

ACQUIRED SALES CORP
Form 10-K
April 01, 2013

UNITED STATES SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-K

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

File Number: 000-51230

ACQUIRED SALES CORP.

(Exact name of registrant as specified in its charter)

Nevada
(State of jurisdiction of Incorporation)

87-0479286
(I.R.S. Employer Identification No.)

31 N. Suffolk Lane, Lake Forest, Illinois
(Address of principal executive offices)

60045
(Zip Code)

(847) 915-2446
(Registrants telephone number, including area code)

Securities registered under Section 12(g) of the Exchange Act:

Common Stock, \$0.001 par value per share

(Title of Class)

Indicate by check mark if the Registrant is a well known seasoned issuer, as defined by Rule 405 of the Securities Act.
Yes ☐ No ☒

Indicate by check mark if the Registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the Registrant has submitted electronically and posted on its corporate Web site, if any, interactive Data File required to be submitted and posted pursuant to Rule 405 of Item 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☐ No ☒ [x]

Indicate by check mark if disclosure of delinquent filers pursuant to Rule 405 of Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of the registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. Yes ☐ No ☒ [x]

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer	<input type="radio"/>	Accelerated filer	<input type="radio"/>
Non-accelerated filer	<input type="radio"/>	Smaller reporting company	<input checked="" type="radio"/> x

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes ☐ No ☒ [x]

The issuer had revenues of \$250,400 for the twelve month period ended December 31, 2012.

Aggregate market value of the voting stock held by non-affiliates computed by reference to the closing price at which the common stock sold on the over-the-counter market on March 26, 2013 was \$7,422,611. The voting stock held by non-affiliates on that date consisted of 1,979,363 shares of common stock.

Number of shares outstanding of each of the issuer's class of common stock as of March 26, 2013:

Common Stock: 2,960,444

Preferred Stock: 0

PART I

ITEM 1. BUSINESS

Description of Business of Acquired Sales

Acquired Sales Corp. (hereinafter sometimes referred to as “Acquired Sales”, “we”, “us”, “our”, etc.) was organized under the laws of the State of Nevada on January 2, 1986. In August 2001, we ceased all of our prior operations and remained dormant from then until May 27, 2004 when we began our current development stage activities. Prior to our acquisition of our now former subsidiary Cogility Software Corporation (“Cogility”) in 2011, we had no material operations for several years.

In addition to our current subsidiary Defense & Security Technology Group, Inc., a Virginia corporation (“DSTG”), we propose to seek, investigate and, if warranted, acquire an interest in one or more businesses. As of the date hereof, we have some business opportunities or ventures under contemplation for acquisition or merger. We propose to investigate potential opportunities, particularly focusing upon existing privately held businesses whose owners are willing to consider merging their businesses into our company in order to establish a public trading market for their common stock, and whose managements are willing to operate the acquired businesses as divisions or subsidiaries of our company. The businesses we acquire may or may not need an injection of cash to facilitate their future operations.

We are primarily interested in manufactured housing communities and other real estate opportunities, but we currently do not intend to restrict our search for investment opportunities to any particular industry or geographical location and may, therefore, engage in essentially any business. Our executive officers will review material furnished to them by the proposed merger or acquisition candidates and will ultimately decide if a merger or acquisition is in our best interests and the interests of our shareholders. We intend to source business opportunities through our officers and directors and their contacts. Those contacts include professional advisors such as attorneys and accountants, securities broker dealers, venture capitalists, members of the financial community, other businesses and others who may present solicited and unsolicited proposals. Management believes that business opportunities and ventures may become available to it due to a number of factors, including, among others: (1) management’s willingness to consider a wide variety of businesses; (2) management’s contacts and acquaintances; and (3) our flexibility with respect to the manner in which we may be able to structure, finance, merge with or acquire any business opportunity.

The analysis of new business opportunities will be undertaken by or under the supervision of our executive officers and directors. Inasmuch as we will have limited funds available to search for business opportunities and ventures, we will not be able to expend significant funds on a complete and exhaustive investigation of such business or opportunity. We will, however, investigate, to the extent believed reasonable by our management, such potential business opportunities or ventures by conducting a so-called “due diligence investigation”.

In a so-called “due diligence investigation”, we intend to obtain and review materials regarding the business opportunity. Typically such materials will include information regarding a target business’ products, services, contracts, management, ownership, and financial information. In addition, we intend to cause our officers or agents to meet personally with management and key personnel of target businesses, ask questions regarding our prospects, tour facilities, and conduct other reasonable investigation of the target business to the extent of our limited financial resources and management and technical expertise.

There is no guarantee that we can obtain or maintain the funding needed for our operations, including the funds necessary to search for and investigate acquisition candidates, and to close an acquisition including paying the substantial costs of legal, accounting and other relevant professional services.

We presently have cash on hand of approximately \$326,000 as of the date of this filing, and our payables have typically been greater than our cash on hand over the past several years. Moreover, in December 2012, we received \$148,275 in working capital loans from several of our affiliates in order to meet expenses. We have inconsistent income generating ability and are therefore regularly reliant on raising money from loans or stock sales. We also have risks, as described herein, relating to assets which we have recently sold. These conditions raise substantial doubt about our ability to continue as a going concern. Nevertheless, our financial statements are presented on the assumption that we will continue as a going concern.

Business Acquisition

The structure of our participation in a business opportunity or venture will be situational. We may structure our acquisitions as an asset purchase, merger, or an acquisition of securities. It is likely that the anticipated value of the business and/or assets that we acquire relative to the current value of our securities will result in the issuance of a relatively large number of shares and, as a result, substantial additional dilution to the percentage ownership of our current stockholders. Moreover, our present management and shareholders may not have control of a majority of our voting shares following a business acquisition or other reorganization transaction. It is possible that the shareholders of the acquired entity will gain control of our voting stock and our directors may resign and new directors may be appointed without any vote by the shareholders. Those directors are entitled to replace our officers without stockholder vote.

Offices

Our corporate headquarters are located at 31 N. Suffolk Lane, Lake Forest, Illinois 60045. We do not have a dedicated corporate office for our parent company; however, in the past our subsidiaries have maintained offices. There are no agreements or understandings with respect to any office facility subsequent to the completion of an acquisition. We may relocate our corporate headquarters in connection with a change in the management of our company, or in connection with the completion of a merger or acquisition.

Employees

Acquired Sales Corp. currently has only one full-time salaried employee, Minh N. Le, our Executive Vice President. However, we intend to begin paying other officer salaries when we are financially able to do so. We expect to address our need for employees in connection with money raising and acquisitions. We expect to continue to use attorneys and accountants as necessary.

Description of Business of DSTG

DSTG collaborates with clients to help its leaders make distinctive decisions leading to substantial improvements in enterprise performance. Founded by Minh Le in 2007, DSTG is currently fulfilling a limited number of military and commercial contracts. In an era of Federal budget tightening, DSTG is focused on helping our armed services and Federal agencies improve military and mission readiness while becoming even more cost-efficient. Mr. Le is DSTG's president and chief executive officer. He is a former Partner and Executive Vice President at Accenture who specialized in merger & acquisition integration, complex enterprise reengineering, operations and supply chain management, and system integration. Prior to joining Accenture, Mr. Le was a finished gasoline and distillate trader and held several managerial and technical positions at ExxonMobil. Mr. Le holds an MBA from Georgetown University, and a B.S. in Computer Science from the University of Maryland, College Park.

Reports to Security Holders

Acquired Sales Corp. is subject to reporting obligations under the Exchange Act. These obligations include an annual report under cover of Form 10-K, with audited financial statements, unaudited quarterly reports, information statements and proxy statements with regard to annual shareholder meetings. The public may read and copy any materials Acquired Sales files with the SEC at the SEC's Public Reference Room at 100 F Street, NE, Washington, DC 20549. The public may obtain information of the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0030. The SEC maintains an Internet site (<http://www.sec.gov>) that contains reports, proxy and information statements and other information regarding issuers that file electronically with the SEC.

ITEM 1A. RISK FACTORS.

Our business is subject to numerous risks and uncertainties. These risks and uncertainties may cause our operations to vary materially from those contemplated by our forward-looking statements. These risk factors include:

RISK FACTORS RELATING TO OUR COMPANY AND OUR STOCK

Our balance sheet is weak and we lack liquidity

Our balance sheet is weak. We have very little cash on hand as of the date of this filing. We can give no assurance that our working capital will be adequate to meet all of our short-term liquidity requirements include payroll. In December 2012 alone, we borrowed \$148,275 from several of our affiliates in order to try to give us breathing room to sell assets and/or raise additional capital. There is no guarantee that we can obtain the funding needed for our operations on acceptable terms, if at all, and neither our directors, officers, or any third party is obligated to provide any financing. A failure to pay our debts and payroll obligations when they become due and payable could materially adversely affect our company and the trading price of our Stock.

We may not be profitable in the future

We have not been profitable during most of our years of operation. We face many risks that could prevent us from achieving profits in future years. We cannot assure you that we will be profitable in the future. In the past 12 months, we acquired DSTG and sold Cogility. DSTG has a limited operational history and was only recently formed. Our acquisition of DSTG involves significant risk, as there can be no assurance that is business will be successful or generate any profit. A failure to achieve profitability could materially adversely affect our company and the trading price of our Stock.

Our Stock lacks a meaningful public market

At present no active market exists for our Stock and there is no assurance that a regular trading market will develop and if developed, that it will be sustained. An owner of our Stock may, therefore, be unable to sell our Stock should he or she desire to do so. Or, if an owner of our Stock decides to sell our Stock, such sales could drive the price of our Stock significantly lower. Furthermore, it is unlikely that a lending institution will accept our Stock as pledged collateral for loans. This lack of liquidity could materially adversely affect our company and the trading price of our Stock.

Our Stock may never be listed on a national exchange

Our Stock may never meet the listing requirements of a national exchange. You should not assume that an effort to list our Stock would be successful, or if successful, that such listing requirements will be maintained, including but not limited to requirements associated with maintenance of a minimum net worth, minimum stock price, and ability to establish a sufficient number of market makers.

Our Stock may be considered a “penny stock” and may be difficult to trade

The U.S. Securities and Exchange Commission (“SEC”) has adopted regulations which generally define “penny stock” to be an equity security that has a market or exercise price of less than \$5.00 per share, subject to specific exemptions. The market price of our Stock may be less than \$5.00 per share and, therefore, may be designated as a “penny stock” according to SEC rules. This designation requires any broker or dealer selling these securities to disclose certain information concerning the transaction, to obtain a written agreement from the purchaser, and to determine that the purchaser is reasonably suitable to purchase the securities. These rules may restrict the ability of brokers or dealers to sell our Stock and may adversely affect the ability of investors to sell our Stock, and may materially adversely affect our business and the trading price of our Stock.

Our Stock lacks institutional or analyst support

Our company lacks institutional support. In addition, investment banks with research capabilities do not currently follow our Stock. This lack of institutional or analyst support lessens the trading volume and general market interest in our Stock, and may adversely affect an investor's ability to trade a significant amount of our Stock. This lack of institutional or analyst support could materially adversely affect our company and the trading price of our Stock.

The public float of our Stock is small

The public float of our Stock is small, which may limit the ability of some institutions to invest in our Stock. This lack of liquidity could materially adversely affect our company and the trading price of our Stock.

The trading price of our Stock may be volatile and could drop quickly and unexpectedly

The stocks of micro-cap and small-cap companies, especially technology companies, have experienced substantial volatility in the past, often based on factors unrelated to the financial performance or prospects of the companies involved. These factors include macro-economic developments in North America and globally, and market perceptions of the attractiveness of particular industries. This volatility could materially adversely affect our company by making it more difficult to raise capital or complete acquisitions. In addition, securities class-action litigation often has been brought against companies following periods of volatility in the market price of their securities. Our company may in the future be the target of similar litigation. Securities litigation could result in substantial costs and damages and divert our management's attention and resources away from our business. For these reasons and others, quick and unexpected drops in the trading price of our Stock are likely from time to time. Volatility in our Stock price could materially adversely affect our company and the trading price of our Stock.

It may be difficult to predict our financial performance because our quarterly operating results may fluctuate

Our revenue and operating results may vary significantly from quarter to quarter due to a variety of factors, some of which are beyond our control. The factors that may affect our quarterly operating results include, but are not limited to, the following: (1) fluctuations in customer demand for our products and services; (2) the timing and nature of future sales transactions and the accounting treatment with respect to customer contracts; (3) the timing and nature of future capital raises and acquisitions; (4) the introduction of new products or services and the market responses to those introductions; (5) customer budgetary pressures and the timing of availability of funding for purchases, or delays in processing or making payments for products or services that have been delivered; (6) changes in pricing policies or service offerings; (7) changes in the level of administrative costs, sales, marketing and other operating expenses to support future growth; (8) fluctuations in the cost of marketing and advertising; (9) competitive factors; (10) fluctuations in our Stock price which may impact the amount of stock-based compensation expense we are required to record; (11) possible impairments of the recorded amounts of goodwill, intangible assets, or other long-lived assets; (12) the timing and amount of expenses associated with future litigation or restructuring activities; (13) new accounting pronouncements, or new interpretations of existing accounting pronouncements, that impact the manner in which we account for, measure or disclose our results of operations, financial position or other financial measures; (14) deterioration in the credit quality of our accounts receivable; (15) disputes or disagreements with our customers; (16) changes in our customers' strategies, budgets or priorities for developing, acquiring, deploying, or evaluating software or other technology; (17) new software or other technologies; (18) changes in laws, rules and regulations; (19) changes in our effective income tax rate; (20) costs related to the development or acquisition of software, other technology, or businesses; (21) increases in the costs of software licenses or other intellectual property-related costs; and (22) general economic conditions.

Consequently, period-to-period comparisons of our results of operations will not necessarily be meaningful, and you should not rely on period-to-period comparisons of our results of operations as an indication of our future performance. Our results of operations may fall below the expectations of acquisition candidates, of research analysts (if any), of investors, or of our own forecasts in some future periods, which may have a material adverse effect on our company and the trading price of our Stock.

We are adversely affected by the difficult economy and by turmoil in the financial markets

Our DSTG business and its clients' businesses are materially adversely affected by periods of significant economic slowdown or recession, fears of inflation or deflation, rising interest rates, declining demand for our products or our clients' products, or a public perception that any of these events are occurring or may occur, which could adversely affect our revenues, results of operations, and cash flow. Reductions and sequestrations of federal spending also could adversely affect our revenues, results of operations and cash flows. In addition, as to our acquisition strategies, the capital and credit markets have been experiencing, and continue to experience, volatility and disruption. Current national and global financial and business conditions have been very difficult, and numerous financial institutions and businesses either have gone into bankruptcy or have had to be rescued by governmental authorities. Access to financing has been negatively impacted by both sub-prime mortgages and the liquidity crisis affecting the asset-backed commercial paper market. Credit remains tight. In many cases, the markets have exerted downward pressure on stock prices and credit capacity for certain issuers. These factors could materially adversely affect our company and the trading price of our Stock.

We may not be able to raise needed capital

We need to raise substantial amounts of additional capital, both for our existing operations, for organic growth and for acquisitions. We believe that we will collect proceeds from the sale of our Cogility subsidiary. However, there are risks associated with collection of those proceeds as described below. In addition, our aggregate future capital requirements are uncertain. The amount of capital that we will need in the future will depend on many factors that we cannot predict with any certainty, including: the market acceptance of our products and services; the levels of promotion and advertising that will be required to launch our new products and services and achieve and maintain a competitive position in the marketplace; our business, product, capital expenditures and technology plans, and product and technology roadmaps; technological advances; our competitors' responses to our products and services; our pursuit of mergers and acquisitions; and our relationships with our customers.

We cannot assure you that we will be able to raise the needed capital on commercially acceptable terms, or at all. Delay, disruption, or failure to obtain sufficient financing may result in the delay or failure of our business plans. Our inability to raise sufficient capital on commercially acceptable terms, or at all, could have a material adverse effect on our company and the trading price of our Stock.

Our Stock may be subject to significant dilution

Our capital raising may include the sale of significant numbers of shares of our Stock or other securities convertible into our Stock. We also may issue significant numbers of shares of our Stock, or options, warrants, or other securities convertible into shares of our Stock, as a portion of the consideration for acquisitions. Such transactions may significantly increase the number of outstanding shares of our Stock, and may be highly dilutive to our existing Stockholders. In addition, the securities that we issue may have rights, preferences or privileges senior to those of the holders of our outstanding Stock. This dilution could have a material adverse effect on our company and the trading price of our Stock. In addition, we have options and warrants outstanding to purchase several million shares of our Stock. If all of these millions of options and warrants were to be exercised, the number of outstanding shares of our Stock would increase significantly. Moreover, additional shares may be issued in connection with future acquisition and business operations. This dilution could have a material adverse effect on our company and the trading price of our Stock.

Raising capital by selling our Stock is difficult to accomplish

Selling equity is difficult to accomplish in the current market. This difficulty may make future acquisitions either unlikely, or too difficult and expensive. This could materially adversely affect our company and the trading price of our Stock.

Raising capital by selling our Stock could be expensive

If we were to raise capital by selling common stock or securities convertible into common stock, it could be expensive. We may be required to pay fees equal to 7% or more of the gross sales proceeds raised, in addition to legal, accounting and other fees and expenses. In addition, when it becomes known within the investment community that an issuer is seeking to raise equity capital, it is common for the common stock of that issuer to be sold off in the market, lowering the trading price of the issuer's common stock in advance of the pricing of the issue. This could make our raising capital by selling equity securities significantly more expensive and materially adversely affect the trading price of our Stock.

Debt financing is difficult to obtain

Debt financing is difficult to obtain in the current credit markets. This difficulty may make future acquisitions either unlikely, or too difficult and expensive. This could materially adversely affect our company and the trading price of our Stock.

Raising capital by borrowing could be risky

If we were to raise capital by borrowing to fund our operations or acquisitions, it could be risky. Borrowing typically results in less dilution than in connection with equity financings, but it also would increase our risk, in that cash is required to service the debt, ongoing covenants are typically employed which can restrict the way in which we operate our business, and if the debt comes due either upon maturity or an event of default, we may lack the resources at that time to either pay off or refinance the debt, or if we are able to refinance, the refinancing may be on terms that are less favorable than those originally in place, and may require additional equity or quasi equity accommodations. These risks could materially adversely affect our company and the trading price of our Stock.

Our financing decisions may be made without Stockholder approval

Our financing decisions and related decisions regarding levels of debt, capitalization, distributions, acquisitions and other key operating parameters, are determined by our board of directors in its discretion, in many cases without any notice to or vote by our Stockholders. This could materially adversely affect our company and the trading price of our Stock.

We lack investor relations, public relations and advertising resources

We lack the resources to properly support investor relations, public relations, and advertising efforts. This puts us at a disadvantage with potential acquisition candidates, investors, research analysts, customers, and job applicants. These disadvantages could materially adversely affect our company and the trading price of our Stock.

Sales of our Stock could cause the trading price of our Stock to fall

Sellers of our Stock might include our existing stockholders who have held our Stock for years, former stockholders of Cogility who now own our Stock, persons and entities who have acquired our stock as consideration for services they have provided to our company, or our directors, officers or employees who might exercise stock options and simultaneously sell our Stock. Since the trading volume of our Stock is very low and the amount of our Stock in the public float is very small, any sales or attempts to sell our Stock, or the perception that sales or attempts to sell our Stock could occur, could adversely affect the trading price of our Stock.

An increase in interest rates may have an adverse effect on the trading price of our Stock

An increase in market interest rates may tend to make our common stock less attractive relative to other investments, which could adversely affect the trading price of our common stock.

Increases in taxes and regulatory compliance costs may reduce our revenue

Costs resulting from changes in or new income taxes, value added taxes, service taxes, or other taxes, may not be able to be passed along to clients and consequently may adversely affect our margins. This could materially adversely affect our company and the trading price of our Stock.

We are adversely affected by regulatory uncertainties

Regulatory uncertainties regarding potential adverse changes in federal and state laws and governmental regulations materially adversely affect our business, our clients' businesses, and the trading price of our Stock.

A small number of stockholders have significant influence over us

A small number of our stockholders and members of our board of directors and management acting together would be able to exert significant influence over us through their ability to influence the election of directors and all other matters that require action by our Stockholders. The voting power of these individuals could have the effect of preventing or delaying a change in control of our company which they oppose even if our other stockholders believe it is in their best interests. Gerard M. Jacobs and Matthew Ghourdjian collectively beneficially own a substantial majority of our shares of common stock. They have agreed to vote all of the shares of our Stock that are legally or beneficially owned by them or their affiliates in favor of the election of slates of directors which have been mutually selected by them, and as to certain other matters. In addition, our shareholders have authorized Gerard M. Jacobs to seek similar shareholders agreements and/or proxies from other parties, including potential future capital sources and the owners of potential future acquisition candidates. Accordingly, Gerard M. Jacobs and Matthew Ghourdjian have substantial influence over our policies and management. We may take actions supported by Gerard M. Jacobs and Matthew Ghourdjian that may not be viewed by some stockholders to be in our best interest, or Gerard M. Jacobs and Matthew Ghourdjian could prevent or delay a change in our control which they oppose even if our other stockholders believe it is in their best interests. This could materially adversely affect our company and the trading price of our Stock.

State law and our articles of incorporation and bylaws help preserve insiders' control over us

Provisions of Nevada state law, our articles of incorporation and by-laws may discourage, delay or prevent a change in our management team that stockholders may consider favorable. These provisions may include: (1) authorizing the issuance of "blank check" preferred stock without any need for action by stockholders; (2) permitting stockholder action by written consent; and (3) establishing advance notice requirements for nominations for election to the board of directors, or for proposing matters that can be acted on by stockholders at stockholder meetings. These provisions, if included in our articles of incorporation or by-laws, could allow our board of directors to affect an investor's rights as a stockholder since our board of directors could make it more difficult for preferred stockholders or common stockholders to replace members of the board of directors. Because the board of directors is responsible for appointing the members of the management team, these provisions could in turn affect any attempt to replace the current or future management team. These factors could adversely affect our company or the trading price of our Stock.

Retaining and attracting directors and officers may be expensive

We cannot make any assurances regarding the future roles of our current directors and officers. Some of our current officers and directors are and will in the future be involved in other businesses, and are not required to, and do not, commit their full time to our affairs, thereby causing conflicts of interest in allocating their time between our operations and the operations of other businesses. We have no employment agreements with any of our existing directors or officers, except Minh N. Le, DSTG's CEO. Some or all of our current directors and officers may resign upon our raising money, upon our consummation of a business combination, or otherwise. Attracting and retaining our directors and officers may be expensive, and may require that we enter into long term employment agreements, issue stock options, and otherwise incentivize our directors and officers. The costs of these incentives could materially adversely affect our company and the trading price of our Stock.

We indemnify our directors and officers, and certain other parties

Our bylaws specifically limit the liability of our officers and directors to the fullest extent permitted by law. As a result, aggrieved parties may have a more limited right to action than they would have had if such provisions were not present. The Bylaws also provide for indemnification of our officers and directors for any losses or liabilities they may incur as a result of the manner in which they operated our business or conducted internal affairs, provided that in connection with these activities they acted in good faith and in a manner which they reasonably believed to be in, or not opposed to, our best interest. In the ordinary course of business, we also may provide indemnifications of varying scope and terms to customers, vendors, lessors, business partners, and other parties with respect to certain matters, including, but not limited to, losses arising out of our breach of such agreements, services to be provided by us, or from intellectual property infringement claims made by third-parties. We may also agree to indemnify former officers, directors and employees of acquired companies in connection with the acquisition of such companies. Such indemnification agreements may not be subject to maximum loss clauses. It is not possible to determine the maximum potential amount of exposure in regard to these obligations to indemnify, due to the limited history of prior indemnification claims and the unique facts and circumstances involved in each particular situation. Use of our capital or assets for such indemnification would reduce amounts available for the operations or for distribution to our investors, which could materially adversely affect our company and the trading price of our Stock.

We do not expect to pay dividends

For the foreseeable future, it is anticipated that earnings, if any, which may be generated from our operations will be used to finance our growth and that dividends may not be paid to the holders of our Stock, which may have a material adverse effect on our company and the trading price of our Stock.

Our cost of being a publicly traded company will increase significantly as our business operations expand

During the time that we were a shell corporation, our costs of being a publicly traded company was relatively limited. However, after taking ownership of Cogility and DSTG, our management expenses, legal and accounting fees, and other costs associated with being a publicly traded company, increased significantly. We expect these additional costs to continue, especially if we acquire additional businesses. We will eventually need to hire a qualified full-time Chief Financial Officer, as well as additional employees and/or additional consultants and professionals, in order to have appropriate internal financial controls and accurate financial reporting, and otherwise to comply with the requirements of the Sarbanes-Oxley Act. For instance, our audit costs increased to \$139,820 in 2012 from \$126,914 in 2011. The fees were \$88,882 and \$20,439 in 2010 and 2009, respectively. While we cannot state with certainty what all of these costs will be, we believe that our management expenses, legal and accounting fees, and other costs associated with being a publicly traded company, will increase by at least \$250,000 per year.

RISK FACTOR RELATING TO DISPOSITION OF THE COGILITY SUBSIDIARY

We may suffer significant liability in connection with indemnification provisions of the Stock Purchase Agreement dated January 2013 wherein we sold our Cogility subsidiary.

The Stock Purchase Agreement dated January 12, 2013 governing our February 2013 sale of subsidiary Cogility to Drumright Group, L.L.C. ("Drumright") required that we indemnify Drumright for losses caused by breaches of our representations and warranties in the Stock Purchase Agreement. In March, 2013 Drumright notified us of the existence of a second amendment to a license agreement between Cogility and one of its customers that was effective April 2007. Acquired Sales' management was not aware of the existence of the second amendment until Drumright's notification in March 2013. In the event that Drumright determines that such second amendment to the license agreement will result in losses to Drumright, Drumright could make a claim against us for indemnification, or otherwise bring a lawsuit. Any such action by Drumright could result in damages fatal to our ability to continue as a going concern and cause a total loss of the value of our Stock.

RISK FACTORS RELATING TO DSTG'S BUSINESS

DSTG has no long-term contracts and its business future is uncertain

DSTG's is presently working under two contracts. However, those contracts are expected to be completed in 2013. DSTG business pipeline for 2013 and beyond is uncertain. As a result, it is unclear whether DSTG's business is viable long-term. If DSTG's business were curbed, our company and our Stock price would be negatively impacted.

DSTG depends on key personnel, the loss of whom could harm our business

DSTG's future success is substantially dependent on the continued service of our key personnel, including particularly Minh N. Le. We do not have key-person insurance on Mr. Le. We may not be able to retain and motivate Mr. Le who could easily obtain other jobs if he becomes dissatisfied with our company. The loss of the services of Mr. Le, or any of our key personnel could materially adversely affect our company and the trading price of our Stock.

DSTG may not be able to attract highly skilled new personnel

DSTG's future success also depends on our continuing ability to attract, retain and motivate highly skilled employees. Highly qualified consultants with the intelligence, creativity and experience we need are not easy to find, hire and assimilate into our company. We have experienced difficulty from time to time in attracting or retaining the personnel necessary to support the growth of our business, and may experience similar difficulties in the future. The failure to attract highly skilled new personnel could adversely affect our ability to conduct our business, and our Stock price could be materially adversely affected.

RISK FACTORS RELATING TO FUTURE ACQUISITIONS

We may not be able to identify, negotiate, finance or close future acquisitions

A significant component of our growth strategy focuses on acquiring additional companies or assets. We may not, however, be able to identify, audit, or acquire companies or assets on acceptable terms if at all. Additionally, we may need to finance all or a portion of the purchase price for an acquisition by incurring indebtedness. There can be no assurance that we will be able to obtain financing on terms that are favorable, if at all, which will limit our ability to acquire additional companies or assets in the future. Failure to acquire additional companies or assets on acceptable terms, if at all, would have a material adverse effect on our ability to increase assets, revenues and net income and on the trading price of our common Stock.

We may acquire businesses without any apparent synergies with DSTG

In an effort to diversify our sources of revenue and profits, we may decide to acquire businesses without any apparent synergies with DSTG. For example, we believe that the acquisition of manufactured housing communities across the U.S. may be an important way for us to enhance our Stockholder value. Notwithstanding the critical importance of diversification, some members of the investment community and research analysts would prefer that micro-cap or small-cap companies restrict the scope of their activity to a single line of business, and may not be willing to make an investment in, or recommend an investment in, a micro-cap or small-cap company that undertakes multiple lines of business. This situation could materially adversely impact our company and the trading price of our Stock.

We may not be able to properly manage multiple businesses

We may not be able to properly manage multiple businesses. Managing multiple businesses would be more complicated than managing a single line of business, and would require that we hire and manage executives with experience and expertise in different fields. We can provide no assurance that we will be able to do so successfully. A failure to properly manage multiple businesses could materially adversely affect our company and the trading price of our Stock.

We may not be able to successfully integrate new acquisitions

Even if we are able to acquire additional companies or assets, we may not be able to successfully integrate those companies or assets. For example, we may need to integrate widely dispersed operations with different corporate cultures, operating margins, competitive environments, computer systems, compensation schemes, business plans and growth potential requiring significant management time and attention. In addition, the successful integration of any companies we acquire will depend in large part on the retention of personnel critical to our combined business operations due to, for example, unique technical skills or management expertise. We may be unable to retain existing management, finance, engineering, sales, customer support, and operations personnel that are critical to the success of the integrated company, resulting in disruption of operations, loss of key information, expertise or know-how, unanticipated additional recruitment and training costs, and otherwise diminishing anticipated benefits of these acquisitions, including loss of revenue and profitability. Failure to successfully integrate acquired businesses could have a material adverse effect on our company and the trading price of our Stock.

Our acquisitions of businesses may be extremely risky and we could lose all of our investments

We may invest in software companies, other technology businesses, mortgage lending companies, unsecured lending companies, defense industry companies, manufactured housing communities, oil & gas services and production companies, casino businesses and medical supply and diagnostic companies, or other risky industries. An investment in these companies may be extremely risky because, among other things, the companies we are likely to focus on: (1) typically have limited operating histories, narrower product lines and smaller market shares than larger businesses, which tend to render them more vulnerable to competitors' actions and market conditions, as well as general economic downturns; (2) tend to be privately-owned and generally have little publicly available information and, as a result, we may not learn all of the material information we need to know regarding these businesses; (3) are more likely to depend on the management talents and efforts of a small group of people; and, as a result, the death, disability, resignation or termination of one or more of these people could have an adverse impact on the operations of any business that we may acquire; (4) may have less predictable operating results; (5) may from time to time be parties to litigation; (6) may be engaged in rapidly changing businesses with products subject to a substantial risk of obsolescence; and (7) may require substantial additional capital to support their operations, finance expansion or maintain their competitive position. Our failure to make acquisitions efficiently and profitably could have a material adverse effect on our business, results of operations, financial condition and the trading price of our Stock.

Future acquisitions may fail to perform as expected

Future acquisitions may fail to perform as expected. We may overestimate cash flow, underestimate costs, or fail to understand risks. This could materially adversely affect our company and the trading price of our Stock.

Competition may result in overpaying for acquisitions

Other investors with significant capital may compete with us for attractive investment opportunities. These competitors may include publicly traded companies, private equity firms, privately held buyers, individual investors, and other types of investors. Such competition may increase the price of acquisitions, or otherwise adversely affect the terms and conditions of acquisitions. This could materially adversely affect our company and the trading price of our Stock.

We may have insufficient resources to cover our operating expenses and the expenses of raising money and consummating acquisitions

We have limited cash to cover our operating expenses and to cover the expenses incurred in connection with money raising and a business combination. It is possible that we could incur substantial costs in connection with money raising or a business combination. If we do not have sufficient proceeds available to cover our expenses, we may be forced to obtain additional financing, either from our management or third parties. We may not be able to obtain additional financing on acceptable terms, if at all, and neither our management nor any third party is obligated to provide any financing. This could have a negative impact on our company and our Stock price.

The nature of our proposed future operations is speculative and will depend to a great extent on the businesses which we acquire

While management typically intends to seek a merger or acquisition of privately held entities with established operating histories, there can be no assurance that we will be successful in locating an acquisition candidate meeting such criteria. In the event we complete a merger or acquisition transaction, of which there can be no assurance, our success if any will be dependent upon the operations, financial condition and management of the acquired company, and upon numerous other factors beyond our control. If the operations, financial condition or management of the acquired company were to be disrupted or otherwise negatively impacted following an acquisition, our company and our Stock price would be negatively impacted.

We may make actions that will not require our stockholders' approval

The terms and conditions of any acquisition could require us to take actions that would not require your approval. In order to acquire certain companies or assets, we may issue additional shares of common or preferred stock, borrow money or issue debt instruments including debt convertible into capital stock. Not all of these actions would require your approval even if these actions dilute your economic or voting interest as a shareholder.

Our investigation of potential acquisitions will be limited

Our analysis of new business opportunities will be undertaken by or under the supervision of our executive officers and directors. Inasmuch as we will have limited funds available to search for business opportunities and ventures, we will not be able to expend significant funds on a complete and exhaustive investigation of such business or opportunity. We will, however, investigate, to the extent believed reasonable by our management, such potential business opportunities or ventures by conducting a so-called "due diligence investigation". In a so-called "due diligence investigation", we intend to obtain and review materials regarding the business opportunity. Typically such materials will include information regarding a target business' products, services, contracts, management, ownership, and financial information. In addition, we intend to cause our officers or agents to meet personally with management and key personnel of target businesses, ask questions regarding the company's prospects, tour facilities, and conduct other reasonable investigation of the target business to the extent of our limited financial resources and management and technical expertise. Any failure of our typical "due diligence investigation" to uncover issues and problems relating to potential acquisition candidates could materially adversely affect our company and the trading price of our Stock.

We will have only a limited ability to evaluate the directors and management of potential acquisitions

We may make a determination that our current directors and officers should not remain, or should reduce their roles, following money raising or a business combination, based on an assessment of the experience and skill sets of new directors and officers and the management of target businesses. We cannot assure you that our assessment of these individuals will prove to be correct. This could have a negative impact on our company and our Stock price.

We will be dependent on outside advisors to assist us

In order to supplement the business experience of management, we may employ accountants, technical experts, appraisers, attorneys or other consultants or advisors. The selection of any such advisors will be made by management and without any control from shareholders. Additionally, it is anticipated that such persons may be engaged by us on an independent basis without a continuing fiduciary or other obligation to us.

We may be unable to protect or enforce the intellectual property rights of any target business that we acquire or the target business may become subject to claims of intellectual property infringement

After completing a business combination, the procurement and protection of trademarks, copyrights, patents, domain names, and trade secrets may be critical to our success. We will likely rely on a combination of copyright, trademark, trade secret laws and contractual restrictions to protect any proprietary technology and rights that we may acquire. Despite our efforts to protect those proprietary technology and rights, we may not be able to prevent misappropriation of those proprietary rights or deter independent development of technologies that compete with the business we acquire. Litigation may be necessary in the future to enforce our intellectual property rights, to protect our trade secrets, or to determine the validity and scope of the proprietary rights of others. It is also possible that third parties may claim we have infringed their patent, trademark, copyright or other proprietary rights. Claims or litigation, with or without merit, could result in substantial costs and diversions of resources, either of which could have an adverse effect on our competitive position and business. Further, depending on the target business or businesses that we acquire, it is likely that we will have to protect trademarks, patents, and domain names in an increasing number of jurisdictions, a process that is expensive and may not be successful in every location. These factors could negatively impact our company and the trading price of our Stock.

Integrating acquired businesses may divert our management's attention away from our day-to-day operations and harm our business

Acquisitions generally involve significant risks, including the risk of overvaluation of potential acquisitions and risks in regard to the assimilation of personnel, operations, products, services, technologies, and corporate culture of acquired companies. Dealing with these risks may place a significant burden on our management and other internal resources. This could materially adversely affect our business and the trading price of our Stock.

We may fail to manage our growth effectively

Future growth through acquisitions and organic expansion would place a significant strain on our managerial, operational, technical, training, systems and financial resources. We can give you no assurance that we will be able to manage our expanding operations properly or cost effectively. A failure to properly and cost-effectively manage our expansion could materially adversely affect our company and the trading price of our Stock.

The management of companies we acquire may lose their enthusiasm or entrepreneurship after the sale of their businesses

We can give no assurance that the management of future companies we acquire will have the same level of enthusiasm for the operation of their businesses following their acquisition by us, or if they cease performing services for the acquired businesses that we will be able to install replacement management with the same skill sets and determination. There also is always a risk that management will attempt to reenter the market and possibly seek to recruit some of the former employees of the business, who may continue to be key employees of ours. This could materially adversely affect our business and the trading price of our Stock.

If we are deemed to be an investment company, we may be required to institute burdensome compliance requirements and our activities may be restricted, which may make it difficult for us to complete a business combination

We believe we will not be subject to regulation under the Investment Company Act insofar as we will not be engaged in the business of investing or trading in securities. However, in the event that we engage in business combinations which result in us holding passive investment interests in a number of entities, we may become subject to regulation under the Investment Company Act. In such event, we may be required to register as an investment company and may incur significant registration and compliance costs. We have obtained no formal determination from the government as to our status under the Investment Company Act, and consequently, any violation of such Act might subject us to material adverse consequences.

RISK FACTORS RELATING TO ACCOUNTING AND INTERNAL FINANCIAL CONTROLS

We do not currently employ a qualified full time Chief Financial Officer

We do not currently employ a qualified full time Chief Financial Officer. There is no assurance that we will be able to promptly find and hire such a qualified full time Chief Financial Officer, nor at a compensation level acceptable to us. This could materially adversely affect our company and the trading price of our Stock.

We may be required to record a significant charge to earnings if our goodwill or amortizable intangible assets become impaired

We are required under accounting principles generally accepted in the United States to review our amortizable intangible assets for impairment whenever events and circumstances indicate that the carrying value of such assets may not be recoverable. We are also required to review goodwill for impairment on an annual basis, or between annual tests whenever events and circumstances indicate that the carrying value of goodwill may not be recoverable. Events and circumstances considered in determining whether the carrying value of amortizable intangible assets and goodwill may not be recoverable include, but are not limited to: significant changes in performance relative to expected operating results; significant changes in the use of the assets; significant negative industry or economic trends; a significant decline in the trading price of our Stock for a sustained period of time; and changes in our business strategy. We may be required to record a significant charge to earnings in a period in which any impairment of our goodwill or amortizable intangible assets is determined. Such a charge could materially adversely affect our company and the trading price of our Stock.

We may incur liabilities to tax authorities in excess of amounts that have been accrued

The preparation of our consolidated financial statements requires estimates of the amount of income tax that will become payable in each of the jurisdictions in which we operate. We may be challenged by the taxing authorities in these jurisdictions and, in the event that we are not able to successfully defend our position, we may incur significant additional income tax liabilities which may have an adverse impact on our results of operations and financial condition. Such tax liabilities could materially adversely affect our company and the trading price of our Stock.

New accounting standards could adversely impact us

From time to time, the Financial Accounting Standards Board, the SEC and other regulatory bodies may issue new and revised standards, interpretations and other guidance that change Generally Accepted Accounting Principles in the United States (GAAP). The effects of such changes may include prescribing an accounting method where none had been previously specified, prescribing a single acceptable method of accounting from among several acceptable methods that currently exist, or revoking the acceptability of a current method and replacing it with an entirely different method, among others. Such changes to GAAP could adversely impact our results of operations, financial condition and other financial measures. Such changes could materially adversely affect our company and the trading price of our Stock.

If we fail to maintain an effective system of internal financial controls, we may not be able to accurately report our financial results or prevent fraud

Effective internal controls are necessary for us to provide reliable financial reports and to effectively prevent fraud. Any inability to provide reliable financial reports or to prevent fraud could harm our business. The Sarbanes-Oxley Act of 2002 requires management to evaluate and assess the effectiveness of our internal controls over financial reporting. In order to continue to comply with the requirements of the Sarbanes-Oxley Act, we are required to continuously evaluate and, where appropriate, enhance our policies, procedures and internal controls. Now that we have acquired DSTG, we will be subject together to these internal control procedures and must include an assessment of DSTG's internal controls no later than one year from their respective acquisition dates. If we fail to maintain the adequacy of our internal controls, we could be subject to regulatory scrutiny and investors could lose confidence in the accuracy and completeness of our financial reports. We cannot assure you that in the future we will be able to fully comply with the requirements of the Sarbanes-Oxley Act or that management will conclude that our internal controls over financial reporting are effective. A failure to fully comply with the requirements of the Sarbanes-Oxley Act could materially adversely affect our business and the trading price of our Stock.

Decreased effectiveness of stock options could adversely affect our ability to attract and retain employees

We expect to use stock options as a key component of our employee compensation program in order to align employees' interests with the interests of our Stockholders, encourage employee retention, and provide competitive compensation packages. Volatility or lack of positive performance in our Stock price may adversely affect our ability to retain key employees or to attract additional highly-qualified personnel. At any given time, a portion of our outstanding employee stock options may have exercise prices in excess of our then-current stock price, or may have expired worthless. To the extent these circumstances occur, our ability to retain employees may be adversely affected. As a result, we may have to incur increased compensation costs, change our equity compensation strategy, or find it difficult to attract, retain and motivate employees. Any of these situations could materially adversely affect our company and the trading price of our Stock.

ITEM 2. DESCRIPTION OF PROPERTY

Acquired Sales is currently provided rent-free office space by our Chief Executive Officer at 31 N. Suffolk Lane, Lake Forest, Illinois 60045.

Acquired Sales owns no property.

ITEM 3. LEGAL PROCEEDINGS

From time to time, we may become involved in various lawsuits and legal proceedings which arise in the ordinary course of business. However, litigation is subject to inherent uncertainties, and an adverse result in these or other matters may arise from time to time that may harm our business. We are currently not aware of any such legal proceedings or claims that we believe will have a material adverse effect on our business, financial condition or operating results. However, we are aware of two claims relating to Cogility, our former subsidiary, which could have a negative impact on our financial condition due to the fact that we agreed to indemnify Drumright, the entity that purchased Cogility, for certain potential claims against Cogility. These two potential claims are discussed below:

One of Cogility's employees claims that he has filed a wage claim against Cogility for \$302,000 with the California Labor Board. Cogility intends to vigorously defend against this claim.

In connection with our sale of subsidiary Cogility to Drumright in February 2013, we agreed to indemnify Drumright for losses caused by breaches of our representations and warranties set out in the Stock Purchase Agreement. In March, 2013 Drumright notified us of the existence of a second amendment to a license agreement between Cogility and one of its customers that was effective April 2007. Despite the fact that Acquired Sales' management was not aware of the existence of the second amendment until Drumright's notification in March 2013, in the event that Drumright determines that the second amendment to the license agreement will result in losses to Drumright, Drumright could make a claim for indemnification against us or could otherwise file a lawsuit against us.. Please See section entitled "Risk Factor Relating To Disposition Of The Cogility Subsidiary" for further discussion of this potential claim.

ITEM 4. (THIS ITEM HAS BEEN REMOVED AND RESERVED BY THE SEC)

PART II

ITEM 5. MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

Market Information

Our common stock has been quoted under the symbol AQSP on the OTC market. Our shares generally do not trade and the trading price of our shares is not necessarily indicative of the existence of a trading market for our securities or indicative of our value. The following table sets forth, for the periods indicated, the high and low closing prices of our common stock. These prices reflect inter-dealer prices, without retail mark-up, mark-down or commission and may not represent actual transactions.

	Closing Bid Prices(1)	
	High	Low
Year Ended December 31, 2012		
4th Quarter	\$3.75	\$3.26
3rd Quarter	\$3.75	\$2.00
2nd Quarter	\$2.00	\$2.00
1st Quarter	\$2.00	\$2.00
Year Ended December 31, 2011		
4th Quarter	\$2.00	\$2.00
3rd Quarter	\$2.00	\$2.00
2nd Quarter	\$2.00	\$2.00
1st Quarter	\$2.00	\$2.00
Year Ended December 31, 2010		
4th Quarter	\$2.00	\$2.00
3rd Quarter	\$2.00	\$2.00
2nd Quarter	\$2.00	\$2.00
1st Quarter	\$2.00	\$2.00

(1) The above table sets forth the range of high and low closing bid prices per share of our common stock as reported by Google Finance for the periods indicated.

Approximate Number of Holders of Our Common Stock

As of March 26, 2013, a total of 2,960,444 shares of Acquired Sales' common stock were outstanding and there were 253 holders of record of Acquired Sales' common stock. In addition to our outstanding common stock, we have issued options and warrants to purchase 3,111,774 shares of common stock at \$0.001 to \$8.00 per share. For a detailed description of this issuance, please refer to "Item 9B Other Information" herein. None of these options or warrants has been exercised into shares of common stock, but may be exercised at any time in the sole discretion of the holder.

Dividends

We have never declared or paid a cash dividend and do not foresee paying one in the near future. Any future decisions regarding dividends will be made by our board of directors. We currently intend to retain and use any future earnings for the development and expansion of our business and do not anticipate paying any cash dividends in the foreseeable future. Our board of directors has complete discretion on whether to pay dividends, subject to the approval of our stockholders. Even if our board of directors decides to pay dividends, the form, frequency and amount will depend upon our future operations and earnings, capital requirements and surplus, general financial condition, contractual restrictions and other factors that the board of directors may deem relevant.

Unregistered Sales of Equity Securities.

Unless otherwise noted, the use of proceeds for the following sales of equity securities was to sustain our business operations.

Issuance of warrants and Options to Directors

In 2012, we issued warrants and options to seven of our officers and directors for services. Please refer to the section entitled "Compensation of Directors" for further details of these transactions.

Option Exercise

During the three month period ended June 30, 2012, Kathy Carter, a holder of options to purchase shares in the Company, exercised options to purchase 25,000 of our common stock shares at a per-share exercise price of \$0.001. The options were issued pursuant to a stock option agreement dated September 29, 2011.

Consulting Payment

In June 2012, we issued 150,000 shares of restricted common stock to an affiliate of Wakabayashi Fund in connection with institutional stock awareness efforts to be performed subsequent to the share issuance.

Plan of Merger Defense & Security Technology Group, Inc.

In connection with our acquisition of DSTG on February 13, 2012, the stockholders of DSTG received 100,000 shares of our common stock, 300,000 vested options to purchase our common stock at an exercise price of \$3.18 per share exercisable until the fifth anniversary of the Effective Date, and 100,000 vested options to purchase our common stock at an exercise price of \$8.00 per share exercisable until the last day of the 21st full calendar quarter following the Effective Date.

Plan of Merger Cogility Software Corporation

In connection with our acquisition of Cogility Software, on or about September 29, 2011, the stockholders of Cogility received 2,175,564 shares of our common stock in exchange for the retirement of their 11,530,493 shares of Cogility common stock. In addition, the holders of Cogility options received options to purchase an aggregate of 1,080,126 shares of our common stock at exercise prices ranging from \$0.001 to \$5.00 per share. Finally, as part of the acquisition of Cogility, its directors, officers, employees and consultants may in the future be granted options to purchase an aggregate of 1,500,000 shares of Acquired Sales' common stock at an exercise price of \$5.00 per share.

Private Placement of 3% Notes and Warrants

Commencing on January 31, 2011 through March 15, 2011, we issued warrants to purchase 9,200,000 pre-split shares of common stock at \$0.10 to seven parties, two of which, Roger S. Greene and Vincent J. Mesolella, serve on our board of directors and one of which, the Roberti Jacobs Family Trust, is an affiliate of our Company's CEO Gerard M. Jacobs. No placement agent compensation has been paid in this financing.

The warrants are exercisable through March 31, 2016. The warrants were an equity "kicker" in connection with \$700,000 in loans to us at an interest rate of 3%, the exchange and settlement of a \$200,000 note payable to the Roberti Jacobs Family Trust, which note payable had previously been assumed from Cogility Software Corporation (Cogility), and the transfer and assignment from an unrelated third party of a \$20,000 note receivable from Cortez Systems.

The promissory notes accrue interest at the rate of 3% per annum payable quarterly on the last day of each calendar quarter beginning March 31, 2011, mature on December 31, 2014 and are secured by all of the assets of the Company.

In addition to the 3% promissory notes and warrants described above, at any time during the first 90 days following the date of the completion of the proposed merger with Cogility, each investor in the private placement offering had the right to make a second loan to the Company in the same amount and on the same terms as the 3% promissory notes and warrants described above. Under current accounting guidance, none of the consideration received was allocated to the investors' rights to make additional loans.

The foregoing is a summary only of the 3% Note and Warrant, a copy of the forms of which, along with the form of subscription agreement entered into with investors in this offering, are each annexed as exhibits to that Form 10-Q for the three month period ended June 30, 2011, the provisions of which are incorporated herein.

We have also issued a series of promissory notes to affiliates and entities associated with our affiliates wherein stock purchase warrants were also issued. Please refer to “Item 13. Certain Relationships And Related Transactions” for a description of these issuances of unregistered securities.

All of the issuances of securities described above were restricted share issuances and deemed to be exempt from registration in reliance on Rule 506 of Regulation D and/or Section 4(2) of the Securities Act as transactions by an issuer not involving a public offering. Each investor represented that they were accredited investors, as defined in Rule 501 of Regulation D and, there was no general solicitation or general advertising used to market the securities.

We made available to each investor with disclosure of all aspects of our business, including providing the investor with press releases, access to our auditors, and other financial, business, and corporate information. All securities issued were restricted with an appropriate restrictive legend on certificates for notes and warrants issued stating that the securities (and underlying shares) have not been registered under the Securities Act and cannot be sold or otherwise transferred without an effective registration or an exemption therefrom.

Purchases of Equity Securities

No repurchases of our common stock were made during 2012.

ITEM 6. SELECTED FINANCIAL DATA

We had a public float of less than \$75 million for the past several years (including as of the last business day of our most recently completed second fiscal quarter as set out by Rule). As a result, we qualify as a smaller reporting company, as defined by Rule 229.10(f)(1). As a smaller reporting company, we are not required to provide the information required by this Item.

ITEM 7. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Forward Looking Statements

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Forward Looking Statements

This Annual Report on Form 10-K contains statements that are considered forward-looking statements. Forward-looking statements give the Company's current expectations and forecasts of future events. All statements other than statements of current or historical fact contained in this annual report, including statements regarding the Company's future financial position, business strategy, budgets, projected costs and plans and objectives of management for future operations, are forward-looking statements. The words “anticipate,” “believe,” “continue,” “estimate,” “expect,” “intend,” “may,” “plan,” and similar expressions, as they relate to the Company, are intended to identify forward-looking statements. These statements are based on the Company's current plans, and the Company's actual future activities and results of operations may be materially different from those set forth in the forward-looking statements. These forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from the statements made. Any or all of the forward-looking statements in this annual report may turn out to be inaccurate. The Company has based these forward-looking statements largely on its current expectations

and projections about future events and financial trends that it believes may affect its financial condition, results of operations, business strategy and financial needs. The forward-looking statements can be affected by inaccurate assumptions or by known or unknown risks, uncertainties and assumptions. The Company undertakes no obligation to publicly revise these forward-looking statements to reflect events occurring after the date hereof. All subsequent written and oral forward-looking statements attributable to the Company or persons acting on its behalf are expressly qualified in their entirety by the cautionary statements contained in this annual report.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and related notes that appear elsewhere in this Annual Report on Form 10-K. In addition to historical consolidated financial information, the following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed in the forward-looking statements. Factors that could cause or contribute to these differences include those discussed below and elsewhere in this Form 10-K.

INTRODUCTION

Management's discussion and analysis of financial condition and results of operations is provided as a supplement to the accompanying consolidated financial statements and related notes to help provide an understanding of our financial condition, the changes in our financial condition and the results of operations. Our discussion is organized as follows:

Basis of Presentation

On November 4, 2010, Acquired Sales Corp. ("Acquired Sales") entered into an agreement with Cogility Software Corporation ("Cogility") that was closed on September 29, 2011, whereby Cogility was merged with and into a newly-formed subsidiary of Acquired Sales. To effect the merger, Cogility shareholders owning 100% of the 11,530,493 Cogility common shares outstanding received 2,175,564 Acquired Sales common shares, or one Acquired Sales common share for each 5.3 Cogility common shares outstanding. Acquired Sales reverse split its common shares outstanding on a 1-for-20 basis, which results in the 5,832,482 Acquired Sales pre-split common shares outstanding before the merger becoming 291,760 common shares. In addition, Cogility had stock options outstanding that would have permitted the holders thereof to purchase 5,724,666 Cogility common shares at prices ranging from \$0.001 to \$1.40 per share. In the merger transaction, the Cogility option holders exchanged these stock options for 1,080,126 Acquired Sales stock options exercisable at prices ranging from \$0.001 to \$5.00 per share.

The Cogility shareholders received 88.2% of the common shares outstanding after the merger and the shareholders and management of Cogility gained ownership and operating control of the combined company after the merger. Accordingly, Cogility was considered the accounting acquirer under current accounting guidance and the merger was recognized as a recapitalization of Cogility. The historical financial information presented herein presents the accounts and results of operations of Cogility for all periods presented, restated on a retroactive basis for all periods presented for the effects of the 5.3-for-1 reverse stock split, and the accounts and operations of Acquired Sales from September 29, 2011. References herein to the "Company," "we," "our" or "us" refer to Cogility through September 29, 2011 and to Acquired Sales and Cogility on a consolidated basis after September 29, 2011, unless the context otherwise indicates.

On February 13, 2012 (the "Acquisition Date"), pursuant to the terms and conditions of the Agreement and Plan of Merger dated as of January 12, 2012 ("the "Merger Agreement") among Defense & Security Technology Group, Inc. ("DSTG"), a Virginia corporation and Acquired Sales Corp. ("Acquired Sales"), a Nevada corporation and a newly-formed, wholly-owned subsidiary of Acquired Sales, Acquired Sales Corp. Merger Sub, Inc., a Virginia corporation ("Merger Sub"), Acquired Sales completed its acquisition of DSTG, which held no material assets other than its pipeline of future work and the expertise of its sole shareholder, through the merger of Merger Sub with and into DSTG, with DSTG as the surviving corporation (the "Merger"). Upon completion of the Merger, the separate corporate existence of Merger Sub ceased and DSTG became a wholly-owned subsidiary of Acquired Sales.

As part of the Merger Agreement the 100 shares of DSTG stock were converted into 100,000 shares of Acquired Sales shares at a price of \$3.18 per share. Acquired Sales issued options to purchase 300,000 shares of newly issued Acquired Sales stock vesting immediately and exercisable at any time on or before the fifth anniversary of the Closing Date at an exercise price of \$3.18 per share. Acquired Sales also issued additional options to purchase 100,000 shares of newly issued Acquired Sales stock vesting immediately and exercisable at any time on or before the 21st full calendar quarter following the Closing Date at an exercise price of \$8.00 per share. The total consideration paid by Acquired Sales in connection with the Merger, totaled \$679,302.

On January 12, 2013, Acquired Sales entered into an agreement with Drumright Group, LLC ("Drumright") that was closed on February 11, 2013, wherein Acquired Sales sold 100% of the capital stock of its subsidiary, Cogility Software Corporation ("Cogility") to Drumright in exchange for \$3,675,000 in cash and a \$3,000,000 receivable, less an estimated \$32,258 in connection with a certain military contract delay. Under the terms of the agreement, Acquired Sales was required to transfer Cogility to Drumright without any liabilities. To accomplish this requirement, the \$3,675,000 down payment was placed into an escrow account and to the extent necessary was used to pay Cogility's liabilities remaining at the closing date including liabilities that were secured by Cogility's assets or its capital stock. Acquired Sales was entitled to all accounts receivable earned prior to January 31, 2013. The historical results of Cogility's operations have been reclassified to discontinued operations.

At December 31, 2012 our current liabilities exceeded our current assets by \$2,852,954 and we had a capital deficiency of \$3,309,339 and an accumulated deficit of \$11,500,063. Accordingly, the Company was insolvent at December 31, 2012. The Company through its wholly owned subsidiary, Cogility Software Corporation, closed several government contracts during the year ended December 31, 2012 and recognized over \$2,000,000 in revenue. However, the revenues were not enough to cover the Company's operating expenses or the repayment of any of the Company's debt obligations, and it was necessary for the Company to borrow another \$885,275 in notes payable to related parties to fund operations.

At December 31, 2012 we had significant liabilities that we could not pay and without immediate action it was highly unlikely that the Company would be able to continue as a going concern. Management determined that it would be in the best interest of the Company to divest itself of its 100% owned subsidiary Cogility Software Corporation and on January 12, 2013, Acquired Sales entered into an agreement with Drumright Group, LLC ("Drumright") that was closed on February 11, 2013, wherein Acquired Sales sold 100% of the capital stock of its subsidiary, Cogility Software Corporation ("Cogility") to Drumright in exchange for \$3,675,000 in cash and a \$3,000,000 receivable. The \$3,000,000 receivable is due \$1,500,000, less an estimated \$32,258 in connection with a certain military contract delay on August 11, 2013 and \$1,500,000 on February 11, 2014.

This Management's Discussion and Analysis or Plan of Operations ("MD&A") section discusses our results of operations, liquidity and financial condition, contractual relationships and certain factors that may affect our future results. You should read this MD&A in conjunction with our financial statements and accompanying notes included elsewhere in this report.

Overview

Acquired Sales Corp. is incorporated under the laws of the State of Nevada. Acquired Sales Corp. through its wholly owned subsidiary, Cogility Software Corporation ("Cogility"), has developed software technology that is solving mission-critical problems facing the U.S. defense and intelligence communities and many corporations today.

On January 12, 2013, Acquired Sales entered into an agreement with Drumright Group, LLC ("Drumright") that was closed on February 11, 2013, wherein Acquired Sales sold 100% of the capital stock of its subsidiary, Cogility Software Corporation ("Cogility") to Drumright in exchange for \$3,675,000 in cash and a \$3,000,000 receivable. The \$3,000,000 is receivable \$1,500,000, less an estimated \$32,258 in connection with a certain military contract delay on August 11, 2013 and \$1,500,000 on February 11, 2014. In addition, Acquired Sales is required to hold \$300,000 in an escrow account for potential subsequent claims. Acquired Sales was responsible for all costs and expenses and retained all accounts receivable relating to work performed by Cogility on revenue contracts through January 31, 2013, with those costs, expenses and revenue transitioning to Drumright thereafter. Acquired Sales retained a contract to create "legal analytics" software.

Under the terms of the agreement, Acquired Sales was required to transfer Cogility to Drumright without any liabilities. To accomplish this requirement, the \$3,675,000 down payment was placed into an escrow account and to the extent necessary was used to pay Cogility's liabilities, including liabilities that were secured by Cogility's assets or its capital stock.

The Company agreed to indemnify Drumright for losses caused by breaches of the Company's representations and warranties. In March 2013, Drumright notified the Company of the existence of a second amendment to a license agreement between Cogility and one of its customers that was effective April 2007. Despite the fact that Acquired Sales' management was not aware of the existence of the second amendment until Drumright's notification in March 2013, in the event that Drumright determines that such second amendment to the license agreement will result in losses to Drumright, Drumright could make a claim for indemnification against the Company or otherwise could file a lawsuit against Acquired Sales. The Company estimates that the range of potential loss from this claim is up to \$3,200,000 and will affect the amount of gain the Company will recognize from the sale of Cogility.

For purposes of the financials statements and the related Management Discussion and Analysis the operations of Cogility Software Corporation have been reclassified to discontinued operations. Continuing operations represents the operation of Acquired Sales and DSTG.

Liquidity and Capital Resources

The following table summarizes the Company's cash and cash equivalents, working capital deficit and long-term liabilities as of December 31, 2012 and December 31, 2011, as well as its cash flows for the years ended December 31, 2012 and 2011:

	December 31,	
	2012	2011
Cash and cash equivalents	\$ 186,914	\$ 65,684
Working capital	(2,852,954)	(2,170,480)
Long-term debt	825,081	790,775

	For the Years Ended December 31,	
	2012	2011
Cash used in operating activities	\$(759,948)	\$(1,377,908)
Cash provided by (used in) investing activities	17,878	(27,940)
Cash provided by financing activities	863,300	1,192,000

At December 31, 2012 the Company had cash of \$186,914 and \$292,171 of accounts receivable. Total current assets at December 31, 2012 were \$493,995, an amount far below what is necessary to fund operations and fulfill corporate obligations. Current liabilities at December 31, 2012 included \$346,153 of accounts payable, \$124,078 of accrued liabilities, \$376,650 of billings in excess of costs on uncompleted contracts, \$130,070 of notes payable, \$1,489,275 of notes payable to related parties and \$880,723 of accrued employee compensation. Billings in excess of costs on uncompleted contracts represent deferred revenue, net of costs, on contracts that are currently in process, which contracts are accounted for under the completed-contract method of accounting. Notes payable and notes payable to related party represents debt incurred by the Company to fund operating activities. Amounts owed to employees represent deferred payroll, commissions and reimbursable expenses.

During the year ended December 31, 2012 the Company issued \$885,275 of notes payable to related parties to help fund operations.

During the year ended December 31, 2011, the Company issued seven promissory notes payable to Acquired Sales in the aggregate principal amount of \$845,000 in exchange for \$625,000 in cash, the assumption of a \$200,000 note payable to an entity related to an officer of Acquired Sales and a \$20,000 note receivable from Cortez Systems. The notes payable bore interest at 5% per annum payable quarterly beginning March 31, 2011, were due December 31, 2014 and were secured by all of the assets of the Company.

On September 29, 2011, the Company exchanged the \$845,000 of notes payable to Acquired Sales and \$10,534 of related accrued interest for \$448,000 of notes payable to related parties and \$520,000 of notes payable to third parties. The transaction was recognized as an exchange of liabilities rather than an extinguishment of debt. The new notes payable were recorded at the carrying amount of original notes payable and accrued interest on the date of the exchange of \$855,534 by adjusting the effective interest rate applied to the future payments due under the terms of the notes payable and, as a result, no gain or loss was recognized on the exchange of the liabilities. The resulting discounts and premiums on the new notes payable are being amortized over the term of the new notes. The carrying amount of the notes payable to related parties was \$344,601, net of \$30,399 of unamortized discounts and premiums, and the carrying amount of the notes payable to third parties was \$480,480, net of \$39,520 of unamortized discount, on December 31, 2012. On October 17, 2011 a promissory note in the amount of \$25,000 payable to a director of the company was converted into 7,862 shares of common stock at \$3.18 per share. No beneficial conversion feature was recognized on the conversion of this note.

In addition, during the year ended December 31, 2011, the Company issued notes payable in the amounts of \$525,000 to an individual and \$30,500 to a lending company, to help fund operations.

Although a portion of these borrowings was classified as long-term liabilities at December 31, 2012, the Company still lacks liquidity and capital resources. During the later part of 2012 the Company has been providing services under three contracts; however, these contracts have yet to generate significant cash flows and the Company has had to rely on financing arrangements to fund operations for the year ended 2012.

In an effort to alleviate the Company's lack of liquidity and its substantial doubt to continue as a going concern, the Company sold 100% of its interest in its subsidiary, Cogility Software Corporation on February 11, 2013. However there can be no assurance that the Company will not need additional financing or that the Company will be profitable after the sale of Cogility in order to continue as a going concern.

Comparison of December 31, 2012 and December 31, 2011

The Company incurred a net loss of \$2,364,026 for the year ended December 31, 2012 mainly due to the lack of revenues generated for the year. Under the completed-contract method of accounting, revenues for contracts in progress are deferred, net of costs, until such time as the contracts are completed. Billings in excess of cost on uncompleted contracts are \$376,650 at December 31, 2012. The nature of our operations makes it difficult to scale back costs in periods of reduced revenue. Our labor force is our largest cost and our employees are specifically trained and extremely difficult to replace. With the sale of Cogility the Company will significantly reduce its fixed overhead costs such as labor and facility costs. At December 31, 2012, the Company had current liabilities in excess of current assets of \$2,852,954, an accumulated deficit of \$11,500,063 and a shareholders' deficit of \$3,309,339.

The Company used \$759,948 of cash in its operating activities during the year ended December 31, 2012 compared to using \$1,377,908 in its operating activities during the year ended December 31, 2011. The components of the cash used in operating activities during the year ended December 31, 2012 was primarily due to loss incurred from operations, a decrease in billings in excess of cost on uncompleted contracts of \$306,829 offset by the increase in account receivable of \$138,649 and share based compensation of \$449,905. Of the total cash used in operating activities \$483,741 related to continuing operations and \$276,207 related to discontinued operations.

The Company had net cash provided by investing activities of \$17,878, mainly due to the acquisition of cash as part of the DSTG purchase. This is compared to \$27,940 of cash used in investing activities for the year ended December 31, 2011, mainly for the acquisition of property and equipment. Of the total cash provided by investing activities \$23,611 related to continuing operations and \$5,733 was used for investing related to discontinued operations.

The Company borrowed \$885,275 from related parties, repaid debt in the amount of \$22,000 and issued stock in the amount of \$25 during the year ended December 31, 2012 for net cash provided by financing activities of \$863,300. This as compared to \$1,192,000 of cash used in financing activities during the year ended December 31, 2011. Of the total cash provided by financing activities \$25 related to continuing operations and \$863,275 related to discontinued operations.

During the year ended December 31, 2012, cash increased by \$121,230 leaving the Company with \$186,914 in cash at December 31, 2012. This is compared to a \$213,848 decrease in cash during the year ended December 31, 2011.

The Company incurred a net loss for the year ended December 31, 2012 of \$2,364,026 as compared to a net loss of \$4,300,348 for the year ended December 31, 2011. The Company had three contracts in progress at December 31, 2012; billings net of costs on the contracts in progress are deferred until such time the contracts are closed under the completed-contract method of accounting. Had the contracts been closed at December 31, 2012 the Company would have recognized additional income net of expenses of \$376,650. During the year ended December 31, 2012, the Company had several contracts in progress, but was unable to recognize substantial revenue under the completed contracts method until such time as those contracts closed.\

We continue to pursue new contracts from both the U.S. defense and intelligence communities and from commercial customers through our wholly owned subsidiary DSTG. However, there can be no assurance whatsoever that such effort will be successful or will result in revenues to us on any particular timetable or in any particular amounts. The Company has a history of losses as evidenced by the accumulated deficit at December 31, 2012 of \$11,500,063.

Comparison of the year ended December 31, 2012 to the year ended December 31, 2011

Revenue – Revenue from continuing operations was \$250,400 for the year ended December 31, 2012 and there was no revenue from continuing operation for the year ended 2011. This represents a decrease of \$250,400 and represents the revenue of DSTG only. Revenue, net of costs, on contracts in progress is deferred until such time the contracts are completed. Revenue from discontinued operations was \$2,033,557 and \$460,496 for the year ended December 31, 2012 and 2011, respectively, representing an increase of \$1,573,061. Discontinued operations represent the operations of Cogility Software Corporation. The Company closed several contracts during the year ended December 31, 2012, including contracts that had been in process at December 31, 2011

Cost of Revenue – Cost of revenue from continuing operations was \$277,144 for the year ended December 31, 2012 and there was no cost of revenue from continuing operation for the year ended 2011. This represents a decrease of \$277,144 and represents the cost of revenue of DSTG only. DSTG had closed a single contract during the year ended December 31, 2012. Cost of revenues consists mainly of labor costs. With the sale of Cogility, DSTG must rely on outsourced labor to provide services for its contracts in process. Cost of revenue from discontinued operations was \$992,448 and \$192,503 for the year ended December 31, 2012 and 2011, respectively, representing an increase of \$799,945. Discontinued operations represent the operations of Cogility Software Corporation. The Company closed several contracts during the year ended December 31, 2012, including contracts that had been in process at December 31, 2011 increasing the associated cost of revenue.

The changes with respect to our revenues and our cost of revenues from continuing and discontinued operations for the year ended December 31, 2012 and 2011 are summarized as follows:

	For the Year Ended December 31,		
	2012	2011	Change
REVENUE			
From continuing operations	250,400	-	250,400
From discontinued operations	2,033,557	460,496	1,573,061
Total Revenue	\$2,283,957	\$460,496	\$1,823,461
COST OF REVENUE			
From continuing operations	277,144	-	277,144
From discontinued operations	992,448	192,503	799,945
Total Cost of Revenue	1,269,592	192,503	1,077,089
Gross Profit	\$1,014,365	\$267,993	\$746,372

Although the preceding table summarizes the net changes with respect to our revenues and our cost of revenue from continuing and discontinued operations for the year ended December 31, 2012 and 2011, the trends contained therein are limited and should not be viewed as a definitive indication of our future results.

Selling, General and Administrative Expense—Selling, general and administrative expense, including non-cash compensation expense from continuing operations was \$1,219,960 and \$208,245 for the year ended December 31, 2012 and 2011, respectively representing an increase of \$1,011,715. Selling, general and administrative expense from discontinued operations was \$1,642,066 and \$4,296,064 for the year ended December 31, 2012 and 2011, respectively, representing a decrease of \$2,623,998. The net decrease in our selling, general and administrative expense related to an increase in salaries and wages allocable to contracts and cost of revenues, and a decrease in stock based compensation expense.

Net Loss—We realized a net loss of \$2,364,026 for the year ended December 31, 2012, compared to a net loss of \$4,300,348 during the year ended December 31, 2011. The resulting decrease in the net loss of \$2,136,322 or was primarily related to the increase in revenue recognized on completed contracts as well as decrease in compensation relating to issuance of stock options. We may continue to incur losses in the future as contracts close and new contracts are not entered into and as our operations decrease with the sale of Cogility.

Critical Accounting Policies

Use of Estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. Significant estimates include share-based compensation forfeiture rates and the potential outcome of future tax consequences of events that have been recognized for financial reporting purposes. Actual results and outcomes may differ from management's estimates and assumptions.

Accounts Receivable—Accounts receivable are stated at the amount billed to customers, net an allowance for doubtful accounts. The Company evaluates the collectability of the amount receivable from each customer and provides an allowance for those amounts estimated to be uncertain of collection. Accounts determined to be uncollectible are written off against the allowance for doubtful accounts.

Property and Equipment – Property and equipment are recorded at cost less accumulated depreciation. Maintenance, repairs, and minor replacements are charged to expense as incurred. When depreciable assets are retired, sold, traded in or otherwise disposed, the cost and related accumulated depreciation are removed from the accounts and the resulting gain or loss is reflected in operations. Depreciation is calculated on the straight-line method over the estimated useful lives of the assets, which are nine to five years. Depreciation expenses for the years ended December 31, 2012 and 2011 was \$34,781 and \$45,023 respectively.

Software Development Costs – Software development costs consist primarily of compensation of development personnel, related overhead incurred to develop new products and upgrade and enhance the Company's current products and fees paid to outside consultants. Software development costs incurred subsequent to the determination of technological feasibility and marketability of a software product are capitalized. Capitalization of costs ceases and amortization of capitalized software development costs commences when the products are available for general release. For the years ended December 31, 2012 and 2011 no software development costs were capitalized because the time period and cost incurred between technological feasibility and general release for all software product releases was insignificant.

Revenue Recognition – The Company enters into contractual arrangements with end-users of its products to sell software licenses, hardware, consulting services and maintenance services, either separately or in various combinations thereof. For each arrangement, revenue is recognized when persuasive evidence of an arrangement exists, the fees to be paid by the customer are fixed or determinable, collection of the fees is probable, and delivery of the product or services has occurred. When the Company is the primary obligor or bears the risk of loss, revenue and costs are recorded on a gross basis. When the Company receives a fixed transactional fee, revenue is recorded under the net method based on the net amount retained.

In contractual arrangements where services are essential to the functionality of the software or hardware, or payment of the license fees are dependent upon the performance of the related services, revenue for the software license, hardware and consulting fees are recognized on the completed-contract method when the contract is substantially completed and all related deliverables have been provided to and accepted by the customer. This method is used because the Company is unable to accurately estimate total cost of individual contracts until the contracts are substantially complete. Provisions for estimated losses on uncompleted contracts are made in the period in which such losses are determined. Claims for additional compensation are recognized during the period such claims are resolved and collected.

Costs of software, hardware and costs incurred in performing the contract services are deferred until the related revenue is recognized. Contract costs include all purchased software and hardware, subcontract and labor costs and those indirect costs related to contract performance, such as indirect labor, supplies, equipment, and travel costs as well as depreciation on equipment used in performance of the contractual arrangements. Depreciation on administrative assets and selling, general and administrative costs are charged to expense as incurred.

Costs in excess of amounts billed are classified as current assets under the caption Costs in excess of billings on uncompleted contracts. Billings in excess of costs are classified as current liabilities under the caption Billings in excess of costs on uncompleted contracts. Contract retentions are included in accounts receivables.

Software Licensing and Hardware Sales: When software licensing and/or hardware functionality are not dependent upon performance of services, the amount of revenue under the arrangement is allocated to the deliverable elements based on prices the Company sells the separate elements, if objectively determinable. If so determinable, the amounts allocated to the software licensing are recognized as revenue at the time of shipment of the software to the customer. Such sales occur when the Company resells third-party software and hardware systems and related peripherals as part of an end-to-end solution to its customers. The Company considers delivery to occur when the product is shipped and title and risk of loss have passed to the customer.

Consulting Services: Consulting services are comprised of consulting, implementation, software installation, data conversion, building interfaces to allow the software to operate in integrated environments, training and applications. Consulting services are sold on a fixed-fee and a time-and-materials basis, with payment normally due upon achievement of specific milestones. Consulting services revenue is recognized under the completed-contract method as described above.

Maintenance and Support Services: Maintenance and support services consist primarily of fees for providing unspecified software upgrades on a when-and-if-available basis and technical support over a specified term, which is typically twelve months. Maintenance revenues are recognized ratably over the term of the related agreement.

Concentration of Significant Customers –At December 31, 2012, accounts receivables from three customers accounted for 100% of total accounts receivable. Revenue from three customers accounted for 65% of total revenue. At December 31, 2011, accounts receivables from two customers accounted for 100% of total accounts receivable. Revenue from one customer accounted for 75% of total revenue.

Income Taxes – Provisions for income taxes are based on taxes payable or refundable for the current year and deferred income taxes. Deferred income taxes are provided on differences between the tax bases of assets and liabilities and their reported amounts in the financial statements and on tax carry forwards. Deferred tax assets and liabilities are included in the financial statements at currently enacted income tax rates applicable to the period in which the deferred tax assets and liabilities are expected to be realized or settled. As changes in tax laws or rates are enacted, deferred tax assets and liabilities are adjusted through the provision for income taxes. A valuation allowance is provided against deferred income tax assets when it is not more likely than not that the deferred income tax assets will be realized.

Basic and Diluted Loss Per Share – Basic income (loss) per common share is determined by dividing net income (loss) by the weighted-average number of common shares outstanding during the period. Diluted income (loss) per common share is calculated by dividing net income (loss) by the weighted-average number of common shares and dilutive common share equivalents outstanding during the period. When dilutive, the incremental potential common shares issuable upon exercise of stock options and warrants are determined by the treasury stock method. There were 2,336,981 and 1,785,126 employee stock options and 938,000 and 460,000 warrants outstanding during the year ended December 31, 2012 and 2011, respectively, that were excluded from the computation of the diluted income (loss) per share for the year ended December 31, 2012 and 2011 because their effects would have been anti-dilutive.

Share-Based Compensation Plan – Stock-based compensation to employees and consultants is recognized as a cost of the services received in exchange for an award of equity instruments and is measured based on the grant date fair value of the award or the fair value of the consideration received, whichever is more reliably measureable. Compensation expense is recognized over the period during which service is required to be provided in exchange for the award (the vesting period).

Contractual Cash Obligations and Commercial Commitments

The Company leased one facility in Providence, Rhode Island under an operating lease. The lease expired on February 15, 2013.

The Company entered into an agreement with a consultant on February 18, 2011 whereby the Company agreed to pay the consultant a fee based on net revenue received from two potential new software products. The fee would be equal to 5% of the net revenue received, after deducting software licensing and equipment costs from third parties, from two potential contracts and, for a period of five years, any subsequent revenue from reselling the work product that may result from providing software and services under either of the two potential contracts. No fees were paid or accrued under this agreement during the years ended December 31, 2012 or December 31, 2011. In addition, the Company agreed to pay the third party a fee of 7% on any new capital raised that results from their services.

The Company has a \$525,000 outstanding non-interest bearing note payable to an entity related to an officer of the Company, which is unsecured and due upon demand.

During the year ended December 31, 2012 the Company borrowed at total of \$885,275 from various related parties to fund operations. The Notes bear interest at 6% per annum, payable quarterly, are unsecured and are due upon demand.

At December 31, 2012, the Company had \$375,000 of notes payable to related parties that are secured by all the assets of the Company, bear interest at 3% per annum and are due December 31, 2014. The notes were issued with warrants to purchase common stock that resulted in the notes payable being carried at a discount to their face value.

In connection with the acquisition of DSTG on February 13, 2012, the Company assumed an \$86,000 distribution payable to the former DSTG shareholder. The liability is without interest, due upon demand and unsecured. On July 25, 2012, the terms of the loan were renegotiated such that the loan bears interest at 6% per annum, payable quarterly, and is due upon demand.

On December 18, 2012 an officer of the Company advanced the Company \$8,275 for short-term working capital needs. The loan is without interest, unsecured and due upon demand.

At December 31, 2012, the Company had \$520,000 of notes payable to third parties that are secured by all the assets of the Company, bear interest at 3% per annum and are due December 31, 2014. The notes were issued with warrants to purchase common stock that resulted in the notes payable being carried at a discount to their face value.

At December 31, 2012, notes payable to a lending company totaled \$130,070, are unsecured, non-interest bearing and due on demand. The Company has not imputed interest on the loans; as such imputed interest would not have been material to the accompanying financial statements.

On June 13, 2011, a key executive resigned his position and entered into a severance agreement with the Company. On September 16, 2010, we signed a letter agreeing to pay the former executive officer \$47,000 in one-time commissions, with payment deferred until 30 days after the closing of a private placement of common stock or debt convertible into common stock in the total amount of at least \$2,000,000. Under the severance agreement the former executive officer will receive a one-time bonus of \$35,000 and deferred compensation of \$18,432 payable upon the completion of a private placement of common stock or debt convertible into common stock in the total amount of at least \$2,000,000. The former executive officer was also to be paid additional deferred compensation of \$9,662 by September 30, 2011, but this amount was paid on November 3, 2011. In addition, the severance agreement modified the terms of stock options held by the former executive officer for the purchase 66,667 common shares such that the stock options will not expire until June 14, 2012. Stock options for the purchase of 133,334 common shares were forfeited.

On June 24, 2011 an employee resigned and entered into a severance agreement with the Company. Under the severance agreement, payment of \$8,224 of vacation pay was deferred and to be paid the earlier of the completion of a \$2,000,000 private placement offering or September 23, 2011. The amount has not yet been paid. In addition, the severance agreement modified the terms of stock options held by the former employee for the purchase of 133,000 common shares such that the stock options will not expire until June 24, 2012. Stock options for the purchase of 67,000 common shares were forfeited.

Under the terms of the sales and purchase agreement for Cogility Software Corporation, Acquired Sales was required to transfer Cogility to Drumright without any liabilities. To accomplish this requirement, the \$3,675,000 down payment was placed into an escrow account and to the extent necessary was used to pay Cogility's liabilities, including liabilities that were secured by Cogility's assets or its capital stock. As such all of the above commitments were paid in full on February 12, 2013.

One of Cogility's employees claims that he has filed a wage claim against Cogility for \$302,000 with the California Labor Board. Cogility intends to vigorously defend against this claim. The range of potential loss from this claim is up to \$302,000 and the Company believes it has adequately provided for this potential claim in the accompanying consolidated financial statements.

The Company agreed to indemnify Drumright for losses caused by breaches of the Company's representations and warranties. In March 2013, Drumright notified the Company of the existence of a second amendment to a license agreement between Cogility and one of its customers that was effective April 2007. Despite the fact that Acquired Sales' management was not aware of the existence of the second amendment until Drumright's notification in March 2013, in the event that Drumright determines that such second amendment to the license agreement will result in losses to Drumright, Drumright could make a claim for indemnification against the Company or otherwise could file a lawsuit against Acquired Sales. The Company estimates that the range of potential loss from this claim is up to \$3,200,000 and will affect the amount of gain the Company will recognize from the sale of Cogility.

The Company is subject to other legal proceedings, claims, and litigation arising in the ordinary course of business. The Company defends itself vigorously against any such claims. Although the outcome of these other matters is currently not determinable, management does not expect that the ultimate costs to resolve these matters will have a material adverse effect on its consolidated financial position, results of operations, or cash flows.

Off Balance Sheet Arrangements – We have no off-balance sheet arrangements.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a smaller reporting company, we are not required to provide the information required by this Item.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The full text of our audited consolidated financial statements as of December 31, 2012 and December 31, 2011 begins on page F-1 of this Annual Report.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our principal executive officer and principal financial officer, Mr. Gerard M. Jacobs, evaluated the effectiveness of our disclosure controls and procedures. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports, such as this report, that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company’s management, including its principal executive and principal financial officer, as appropriate to allow timely decisions regarding required disclosure. Based on that evaluation, Mr. Jacobs concluded that because of the material weakness in internal control over financial reporting described below, our disclosure controls and procedures were not effective as of December 31, 2012.

(b) Management’s annual report on internal control over financial reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting for the Company. “Internal Control Over Financial Reporting” is defined in Exchange Act Rules 13a -15(f) and 15d - 5(f) as a process designed by, or under the supervision of, an issuer’s principal executive and principal financial officers, or persons performing similar functions, and effected by an issuer’s board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. It includes those policies and procedures that:

- pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and disposition of an issuer;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the issuer are being made only in accordance with authorizations of management and directors of the issuer; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the issuer’s assets that could have a material adverse effect on the financial statements.

During December 2012, management conducted an evaluation of the effectiveness of our internal control over financial reporting as of December 31, 2012 based on the framework set forth in the report entitled Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on the evaluation, management concluded that our internal control over financial reporting as of December 31, 2012 was not effective. Management identified the following material weaknesses as of December 31, 2012:

- There existed a lack of segregation of duties in regard to the Company’s financial reporting, procedures for depositing of funds, procedures for cash disbursements, procedures for checkbook entries, period close procedures, and procedures for financial statement preparation.

Management has determined that the Company should seek to enhance its internal controls over financial reporting by maintaining the following steps first commenced in 2010:

- During November 2010, the Company increased its Board of Directors to seven members, and added as an additional independent member Mr. Vincent J. Mesolella. Mr. Mesolella is the Chairman of the Narragansett Bay Commission, Providence, Rhode Island. Mr. Mesolella is also the Chief Executive Officer of REI, Inc., a diversified real estate development company. Mr. Mesolella has previously served as the Chairman of the Audit Committee of the Board of Directors of a publicly traded company.
- Beginning in March 2010, the Company had begun emailing or mailing to Mr. Mesolella a copy of each monthly statement from its bank summarizing all activity in the Company's checking account, for review and questioning as appropriate. The purpose of Mr. Mesolella's involvement is to provide monitoring, oversight and assistance to Mr. Jacobs, our principal financial and executive officer in the preparation and reporting of the Company's financial statements.

Our management is not aware that the material weaknesses in our internal control over financial reporting causes them to believe that any material inaccuracies or errors existed in our financial statement as of December 31, 2012. The reportable conditions and other areas of our internal control over financial reporting identified by us as needing improvement have not resulted in a material restatement of our financial statements. Nor are we aware of any instance where such reportable conditions or other identified areas of weakness have resulted in a material misstatement of omission in any report we have filed with or submitted to the Commission.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

This annual report does not include an attestation report of our registered public accounting firm regarding internal control over financial reporting.

Management's report was not subject to attestation by our registered public accounting firm pursuant to temporary rules of the SEC that permit the Company to provide only management's report in this annual report.

(c) Changes in internal control over financial reporting

There were no changes in our internal controls over financial reporting during the fiscal year ended December 31, 2012, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

Not applicable.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS, AND CORPORATE GOVERNANCE

The Board of Directors And Committees of the Board

The following table sets forth certain information regarding our current Directors and Executive Officers as of December 31, 2012. Each director holds office from election until the next annual meeting of stockholders or until their successors is duly elected and qualified.

Name	Age	Position
Gerard M. Jacobs	57	Co-Chairman of the Board, chief executive officer, chief development officer, secretary, and treasurer
Daniel F. Terry, Jr.	57	President and chief operating officer
Matthew Ghourdjian	57	Co-Chairman of the board and chief technology officer
James S. Jacobs, MD	59	Director
Michael D. McCaffrey	67	Director
Richard E. Morrissey	58	Director
Vincent J. Mesolella	63	Director
Roger S. Greene	57	Director
Joshua A. Bloom, M.D.	57	Director
Minh N. Le	46	Executive Vice President

Our Directors serve in such capacity until the next annual meeting of our shareholders and until their successors have been elected and qualified. Our officers serve at the discretion of our Board of Directors, until their death, or until they resign or have been removed from office.

Gerard M. Jacobs, age 57, is co-chairman of our board of directors, chief executive officer, chief development officer, secretary, and treasurer. Mr. Jacobs has been a private investor since 2006. In 2001, Gerard M. Jacobs took control of CGI Holding Corporation, and served as its CEO and member of its board of directors until 2006. Under Gerard M. Jacobs' guidance, CGI Holding Corporation changed its name to Think Partnership Inc., made 15 acquisitions primarily of businesses involved in online marketing and advertising, and succeeded in having its common stock listed on the American Stock Exchange. The company is now known as Inuvo Inc. (NYSE:AMEX: INUV). Previously, in 1995, Mr. Jacobs took control of General Parametrics Corporation, and served as its CEO and member of its board of directors until 1999. Under Mr. Jacobs' guidance, General Parametrics changed its name to Metal Management Inc., made 37 acquisitions primarily of businesses involved in scrap metal recycling, and succeeded in building one of the largest scrap metal recycling companies in the world. The company is now part of Sims Metal Management Ltd. (NYSE: SMS). Mr. Jacobs is currently a director of Patient Home Monitoring Corp. (TSXV: PHM). We believe that Gerard M. Jacobs' experience serving as the CEO of three publicly traded companies and as a director of two other publicly traded companies, his work as an investment banker and as an attorney, and his intelligence and educational background, qualifies him to serve as a director of the Corporation.

Gerard M. Jacobs received a law degree from the University of Chicago Law School, which he attended as a Weymouth Kirkland Law Scholar, in 1978; and an A.B from Harvard College, in 1976, where he was elected to Phi Beta Kappa. Gerard M. Jacobs' brother James S. Jacobs, M.D. is also a member of our board of directors.

Matthew Ghourdjian, co-chairman of the board of directors and Chief Technology Officer, and wholly owned subsidiary Cogility's Chief Technology Officer, age 57, is the founder and former chief executive officer of Cogility Software. Mr. Ghourdjian has 33 years of experience in the technology industry. Mr. Ghourdjian was a founder of CoderCard, Digital Convergence, Ceira Technologies Inc., and Cogility. Matt is a former partner at KPMG Consulting and Arthur Andersen.

Daniel F. Terry, Jr. President and Chief Operating Officer, and wholly owned subsidiary Cogility's Chief Executive Officer, age 57, is an entrepreneur who has been involved with marketing and operations in startups as well as with Fortune 500 companies. Mr. Terry was a founder and former Chief Executive Officer of Mission1st Group, Inc., a company that provides engineering, project design and implementation of mission-critical telecommunications systems worldwide. Mr. Terry has held executive positions in several technology firms including NetFRAME, Micron, ConnectedSupport.com, and PCR, as well as having been a partner in the Hong Kong consultancy CentrePoint Ltd. Mr. Terry is involved with the Fisher House Foundation in support of U.S. wounded and their families and is the founder of the Call-Force Project, to support employment of disabled veterans of the Iraq and Afghanistan conflicts. Mr. Terry is on the Board of Directors of the Metropolitan Opera, New York, and is a member of AFCEA and AUSA. Mr. Terry is a resident of Nevada.

Joshua A. Bloom, M.D., age 57, has been a member of our board of directors since July 2007. He has been a practicing physician in Kenosha Wisconsin since completion of his training in 1988. He is board Certified in Internal Medicine, Pulmonary Diseases and in Critical Care Medicine. He has been employed by United Hospital System (formerly known as Kenosha Hospital and Medical Center) in the Clinical Practice Division from 1995 to present. He had been in private practice at the same address from 1988 to 1995. Dr. Bloom has served on the board of directors of Kenosha Health Services Corporation since 1993 and the board of Hospice Alliance, Inc since 1994 and Medical Director there since 1998. He has also served on the board of the Beth Israel Sinai Congregation since 1998 where he served as the President from 2004 until earlier this year. We believe that Joshua A. Bloom, M.D.'s experience serving as a director of the Corporation since 2007, his intelligence and educational background, and his familiarity with the medical field which has in the past and is currently providing candidates for potential acquisitions by the Corporation, qualifies him to serve as a director of the Corporation.

Dr. Bloom received a medical degree from the University of Illinois in 1982 and completed his residency in internal medicine in 1985 and fellowship in Respiratory & Critical Care Medicine in 1988; both at the University of Illinois. He received an MS in Organic Chemistry from the University of Chicago in 1978 and a BS in Chemistry from Yale College in 1977.

Roger S. Greene, age 57, has been a member of our board of directors since July 2007. He is the Managing Director and co-founder of Stanmore Capital Partners, LLC, a merchant banking firm that focuses upon the acquisition of small cash flow positive private companies, primarily in the health care services business. He is also owner and CEO of Marquette Advisors, Inc., a firm that provides consulting in the same areas. Projects have included a roll up of sleep diagnostic centers, acquisitions of companies in the blood plasma collection business and specialty medical education field. Mr. Greene is currently a director of Patient Home Monitoring Corp. (TSXV: PHM). Previously, he has worked with Brazos Fund and Lone Star Fund as general counsel. For Lone Star, Mr. Greene was responsible for negotiation and structuring of asset acquisitions from foreign entities. Prior to that time, he also worked on resolution and management of the assets of American Savings and Loan Association after the acquisition of American Savings Bank by the Robert M. Bass Group. Mr. Greene has also acted as a principal in real estate and operating company acquisitions. Mr. Greene resides in California. We believe that Roger S. Greene's experience serving as a director of two publicly traded companies, his work in mergers and acquisitions as an investment banker, his work as an attorney, his intelligence and educational background, and his familiarity with the medical field which has in the past and is currently providing candidates for potential acquisitions by the Corporation, qualifies him to serve as a director of the Corporation.

James S. Jacobs, M.D., age 59, has been a member of our board of directors since July 2007. He is a Physician in the Department of Radiation Oncology, at St. Joseph Hospital in Denver, Colorado. He was previously the Resident Physician in Radiation Oncology at Rush Medical Center in Chicago, Illinois. We believe that James S. Jacobs, M.D.'s experience serving as a director of the Corporation since 2007, his intelligence and educational background, and his familiarity with the medical field which has in the past and is currently providing candidates for potential acquisitions by the Corporation, qualifies him to serve as a director of the Corporation.

Dr. Jacobs did a residency in Radiation Oncology at Rush Medical Center in Chicago, Illinois and an internal medicine internship and residency at the University of Colorado Medical Center in Denver, Colorado. Dr. Jacobs received a BA in Neuroscience from Amherst College in Amherst, Massachusetts in 1976.

Michael D. McCaffrey, age 67, has been a member of our board of directors since July 2007. He is an attorney practicing in Irvine, California and specializing in commercial and business litigation. Mr. McCaffrey has tried more than 100 jury and non-jury trials, representing numerous large companies, institutional lenders, real estate developers, contractors and various public and private corporations, partnerships and sole proprietorships. He has had sole or primary responsibility for defense and prosecution of significant matters including real property secured transactions; real estate syndication/fraud; partnership disputes/accounting/dissolution actions; corporate control; insurance (policyholders' interests and insurers' interests); employment litigation; prosecution, defense and expert witness on professional liability claims involving attorneys and accountants; construction, including prosecution and defense of major defect cases; and various business tort cases. We believe that Michael D. McCaffrey's experience serving as a litigator and advisor to corporations, and his intelligence and educational background, qualifies him to serve as a director of the Corporation.

Mr. McCaffrey received his Juris Doctor in 1974 from the University of Denver College of Law where he was a member of the University of Denver Law Review (qualified by class rank, top 5%) and received a B.S. in Engineering from UCLA in 1968.

Richard E. Morrissy, age 58, has been a member of our board of directors since July 2007. He is the Senior Research Specialist and project coordinator in the Pharmaceutical Sciences, School of Pharmacy, University of Illinois at Chicago. Mr. Morrissy is a project coordinator for the School of Pharmacy. His duties include serving as project coordinator on four clinical trial research projects funded by the National Institutes of Health's National Cancer Institute. The School of Pharmacy projects have involved multiple research projects utilizing Lycopene in restoring DNA damage in men's prostates. The project at UIC's internationally acclaimed Occupational Therapy School involved the setup and running of focus groups with impaired individuals to create a movement and activity computer survey for the World Health Organization. During his tenure, Mr. Morrissy has managed clinical research trials including the submission of institutional review board documents and grant proposals, recruitment of subjects and data management and storage. He has also designed and led focus groups, designed and critiqued research surveys, edited manuscripts and scientific journals. We believe that Richard E. Morrissy's experience serving as a director of the Corporation since 2007, his intelligence and educational background, and his familiarity with the medical field which has in the past and is currently providing candidates for potential acquisitions by the Corporation, qualifies him to serve as a director of the Corporation. He received a B.A. in History from Western Illinois University in 1976.

Vincent J. Mesolella, age 63, has been a member of our board of directors since October 2010. He has served for many years as the Chairman of the Narragansett Bay Commission, Providence, Rhode Island, one of the largest wastewater treatment utilities in the U.S. Mr. Mesolella also served for over twenty years as a member of the Rhode Island House of Representatives, including serving as the Majority Whip. Mr. Mesolella is the founder and Chief Executive Officer of REI, Inc., a diversified real estate investment firm. Mr. Mesolella has served on the board of directors of Think Partnership Inc., an American Stock Exchange company. Mr. Mesolella has raised a great deal of money for charities including the Make-A-Wish Foundation. Mr. Mesolella resides in Rhode Island. We believe that Vincent J. Mesolella's experience serving as a director of two publicly traded companies including service as Chairman of the Audit Committee of both, his work as a developer and business owner, his experience as an elected public official, his Chairmanship of a major wastewater treatment organization that has been nationally recognized for its excellence, his intelligence and educational background, and his familiarity with the real estate industry which has in the past and is currently providing candidates for potential acquisitions by the Corporation, qualifies him to serve as a director of the Corporation.

Minh N. Le, age 46, serves as an Executive Vice President of Acquired Sales and as the CEO of Defense & Security Technology Group, Inc. (DSTG). Mr. Le founded DSTG in 2008. Prior to founding DSTG, Mr. Le was a Senior Partner and Executive Vice President at Accenture from 1997 to 2008. Prior to Accenture, from 1989 to 1997, Mr. Le was a oil & gas trader, and held many management positions with ExxonMobil. Mr. Le graduated from University of Maryland, College Park in 1989 with a B.S. degree in Computer Science. Mr. Le received a MBA in 1997 from Georgetown University.

There are no agreements or understandings for any of our executive officers or director to resign at the request of another person and no officer or director is acting on behalf of nor will any of them act at the direction of any other person. Directors are elected until their successors are duly elected and qualified.

Family Relationships

Gerard M. Jacobs and James S. Jacobs, MD are brothers. There is no other family relationship among any of our officers or directors.

Involvement in Certain Legal Proceedings

To the best of our knowledge, none of our directors or executive officers has been convicted in a criminal proceeding, excluding traffic violations or similar misdemeanors, or has been a party to any judicial or administrative proceeding during the past ten years that resulted in a judgment, decree or final order enjoining the person from future violations of, or prohibiting activities subject to, federal or state securities laws, or a finding of any violation of federal or state securities laws, except for matters that were dismissed without sanction or settlement. Except as set forth in our discussion below in Item 13, "Certain Relationships and Related Transactions, and Director Independence," none of our directors, director nominees or executive officers has been involved in any transactions with us or any of our directors, executive officers, affiliates or associates which are required to be disclosed pursuant to the rules and regulations of the SEC.

Board Composition and Committees

Our board of directors is currently composed of 8 members: Messrs. G. Jacobs, Bloom, Greene, J. Jacobs, McCaffrey, Morrissy, Mesolella and Ghourdjian. Our board of directors has determined that Messrs. Bloom, Greene, McCaffrey, Morrissy and Mesolella are independent directors at this time, under the rules of the American Stock Exchange Company Guide, or the AMEX Company Guide, because they do not currently own a significant percentage our shares, are not currently employed by the Company, have not been actively involved in the management of the Company and do not fall into any of the enumerated categories of people who cannot be considered independent directors under the AMEX Company Guide.

Audit Committee and Audit Committee Financial Expert

We have an audit committee consisting of Joshua A. Bloom, Roger S. Greene, Michael D. McCaffrey, Vincent J. Mesolella and Richard E. Morrissy as members. We have not adopted an Audit Committee charter. Vincent J. Mesolella serves as our audit committee chairman and financial expert. Our audit committee performs the following functions including: (1) selection and oversight of our independent accountant; (2) establishing procedures for the receipt, retention and treatment of complaints regarding accounting, internal controls and auditing matters; and (3) engaging outside advisors. Our Board of Directors has determined that each of its members is able to read and understand fundamental financial statements and has substantial business experience that results in that member's financial sophistication. Accordingly, the Board of Directors believes that each of its members has the sufficient knowledge and experience necessary to fulfill the duties and obligations that an audit committee member should have for a business such as the Company.

Board Meetings; Nominating Committee

Due to the current size and scope of our operations and size and geographic diversity of our Board of Directors, much of the Board's decision making is made through telephone calls and intermittent informal meetings; when formalization is necessary, the Board conducts formal meetings or acts by written consent. In the year ended December 31, 2011, we held only telephonic Board Meetings and there were no on ground Board Meetings attended by all directors.

We have a nominating committee consisting of Joshua A. Bloom, Roger S. Greene, Michael D. McCaffrey, Vincent J. Mesolella and Richard E. Morrissy as members. Mr. McCaffrey is the nominating committee Chairman.

Code of Ethics

We currently have not adopted a code of ethics due to our limited size and operations. We have considered adopting a Code of Business Conduct and Ethics (the "Code") in the past. We expect to adopt the Code or something similar in the future. The purpose of the Code is to assist the Company and its employees, officers and directors with the Company's goals of conducting its business and affairs in accordance with applicable laws, rules and regulations and to promote honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships. The Company expects that any consultants or other service providers it retains will adhere to the Code.

Section 16(a) Beneficial Ownership Compliance.

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our executive officers and directors and persons who own more than 10% of a registered class of our equity securities to file with the Securities and Exchange Commission initial statements of beneficial ownership, reports of changes in ownership and annual reports concerning their ownership of our common stock and other equity securities, on Forms 3, 4 and 5 respectively. Executive officers, directors and greater than 10% shareholders are required by the Securities and Exchange Commission regulations to furnish us with copies of all Section 16(a) reports they file. Such persons are further required by SEC regulation to furnish us with copies of all Section 16(a) forms (including Forms 3, 4 and 5) that they file. Based solely on our review of the copies of such forms received by us with respect to fiscal year 2011, or written representations from certain reporting persons, we believe all of our directors, executive officers and 10% holders have met all applicable filing requirements, except as described in this paragraph:

The following persons are holders of 10% of our common stock and have not filed a Form 3: Deborah Sue Ghourdjian Separate Property Trust and Matthew Ghourdjian, and Daniel F. Terry, Jr.. The following persons are officers and directors of the Company who are not known to have filed Form 3s or Form 4s: Matthew Ghourdjian, Vincent Mesolella, Daniel F. Terry, Jr. and Minh N. Le. The following persons are officers and directors of the Company and hold warrants to purchase shares of our common stock and have not filed Form 3s or Form 4s, as applicable: Matthew Ghourdjian, Vincent Mesolella, Daniel F. Terry, Jr. and Minh N. Le.

ITEM 11. EXECUTIVE COMPENSATION

As of December 31, 2012, we did not experience any cash flow event as a result of any payment to an executive. We have not provided retirement benefits or severance or change of control benefits to our named executive officer, Gerard M. Jacobs. Unexercised options or warrants issued as compensation held by our executive officers at the year ended 2012 are set out in the following table. Other than the options and warrants issuance described herein, no equity awards were made during the year ended December 31, 2012.

Name and Principal Position (a)	Year (b)	Salary (c)	Bonus (d)	Stock Awards (e)	Option Awards (f)	NonEquity Incentive Plan Compensation (g)	Nonqualified Deferred Compensation Earnings (h)	All Other Compensation (i)	Total (j)
Gerard M. Jacobs, CEO(1)	2012	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -
	2011	\$ -	\$ -	\$ -	\$920,719(2)	\$ -	\$ -	\$ -	920,719
Matthew Ghourdjian, CTO(2)	2012	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -
	2011	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -

Minh N. Le EVP(3)(4)	2012	\$258,750	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	258,750
	2011	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -

(1) Mr. Jacobs holds options to purchase 100,000 shares of our common stock at a purchase price of \$0.001 per share expiring November 4, 2020, plus options to purchase 471,698 shares of our common stock at a purchase price of \$2.00 per share expiring November 4, 2020, plus options to purchase 605,000 shares of our common stock at a purchase price of \$2.00 per share expiring on September 29, 2021.

(2) Mr. Ghourdjian served as the CEO of Cogility Software until September 2011 when he became co-chairman of Acquired Sales' board of directors and chief technology officer. As of the date of this report, Mr. Ghourdjian has not been paid a salary by Acquired Sales.

(3) Messrs. Terry and Le hold warrants and/or options issued to them in connection with loans to the Company in the case of Mr. Terry and acquisition of DSTG in the case of Mr. Le. Please refer to "Item 12. Security Ownership of Certain Beneficial Owners and Management."

(4) Mr. Le joined Acquired Sales upon the acquisition of DSTG in February 2012.

Compensation of Directors

The table below sets forth the compensation of our directors for the fiscal years ended December 31, 2011 and 2012.

Name	Year	Fees earned or paid in cash (\$)	Stock awards (\$)	Option awards (\$)(1)(2)	Non-equity incentive plan compensation (\$)	Nonqualified deferred compensation earnings (\$)	All other compensation (\$)	Total (\$)(3)
Gerard M. Jacobs	2012	-	-	-	-	-	-	-
	2011	-	-	-	-	-	-	-
Joshua A. Bloom	2012	-	-	25,000	-	-	-	38,785
	2011	-	-	\$ -	-	-	-	\$ -
Roger S. Greene	2012	-	-	25,000	-	-	-	38,785
	2011	-	-	\$ -	-	-	-	\$ -
Michael McCaffrey	2012	-	-	25,000	-	-	-	38,785
	2011	-	-	\$ -	-	-	-	\$ -
Vincent J. Mesolella	2012	-	-	160,000	-	-	-	248,224
	2011	-	-	\$ -	-	-	-	\$ -
Richard E. Morrissey	2012	-	-	25,000	-	-	-	38,785
	2011	-	-	\$ -	-	-	-	\$ -
Matthew Ghourdjian	2012	-	-	-	-	-	-	-
	2011	-	-	-	-	-	-	-
James S. Jacobs	2012	-	-	30,000	-	-	-	46,542
	2011	-	-	\$ -	-	-	-	\$ -

(1) The 2012 options entitle the holder to purchase shares of our common stock at a purchase price of \$2.00 per share.

(2) The weighted-average grant-date fair value of options granted during the three months ended December 31, 2012 was \$1.5514 per share. The Company recognizes compensation expense for stock-based awards expected to vest on a straight-line basis over the requisite service period of the award based on their grant date fair value. The Company estimates the fair value of stock options using a Black-Scholes option pricing model which requires management to make estimates for certain assumptions regarding risk-free interest rate, expected life of options, expected volatility of stock and expected dividend yield of stock.

(3) The current market price of the underlying common stock shares as of the date of this filing is approximately \$3.75 per common share.

Compensation Discussion and Analysis

The Company does not have any paid employees and has not yet entered into long term executive or non-executive employment agreements, except Minh N. Le, our Executive Vice President and the CEO of our DSTG subsidiary, so as to limit the Company's exposure and liability. As indicated elsewhere in this Report, the Company regularly engages outside consultants, accountants and other professional service providers for purposes of providing services to the Company. The Company endeavors, where able, to issue options in lieu of cash compensation, so as to preserve

capital where needed and limit cash risk exposure.

Historically, funding for the Company was sourced from management affiliates and their contacts, who collectively loaned approximately \$1,500,000 in the past several years. The Corporation limits cash compensation to outside or internal directors and does not have a cash compensation policy. The Corporation believes that, given the extensive experience of Mr. Jacobs and the rest of the board of directors, and the current opportunity cost factor for each of them, as combined with the fact that each of them has continued to provide services without cash compensation, that the amount of historical compensation provided in the form of options is fair and reasonable for the Corporation.

Compensation Committee

Our directors and officers do not receive remuneration from us unless approved by the Board of Directors, but we may enter into employment agreements with officers in the future. No such payment shall preclude any director from serving us in any other capacity and receiving compensation in connection with that service. Notwithstanding the foregoing, in the year ended December 31, 2012, with the exception of the equity payments set out in the section entitled "Compensation of Directors" no remuneration was paid any of our directors for services as director. We have a compensation committee consisting of Joshua A. Bloom, Roger S. Greene, Michael D. McCaffrey, Vincent J. Mesolella and Richard E. Morrissy as members. Roger Greene as serves as the committee's chairman.

Aggregate Option Exercise of Last Fiscal year and Fiscal Year-End Option Values

Shares of common stock totaling 25,000 were acquired upon the exercise of options during the fiscal year ended December 31, 2012. The table below sets forth unexercised options, stock that has not yet vested and equity incentive plan awards for each named executive officer outstanding as of December 31, 2012. The options are exercisable at the respective prices listed below.

Outstanding Equity Awards At Fiscal Year End
(see description of columns (a) through (j) below)

Option Awards						Stock			
(a)	(b)	(c)	(d)	(e)	(f)	(g)	(h)	(i)	(j)
Gerard M. Jacobs CEO	605,000	-	-	\$2.00	9/29/21				
	100,000			\$0.001	11/4/20				
	471,698			\$2.00	11/4/20				
Minh N. Le V.P.	300,000			\$3.18	2/13/17				
	100,000			\$8.00	6/30/17				

Description of Columns (a) through (j):

- (a) The name of the named executive officer (column (a));
- (b) On an award-by-award basis, the number of securities underlying unexercised options, including awards that have been transferred other than for value, that are exercisable and that are not reported in column (d) (column (b));
- (c) On an award-by-award basis, the number of securities underlying unexercised options, including awards that have been transferred other than for value, that are unexercisable and that are not reported in column (d) (column (c));
- (d) On an award-by-award basis, the total number of shares underlying unexercised options awarded under any equity incentive plan that have not been earned (column (d));
- (e) For each instrument reported in columns (b), (c) and (d), as applicable, the exercise or base price (column (e));
- (f) For each instrument reported in columns (b), (c) and (d), as applicable, the expiration date (column (f));

- (g) The total number of shares of stock that have not vested and that are not reported in column (i) (column (g));
- (h) The aggregate market value of shares of stock that have not vested and that are not reported in column (j) (column (h));
- (i) The total number of shares of stock, units or other rights awarded under any equity incentive plan that have not vested and that have not been earned, and, if applicable the number of shares underlying any such unit or right (column (i)); and
- (j) The aggregate market or payout value of shares of stock, units or other rights awarded under any equity incentive plan that have not vested and that have not been earned (column (j)).

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth certain information regarding the beneficial ownership of common stock of the Company by (i) each person who, to the Company's knowledge, owns more than 5% of its Common Stock, (ii) each of the Company's named executive officers and directors, and (iii) all of the Company's named executive officers and directors as a group. Shares of the Company's Common Stock subject to options, warrants, or other rights currently exercisable, or exercisable within 60 days of the date hereof, are deemed to be beneficially owned and outstanding for computing the share ownership and percentage of the person holding such options, warrants or other rights, but are not deemed outstanding for computing the percentage of any other person. As of the date hereof, the Company has 2,960,444 shares of Common Stock issued and outstanding.

Name and Address	Amount and Nature of Beneficial Ownership	Percent of Voting Securities
Gerard M. Jacobs (1)	2,671,005	90.2%
Matthew Ghourdjian (2)	2,671,005	90.2%
Joshua A. Bloom, M.D. (3)	30,000	0.1%
Roberti Jacobs Family Trust (4)	466,623	15.8%
Roger S. Greene (5)	180,708	6.1%
Michael D. McCaffrey (6)	30,000	0.1%
Richard E. Morrissy (7)	30,000	0.1%
Vincent J. Mesolella (8)	247,862	8.4%
Joseph S. Keller (9)	150,000	5.1%
Deborah Sue Ghourdjian Separate Property Trust (10)	763,344	25.8%
James S. Jacobs (11)	140,000	4.7%
Daniel F. Terry, Jr. (12)	734,500	24.8%
Minh N. Le (13)	704,986	23.8%
Total Officers and Directors as group (10 persons)	4,769,061(14)	161.1%

- (1) The address for Mr. Jacobs is 31 N. Suffolk Lane, Lake Forest, Illinois 60045. Mr. Jacobs, our co-chairman, chief executive officer, chief development officer, secretary, and treasurer has voting control over 1,813,321 shares, consisting of: (a) 181,623 Company shares owned by the Roberti Jacobs Family Trust, over which Mr. Jacobs has voting control via a 2007 shareholders agreement; (b) 170,000 Company shares owned by unrelated shareholders of the Company, over which Mr. Jacobs has voting control via a 2007 shareholders agreement; (c) 605,000

options at \$2.00 per share, the vesting of which occurred upon the closing of the merger with Cogility; (d) 471,698 options at \$2.00 per share and 100,000 options exercisable at \$0.001 per share (originating from Cogility); and (e) 285,000 warrants at between \$2.00 and \$3.50 per share, owned by the Roberti Jacobs Family Trust, over which Mr. Jacobs has voting control via a 2007 shareholders agreement. The Deborah Sue Ghourdjian Separate Property Trust and Matthew Ghourdjian have signed a shareholder agreement that commits them to vote their shares consistent with the vote of Gerard M. Jacobs and Matthew Ghourdjian. As such, for the purposes of this disclosure, 857,684 shares held by the Trust and Matthew Ghourdjian are deemed beneficially owned by Gerard M. Jacobs for the purposes of voting.

- (2) Prior to the Merger, Mr. Ghourdjian owned 500,000 shares of Cogility common stock which was acquired in the Merger in exchange for 94,340 common shares of Acquired Sales common stock. The Deborah Sue Ghourdjian Separate Property Trust held 6,825,314 shares in Cogility, which was acquired in the Merger in exchange for 1,287,796 shares of Acquired Sales common stock of which the Deborah Sue Ghourdjian Separate Property Trust subsequently sold 597,000 of those shares of Acquired Sales common stock to Daniel F. Terry, Jr. in exchange for \$525,000 of Cogility notes. After the sale of Cogility, Acquired Sales purchased those \$525,000 of Cogility notes from the Deborah Sue Ghourdjian Separate Property Trust for \$262,500 in cash and 82,548 shares of Acquired Sales common stock, of which 10,000 shares were issued to James S. Jacobs at the direction of the Trust. Mr. Ghourdjian is a beneficiary of the Deborah Sue Ghourdjian Separate Property Trust in the event of Ms. Ghourdjian's death, but has no dispositive power over the Trust's shares. The address for Mr. Ghourdjian is 31 N. Suffolk Lane, Lake Forest, Illinois 60045. The Deborah Sue Ghourdjian Separate Property Trust and Gerard M. Jacobs have signed a shareholder agreement that commits them to vote their shares consistent with the vote of Gerard M. Jacobs and Matthew Ghourdjian. For the purposes of this disclosure, 763,344 shares held by the Deborah Sue Ghourdjian Separate Property Trust and 1,813,321 shares controlled by Gerard M. Jacobs are deemed beneficially owned by Matthew Ghourdjian for the purposes of voting.
- (3) The address for Dr. Bloom is 31 N. Suffolk Lane, Lake Forest, Illinois 60045. Dr. Bloom does not own any shares of stock. However, he holds options to purchase 30,000 shares of our common stock at \$2.00 per share.
- (4) The address for the Roberti Jacobs Family Trust is 31 N. Suffolk Lane, Lake Forest, Illinois 60045. The Roberti Jacobs Family Trust irrevocably conveyed all of its voting power to Gerard M. Jacobs pursuant to the 2007 shareholder agreement described above. Mr. Jacobs is one of the grantors of the trust corpus, Mr. Jacobs' mother in law Joan B. Roberti is the trustee, and Mr. Jacobs' children are the beneficiaries. The trust is irrevocable. The Trust's 466,623 shares consist of (a) 181,623 shares owned, and (b) 285,000 warrants owned at between \$2.00 and \$3.50 per share.
- (5) The address for Mr. Greene is 6 Joliet Drive, Coto de Caza, California 92679. Mr. Greene owns 113,208 shares of stock. In addition, he holds options and warrants to purchase a total of 67,500 shares of our common stock, consisting of (a) 30,000 options at \$2.00 per share, (b) 25,000 options exercisable at \$0.001 per share and (c) 12,500 warrants at \$2.00 per share.
- (6) The address for Mr. McCaffrey is 31 N. Suffolk Lane, Lake Forest, Illinois 60045. Mr. McCaffrey does not own any shares of stock. However, he holds options to purchase 30,000 shares of our common stock at \$2.00 per share.
- (7) The address for Mr. Morrissy is 31 N. Suffolk Lane, Lake Forest, Illinois 60045. Mr. Morrissy does not own any shares of stock. However, he holds options to purchase 30,000 shares of our common stock at \$2.00 per share.
- (8) The address for Mr. Mesolella is 27 Paddock Drive, Lincoln, Road Island 02865. Mr. Mesolella owns 7,862 shares of our common stock. He holds options and warrants to purchase a total of 240,000 shares of our common stock, consisting of (a) 165,000 options at \$2.00 per share (b) 25,000 options exercisable at \$0.001 per share and (c) 50,000 warrants at between \$2.00 and \$3.50 per share..
- (9) The address for Mr. Keller is 25991 W. Herman Ave., Antioch, IL 60002. Mr. Keller does not own any shares of stock. However, he holds warrants to purchase a total of 150,000 common stock shares, consisting of (a) 125,000 warrants at \$2.00 per share, and (b) one of his affiliates, Glendenning Capital, Inc., has 25,000 warrants at \$2.00 per share.
- (10) The address for the Deborah Sue Ghourdjian Separate Property Trust is 31 N. Suffolk Lane, Lake Forest, Illinois 60045. The Deborah Sue Ghourdjian Separate Property Trust has signed a shareholder agreement that commits it to vote its shares consistent with the vote of Gerard M. Jacobs and Matthew Ghourdjian.
- (11) The address for Dr. Jacobs is 31 N. Suffolk Lane, Lake Forest, Illinois 60045. Dr. Jacobs own 10,000 shares of stock. He holds 100,000 warrants and 30,000 options at a \$2.00 per share exercise price.
- (12) The address for Daniel F. Terry, Jr., our President and Chief Operating Officer, is 31 N. Suffolk Lane, Lake Forest, Illinois 60045. Mr. Terry owns 597,000 shares of our stock which he purchased from the Deborah Sue Ghourdjian Separate Property Trust. He holds 137,500 warrants exercisable at prices ranging between \$2.00 and \$3.50.
- (13)

The address for Minh N. Le is 31 N. Suffolk Lane, Lake Forest, Illinois 60045. Mr. Le owns 211,986 shares of our stock, 100,000 of which he received in the acquisition of DSTG and 111,986 of which he purchased from Acquired Sales for \$3.18 per share. He holds 400,000 options to purchase Acquired Sales common stock at exercise prices ranging between \$3.18 and \$8.00 per share. He holds warrants to purchase 93,000 shares of Acquired Sales common stock at \$3.25 per share.

- (14) Due to the combination of proxies and a shareholder agreement, all of the shares of the Roberti Jacobs Family Trust, Gerard M. Jacobs, Matthew Ghourdjian, the Deborah Sue Ghourdjian Separate Property Trust, collectively total 2,671,005 shares (which total includes unexercised options and warrants which may be exercised at any time in the discretion of the holder) which may be voted together (without any double counting). The other directors and officers hold a total of 2,098,056 shares which includes unexercised options and warrants which may be exercised at any time in the discretion of the holder.

Option Plans

None.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The following describes all transactions executed or performed in 2011 and 2012 and currently proposed transactions in which we are a participant and the amount involved exceeds \$120,000, as well as loans that we deem material, and in which any related person had or will have a direct or indirect material interest.

At December 31, 2012 the Company had recorded accrued compensation that includes \$570,979 in deferred payroll and vacation pay, and payroll taxes payable, \$110,777 in employee reimbursements payable, and commissions payable to one current and one former employee in the aggregate amount of \$198,967.

On September 13, 2011, a key executive resigned his position and entered into a severance agreement with the Company. On September 16, 2010, the Company had signed a letter agreeing to pay the former executive officer \$47,000 in one-time commissions, with payment deferred until 30 days after the closing of a private placement of common stock or debt convertible into common stock in the total amount of at least \$2,000,000. Under the severance agreement the former executive officer is to receive a one-time bonus of \$35,000 and deferred compensation of \$18,432 payable upon the completion of a private placement of common stock or debt convertible into common stock in the total amount of at least \$2,000,000.

Operating Loans 2011 and 2012

On September 13, 2011, the Company issued a demand promissory note to Miss Mimi Corporation, an affiliate of our chief executive officer, in the amount of \$4,000. This note bears interest at 10% per annum and is unsecured.

On January 30, 2012 a Daniel Terry, our COO, loaned the Company \$75,000 for working capital needs. The loan is non-interest bearing, without collateral and due upon demand.

On February 14, 2012 James S. Jacobs, MD, a member of our board of directors, loaned the Company \$200,000 for working capital needs. The loan bears interest at 6% per year payable quarterly. The loan is payable on demand by lender, with a mandatory payment in full upon the closing of the first capital raise (e.g., bank loans or sales of common stock or preferred stock) by Company. In addition, the loan terms grant the lender 100,000 warrants to purchase shares of common stock of Acquired Sales Corp., exercisable at \$2.00 per share at any time through the fifth anniversary of the loan.

On March 15, 2012, Vincent J. Mesolella, a member of our board of directors, loaned the Company \$25,000 for working capital needs. The loan bears interest at 6% per year payable quarterly. The loan is payable on demand by lender, with a mandatory payment in full upon the closing of the first capital raise (e.g., bank loans or sales of common stock or preferred stock) by Company. In addition, the loan terms grant the lender 12,500 warrants to purchase shares of common stock of Acquired Sales Corp., exercisable at \$2.00 per share at any time through the fifth anniversary of the loan.

On March 28, 2012, The Roberti Jacobs Family Trust, an entity affiliated with our chief executive officer, loaned the Company \$100,000 for working capital needs. The loan bears interest at 6% per year payable quarterly. The loan is payable on demand by lender, with a mandatory payment in full upon the closing of the first capital raise (e.g., bank loans or sales of common stock or preferred stock) by Company. In addition, the loan terms grant the lender 50,000 warrants to purchase shares of common stock of Acquired Sales Corp., exercisable at \$2.00 per share at any time through the fifth anniversary of the loan.

In the quarter ending June 30, 2012, we borrowed \$100,000 from Dan Terry, one of our officers. In connection with this note, we issued warrants to purchase 50,000 shares of our common stock to Mr. Terry. The related note payable, bears interest at 6% per annum, payable quarterly, and is due upon demand. In addition, during this period, we issued warrants to purchase 37,500 shares of our common stock in connection with a \$75,000 loan to the company made by Mr. Terry in the first quarter of 2012. All of the foregoing warrants have an exercise price of \$2.00 per share and expire 5 years from their respective issuance dates.

On July 16, 2012 and July 25, 2012 we borrowed \$50,000 and \$50,000, respectively, from Minh Le, one of our officers. Attached to the notes payable were a total of 50,000 warrants to purchase common stock at a price of \$3.25 per share. On July 9, 2012, we borrowed another \$30,000 from Vincent J. Mesolella, one of our directors. Attached with this note payable were 15,000 warrants to purchase common stock at a price of \$3.25 per share. On July 13, 2012, we borrowed \$100,000 from Roberti Jacobs Family Trust, an entity related to Gerard M. Jacobs, an officer of the Company. Attached with this note payable were 50,000 warrants to purchase common stock at a price of \$3.25 per share. All of the related notes payable bear interest at 6% per annum, payable quarterly, and are due upon demand. All of the warrants expire 5 years from their respective issuance dates.

On July 25, 2012, our wholly owned DSTG subsidiary issued a note for \$86,000 payable to Minh Le, one of our officers. Attached to the note payable were a total of 43,000 warrants to purchase common stock at a price of \$3.25 per share.

On December 13, 2012 we borrowed \$20,000, from Roberti Jacobs Family Trust. Attached to the notes payable were a total of 10,000 warrants to purchase common stock at a price of \$3.50 per share. On December 13, 2012, we borrowed another \$20,000 from Vincent J. Mesolella, one of our directors. Attached with this note payable were 10,000 warrants to purchase common stock at a price of \$3.50 per share. On December 14, 2012, we borrowed \$100,000 from Daniel Terry, Jr., our President and COO. Attached with this note payable were 50,000 warrants to purchase common stock at a price of \$3.50 per share. All of the related notes payable bear interest at 6% per annum, payable quarterly, and are due upon demand. All of the warrants expire 5 years from their respective issuance dates.

On December 18, 2012 Minh Le, one of our officers, advanced us \$8,275 for short-term working capital needs. The loan is without interest, unsecured and due upon demand.

2011 Note Offering

In 2011, the Company issued promissory notes totaling \$920,000 accruing interest at a rate of 3% per year in a private placement, \$400,000 of which notes were issued to related parties. The Company's private placement offering documents said that investors would have to put up their investment money in the form of cash, excepting only that (a) Michael Ottele would be permitted to exchange the \$20,000 loan which he made to Cortez Systems on December 1, 2010 for a \$20,000 investment in the private placement, and (b) The Roberti Jacobs Family Trust, an affiliate of Gerard M. Jacobs, our chief executive officer and a director, would be permitted to exchange its \$200,000 note from Cogility dated December 13, 2010 for a \$200,000 investment in the private placement.

Here is a summary of the Company's private placement, subsequent to December 31, 2010, and the re-loaning of a portion of the proceeds of the Company's private placement to Cogility:

(1) On January 31, 2011:

(a) the Roberti Jacobs Family Trust invested \$225,000 in the private placement: \$25,000 in the form of cash, plus \$200,000 in the form of an assignment of its \$200,000 note from Cogility dated December 13, 2010; this \$225,000 investment was evidenced by a Company 3% Secured Promissory Note dated January 31, 2011, plus the Company Warrant No. 1 to purchase 2,250,000 shares of the Company common stock at \$0.10 per share (subject to the 1-for-20 reverse split which decreases the number of shares to 112,500 and increases the exercise price to \$2.00);

(b) Roger S. Greene, one of our directors, invested \$25,000 in the private placement: \$25,000 in the form of cash; this \$25,000 investment was evidenced by a Company 3% Secured Promissory Note dated January 31, 2011, plus the Company Warrant No. 2 to purchase 250,000 shares of the Company common stock at \$0.10 per share (subject to the 1-for-20 reverse split which decreases the number of shares to 12,500 and increases the exercise price to \$2.00); and

(c) the Company loaned Cogility \$50,000 in cash, and received from Cogility its Secured Promissory Note No. 1 payable to the Company in the principal amount of \$250,000, covering the \$50,000 loaned in cash plus the \$200,000 note from Cogility dated December 13, 2010 that had been assigned to the Company by the Roberti Jacobs Family Trust;

(2) On February 11, 2011:

(a) Vincent J. Mesolella, one of our directors, invested \$25,000 in the private placement: \$25,000 in the form of cash; this \$25,000 investment was evidenced by a Company 3% Secured Promissory Note dated February 11, 2011, plus the Company Warrant No. 3 to purchase 250,000 shares of the Company common stock at \$0.10 per share (subject to the 1-for-20 reverse split which decreases the number of shares to 12,500 and increases the exercise price to \$2.00); and

(b) the Company loaned Cogility \$25,000 in cash, and received from Cogility its Secured Promissory Note No. 2 payable to the Company in the principal amount of \$25,000, covering the \$25,000 loaned in cash;

(3) On February 15, 2011:

(a) the Roberti Jacobs Family Trust invested \$50,000 in the private placement: \$50,000 in the form of cash; this \$50,000 investment was evidenced by a Company 3% Secured Promissory Note dated February 11, 2011, plus the Company Warrant No. 4 to purchase 500,000 shares of the Company common stock at \$0.10 per share (subject to the 1-for-20 reverse split which decreases the number of shares to 25,000 and increases the exercise price to \$2.00); and

(b) the Company loaned Cogility \$50,000 in cash, and received from Cogility its Secured Promissory Note No. 3 payable to the Company in the principal amount of \$50,000, covering the \$50,000 loaned in cash;

(4) On February 28, 2011:

(a) the Roberti Jacobs Family Trust invested \$75,000 in the private placement: \$75,000 in the form of cash; this \$75,000 investment was evidenced by a Company 3% Secured Promissory Note dated February 28, 2011, plus the Company Warrant No. 5 to purchase 750,000 shares of the Company common stock at \$0.10 per share (subject to the 1-for-20 reverse split which decreases the number of shares to 37,500 and increases the exercise price to \$2.00); and

(b) the Company loaned Cogility \$75,000 in cash, and received from Cogility its Secured Promissory Note No. 4 payable to the Company in the principal amount of \$75,000, covering the \$75,000 loaned in cash;

(5) On March 1, 2011:

(a) Nicholas M. Keller III invested \$50,000 in the private placement: \$50,000 in the form of cash; this \$50,000 investment was evidenced by a Company 3% Secured Promissory Note dated March 1, 2011, plus the Company Warrant No. 6 to purchase 500,000 shares of the Company common stock at \$0.10 per share (subject to the 1-for-20 reverse split which decreases the number of shares to 25,000 and increases the exercise price to \$2.00); and

(b) the Company loaned Cogility \$50,000 in cash, and received from Cogility its Secured Promissory Note No. 5 payable to the Company in the principal amount of \$50,000, covering the \$50,000 loaned in cash;

(6) On March 11, 2011:

(a) Joseph S. Keller invested \$250,000 in the private placement: \$250,000 in the form of cash; this \$250,000 investment was evidenced by a Company 3% Secured Promissory Note dated March 11, 2011, plus the Company Warrant No. 7 to purchase 2,500,000 shares of the Company common stock at \$0.10 per share (subject to the 1-for-20 reverse split which decreases the number of shares to 125,000 and increases the exercise price to \$2.00);

(b) Michael Ottele invested \$20,000 in the private placement: \$20,000 in the form of an assignment of the \$20,000 loan which he made to Cortez Systems on December 1, 2010; this \$20,000 investment was evidenced by a Company 3% Secured Promissory Note dated March 11, 2011, plus the Company Warrant No. 8 to purchase 200,000 shares of the Company common stock at \$0.10 per share (subject to the 1-for-20 reverse split which decreases the number of shares to 10,000 and increases the exercise price to \$2.00); and

(c) the Company loaned Cogility \$200,000 in cash, and received from Cogility its Secured Promissory Note No. 7 payable to the Company in the principal amount of \$220,000, covering the \$200,000 loaned in cash plus the \$20,000 loan to Cortez Systems that had been assigned to the Company by Michael Ottele (to balance the transaction, Cogility received \$20,000 in notes from Cortez Systems); and

(7) On March 15, 2011:

(a) John and Susan Heider invested \$150,000 in the private placement: \$150,000 in the form of cash; this \$150,000 investment was evidenced by a Company 3% Secured Promissory Note dated March 15, 2011, plus the Company Warrant No. 9 to purchase 1,500,000 shares of the Company common stock at \$0.10 per share (subject to the 1-for-20 reverse split which decreases the number of shares to 75,000 and increases the exercise price to \$2.00);

(b) Glendenning Capital, Inc. invested \$50,000 in the private placement: \$50,000 in the form of cash; this \$50,000 investment was evidenced by a Company 3% Secured Promissory Note dated March 15, 2011, plus the Company Warrant No. 10 to purchase 500,000 shares of the Company common stock at \$0.10 per share (subject to the 1-for-20 reverse split which decreases the number of shares to 25,000 and increases the exercise price to \$2.00); and

(c) the Company loaned Cogility \$150,000 in cash, and received from Cogility its Secured Promissory Note No. 7 payable to the Company in the principal amount of \$150,000, covering the \$150,000 loaned in cash.

PART IV

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

Hansen, Barnett & Maxwell, P.C. have served as our auditors since 2007. Representatives of Hansen, Barnett & Maxwell, P.C. are expected to be present at our next Annual Meeting of Shareholders with the opportunity to make a statement, if they so desire, and will be available to respond to appropriate questions from shareholders.

The following table presents fees for all professional services provided by Hansen, Barnett & Maxwell, P.C. for the audit of our consolidated financial statements for the years ended December 31, 2012 and December 31, 2011, and fees billed for other services rendered by Hansen, Barnett & Maxwell, P.C. during those periods.

Audit Fees. Fees for audit services totaled \$139,820 in 2012 and \$126,914 in 2011, including fees associated with the annual audit, the review of our quarterly reports on Form 10-Q, comfort letters, consents, assistance with and review of documents to be filed with the SEC and Section 404 consultation services.

Tax Fees. Fees for tax services, including tax compliance, tax advice and tax planning totaled \$3,950 in 2012 and \$2,500 in 2011.

ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES.

Financial Statements and Schedules

The financial statements are set forth under Item 8 of this Annual Report on Form 10-K. Financial statement schedules have been omitted since they are either not required, not applicable, or the information is otherwise included.

Exhibit List

The following Exhibits have been previously filed in the below referenced filings or have been attached hereto, and in any case, as is stated on the cover of this Report, all of the below Exhibits are incorporated herein by reference.

Reports on Form 8-K

Disposition of Cogility Subsidiary

On January 16, 2013 we filed an 8-K, as supplemented and amended on February 12, 2013, pursuant to Item 1.01: Entry into a Material Definitive Agreement, Item 2.01: Completion of Acquisition or Disposition of Assets, wherein we announced the sale of our subsidiary Cogility to privately held and unrelated limited liability company Drumright pursuant to a Stock Purchase Agreement dated January 12, 2013 (the “SPA”). The 8-K stated that on February 11, 2013, we completed the disposition of assets. The sale of all of the capital stock of our subsidiary, Cogility, to Drumright was in exchange for \$3,675,000 in cash, \$300,000 in cash that was placed in a trust account for settlement of any potential claims, a \$2,700,000 receivable and a \$300,000 contingent receivable. The \$2,700,000 is receivable as follows: \$1,200,000 on August 11, 2013 and \$1,500,000 on February 11, 2014. As part of the SPA, as amended, we were required to use the \$3,675,000 down payment, to the extent necessary, to pay all of Cogility’s liabilities, including liabilities that were secured by Cogility’s assets or capital stock. Cogility is in the process of signing a material contract with a contractor to the U.S. Government. The \$300,000 contingent receivable is due on August 11, 2013; however, to the extent that funding of the material contract is delayed beyond March 1, 2013, the contingent receivable will be reduced by \$100,000 per month of delay up to a maximum reduction of \$300,000. The funding of this material contract was achieved as of March 11, 2013, so we estimate that the contingent receivable will be reduced by a total of approximately \$32,258.

The SPA contained customary and usual representations and warranties of the parties, along with various covenants to be observed and conditions to the obligations of each to close the SPA. A copy of the SPA was attached to our Current Report on Form 8-K dated January 16, 2013. A copy of the first amended SPA was filed with our amended Current Report on Form 8-K/A on February 12, 2013. Please refer to sections entitled “Legal Proceedings” and “Risk Factors” for contingencies relating to the SPA.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized on March 29, 2013.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and the Shareholders
Acquired Sales Corp. and Subsidiaries

We have audited the accompanying consolidated balance sheets of Acquired Sales Corp. and Subsidiaries as of December 31, 2012 and 2011, and the related statements of operations, shareholders' deficit, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Cogility Software Corporation as of December 31, 2012 and 2011, and the results of its operations and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, at December 31, 2012, the Company had negative working capital, a shareholders' deficit and had an accumulated deficit. In addition, the Company suffered losses from continuing operations during the years ended December 31, 2012 and 2011 and used cash in its operating activities from continuing operations during the years ended December 31, 2012 and 2011. Additionally, as discussed in Notes 2 and 11, the Company sold 100% of the capital stock of its subsidiary, Cogility Software Corporation, which is its primary source of revenue. These matters raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regards to these matters are also described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

ACQUIRED SALES CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 – BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES
Basis of Presentation – On November 4, 2010, Acquired Sales Corp. (“Acquired Sales”) entered into an agreement with Cogility Software Corporation (“Cogility”) that was closed on September 29, 2011, whereby Cogility was merged with and into a newly-formed subsidiary of Acquired Sales. To effect the merger, Cogility shareholders owning 100% of the 11,530,493 Cogility common shares outstanding received 2,175,564 Acquired Sales common shares, or one Acquired Sales common share for each 5.3 Cogility common shares outstanding. Acquired Sales reverse split its common shares outstanding on a 1-for-20 basis, which results in the 5,832,482 Acquired Sales pre-split common shares outstanding before the merger becoming 291,760 common shares. In addition, Cogility had stock options outstanding that would have permitted the holders thereof to purchase 5,724,666 Cogility common shares at prices ranging from \$0.001 to \$1.40 per share. In the merger transaction, the Cogility option holders exchange these stock options for 1,080,126 Acquired Sales stock options exercisable at prices ranging from \$0.001 to \$5.00 per share.

The Cogility shareholders received 88.2% of the common shares outstanding after the merger and the shareholders and management of Cogility gained ownership and operating control of the combined company after the merger. Accordingly, Cogility was considered the accounting acquirer under current accounting guidance and the merger was recognized as a recapitalization of Cogility. The results of operations prior to the merger are those of Cogility, restated on a retroactive basis for all periods presented for the effects of the 5.3-for-1 reverse stock split. The exchange of the stock options was considered to be part of the recapitalization of Cogility and was not a modification of the Cogility stock options.

On February 13, 2012, Acquired Sales purchased 100% of the equity interests of Defense & Security Technology Group, Inc. (“DSTG”). The results of DSTG’s operations have been included in the consolidated financial statements since that date.

On January 12, 2013, Acquired Sales entered into an agreement with Drumright Group, LLC (“Drumright”) that was closed on February 11, 2013, wherein Acquired Sales sold 100% of the capital stock of Cogility to Drumright in exchange for \$3,675,000 in cash and a \$3,000,000 receivable. Under the terms of the agreement, Acquired Sales was required to transfer Cogility to Drumright without any liabilities. To accomplish this requirement, the \$3,675,000 down payment was placed into an escrow account and to the extent necessary was used to pay Cogility’s liabilities remaining at the closing date including liabilities that were secured by Cogility’s assets or its capital stock. Acquired Sales was entitled to all accounts receivable earned prior to January 31, 2013. The historical results of Cogility’s operations have been reclassified to discontinued operations.

Principles of Consolidation – The accompanying consolidated financial statements include the accounts and operations of Cogility Software Corporation for all periods presented, the accounts and operations of Acquired Sales Corp. from September 29, 2011 and accounts and operations of Defense & Security Technology Group, Inc. from February 14, 2012. These entities for these respective periods are referred to herein as “the Company.” Intercompany accounts and transactions have been eliminated on consolidation.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. Significant estimates include share-based compensation, forfeiture rates and the potential outcome of future tax

ACQUIRED SALES CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

consequences of events that have been recognized for financial reporting purposes. Actual results and outcomes may differ from management's estimates and assumptions.

Accounts Receivable – Accounts receivable are stated at the amount billed to customers, net an allowance for doubtful accounts. The Company evaluates the collectability of the amount receivable from each customer and provides an allowance for those amounts estimated to be uncertain of collection. Accounts determined to be uncollectible are written off against the allowance for doubtful accounts.

Property and Equipment – Property and equipment are recorded at cost less accumulated depreciation. Maintenance, repairs, and minor replacements are charged to expense as incurred. When depreciable assets are retired, sold, traded in or otherwise disposed, the cost and related accumulated depreciation are removed from the accounts and the resulting gain or loss is reflected in operations. Depreciation is calculated on the straight-line method over the estimated useful lives of the assets, which are three to five years. Depreciation expense for the years ended December 31, 2012 and 2011 was \$34,781 and \$45,023 respectively.

Software Development Costs– Software development costs consist primarily of compensation of development personnel, related overhead incurred to develop new products and upgrade and enhance the Company's current products and fees paid to outside consultants. Software development costs incurred subsequent to the determination of technological feasibility and marketability of a software product are capitalized. Capitalization of costs ceases and amortization of capitalized software development costs commences when the products are available for general release. For the years ended December 31, 2012, and 2011, no software development costs were capitalized because the time period and cost incurred between technological feasibility and general release for all software product releases was insignificant.

Revenue Recognition – The Company enters into contractual arrangements with end-users of its products to sell software licenses, hardware, consulting services and maintenance services, either separately or in various combinations thereof. For each arrangement, revenue is recognized when persuasive evidence of an arrangement exists, the fees to be paid by the customer are fixed or determinable, collection of the fees is probable, and delivery of the product or services has occurred. When the Company is the primary obligor or bears the risk of loss, revenue and costs are recorded on a gross basis. When the Company receives a fixed transactional fee, revenue is recorded under the net method based on the net amount retained.

In contractual arrangements where services are essential to the functionality of the software or hardware, or payment of the license fees are dependent upon the performance of the related services, revenue for the software license, hardware and consulting fees are recognized on the completed-contract method when the contract is substantially completed and all related deliverables have been provided to and accepted by the customer. This method is used because the Company is unable to accurately estimate total cost of individual contracts until the contracts are substantially complete. Provisions for estimated losses on uncompleted contracts are made in the period in which such losses are determined. Claims for additional compensation are recognized during the period such claims are resolved and collected.

Costs of software, hardware and costs incurred in performing the contract services are deferred until the related revenue is recognized. Contract costs include all purchased software and hardware, subcontract and labor costs and those indirect costs related to contract performance, such as indirect labor, supplies, equipment, and travel costs as well as depreciation on equipment used in performance of the contractual arrangements. Depreciation on administrative assets and selling, general and administrative costs are charged to expense as incurred.

Costs in excess of amounts billed are classified as current assets under the caption Costs in excess of billings on uncompleted contracts. Billings in excess of costs are classified as current liabilities under the caption Billings in excess of costs on uncompleted contracts. Contract retentions are included in accounts receivables.

F-9

ACQUIRED SALES CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Software Licensing and Hardware Sales: When software licensing and/or hardware functionality are not dependent upon performance of services, the amount of revenue under the arrangement is allocated to the deliverable elements based on prices the Company sells the separate elements, if objectively determinable. If so determinable, the amounts allocated to the software licensing are recognized as revenue at the time of shipment of the software to the customer. Such sales occur when the Company resells third-party software and hardware systems and related peripherals as part of an end-to-end solution to its customers. The Company considers delivery to occur when the product is shipped and title and risk of loss have passed to the customer.

Consulting Services: Consulting services are comprised of consulting, implementation, software installation, data conversion, building interfaces to allow the software to operate in integrated environments, training and applications. Consulting services are sold on a fixed-fee and a time-and-materials basis, with payment normally due upon achievement of specific milestones. Consulting services revenue is recognized under the completed-contract method as described above.

Hosting: During the year ended December 31, 2012 and 2011, the Company provided remote management, monitoring, data processing, updating or administrative support of applications software, servers, operating systems and other automation tools to customers. Revenue was comprised of recurring fees for licensing access to and the use of the Company's application software as a service, on a subscription or on-demand basis over a contractual term. Related recurring fees were recognized as the services were provided. Related one-time set up fees were recognized on a straight-line basis over the longer of the contractual term or the expected life of the relationship.

Maintenance and Support Services: Maintenance and support services consist primarily of fees for providing unspecified software upgrades on a when-and-if-available basis and technical support over a specified term, which is typically twelve months. Maintenance revenues are recognized ratably over the term of the related agreement.

Concentration of Significant Customers – At December 31, 2012, accounts receivable from three customers accounted for 100% of total accounts receivable. In 2011, revenue from two customers totaled over 86% of total revenue earned. Revenue from these significant customers is included in discontinued operations.

Income Taxes – Provisions for income taxes are based on taxes payable or refundable for the current year and deferred income taxes. Deferred income taxes are provided on differences between the tax bases of assets and liabilities and their reported amounts in the financial statements and on tax carry forwards. Deferred tax assets and liabilities are included in the financial statements at currently enacted income tax rates applicable to the period in which the deferred tax assets and liabilities are expected to be realized or settled. As changes in tax laws or rates are enacted, deferred tax assets and liabilities are adjusted through the provision for income taxes. A valuation allowance is provided against deferred income tax assets when it is not more likely than not that the deferred income tax assets will be realized.

Basic and Diluted Loss Per Common Share – Basic loss per common share is determined by dividing net loss by the weighted-average number of common shares outstanding during the period. Diluted loss per common share is calculated by dividing net loss by the weighted-average number of common shares and dilutive common share equivalents outstanding during the period. When dilutive, the incremental

ACQUIRED SALES CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

potential common shares issuable upon exercise of stock options and warrants are determined by the treasury stock method.

During the year ended December 31, 2012 and 2011 there were 2,336,981 and 1,785,126 employee stock options and 938,000 and 460,000 warrants outstanding, respectively. These were excluded from the computation of the diluted loss per share for the years ended December 31, 2012 and 2011 because their effects would have been anti-dilutive.

Share-Based Compensation Plan – Stock-based compensation to employees and consultants is recognized as a cost of the services received in exchange for an award of equity instruments and is measured based on the grant date fair value of the award or the fair value of the consideration received, whichever is more reliably measureable. Compensation expense is recognized over the period during which service is required to be provided in exchange for the award (the vesting period).

Reclassifications – Certain reclassifications have been made to the financial statements for the year ended December 31, 2011 to conform to the December 31, 2012 presentation. The reclassifications had no effect on net loss.

NOTE 2 - RISKS AND UNCERTAINTIES

The Company has a history of recurring losses, which has resulted in an accumulated deficit of \$11,500,063 as of December 31, 2012. During the year ended December 31, 2012, the Company recognized \$250,400 in revenue from continuing operations, suffered a loss of \$1,443,967 from continuing operations and \$920,059 from discontinued operations for a total loss of \$2,364,026. The Company used \$483,741 of cash in its operating activities from continuing operations and \$276,207 of cash in its operating activities from discontinued operations for total cash used in operating activities of \$759,948. At December 31, 2012, the Company had negative working capital of \$2,852,954 and a stockholders' deficit of \$3,309,339. These conditions raise substantial doubt about the Company's ability to continue as a going concern. In an effort to alleviate the Company's lack of liquidity, the Company sold 100% of the stock of its subsidiary, Cogility Software Corporation (Cogility) on February 11, 2013 (See Note 11). However, the sale of Cogility eliminates the Company's primary source of revenue. As a result, there can be no assurance that the Company will not need additional financing or that the Company will be profitable after the sale of Cogility in order to continue as a going concern.

The accompanying financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

NOTE 3 – ACQUISITIONS

Acquired Sales Corp. - On September 29, 2011, Acquired Sales Corp. ("Acquired Sales") completed the acquisition of Cogility Software Corporation ("Cogility") whereby Cogility was merged with and into a newly-formed subsidiary of Acquired Sales. Cogility was considered the accounting acquirer and the merger was recognized as a recapitalization of Cogility.

As of September 29, 2011, Acquired Sales had been a non-operating public shell corporation with no significant operations or assets except for notes receivable from Cogility that were eliminated in consolidation. Acquired Sales

was not a business for purposes of determining whether a business combination occurred. The acquisition of Acquired Sales was recognized as the issuance of 291,760

F-11

ACQUIRED SALES CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

shares of common stock, the issuance of 460,000 warrants exercisable at \$2.00 per share through September 30, 2016, and the issuance of 630,000 stock options exercisable at \$2.00 per share through September 29, 2021, in exchange for the assumption of \$7,029 of accounts payable from Acquired Sales.

Defense & Security Technology Group, Inc. – Acquired Sales purchased 100% of the equity interests of Defense & Security Technology Group, Inc. (“DSTG”) on February 13, 2012. The results of DSTG’s operations have been included in the consolidated financial statements since that date. DSTG collaborates with clients to help its leaders make distinctive decisions leading to substantial improvements in enterprise performance. Founded in 2007, DSTG is currently fulfilling a limited number of contracts for military and commercial customers.

DSTG was acquired in exchange for 100,000 shares of common stock, stock options to purchase 300,000 common shares at \$3.18 per share through February 13, 2017, and stock options to purchase 100,000 common shares at \$8.00 per share through May 13, 2017. The fair value of the consideration issued to acquire DSTG was \$679,302. The common shares issued were valued at \$3.18 per share based on management’s estimate of their fair value, or \$318,000 in total. The fair value of the stock options granted was \$361,302 determined by the Black-Scholes option pricing model with the following weighted-average assumptions: expected future volatility of 56%; risk-free interest rate of 0.29%; dividend yield of 0% and an expected term of 2.5 years. The expected volatility was based on a peer company’s volatility and the volatility of indexes of the stock prices of companies in the same industry. The risk-free interest rate was based on the U.S. Federal treasury rate for instruments due over the expected term of the options. The expected term of the options was determined based on one-half of the contractual term.

The purchase of DSTG was a business combination recognized by the acquisition method of accounting. Goodwill was not recognized on the transaction; however, Acquired Sales recognized \$32,649 of compensation to the owner of DSTG separately from the recognition of the assets acquired and the liabilities assumed in the business combination. The compensation expense and \$40,461 of acquisition-related costs were included in selling, general and administrative expense during the year ended December 31, 2012. The fair value of the assets acquired and the liabilities assumed were measured based on significant inputs that are not observable in the market and are considered Level 3 fair value inputs. The fair value of the assets acquired, liabilities assumed and compensation recognized was as follows:

Cash	\$23,611
Accounts receivable, net	161,900
Deposits	4,900
Property and equipment	2,567
Intangible assets	601,525
Total assets acquired	794,503
Accounts payable	(18,393)
Distributions payable to selling shareholder	(86,000)
Estimated future costs in excess of future billings on uncompleted contracts	(43,457)
Total liabilities assumed	(147,850)
Fair value of net assets acquired	646,653
Compensation expense recognized	32,649
Fair Value of Consideration Issued	\$679,302

ACQUIRED SALES CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

All of the \$601,525 of acquired intangible assets relate to non-contractual customer relationships with U.S. government procurement departments. The customer relationships had an estimated useful life of approximately 2 years. The Company recognized amortization expense for the customer relationships of \$263,167 for the year ended December 31, 2012.

The amounts of DSTG's revenue and loss included in the accompanying consolidated statement of operations for the years ended December 31, 2012 and 2011, and the supplemental pro forma revenue and loss of the combined entity had the acquisition dates of Acquired Sales and DSTG been January 1, 2012 or January 1, 2011, are as follows:

	For the Year Ended Ended December 31,	
	2012	2011
DSTG actual:		
Revenue	\$250,400	\$-
Loss	\$(133,061)	\$-
Supplemental pro forma:		
Revenue	\$641,822	\$228,130
Loss	\$(2,190,652)	\$(5,048,712)

NOTE 4 – EARNINGS AND COSTS ON UNCOMPLETED CONTRACT

At December 31, 2012 the Company was in the process of providing a software license, hardware and services to three customers. Revenue and costs on the uncompleted contracts were deferred at December 31, 2012 and will be recognized upon completion of the contracts. Contract billings in excess of contract costs on uncompleted contracts at December 31, 2012 and 2011 were as follows:

	December 31, 2012	December 31, 2011
Billings to date	\$814,105	\$813,601
Less: Costs on uncompleted contracts	(437,455)	(173,579)
Billings in Excess of Costs on Uncompleted Contracts	\$376,650	\$640,022

When the contracts existing in 2012 are completed, \$744,356 of revenues will be recognized in discontinued operations and \$69,749 of revenue will be recognized in continuing operations. These Contracts are expected to be completed and recognized during the year ended 2013.

NOTE 5 – PROPERTY AND EQUIPMENT

Property and equipment held for sale consists of the following at December 31 2012 and 2011:

ACQUIRED SALES CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

	December 31,	
	2012	2011
Computer equipment	\$206,084	\$201,235
Computer software	2,083,184	2,082,300
Leasehold improvements	2,019	2,019
Furniture and fixtures	22,959	3,675
Total property and equipment	2,314,246	2,289,229
Less: accumulated depreciation	(2,288,808)	(2,237,310)
Net property and equipment	\$25,438	\$51,919

NOTE 6– RELATED PARTY TRANSACTIONS

At December 31, 2012 the Company had recorded accrued compensation that includes \$570,979 in deferred payroll and vacation pay, and payroll taxes payable, \$110,777 in employee reimbursements payable, and commissions payable to one current and one former employee in the aggregate amount of \$198,967.

On September 13, 2011, a key executive resigned his position and entered into a severance agreement with the Company. On September 16, 2010, the Company had signed a letter agreeing to pay the former executive officer \$47,000 in one-time commissions, with payment deferred until 30 days after the closing of a private placement of common stock or debt convertible into common stock in the total amount of at least \$2,000,000. Under the severance agreement the former executive officer is to receive a one-time bonus of \$35,000 and deferred compensation of \$18,432 payable upon the completion of a private placement of common stock or debt convertible into common stock in the total amount of at least \$2,000,000.

NOTE 7– NOTES PAYABLE

Notes Payable to Related Parties – At December 31, 2012, the Company had notes payable to a significant shareholder, affiliated with an officer of the Company for \$525,000. The notes are unsecured, non-interest bearing and due upon demand. The Company has entered into an agreement with the significant shareholder that, at such time as the Company is financially able to do so and at the reasonable discretion of the chief executive officer of the Company, the notes payable held by the significant shareholder would be extinguished in full by the payment of \$262,500 in cash and the issuance of 85,548 shares common stock. Based on the fair value of the Company's common stock on the date of the agreement of \$3.18 per share, the significant shareholder received a contingent beneficial conversion feature in connection with the agreement. On February 11, 2013, the Company extinguished the note under the terms of the agreement and recognized a \$9,543 loss on extinguishment of the notes payable.

At December 31, 2012, the Company had \$375,000 of notes payable to related parties that are secured by all the assets of the Company, bear interest at 3% per annum and are due December 31, 2014. The notes were issued with warrants to purchase common stock that resulted in the notes payable being carried at a discount to their face value. At December 31, 2012, the carrying amount of the notes payable was \$344,601, net of \$30,399 of unamortized discount.

On January 30, 2012 an officer advanced the Company \$75,000 for short term working capital needs. The loan was without interest, unsecured and due upon demand. On April 1, 2012, the terms of the loan were renegotiated such that the loan bears interest at 6% per annum, payable quarterly, and is due upon

ACQUIRED SALES CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

demand. In addition the officer was awarded 37,500 warrants to purchase common stock at a price of \$2.00 per share. All of the warrants expire 5 years from their respective issuance dates. The fair value of the 37,500 warrants issued was estimated to be \$58,174 using the Black-Scholes option pricing model using the following weighted-average assumptions: estimated future volatility of 52.61%; risk-free interest rate of 0.33%; dividend yield of 0% and an estimated term of 2.5 years. The renegotiation was treated as an extinguishment of debt. The Company recognized a loss on the extinguishment of debt of \$58,174.

In connection with the acquisition of DSTG on February 13, 2012, the Company assumed an \$86,000 distribution payable to the former DSTG shareholder. The liability is without interest, due upon demand and unsecured. On July 25, 2012, the terms of the loan were renegotiated such that the loan bears interest at 6% per annum, payable quarterly, and is due upon demand. In addition the officer was awarded 43,000 warrants to purchase common stock at a price of \$3.25 per share. All of the warrants expire 5 years from their respective issuance dates. The fair value of the 43,000 warrants issued was estimated to be \$41,646 using the Black-Scholes option pricing model using the following weighted-average assumptions: estimated future volatility of 47.80%; risk-free interest rate of 0.25%; dividend yield of 0% and an estimated term of 2.5 years. The renegotiation was treated as an extinguishment of debt. The Company recognized a loss on the extinguishment of debt of \$41,646.

On February 14, 2012, the Company borrowed \$200,000 from a director of the Company. Attached with the note payable were 100,000 warrants to purchase common stock at a price of \$2.00 per share. On March 13, 2012, the Company borrowed another \$25,000 from a director of the Company. Attached with this note payable were 12,500 warrants to purchase common stock at a price of \$2.00 per share. On March 29, 2012, the Company borrowed \$100,000 from an entity related to an officer of the Company. Attached with this note payable were 50,000 warrants to purchase common stock at a price of \$2.00 per share. All of the related notes payable bear interest at 6% per annum, payable quarterly, and are due upon demand. All of the warrants expire 5 years from their respective issuance dates.

In association with the aggregate notes payable of \$325,000, the fair value of the 162,500 warrants issued was estimated to be \$252,102 using the Black-Scholes option pricing model using the following weighted-average assumptions: estimated future volatility of 52.62%; risk-free interest rate of 0.33%; dividend yield of 0% and an estimated term of 2.5 years. The warrants qualify to be recognized as stockholders' equity; therefore, the consideration received was allocated to the notes payable and the warrants based on their relative fair values and resulted in \$183,027 being allocated to the notes payable and \$141,973 allocated to the warrants. Because the notes are due on demand, the \$141,973 discount to the notes payable was immediately recognized as interest expense.

On March 31, 2012 a significant shareholder advanced the Company \$60,000 for short-term working capital needs. The loan was without interest, unsecured and due upon demand. The note payable was paid in full on April 13, 2012.

On June 4, 2012 the Company borrowed an additional \$100,000 from an officer of the Company. Attached with this note payable were 50,000 warrants to purchase common stock at a price of \$2.00 per share. The related note payable bears interest at 6% per annum, payable quarterly, and is due upon demand. All of the warrants expire 5 years from their issuance dates.

In association with the notes payable of \$100,000, the fair value of the 50,000 warrants issued was estimated to be \$75,010 using the Black-Scholes option pricing model using the following weighted-average assumptions: estimated future volatility of 50.62%; risk-free interest rate of 0.25%; dividend yield of 0% and an estimated term of 2.5 years.

The warrants qualify to be recognized as stockholders' equity; therefore, the consideration received was allocated to the notes payable and the warrants based on

F-15

ACQUIRED SALES CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

their relative fair values and resulted in \$57,134 being allocated to the notes payable and \$42,866 allocated to the warrants. Because the notes are due on demand, the \$42,866 discount to the notes payable was immediately recognized as interest expense.

On July 16 and 25, 2012 the Company borrowed \$50,000 and \$50,000, respectively, from an officer of the Company. Attached to the notes payable were a total of 50,000 warrants to purchase common stock at a price of \$3.25 per share. On July 9, 2012, the Company borrowed another \$30,000 from a director of the Company. Attached with this note payable were 15,000 warrants to purchase common stock at a price of \$3.25 per share. On July 13, 2012, the Company borrowed \$100,000 from an entity related to an officer of the Company. Attached with this note payable were 50,000 warrants to purchase common stock at a price of \$3.25 per share. All of the related notes payable bear interest at 6% per annum, payable quarterly, and are due upon demand. All of the warrants expire 5 years from their respective issuance dates.

In association with the aggregate notes payable of \$230,000, the fair value of the 115,000 warrants issued was estimated to be \$110,417 using the Black-Scholes option pricing model using the following weighted-average assumptions: estimated future volatility of 47.58%; risk-free interest rate of 0.25%; dividend yield of 0% and an estimated term of 2.5 years. The warrants qualify to be recognized as stockholders' equity; therefore, the consideration received was allocated to the notes payable and the warrants based on their relative fair values and resulted in \$155,397 being allocated to the notes payable and \$74,603 allocated to the warrants. Because the notes are due on demand, the \$74,603 discount to the notes payable was immediately recognized as interest expense.

On September 26, 2012 a party related to an officer of the Company advanced the Company \$7,000 for short-term working capital needs. The loan was without interest, unsecured and due upon demand. The note payable was paid in full on October 8, 2012.

On December 13, 2012 the Company borrowed \$20,000, from an entity related to an officer of the Company. Attached to the notes payable were a total of 10,000 warrants to purchase common stock at a price of \$3.50 per share. On December 13, 2012, the Company borrowed another \$20,000 from a director of the Company. Attached with this note payable were 10,000 warrants to purchase common stock at a price of \$3.50 per share. On December 14, 2012, the Company borrowed \$100,000 from an officer of the Company. Attached with this note payable were 50,000 warrants to purchase common stock at a price of \$3.50 per share. All of the related notes payable bear interest at 6% per annum, payable quarterly, and are due upon demand. All of the warrants expire 5 years from their respective issuance dates.

In association with the aggregate notes payable of \$140,000, the fair value of the 70,000 warrants issued was estimated to be \$74,122 using the Black-Scholes option pricing model using the following weighted-average assumptions: estimated future volatility of 56.49%; risk-free interest rate of 0.26%; dividend yield of 0% and an estimated term of 2.5 years. The warrants qualify to be recognized as stockholders' equity; therefore, the consideration received was allocated to the notes payable and the warrants based on their relative fair values and resulted in \$77,067 being allocated to the notes payable and \$62,933 allocated to the warrants. Because the notes are due on demand, the \$62,933 discount to the notes payable was immediately recognized as interest expense.

On December 18, 2012 an officer of the Company advanced the Company \$8,275 for short-term working capital needs. The loan is without interest, unsecured and due upon demand.

The details of the terms of the notes payable to related parties and their carrying amounts were as follows at December 31, 2012 and December 31, 2011:

F-16

ACQUIRED SALES CORP. AND SUBSIDIARIES

Less: Current portion	(1,489,275)	(540,829)
Long-Term Notes Payable - Related Parties	\$344,601	\$331,330

Notes Payable – At December 31, 2012, notes payable to a lending company totaled \$130,070, are unsecured, non-interest bearing and due on demand. The Company has not imputed interest on the loans; as such imputed interest would not have been material to the accompanying financial statements.

At December 31, 2012, the Company had \$520,000 of notes payable to third parties that are secured by all the assets of the Company, bear interest at 3% per annum and are due December 31, 2014. The notes were issued with warrants to purchase common stock that resulted in the notes payable being carried at a discount to their face value. At December 31, 2012, the carrying amount of the notes was \$480,480, net of \$39,520 of unamortized discount.

The details of the terms of the notes payable and their carrying amounts were as follows at December 31, 2012 and December 31, 2011:

	December 31, 2012	December 31, 2011
Non-interest bearing notes payable to a lending company; unsecured; due on demand	\$130,070	\$130,070
3% \$520,000 Notes payable; due December 31, 2014; interest payable quarterly; secured by all of the assets of the Company; net of \$39,520 and \$60,555 unamortized discount based on imputed interest rate of 7.60%	480,480	459,445
Total Notes Payable	610,550	589,515
Less: Current portion	(130,070)	(130,070)
Long-Term Notes Payable	\$480,480	\$459,445

NOTE 8– SHAREHOLDERS’ DEFICIT

During the years ended December 31, 2012 and December 31, 2011, the chief executive officer provided services to the Company, which services were determined by the board of directors to have had a fair value of \$250,000 for each period. The Company has recognized a capital contribution of \$250,000 during each of the years ended December 31, 2012 and December 31, 2011 for the services provided by the executive officer.

On March 31, 2012, the Company granted stock options to directors for the purchase of 290,000 shares of common stock at \$2.00 per share. The options vested on the date granted. The grant-date fair value of

F-17

ACQUIRED SALES CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

these options was \$449,905, or a weighted-average fair value of \$1.55 per share, determined by the Black-Scholes option pricing model using the following weighted-average assumptions: expected future volatility of 53%; risk-free interest rate of 0.33%; dividend yield of 0% and an expected term of 2.5 years. The expected volatility was based on a peer company's volatility and the volatility of indexes of the stock prices of companies in the same industry. The risk-free interest rate was based on the U.S. Federal treasury rate for instruments due over the expected term of the options. The expected term of the options was determined based on one half of the contractual term. Additionally, the Company granted 400,000 options in association with the acquisition of DSTG, which is described in Note 3.

Following is a summary of stock option activity as of December 31, 2012 and 2011 and changes during the years then ended:

	Shares	Weighted - Average Exercise Price	Weighted- Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value
Outstanding, December 31, 2010	1,117,924	\$ 1.80		
Granted	705,000	1.90

Outstanding, December 31, 2012	2,336,981	\$ 2.29	7.33	\$ 2,088,338
Exercisable, December 31, 2012	2,336,981	\$ 2.29	7.33	\$ 2,088,338

Share-based compensation expense charged against operations during the years ended December 31, 2012 and 2011 was \$449,905 and \$706,704, respectively, and was included in selling, general and administrative expenses. There was no income tax benefit recognized. As of December 31, 2012, all compensation expense related to stock options had been recognized.

On May 23, 2012, the Company entered into a nine month consulting agreement with a third party to provide institutional market awareness and public relations services. The value of these services were valued at \$150,000 and were paid with 150,000 shares of its common stock at a negotiated price \$1.00 per share.

On May 14, 2012 a consultant exercised 25,000 stock options at a price of \$ 0.001 per option. The aggregate intrinsic value of the options exercised was \$79,475.

The following is a summary of warrants outstanding at December 31, 2012 and changes during the year then ended:

	Weighted - Average Exercise Price	Weighted- Average Remaining Contractual Term	Aggregate Intrinsic Value

NOTE 9– INCOME TAXES

During the years ended December 31, 2012 and 2011, the Company did not incur any current tax on its continuing operations and there was no deferred tax provision or benefit from continuing operations.

At December 31, 2012, the Company has U.S. Federal net operating loss carry forwards of \$5,937,379 that will expire in 2024 through 2032 if not used by those dates and California state net operating loss carry forwards of \$5,392,713 will expire in 2015 through 2032 if not used by those dates.

As of December 31, 2012, the Company had no unrecognized tax benefits that, if recognized, would affect the Company's effective income tax rate over the next 12 months. The Company currently believes that all significant filing positions are highly certain and that all of its significant income tax filing positions and deductions would be sustained upon audit. Therefore, the Company has no significant reserves for uncertain tax positions and no adjustments to such reserves were required by generally accepted accounting principles. The Company's policy is to recognize accrued interest and penalties related to unrecognized tax benefits in the provision for income taxes. The Company's tax returns are subject to examination for the years ended December 31, 2009 through 2012. A reconciliation of the amount of tax benefit computed using the U.S. federal statutory income tax rate to the provision for income taxes on continuing operations is as follows:

	For the Years Ended December 31,	
	2012	2011
Tax benefit at statutory rate (35%)	\$(505,388)	\$(79,572)
State tax benefit, net of federal benefit	(65,700)	(10,344)
Non-deductible expenses	139,435	-
Change in valuation allowance	431,654	89,916
Provision for Income Taxes	\$-	\$-

The tax effects of temporary differences and carry forwards that gave rise to the net deferred income tax asset as of December 31, 2012 and 2011 were as follows:

	December 31,	
	2012	2011
Deferred tax assets		
Operating loss carry forwards	\$3,019,332	\$2,448,895
Stock-based compensation	443,433	296,816
Accrued liabilities and other items	21,260	178,261
Depreciation	(11,066)	(13,506)
Less: Valuation allowance	(3,472,959)	(2,910,466)
Net Deferred Income Tax Asset	\$-	\$-

NOTE 10 – COMMITMENTS AND CONTINGENCIES

The Company leased one facility in Providence, Rhode Island under an operating lease. The lease expired on February 15, 2013.

ACQUIRED SALES CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The Company entered into an agreement with a consultant on February 18, 2011 whereby the Company agreed to pay the consultant a fee based on net revenue received from two potential new software products. The fee would be equal to 5% of the net revenue received, after deducting software licensing and equipment costs from third parties, from two potential contracts and, for a period of five years, any subsequent revenue from reselling the work product that may result from providing software and services under either of the two potential contracts. No fees were paid or accrued under this agreement during the years ended December 31, 2012 or December 31, 2011. In addition, the Company agreed to pay the third party a fee of 7% on any new capital raised that results from their services.

One of Cogility's employees claims that he has filed a wage claim against Cogility for \$302,000 with the California Labor Board. Cogility intends to vigorously defend against this claim. The range of potential loss from this claim is up to \$302,000 and the Company believes it has adequately provided for this potential claim in the accompanying consolidated financial statements.

The Company is subject to other legal proceedings, claims, and litigation arising in the ordinary course of business. The Company defends itself vigorously against any such claims. Although the outcome of these other matters is currently not determinable, management does not expect that the ultimate costs to resolve these matters will have a material adverse effect on its consolidated financial position, results of operations, or cash flows.

NOTE 11- DISCONTINUED OPERATIONS

On January 12, 2013, Acquired Sales entered into an agreement with Drumright Group, LLC ("Drumright") that was closed on February 11, 2013, wherein Acquired Sales sold 100% of the capital stock of its subsidiary, Cogility Software Corporation ("Cogility") to Drumright in exchange for \$3,675,000 in cash and a \$3,000,000 receivable. The \$3,000,000 is receivable \$1,500,000 on August 11, 2013, less an estimated \$32,258 in connection with a certain military contract delay, and \$1,500,000 on February 11, 2014. In addition, Acquired Sales was required to hold \$300,000 in an escrow account for potential subsequent claims. Acquired Sales was responsible for all costs and expenses and retained all accounts receivable relating to work performed by Cogility on revenue contracts through January 31, 2013, with those costs, expenses and revenue transitioning to Drumright thereafter. Acquired Sales retained a contract to create "legal analytics" software.

Under the terms of the agreement, Acquired Sales was required to transfer Cogility to Drumright without any liabilities. To accomplish this requirement, the \$3,975,000 down payment was placed into an escrow account and to the extent necessary was used to pay Cogility's liabilities, including liabilities that were secured by Cogility's assets or its capital stock.

The Company agreed to indemnify Drumright for losses caused by breaches of the Company's representations and warranties. In March 2013, Drumright notified the Company of the existence of a second amendment to a license agreement between Cogility and one of its customers that was effective April 2007. Despite the fact that Acquired Sales' management was not aware of the existence of the second amendment until Drumright's notification in March 2013, in the event that Drumright determines that such second amendment to the license agreement will result in losses to Drumright, Drumright could make a claim for indemnification against the Company or otherwise could file a lawsuit against Acquired Sales. The Company estimates that the range of potential loss from this claim is up to \$3,200,000 and will affect the amount of gain the Company will recognize from the sale of Cogility.

ACQUIRED SALES CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The historical results of Cogility's operations have been reclassified to discontinued operations for the years included in the accompanying consolidated financial statements. Operating results of Cogility included in discontinued operations for the years ended December 31, 2012 and 2011 were as follows:

	For the Year Ended Ended December 31,	
	2012	2011
Revenues	\$2,033,557	\$460,496
Cost of services	992,448	192,503
Gross Profit	1,041,109	267,993
Selling and general and administrative expenses	1,642,066	4,296,064
Loss from operations	(600,957)	(4,028,071)
Loss from extinguishment of debt	58,174	-
Interest expense	260,128	44,129
Loss before provision for income taxes	(919,259)	(4,072,200)
Income taxes	800	800
Net Loss from Discontinued Operations	\$(920,059)	\$(4,073,000)
