Item 8.01 Other Events.

In August, the Company’s Board of Directors authorized a \$200 million stock repurchase program. The primary source of funds for stock repurchases will be cash flows from operations net of investing activities. Repurchases under the program may be made through open market transactions at prevailing market prices, with block trades permitted from time to time and in the discretion of the Company’s management and as market conditions allow. The timing of the repurchases and the actual amount repurchased will depend on a variety of factors, including the amount of cash flow available for repurchases, the market price of the Company’s shares and general market and economic conditions. No repurchases have been made under the program to date. Repurchases are expected to commence during or after September 2015.
