Higher One Holdings, Inc.
Form 10-Q
August 09, 2013
UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 or 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2013.

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____.

Commission File Number: 001-34779

HIGHER ONE HOLDINGS, INC.

(Exact Name of Registrant as Specified in its Charter)

Delaware 26-3025501
(State or Other Jurisdiction of (I.R.S. Employer
Incorporation or Organization) Identification No.)
115 Munson Street
New Haven, CT 06511
(Address of Principal Executive Offices)(Zip Code)
(203) 776-7776
(Registrant's Telephone Number, Including Area Code)
N/A
(Former Name, Former Address and Former Fiscal Year, If Changes Since Last Report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" or "smaller reporting company" in Rule 12b-2 of the Exchange Act (Check one).

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Edgar Filing: Higher One Holdings, Inc. - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes No

As of August 6, 2013, there were 46,995,171 shares of common stock, par value \$0.001 per share, outstanding.

Higher One Holdings, Inc.
Notes to Condensed Consolidated Statements
(unaudited)

1. Nature of Business and Organization

Higher One Holdings, Inc., or HOH, is a leading provider of technology, data analytics and payment services to the higher education industry. HOH, through its subsidiaries provides a comprehensive suite of disbursement, payment and data analytics solutions specifically designed for higher education institutions and their students and has developed proprietary software-based solutions to provide these services. HOH is incorporated in Delaware and maintains its headquarters in New Haven, Connecticut. HOH has a wholly-owned subsidiary, Higher One, Inc., or HOI, which has two wholly-owned subsidiaries, Higher One Machines, Inc., or HOMI, and Higher One Real Estate, Inc., or Real Estate Inc. HOI and HOMI together own 99% of Higher One Financial Technology Private Limited, or HOFTPL. Real Estate Inc. has a 98% ownership interest in Higher One Real Estate SP, LLC, or Real Estate LLC. HOMI and HOFTPL perform certain of our operational support functions. Real Estate Inc. and Real Estate LLC were each formed to hold and operate certain of our real estate. The terms "we," "us," "our," the "Company" or "Higher One," unless the context otherwise requires, mean Higher One Holdings, Inc. and its subsidiaries.

2. Significant Accounting Policies

Basis of Presentation and Consolidation

The accompanying unaudited condensed consolidated financial statements and the related interim information contained within the notes to such condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, or GAAP, and the applicable rules of the Securities and Exchange Commission, or SEC, for interim information and quarterly reports on Form 10-Q.

The unaudited condensed consolidated financial statements have been prepared on a consistent basis with the audited consolidated financial statements included in our annual report on Form 10-K for the year ended December 31, 2012, and in the opinion of management, include all normal recurring adjustments that are necessary for the fair statement of our interim period results reported herein. The December 31, 2012 condensed consolidated balance sheet data was derived from audited financial statements but does not include all disclosures required by GAAP. Due to seasonal fluctuations and other factors, the results of operations for the three and six months ended June 30, 2013 are not necessarily indicative of the results to be expected for the full year.

The unaudited condensed consolidated financial statements reflect our financial position and results of operations, including our majority and wholly-owned subsidiaries. All material intercompany transactions and balances have been eliminated in consolidation.

The preparation of financial statements in conformity with GAAP requires management to make significant estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could materially differ from management's estimates.

Basic and Diluted Net Income Available to Common Stockholders per Common Share

Basic net income per common share excludes dilution for potential common stock issuances and is computed by dividing net income available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted net income per common share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. For the calculation of diluted net income per common share, the basic weighted-average number of shares is increased by the dilutive effect of restricted stock, warrants and stock options using the treasury-stock method. The treasury-stock method assumes that the options or warrants are exercised at the beginning of the year (or date of issue if later), and that we use those proceeds to purchase common stock for treasury at the average price for the reporting period.

The dilutive effect of stock options and warrants to purchase our common stock totaling 4,268,423 and 1,480,533 were not included in the computation of diluted net income per common share for the three months ended June 30, 2013 and 2012, respectively, as their effect would be anti-dilutive. The dilutive effect of stock options and warrants totaling 4,268,423 and 1,348,909 were not included in the computation of diluted net income per common share for the six months ended June 30, 2013 and 2012, respectively, as their effect would be anti-dilutive. Anti-dilutive securities are securities that upon conversion or exercise increase earnings per share (or reduce the loss per share).

5

Higher One Holdings, Inc.
Notes to Condensed Consolidated Statements
(unaudited)

Comprehensive Income

There are no comprehensive income items other than net income. There are no recorded unrealized gains or losses on the investments in marketable securities as of the balance sheet dates. Comprehensive income equals net income for all periods presented.

Restricted Cash

During the three months ended June 30, 2013, we received \$2.0 million of the amounts which had been deposited with a former bank partner during the three months ended June 30, 2012.

Recent Accounting Pronouncements

There were no accounting standards adopted during 2012 or during the six months ended June 30, 2013 which had a material impact on our consolidated financial position, results of operations or liquidity. There are no new accounting standards issued but not yet effective which we expect to have a material impact on our consolidated financial position, results of operations, liquidity or disclosure.

3. Investments in Marketable Securities and Fair Value Measurements

The following table reflects the assets and liabilities carried at fair value measured on a recurring basis (in thousands):

	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)
Fair values at June 30, 2013				
Assets:				
Certificate of deposit	\$247	\$ -	\$ 247	\$ -
Contingently returnable escrow receivable	3,300	-	-	3,300
Total Assets	\$3,547	\$ -	\$ 247	\$ 3,300
Liabilities:				
Contingent consideration	\$535	\$ -	\$ -	\$ 535
Fair values at December 31, 2012				
Assets:				
Certificate of deposit	\$247	\$ -	\$ 247	\$ -
Liabilities:				
Contingent consideration	\$5,750	\$ -	\$ -	\$ 5,750

Higher One Holdings, Inc.
Notes to Condensed Consolidated Statements
(unaudited)

A summary of the activity of the fair value of the measurements using unobservable inputs (Level 3 Liabilities) for the three months ended June 30, 2013, is as follows (in thousands):

	Beginning Value of Level 3 Measurements	New Level 3 Measurements	Gain Recognized in Earnings	Ending Fair Value of Level 3 Measurements
Contingently returnable escrow receivable	\$ -	\$ 3,300	\$ -	\$ 3,300
Contingent consideration	\$ 5,750		\$ (5,215)	\$ 535

Our contingently returnable escrow receivable is valued using probability-weighted, future possible expected outcomes. The unobservable input utilized in the determination of this receivable includes our estimation of which clients subject to the escrow agreement will assign their contracts to us (refer to "Note 8 - Business Combinations" for additional information related to this arrangement). The range of amounts which we may receive from escrow is between \$0 and \$5.2 million. All amounts are expected to be distributed out of escrow by December 2013.

Our contingent consideration liability is valued using probability-weighted, future possible expected outcomes and an appropriate discount rate. The unobservable input utilized in the determination of this liability includes our estimation of the range of revenues which will be achieved by the Campus Labs business during 2013. The approximate range of revenues utilized to estimate the contingent consideration liability was between \$12.5 and \$13.4 million as of June 30, 2013. During the three months ending June 30, 2013, we adjusted the range of revenues utilized to estimate the contingent consideration liability to reflect our current best estimates regarding the revenue to be earned by the Campus Labs business during 2013. The \$5.2 million adjustment recognized in earnings during the six months ended June 30, 2013 was recorded in the merger and acquisition related line item in the consolidated statement of operations. The estimated range of outcomes (undiscounted) for the remaining payments due under the earn-out is between approximately \$0 and \$1.0 million based on our June 30, 2013 assessment. The contingent consideration liability is sensitive to changes in our estimate of revenues to be achieved by the Campus Labs business during 2013. For each \$1 million increase or decrease in the estimated revenues to be achieved by the Campus Labs business during 2013, the contingent consideration liability would increase or decrease by approximately \$3.5 million (undiscounted).

We had no unrealized gains or losses from investments as of December 31, 2012 or June 30, 2013 and there is no difference between the amortized cost and fair value of the securities we held. The carrying amounts of our cash equivalents, accounts receivable, accounts payable and accrued expenses approximates fair value because of the short-term nature of these instruments. The carrying amount of our debt outstanding under our credit facility approximates fair value because we recently entered into this loan agreement and is a Level 2 measurement. Our loan receivable related to New Markets Tax Credit financing is a debt instrument that we classify as held to maturity and is recorded at amortized cost. The carrying value of both our loan receivable and loan payable related to New Markets Tax Credit financing approximates fair value as of June 30, 2013. Our loan payable and loan receivable related to New Markets Tax Credit financing was estimated using discounted cash flow analysis based on rates for similar types of arrangements and are considered Level 3 measurements.

4. Real Estate Development Project

At the end of 2011, we moved our headquarters into two commercial buildings located in New Haven, Connecticut. We have provided two guarantees related to this real estate development project. We provided a guaranty to the State of Connecticut Department of Economic and Community Development related to our obligation to repay the amounts

which were granted to us if we fail to meet certain criteria. The maximum potential amount of future payments of this guaranty is approximately \$5.9 million. We also provided a guaranty related to tax credits that are expected to be generated by an investment made by an unrelated entity into the real estate development project. In the event that we cause either a recapture or disallowance of the tax credits expected to be generated under this program, we will be required to repay the disallowed or recaptured tax credits plus an amount sufficient to pay the taxes on such repayment, to the counterparty of the guaranty agreement. This guaranty will remain in place through 2018. The maximum potential amount of future payments of this guaranty is approximately \$6.0 million.

We currently believe that the likelihood of us being required to make a payment under either of the guaranties described above is remote and we have thus not recorded any liability on our balance sheet in connection with these guaranties.

7

Higher One Holdings, Inc.
Notes to Condensed Consolidated Statements
(unaudited)

5. Credit Facility

On October 16, 2012, HOI entered into a five-year, \$200.0 million, senior secured revolving credit facility, or the Credit Facility. As of June 30, 2013, there was \$112.0 million in borrowings outstanding, at a weighted average interest rate of 2.2%, under the Credit Facility. We are in compliance with all of the applicable affirmative, negative and financial covenants of the Credit Facility. The amount available to be drawn under the Credit Facility may be increased by an additional \$100.0 million upon our request and the agreement of the lenders party to the Credit Facility. The Credit Facility permits the issuance of letters of credit of up to \$20.0 million and swing line loans of up to \$10.0 million to fund working capital needs. Loans drawn under the Credit Facility are payable in a single maturity on October 16, 2017.

6. Capital Stock

Treasury Stock

On August 1, 2012, our board of directors authorized a share repurchase program pursuant to which we were permitted to repurchase up to \$100.0 million of our issued and outstanding shares of common stock through August 15, 2013. During the six months ended June 30, 2013, we purchased 528,403 shares of our common stock at a cost of \$6.0 million. All shares repurchased were held in treasury as of June 30, 2013.

7. Commitments and Contingencies

From time to time we are subject to litigation relating to matters in the ordinary course of business, as well as regulatory examinations, information gathering requests, inquiries and investigations.

We are a defendant in a series of putative class action lawsuits. The cases are as follows: Ashley Parker, et al. v. Higher One Holdings, Inc. et al., filed on July 3, 2012 in the United States District Court for the Northern District of Mississippi, Eastern Division; Jeanette Price et al. v. Higher One Holdings, Inc. et al., filed on July 27, 2012 in the United States District Court for the District of Connecticut; John Brandon Kent et al. v. Higher One Holdings, Inc. et al., filed on August 17, 2012 in the United States District Court for the Middle District of Alabama, Northern Division; Jonathan Lanham et al. v. Higher One Holdings, Inc. et al., filed on October 2, 2012 in the United States District Court for the Western District of Kentucky, Louisville Division; Aisha DeClue et al. v. Higher One, Inc., et al., filed on November 5, 2012 in the St. Louis County Circuit Court of Missouri; and Jill Massey et al. v. Higher One Holdings, Inc. et al., filed on November 6, 2012 in the United States District Court for the Southern District of Illinois, East Saint Louis Division. We filed a motion with the Judicial Panel on Multidistrict Litigation, or JPML, asking the Panel to transfer to a single court the first three cases named above (and any additional tag-along cases) for coordinated or consolidated pretrial proceedings. On December 11, 2012 and December 21, 2012, the JPML ruled in our favor and the Parker, Kent, Price, Lanham, and Massey actions were transferred to the District of Connecticut. This consolidated case is captioned In re Higher One OneAccount Marketing and Sales Practices Litigation, or the MDL. Plaintiffs have since filed a consolidated amended complaint in the MDL. It generally alleges, among other things, violations of state consumer protection statutes (predicated, in part, on alleged violations of Department of Education rules and violations of the federal Electronic Funds Transfer Act) and various common law claims. On April 22, 2013, we filed a motion to dismiss the case. Discovery has commenced in the MDL. On December 21, 2012, Higher One removed the DeClue case to the United States District Court for the Eastern District of Missouri. On December 27, 2012, the JPML issued a conditional transfer order with respect to the DeClue action, which the DeClue plaintiffs have opposed. The JPML overruled that opposition and the DeClue case has been transferred to the District

of Connecticut to proceed as part of the MDL. In DeClue, plaintiff has filed a motion to remand the case to state court, but the court has stayed any briefing on this motion until the MDL Court lifts the stay and enters a scheduling order. We believe the claims in each of these actions to be without merit. Although we plan to defend these matters vigorously, there can be no assurances of our success in these matters.

Notes to Condensed Consolidated Statements
(unaudited)

In February 2009 and September 2010, Higher One, Inc. filed two separate complaints against TouchNet Information Systems, Inc., or TouchNet, in the United States District Court for the District of Connecticut alleging patent infringement related to TouchNet's offering for sale and sales of its "eRefund" product in violation of two of our patents. In the complaints, we sought judgments that TouchNet has infringed two of our patents, a judgment that TouchNet pay damages and interest on damages to compensate us for infringement, an award of our costs in connection with these actions and an injunction barring TouchNet from further infringing our patents. TouchNet answered the complaint and asserted a number of defenses and counterclaims, including that it does not infringe our patent, that our patent is invalid or unenforceable and certain allegations of unfair competition and state and federal antitrust violations. In addition, TouchNet's counterclaims sought dismissal of our claims with prejudice, declaratory judgment that TouchNet does not infringe our patent and that our patent is invalid or unenforceable, as well as an award of fees and costs related to the action, and an injunction permanently enjoining us from suing TouchNet regarding infringement of our patent. The parties are currently in the discovery stage of the proceeding. Although we intend to pursue the matter vigorously, there can be no assurances of our success in these proceedings.

In accordance with applicable accounting guidance, we would establish a liability for these matters if and when they were to present loss contingencies that were both probable and reasonably estimable.

8. Business Combinations

On May 7, 2013, we entered into an Asset Purchase Agreement with Sallie Mae, Inc., or Sallie Mae, to purchase substantially all of the assets of Sallie Mae's Campus Solutions business, or Campus Solutions, for consideration of approximately \$47.3 million in cash, including \$5.2 million which was deposited into escrow and will be paid to Sallie Mae or us depending on the assignment of certain client contracts. We recorded a contingently returnable escrow receivable of \$3.3 million at the time of the acquisition which is the fair value of the amount we expect to receive from the amounts deposited in escrow. The purchase consideration is also subject to certain post-closing adjustments, including working capital adjustments.

We completed the acquisition on May 7, 2013, and used borrowing available under our Credit Facility to pay the purchase price and related transaction costs. Sallie Mae's Campus Solutions business provides refund disbursement and payment processing solutions, including tuition payment plans, to education institutions. The acquisition of Campus Solutions business significantly increases the number of higher education institution clients for refund disbursement and payment processing services. The net assets and results of operations of the Campus Solutions business are included in our consolidated financial statements from May 8, 2013. Assets acquired and liabilities assumed were recorded at their fair values as of May 7, 2013.

On August 7, 2012, we acquired substantially all of the assets of Campus Labs, LLC, or Campus Labs. Campus Labs offers specialized, comprehensive assessment programs that combine data collection, reporting, organization, and campus-wide integration for higher education institutions. The net assets and results of operations of the acquired assets of Campus Labs, LLC are included in our consolidated financial statements from August 8, 2012.

Under the acquisition method of accounting, the total fair value of consideration transferred was allocated to Campus Solution's net tangible and intangible assets based on their estimated fair values as of May 7, 2013. The preliminary allocation of fair value of consideration transferred was allocated as follows (in thousands):

	May 7,
Assets acquired:	2013
Accounts receivable	\$770

Edgar Filing: Higher One Holdings, Inc. - Form 10-Q

Contingently returnable escrow receivable	3,300
Fixed assets	92
Intangible assets	23,540
Goodwill	19,548
Total assets acquired and fair value of consideration transferred	\$47,250

9

Higher One Holdings, Inc.
Notes to Condensed Consolidated Statements
(unaudited)

The preliminary purchase price allocations for the Campus Solutions acquisition completed during the second quarter of fiscal 2013 were based upon a preliminary valuation and our estimates and assumptions for these acquisitions are subject to change as we obtain additional information for our estimates during the respective measurement periods. The primary areas of those purchase price allocations that are not yet finalized relate to the contingently returnable escrow receivable, working capital accounts, identifiable intangible assets and residual goodwill.

The following methods and inputs were utilized to determine fair value for the respective items:

Item	Valuation technique	Inputs
Contingently returnable escrow receivable	Probability-weighted future possible outcomes	Estimate of the contracts which will be assigned to us and the amount to be paid from escrow to us for each such contract
Completed technology	Income approach – relief from royalty	Estimated future revenue attributable to technology completed as of the acquisition date, royalty rate and discount rate
Customer relationships	Income approach – excess earnings	Estimated future revenues attributable to existing higher education institution clients as of the acquisition date, estimated income associated with such revenue, royalty rate and discount rate

The acquired intangible assets will be amortized each year based on a straight-line method over the estimated useful life of the asset.

	Weighted-average amortization period (in years)	Amount
Customer relationships	11	\$21,240
Completed technology	3	2,300
	10.2	\$23,540

Goodwill represents the excess of the fair value of consideration transferred of an acquired business over the fair value of the net tangible and intangible assets acquired. Goodwill exists in the transaction as a result of value beyond that of the tangible and other intangible assets, attributable to synergies that exist in the combined business, including a planned migration to a single technology platform. Goodwill of \$19.5 million is deductible for tax purposes.

Campus Solutions does not constitute a separate operating segment. Our strategy is to integrate the Campus Solutions business into our existing business. We have also concluded that our operating segment is a single reporting unit. Our single operating segment does not have any components that constitute a separate business for which discrete information will be available. We plan to operate the combined enterprise as one integrated business. Accordingly, the goodwill arising from the acquisition will be assigned to our single operating segment and single reporting unit.

Through the Campus Solutions products, we accept payments on behalf of education institutions and subsequently remits these payments to the education institutions. The amounts received are maintained in segregated accounts for the benefit of either the institution or the payor. These deposits are not our funds and therefore are not included in the accompanying condensed consolidated balance sheets. There was approximately \$69 million of funds as of June 30, 2013, which had been accepted through the Campus Solutions products and not yet remitted to the education institution.

The change in carrying value of goodwill for the six months ended June 30, 2013 was as follows (in thousands):

Edgar Filing: Higher One Holdings, Inc. - Form 10-Q

Balance at December 31, 2012	\$47,000
Acquisition of Campus Solutions	19,548
Balance at June 30, 2013	\$66,548

10

Higher One Holdings, Inc.
Notes to Condensed Consolidated Statements
(unaudited)

We reported revenues totaling approximately \$4.0 million and \$6.2 million from the acquisitions of Campus Labs and Campus Solutions during the three and six months ended June 30, 2013, respectively.

The pro forma financial information for the three and six months ended June 30, 2013 and 2012 is provided for illustrative purposes only and assumes that the acquisitions of the Campus Labs and Campus Solutions businesses occurred on January 1, 2012. The historical results of the Campus Labs and Campus Solutions businesses are included through August 7, 2012 and May 7, 2013, respectively. This pro forma financial information (in thousands, except per share data) should not be relied upon as being indicative of the historical results that would have been obtained if the acquisitions had actually occurred on that date, nor of the results that may be obtained in the future.

The pro forma financial information for all periods presented also includes amortization expense from acquired intangible assets, adjustments to interest expense, interest income and related tax effects.

	Three Months		Six Months Ended	
	Ended June 30, 2013	2012	2013	2012

Diluted weighted average number of common and common equivalent shares outstanding	48,383	57,717	48,354	58,589

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The information contained in this section should be read in conjunction with our audited consolidated financial statements and related notes as included in our annual report on Form 10-K for the year ended December 31, 2012 and information contained elsewhere in such annual report on Form 10-K and in this quarterly report on Form 10-Q. The discussion contains forward-looking statements (as defined in the Private Securities Litigation Reform Act of 1995) involving risks, uncertainties and assumptions that could cause our results to differ materially from expectations. For this purpose, any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, the words "believes," "anticipates," "plans," "expects," "should" and similar expressions are intended to identify forward-looking statements. Factors that might cause these differences include those described under "Risk Factors" and elsewhere in the annual report on Form 10-K and in this quarterly report on Form 10-Q. The forward-looking statements included in this quarterly report on Form 10-Q are made only as of the date of this report. We do not undertake any obligation to update or supplement any forward-looking statements to reflect subsequent events or circumstances, except as required by law. We cannot assure you that projected results or events will be achieved or will occur.

Overview

We believe that based on market share and the number of campuses using our products and services, we are a leading provider of technology, payment services and data analytics to the higher education industry. We believe that none of our competitors can match our ability to provide solutions for higher education institutions' financial services needs, including compliance monitoring, and, consequently, that we provide the most comprehensive suite of disbursement and payment solutions specifically designed for higher education institutions and their students. We also provide campus communities with convenient, cost-competitive and student-oriented banking services, which include extensive user-friendly features.

Our products and services for our higher education institution clients include our OneDisburse® Refund Management® funds disbursement service, our CASHNet® suite of payment transaction products and services and our Campus Labs® suite of data analytics products. Through our bank partners, we offer our OneAccount service to the students of our higher education institution clients, which includes an FDIC-insured checking account, a debit MasterCard® ATM card, and other retail banking services.

On May 7, 2013, we entered into an Asset Purchase Agreement with Sallie Mae, Inc. to purchase substantially all of the assets of the Campus Solutions business of Sallie Mae, Inc. for consideration of \$47.3 million in cash. We used borrowing available under our Credit Facility to complete the acquisition. The Campus Solutions business provides business-to-business solutions, including e-commerce and billing payment solutions, refund disbursement services and tuition payment plan administration, to education institutions across the country. We believe the Campus Solutions business will create new relationships with higher education institutions and provide an expanded number of higher education institutions to which we can offer our current products and services. The net assets and results of operations of the Campus Solutions business are included in our consolidated financial statements from May 8, 2013. The Campus Solutions business includes three primary products and services, (1) Tuition Payment Plans, or TPP, which includes the administration of educational tuition payment plans for schools; (2) NetPay, which includes an electronic payment gateway allowing for one-time payments to be made from students to the school; and (3) refund processing, which includes the processing of disbursements from schools to their students. We plan to migrate and convert the clients of the Campus Solutions business from the legacy Campus Solutions technology to our other proprietary technology platforms, including OneDisburse and CASHNet.

As of June 30, 2013, more than 600 campuses serving approximately 4.8 million students had purchased the OneDisburse service. In total, there are more than 1,600 campuses and approximately 13 million students contracted

to use at least one of our services, including those campuses and students now served as result of the Campus Solutions acquisition. We also serviced approximately 2.2 million OneAccounts as of June 30, 2013.

Our revenue fluctuates as a result of seasonal factors related to the academic year. A large portion of our revenue is either directly or indirectly dependent on academic financial aid received by students and in turn the number of students enrolled at our higher education institution clients. Higher education institutions typically disburse financial aid refunds to students at the start of each academic term. Distribution of financial aid disbursements through our OneDisburse service (1) indirectly generates revenue through deposits of financial aid into OneAccounts, which generates account revenue, and (2) directly generates revenue through our higher education institution clients' use of the OneDisburse service, which generates higher education institution revenue.

While revenue fluctuates over the course of the year, many of our expenses remain relatively constant, resulting in disparities in our net income and adjusted net income from quarter to quarter. Typically, the second quarter accounts for the smallest proportion of our revenues. This is primarily because the majority of financial aid is disbursed outside of this time period and higher education institutions tend to enroll more new students during the third fiscal quarter. We expect this trend to continue going forward.

12

Edgar Filing: Higher One Holdings, Inc. - Form 10-Q

Results of Operations for the Three Months Ended June 30, 2013 and 2012

The following tables summarize key components of our results of operations for the periods indicated, both in dollars and as a percentage of total revenue:

	Three Months Ended June 30, (unaudited)				2013 % of Revenue	2012 % of Revenue
	2013 (in thousands)	2012	\$ Change	% Change		
Revenue:

Three Months Ended June 30, 2013 Compared to the Three Months Ended June 30, 2012

Revenue

Account revenue

The decrease in account revenue was primarily due to a decrease in the service fees assessed to our customers during the three months ended June 30, 2013. Our service fees decreased primarily as a result of changes which we made to our account fee schedule over the past year, including the removal of a fee which was previously assessed to accounts that were inactive over a set period of time and a decrease in the types of transactions which can produce an insufficient funds fee. In addition, there was a decrease in the amount of fees assessed related to customers that had not repaid an overdraft balance within an allotted time period. We have decided to eliminate the fee assessed on these delinquent accounts effective August 1, 2013. As a result of these changes, we expect to continue to experience a decrease in the amount of service fees assessed per account until each of these fee changes has been in place for a full year. The decrease in service fees was partially offset by an increase in interchange revenue compared to the prior year period.

Payment Transaction Revenue

The majority of the increase in payment transaction revenue was due to an increase in payments processed through our CASHNet SmartPay payment module compared to the prior period. This increase was the result of both additional transaction volumes at new clients, as well as higher education institutions that had been SmartPay clients prior to June 30, 2012. In addition, revenue associated with the NetPay and Tuition Payment Plan products associated with our acquisition of the Campus Solutions business contributed approximately 45.5% of the overall increase in payment transaction revenue.

13

Higher Education Institution Revenue

The increase in higher education institution revenue was primarily due to the inclusion of revenue from the acquisition of the Campus Labs business in August 2012. The Campus Labs suite of products contributed approximately \$2.5 million of revenue during the three months ended June 30, 2013. The remaining increase in higher education revenue was a result of both higher subscription revenue for our CASHNet suite of payment products and also revenue associated with the Campus Solutions line of business.

Other Revenue

As a result of a change in our arrangement with MasterCard, which took effect in the fourth quarter of 2012, the amount of revenue received from MasterCard, which is recorded in other revenue, has been reduced and was the main reason for the decrease in other revenue compared to the three months ended June 30, 2012. When compared to the prior year period, other revenue is expected to continue to be lower in future periods through the end of 2013.

Cost of Revenue

During the three months ended June 30, 2013, our cost of revenue increased at a slightly higher rate than our revenues, resulting in a small decrease in our gross margin percentage. The increase in our cost of revenue was primarily related to an increase in our processing costs related to transactions processed through our SmartPay service and the Campus Solutions payment processing service. We experienced a significant decrease in our provision for operational losses, but the decrease was offset by other costs, including customer service costs and expenses associated with the acquisition of our Campus Labs and Campus Solutions businesses, including amortization expense of acquired intangible assets and personnel related cost.

General and Administrative Expense

The increase in general and administrative expenses is primarily attributed to the following three factors: (i) our personnel costs increased compared to the three months ended June 30, 2012 due to an increase in the number of employees, (ii) our professional fees increased as a result of legal costs incurred related to our outstanding litigation, and (iii) our depreciation expense increased as a result of additional computer operations and technology support being provided through internal resources, rather than outsourced service providers.

Product Development Expense

The increase in product development expense was primarily due to increases in personnel costs, a portion of which is due to the employees hired in connection with our acquisition of the Campus Labs business in August 2012. We also incurred transition related product development expenses associated with the Campus Solutions acquisition which increased our total product development costs during the three months ended June 30, 2013.

Sales and Marketing Expense

The increase in sales and marketing expense was primarily due to increases in marketing costs associated with tradeshow participation, increases in personnel costs, a portion of which is due to the employees hired in connection with our acquisition of the Campus Labs business in August 2012 and also higher amortization expense related to the acquisition of the Campus Labs business in August 2012 and Campus Solutions line of business in May 2013.

Merger and Acquisition Related

Our merger and acquisition related expenses include professional fees associated with the acquisition of the Campus Solutions business in May 2013 of approximately \$0.3 million, and a fair value adjustment to the contingent consideration component of the purchase price of the Campus Labs acquisition from August 2012 which resulted in a net reduction in operating expenses.

Our contingent consideration liability is measured at fair value on a recurring basis. It is valued using probability-weighted, future possible expected outcomes and an appropriate discount rate. Our contingent consideration liability is a potential earn-out payment which is calculated by multiplying the amount of 2013 revenues for the acquired Campus Labs business in excess of \$12.5 million, if any, by 3.5 (subject to a maximum payment of \$46.4 million). During the three months ended June 30, 2013 we recorded an adjustment of \$5.3 million as a result of a change in the fair value of the contingent consideration liability. The decrease in fair value of the contingent consideration liability was the result of changes in the amount of revenues we expect to be earned during 2013 subject to the earn-out and the distribution of potential outcomes. The contingent consideration payment is sensitive to changes in our estimates of the revenue to be earned during 2013 as a result of the 3.5 multiplier referenced above.

The fair value of the liability, as measured at June 30, 2013, may diverge materially from the amount that we will pay to settle the liability as a result of the time that will pass between June 30, 2013 and when we make payments under the earn-out arrangement in through the first quarter of 2014 and the estimates which we have made regarding revenues to be earned through the remainder of the year. We will continue to record fair value adjustments to the contingent consideration liability throughout the year ending December 31, 2013 based on the amount of revenues we expect to earn during the year related to the acquired Campus Labs business.

Interest Expense

Our interest expense increased compared to the prior period as a result of the outstanding balance on our credit facility, including additional amounts drawn during the quarter to finance the acquisition of the Campus Solutions business. The amount outstanding on our Credit Facility ranged from \$63 million to \$112 million during the three months ended June 30, 2013 and the average interest rate during the period was 2.3%.

Income Tax Expense

The decrease in income tax expense was primarily due to the decrease in net income before taxes. The effective tax rates for the three months ended June 30, 2013 and 2012 were 38.8% and 39.2%, respectively. Our effective rate is expected to be between 37% and 39% for the 2013 fiscal year.

Edgar Filing: Higher One Holdings, Inc. - Form 10-Q

Results of Operations for the Six Months Ended June 30, 2012 and 2013

The following tables summarize key components of our results of operations for the periods indicated, both in dollars and as a percentage of total revenue:

	Six Months Ended June 30, (unaudited)				2013 % of Revenue	2012 % of Revenue
	2013 (in thousands)	2012	\$ Change	% Change

Net income	\$13,361	\$17,440	\$(4,079)	(23.4 %)	13.7 %	18.0 %

Six Months Ended June 30, 2013 Compared to the Six Months Ended June 30, 2012

Revenue

Account revenue

The decrease in account revenue was primarily due to a decrease in the service fees assessed to our customers during the six months ended June 30, 2013. Our service fees decreased primarily as a result of changes in which we made to our account fee schedule over the past year, including the removal of a fee which was previously assessed to accounts that were inactive over a set period of time and a decrease in the types of transactions which can produce an insufficient funds fee. In addition, there was a decrease in the amount of fees assessed related to customers that had not repaid an overdraft balance within an allotted time period. We have decided to eliminate the fee assessed on these delinquent accounts effective August 1, 2013. As a result of these changes, we expect to continue to experience a decrease in the amount of service fees assessed per account until each of these fee changes has been in place for a full year. The decrease in service fees was partially offset by an increase in interchange revenue compared to the prior year period.

Payment Transaction Revenue

The majority of the increase in payment transaction revenue was due to increases associated with our CASHNet SmartPay payment module. Of the increase in revenue associated with SmartPay, approximately half of the increase was due to the addition of higher education institution clients that began utilizing the SmartPay payment module after June 30, 2012 and the other half was due to an increase in payments processed at higher education institutions that were clients prior to June 30, 2012. In addition, revenue associated with the NetPay and Tuition Payment Plan products associated with our acquisition of the Campus Solutions business contributed approximately 26.5% of the overall increase in payment transaction revenue.

Higher Education Institution Revenue

The increase in higher education institution revenue was primarily due to the inclusion of revenue from the acquisition of the Campus Labs business in August 2012. The Campus Labs suite of products contributed approximately \$4.7 million of revenue during the six months ended June 30, 2013. The remaining increase in higher education revenue was a result of higher subscription revenue for our CASHNet suite of payment products as well as revenue associated with the Campus Solutions business. The increase in subscription revenue was split evenly between revenue generated from sales of the CASHNet suite of payment products to new higher education institution clients over the course of the last twelve months as well as the addition of new modules sold to previously existing higher education institution clients.

Other Revenue

As a result of a change in our arrangement with MasterCard, which took effect in the fourth quarter of 2012, the amount of revenue received from MasterCard, which is recorded in other revenue, has been reduced and was the main reason for the decrease in other revenue compared to the six months ended June 30, 2012. When compared to the prior year period, other revenue is expected to continue to be lower in future periods through the end of 2013.

Cost of Revenue

During the six months ended June 30, 2013, our cost of revenue increased at a higher rate than revenue, which resulted in a lower gross margin compared to the six months ended June 30, 2012. The increase in our cost of revenue was primarily related to an increase in our processing costs related to transactions processed through our SmartPay service and the Campus Solutions payment processing service. We experienced a significant decrease in our provision for operational losses, but the decrease was offset by other costs, including customer service costs and expenses associated with the acquisition of the Campus Labs and Campus Solutions businesses, including amortization expense of acquired intangible assets and personnel related costs.

General and Administrative Expense

The increase in general and administrative expenses is primarily attributed to the following three factors: (i) our personnel costs increased compared to the six months ended June 30, 2012 due to an increase in the number of employees, (ii) our professional fees increased as a result of legal costs incurred related to our outstanding litigation, and (iii) our depreciation expense increased as a result of additional computer operations and technology support being provided through internal resources, rather than outsourced service providers.

Product Development Expense

The increase in product development expense was primarily due to increases in personnel costs, a portion of which is due to the employees hired in connection with our acquisition of the Campus Labs business in August 2012. We also incurred transition related product development expenses associated with the Campus Solutions acquisition which increased our total product development costs during the three months ended June 30, 2013.

Sales and Marketing Expense

The increase in sales and marketing expense was primarily due to increases in personnel costs, a portion of which is due to the employees hired in connection with our acquisitions of the Campus Labs and Campus Solutions businesses and also higher amortization expense related to the acquisition of the Campus Labs and Campus Solutions businesses. In addition, we also experienced increases in certain marketing costs associated both with additional programs designed for our higher education institution clients and also their students.

Merger and Acquisition Related

Our merger and acquisition related expenses include professional fees associated with the acquisitions of the Campus Labs and Campus Solutions businesses, certain employee related costs and a fair value adjustment to the contingent consideration component of the purchase price of the Campus Labs acquisition from August 2012 which resulted in a net reduction in operating expenses.

Our contingent consideration liability is measured at fair value on a recurring basis. It is valued using probability-weighted, future possible expected outcomes and an appropriate discount rate. Our contingent consideration liability is a potential earn-out payment which is calculated by multiplying the amount of 2013 revenues for the acquired Campus Labs business in excess of \$12.5 million, if any, by 3.5 (subject to a maximum payment of \$46.4 million). During the six months ended June 30, 2013, we recorded an adjustment of \$5.2 million as a result of a change in the fair value of the contingent consideration liability. The decrease in fair value of the contingent consideration liability was the result of changes in the amount of revenues we expect to be earned during 2013 subject to the earn-out and the distribution of potential outcomes. The contingent consideration payment is sensitive to changes in our estimates of the revenue to be earned during 2013 as a result of the 3.5 multiplier referenced above.

The fair value of the liability, as measured at June 30, 2013, may diverge materially from the amount that we will pay to settle the liability as a result of the time that will pass between June 30, 2013 and when we make payments under the earn-out arrangement in 2013 and 2014 and the estimates which we have made regarding revenues to be earned through the remainder of the year. We will continue to record fair value adjustments to the contingent consideration liability throughout the year ending December 31, 2013 based on the amount of revenues we expect to earn during the year related to the acquired Campus Labs business.

Interest Expense

Our interest expense increased compared to the prior period as a result of an increase in the outstanding balance on our Credit Facility (as defined below), including amounts drawn during the three months ended June 30, 2013 to finance the acquisition of the Campus Solutions line of business. The amount outstanding on our Credit Facility ranged from \$63 million to \$112 million during the six months ended June 30, 2013 and the average interest rate during the period was 2.2%. We did not have any amounts drawn on our then existing credit facility during the six months ended June 30, 2012.

Income Tax Expense

The decrease in income tax expense was primarily due to the decrease in net income before taxes. The effective tax rates for the six months ended June 30, 2013 and 2012 were 38.2% and 38.0%, respectively. Our effective rate is expected to be between 37% and 39% for the 2013 fiscal year.

Liquidity and Capital Resources

Sources of Liquidity

Our primary sources of liquidity are cash flows from operations and borrowings under our Credit Facility, as defined below. As of June 30, 2013, we had \$6.8 million in cash and cash equivalents, \$0.2 million in available-for-sale investments and approximately \$30.0 million in borrowing capacity available under our Credit Facility. Our primary liquidity requirements are for working capital, capital expenditures, product development expenses and general corporate needs. As of June 30, 2013, we had working capital of \$3.4 million.

Senior Secured Revolving Credit Facility

In October 2012, we terminated our then existing credit facility and entered into a new five-year senior secured revolving credit facility in an amount of \$200.0 million, or the Credit Facility. As of June 30, 2013, we had \$112.0 million in borrowings outstanding, at a weighted average interest rate of 2.2%, under the Credit Facility. The Credit Facility permits the issuance of letters of credit of up to \$20.0 million and swing line loans of up to \$10.0 million to fund working capital needs. Loans drawn under the Credit Facility are payable in a single maturity on October 16, 2017.

18

Each of HOH, HOMI, Real Estate Inc. and Real Estate LLC, or together with HOI, the Loan Obligors, is a guarantor of HOI's obligations under the Credit Facility. Loans drawn under the Credit Facility are secured by a perfected first priority security interest in all of the capital stock of HOI and its domestic subsidiaries, and substantially all of each Loan Obligor's tangible and intangible assets, including intellectual property.

At our option, amounts outstanding under the Credit Facility accrue interest at a rate equal to either (i) the British Bankers Association LIBOR Rate, or BBA LIBOR, plus a margin of between 1.75% and 2.25% per annum (depending on our funded debt to EBITDA, as defined in the Credit Facility, ratio) or (ii) a fluctuating base rate tied to the federal funds rate, the administrative agent's prime rate and BBA LIBOR, subject to a minimum of 2%. Interest is payable on the last day of each interest period selected by us under the Credit Facility and, in any event, at least quarterly. We pay a commitment fee ranging from 0.25% and 0.375% on the daily average undrawn portion of revolving commitments under the Credit Facility, which accrues and is payable quarterly in arrears.

The Credit Facility contains certain affirmative covenants including covenants to furnish the lenders with financial statements and other financial information and to provide the lenders notice of material events and information regarding collateral. The Credit Facility also contains certain negative covenants that, among other things, restrict our ability, subject to certain exceptions, to incur additional indebtedness, grant liens on our assets, undergo fundamental changes, make investments, sell assets, make restricted payments, change the nature of our business and engage in transactions with our affiliates. In addition, the Credit Facility contains certain financial covenants that require us to maintain (1) EBITDA, as defined in the Credit Facility, on a consolidated basis for the prior four fiscal quarters of at least \$50 million, (2) a funded debt to EBITDA ratio of 2.50 to 1.00 or less between October 16, 2012 and December 31, 2014 and of 2.00 to 1.00 or less thereafter, and (3) a fixed charge coverage ratio of at least 1.25 to 1.00. We were in compliance with each of the applicable affirmative, negative and financial covenants of the Credit Facility as of June 30, 2013.

Cash Flows

The following table presents information regarding our cash flows and cash and cash equivalents for the six months ended June 30, 2013 and June 30, 2012:

	Six Months Ended June 30,		
	\$		
	2013	2012	Change
	(unaudited)		
	(in thousands)		
Net cash provided by (used in):			
Operating activities	\$15,505	\$26,374	\$(10,869)
Investing activities	(49,512)	(19,851)	(29,661)
Financing activities	27,799	(20,159)	47,958
Change in cash and cash equivalents	(6,208)	(13,636)	7,428
Cash and cash equivalents, end of period	\$6,823	\$25,449	\$(18,626)

The decrease in net cash provided by operating activities was primarily the result of a decrease in net income of \$4.1 million compared to the six months ended June 30, 2012 and the non-cash fair value gain related to our contingent consideration liability of \$5.2 million.

The increase in net cash used in investing activities primarily relates to our acquisition of the Campus Solutions business which totaled \$47.3 million. There was a decrease in purchases of fixed assets of \$17.3 million compared to the six months ended June 30, 2012 as a result of expenditures on our real estate development project in the prior year.

We believe that our cash flows from operations, together with our existing liquidity sources, will be sufficient to fund our operations and anticipated capital expenditures over at least the next twelve months.

The cash provided by financing activities was primarily related to amounts drawn on our Credit Facility to finance the acquisition of the Campus Solutions business. We borrowed \$49.0 million during the three months ended June 30, 2013 for the Campus Solutions acquisition, which was offset by a net repayment of \$17.0 million on the Credit Facility during the three months ended March 31, 2013. We also used approximately \$6.0 million to purchase our common stock through our authorized share purchase program during the three months ended March 31, 2013.

19

Supplemental Financial and Operating Information

	Three Months Ended		Six Months Ended	
	June 30, 2013	2012	June 30, 2013	2012
	(unaudited)			
	(in thousands)			
Adjusted EBITDA	\$5,883	\$9,975	\$27,445	\$35,133
Adjusted net income	\$2,173	\$5,294	\$14,174	\$20,243
Number of students enrolled at OneDisburse client higher education institutions at end of period	4,798	4,480	4,798	4,480
Number of OneAccounts at end of period	2,165	1,896	2,165	1,896

We define adjusted EBITDA as net income before interest, income taxes and depreciation and amortization, or EBITDA, further adjusted to remove the effects of stock-based compensation expense and incremental expenses (or income), certain of which are non-cash, directly related to merger and acquisition activities. Neither EBITDA nor adjusted EBITDA should be considered as an alternative to net income, operating income or any other measure of financial performance calculated and presented in accordance with GAAP. Our EBITDA and adjusted EBITDA may not be comparable to similarly titled measures of other organizations because other organizations may not calculate EBITDA and adjusted EBITDA in the same manner as we do.

The following table presents a reconciliation of net income, the most comparable GAAP measure, to EBITDA and adjusted EBITDA for each of the periods indicated:

	Three Months Ended		Six Months Ended	
	June 30, 2013	2012	June 30, 2013	2012
	(unaudited)			
	(in thousands)			
Net income	\$3,559	\$4,052	\$13,361	\$17,440
Interest income	(20)	(32)	(39)	(64)
Interest expense	766	108	1,395	217
Income tax expense	2,261	2,614	8,269	10,684
Depreciation and amortization	3,487	2,318	6,598	4,531
EBITDA	10,053	9,060	29,584	32,808
Merger and acquisition related	(5,011)	-	(4,465)	-
Stock-based compensation expense	841	915	2,326	2,325
Adjusted EBITDA	\$5,883	\$9,975	\$27,445	\$35,133

We define adjusted net income as net income, adjusted to eliminate (a) stock-based compensation expense related to incentive stock option grants and (b) after giving effect to tax adjustments, (1) stock-based compensation expense related to non-qualified stock option grants, (2) incremental expenses, certain of which are non-cash, directly related to merger and acquisition activities and (3) amortization expenses related to intangible assets and financing costs.

Adjusted net income should not be considered as an alternative to net income, operating income or any other measure of financial performance calculated and presented in accordance with GAAP. Our adjusted net income may not be comparable to similarly titled measures of other organizations because other organizations may not calculate adjusted net income in the same manner as we do.

Edgar Filing: Higher One Holdings, Inc. - Form 10-Q

The following table presents a reconciliation of net income, the most comparable GAAP measure, to adjusted net income for each of the periods indicated:

	Three Months		Six Months Ended	
	Ended June 30, 2013 (unaudited) (in thousands)	2012	June 30, 2013	2012
Net income	\$3,559	\$4,052	\$13,361	\$17,440
Merger and acquisition related	(5,011)	-	(4,465)	-
Stock-based compensation expense - incentive stock option grants	500	496	985	1,003
Stock-based compensation expense - non-qualified stock option grants	341	419	1,341	1,322
Amortization of intangibles	1,491	755	2,621	1,523
Amortization of deferred finance costs	112	34	223	68
Total pre-tax adjustments	(2,567)	1,704	705	3,916
Tax rate	38.5 %	38.2 %	38.5 %	38.2 %
Less: tax adjustment (a)	(1,181)	462	(108)	1,113
Adjusted net income	\$2,173	\$5,294	\$14,174	\$20,243

(a) We have tax effected, utilizing an estimated statutory rate, all the pre-tax adjustments except for stock-based compensation expense for incentive stock options, which are generally not tax deductible and other income which is not tax deductible.

The adjusted EBITDA and adjusted net income measures presented in this Quarterly Report on Form 10-Q may not be comparable to similarly titled measures presented by other companies, and may not be identical to corresponding measures used in our various agreements, in particular our Credit Facility.

Contractual Obligations

Except for the increase in the amount owed under our Credit Facility, there have been no material changes to our contractual commitments from those disclosed in our annual report on Form 10-K for the year ended December 31, 2012.

Off-Balance Sheet Arrangements

We are not a party to any material off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Critical Accounting Policies

The significant accounting policies and basis of preparation of our consolidated financial statements are described in Note 2, "Significant Accounting Policies" of our notes to consolidated financial statements included in our annual report on Form 10-K for the year ended December 31, 2012 and in this Quarterly Report on Form 10-Q. Under accounting principles generally accepted in the United States, we are required to make estimates and assumptions that

affect the reported amounts of assets, liabilities, revenues, expenses and disclosure of contingent assets and liabilities in our financial statements. Actual results could differ materially from those estimates.

21

We believe the judgments, estimates and assumptions associated with the following critical accounting policies have the greatest potential impact on our consolidated financial statements:

- Provision for operational losses;
- Stock-based compensation; and
- Income taxes

For a complete discussion of these critical accounting policies, refer to "Critical Accounting Policies" within "Item 7 - Management's Discussion and Analysis of Financial Condition and Results of Operations" included within our annual report on Form 10-K for the year ended December 31, 2012. At June 30, 2013, the only accounting policy that has had a material change compared to the Critical Accounting Policies described therein is with respect to business combinations as a result of our acquisition of the Campus Solutions business in May 2013.

Business combinations

In recording the fair value of assets acquired and liabilities assumed in a business combination, we make estimates and assumptions regarding customer retention rates, discount rates and future revenues among other things. The effect of these estimates and assumptions may be material to our financial statements. Changes in these estimates would have an impact on the amount of value assigned to our assets acquired and therefore impact the amount of amortization that is recorded in future periods and the amount of goodwill recorded at the time of the business combination.

In May 2013, we acquired substantially all the assets of the Campus Solutions line of business and under the acquisition method of accounting, the total fair value of consideration transferred was allocated to Campus Solutions' net tangible and intangible assets based on their estimated fair values as of May 7, 2013. In determining the fair value of these amounts, we made estimates regarding (i) the amount of future revenues to be derived from the technology in existence at the time of the acquisition, (ii) the amount of future revenues to be derived from the existing customers of Campus Solutions at the time of the acquisition, (iii) the estimate of the contracts which will be assigned to us, (iv) the period of time over which the technology in existence at the time of the acquisition will be replaced, (v) the operating margin to be earned in the future, and (vi) the appropriate discount rates to use for each acquired asset. In most cases, an increase in our expected future revenues would have the impact of increasing the value ascribed to our identifiable intangible assets and thereby increasing future amortization expense and decreasing the amount of goodwill recorded. We utilized discount rates ranging between 22% and 23% to determine the fair value of the acquired intangible assets. Increases or decreases of 1% in the discount rate would not have a material impact on the amount of acquired intangible assets or goodwill recorded in the transaction.

Our contingently returnable escrow receivable is valued using probability-weighted, future possible expected outcomes. The unobservable input utilized in the determination of this receivable includes our estimation of which clients subject to the escrow agreement will assign their contracts to us. The range of amounts which we may receive from escrow is between \$0.0 and \$5.2 million. All amounts are expected to be distributed out of escrow by December 2013. The fair value of the escrow receivable, as measured at June 30, 2013, may diverge materially from the amount that we actually receive during 2013.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Our principal market risk relates to interest rate sensitivity, which is the risk that future changes in interest rates will reduce our net income or net assets. Our Credit Facility accrues interest at a rate equal to a base rate or Eurodollar rate plus an applicable margin (depending on our funded debt to EBITDA ratio). Based upon a sensitivity analysis at July 1, 2013, assuming average outstanding borrowings during the three months ended June 30, 2013 of \$93 million, a hypothetical 50 basis point increase in interest rates would result in an increase in interest expense of \$0.5 million for an annual period.

In addition, we receive processing fees paid from our bank partners, based on prevailing interest rates and the total deposits held in our OneAccounts. Since 2008, processing fees paid by our bank partners have been relatively small because of historically low interest rates. A change in interest rates would affect the amount of processing fees that we earn and therefore would have an effect on our revenue, cash flows and results of operations.

22

Item 4. Controls and Procedures

Our management, with the participation of our principal executive officer and principal financial officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act) as of June 30, 2013. Based on this evaluation, our principal executive officer and principal financial officer concluded that, as of June 30, 2013, our disclosure controls and procedures were effective to provide reasonable assurance that information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure, and ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Security and Exchange Commission's rules and forms.

There has been no change in our internal controls over financial reporting during the three months ended June 30, 2013 identified in connection with the evaluation required by Rule 13a-15(d) and 15d-15(d) of the Exchange Act that occurred during the period covered by this report that has materially affected, or is reasonable likely to materially affect, our internal controls over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

There have been no material developments in our legal proceedings since we filed our annual report on Form 10-K for the year ended December 31, 2012, except as follows:

We are a defendant in a series of putative class action lawsuits. The cases are as follows: Ashley Parker, et al. v. Higher One Holdings, Inc. et al., filed on July 3, 2012 in the United States District Court for the Northern District of Mississippi, Eastern Division; Jeanette Price et al. v. Higher One Holdings, Inc. et al., filed on July 27, 2012 in the United States District Court for the District of Connecticut; John Brandon Kent et al. v. Higher One Holdings, Inc. et al., filed on August 17, 2012 in the United States District Court for the Middle District of Alabama, Northern Division; Jonathan Lanham et al. v. Higher One Holdings, Inc. et al., filed on October 2, 2012 in the United States District Court for the Western District of Kentucky, Louisville Division; Aisha DeClue et al. v. Higher One, Inc., et al., filed on November 5, 2012 in the St. Louis County Circuit Court of Missouri; and Jill Massey et al. v. Higher One Holdings, Inc. et al., filed on November 6, 2012 in the United States District Court for the Southern District of Illinois, East Saint Louis Division. We filed a motion with the Judicial Panel on Multidistrict Litigation, or JPML, asking the Panel to transfer to a single court the first three cases named above (and any additional tag-along cases) for coordinated or consolidated pretrial proceedings. On December 11, 2012 and December 21, 2012, the JPML ruled in our favor and the Parker, Kent, Price, Lanham, and Massey actions were transferred to the District of Connecticut. This consolidated case is captioned In re Higher One OneAccount Marketing and Sales Practices Litigation, or the MDL. Plaintiffs have since filed a consolidated amended complaint in the MDL. It generally alleges, among other things, violations of state consumer protection statutes (predicated, in part, on alleged violations of Department of Education rules and violations of the federal Electronic Funds Transfer Act) and various common law claims. On April 22, 2013, we filed a motion to dismiss the case. Discovery has commenced in the MDL. On December 21, 2012, Higher One removed the DeClue case to the United States District Court for the Eastern District of Missouri. On December 27, 2012, the JPML issued a conditional transfer order with respect to the DeClue action, which the DeClue plaintiffs have opposed. The JPML overruled that opposition and the DeClue case has been transferred to the District of Connecticut to proceed as part of the MDL. In DeClue, plaintiff has filed a motion to remand the case to state court, but the court has stayed any briefing on this motion until the MDL Court lifts the stay and enters a scheduling order. We believe the claims in each of these actions to be without merit. Although we plan to defend these matters

vigorously, there can be no assurances of our success in these matters.

23

Item 1A. Risk Factors

There have been no material changes to our risk factors from those disclosed in our annual report on Form 10-K for the year ended December 31, 2012, except as follows:

We rely on our bank partners for certain banking services, and a change in the relationships with, or difficulties implementing our program with, our bank partners or their failure to comply with certain banking regulations could materially and adversely affect our business.

As the provider of FDIC-insured depository services for all of our OneAccounts, as well as other banking functions, such as supplying cash for our ATM machines, our bank partners provide third-party services that are critical to our student-oriented banking services. On February 8, 2013, we agreed to a mutual termination with Cole Taylor of our deposit Processing Services Agreement to be effective August 30, 2013. On July 11, 2013, we entered into an agreement with Customers Bank under which Customers Bank will provide deposit services as a bank partner. On July 12, 2013, we entered into an amendment with Cole Taylor under which Cole Taylor will continue to provide deposit services for a limited number of accounts through October 31, 2013 in the event that we are unable to transfer the accounts held at Cole Taylor to another bank. If we are unable to transition the functions performed by Cole Taylor Bank to Customers Bank or other bank partners within the applicable contractual timeframes, we may not be able to continue offering the OneAccount in the same manner as we do now, which could have a material adverse effect on our business, financial condition and results of operations. Further, in the future, if we are not able to transition the functions performed by our then current bank partners to another financial institution, we may not be able to continue offering the OneAccount in the same manner as we do now, which could have a material adverse effect on our business, financial condition and results of operations. Additionally, if any material adverse event were to affect any of our bank partners or future bank partners, including, but not limited to, a significant decline in financial condition, a decline in the quality of service, loss of deposits, a change in deposit classification related to the OneAccounts, inability to comply with applicable banking and financial service regulatory requirements, systems failure or inability to pay us fees, our business, financial condition and results of operations could be materially and adversely affected. There is also a risk that the terms of our services agreement with future bank partners may not be as favorable to us as our current agreements. The aggregate impact of any of these risks could have a material adverse effect on our business, financial condition and results of operations.

We depend on our founders and other key members of executive management and the loss of their services could have a material adverse effect on our business.

We substantially depend on the efforts, skill and reputations of our founders and senior management team, including Mark Volchek (Founder and Chief Executive Officer), Miles Lasater (Founder and President), Casey McGuane (Chief Operating Officer), Robert Reach (Chief Sales Officer) and Christopher Wolf (Chief Financial Officer). We do not currently maintain key person life insurance policies with respect to our executive officers. None of our executive officers have entered into employment agreements with us, leaving them free to terminate their involvement with us at any time and/or to pursue other opportunities. For example, on June 30, 2012, Dean Hatton, our former President and Chief Executive Officer, retired from his position. The retirement of Mr. Hatton or the loss of any of our other executive officers or founders could have a material adverse effect on our ability to manage our company, growth prospects, business financial condition and results of operations.

We are subject to substantial federal and state governmental regulation that could change and thus force us to make modifications to our business. Compliance with the various complex laws and regulations is costly and time consuming, and failure to comply could have a material adverse effect on our business. Additionally, increased regulatory requirements on our services may increase our costs, which could materially and adversely affect our business, financial condition and results of operations.

As a payments processor to higher education institutions that takes payment instructions from institutions and their constituents, including students and employees, and gives them to our bank partners, we are directly or indirectly subject to a variety of federal and state laws and regulations. Our contracts with most of our higher education institution clients and our bank partners require us to comply with applicable laws and regulations, including but not limited to, where applicable:

- Title IV of the Higher Education Act of 1965, or Title IV;
 - the Family Educational Rights and Privacy Act of 1975, or FERPA;
 - the Electronic Fund Transfer Act and Regulation E;
 - the USA PATRIOT Act and related anti-money laundering requirements; and
- certain federal rules regarding safeguarding personal information, including rules implementing the privacy provisions of Gramm-Leach-Bliley Act of 1999, or GLBA.

Higher Education Regulations

Third-Party Servicer. Because of the services we provide to some institutions with regard to the handling of Title IV funds, the U.S. Department of Education, or ED, may deem us to be a "third-party servicer" under the Title IV regulations. Those regulations require a third-party servicer annually to submit a compliance audit conducted by outside independent auditors that cover the servicer's Title IV activities. Each year we submit a "Compliance Attestation Examination of the Title IV Student Financial Assistance Programs" audit to ED, which includes a report by an independent audit firm. In addition, the yearly compliance audit submission to the ED provides comfort to certain of our higher education institution clients that we are in compliance with the third-party servicer regulations that may apply to us. We also provide this compliance audit report to clients upon request to help them fulfill their compliance audit obligations as Title IV participating institutions.

Under ED's regulations, a third party servicer that contracts with a Title IV institution acts in the nature of a fiduciary in the administration of Title IV programs. Among other requirements, the regulations provide that a third-party servicer is jointly and severally liable with its client institution for any liability to ED arising out of the servicer's violation of Title IV or its implementing regulations, which could subject us to material fines related to acts or omissions of entities beyond our control. ED is also empowered to limit, suspend or terminate the violating servicer's eligibility to act as a third-party servicer and to impose significant civil penalties on the violating servicer. In the event ED concluded that we had violated Title IV or its implementing regulations and should be subject to one or more of these sanctions, our business and results of operations could be materially and adversely affected. There is limited enforcement and interpretive history of Title IV regulations.

On May 1, 2012, ED published in the Federal Register a notice of intent to establish a negotiated rulemaking committee to draft proposed regulations designed to prevent fraud through the use of electronic fund transfers to students' bank accounts, ensure proper use of federal financial aid funds; address the use of debit cards and other banking products for disbursing federal financial aid funds, and improve and streamline campus' financial aid programs. We provided written and oral comments at a hearing held by ED in connection with the negotiated rulemaking process and have provided additional information to ED. On April 16, 2013, ED announced that there will be additional topics for consideration for action by negotiated rulemaking committees that may be formed in the future. The additional topics include, among other things, revising the cash management regulations that pertain to the disbursement of Title IV refund monies to reduce the time by which an institution must provide refunds to students, amend the regulations relating to requirements for student authorizations and specify when and how an institution must disburse Title IV funds. In the event that new rules are promulgated which alter, restrict or prohibit our ability to offer our services to higher education institutions and students in the manner that we currently do, our business, financial condition and results of operations could be materially and adversely affected.

FERPA. Our higher education institution clients are subject to FERPA, which provides with certain exceptions that an educational institution that receives any federal funding under a program administered by the Department of Education may not have a policy or practice of disclosing education records or "personally identifiable information" from education records, other than directory information to third parties without the student's or parent's written consent. Our higher education institution clients that use the OneDisburse services disclose to us certain non-directory information concerning their students, including contact information, student identification numbers and the amount of students' credit balances. Additionally, our higher education institution clients that use Campus Labs products also share personally identifiable information with us. We believe that our higher education institution clients may disclose this information to us without the students' or their parents' consent pursuant to one or more exceptions under FERPA. However, if the Department of Education asserts that we do not fall into one of these exceptions or if future changes to legislation or regulations required student consent before our higher education institution clients could disclose this information to us, a sizeable number of students may cease using our products and services, which could materially and adversely affect our business, financial condition and results of operations.

Additionally, as we are indirectly subject to FERPA, we may not permit the transfer of any personally identifiable information to another party other than in a manner in which a higher education institution may disclose it. In the event that we re-disclose student information in violation of this requirement, FERPA requires our clients to suspend our access to any such information for a period of five years. Any such suspension could have a material adverse effect on our business, financial condition or results of operations.

State Laws. We may also be subject to similar state laws and regulations that restrict higher education institutions from disclosing certain personally identifiable information of students. State attorneys general and other enforcement agencies may monitor our compliance with state and federal laws and regulations pertaining to higher education and banking and conduct investigations of our business that are time consuming and expensive and could result in fines and penalties that have a material adverse effect on our business, financial condition and results of operations. Additionally, individual state legislatures may propose and enact new laws that restrict or otherwise affect our ability to offer our products and services as we currently do, which could have a material adverse effect on our business, financial condition and results of operations.

25

Regulation of OneAccounts

Anti-Money Laundering; USA PATRIOT ACT; Office of Foreign Assets Control. WEX Bank, Urban Trust Bank and Cole Taylor Bank, which we refer to collectively as our bank partners, are insured depository institutions and funds held at our bank partners are insured by the FDIC up to applicable limits. As insured depository institutions, our bank partners are subject to comprehensive government regulation and supervision and, in the course of making their services available to our customers, we are required to assist our bank partners in complying with certain of their regulatory obligations. In particular, the anti-money laundering provisions of the USA PATRIOT Act require that customer identifying information be obtained and verified whenever a checking account is established. For example, because we facilitate the opening of checking accounts at our bank partners on behalf of our customers, we assist our bank partners in collecting the customer identification information that is necessary to open an account. In addition, both we and our bank partners are subject to the laws and regulations enforced by the Office of Foreign Assets Control, or OFAC, which prohibit U.S. persons from engaging in transactions with certain prohibited persons. Our failure to comply with any of these laws or rights could materially and adversely affect our business, financial credit and results of operations.

Compliance; Audit. As a service provider to insured depository institutions, we are required under applicable federal and state laws to agree to submit to examination by our bank partners' regulators. We also are subject to audit by our bank partners to ensure that we comply with our obligations to them appropriately. Failure to comply with our responsibilities properly could negatively affect our operations. Our bank partners are required under their respective agreements with us to, and we rely on our bank partners' ability to, comply with state and federal banking regulations. The failure of our bank partners to maintain regulatory compliance could result in significant disruptions to our business and have a material adverse effect on our business, financial condition and results of operations.

Electronic Fund Transfer Act; Regulation E. Our bank partners provide depository services for OneAccounts through a private label relationship. We provide processing services for OneAccounts for our bank partners. These services are subject to, among other things, the requirements of the Electronic Fund Transfer Act and the Bureau of Consumer Financial Protection's Regulation E, which govern automatic deposits to and withdrawals from deposit accounts and customers' rights and liabilities arising from the use of ATMs, debit cards and certain other electronic banking services. We may assist our bank partners with fulfilling their compliance obligations pursuant to these requirements. See "Part I, Item 1A. Risk Factors—Fees for financial services are subject to increasingly intense legislative and regulatory scrutiny, which could have a material adverse effect on our business, financial condition, results of operations and prospects for future growth" of our annual report on Form 10-K for additional discussion. Failure to comply with applicable regulations could materially and adversely affect our business, financial condition and results of operations.

Money Transmitter Regulations. Because our technology services are provided in connection with the financial products of our bank partners, our activities are occasionally reviewed by regulatory agencies to ensure that we do not impermissibly engage in activities that require licensing at the state or federal level. In the ordinary course of business, we receive letters and inquiries concerning the nature of our business as it applies to state "money transmitter" licensing and regulations from different state regulatory agencies. If a state agency were to conclude that we are required to be licensed as a "money transmitter," we may need to undergo a costly licensing process in that state, and failure to comply could be a violation of state and potentially federal law.

Privacy and Data Regulation

We are subject to laws and regulations relating to the collection, use, retention, security and transfer of personally identifiable information and data regarding our customers and their financial information. In addition, we are bound by our own privacy policies and practices concerning the collection, use and disclosure of user data, which are posted on certain of our website pages.

In conjunction with the disbursement, payroll and tuition payment services we make available through our bank partners, it is necessary to collect certain information from our customers (such as bank account and routing numbers) to transmit to our bank partners. Our bank partners use this information to execute the funds transfers requested by our customers, which are effected primarily by means of ACH networks and other wire transfer systems, such as FedWire. To the extent the data required by these electronic funds networks change, the information that we will be required to request from our clients may also change.

26

We are subject, either directly or by virtue of our contractual relationship with our bank partners, to the privacy and security standards of the GLBA privacy regulations, as well as certain state data protection laws and regulations. The GLBA privacy regulations require that we develop, implement and maintain a written comprehensive information security program prescribing safeguards that are appropriate to our size and complexity, the nature and scope of our activities and the sensitivity of any personally identifiable information we access for processing purposes or otherwise maintain. As a service provider of our bank partners, we also are limited in our use and disclosure of the personal information we receive from our bank partners, which we may use and disclose only for the purposes for which it was provided to us and consistent with the bank's own data privacy and security obligations. We also are subject to the standards set forth in guidance on data security issued by the Federal Financial Institution Examination Council, as well as the data security standards imposed by the card associations, including Visa, Inc., and MasterCard. In addition, we are subject to similar data security breach laws enacted by a number of states.

Any failure or perceived failure by us to comply with any legal or regulatory requirements or orders or other federal or state privacy or consumer protection-related laws and regulations, or with our own privacy policies, could result in fines, sanctions, litigation, negative publicity, limitation of our ability to conduct our business and injury to our reputation, any of which could materially and adversely affect our business, financial condition and results of operations.

New legislation and regulations in this area have been proposed, both at the federal and state level. Such measures, including pending Federal legislation, would potentially impose additional obligations on us, including requiring that we provide notifications to consumers and government authorities in the event of a data breach or unauthorized access or disclosure, beyond what state law already requires. These laws and regulations could cause us to incur substantial costs or require us to change our business practices in a manner materially adverse to our business.

Compliance

We monitor our compliance through an internal audit program. Our full-time internal auditor works with a third-party internal audit firm to conduct annual reviews to ensure compliance with the regulatory requirements described above. The costs of these audits and the costs of complying with the applicable regulatory requirements are significant. Increased regulatory requirements on our products and services, such as in connection with the matters described above, could materially increase our costs or reduce revenue.

It is impossible to determine the extent of the impact of any new laws, regulations or initiatives that may be proposed, or whether any of the proposals will become law. The imposition of any new laws or regulations could make compliance more difficult and expensive and affect the manner in which we conduct business. In addition, many of these laws and regulations are evolving, unclear and inconsistent across various jurisdictions. If we were deemed to be in violation of any laws or regulations that are currently in place or that may be promulgated in the future, including but not limited to those described above, we could be exposed to financial liability and adverse publicity or forced to change our business practices or stop offering some of our products and services. We also could face significant legal fees, delays in extending our product and services offerings, and damage to our reputation that could harm our business and reduce demand for our products and services. Even if we are not required to change our business practices, we could be required to obtain licenses or regulatory approvals that could cause us to incur substantial costs and delays.

Our business will suffer if we fail to successfully integrate acquired businesses and technologies or to appropriately assess the risks in transactions.

We have acquired, and may in the future acquire, businesses, technologies, services, product lines and other assets, such as our acquisition of the Campus Labs business in August 2012 and our acquisition of Sallie Mae's Campus Solutions division in May 2013. The successful integration of these businesses, or any business, technology, service, product line or other asset that we may acquire in the future, on a cost-effective basis, may be critical to our future performance. There are a number of risks and uncertainties associated with such integration, including but not limited to the following: we may not be able to achieve expected synergies and operating efficiencies regarding the acquisition within the expected time-frames or at all and to successfully integrate the acquired business operations into those of ours; such integration may be more difficult, time-consuming or costly than expected; revenues following the transaction may be lower than expected; operating costs, client and customer loss and business disruption (including, without limitation, difficulties in maintaining relationships with employees, customers, clients or suppliers) may be greater than expected following the transaction; we may have difficulty retaining certain key employees in the acquired business; and we may be subject to legal proceedings that may be instituted against the parties and others related to the acquisition agreement and the amount of the costs, fees, expenses and charges related to the acquisition. If we do not successfully integrate a strategic acquisition, or if the benefits of a particular transaction do not meet the expectations of financial or industry analysts, the market price of our common stock may decline. Even if we successfully integrate assets or businesses we may acquire, we may incur substantial expenses and devote significant management time and resources in seeking to complete and integrate an acquisition, the acquired business may not perform as we expect or enhance the value of our business as a whole. Additionally, we currently rely on Sallie Mae, Inc. and Sallie Mae Bank for technology hosting, accounting services and the performance of other key functions, including those performed by vendors with which the Sallie Mae entities have contractual relationships. If the transition services we receive under the transition services agreements are affected or altered, or if we are unable to perform such services ourselves after the expiration of the transition services agreements, we may not be able to continue offering the Campus Solutions products and services in the manner that we currently do today, which could have a material adverse effect on our business, financial condition and results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds
