TRANSITION REPORT PURSUANT TO SECTION 13 or 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

Commission File Number 000-51446

CONSOLIDATED COMMUNICATIONS HOLDINGS, INC.

(Exact name of registrant as specified in its charter)

Delaware

02-0636095

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)
121 South 17th Street, Mattoon, Illinois	61938-3987
(Address of principal executive offices)	(Zip Code)

(217) 235-3311

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No X

On April 29, 2016, the registrant had 50,654,989 shares of Common Stock outstanding.

CONSOLIDATED COMMUNICATIONS HOLDINGS, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business and Basis of Accounting

Consolidated Communications Holdings, Inc. (the “Company”, “we” or “our”) is a holding company with operating subsidiaries (collectively “Consolidated”) that provide integrated communications services in consumer, commercial and carrier channels in California, Illinois, Iowa, Kansas, Minnesota, Missouri, North Dakota, Pennsylvania, South Dakota, Texas and Wisconsin.

We operate as both an Incumbent Local Exchange Carrier (“ILEC”) and a Competitive Local Exchange Carrier (“CLEC”), dependent upon the territory served. We provide a wide range of services and products that include local and long-distance service, high-speed broadband Internet access, video services, Voice over Internet Protocol (“VoIP”), private line services, carrier grade access services, network capacity services over our regional fiber optic networks, cloud services, data center and managed services, directory publishing and equipment sales. As of March 31, 2016, we had approximately 478 thousand voice connections, 460 thousand data connections and 114 thousand video connections.

In the opinion of management, the accompanying condensed consolidated balance sheets and related condensed consolidated statements of income, comprehensive income and cash flows include all adjustments, consisting only of normal recurring items, necessary for their fair presentation in conformity with accounting principles generally accepted in the United States (“US GAAP” or “GAAP”) for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with US GAAP have been condensed or omitted pursuant to such SEC rules and regulations and accounting principles applicable for interim periods. Events subsequent to the balance sheet date have been evaluated for inclusion in the accompanying condensed consolidated financial statements through the date of issuance. Management believes that the disclosures made are adequate to make the information presented not misleading. Interim results are not necessarily indicative of results for a full year. The information presented in this Form 10-Q should be read in conjunction with Management’s Discussion and Analysis of Financial Condition and Results of Operations and the consolidated financial statements and the accompanying notes to the financial statements (“Notes”) thereto included in our 2015 Annual Report on Form 10-K filed with the SEC.

Recent Accounting Pronouncements

In March 2016, the Financial Accounting Standards Board (“FASB”) issued the Accounting Standards Update No. 2016-09 (“ASU 2016-09”), Improvements to Employee Share-Based Payment Accounting. ASU 2016-09 simplifies various aspects of accounting for share-based payment arrangements including the income tax consequences, classification of awards as either equity or liabilities and classification on the statement of cash flows. ASU 2016-09 is effective for annual and interim periods beginning after December 15, 2016 with early adoption permitted. We are currently evaluating the impact this update will have on our condensed consolidated financial statements and related disclosures.

In February 2016, FASB issued the Accounting Standards Update No. 2016-02 (“ASU 2016-02”), Leases. ASU 2016-02 establishes a new lease accounting model for leases. Lessees will be required to recognize most leases on their balance sheets but lease expense will be recognized on the income statement in a manner similar to existing requirements. ASU 2016-02 is effective for annual and interim periods beginning after December 15, 2018 with early adoption permitted. We are currently evaluating the impact this update will have on our condensed consolidated financial statements and related disclosures.

Effective January 1, 2016, we adopted Accounting Standards Update No. 2015-16 (“ASU 2015-16”), Simplifying the Accounting for Measurement-Period Adjustments. ASU 2015-16 requires that the acquiring company in a business combination recognize adjustments to provisional amounts identified during the measurement period in the reporting period in which the adjustments are determined and record in the reporting period in which the adjustments are determined the effect on earnings of changes in depreciation, amortization and other items resulting from the change to the provisional

Table of Contents

amounts. The adoption of this standard did not have any impact on our condensed consolidated financial statements and related disclosures.

In August 2014, FASB issued the Accounting Standards Update No. 2014-15 (“ASU 2014-15”), Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern. ASU 2014-15 requires management to evaluate for each annual and interim reporting period whether conditions or events give rise to substantial doubt that an entity has the ability to continue as a going concern within one year following issuance of the financial statements and requires specific disclosures regarding the conditions or events leading to substantial doubt. The new guidance is effective for annual and interim periods ending after December 15, 2016, with early adoption permitted. The adoption of ASU 2014-15 is not expected to have a material impact on our financial position or results of operations.

In May 2014, FASB issued the Accounting Standards Update No. 2014-09 (“ASU 2014-09”), Revenue from Contracts with Customers (Topic 606). ASU 2014-09 provides new, globally applicable converged guidance concerning the recognition and measurement of revenue. As a result, significant additional disclosures are required about the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. In August 2015, FASB issued the Accounting Standards Update No. 2015-14 (“ASU 2015-14”), Deferral of the Effective Date. ASU 2015-14 defers the effective date of ASU 2014-09 for all entities by one year. Accordingly, the new guidance in ASU 2014-09 is effective for annual and interim periods beginning on or after December 15, 2017. Companies are allowed to transition using either the modified retrospective or full retrospective adoption method. If full retrospective adoption is chosen, three years of financial information must be presented in accordance with the new standard. In April 2016, FASB issued the Accounting Standards Update No. 2016-10 (“ASU 2016-10”), Identifying Performance Obligations and Licensing. ASU 2016-10 clarifies the implementation guidance relating to identifying performance obligations and determining the nature of an entity’s promise in granting a license to its intellectual property. In March 2016, FASB issued the Accounting Standards Update No. 2016-08 (“ASU 2016-08”), Principal versus Agent Considerations (Reporting Revenue Gross versus Net). ASU 2016-08 clarifies the implementation guidance on principal versus agent considerations. The effective date and transition requirements for ASU 2016-10 and ASU 2016-08 are the same as the effective date and transition requirements for ASU 2014-09. We are currently evaluating the alternative methods of adoption and the effect this guidance will have on our condensed consolidated financial statements and related disclosures.

2. SUBSEQUENT EVENTS

Acquisition

On April 18, 2016, we entered into a definitive agreement to acquire substantially all of the assets of Champaign Telephone Company, Inc. and its sister company, Big Broadband Services, LLC, a private business communications provider in the Champaign-Urbana, IL area. The aggregate purchase price consists of cash consideration of approximately \$13.0 million, which will be paid from our existing cash resources. The acquisition is subject to standard closing conditions, including regulatory approvals, and is expected to close in the third quarter of 2016.

Divestiture

On May 3, 2016, we entered into a definitive agreement to sell our rural ILEC business located in northwest Iowa (Consolidated Communications of Iowa Company, formerly Heartland Telecommunications) for approximately \$22.5 million in cash, prior to certain contractual adjustments. The transaction is expected to close in the third quarter of 2016 and is subject to customary closing conditions, including regulatory approvals. At March 31, 2016, the carrying amount of the assets to be disposed of were classified as held and used and consisted primarily of property, plant and equipment of \$20.7 million. We are currently in the process of estimating the amount of goodwill to be allocated to the disposal group based on the relative fair values of the Iowa ILEC and the consolidated reporting unit as well as estimating the related loss on disposal.

Table of Contents

3. EARNINGS PER SHARE

Basic and diluted earnings per share (“EPS”) are computed using the two-class method, which is an earnings allocation that determines EPS for each class of common stock and participating securities according to dividends declared and participation rights in undistributed earnings. The Company’s restricted stock awards are considered participating securities because holders are entitled to receive non-forfeitable dividends during the vesting term. Diluted EPS includes securities that could potentially dilute basic EPS during a reporting period. Dilutive securities are not included in the computation of loss per share when a company reports a net loss from continuing operations as the impact would be anti-dilutive.

The potentially dilutive impact of the Company’s restricted stock awards is determined using the treasury stock method. Under the treasury stock method, awards are treated as if they had been exercised with any proceeds used to repurchase common stock at the average market price during the period. Any incremental difference between the assumed number of shares issued and purchased is included in the diluted share computation.

The computation of basic and diluted EPS attributable to common shareholders computed using the two class method is as follows:

(In thousands, except per share amounts)	Quarter Ended	
	March 31, 2016	2015
Net income	\$ 7,902	\$ 7,829
Less: net income attributable to noncontrolling interest	53	19
Income attributable to common shareholders before allocation of earnings to participating securities	7,849	7,810
Less: earnings allocated to participating securities	131	129
Net income attributable to common shareholders, after earnings allocated to participating securities	\$ 7,718	\$ 7,681
Weighted-average number of common shares outstanding	50,289	50,148
Net income (loss) per common share attributable to common shareholders - basic and diluted	\$ 0.15	\$ 0.15

Diluted earnings per common share attributable to common shareholders for the quarters ended March 31, 2016 and 2015 excludes 0.2 million and 0.3 million potential common shares, respectively, that could be issued under our share-based compensation plan because the inclusion of the potential common shares would have an antidilutive effect.

Table of Contents

4. INVESTMENTS

Our investments are as follows:

(In thousands)	March 31, 2016	December 31, 2015
Cash surrender value of life insurance policies	\$ 2,208	\$ 2,149
Cost method investments:		
GTE Mobilnet of South Texas Limited Partnership (2.34% interest)	21,450	21,450
Pittsburgh SMSA Limited Partnership (3.60% interest)	22,950	22,950
CoBank, ACB Stock	8,138	7,971
Other	200	200
Equity method investments:		
GTE Mobilnet of Texas RSA #17 Limited Partnership (20.51% interest)	17,919	18,099
Pennsylvania RSA 6(I) Limited Partnership (16.67% interest)	6,267	6,167
Pennsylvania RSA 6(II) Limited Partnership (23.67% interest)	26,870	26,557
Totals	\$ 106,002	\$ 105,543

Cost Method

We own 2.34% of GTE Mobilnet of South Texas Limited Partnership (the “Mobilnet South Partnership”). The principal activity of the Mobilnet South Partnership is providing cellular service in the Houston, Galveston and Beaumont, Texas metropolitan areas. We also own 3.60% of Pittsburgh SMSA Limited Partnership (“Pittsburgh SMSA”), which provides cellular service in and around the Pittsburgh metropolitan area. Because of our limited influence over these partnerships, we use the cost method to account for both of these investments. It is not practicable to estimate the fair value of these investments. We did not evaluate any of the investments for impairment during the quarters ended March 31, 2016 or 2015 as no factors indicating impairment existed. For the quarters ended March 31, 2016 and 2015, we received cash distributions from these partnerships totaling \$2.8 million and \$1.9 million, respectively.

CoBank, ACB (“CoBank”) is a cooperative bank owned by its customers. On an annual basis, CoBank distributes patronage in the form of cash and stock in the cooperative based on the Company’s outstanding loan balance with CoBank, which has traditionally been a significant lender in the Company’s credit facility. The investment in CoBank represents the accumulation of the equity patronage paid by CoBank to the Company.

Equity Method

We own 20.51% of GTE Mobilnet of Texas RSA #17 Limited Partnership (“RSA #17”), 16.67% of Pennsylvania RSA 6(I) Limited Partnership (“RSA 6(I)”) and 23.67% of Pennsylvania RSA 6(II) Limited Partnership (“RSA 6(II)”). RSA #17 provides cellular service to a limited rural area in Texas. RSA 6(I) and RSA 6(II) provide cellular service in and around our Pennsylvania service territory. Because we have significant influence over the operating and financial policies of these three entities, we account for the investments using the equity method. For the quarters ended March 31, 2016 and 2015, we received cash distributions from these partnerships totaling \$4.0 million and \$5.2 million, respectively.

The combined unaudited results of operations and financial position of our three equity investments in the cellular limited partnerships are summarized below:

(In thousands)	Quarter Ended	
	March 31,	
	2016	2015
Total revenues	\$ 82,657	\$ 86,731
Income from operations	25,470	26,895
Net income before taxes	25,063	26,990
Net income	25,063	26,990

Table of Contents

	March 31, 2016	December 31, 2015
(In thousands)		
Current assets	\$ 61,446	\$ 57,716
Non-current assets	94,011	96,197
Current liabilities	19,848	20,576
Non-current liabilities	52,306	52,414
Partnership equity	83,302	80,923

5. FAIR VALUE MEASUREMENTS

Our derivative instruments related to interest rate swap agreements are required to be measured at fair value on a recurring basis. The fair values of the interest rate swaps are determined using valuation models which rely on the expected London Interbank Offered Rate (“LIBOR”) based yield curve and estimates of counterparty and Consolidated’s non-performance risk as the most significant inputs. Because each of these inputs are directly observable or can be corroborated by observable market data, we have categorized these interest rate swaps as Level 2 within the fair value hierarchy. See Note 7 for further discussion regarding our interest rate swap agreements.

Our interest rate swap liabilities measured at fair value on a recurring basis and subject to disclosure requirements as of March 31, 2016 and December 31, 2015 were as follows:

(In thousands)	Total	As of March 31, 2016		
		Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Current interest rate swap liabilities	\$ (76)	\$ -	\$ (76)	\$ -
Long-term interest rate swap liabilities	(1,551)	-	(1,551)	-
Total	\$ (1,627)	\$ -	\$ (1,627)	\$ -

		As of December 31, 2015		
		Quoted	Significant	
		Prices	In	
		Active	Other	Significant
		Markets	Observable	Unobservable
		for	Inputs	Inputs
		Identical	Inputs	
		Assets	Inputs	
		(Level	Inputs	
(In thousands)	Total	1)	(Level 2)	(Level 3)
Current interest rate swap liabilities	\$ (190)	\$ -	\$ (190)	\$ -
Long-term interest rate swap liabilities	(1,084)	-	(1,084)	-
Total	\$ (1,274)	\$ -	\$ (1,274)	\$ -

We have not elected the fair value option for any of our financial assets or liabilities. The carrying value of other financial instruments, including cash, accounts receivable, accounts payable and accrued liabilities approximate fair value due to their short maturities or variable-rate nature of the respective balances. The following table presents the other financial instruments that are not carried at fair value but which require fair value disclosure as of March 31, 2016 and December 31, 2015.

(In thousands)	As of March 31, 2016		As of December 31, 2015	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Investments, equity basis	\$ 51,056	n/a	\$ 50,823	n/a
Investments, at cost	\$ 52,738	n/a	\$ 52,571	n/a
Long-term debt, excluding capital leases	\$ 1,391,591	\$ 1,331,412	\$ 1,393,567	\$ 1,312,383

Table of Contents

Cost & Equity Method Investments

Our investments as of March 31, 2016 and December 31, 2015 accounted for under both the equity and cost methods consisted primarily of minority positions in various cellular telephone limited partnerships and our investment in CoBank. It is impracticable to determine the fair value of these investments.

Long-term Debt

The fair value of our senior notes was based on quoted market prices, and the fair value of borrowings under our credit facility was determined using current market rates for similar types of borrowing arrangements. We have categorized the long-term debt as Level 2 within the fair value hierarchy.

6. LONG-TERM DEBT

Long-term debt, presented net of unamortized discounts, consisted of the following:

(In thousands)	March 31, 2016	December 31, 2015
Senior secured credit facility:		
Term loan 4, net of discount of \$3,185 and \$3,340 at March 31, 2016 and December 31, 2015, respectively	\$ 886,340	\$ 888,460
Revolving loan	10,000	10,000
6.50% Senior notes due 2022, net of discount of \$4,749 and \$4,893 at March 31, 2016 and December 31, 2015, respectively	495,251	495,107
Capital leases	7,193	7,580
	1,398,784	1,401,147
Less: current portion of long-term debt and capital leases	(11,016)	(10,937)
Less: deferred debt issuance costs	(11,823)	(12,318)
Total long-term debt	\$ 1,375,945	\$ 1,377,892

Credit Agreement

In December 2013, the Company, through certain of its wholly owned subsidiaries, entered into a Second Amended and Restated Credit Agreement with various financial institutions (the "Credit Agreement") to replace the Company's previously amended credit agreement. The Credit Agreement consists of a \$75.0 million revolving credit facility and initial term loans in the aggregate amount of \$910.0 million ("Term 4"). The Credit Agreement also includes an incremental term loan facility which provides the ability to request to borrow up to \$300.0 million of incremental term loans subject to certain terms and conditions. Borrowings under the senior secured credit facility are secured by substantially all of the assets of the Company and its subsidiaries, with the exception of Consolidated Communications of Illinois Company and our majority-owned subsidiary, East Texas Fiber Line Incorporated.

The Term 4 loan was issued in an original aggregate principal amount of \$910.0 million with a maturity date of December 23, 2020. The Term 4 loan contains an original issuance discount of \$4.6 million, which is being amortized over the term of the loan. The Term 4 loan requires quarterly principal payments of \$2.3 million and has an interest rate of LIBOR plus 3.25% subject to a 1.00% LIBOR floor.

Our revolving credit facility has a maturity date of December 23, 2018 and an applicable margin (at our election) of between 2.50% and 3.25% for LIBOR-based borrowings or between 1.50% and 2.25% for alternate base rate borrowings, depending on our leverage ratio. Based on our leverage ratio as of March 31, 2016, the borrowing margin for the next three month period ending June 30, 2016 will be at a weighted-average margin of 3.00% for a LIBOR-based loan or 2.00% for an alternate base rate loan. The applicable borrowing margin for the revolving credit facility is adjusted quarterly to reflect the leverage ratio from the prior quarter-end. As of March 31, 2016 and December 31, 2015, borrowings of \$10.0 million were outstanding under the revolving credit facility. A stand-by letter of credit of \$1.6 million, issued primarily in connection with the Company's insurance coverage, was outstanding under our revolving credit facility as of March 31,

Table of Contents

2016. The stand-by letter of credit is renewable annually and reduces the borrowing availability under the revolving credit facility. As of March 31, 2016, \$63.4 million was available for borrowing under the revolving credit facility.

The weighted-average interest rate on outstanding borrowings under our credit facility was 4.24% as of March 31, 2016 and December 31, 2015. Interest is payable at least quarterly.

Net proceeds from asset sales exceeding certain thresholds, to the extent not reinvested, are required to be used to repay loans outstanding under the Credit Agreement.

Credit Agreement Covenant Compliance

The Credit Agreement contains various provisions and covenants, including, among other items, restrictions on the ability to pay dividends, incur additional indebtedness and issue capital stock. We have agreed to maintain certain financial ratios, including interest coverage and total net leverage ratios, all as defined in the Credit Agreement. As of March 31, 2016, we were in compliance with the Credit Agreement covenants.

In general, our Credit Agreement restricts our ability to pay dividends to the amount of our available cash as defined in our Credit Agreement. As of March 31, 2016, and including the \$19.6 million dividend declared in February 2016 and paid on May 2, 2016, we had \$255.0 million in dividend availability under the credit facility covenant.

Under our Credit Agreement, if our total net leverage ratio, as defined in the Credit Agreement, as of the end of any fiscal quarter is greater than 5.10:1.00, we will be required to suspend dividends on our common stock unless otherwise permitted by an exception for dividends that may be paid from the portion of proceeds of any sale of equity not used to fund acquisitions or make other investments. During any dividend suspension period, we will be required to repay debt in an amount equal to 50.0% of any increase in available cash, among other things. In addition, we will not be permitted to pay dividends if an event of default under the Credit Agreement has occurred and is continuing. Among other things, it will be an event of default if our total net leverage ratio or interest coverage ratio as of the end of any fiscal quarter is greater than 5.25:1.00 and less than 2.25:1.00, respectively. As of March 31, 2016, our total net leverage ratio under the Credit Agreement was 4.21:1.00, and our interest coverage ratio was 4.20:1.00.

Senior Notes

6.50% Senior Notes due 2022

In September 2014, we completed an offering of \$200.0 million aggregate principal amount of 6.50% Senior Notes due in October 2022 (the “Existing Notes”). The Existing Notes were priced at par, which resulted in total gross proceeds of \$200.0 million. On June 8, 2015, we completed an additional offering of \$300.0 million in aggregate principal amount of 6.50% Senior Notes due 2022 (the “New Notes” and together with the Existing Notes, the “Senior Notes”). The New Notes were issued as additional notes under the same indenture pursuant to which the Existing Notes were previously issued on September 18, 2014. The New Notes were priced at 98.26% of par with a yield to maturity of 6.80% and resulted in total gross proceeds of approximately \$294.8 million, excluding accrued interest. The discount and deferred debt issuance costs of \$4.5 million incurred in connection with the issuance of the New Notes are being amortized using the effective interest method over the term of the notes.

The Senior Notes mature on October 1, 2022 and interest is payable semi-annually on April 1 and October 1 of each year. Consolidated Communications, Inc. (“CCI”) is the primary obligor under the Senior Notes, and we and certain of our wholly owned subsidiaries have fully and unconditionally guaranteed the Senior Notes. The Senior Notes are senior unsecured obligations of the Company.

During the quarter ended September 30, 2015, we completed an exchange offer to register all of the Senior Notes under the Securities Act of 1933 (“Securities Act”). The terms of the registered Senior Notes are substantially identical to those of the Senior Notes prior to the exchange, except that the Senior Notes are now registered under the Securities Act and the transfer restrictions and registration rights previously applicable to the Senior Notes no longer apply to the registered

Table of Contents

Senior Notes. The exchange offer did not impact the aggregate principal amount or the remaining terms of the Senior Notes outstanding.

Senior Notes Covenant Compliance

Subject to certain exceptions and qualifications, the indenture governing the Senior Notes contains customary covenants that, among other things, limits CCI's and its restricted subsidiaries' ability to: incur additional debt or issue certain preferred stock; pay dividends or make other distributions on capital stock or prepay subordinated indebtedness; purchase or redeem any equity interests; make investments; create liens; sell assets; enter into agreements that restrict dividends or other payments by restricted subsidiaries; consolidate, merge or transfer all or substantially all of its assets; engage in transactions with its affiliates; or enter into any sale and leaseback transactions. The indenture also contains customary events of default.

Among other matters, the Senior Notes indenture provides that CCI may not pay dividends or make other restricted payments, as defined in the indenture, if its total net leverage ratio is 4.75:1.00 or greater. This ratio is calculated differently than the comparable ratio under the Credit Agreement; among other differences, it takes into account, on a pro forma basis, synergies expected to be achieved as a result of certain acquisitions not yet reflected in historical results. As of March 31, 2016, this ratio was 4.38:1.00. If this ratio is met, dividends and other restricted payments may be made from cumulative consolidated cash flow since April 1, 2012, less 1.75 times fixed charges, less dividends and other restricted payments made since May 30, 2012. Dividends may be paid and other restricted payments may also be made from a "basket" of \$50.0 million, none of which has been used to date, and pursuant to other exceptions identified in the indenture. Since dividends of \$272.7 million have been paid since May 30, 2012, including the quarterly dividend declared in February 2016 and paid on May 2, 2016, there was \$377.6 million of the \$650.3 million of cumulative consolidated cash flow since May 30, 2012 available to pay dividends as of March 31, 2016. As of March 31, 2016, the Company was in compliance with all terms, conditions and covenants under the indenture governing the Senior Notes.

Capital Leases

We lease certain facilities and equipment under various capital leases which expire between 2016 and 2021. As of March 31, 2016, the present value of the minimum remaining lease commitments was approximately \$7.2 million, of which \$1.9 million was due and payable within the next twelve months. The leases require total remaining rental payments of \$8.8 million as of March 31, 2016, of which \$4.5 million will be paid to LATEL LLC, a related party entity.

7. DERIVATIVE FINANCIAL INSTRUMENTS

We use derivative financial instruments to manage our exposure to the risks associated with fluctuations in interest rates. Our interest rate swap agreements effectively convert a portion of our floating-rate debt to a fixed rate basis, thereby reducing the impact of interest rate changes on future cash interest payments. Derivative financial instruments are recorded at fair value in our condensed consolidated balance sheets. We may designate certain of our interest rate swaps as cash flow hedges of our expected future interest payments. For derivative instruments designated as a cash flow hedge, the effective portion of the change in the fair value is recognized as a component of accumulated other comprehensive income (loss) ("AOCI") and is recognized as an adjustment to earnings over the period in which the hedged item impacts earnings. When an interest rate swap agreement terminates, any resulting gain or loss is recognized over the shorter of the remaining original term of the hedging instrument or the remaining life of the underlying debt obligation. If a derivative instrument is de-designated, the remaining gain or loss in AOCI on the date of de-designation is amortized to earnings over the remaining term of the hedging instrument. For derivative financial instruments that are not designated as a hedge, including those that have been de-designated, changes in fair value are recognized on a current basis in earnings. The ineffective portion of the change in fair value of any hedging derivative is recognized immediately in earnings. Cash flows from hedging activities are classified under the same category as the cash flows from the hedged items in our condensed consolidated statements of cash flows.

Table of Contents

The following interest rate swaps were outstanding as of March 31, 2016:

(In thousands)	Notional Amount	2016 Balance Sheet Location	Fair Value
Cash Flow Hedges:			
Fixed to 1-month floating LIBOR (with floor)	\$ 200,000	Other long-term liabilities	\$ (1,551)
De-designated Hedges:			
Fixed to 1-month floating LIBOR (with floor)	\$ 50,000	Accrued expense	(76)
Total Fair Values			\$ (1,627)

The following interest rate swaps were outstanding as of December 31, 2015:

(In thousands)	Notional Amount	2015 Balance Sheet Location	Fair Value
Cash Flow Hedges:			
Fixed to 1-month floating LIBOR (with floor)	\$ 150,000	Other long-term liabilities	\$ (1,084)
De-designated Hedges:			
Fixed to 1-month floating LIBOR	\$ 50,000	Accrued expense	(80)
Fixed to 1-month floating LIBOR (with floor)	\$ 50,000	Accrued expense	(110)
Total Fair Values			\$ (1,274)

The counterparties to our various swaps are highly rated financial institutions. None of the swap agreements provide for either us or the counterparties to post collateral nor do the agreements include any covenants related to the financial condition of Consolidated or the counterparties. The swaps of any counterparty that is a lender, as defined in our credit facility, are secured along with the other creditors under the credit facility. Each of the swap agreements provides that, in the event of a bankruptcy filing by either Consolidated or the counterparty, any amounts owed between the two parties would be offset in order to determine the net amount due between parties. This provision allows us to partially mitigate the risk of non performance by a counterparty.

In 2013, interest rate swaps previously designated as cash flow hedges were de-designated as a result of amendments to our credit agreement. The interest rate swap agreements mature on various dates through September 2016. Prior to de-designation, the effective portion of the change in fair value of the interest rate swaps was recognized in AOCI. The balance of the unrealized loss included in AOCI as of the date the swaps were de-designated is being amortized to earnings over the remaining term of the swap agreements. Changes in fair value of the de-designated swaps are immediately recognized in earnings as interest expense. During the quarters ended March 31, 2016 and 2015, a gain of \$0.1 million and \$0.2 million, respectively, was recognized as a reduction to interest expense for the change in fair value of the de-designated swaps.

As of March 31, 2016 and December 31, 2015, the pre-tax deferred losses related to our interest rate swap agreements included in AOCI were \$1.5 million and \$1.1 million, respectively. The estimated amount of losses included in AOCI as of March 31, 2016 that will be recognized in earnings in the next twelve months is approximately \$1.0 million.

Information regarding our cash flow hedge transactions is as follows:

(In thousands)	Quarter Ended	
	March 31,	
	2016	2015
Loss recognized in AOCI, pretax	\$ (700)	\$ (917)
Deferred losses reclassified from AOCI to interest expense	\$ (243)	\$ (426)

Table of Contents

8. EQUITY

Share-Based Compensation

The following table summarizes total compensation costs recognized for share-based payments during the quarters ended March 31, 2016 and 2015:

(In thousands)	Quarter Ended March 31,	
	2016	2015
Restricted stock	\$ 561	\$ 487
Performance shares	331	326
Total	\$ 892	\$ 813

Share-based compensation expense is included in selling, general and administrative expenses in the accompanying condensed consolidated statements of income.

As of March 31, 2016, total unrecognized compensation costs related to non-vested Restricted Stock Awards (“RSAs”) and Performance Share Awards (“PSAs”) was \$7.5 million and will be recognized over a weighted-average period of approximately 1.6 years.

The following table summarizes the RSA and PSA activity for the quarter ended March 31, 2016:

	RSAs		PSAs	
	Shares	Weighted Average Grant Date Fair Value	Shares	Weighted Average Grant Date Fair Value
Non-vested shares outstanding - January 1, 2016	99,360	\$ 19.40	83,224	\$ 18.75
Shares granted	100,040	\$ 23.95	94,066	\$ 20.86
Shares vested	(6,974)	\$ 21.31	(2,104)	\$ 19.11
Shares forfeited, cancelled or retired	(2,067)	\$ 19.74	(4,112)	\$ 19.81
Non-vested shares outstanding - March 31, 2016	190,359	\$ 21.72	171,074	\$ 19.88

Accumulated Other Comprehensive Loss

The following table summarizes the changes in accumulated other comprehensive loss, net of tax, by component for the quarter ended March 31, 2016:

(In thousands)	Pension and Post-Retirement Obligations	Derivative Instruments	Total
Balance at December 31, 2015	\$ (35,025)	\$ (674)	\$ (35,699)
Other comprehensive income before reclassifications	—	(430)	(430)
Amounts reclassified from accumulated other comprehensive loss	679	149	828
Net current period other comprehensive income	679	(281)	398
Balance at March 31, 2016	\$ (34,346)	\$ (955)	\$ (35,301)

Table of Contents

The following table summarizes reclassifications from accumulated other comprehensive loss for the quarters ended March 31, 2016 and 2015:

(In thousands)	Quarter Ended		Affected Line Item in the Statement of Income
	March 31, 2016	2015	
Amortization of pension and post-retirement items:			
Prior service credit	\$ 244	\$ 224	(a)
Actuarial loss	(1,355)	(884)	(a)
	(1,111)	(660)	Total before tax
	432	258	Tax benefit
	\$ (679)	\$ (402)	Net of tax
Loss on cash flow hedges:			
Interest rate derivatives	\$ (243)	\$ (426)	Interest expense
	94	164	Tax benefit
	\$ (149)	\$ (262)	Net of tax

(a) These items are included in the components of net periodic benefit cost for our pension and other post-retirement benefit plans. See Note 9 for further discussion regarding our pension and other post-retirement benefit plans.

9. PENSION PLAN AND OTHER POST-RETIREMENT BENEFITS

Defined Benefit Plans

We sponsor a qualified defined benefit pension plan (“Retirement Plan”) that is non-contributory covering certain of our hourly employees under collective bargaining agreements who fulfill minimum age and service requirements. Certain salaried employees are also covered by the Retirement Plan, although these benefits have previously been frozen. The Retirement Plan is closed to all new entrants. Benefits for eligible participants under collective bargaining agreements are accrued based on a cash balance benefit plan.

We also have two non-qualified supplemental retirement plans (“Supplemental Plans”). The Supplemental Plans provide supplemental retirement benefits to certain former employees by providing for incremental pension payments to partially offset the reduction that would have been payable under the qualified defined benefit pension plans if it were not for limitations imposed by federal income tax regulations. The Supplemental Plans have previously been frozen so that no person is eligible to become a new participant. These plans are unfunded and have no assets. The benefits paid under the Supplemental Plans are paid from the general operating funds of the Company.

The following table summarizes the components of net periodic pension cost for our defined benefit plans for the quarters ended March 31, 2016 and 2015:

(In thousands)	Quarter Ended	
	March 31,	
	2016	2015
Service cost	\$ 86	\$ 129
Interest cost	4,073	3,932
Expected return on plan assets	(5,159)	(5,844)
Net amortization loss	1,355	954
Net prior service credit amortization	(114)	(114)
Net periodic pension cost (benefit)	\$ 241	\$ (943)

Table of Contents

Other Non-qualified Deferred Compensation Agreements

We are also liable for deferred compensation agreements with former members of the board of directors and certain other former employees of acquired companies. Depending on the plan, benefits are payable in monthly or annual installments for a period of time based on the terms of the agreement, which range from five years up to the life of the participant or to the beneficiary upon the death of the participant, and may begin as early as age 55. Participants accrue no new benefits as these plans had previously been frozen. Payments related to the deferred compensation agreements totaled approximately \$0.1 million for each of the quarters ended March 31, 2016 and 2015. The net present value of the remaining obligations was approximately \$2.0 million and \$2.1 million as of March 31, 2016 and December 31, 2015, respectively, and is included in pension and other post-retirement benefit obligations in the accompanying condensed consolidated balance sheets.

We also maintain 25 life insurance policies on certain of the participating former directors and employees. We recognized \$0.2 million in life insurance proceeds as other non-operating income in the quarter ended March 31, 2016. We did not recognize any life insurance proceeds during the quarter ended March 31, 2015. The excess of the cash surrender value of the remaining life insurance policies over the notes payable balances related to these policies is determined by an independent consultant, and totaled \$2.2 million and \$2.1 million as of March 31, 2016 and December 31, 2015, respectively. These amounts are included in investments in the accompanying condensed consolidated balance sheets. Cash principal payments for the policies and any proceeds from the policies are classified as operating activities in the condensed consolidated statements of cash flows.

Post-retirement Benefit Obligations

We sponsor various healthcare and life insurance plans (“Post-retirement Plans”) that provide post-retirement medical and life insurance benefits to certain groups of retired employees. Certain plans have previously been frozen so that no person is eligible to become a new participant. Retirees share in the cost of healthcare benefits, making contributions that are adjusted periodically—either based upon collective bargaining agreements or because total costs of the program have changed. Covered expenses for retiree health benefits are paid as they are incurred. Post-retirement life insurance benefits are fully insured. A majority of the healthcare plans are unfunded and have no assets, and benefits are paid from the general operating funds of the Company. However, a plan acquired in the purchase of another company has assets that are separately designated within the Retirement Plan for the sole purpose of providing payments of retiree medical benefits for this specific plan. The assets used to provide payment of these retiree medical benefits are the same as those of the Retirement Plan.

The following table summarizes the components of the net periodic cost for our post-retirement benefit plans for the quarters ended March 31, 2016 and 2015:

(In thousands)	Quarter Ended	
	March 31,	
	2016	2015
Service cost	\$ 150	\$ 148
Interest cost	505	414
Expected return on plan assets	(37)	(58)
Net amortization gain	—	(70)
Net prior service credit amortization	(130)	(110)
Net periodic postretirement benefit cost	\$ 488	\$ 324

Contributions

We expect to contribute approximately \$0.3 million to our Supplemental Plans and \$3.6 million to our Post retirement Plans in 2016. We do not expect to contribute to the Retirement Plan in 2016. As of March 31, 2016, we have contributed \$0.1 million and \$0.9 million of the annual contribution to the Supplemental Plans and Post-retirement Plans, respectively.

Table of Contents

10. INCOME TAXES

There have been no changes to our unrecognized tax benefits as reported as of December 31, 2015. As of March 31, 2016 and December 31, 2015, the amount of unrecognized tax benefits was \$0.1 million. The net amount of unrecognized benefits that, if recognized, would result in an impact to the effective tax rate is less than \$0.1 million. We do not expect any material changes in our unrecognized tax benefits during the remainder of 2016.

Our practice is to recognize interest and penalties related to income tax matters in interest expense and selling, general and administrative expenses, respectively. As of March 31, 2016, we did not have a material liability for interest or penalties and had no material interest or penalty expense.

The periods subject to examination for our federal return are years 2013 through 2014. The periods subject to examination for our state returns are years 2011 through 2014. We are not currently under examination by federal or state taxing authorities.

Our effective tax rate was 38.6% and 37.1% for the quarters ended March 31, 2016 and 2015, respectively. The effective tax rate differed from the federal and state statutory rates primarily due to non-deductible expenses and differences in allocable income for our state tax filings.

11. COMMITMENTS AND CONTINGENCIES

Litigation, Regulatory Proceedings and Other Contingencies

In 2014, Sprint Corporation, Level 3 Communications, Inc. and Verizon Communications Inc. filed lawsuits against us and many others in the industry regarding the proper charges to be applied between interexchange and local exchange carriers for certain calls between mobile and wireline devices that are routed through an interexchange carrier. The plaintiffs are refusing to pay these access charges in all states and are seeking refunds of past charges paid. The disputed amounts total \$2.4 million and cover periods dating back to 2006. CenturyLink, Inc. filed to bring all related suits to the U.S. District Court's Judicial Panel on multi district litigation. This panel is granted authority to transfer the pretrial proceedings to a single court for civil cases involving common questions of fact. On November 17, 2015, the U.S. District Court in Dallas, Texas ruled in favor of the defendants, although we expect that the plaintiffs will file an appeal. We have interconnection agreements in place with all wireless carriers and the applicable traffic is being billed at current access rates, therefore, we do not expect any potential settlement or judgment to have an adverse material impact on our financial results or cash flows.

On April 14, 2008, Salsgiver Inc., a Pennsylvania-based telecommunications company, and certain of its affiliates (“Salsgiver”) filed a lawsuit against us and our former subsidiaries North Pittsburgh Telephone Company and North Pittsburgh Systems Inc. in the Court of Common Pleas of Allegheny County, Pennsylvania alleging that we had prevented Salsgiver from connecting their fiber optic cables to our utility poles. Salsgiver sought compensatory and punitive damages as the result of alleged lost projected profits, damage to its business reputation and other costs. Salsgiver originally claimed to have sustained losses of approximately \$125.0 million. We believe that these claims are without merit and that the alleged damages are completely unfounded. We had recorded approximately \$0.4 million in 2011 in anticipation of the settlement of this case. During the quarter ended September 30, 2013, we recorded an additional \$0.9 million, which included estimated legal fees. A jury trial concluded on May 14, 2015 with the jury ruling in our favor. Salsgiver subsequently filed a post-trial motion asking the judge to overturn the jury verdict. That motion was denied. On June 17, 2015, Salsgiver filed an appeal in the Pennsylvania Superior Court. Salsgiver’s brief was filed with the Superior Court on December 4, 2015, and we filed our response on January 18, 2016. The Pennsylvania Superior Court will hold oral argument on May 17, 2016. We believe that, despite the appeal, the \$1.3 million currently accrued represents management’s best estimate of the potential loss if the verdict is overturned in Salsgiver's favor.

Two of our subsidiaries, Consolidated Communications of Pennsylvania Company LLC (“CCPA”) and Consolidated Communications Enterprise Services Inc. (“CCES”), have, at various times, received assessment notices from the Commonwealth of Pennsylvania Department of Revenue (“DOR”) increasing the amounts owed for Pennsylvania Gross Receipt Taxes, and/or have had audits performed for the tax years of 2008 through 2013. In addition, a re-audit was

Table of Contents

performed on CCPA for the 2010 calendar year. For the calendar years for which we received both additional assessment notices and audit actions, those issues have been combined by the DOR into a single docket for each year.

Pennsylvania generally imposes tax on the gross receipts of telephone messages transmitted wholly within the state and telephone messages transmitted in interstate commerce where such messages originate or terminate in Pennsylvania, and the charges for such messages are billed to a service address in the state. In a 2013 decision involving Verizon Telephone Company of Pennsylvania (“Verizon Pennsylvania”), the Commonwealth Court of Pennsylvania held that the gross receipts tax applies to Verizon Pennsylvania’s installation of private phone lines because the sole purpose of private lines is to transmit messages. Similarly, the court held that directory assistance is subject to the gross receipts tax because it makes the transition of messages more effective. However, the court did not find Verizon Pennsylvania’s nonrecurring charges for the installation of telephone lines, moves of and changes to telephone lines and services and repairs of telephone lines to be subject to the gross receipts tax as no telephone messages are transmitted when Verizon Pennsylvania performs nonrecurring services.

On appeal, the Supreme Court of Pennsylvania recently held in *Verizon Pennsylvania, Inc. v. Commonwealth of Pennsylvania* that charges for the installation of private phone lines, charges for directory assistance and certain nonrecurring charges were all subject to the state’s gross receipt tax. The Supreme Court of Pennsylvania found that all of the services, including those related to nonrecurring charges, in some way made transmission more effective or communication more satisfactory even though such services did not involve actual transmission. This is a partial reversal of the 2013 Commonwealth Court of Pennsylvania decision described above, which had ruled that while the charges for the installation of private phone lines and directory assistance were subject to the state’s gross receipts tax, the nonrecurring charges in question were not. As a motion for reconsideration has not been filed with the Supreme Court of Pennsylvania, and the period for such filing has expired, the case is now final.

For the CCES subsidiary, the total additional tax liability calculated by the DOR auditors for the calendar years 2008 through 2013 is approximately \$4.1 million. Appeals of cases for the audits in calendar years 2008 through 2010 have been filed and received continuances pending the outcome of the Verizon Pennsylvania litigation described above. The preliminary audit findings for the calendar years 2011 through 2013 were received on September 16, 2014. We are awaiting invoices for each of these years, at which time we will prepare to file an appeal with the DOR.

For the CCPA subsidiary, the total additional tax liability calculated by the DOR auditors for the calendar years 2008 through 2013 (using the re-audited 2010 number) is approximately \$5.0 million. Appeals of cases for the audits in calendar years 2008, 2009 and the original 2010 audit have been filed and received continuances pending the outcome of the Verizon Pennsylvania litigation described above. The preliminary audit findings for the calendar years 2011 through 2013, as well as the re-audit of 2010, were received on September 16, 2014. We are awaiting invoices for each of these years, at which time we will prepare to file an appeal with the DOR.

We believe that certain of the DOR's findings regarding the Company's additional tax liability for the calendar years 2008 through 2013, for which we have filed or plan to file appeals, continue to lack merit. However, in light of the Supreme Court of Pennsylvania's decision, we have accrued \$1.4 million and \$1.2 million for our CCES and CCPA subsidiaries, respectively. These accruals also include the Company's best estimate of the potential 2014 and 2015 additional tax liabilities. We do not believe that the outcome of these claims will have a material adverse impact on our financial results or cash flows.

From time to time we may be involved in litigation that we believe is of the type common to companies in our industry, including regulatory issues. While the outcome of these other claims cannot be predicted with certainty, we do not believe that the outcome of any of these other legal matters will have a material adverse impact on our business, results of operations, financial condition or cash flows.

12. CONDENSED CONSOLIDATING FINANCIAL INFORMATION

Consolidated Communications, Inc. is the primary obligor under the unsecured Senior Notes. We and substantially all of our subsidiaries, excluding Consolidated Communications of Illinois Company, have jointly and severally guaranteed the Senior Notes. All of the subsidiary guarantors are 100% direct or indirect wholly owned subsidiaries of the parent, and all guarantees are full, unconditional and joint and several with respect to principal, interest and liquidated damages, if any.

Table of Contents

As such, we present condensed consolidating balance sheets as of March 31, 2016 and December 31, 2015, condensed consolidating statements of operations and cash flows for the quarters ended March 31, 2016 and 2015 for each of the Company (Parent), Consolidated Communications, Inc. (Subsidiary Issuer), guarantor subsidiaries and other non-guarantor subsidiaries with any consolidating adjustments. See Note 6 for more information regarding our Senior Notes.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The Securities and Exchange Commission ("SEC") encourages companies to disclose forward-looking information so that investors can better understand a company's future prospects and make informed investment decisions. Certain statements in this Quarterly Report on Form 10-Q, including those which relate to the impact on future revenue sources, pending and future regulatory orders, continued expansion of the telecommunications network and expected changes in the sources of our revenue and cost structure resulting from our entrance into new communications markets, are forward-looking statements and are made pursuant to the safe harbor provisions of the Securities Litigation Reform Act of 1995. These forward-looking statements reflect, among other things, our current expectations, plans, strategies and anticipated financial results. There are a number of risks, uncertainties and conditions that may cause our actual results to differ materially from those expressed or implied by these forward-looking statements. Many of these circumstances are beyond our ability to control or predict. Moreover, forward-looking statements necessarily involve assumptions on our part. These forward-looking statements generally are identified by the words "believe", "expect", "anticipate", "estimate", "project", "intend", "plan", "should", "may", "will", "be", "will continue" or similar expressions. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements of Consolidated Communications Holdings, Inc. and its subsidiaries ("Consolidated", the "Company", "we" or "our") to be different from those expressed or implied in the forward-looking statements. All forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements that appear throughout this report. A detailed discussion of these and other risks and uncertainties that could cause actual results and events to differ materially from such forward-looking statements is included in our 2015 Annual Report on Form 10-K filed with the SEC. Furthermore, forward-looking statements speak only as of the date they are made. Except as required under the federal securities laws or the rules and regulations of the SEC, we disclaim any intention or obligation to update or revise publicly any forward-looking statements. You should not place undue reliance on forward-looking statements. Management's Discussion and Analysis ("MD&A") should be read in conjunction with our unaudited condensed consolidated financial statements and accompanying notes to the financial statements ("Notes") as of and for the three months ended March 31, 2016 included in Item 1 of Part I of this Quarterly Report on Form 10-Q.

Throughout this MD&A, we refer to measures that are not measures of financial performance in accordance with accounting principles generally accepted in the United States ("US GAAP" or "GAAP"). We believe the use of these non-GAAP measures on a consolidated basis provides the reader with additional information that is useful in understanding our operating results and trends. These measures should be viewed in addition to, rather than as a substitute for, those measures prepared in accordance with GAAP. See the "Non-GAAP Measures" section below for a more detailed discussion on the use and calculation of these measures.

Overview

We are an integrated communications services company that operates as both an Incumbent Local Exchange Carrier ("ILEC") and a Competitive Local Exchange Carrier ("CLEC") dependent upon the territory served. We provide an array of services in consumer, commercial and carrier channels in 11 states, including local and long-distance service,

high-speed broadband Internet access, video services, Voice over Internet Protocol (“VoIP”), custom calling features, private line services, carrier grade access services, network capacity services over our regional fiber optic networks, data center and managed services, directory publishing, equipment sales and cloud services.

Total operating revenues decreased \$3.8 million during the quarter ended March 31, 2016 compared to the same period in 2015 primarily due to a \$1.3 million decrease in equipment sales and services revenue. Equipment sales and services are non-recurring and changes in revenues can be attributed to the timing and volume of customer sales, which can vary each quarter and result in positive or negative fluctuations in our quarterly operating revenues and expenses. In addition, outside billing and support services revenue decreased \$1.1 million as a result of the sale of our billing services company in late 2015.

The remainder of the decrease in total operating revenues was due to an anticipated industry wide trend of a decline in consumer voice services, access lines and related network access. Many consumers are choosing to subscribe to alternative communications services and competition for these subscribers continues to increase. Total voice connections decreased

Table of Contents

4% as of March 31, 2016 compared to the same period in 2015. Competition from wireless providers, competitive local exchange carriers and, in some cases, cable television providers has increased in recent years in the markets we serve. We have been able to mitigate some of the access line losses through marketing initiatives and product offerings, such as our VoIP service.

The decrease in our total operating revenues during the first quarter of 2016 was offset in part by growth in commercial services, broadband services and total data connections. We generate the majority of our consolidated operating revenues primarily from subscriptions to our video, data and transport services (collectively “broadband services”) to business and residential customers. We expect our broadband services revenue to continue to grow as consumer and commercial demands for data-based services increase. We continue to focus on commercial and broadband growth opportunities and are continually expanding our commercial product offerings for both small and large businesses to capitalize on industry technological advances. We can leverage our fiber optic networks and tailor our services for business customers by developing solutions to fit their specific needs. In addition, we recently launched a suite of cloud services and an enhanced hosted voice product, which increases efficiency and reduces IT costs for our customers and enables greater scalability and reliability for businesses. We anticipate future momentum in new commercial services as these new products gain traction.

We market services to our residential customers either individually or as a bundled package. Our “triple play” bundle includes our voice, video and data services. Data demands continue to increase as a result of consumer trends toward increased Internet usage and our enhanced product and service offerings, such as our progressively increasing consumer data speeds. We introduced data speeds of up to 1 Gbps to approximately 20,000 of our fiber-to-the-home customers in our Kansas market and a limited portion of our Pennsylvania market in December 2014 and in our Texas market in the first quarter of 2015, with our California market to follow in 2016. Where 1 Gbps speeds are not yet offered, the maximum broadband speed is 100 Mbps, depending on the geographic market availability. As of March 31, 2016, approximately 29% of the homes in the areas we serve subscribe to our data service. Our exceptional consumer broadband speed allows us to continue to meet the needs of our customers and the demand for higher speeds resulting from the growing trend of over-the-top (“OTT”) content viewing. The availability of 1 Gbps data speed also complements our wireless home networking (“Wi-Fi”) that supports our TV Everywhere service and allows our subscribers to watch their favorite programs at home or away on a computer, smartphone or tablet.

The consumer’s growing acceptance of OTT video services either to augment their current viewing options or to entirely replace their video subscription may impact our future video subscriber base, which could result in a decline in video revenue as well as a reduction in video programming costs. Total video connections decreased 7% as of March 31, 2016 compared to the same period in 2015. However, during the quarter ended March 31, 2016, the decrease in video revenue as a result of the decline in video connections was mitigated by price increases implemented in 2016. We believe the trend in changing consumer viewing habits will continue to impact our business model and strategy of providing consumers the necessary broadband speed to facilitate OTT content viewing.

As discussed in the “Regulatory Matters” section below, our operating revenues are also impacted by legislative or regulatory changes at the federal and state levels, which could reduce or eliminate the current subsidies revenue we receive. A number of proceedings and recent orders relate to universal service reform, intercarrier compensation and

network access charges. There are various ongoing legal challenges to the orders that have been issued. As a result, it is not yet possible to fully determine the impact of the regulatory changes on our operations.

Significant Recent Developments

Acquisition

On April 18, 2016, we entered into a definitive agreement to acquire substantially all of the assets of Champaign Telephone Company, Inc. and its sister company, Big Broadband Services, LLC, a private business communications provider in the Champaign-Urbana, IL area. The aggregate purchase price consists of cash consideration of approximately \$13.0 million, which will be paid from our existing cash resources. The acquisition is subject to standard closing conditions, including regulatory approvals, and is expected to close in third quarter of 2016.

Table of Contents

Divestiture

On May 3, 2016, we entered into a definitive agreement to sell our rural ILEC business located in northwest Iowa (Consolidated Communications of Iowa Company, formerly Heartland Telecommunications) for approximately \$22.5 million in cash, prior to certain contractual adjustments. The transaction is expected to close in the third quarter of 2016 and is subject to customary closing conditions, including regulatory approvals. At March 31, 2016, the carrying amount of the assets to be disposed of were classified as held and used and consisted primarily of property, plant and equipment of \$20.7 million. We are currently in the process of estimating the amount of goodwill to be allocated to the disposal group based on the relative fair values of the Iowa ILEC and the consolidated reporting unit as well as estimating the related loss on disposal.

Results of Operations

The following tables reflect our financial results on a consolidated basis and key operating metrics as of and for the quarters ended March 31, 2016 and 2015.

Operating Revenues

Commercial and Carrier

Data and Transport Services

We provide a variety of business communication services to small, medium and large business customers, including many services over our advanced fiber network. The services we offer include scalable high speed broadband Internet access and VoIP phone services which range from basic service plans to virtual hosted systems. In addition to Internet and VoIP services, we also offer private line data services to businesses that include dedicated Internet access through our Metro Ethernet network. Wide Area Network (“WAN”) products include point-to-point and multi-point deployments from 2.5 Mbps to 10 Gbps to accommodate the growth patterns of our business customers. Data center and disaster recovery solutions provide a reliable and local colocation option for commercial customers. We also offer wholesale services to regional and national interexchange and wireless carriers, including cellular backhaul and other fiber transport solutions.

Data and transport services revenues increased \$3.0 million during the quarter ended March 31, 2016 compared to the same period in 2015 primarily due to growth in data and video connections and a continued increase in VoIP, internet access and Metro Ethernet revenues. Fiber transport and cellular backhaul revenues also increased as network bandwidth demand for wireless data continues to escalate and as a result of a one-time early termination fee in 2016.

Voice Services

Voice services include basic local phone and long-distance service packages for business customers. The plans include options for voicemail, conference calling, linking multiple office locations and other custom calling features such as caller ID, call forwarding, speed dialing and call waiting. Services can be charged at a fixed monthly rate, a measured rate or can be bundled with selected services at a discounted rate.

Voice services revenues decreased \$1.1 million during the quarter ended March 31, 2016 compared to the same period in 2015 primarily due to a 4% decline in access lines as commercial customers are increasingly choosing alternative technologies, including our own VoIP product, and the broad range of features that Internet based voice services can offer.

Consumer

Broadband Services

Broadband services include revenues from residential customers for subscriptions to our VoIP, data and video products. We offer high speed Internet access at speeds of up to 1 Gbps, depending on the nature of the network facilities that are available, the level of service selected and the location. Our VoIP digital phone service is also available in certain markets as an alternative to the traditional telephone line. Depending on geographic market availability, our video services

Table of Contents

range from limited basic service to advanced digital television, which includes several plans each with hundreds of local, national and music channels including premium and pay-per-view channels as well as video on-demand service. Certain customers may also subscribe to our advanced video services, which consist of high-definition television, digital video recorders (“DVR”) and/or a whole home DVR.

Broadband services revenues increased \$0.9 million during the quarter ended March 31, 2016 compared to the same period in 2015, despite a 2% decline in data connections and a 9% decline in video connections, primarily due to price increases for data and video services in 2016.

Voice Services

We offer several different basic local phone service packages and long-distance calling plans, including unlimited flat-rate calling plans. The plans include options for voicemail and other custom calling features such as caller ID, call forwarding and call waiting. Voice services revenues decreased \$1.1 million during the quarter ended March 31, 2016 compared to the same period in 2015 primarily due to a 10% decline in voice connections. The number of local access lines in service directly affects the recurring revenues we generate from end users and continues to be impacted by the industry-wide decline in access lines. We expect to continue to experience modest erosion in voice connections due to competition from alternative technologies, including our own competing VoIP product.

Equipment Sales and Service

We are an accredited Master Level Unified Communications and Gold Certified Cisco Partner providing equipment solutions and support for business customers. As an equipment integrator, we offer network design, implementation and support services, including maintenance contracts, in order to provide integrated communication solutions for our customers. When an equipment sale involves multiple deliverables, revenues are allocated to each respective element based on relative selling price. Equipment sales and service revenues decreased \$1.3 million during the quarter ended March 31, 2016 compared to the same period in 2015. Equipment sales and services are non-recurring and changes in revenues can be attributed to the timing and volume of customer sales, which can vary each quarter and result in positive or negative fluctuations in our quarterly operating revenues and expenses.

Subsidies

Subsidies consist of both federal and state subsidies, which are designed to promote widely available, quality telephone service at affordable prices in rural areas. Subsidies revenues decreased \$1.3 million during the quarter ended March 31, 2016 compared to the same period in 2015 primarily due to the transition to Connect America Fund

(“CAF”) Phase II funding and a decrease in state funding support for our Texas ILEC. See the “Regulatory Matters” section below for further discussion of the subsidies we receive.

Network Access Services

Network access services include interstate and intrastate switched access revenues, network special access services and end user access. Switched access revenues include access services to other communications carriers to terminate or originate long-distance calls on our network. Special access circuits provide dedicated lines and trunks to business customers and interexchange carriers. Network access services revenues decreased \$1.5 million during the quarter ended March 31, 2016 compared to the same period in 2015 primarily due to a decline in special access revenues as a result of a reduction in the number of our carrier circuits; however, a portion of the decrease can be attributed to carriers shifting to our fiber Metro Ethernet product, contributing to the growth in that area.

Other Products and Services

Other products and services include revenues from telephone directory publishing, video advertising and billing and support services. Other products and services revenue decreased \$1.4 million during the quarter ended March 31, 2016 compared to the same period in 2015 primarily due to a decline in outside billing and support services revenue of \$1.1

Table of Contents

million as a result of the sale of our billing services company in late 2015. The remainder of the decrease in other products and services revenues was due to a decline in telephone directory advertising revenues.

Operating Expenses

Cost of Services and Products

Cost of services and products decreased \$0.2 million during the quarter ended March 31, 2016 compared to the same period in 2015 primarily due to a reduction in costs of goods sold related to a decline in equipment sales, which can fluctuate each quarter as discussed above. Video programming costs decreased as a result of a 7% decline in video connections, which was offset in part by an increase in programming costs per channel as costs continue to rise as a result of annual rate increases. Network access costs also increased due to growth in carrier and wireless backhaul services. The change in cost of services and products was also impacted by an increase in pension expense in the current year.

Selling, General and Administrative Costs

Selling, general and administrative costs decreased \$1.7 million during the quarter ended March 31, 2016 compared to the same period in 2015 primarily due to a decline in employee-related costs from a reduction in headcount as part of the Company's continuing cost saving initiatives. Restructuring costs also declined due to severance and other integration costs incurred in 2015 related to recent acquisitions.

Depreciation and Amortization

Depreciation and amortization expense increased \$0.5 million during the quarter ended March 31, 2016 compared to the same period in 2015, primarily due to ongoing capital expenditures related to network enhancements and success-based capital projects for consumer and commercial services, which were offset in part by certain circuit equipment and outside plant becoming fully depreciated during 2016.

Reclassifications

Certain amounts in our 2015 condensed consolidated financial statements have been reclassified to conform to the 2016 presentation, which consisted primarily of the reclassification of certain operating revenues from network access to commercial and carrier. The change in the classification of these revenues had no impact to total operating revenues as previously reported.

Regulatory Matters

Our revenues are subject to broad federal and/or state regulation, which include such telecommunications services as local telephone service, network access service and toll service and are derived from various sources, including:

- business and residential subscribers of basic exchange services;
- surcharges mandated by state commissions;
- long-distance carriers for network access service;
- competitive access providers and commercial enterprises for network access service; and
- support payments from federal or state programs.

The telecommunications industry is subject to extensive federal, state and local regulation. Under the Telecommunications Act of 1996, federal and state regulators share responsibility for implementing and enforcing statutes and regulations designed to encourage competition and to preserve and advance widely available, quality telephone service at affordable prices.

At the federal level, the Federal Communications Commission (“FCC”) generally exercises jurisdiction over facilities and services of local exchange carriers, such as our rural telephone companies, to the extent they are used to provide, originate or terminate interstate or international communications. The FCC has the authority to condition, modify, cancel, terminate

Table of Contents

or revoke our operating authority for failure to comply with applicable federal laws or FCC rules, regulations and policies. Fines or penalties also may be imposed for any of these violations.

State regulatory commissions generally exercise jurisdiction over carriers' facilities and services to the extent they are used to provide, originate or terminate intrastate communications. In particular, state regulatory agencies have substantial oversight over interconnection and network access by competitors of our rural telephone companies. In addition, municipalities and other local government agencies regulate the public rights-of-way necessary to install and operate networks. State regulators can sanction our rural telephone companies or revoke our certifications if we violate relevant laws or regulations.

FCC Matters

In general, telecommunications service in rural areas is more costly to provide than service in urban areas. The lower customer density means that switching and other facilities serve fewer customers and loops are typically longer, requiring greater expenditures per customer to build and maintain. By supporting the high cost of operations in rural markets, Universal Service Fund ("USF") subsidies promote widely available, quality telephone service at affordable prices in rural areas. Revenues from the federal and certain states' USFs decreased \$1.3 million during the quarter ended March 31, 2016 compared to the same period in 2015 primarily due to the transition to CAF Phase II funding and a decrease in state funding support for our Texas ILEC.

In order for an eligible telecommunications carrier ("ETC") to receive high-cost support, the USF/Intercarrier Compensation ("ICC") Transformation Order requires states to certify annually that USF support is used only for the provision, maintenance and upgrading of facilities and services for which the support is intended. States, in turn, require that ETCs file certifications with them as the basis for the state filings with the FCC. Failure to meet the annual data and certification deadlines can result in reduced support to the ETC based on the length of the delay in certification. For calendar year 2013, the California state certification was due to be filed with the FCC on or before October 1, 2012. We were notified in January 2013 that SureWest Communications ("SureWest") did not submit the required certification to the California Public Utilities Commission ("CPUC") in time to be included in its October 1, 2012 submission to the FCC. In January 2013, we filed a certification with the CPUC and filed a petition with the FCC for a waiver of the filing deadline for the annual state certification. In February 2013, the CPUC filed a certification with the FCC with respect to SureWest. In October 2013, the Wireline Competition Bureau of the FCC denied our petition for a waiver of the annual certification deadline. In November 2013, we applied for a review of the decision made by the FCC staff by the full Commission. Management is optimistic that the Company may prevail in its application to the Commission and receive USF funding for the period January 1, 2013 through June 30, 2013 based on the change in SureWest's USF filing status caused by the change in the ownership of SureWest, the lack of formal notice by the FCC regarding this change in filing status, the fact that SureWest had a previously filed certification of compliance in effect with the FCC for the two quarters for which USF was withheld and the FCC's past practice of granting waivers to accept late filings in similar situations. However, due to the denial of our petition by the Wireline Competition Bureau and the uncertainty of the collectability of previously recognized revenues, in December 2013 we reversed \$3.0 million of previously recognized revenues until such time that the Commission has the opportunity to reach a decision on our application for review.

Our recently acquired Enventis ILEC properties are cost-based rate of return companies. Historically, under FCC rules governing rate making, these ILECs were required to establish rates for their interstate telecommunications services based on projected demand usage for the various services. We projected our earnings through the use of annual cost separation studies, which utilized estimated total cost information and projected demand usage. Carriers were required to follow FCC rules in the preparation of these annual studies. We determined actual earnings from our interstate rates as actual volumes and costs became known. Effective January 1, 2015, our Enventis ILECs are treated as price cap companies for universal service purposes. In March 2015, we filed a petition for waiver to keep them as rate of return companies for switched and special access. The petition was granted in October 2015. We expect certain adjustments to take place over 24 months as a result of exiting the National Exchange Carrier Association (“NECA”) pool; however, we do not anticipate that they will be material to our condensed consolidated financial statements or results of operations.

An order adopted by the FCC in 2011 (the “Order”) will significantly impact the amount of support revenue we receive from the USF, CAF and ICC. The Order reformed core parts of the USF, broadly recast the existing ICC scheme,

Table of Contents

established the CAF to replace support revenues provided by the current USF and redirected support from voice services to broadband services. In 2012, CAF Phase I was implemented, which froze USF support to price cap carriers until the FCC implemented a broadband cost model to shift support from voice services to broadband services. The Order also modified the methodology used for ICC traffic exchanged between carriers. The initial phase of ICC reform was effective on July 1, 2012, beginning the transition of our terminating switched access rates to bill-and-keep over a seven year period, and as a result, we estimate that our network access revenue for 2016 will be reduced by as much as approximately \$1.9 million.

In December 2014, the FCC released a report and order that addressed, among other things, the transition to CAF Phase II funding for price cap carriers and the acceptance criteria for CAF Phase II funding. For companies that accepted the CAF Phase II funding, there is a three year transition period in instances in which their CAF Phase I funding exceeds the CAF Phase II funding. If CAF Phase II funding exceeds CAF Phase I funding, the transitional support is waived and CAF Phase II funding begins immediately. Companies are required to commit to a statewide build out requirement to 10 Mbps downstream and 1 Mbps upstream in funded locations. We accepted the CAF Phase II funding in August 2015. The annual funding under CAF Phase I of \$36.6 million will be replaced by annual funding under CAF Phase II of \$13.9 million through 2020. In the state of Iowa, where CAF Phase II funding is greater than the CAF Phase I funding, the CAF Phase II funding was received with a retroactive payment back to January 1, 2015. For all other states, funding under CAF Phase II is less than funding under CAF Phase I. The acceptance of funding at the lower level will transition over a three year period, beginning in August 2015, at the rates of 75% of the CAF Phase I funding level in the first year, 50% in the second year and 25% in the third year.

In March 2015, the FCC released its net neutrality order which applies to all wireline and wireless providers of broadband internet access services. The net neutrality order addresses several areas that will be regulated and others that are subject to forbearance. The regulations disallow blocking, throttling and paid prioritization by internet service providers. The net neutrality order also requires providers to disclose certain information to consumers on rates, fees, data allowances and packet loss. Finally, it gives the FCC codified enforcement authority and it forbears on certain Title II regulations. We are evaluating the net neutrality order, and we currently do not believe the order will result in any significant changes to the services we provide our customers, nor do we believe it will have a material impact on our condensed consolidated financial position or results of operations.

State Matters

California

In an ongoing proceeding relating to the New Regulatory Framework, the CPUC adopted Decision 06-08-030 in 2006, which grants carriers broader pricing freedom in the provision of telecommunications services, bundling of services, promotions and customer contracts. This decision adopted a new regulatory framework, the Uniform Regulatory Framework (“URF”), which among other things (i) eliminates price regulation and allows full pricing flexibility for all new and retail services, (ii) allows new forms of bundles and promotional packages of telecommunication services,

(iii) allocates all gains and losses from the sale of assets to shareholders and (iv) eliminates almost all elements of rate of return regulation, including the calculation of shareable earnings. In December 2010, the CPUC issued a ruling to initiate a new proceeding to assess whether, or to what extent, the level of competition in the telecommunications industry is sufficient to control prices for the four largest ILECs in the state. Subsequently, the CPUC issued a ruling temporarily deferring the proceeding. When the CPUC may open this proceeding is unclear and on hold at this time. The CPUC's actions in this and future proceedings could lead to new rules and an increase in government regulation. The Company will continue to monitor this matter.

Pennsylvania

In 2011, the Pennsylvania Public Utilities Commission ("PAPUC") issued an intrastate access reform order reducing intrastate access rates to interstate levels in a three-step process, which began in March 2012. With the release of the FCC order in November 2011, the PAPUC temporarily issued a stay. A final stay was issued in 2012 to implement the FCC ordered intrastate access rate changes. The PAPUC had indicated that it would address state universal funding in 2013,

Table of Contents

but delayed conducting a proceeding pending any state legislative activity that may occur in the 2015 legislative session. The Company will continue to monitor this matter.

Texas

The Texas Public Utilities Regulatory Act (“PURA”) directs the Public Utilities Commission of Texas (“PUCT”) to adopt and enforce rules requiring local exchange carriers to contribute to a state universal service fund that helps telecommunications providers offer basic local telecommunications service at reasonable rates in high-cost rural areas. The Texas Universal Service Fund is also used to reimburse telecommunications providers for revenues lost by providing lifeline service. Our Texas rural telephone companies receive disbursements from this fund.

Our Texas ILECs have historically received support from two state funds, the small and rural incumbent local exchange company plan High Cost Fund (“HCF”) and the High Cost Assistance Fund (“HCAF”). The HCF is a line-based fund used to keep local rates low. The rate is applied on all residential lines and up to five single business lines. The amount we receive from the HCAF is a frozen monthly amount that was originally developed to offset high intrastate toll rates.

In September 2011, the Texas state legislature passed Senate Bill No. 980/House Bill No. 2603 which, among other things, mandated the PUCT to review the USF and issue recommendations by January 1, 2013 with the intent to effectively reduce the size of the USF. This would be accomplished by implementing an urban floor to offset state funding reductions with a phase-in period of four years. The PUCT recommended that (i) frozen line counts be lifted effective September 1, 2013 and (ii) rural and urban local rate benchmarks be developed. The large company fund review was completed in September 2012 and the PUCT addressed the small fund participants in Docket 41097 Rate Rebalancing (“Docket 41097”), as discussed below.

In June 2013, the Texas state legislature passed Senate Bill No. 583 (“SB 583”). The provisions of SB 583 were effective September 1, 2013 and froze HCF and HCAF support for the remainder of 2013. As of January 1, 2014, our annual \$1.4 million HCAF support was eliminated and the frozen HCF support returned to funding on a per line basis. In July 2013, the Company entered into a settlement agreement with the PUCT on Docket 41097, which was approved by the PUCT in August 2013. In accordance with the provisions of the settlement agreement, the HCF draw will be reduced by approximately \$1.2 million annually over a four year period beginning June 1, 2014 through 2018. However, we have the ability to fully offset this reduction with increases to residential rates where market conditions allow, which the Company filed for in April 2014 and implemented in June 2014.

In addition, the PUCT is required to develop a needs test for post-2017 funding and has held workshops on various proposals. The PUCT issued its recommendation to the Texas state commissioners in May 2014, which was approved in December 2014. The needs test allows for a one-time disaggregation of line rates from a per line flat rate, then a

competitive test must be met to receive funding. The deadline for submission of the needs test is December 31, 2016. We expect to complete the needs test as required and file for continued funding by the 2016 deadline.

Other Regulatory Matters

We are also subject to a number of regulatory proceedings occurring at the federal and state levels that may have a material impact on our operations. The FCC and state commissions have authority to issue rules and regulations related to our business. A number of proceedings are pending or anticipated that are related to such telecommunications issues as competition, interconnection, access charges, intercarrier compensation, broadband deployment, consumer protection and universal service reform. Some proceedings may authorize new services to compete with our existing services. Proceedings that relate to our cable television operations include rulemakings on set top boxes, carriage of programming, industry consolidation and ways to promote additional competition. There are various on-going legal challenges to the scope or validity of FCC orders that have been issued. As a result, it is not yet possible to fully determine the impact of the related FCC rules and regulations on our operations.

Table of Contents

Non-Operating Items

Other Income and Expense, Net

Interest expense, net of interest income, decreased \$2.1 million during the quarter ended March 31, 2016 compared to the same periods in 2015 primarily due to a reduction in the interest rate for our outstanding senior notes. In June 2015, we issued an additional \$300.0 million in 6.50% Senior Notes due 2022, which were used, in part, to redeem the then-remaining amount of our outstanding 10.875% Senior Notes due 2020. Interest expense was also reduced in 2016 from a decline in outstanding debt under our revolving credit facility as well as a decrease in interest expense related to our interest rate swap agreements.

Investment income increased \$0.8 million during the quarter ended March 31, 2016 compared to the same periods in 2015, primarily due to an other-than-temporary impairment loss of \$0.8 million recognized during the quarter ended March 31, 2015 as a result of the sale of our equity interest in Central Valley Independent Network, LLC in 2015.

Income Taxes

Income taxes increased \$0.4 million during the quarter ended March 31, 2016 compared to the same period in 2015. Our effective tax rate was 38.6% and 37.1% for the quarters ended March 31, 2016 and 2015, respectively. The effective tax rate differed from the federal and state statutory rates primarily due to non-deductible expenses and differences in allocable income for our state tax filings.

Non-GAAP Measures

In addition to the results reported in accordance with US GAAP, we also use certain non-GAAP measures such as EBITDA and adjusted EBITDA to evaluate operating performance and to facilitate the comparison of our historical results and trends. These financial measures are not measures of financial performance under US GAAP and should not be considered in isolation or as a substitute for net income as a measure of performance and net cash provided by operating activities as a measure of liquidity. They are not, on their own, necessarily indicative of cash available to fund cash needs as determined in accordance with GAAP. The calculation of these non-GAAP measures may not be comparable to similarly titled measures used by other companies. Reconciliations of these non-GAAP measures to the most directly comparable financial measures presented in accordance with GAAP are provided below.

EBITDA is defined as net earnings before interest expense, income taxes and depreciation and amortization. Adjusted EBITDA is comprised of EBITDA, adjusted for certain items as permitted or required under our credit facility as described in the reconciliations below. These measures are a common measure of operating performance in the telecommunications industry and are useful, with other data, as a means to evaluate our ability to fund our estimated uses of cash.

Table of Contents

The following table is a reconciliation of net cash provided by operating activities to adjusted EBITDA for the quarters ended March 31, 2016 and 2015:

(In thousands, unaudited)	Quarter Ended	
	March 31,	
	2016	2015
Net cash provided by operating activities	\$ 59,541	\$ 52,404
Adjustments:		
Non-cash, stock-based compensation	(892)	(813)
Other adjustments, net	(445)	(1,987)
Changes in operating assets and liabilities	(6,162)	1,781
Interest expense, net	18,646	20,674
Income taxes	4,973	4,626
EBITDA	75,661	76,685
Adjustments to EBITDA:		
Other, net (1)	(4,725)	(4,901)
Investment distributions (2)	6,796	7,079
Non-cash, stock-based compensation (3)	892	813
Adjusted EBITDA	\$ 78,624	\$ 79,676

-
- (1) Includes the equity earnings from our investments, dividend income, income attributable to noncontrolling interests in subsidiaries, transaction related costs, including severance, and certain other miscellaneous items.
- (2) Includes all cash dividends and other cash distributions received from our investments.
- (3) Represents compensation expenses in connection with the issuance of stock awards, which, because of the non-cash nature of these expenses, are excluded from adjusted EBITDA.

Liquidity and Capital Resources

Outlook and Overview

Our operating requirements have historically been funded from cash flows generated from our business and borrowings under our credit facilities. We expect that our future operating requirements will continue to be funded from cash flows from operating activities, existing cash and cash equivalents and, if needed, borrowings under our revolving credit facility and our ability to obtain future external financing. We anticipate that we will continue to use a substantial portion of our cash flow to fund capital expenditures, meet scheduled payments of long-term debt, make

dividend payments and invest in future business opportunities.

The following table summarizes our cash flows:

(In thousands)	Three Months Ended	
	March 31, 2016	2015
Cash flows provided by (used in):		
Operating activities	\$ 59,541	\$ 52,404
Investing activities	(28,674)	(32,523)
Financing activities	(22,284)	(17,221)
Increase in cash and cash equivalents	\$ 8,583	\$ 2,660

Cash Flows Provided by Operating Activities

Net cash provided by operating activities was \$59.5 million during the three-month period ended March 31, 2016, an increase of \$7.1 million compared to the same period in 2015. Cash provided by operating activities increased primarily

Table of Contents

as a result of changes in working capital including a decrease in accounts receivable and payable related to the timing and volume of equipment sales. The increase was also attributed to a reduction in cash contributions to our defined benefit pension plan of \$2.0 million in 2016.

Cash Flows Used In Investing Activities

Net cash used in investing activities was \$28.7 million during the three-month period ended March 31, 2016 and consisted primarily of cash used for capital expenditures.

Capital Expenditures

Capital expenditures continue to be our primary recurring investing activity and were \$28.7 million during the three-month period ended March 31, 2016, a decrease of \$3.9 million compared to the same period in 2015. Capital expenditures for the remainder of 2016 are expected to be \$95.0 million to \$100.0 million, of which approximately 63% is planned for success-based capital projects for consumer and commercial initiatives. Capital expenditures for the remainder of 2016 and subsequent years will depend on various factors, including competition, changes in technology, regulatory changes and the timing in the deployment of new services. We expect to continue to invest in existing and new services and the expansion of our fiber network in order to retain and acquire more customers through a broader set of products and an expanded network footprint.

Cash Flows Provided by (Used In) Financing Activities

Net cash provided by (used in) financing activities consists primarily of our proceeds from and principal payments on long-term borrowings and the payment of dividends.

Long-term Debt

Credit Agreement

In December 2013, the Company, through certain of its wholly owned subsidiaries, entered into a Second Amended and Restated Credit Agreement with various financial institutions (the "Credit Agreement"). The Credit Agreement

consists of a \$75.0 million revolving credit facility and initial term loans in the aggregate amount of \$910.0 million (“Term 4”). The Credit Agreement also includes an incremental term loan facility which provides the ability to request to borrow up to \$300.0 million of incremental term loans subject to certain terms and conditions. Borrowings under the senior secured credit facility are secured by substantially all of the assets of the Company and its subsidiaries, with the exception of Consolidated Communications of Illinois Company and our majority-owned subsidiary, East Texas Fiber Line Incorporated.

The Term 4 loan was issued in an original aggregate principal amount of \$910.0 million with a maturity date of December 23, 2020. The Term 4 loan contains an original issuance discount of \$4.6 million, which is being amortized over the term of the loan. The Term 4 loan requires quarterly principal payments of \$2.3 million and has an interest rate of London Interbank Offered Rate (“LIBOR”) plus 3.25% subject to a 1.00% LIBOR floor.

Our revolving credit facility has a maturity date of December 23, 2018 and an applicable margin (at our election) of between 2.50% and 3.25% for LIBOR-based borrowings or between 1.50% and 2.25% for alternate base rate borrowings, depending on our leverage ratio. Based on our leverage ratio as of March 31, 2016, the borrowing margin for the next three month period ending June 30, 2016 will be at a weighted-average margin of 3.00% for a LIBOR-based loan or 2.00% for an alternate base rate loan. The applicable borrowing margin for the revolving credit facility is adjusted quarterly to reflect the leverage ratio from the prior quarter-end. Interest is payable at least quarterly. As of March 31, 2016 and December 31, 2015, borrowings of \$10.0 million were outstanding under the revolving credit facility. A stand-by letter of credit of \$1.6 million, issued primarily in connection with the Company’s insurance coverage, was outstanding under our revolving credit facility as of March 31, 2016. The stand-by letter of credit is renewable annually and reduces the borrowing availability under the revolving credit facility. As of March 31, 2016, \$63.4 million was available for borrowing under the revolving credit facility.

Table of Contents

Net proceeds from asset sales exceeding certain thresholds, to the extent not reinvested, are required to be used to repay loans outstanding under the Credit Agreement.

Credit Agreement Covenant Compliance

The Credit Agreement contains various provisions and covenants, including, among other items, restrictions on the ability to pay dividends, incur additional indebtedness and issue capital stock. We have agreed to maintain certain financial ratios, including interest coverage and total net leverage ratios, all as defined in the Credit Agreement. As of March 31, 2016, we were in compliance with the Credit Agreement covenants.

In general, our Credit Agreement restricts our ability to pay dividends to the amount of our available cash as defined in our Credit Agreement. As of March 31, 2016, and including the \$19.6 million dividend declared in February 2016 and paid on May 2, 2016, we had \$255.0 million in dividend availability under the credit facility covenant.

Under our Credit Agreement, if our total net leverage ratio, as defined in the Credit Agreement, as of the end of any fiscal quarter is greater than 5.10:1.00, we will be required to suspend dividends on our common stock unless otherwise permitted by an exception for dividends that may be paid from the portion of proceeds of any sale of equity not used to fund acquisitions or make other investments. During any dividend suspension period, we will be required to repay debt in an amount equal to 50.0% of any increase in available cash, among other things. In addition, we will not be permitted to pay dividends if an event of default under the Credit Agreement has occurred and is continuing. Among other things, it will be an event of default if our total net leverage ratio or interest coverage ratio as of the end of any fiscal quarter is greater than 5.25:1.00 and less than 2.25:1.00, respectively. As of March 31, 2016, our total net leverage ratio under the Credit Agreement was 4.21:1.00, and our interest coverage ratio was 4.20:1.00.

6.50% Senior Notes due 2022

In September 2014, we completed an offering of \$200.0 million aggregate principal amount of 6.50% Senior Notes due in October 2022 (the "Existing Notes"). The Existing Notes were priced at par, which resulted in total gross proceeds of \$200.0 million. On June 8, 2015, we completed an additional offering of \$300.0 million in aggregate principal amount of 6.50% Senior Notes due 2022 (the "New Notes" and together with the Existing Notes, the "Senior Notes"). The New Notes were issued as additional notes under the same indenture pursuant to which the Existing Notes were previously issued on September 18, 2014. The New Notes were priced at 98.26% of par with a yield to maturity of 6.80% and resulted in total gross proceeds of approximately \$294.8 million, excluding accrued interest.

The Senior Notes mature on October 1, 2022 and interest is payable semi-annually on April 1 and October 1 of each year. Consolidated Communications, Inc. (“CCI”) is the primary obligor under the Senior Notes, and we and certain of our wholly owned subsidiaries have fully and unconditionally guaranteed the Senior Notes. The Senior Notes are senior unsecured obligations of the Company.

Senior Notes Covenant Compliance

Subject to certain exceptions and qualifications, the indenture governing the Senior Notes contains customary covenants that, among other things, limits CCI’s and its restricted subsidiaries’ ability to: incur additional debt or issue certain preferred stock; pay dividends or make other distributions on capital stock or prepay subordinated indebtedness; purchase or redeem any equity interests; make investments; create liens; sell assets; enter into agreements that restrict dividends or other payments by restricted subsidiaries; consolidate, merge or transfer all or substantially all of its assets; engage in transactions with its affiliates; or enter into any sale and leaseback transactions. The indenture also contains customary events of default.

Among other matters, the Senior Notes indenture provides that CCI may not pay dividends or make other restricted payments, as defined in the indenture, if its total net leverage ratio is 4.75:1.00 or greater. This ratio is calculated differently than the comparable ratio under the Credit Agreement; among other differences, it takes into account, on a pro forma basis, synergies expected to be achieved as a result of certain acquisitions not yet reflected in historical results. As of March 31, 2016, this ratio was 4.38:1.00. If this ratio is met, dividends and other restricted payments may be made from cumulative

Table of Contents

consolidated cash flow since April 1, 2012, less 1.75 times fixed charges, less dividends and other restricted payments made since May 30, 2012. Dividends may be paid and other restricted payments may also be made from a “basket” of \$50.0 million, none of which has been used to date, and pursuant to other exceptions identified in the indenture. Since dividends of \$272.7 million have been paid since May 30, 2012, including the quarterly dividend declared in February 2016 and paid on May 2, 2016, there was \$377.6 million of the \$650.3 million of cumulative consolidated cash flow since May 30, 2012 available to pay dividends as of March 31, 2016. As of March 31, 2016, the Company was in compliance with all terms, conditions and covenants under the indenture governing the Senior Notes.

Capital Leases

We lease certain facilities and equipment under various capital leases which expire between 2016 and 2021. As of March 31, 2016, the present value of the minimum remaining lease commitments was approximately \$7.2 million, of which \$1.9 million was due and payable within the next twelve months. The leases require total remaining rental payments of \$8.8 million as of March 31, 2016, of which \$4.5 million will be paid to LATEL LLC, a related party entity.

Dividends

We paid \$19.6 million and \$19.5 million in dividend payments to shareholders during the quarters ended March 31, 2016 and 2015, respectively. In February 2016, our board of directors declared its next quarterly dividend of \$0.38738 per common share, which is payable on May 2, 2016 to stockholders of record at the close of business on April 15, 2016. Our current annual dividend rate is approximately \$1.55 per share.

The cash required to fund dividend payments is in addition to our other expected cash needs, which we expect to fund with cash flows from our operations. In addition, we expect we will have sufficient availability under our revolving credit facility to fund dividend payments in addition to any expected fluctuations in working capital and other cash needs, although we do not intend to borrow under this facility to pay dividends.

We believe that our dividend policy will limit, but not preclude, our ability to grow. If we continue paying dividends at the level currently anticipated under our dividend policy, we may not retain a sufficient amount of cash, and may need to seek refinancing to fund a material expansion of our business, including any significant acquisitions or to pursue growth opportunities requiring capital expenditures significantly beyond our current expectations. In addition, because we expect a significant portion of cash available will be distributed to holders of common stock under our dividend policy, our ability to pursue any material expansion of our business will depend more than it otherwise would on our ability to obtain third-party financing.

Sufficiency of Cash Resources

The following table sets forth selected information regarding our financial condition.

(In thousands, except for ratio)	March 31, 2016	December 31, 2015
Cash and cash equivalents	\$ 24,461	\$ 15,878
Working capital (deficit)	(17,149)	(17,892)
Current ratio	0.88	0.88

Our most significant uses of funds in the remainder of 2016 are expected to be for: (i) dividend payments of approximately \$59.0 million; (ii) interest payments on our indebtedness of approximately \$61.0 million and principal payments on debt of \$6.8 million; and (iii) capital expenditures of between \$95.0 million and \$100.0 million. In the future our ability to use cash may be limited by our other expected uses of cash, including our dividend policy, and our ability to incur additional debt will be limited by our existing and future debt agreements.

We believe that cash flows from operating activities, together with our existing cash and borrowings available under our revolving credit facility, will be sufficient for at least the next twelve months to fund our current anticipated uses of cash. After that, our ability to fund these expected uses of cash and to comply with the financial covenants under our debt agreements will depend on the results of future operations, performance and cash flow. Our ability to fund these expected

Table of Contents

uses from the results of future operations will be subject to prevailing economic conditions and to financial, business, regulatory, legislative and other factors, many of which are beyond our control.

We may be unable to access the cash flows of our subsidiaries since certain of our subsidiaries are parties to credit or other borrowing agreements, or are subject to statutory or regulatory restrictions, that restrict the payment of dividends or making intercompany loans and investments, and those subsidiaries are likely to continue to be subject to such restrictions and prohibitions for the foreseeable future. In addition, future agreements that our subsidiaries may enter into governing the terms of indebtedness may restrict our subsidiaries' ability to pay dividends or advance cash in any other manner to us.

To the extent that our business plans or projections change or prove to be inaccurate, we may require additional financing or require financing sooner than we currently anticipate. Sources of additional financing may include commercial bank borrowings, other strategic debt financing, sales of nonstrategic assets, vendor financing or the private or public sales of equity and debt securities. There can be no assurance that we will be able to generate sufficient cash flows from operations in the future, that anticipated revenue growth will be realized or that future borrowings or equity issuances will be available in amounts sufficient to provide adequate sources of cash to fund our expected uses of cash. Failure to obtain adequate financing, if necessary, could require us to significantly reduce our operations or level of capital expenditures which could have a material adverse effect on our financial condition and the results of operations.

Surety Bonds

In the ordinary course of business, we enter into surety, performance and similar bonds as required by certain jurisdictions in which we provide services. As of March 31, 2016, we had approximately \$3.9 million of these bonds outstanding.

Defined Benefit Pension Plans

As required, we contribute to a qualified defined pension plan (the "Retirement Plan") and non-qualified supplemental retirement plans (collectively the "Pension Plans") and other post-retirement benefit plans, which provide retirement benefits to certain eligible employees. Contributions are intended to provide for benefits attributed to service to date. Our funding policy is to contribute annually an actuarially determined amount consistent with applicable federal income tax regulations.

The costs to maintain our Pension Plans and future funding requirements are affected by several factors including the expected return on investment of the assets held by the Pension Plan, changes in the discount rate used to calculate pension expense and the amortization of unrecognized gains and losses. Returns generated on Pension Plan assets have historically funded a significant portion of the benefits paid under the Pension Plans. We estimate the long-term rate of return of Pension Plan assets will be 7.75%. The Pension Plans invest in marketable equity securities which are exposed to changes in the financial markets. If the financial markets experience a downturn and returns fall below our estimate, we could be required to make a material contribution to the Pension Plan, which could adversely affect our cash flows from operations.

In 2016, we expect to make contributions totaling approximately \$0.3 million to our non-qualified supplemental retirement plans and \$3.6 million to our other post-retirement benefit plans, which represents a decline of \$11.3 million from the total contributions made in 2015. We do not expect to contribute to our qualified defined pension plans in 2016. As of March 31, 2016, we have contributed \$0.1 million and \$0.9 million to our non-qualified supplemental retirement plans and our other post-retirement benefit plans, respectively. Our contribution amounts meet the minimum funding requirements as set forth in employee benefit and tax laws. See Note 9 to the Condensed Consolidated Financial Statements, included in this report in Part I – Item I “Financial Information” for a more detailed discussion regarding our pension and other post-retirement plans.

Income Taxes

The timing of cash payments for income taxes, which is governed by the Internal Revenue Service and other taxing jurisdictions, will differ from the timing of recording tax expense and deferred income taxes, which are reported in accordance with GAAP. For example, tax laws in effect regarding accelerated or “bonus” depreciation for tax reporting

Table of Contents

resulted in less cash payments than the GAAP tax expense. Acceleration of tax deductions could eventually result in situations where cash payments will exceed GAAP tax expense.

Regulatory Matters

As discussed in the “Regulatory Matters” section above, in December 2014, the FCC released a report and order that significantly impacts the amount of support revenue we receive from the USF, CAF and ICC by redirecting support from voice services to broadband services. Our annual funding under CAF Phase I of \$36.6 million will be replaced by annual funding under CAF Phase II of \$13.9 million through 2020. In the state of Iowa, where CAF Phase II funding is greater than the CAF Phase I funding, the CAF Phase II funding was received with a retroactive payment back to January 1, 2015. For all other states, funding under CAF Phase II is less than funding under CAF Phase I. The acceptance of funding at the lower level will transition over a three year period, beginning in August 2015, at the rates of 75% of the CAF Phase I funding level in the first year, 50% in the second year and 25% in the third year.

The Order also modifies the methodology used for ICC traffic exchanged between carriers. As a result of implementing the provisions of the Order, our network access revenue decreased approximately \$0.3 million during each of the quarters ended March 31, 2016 and 2015 compared to the same periods in the respective previous years. During the quarter ended March 31, 2016, we adjusted our network access revenue base used to estimate the future decline in network access revenue as a result of the Order. As such, our anticipated decline in network access revenue through 2018 was adjusted from \$1.9 million, \$4.8 million and \$6.8 million in 2016, 2017 and 2018, respectively, to \$1.9 million, \$2.0 million and \$1.9 million in 2016, 2017 and 2018, respectively.

In accordance with the provisions of SB 583, as discussed in the “Regulatory Matters” section above, our annual \$1.4 million Texas HCAF support was eliminated effective January 1, 2014. In addition, in accordance with the provisions of the settlement agreement reached with the PUCT, the HCF draw will be reduced by approximately \$1.2 million annually over a four year period beginning June 1, 2014 through 2018. However, we have the ability to fully offset this reduction with increases to residential rates where market conditions allow, which the Company filed for and implemented in 2014 and 2015.

Critical Accounting Estimates

Our condensed consolidated financial statements and accompanying notes are prepared in accordance with US GAAP. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses. These estimates and assumptions are affected by management’s application of accounting policies. Our judgments are based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making estimates about the carrying values of assets and liabilities that are not readily apparent from other sources. For a full discussion

of our accounting estimates and assumptions that we have identified as critical in the preparation of our condensed consolidated financial statements, refer to our 2015 Annual Report on Form 10-K filed with the SEC.

Recent Accounting Pronouncements

For information regarding the impact of certain recent accounting pronouncements, see Note 1 “Summary of Significant Accounting Policies” to the Condensed Consolidated Financial Statements, included in this report in Part I - Item I “Financial Information”.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our exposure to market risk is primarily related to the impact of interest rate fluctuations on our debt obligations. Market risk is the potential loss arising from adverse changes in market interest rates on our variable rate obligations. In order to manage the volatility relating to changes in interest rates, we utilize derivative financial instruments such as interest rate swaps to maintain a mix of fixed and variable rate debt. We do not use derivatives for trading or speculative purposes. Our interest rate swap agreements effectively convert a portion of our floating-rate debt to a fixed-rate basis, thereby reducing the impact of interest rate changes on future cash interest payments. We calculate the potential change in interest expense caused by changes in market interest rates by determining the effect of the hypothetical rate increase on the portion of our variable rate debt that is not subject to a variable rate floor or hedged through the interest rate swap agreements.

As of March 31, 2016, the majority of our variable rate debt was subject to a 1.00% London Interbank Offered Rate (“LIBOR”) floor thereby reducing the impact of fluctuations in interest rates. As of March 31, 2016, LIBOR was below the 1.00% floor. Based on our variable rate debt outstanding as of March 31, 2016, a 1.00% change in market interest rates would increase or decrease annual interest expense by approximately \$2.9 million and \$0.1 million, respectively.

As of March 31, 2016, the fair value of our interest rate swap agreements amounted to a net liability of \$1.6 million. Pre-tax deferred losses related to our interest rate swap agreements included in accumulated other comprehensive loss was \$1.5 million as of March 31, 2016.

ITEM 4. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (“Exchange Act”) that are designed to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and (ii) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives. In connection with the filing of this Form 10-Q, management evaluated, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of the design to provide reasonable assurance of achieving their objectives and operation of our disclosure controls and procedures as of March 31, 2016. Based upon that evaluation and subject to the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective as of March 31, 2016.

Change in Internal Control Over Financial Reporting

Based upon the evaluation performed by our management, which was conducted with the participation of our Chief Executive Officer and Chief Financial Officer, there has been no change in our internal control over financial reporting during the quarter ended March 31, 2016 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Limitations on the Effectiveness of Controls

We are responsible for establishing and maintaining adequate internal control over financial reporting. Our internal control systems are designed to provide reasonable assurance to the Company's management, Board of Directors and Audit Committee regarding the reliability of financial reporting and the preparation of published financial statements in accordance with generally accepted accounting principles.

Table of Contents

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

In 2014, Sprint Corporation, Level 3 Communications, Inc. and Verizon Communications Inc. filed lawsuits against us and many others in the industry regarding the proper charges to be applied between interexchange and local exchange carriers for certain calls between mobile and wireline devices that are routed through an interexchange carrier. The plaintiffs are refusing to pay these access charges in all states and are seeking refunds of past charges paid. The disputed amounts total \$2.4 million and cover periods dating back to 2006. CenturyLink, Inc. filed to bring all related suits to the U.S. District Court's Judicial Panel on multi district litigation. This panel is granted authority to transfer the pretrial proceedings to a single court for civil cases involving common questions of fact. On November 17, 2015, the U.S. District Court in Dallas, Texas ruled in favor of the defendants, although we expect that the plaintiffs will file an appeal. We have interconnection agreements in place with all wireless carriers and the applicable traffic is being billed at current access rates, therefore, we do not expect any potential settlement or judgment to have an adverse material impact on our financial results or cash flows.

On April 14, 2008, Salsgiver Inc., a Pennsylvania-based telecommunications company, and certain of its affiliates ("Salsgiver") filed a lawsuit against us and our former subsidiaries North Pittsburgh Telephone Company and North Pittsburgh Systems Inc. in the Court of Common Pleas of Allegheny County, Pennsylvania alleging that we had prevented Salsgiver from connecting their fiber optic cables to our utility poles. Salsgiver sought compensatory and punitive damages as the result of alleged lost projected profits, damage to its business reputation and other costs. Salsgiver originally claimed to have sustained losses of approximately \$125.0 million. We believe that these claims are without merit and that the alleged damages are completely unfounded. We had recorded approximately \$0.4 million in 2011 in anticipation of the settlement of this case. During the quarter ended September 30, 2013, we recorded an additional \$0.9 million, which included estimated legal fees. A jury trial concluded on May 14, 2015 with the jury ruling in our favor. Salsgiver subsequently filed a post-trial motion asking the judge to overturn the jury verdict. That motion was denied. On June 17, 2015, Salsgiver filed an appeal in the Pennsylvania Superior Court. Salsgiver's brief was filed with the Superior Court on December 4, 2015, and we filed our response on January 18, 2016. The Pennsylvania Superior Court will hold oral argument on May 17, 2016. We believe that, despite the appeal, the \$1.3 million currently accrued represents management's best estimate of the potential loss if the verdict is overturned in Salsgiver's favor.

Two of our subsidiaries, Consolidated Communications of Pennsylvania Company LLC ("CCPA") and Consolidated Communications Enterprise Services Inc. ("CCES"), have, at various times, received assessment notices from the Commonwealth of Pennsylvania Department of Revenue ("DOR") increasing the amounts owed for Pennsylvania Gross Receipt Taxes, and/or have had audits performed for the tax years of 2008 through 2013. In addition, a re-audit was performed on CCPA for the 2010 calendar year. For the calendar years for which we received both additional assessment notices and audit actions, those issues have been combined by the DOR into a single docket for each year.

Pennsylvania generally imposes tax on the gross receipts of telephone messages transmitted wholly within the state and telephone messages transmitted in interstate commerce where such messages originate or terminate in

Pennsylvania, and the charges for such messages are billed to a service address in the state. In a 2013 decision involving Verizon Telephone Company of Pennsylvania (“Verizon Pennsylvania”), the Commonwealth Court of Pennsylvania held that the gross receipts tax applies to Verizon Pennsylvania’s installation of private phone lines because the sole purpose of private lines is to transmit messages. Similarly, the court held that directory assistance is subject to the gross receipts tax because it makes the transition of messages more effective. However, the court did not find Verizon Pennsylvania’s nonrecurring charges for the installation of telephone lines, moves of and changes to telephone lines and services and repairs of telephone lines to be subject to the gross receipts tax as no telephone messages are transmitted when Verizon Pennsylvania performs nonrecurring services.

On appeal, the Supreme Court of Pennsylvania recently held in *Verizon Pennsylvania, Inc. v. Commonwealth of Pennsylvania* that charges for the installation of private phone lines, charges for directory assistance and certain nonrecurring charges were all subject to the state’s gross receipt tax. The Supreme Court of Pennsylvania found that all of the services, including those related to nonrecurring charges, in some way made transmission more effective or communication more satisfactory even though such services did not involve actual transmission. This is a partial reversal

Table of Contents

of the 2013 Commonwealth Court of Pennsylvania decision described above, which had ruled that while the charges for the installation of private phone lines and directory assistance were subject to the state's gross receipts tax, the nonrecurring charges in question were not. As a motion for reconsideration has not been filed with the Supreme Court of Pennsylvania, and the period for such filing has expired, the case is now final.

For the CCES subsidiary, the total additional tax liability calculated by the DOR auditors for the calendar years 2008 through 2013 is approximately \$4.1 million. Appeals of cases for the audits in calendar years 2008 through 2010 have been filed and received continuances pending the outcome of the Verizon Pennsylvania litigation described above. The preliminary audit findings for the calendar years 2011 through 2013 were received on September 16, 2014. We are awaiting invoices for each of these years, at which time we will prepare to file an appeal with the DOR.

For the CCPA subsidiary, the total additional tax liability calculated by the DOR auditors for the calendar years 2008 through 2013 (using the re-audited 2010 number) is approximately \$5.0 million. Appeals of cases for the audits in calendar years 2008, 2009 and the original 2010 audit have been filed and received continuances pending the outcome of the Verizon Pennsylvania litigation described above. The preliminary audit findings for the calendar years 2011 through 2013, as well as the re-audit of 2010, were received on September 16, 2014. We are awaiting invoices for each of these years, at which time we will prepare to file an appeal with the DOR.

We believe that certain of the DOR's findings regarding the Company's additional tax liability for the calendar years 2008 through 2013, for which we have filed or plan to file appeals, continue to lack merit. However, in light of the Supreme Court of Pennsylvania's decision, we have accrued \$1.4 million and \$1.2 million for our CCES and CCPA subsidiaries, respectively. These accruals also include the Company's best estimate of the potential 2014 and 2015 additional tax liabilities. We do not believe that the outcome of these claims will have a material adverse impact on our financial results or cash flows.

From time to time we may be involved in litigation that we believe is of the type common to companies in our industry, including regulatory issues. While the outcome of these other claims cannot be predicted with certainty, we do not believe that the outcome of any of these other legal matters will have a material adverse impact on our business, results of operations, financial condition or cash flows.
