year 2012, all of the Company’s executives qualified for a cash bonus award as a result of the Company achieving four of the six corporate performance objectives. For the fiscal year ending June 30, 2012, each of Mr. Castro, Ms. Makalskaya, Mr. Cambron and Mr. Duncan earned a cash bonus of \$350,000, \$350,000, \$350,000 and \$325,000, respectively. See Summary Compensation Table for a detailed discussion of the vesting amounts for these cash bonuses. The vested portions will be paid provided that the executive neither voluntarily terminates his/her employment nor is terminated for cause before the vesting date.

In July 2011, the Equity and CEO Compensation Committee determined that pursuant to the Contango Oil & Gas Company Annual Incentive Plan approved by the Company’s stockholders on November 19, 2009, (the “Incentive Plan”), Mr. Peak would be the only participant in the Incentive Plan for the fiscal year ending June 30, 2012. In addition to the Company’s paramount objectives of striving for an accident-free and environmentally sound workplace environment, the Committee set performance goals using the following criteria: (i) a year over year increase in the stock price of the Company from June 30, 2011 to June 30, 2012, (ii) an increase in net debt-adjusted reserves per fully diluted share, (iii) tax-effected finding and development costs of less than \$3.00/mcfe, and (iv) relative performance of the Company’s stock price against the S&P 600 Small Cap Index. Had the Company met its safety and environmental objects and had the Company achieved all four performance goals, Mr. Peak would have been eligible to earn a maximum cash bonus of \$7.0 million. In August 2012, the Equity and CEO Compensation Committee determined that during the 2012 fiscal year, Mr. Peak had achieved two of the four targets, and that his bonus should be \$1.0 million. In accordance with the goals established for Mr. Peak under the Incentive Plan, the Equity and CEO Compensation Committee recognized Mr. Peak’s guidance and leadership in the achievement of the goals established for Mr. Peak, and awarded Mr. Peak a cash bonus of \$1.0 million which was paid in August 2012 to Mr. Peak.

In August 2012, the Equity and CEO Compensation Committee also determined that pursuant to the Incentive Plan, Mr. Peak would be the only participant in the Incentive Plan for the fiscal year ending June 30, 2013. In addition to the Company’s paramount objectives of striving for an accident-free and environmentally sound workplace environment, the Committee updated the performance goals for the 2013 fiscal year using the following criteria: (i) a year over year increase in the stock price of the Company from June 30, 2012 to June 30, 2013, (ii) an increase in net debt-adjusted reserves per fully diluted share, (iii) tax-effected finding and development costs of less than \$3.00/mcfe, and (iv) relative performance of the Company’s stock price against the S&P 600 Small Cap Index . If all performance goals are achieved, Mr. Peak is eligible to receive a maximum cash bonus award of \$7.0 million for the fiscal year ending June 30, 2013.

Mr. Peak subsequently received a medical leave of absence from the Company, and the Equity and CEO Compensation Committee has the authority under the Incentive Plan to pro rate any award for the fiscal year ending June 30, 2013 based upon the actual number of days Mr. Peak actively serves as an employee of the Company. The Equity and CEO Compensation Committee may exercise its discretion to reduce the maximum cash bonus award but cannot increase it. The following table sets forth the performance goals of Mr. Peak’s 2013 performance bonus and related compensation depending on the level of achievement.

Performance Goal	Level of Achievement	Bonus if Achieved
Increase in the stock price of the Company	0.01% - 4.99%	\$0.5 million
	5.00% - 9.99%	\$1.0 million
	10.00% - 14.99%	\$1.5 million
	15.00% - 19.99%	\$2.0 million
	> 20.00%	\$3.0 million

Performance Goal	Level of Achievement	Bonus if Achieved
Increase in net debt-adjusted reserves per fully diluted share	Any increase	\$1.0 million
Tax-effected finding and development cost	\$2.01 - \$3.00/mcfee < \$2.00/mcfee	\$1.0 million \$2.0 million
Performance against S&P 600 Small Cap Index	50.00% - 74.99% ≥ 75.00%	\$0.5 million \$1.0 million

Mr. Peak has not set individual goals or a maximum target bonus for other senior executives.

Equity Awards. Contango's equity compensation program for senior executive employees includes two forms of long-term incentives: restricted stock and stock options. Award size and frequency is based on each executive's demonstrated level of performance and Company performance over time. Historically, stock option awards were the Company's primary form of equity incentives. The Company selected this form because it tied future performance of the Company to the ultimate value received by the employee. As the Company's stock price continued to grow, however, the Company began including restricted stock to its equity incentive compensation, since fewer shares of stock are required to achieve the same level of employee compensation, resulting in less overall dilution in the number of shares of Common Stock outstanding. Since implementing the Company's share repurchase program in September 2008, the Company has issued fewer stock option and restricted stock awards, preferring instead to reward senior executives with higher cash bonuses resulting in less dilution for the Company's shareholders. During the fiscal year ended June 30, 2012, the Company did not grant stock options or restricted shares of stock to any of its senior executives. Mr. Peak has not received any stock options or restricted stock grants in the last four years.

As of October 12, 2012, the Company had approximately 15.2 million fully diluted shares outstanding, as compared to 16.7 million fully diluted shares at June 30, 2001. In an effort to continue to minimize the overall dilution in the number of shares of Common Stock outstanding, the Company has no plans to grant restricted stock or stock options for the fiscal year ending June 30, 2013.

Equity Award Mechanics. The Company's 1999 Stock Incentive Plan expired in August 2009. On September 15, 2009, the Board adopted the 2009 Equity Compensation Plan (the "2009 Plan"), which was approved by the Company's stockholders on November 19, 2009. Awards typically fall into two categories: annual awards and new hire and promotion awards. New hire and promotion awards are made on the date of hire or promotion, and annual awards are made in June. From time to time the Board of Directors may make grants at other times in connection with employee retention.

All stock option awards have a per share exercise price equal to or greater than the closing price of our Common Stock on the grant date. Stock option awards and restricted stock awards vest upon the passage of time. The Board of Directors has not granted, nor does it intend in the future to grant, equity awards in anticipation of the release of material nonpublic information. Similarly, the Company has not timed, nor does it intend in the future to time, the release of material nonpublic information based upon equity award grant dates.

Deferred Compensation and Retirement Plans. The Company does not have a deferred compensation program, pension benefits, a retirement plan, or any sort of post retirement healthcare plan. Additionally, the Company does not have any potential post-employment payments resulting from termination or a change in control of the Company. However, under the 2009 Plan, the CEO and Equity Compensation Committee retains the discretion to modify certain terms and remove restrictions on equity awards upon a change of control of the Company.

Perquisites and Other Benefits. The Company annually reviews the perquisites that senior executives receive. In general, perquisites to executive officers are limited. All of the Company's employees are eligible to participate in the Company's employee benefit plans, such as medical, dental, group life and disability insurance.

These benefits are provided so as to assure that we are able to maintain a competitive position in terms of attracting and retaining executive officers and other employees. The Company's senior executives receive no benefits that are not otherwise available to all of its employees.

Regulatory Considerations. It is the Company's policy to make reasonable efforts to cause executive compensation to be eligible for deductibility under Section 162(m) of the Code. Under Section 162(m), the federal income tax deductibility of compensation paid to the Company's Chief Executive Officer and to each of its four other most highly compensated executive officers may be limited to the extent that such compensation exceeds \$1.0 million in any one year. Under Section 162(m), the Company may deduct compensation in excess of \$1.0 million if it qualifies as "performance-based compensation", as defined in Section 162(m). While the Company does not design its compensation programs for tax purposes, in general, the Incentive Plan and the 2009 Plan are designed to allow awards and grants to be eligible for deductibility under Section 162(m).

Employment and Severance Agreements. We have no employment or severance agreement with any executive officer.

Compensation Risk Management. The Equity and CEO Compensation Committee considers, in establishing and reviewing our executive compensation program, whether the program encourages unnecessary or excessive risk taking and has concluded that it does not. Several features of our program reflect sound risk management practices. Base salaries are fixed in amount and thus do not encourage risk taking. While our bonuses are tied to management's achievement during the previous fiscal year, and may encourage the taking of short-term risks at the expense of long-term results, executives' annual bonuses are determined using multiple performance criteria based on the executive's individual performance. The Equity and CEO Compensation Committee believes that our bonus awards appropriately balance risk and the desire to focus executives on specific short-term goals important to the Company's success, and that they do not encourage unnecessary or excessive risk taking.

Other Compensation Arrangements. Mr. Juneau was appointed President and Acting Chief Executive Officer of the Company in August 2012. Mr. Juneau is the sole manager of the general partner of JEX, which has entered into a number of agreements and arrangements with the Company. These agreements and arrangements are described under "Certain Relationships and Related Transactions" and have been approved by the Audit Committee of the Company. Mr. Juneau is not directly compensated by the Company for serving as the President and Acting Chief Executive Officer.

Our Audit Committee Charter requires management to inform the Audit Committee of all related person transactions. Examples of the type of transactions the Audit Committee reviews include payments made by the Company directly to a related person (other than in his or her capacity as a director or employee), or to an entity in which the related person serves as an officer, director, employee or owner, and any other transaction where a potential conflict of interest exists.
