On December 30, 2012, Mr. David Gibson (“Mr. Gibson”) resigned from his positions of Director and Vice President of Exploration of Amarok Resources, Inc., a Nevada corporation, (the “Company”).

On January 25, 2013, the Company appointed Mr. Earl Abbott (“Mr. Abbott”), to serve as the Company’s Director and Vice President of Exploration. Mr. Abbott has accepted such appointment.

The biography for Mr. Abbott is set forth below:

ABBOTT.** Since receiving his Ph.D. degree in geology at Rice University in Houston, Texas where he studied the tectonics of the western U.S., Dr. Abbott has spent 41 years exploring for gold, base metals, uranium, and other resources all over the world. Using his education and experience, he combines strong management skills with a creative vision that enables him to apply sound scientific principles to the search for giant ore deposits. In the early part of his career, his management of an exploration program in Nevada resulted in the acquisition of three gold ore bodies that were subsequently mined profitably. In addition to having been a key employee with several large and small mining companies and a consultant to the mining industry, Dr. Abbott has been an officer and director of several junior mining companies. Dr. Abbott is active in his profession, having been a member and served as an executive of professional mining associations. As a result, he has an extensive network of technical as well as leadership contacts. He is a Certified Professional Geologist (C.P.G.) by the American Institute of Professional Geologists (AIPG) as well as being the past President of the Nevada Chapter. He is also a member and past president of the Geological Society of Nevada (GSN), a member and past President of the Nevada Petroleum & geothermal Society (NPSGS), a member and past President of the Denver Region Exploration Geologists Society (DREGS), a member of the Society of
