## UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, DC 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2017

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission File Number: 1-31987

Hilltop Holdings Inc.

(Exact name of registrant as specified in its charter)

Maryland (State or other jurisdiction of incorporation or organization) 84-1477939 (I.R.S. Employer Identification No.)

2323 Victory Avenue, Suite 1400

## Edgar Filing: Hilltop Holdings Inc. - Form 10-Q

Dallas, TX (Address of principal executive offices) 75219 (Zip Code)

(214) 855-2177

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The number of shares of the registrant's common stock outstanding at October 26, 2017 was 95,910,314.

HILLTOP HOLDINGS INC.

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements

(Unaudited)

1. Summary of Significant Accounting and Reporting Policies

Nature of Operations

Hilltop Holdings Inc. ("Hilltop" and, collectively with its subsidiaries, the "Company") is a financial holding company registered under the Bank Holding Company Act of 1956. The Company's primary line of business is to provide business and consumer banking services from offices located throughout Texas through PlainsCapital Bank (the "Bank"). In addition, the Company provides an array of financial products and services through its broker-dealer, mortgage origination and insurance subsidiaries.

The Company, headquartered in Dallas, Texas, provides its products and services through three primary business units, PlainsCapital Corporation ("PCC"), Hilltop Securities Holdings LLC ("Securities Holdings") and National Lloyds Corporation ("NLC"). PCC is a financial holding company that provides, through its subsidiaries, traditional banking, wealth and investment management and treasury management services primarily in Texas and residential mortgage lending throughout the United States. Securities Holdings is a holding company that provides, through its subsidiaries, investment banking and other related financial services, including municipal advisory, sales, trading and underwriting of taxable and tax-exempt fixed income securities, equity trading, clearing, securities lending, structured finance and retail brokerage services throughout the United States. NLC is a property and casualty insurance holding company that provides, through its subsidiaries, fire and homeowners insurance to low value dwellings and manufactured homes primarily in Texas and other areas of the southern United States.

**Basis of Presentation** 

The accompanying unaudited consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States ("GAAP"), and in conformity with the rules and regulations of the Securities and Exchange Commission (the "SEC"). In the opinion of management, these financial statements contain all adjustments necessary for a fair statement of the results of the interim periods presented. Accordingly, the financial statements do not include all of the information and footnotes required by GAAP for complete financial statements and should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2016 ("2016 Form 10-K"). Results for interim periods are not necessarily indicative of results to be expected for a full year or any future period.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates regarding the allowance for loan losses, the fair values of financial instruments, the amounts receivable from the Federal Deposit Insurance Corporation (the "FDIC") under loss-share agreements (the "FDIC Indemnification Asset"), reserves for losses and loss adjustment expenses ("LAE"), the mortgage loan indemnification liability, and the potential impairment of assets are particularly subject to change. The Company has applied its critical accounting policies and estimation methods consistently in all periods presented in these consolidated financial statements.

Hilltop owns 100% of the outstanding stock of PCC. PCC owns 100% of the outstanding stock of the Bank and 100% of the membership interest in PlainsCapital Equity, LLC. The Bank owns 100% of the outstanding stock of PrimeLending, a PlainsCapital Company ("PrimeLending").

PrimeLending owns a 100% membership interest in PrimeLending Ventures Management, LLC ("Ventures Management"), which holds an ownership interest in and is the managing member of certain affiliated business arrangements ("ABAs").

PCC also owns 100% of the outstanding common securities of PCC Statutory Trusts I, II, III and IV (the "Trusts"), which are not included in the consolidated financial statements under the requirements of the Variable Interest Entities

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

Subsections of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC"), because the primary beneficiaries of the Trusts are not within the consolidated group.

Hilltop has a 100% membership interest in Securities Holdings, which operates through its wholly-owned subsidiaries, Hilltop Securities Inc. ("HIItop Securities"), Hilltop Securities Independent Network Inc. ("HTS Independent Network") (collectively, the "Hilltop Broker-Dealers") and First Southwest Asset Management, LLC. Hilltop Securities is a broker-dealer registered with the Securities and Exchange Commission (the "SEC") and Financial Industry Regulatory Authority ("FINRA") and a member of the New York Stock Exchange ("NYSE"), HTS Independent Network is an introducing broker-dealer that is also registered with the SEC and FINRA, and First Southwest Asset Management, LLC is a registered investment adviser under the Investment Advisers Act of 1940.

Hilltop also owns 100% of NLC, which operates through its wholly owned subsidiaries, National Lloyds Insurance Company ("NLIC") and American Summit Insurance Company ("ASIC").

The consolidated financial statements include the accounts of the above-named entities. Intercompany transactions and balances have been eliminated. Noncontrolling interests have been recorded for minority ownership in entities that are not wholly owned and are presented in compliance with the provisions of Noncontrolling Interest in Subsidiary Subsections of the ASC.

Certain reclassifications have been made to the prior period consolidated financial statements to conform with the current period presentation. In preparing these consolidated financial statements, subsequent events were evaluated through the time the financial statements were issued. Financial statements are considered issued when they are widely distributed to all stockholders and other financial statement users, or filed with the SEC.

2. Recently Issued Accounting Standards

## Edgar Filing: Hilltop Holdings Inc. - Form 10-Q

In May 2017, FASB issued Accounting Standards Update ("ASU") 2017-09 which provides clarity and reduces both diversity in practice and cost and complexity associated with changes to the terms or conditions of a share-based payment award and, specifically, which changes require an entity to apply modification accounting. The amendments in this update are effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2017. Adoption of the amendment is not expected to have a significant effect on the Company's consolidated financial statements.

In April 2017, FASB issued ASU 2017-08 which shortens the amortization period for the premium on certain purchased callable debt securities to the earliest call date. The amendment is effective for annual periods, and interim reporting periods within those annual periods, beginning after December 15, 2018, using the modified retrospective transition method. As permitted within the amendment, the Company elected to early adopt and apply the provisions of this amendment as of January 1, 2017. This adoption had no effect on the Company's consolidated financial statements.

In January 2017, FASB issued ASU 2017-01 which provides guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The amendment is effective for annual periods, and interim reporting periods within those annual periods, beginning after December 15, 2017, using the prospective method. Early adoption is permitted. Adoption of the amendment is not expected to have a significant effect on the Company's consolidated financial statements.

In October 2016, FASB issued ASU No. 2016-16 which addresses improvement in accounting for income tax consequences of intra-equity transfers of assets other than inventory. The amendment requires that an entity recognize the income tax consequences of the intra-equity transfer of an asset other than inventory when the transfer occurs. The amendments are effective for annual periods, and interim reporting periods within those annual periods, beginning after December 15, 2017, using the modified retrospective transition method. Early adoption is permitted, however, the Company does not intend to adopt the provisions of the amendment early and does not expect such provisions to have a significant effect on the Company's consolidated financial statements.

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

In August 2016, FASB issued ASU 2016-15 to add or clarify guidance on the classification of certain cash receipts and payments in the statement of cash flows and to eliminate the diversity in practice related to such classifications. The amendments are effective for annual periods, and interim reporting periods within those annual periods, beginning after December 15, 2017 using a retrospective transition method. Early adoption is permitted, however, the Company does not intend to adopt the provisions of the amendment early and does not expect such provisions to have a significant effect on the Company's consolidated financial statements.

In June 2016, FASB issued ASU 2016-13 which sets forth a "current expected credit loss" (CECL) model which requires entities to measure all credit losses expected over the life of an exposure (or pool of exposures) for financial instruments held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. This replaces the existing incurred loss model and is applicable to the measurement of credit losses on financial assets measured at amortized cost and applies to some off-balance sheet credit exposures. The amendment also requires enhanced disclosures to help financial statement users better understand significant estimates and judgments used in estimating credit losses, as well as the credit quality and underwriting standards of an entity's portfolio. The amendments are effective for annual periods, and interim reporting periods within those annual periods, beginning after December 15, 2019 with a cumulative-effect adjustment to retained earnings as of the beginning of the reporting period of adoption. Although the Company does not intend to adopt the provisions of the amendment early, a cross-functional team is evaluating the provisions of the amendment and the impact on its future consolidated financial statements through the identification of data requirements and determination of necessary modifications to its existing credit loss model and processes. The extent of the change in allowance for loan losses will be impacted by the portfolio composition and quality at the adoption date as well as economic conditions and forecasts at that time.

In February 2016, FASB issued ASU 2016-02 related to leases. The new standard is intended to increase transparency and comparability among organizations and require lessees to record a right-to-use asset and liability representing the obligation to make lease payments for long-term leases. Accounting by lessors will remain largely unchanged. The amendments are effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2018. Adoption will require a modified retrospective transition where the lessees and lessors are required to recognize and measure leases at the beginning of the earliest period presented. Early adoption is permitted, however, the Company does not intend to adopt the provisions of the amendment early. The Company is currently evaluating the effects of the amendment on its consolidated financial statements but upon adoption expects to report higher assets and liabilities as a result of including additional leases on the consolidated balance sheets.

In January 2016, FASB issued ASU 2016-01 related to financial instruments. This amendment requires that most equity investments be measured at fair value, with subsequent changes in fair value recognized in net income. The amendment also impacts financial liabilities under the Fair Value Option and the presentation and disclosure requirements for financial instruments and modifies the required process used to evaluate deferred tax assets on available for sale securities. The amendment is effective for annual periods, and interim periods within those annual

## Edgar Filing: Hilltop Holdings Inc. - Form 10-Q

periods, beginning after December 15, 2017. Upon adoption, the Company will reclassify all equity investments out of trading and available for sale securities, with all subsequent changes in fair value recognized in net income. Additionally, the disclosure of the fair value of the loan portfolio will be presented using an exit price method instead of the current discounted cash flow method. The Company continues to evaluate the impact of ASU 2016-01 on other aspects of its consolidated financial statements.

In July 2015, the FASB issued ASU 2015-14, which deferred the effective date of ASU 2014-09 by one year, to clarify the principles for recognizing revenue from contracts with customers. The FASB has subsequently issued several amendments to the standard, including clarification of principal versus agent considerations, narrow scope improvements and other technical corrections. The amendments outline a single comprehensive model for entities to depict the transfer of goods or services to customers in amounts that reflect the payment to which a company expects to be entitled in exchange for those goods or services. The amendments also require additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. The amendments are effective for annual periods, and interim reporting periods within those annual periods, beginning after December 15, 2017 and may be adopted using either a full retrospective transition method or a modified, cumulative-effect approach

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

wherein the guidance is applied only to existing contracts as of the date of initial application and to new contracts entered into thereafter. The Company does not intend to adopt the provisions of the amendment early and expects to adopt using the cumulative-effect approach. The Company has gathered an inventory of contracts with customers and performed an in-depth assessment. The preliminary assessment suggests that the revenue recognition policies within the Company's broker-dealer segment will be affected when adopted. Specifically, the new guidance may require certain advisory and underwriting revenues and expenses to be recorded on a gross basis while the current guidance requires recognizing these revenues net of the related expenses. The Company is still interpreting certain aspects of this new accounting guidance to address certain implementation issues, specifically the impact of any changes to the accounting for mutual fund fees and insurance product sales commissions received throughout the life of the contract. The Company will continue to evaluate the impact on its future consolidated financial statements of both current and newly issued guidance associated with the amendment.

3. Fair Value Measurements

Fair Value Measurements and Disclosures

The Company determines fair values in compliance with The Fair Value Measurements and Disclosures Topic of the ASC (the "Fair Value Topic"). The Fair Value Topic defines fair value, establishes a framework for measuring fair value in GAAP and expands disclosures about fair value measurements. The Fair Value Topic defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The Fair Value Topic assumes that transactions upon which fair value measurements are based occur in the principal market for the asset or liability being measured. Further, fair value measurements made under the Fair Value Topic exclude transaction costs and are not the result of forced transactions.

The Fair Value Topic creates a fair value hierarchy that classifies fair value measurements based upon the inputs used in valuing the assets or liabilities that are the subject of fair value measurements. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs, as indicated below.

- Level 1 Inputs: Unadjusted quoted prices in active markets for identical assets or liabilities that the Company can access at the measurement date.
- Level 2 Inputs: Observable inputs other than Level 1 prices. Level 2 inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (such as interest rates, yield curves, prepayment speeds, default rates, credit risks and loss severities), and inputs that are derived from or corroborated by market data, among others.
- Level 3 Inputs: Unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing the assets or liabilities. Level 3 inputs include pricing models and discounted cash flow techniques, among others.

Fair Value Option

The Company has elected to measure substantially all of PrimeLending's mortgage loans held for sale and retained mortgage servicing rights ("MSR") asset at fair value, under the provisions of the Fair Value Option. The Company elected to apply the provisions of the Fair Value Option to these items so that it would have the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. At September 30, 2017 and December 31, 2016, the aggregate fair value of PrimeLending's mortgage loans held for sale accounted for under the Fair Value Option was \$1.86 billion and \$1.75 billion, respectively, and the unpaid principal balance of those loans was \$1.79 billion and \$1.71 billion, respectively. The interest component of fair value is reported as interest income on loans in the accompanying consolidated statements of operations.

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

The Company holds a number of financial instruments that are measured at fair value on a recurring basis, either by the application of the Fair Value Option or other authoritative pronouncements. The fair values of those instruments are determined primarily using Level 2 inputs. Those inputs include quotes from mortgage loan investors and derivatives dealers and data from independent pricing services.

The following tables present information regarding financial assets and liabilities measured at fair value on a recurring basis (in thousands).

|                                    | Level 1  | Level 2    | Level 3 | Total      |

All net realized and unrealized gains (losses) in the table above are reflected in the accompanying consolidated financial statements. Excluding the trading securities sold during the three months ended September 30, 2016, the unrealized gains (losses) relate to financial instruments still held at September 30, 2017.

For Level 3 financial instruments measured at fair value on a recurring basis at September 30, 2017, the significant unobservable inputs used in the fair value measurements were as follows.

| Financial instrument | Valuation Technique<br>Discounted cash flows / Market | Unobservable Inputs                    | Range<br>(Weighted-Average) |  |  |  |
|----------------------|---|--|-----------------------------|--|--|--|
| Loans held for sale  | comparable  | Projected price                        | 90 - 95 % ( 95 %)           |  |  |  |
| MSR asset            | Discounted cash flows                                 | Constant prepayment rate Discount rate | 10.85 %<br>11.07 %          |  |  |  |

The fair value of certain loans held for sale that cannot be sold through normal sale channels or are non-performing is measured using Level 3 inputs. The fair values of such loans are generally based upon estimates of expected cash flows using unobservable inputs, including listing prices of comparable assets, uncorroborated expert opinions, and/or management's knowledge of underlying collateral.

The MSR asset, which is included in other assets within the Company's consolidated balance sheets, is valued by projecting net servicing cash flows, which are then discounted to estimate the fair value. The fair value of the MSR asset is impacted by a variety of factors. Prepayment rates and discount rates, the most significant unobservable inputs, are discussed further in Note 7 to the consolidated financial statements.

The Company had no transfers between Levels 1 and 2 during the periods presented.

The Company also determines the fair value of certain assets and liabilities on a non-recurring basis. In addition, facts and circumstances may dictate a fair value measurement when there is evidence of impairment. Assets and liabilities measured on a non-recurring basis include the items discussed below.

Impaired Loans — The Company reports impaired loans based on the underlying fair value of the collateral through specific allowances within the allowance for loan losses. Purchased credit impaired ("PCI") loans with a fair value of \$172.9 million, \$822.8 million and \$73.5 million were acquired by the Company upon completion of the merger with PCC (the "PlainsCapital Merger"), the FDIC-assisted transaction whereby the Bank acquired certain assets and assumed certain liabilities of Edinburg, Texas-based First National Bank ("FNB") on September 13, 2013 (the "FNB Transaction"), and the acquisition of SWS Group, Inc. ("SWS") in a stock and cash transaction (the "SWS Merger"), whereby SWS's banking subsidiary, Southwest Securities, FSB was merged into the Bank, respectively (collectively, the "Bank Transactions"). Substantially all PCI loans acquired in the FNB Transaction are covered by FDIC loss-share agreements. The fair value of PCI loans was determined using Level 3 inputs, including estimates of expected cash flows that incorporated significant unobservable inputs regarding default rates, loss severity rates assuming default, prepayment speeds on acquired loans accounted for in pools ("Pooled Loans"), and estimated collateral values.

At September 30, 2017, estimates for these significant unobservable inputs were as follows.

|                                     | PCI Loans    |   |             |   |        |   |
|-------------------------------------|--------------|---|-------------|---|--------|---|
|                                     | PlainsCapita | 1 | FNB         |   | SWS    |   |
|                                     | Merger       |   | Transaction |   | Merger |   |
| Weighted average default rate       | 64           | % | 45          | % | 59     | % |
| Weighted average loss severity rate | 66           | % | 18          | % | 29     | % |
| Weighted average prepayment speed   | 0            | % | 8           | % | 0      | % |

At September 30, 2017, the resulting weighted average expected loss on PCI loans associated with the PlainsCapital Merger, FNB Transaction and SWS Merger was 43%, 8% and 17%, respectively.

The Company obtains updated appraisals of the fair value of collateral securing impaired collateral-dependent loans at least annually, in accordance with regulatory guidelines. The Company also reviews the fair value of such collateral on a quarterly basis. If the quarterly review indicates that the fair value of the collateral may have deteriorated, the Company orders an updated appraisal of the fair value of the collateral. Because the Company obtains updated appraisals when evidence of a decline in the fair value of collateral exists, it typically does not adjust appraised values.

Other Real Estate Owned — The Company determines fair value primarily using independent appraisals of other real estate owned ("OREO") properties. The resulting fair value measurements are classified as Level 2 or Level 3 inputs, depending upon the extent to which unobservable inputs determine the fair value measurement. The Company considers a number of factors in determining the extent to which specific fair value measurements utilize unobservable inputs, including, but not limited to, the inherent subjectivity in appraisals, the length of time elapsed since the receipt of independent market price or appraised value, and current market conditions. At September 30, 2017, the most significant

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

### (Unaudited)

unobservable input used in the determination of fair value of OREO was a discount to independent appraisals for estimated holding periods of OREO properties. Level 3 inputs were used to determine the initial fair value at acquisition of a large group of smaller balance properties that were acquired in the FNB Transaction. In the FNB Transaction, the Bank acquired OREO of \$135.2 million, all of which is covered by FDIC loss-share agreements. At September 30, 2017 and December 31, 2016, the estimated fair value of covered OREO was \$40.3 million and \$51.6 million, respectively, and the underlying fair value measurements utilized Level 2 and Level 3 inputs. The fair value of non-covered OREO at September 30, 2017 and December 31, 2016 was \$4.8 million and \$4.5 million, respectively, and is included in other assets within the consolidated balance sheets. During the reported periods, all fair value measurements for non-covered OREO subsequent to initial recognition utilized Level 2 inputs.

The following table presents information regarding certain assets and liabilities measured at fair value on a non-recurring basis for which a change in fair value has been recorded during reporting periods subsequent to initial recognition (in thousands).
