We wish to caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made. Any forward-looking statements represent management's best judgment as to what may occur in the future. However, forward-looking statements are subject to risks, uncertainties and important factors beyond our control that could cause actual results and events to differ materially from historical results of operations and events and those presently anticipated or projected. We disclaim any obligation subsequently to revise any forward-looking statements to reflect events or circumstances after the date of such statement or to reflect the occurrence of anticipated or unanticipated events.

General

Amazonica, Corp. (hereinunder "we," "the Company" or "the Registrant") was incorporated in the State of Nevada on June 2, 2010. We are in the business of distributing of Brazilian hardwood flooring.

On May 2, 2013, the Registrant filed an Certificate of Amendment to its Articles of Incorporation ("Certificate") with the Secretary of State of the State of Nevada to increase the number of shares of authorized capital of the Company from 75,000,000 shares of common stock, \$0.001 par value per share, to 1,500,000,000 shares of common stock, \$0.001 par value per share. The amendment was approved by the officers and directors of the Registrant who own 85.22% of the issued and outstanding stock. On May 24, 2013, the 175-1 forward stock split effectuated by the Registrant became effective. The record date of the split was May 8, 2013. Accordingly, shareholders owning shares on such date received 174 shares of the Registrant for each share they owned as of such date. Prior to the forward stock split, the company had 3,520,000 shares issued and outstanding. Effective the forward stock split, the Registrant has 616,000,000 shares issued All share and per share data have been retroactively restated to reflect this forward stock split.

We are a development-stage company. To date we have not generated any revenue. The only operations we have engaged in to date were the development of our business plan and the execution of the Exclusive Contract for Sale of Goods, dated as of April 15, 2011, with Equatorian S.A. Laminados Amazonia, whereby we engaged the afore-mentioned Equatorian S.A. Laminados Amazonia as our supplier of hardwood flooring.

Product

The Company is a distributor of Brazilian hardwood flooring. Brazilian hardwood is manufactured from rare types of wood (such as Rose Wood, Snake Wood, Brazilian Teak, Santos Mahogany, Tigerwood, Brazilian Walnut and others). Some of the varieties of hardwood (e.g. Rosewood) have been excessively overharvested and are no longer exported from Brazil and are now only available in North America from recycled materials such as furniture. We will also distribute products that are usually included with main product as a service kit, such as small hardwood products like: molding, glue and necessary finishing material to maintain floors.

Certain statements contained in this Annual Report, including statements regarding the anticipated development and expansion of our business, our intent, belief or current expectations, primarily with respect to our future operating performance and other statements contained herein regarding matters that are not historical facts, are "forward-looking" statements. Future filings with the SEC, future press releases and future oral or written statements made by us or with our approval, which are not statements of historical fact, may contain forward-looking statements, because such statements include risks and uncertainties, and actual results may differ materially from those expressed or implied by such forward-looking statements. All forward-looking statements speak only as of the date on which they are made and reflect our plans, estimates and beliefs. Our actual results could differ materially from those anticipated in these forward-looking statements. We undertake no obligation to update such statements to reflect events that occur or circumstances that exist after the date on which they are made. The following discussion and analysis should be read in conjunction with the audited financial statements and notes thereto included elsewhere in this Annual Report.

The following discussion should be read in conjunction with our financial statements, including the notes thereto, appearing elsewhere in this annual report. The following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed in the forward looking statements. Our audited financial statements are stated in United States Dollars and are prepared in accordance with United States Generally Accepted Accounting Principles.

PLAN OF OPERATION

We are currently looking to develop the business of distributing of Brazilian hardwood flooring. If we are able to raise the required capital to develop our business, we plan on acquiring inventory, investing in marketing and developing our distribution network. We believe we require about \$200,000 to carry out this business plan. However, we have not yet been to secure such financing and there can be no assurance that we will be able to secure it in the future. Consequently, along with trying to raise funds for our original business plan, we are also actively seeking partners for joint ventures, asset acquisitions or other business combinations.

RESULTS OF OPERATIONS

We have incurred recurring losses to date. Our financial statements have been prepared assuming that we will continue as a going concern and, accordingly, do not include adjustments relating to the recoverability and realization of assets and classification of liabilities that might be necessary should we be unable to continue in operation.

We expect we will require additional capital to meet our long term operating requirements. We expect to raise additional capital through, among other things, the sale of equity or debt securities.

FISCAL YEAR ENDED APRIL 30, 2013 COMPARED TO FISCAL YEAR ENDED APRIL 30, 2012.

Our net loss for the fiscal year ended April 30 2013 was \$32,846 compared to a net loss of \$19,331 during the fiscal year ended April 30, 2012. During fiscal year ended April 30, 2013 and the fiscal year ended April 30, 2012, the Company did not generate any revenue.

During the fiscal year ended April 30, 2013, we incurred general and administrative expenses of \$32,846, compared to \$19,331 incurred during fiscal year ended April 30, 2012. These expenses incurred during the fiscal year ended April 30, 2013 consisted of: \$128.09 in interest and bank charges, \$10,250 in professional fees and \$22,468 in transfer agent and DTC application fees.

LIQUIDITY AND CAPITAL RESOURCES

FISCAL YEAR ENDED APRIL 30, 2013

As of April 30, 2013, we had no assets----- and our total liabilities were \$30,387, comprised of \$29,987 loan payable to a director and \$400 in accounts payable.

As of April 30, 2012, we had \$7,583 in assets and \$5,124 in liabilities. Stockholders' equity decreased from \$2,459 as of April 30, 2012 to \$(30,387) as of April 30, 2013.

Cash Flows from Financing Activities

We have financed our operations primarily from either advancements or the issuance of equity and debt instruments. For the period from inception (June 2, 2010) to April 30, 2013, cash provided by financing activities was \$20,820 received from the sale of the issuance of 520,000 shares at \$0.04 per share and 3,000,000 shares at \$0.001 per share.

Current cash on hand is insufficient for all of the Company's commitments for the next 12 months. We anticipate that the additional funding that we require will be in the form of equity financing.

We estimate that within the next 12 months we will need approximately \$200,000 for acquisition of inventory, marketing and developing a distribution chain.

We cannot be certain that the required additional financing will be available or available on terms favorable to us. We currently do not have any arrangements or commitments in place for any other financings. If additional funds are raised by the issuance of our equity securities, existing stockholders will experience dilution of their ownership interest. If adequate funds are not available or not available on acceptable terms, we may be unable to fund our operations.

We have no lines of credit or other bank financing arrangements. Generally, we have financed operations to date through the proceeds of the private placement of equity and debt instruments. In connection with our business plan, management anticipates additional increases in operating expenses and capital expenditures relating to: (i) acquisition of inventory; (ii) developmental expenses associated with a start-up business; and (iii) marketing expenses. We intend to finance these expenses with equity sales or loans. Additional issuances of equity or convertible debt securities will result in dilution to our current shareholders. Further, such securities might have rights, preferences or privileges senior to our common stock. Additional financing may not be available upon acceptable terms, or at all. If adequate funds are not available or are not available on acceptable terms, we may not be able to take advantage of prospective new business endeavors or opportunities, which could significantly and materially restrict our business operations.

OFF-BALANCE SHEET ARRANGEMENTS

As of the date of this Annual Report, we do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

GOING CONCERN

The independent auditors' report accompanying our April 30, 2013 and April 30, 2012 financial statements contains an explanatory paragraph expressing substantial doubt about our ability to continue as a going concern. The Company has incurred losses since inception resulting in an accumulated deficit of \$54,187 as of April 30, 2013 and further losses are anticipated in the development of the business raising substantial doubt about the Company's ability to continue as a going concern. The financial statements have been prepared "assuming that we will continue as a going concern," which contemplates that we will realize our assets and satisfy our liabilities and commitments in the ordinary course of business.

INDEPENDENT AUDITOR' REPORT ON FINANCIAL STATEMENTS

To the Board of Directors
Amazonica, Inc.

We have audited the accompanying balance sheet of Amazonica, Inc. (A Development Stage Company) as of April 30, 2013, and the related statements of operations, stockholders' equity and cash flows for the period then ended, and the period June 2, 2010 (inception) to April 30, 2013. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Amazonica, Inc. (A Development Stage Company) as of April 30, 2013 and the results of its operations and cash flows for the periods then ended and June 2, 2010 (inception), to April 30, 2013 in conformity with generally accepted accounting principles in the United States of America.

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note #2 to the financial statements, the company has had significant operating losses; a working capital deficiency and its need for new capital raise substantial doubt about its ability to continue as a going concern. Management's plan in regard to these matters is also described in Note #2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

AMAZONICA, CORP.

(A Development Stage Company)
Notes To The Financial Statements
April 30, 2013

NOTE 1 - ORGANIZATION AND NATURE OF BUSINESS

Amazonica, Corp. ("the Company") was incorporated under the laws of the State of Nevada, U.S. on June 2, 2010. We are a development-stage company in the field of marketing and distributing hardwood flooring. The Company is in the development stage as defined under Statement on Financial Accounting Standards Accounting Standards Codification FASB ASC 915-205 "Development-Stage Entities". Amazonica, Corp. is in the business of distributing of Brazilian hardwood flooring. The Company has not generated any revenue to date and consequently its operations are subject to all risks inherent in the establishment of a new business enterprise. For the period from inception, June 2, 2010 through April 30, 2013 the Company has accumulated losses of \$54,187.

NOTE 2 - GOING CONCERN

The financial statements have been prepared on a going concern basis, which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has incurred losses since inception resulting in an accumulated deficit of \$54,187 as of April 30, 2013 and further losses are anticipated in the development of its business raising substantial doubt about the Company's ability to continue as a going concern. The ability to continue as a going concern is dependent upon the Company generating profitable operations in the future and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management intends to finance operating costs over the next twelve months with existing cash on hand and loans from directors and/or private placement of common stock.

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States of America and are presented in US dollars.

Cash and Cash Equivalents

The Company considers all highly liquid instruments with a maturity of three months or less at the time of issuance to be cash equivalents. The Company had \$0 cash as of April 30, 2013.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(A Development Stage Company)
Notes To The Financial Statements

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Foreign Currency Translation

The Company's functional currency and its reporting currency is the United States dollar.

Stock-based Compensation

The Company records stock based compensation in accordance with the guidance in ASC Topic 718 which requires the Company to recognize expenses related to the fair value of its employee stock option awards. This eliminates accounting for share-based compensation transactions using the intrinsic value and requires instead that such transactions be accounted for using a fair-value-based method. The Company recognizes the cost of all share-based awards on a graded vesting basis over the vesting period of the award.

Income Taxes

The Company follows the liability method of accounting for income taxes. Under this method, deferred income tax assets and liabilities are recognized for the estimated tax consequences attributable to differences between the financial statement carrying values and their respective income tax basis (temporary differences). The effect on deferred income tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Basic and Diluted Loss Per Share

The Company computes loss per share in accordance with "ASC-260", "Earnings per Share" which requires presentation of both basic and diluted earnings per share on the face of the statement of operations. Basic loss per share is computed by dividing net loss available to common shareholders by the weighted average number of outstanding common shares during the period. Diluted loss per share gives effect to all dilutive potential common shares outstanding during the period. Dilutive loss per share excludes all potential common shares if their effect is anti-dilutive. The Company has no potential dilutive instruments and accordingly basic loss and diluted loss per share are equal.

Fiscal Periods

The Company's fiscal year end is April 30.

NOTE 4 - COMMON STOCK

The authorized capital of the Company is 75,000,000 common shares with a par value of \$ 0.001 per share. On April 5, 2011, the Company issued 3,000,000 shares of common stock at a price of \$0.001 per share for total cash proceeds of \$3,000. For the period ended April 30, 2012 the Company issued 520,000 shares of common stock at a price of \$0.04 per share for total cash proceeds of \$20,800.

There were 3,520,000 shares of common stock issued and outstanding as of April 30, 2013.

NOTE 5 - INCOME TAXES

As of April 30, 2013 the Company had net operating loss carry forwards of \$54,187 that may be available to reduce future years' taxable income through 2033. Future tax benefits which may arise as a result of these losses have not been recognized in these financial statements, as their realization is determined not likely to occur and accordingly, the Company has recorded a valuation allowance for the deferred tax asset relating to these tax loss carry-forwards.

Item 9. Changes In and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Evaluation of disclosure controls and procedures.

We maintain controls and procedures that are designed to ensure that information required to be disclosed in the reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management including our principal executive and principal financial officer, as appropriate, to allow timely decisions regarding required disclosures. Based upon their evaluation of those controls and procedures performed as of the end of the period covered by this report, our principal executive and principal financial officer concluded that our disclosure controls and procedures were effective.

Management's annual report on internal control over financial reporting.

Andre Caetano, our Chief Executive Officer and Chief Financial Officer, is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is defined in Rule 13a-15(f) and 15d-15(f) promulgated under the Securities Exchange Act of 1934 as a process designed by, or under the supervision of, our principal executive and principal financial officer and effected by our Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

- pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of management and our directors; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Because of its inherent limitations, our internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Our Chief Executive and Chief Financial Officer assessed the effectiveness of our internal control over financial reporting as of April 30, 2013. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (“COSO”) in Internal Control — Integrated Framework.

Based on our assessment, our Chief Executive and Chief Financial Officer believes that, as of April 30, 2013, our internal control over financial reporting is effective based on those criteria.

Accordingly, management believes, based on its knowledge, that (1) this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made not misleading with respect to the period covered by this report, and (2) the financial statements, and other financial information included in this report, fairly present in all material respects our financial condition, results of operations and cash flows for the years and periods then ended.

This report does not include an attestation report of our independent registered public accounting firm regarding internal control over financial reporting. Management’s report was not subject to attestation by our independent registered public accounting firm pursuant to rules of the SEC that permit us to provide only management’s report in this report.

Changes in internal control over financial reporting.

There were no changes in our internal control over financial reporting during the fourth quarter of the year ended April 30, 2013, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
