MATSON, INC. AND SUBSIDIARIES

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. DESCRIPTION OF THE BUSINESS

Matson, Inc., a holding company incorporated in January 2012 in the State of Hawaii, and its subsidiaries (“Matson” or the “Company”), is a leading provider of ocean transportation and logistics services. The Company consists of two segments, Ocean Transportation and Logistics:

Ocean Transportation: Matson’s Ocean Transportation business is conducted through Matson Navigation Company, Inc. (“MatNav”), a wholly-owned subsidiary of Matson, Inc. Founded in 1882, MatNav provides a vital lifeline of ocean freight transportation services to the domestic non-contiguous economies of Hawaii, Alaska, and Guam, and to other island economies in Micronesia. MatNav also operates a premium, expedited service from China to Long Beach, California, and also provides services to Okinawa, Japan and various islands in the South Pacific. In addition, subsidiaries of MatNav provide container stevedoring, refrigerated cargo services, inland transportation and other terminal services for MatNav and other ocean carriers on the Hawaiian Islands of Oahu, Hawaii, Maui and Kauai, and in the Alaska locations of Anchorage, Kodiak and Dutch Harbor.

Matson has a 35 percent ownership interest in SSA Terminals, LLC (“SSAT”), a joint venture between Matson Ventures, Inc., a wholly-owned subsidiary of MatNav, and SSA Ventures, Inc., a subsidiary of Carrix, Inc. SSAT provides terminal and stevedoring services to various carriers at seven terminal facilities on the U.S. West Coast, including four facilities which are used by MatNav (“Terminal Joint Venture”). Matson records its share of income in the Terminal Joint Venture in operating costs in the Condensed Consolidated Statements of Income and Comprehensive Income, and within the Ocean Transportation segment due to the nature of SSAT’s operations.

Logistics: Matson’s Logistics business is conducted through Matson Logistics, Inc. (“Matson Logistics”), a wholly-owned subsidiary of MatNav. Established in 1987, Matson Logistics is an asset-light business that provides a variety of logistic services to its customers including: (i) multimodal transportation brokerage of domestic and international rail intermodal service, long-haul and regional highway trucking services, specialized hauling, flat-bed and project services, less-than-truckload services, and expedited freight services (collectively “Transportation Brokerage Services”); (ii) less-than-container load (“LCL”) consolidation and freight forwarding services (collectively “Freight Forwarding Services”); (iii) warehousing and distribution services; and (iv) supply chain management, non-vessel operating common carrier freight forwarding and other services.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The Condensed Consolidated Financial Statements are unaudited, and include the accounts of Matson and all wholly-owned subsidiaries, after elimination of significant intercompany amounts and transactions. Significant investments in businesses, partnerships, and limited liability companies in which the Company does not have a controlling financial interest, but has the ability to exercise significant influence, are accounted for under the equity method. A controlling financial interest is one in which the Company has a majority voting interest or one in which the Company is the primary beneficiary of a variable interest entity. The Company accounts for its investment in the Terminal Joint Venture using the equity method of accounting.

Due to the nature of the Company's operations, the results for interim periods are not necessarily indicative of results to be expected for the year. These Condensed Consolidated Financial Statements reflect all normal recurring adjustments that are, in the opinion of management, necessary for fair presentation of the results of the interim periods, and do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete consolidated financial statements.

The Condensed Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2017, filed with the Securities and Exchange Commission ("SEC") on February 23, 2018.

Table of Contents

Fiscal Period: The period end for Matson covered by this report is March 31, 2018. The period end for MatNav and its subsidiaries covered by this report occurred on the last Friday in March, or March 30, 2018, for the first quarter 2018.

Significant Accounting Policies: The Company's significant accounting policies are described in Note 2 to the Consolidated Financial Statements included in Part II, Item 8 of the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

Recognition of Revenues and Expenses: Revenue in the Company's Condensed Consolidated Financial Statements is presented net of elimination of intercompany transactions. The following is a description of the Company's principal revenue generating activities by segment, and the Company's revenue recognition policy for each activity:

	Three Months Ended March 31,	
	2018	2017
Ocean Transportation (in millions) (1)		
Ocean transportation services	\$ 374.7	\$ 365.0
Terminal and other related services	0.8	0.8
Fuel sales	2.1	2.5
Ship management services	1.7	1.7
Total	\$ 379.3	\$ 370.0

(1) Ocean Transportation revenue transactions are primarily denominated in U.S. dollars except for approximately 3 percent of Ocean Transportation revenues and fuel sales which are denominated in foreign currencies.

§ Ocean Transportation services revenue is recognized ratably over the duration of a voyage based on the relative transit time completed in each reporting period. Vessel operating costs and other ocean transportation operating costs, such as terminal operating overhead and general and administrative expenses, are charged to operating costs as incurred.

§ Terminal and other related service revenues to third parties are recognized as the services are performed.

§ Fuel sales revenue is recognized when the Company has completed delivery of the product to the customer in accordance with the terms and conditions of the contract.

§ Ship management services revenue and related costs are recognized in proportion to the services completed.

	Three Months Ended March 31,	
	2018	2017
Logistics (in millions) (1)		
Transportation brokerage and freight forwarding services	\$ 119.2	\$ 92.3
Warehouse and distribution services	7.4	7.2
Supply chain management and other services	5.5	4.9
Total	\$ 132.1	\$ 104.4

(1) Logistics revenue transactions are primarily denominated in U.S. dollars except for approximately 3 percent of transportation brokerage and freight forwarding services revenue, and supply chain management and other services revenue categories are denominated in foreign currencies.

§ Logistics transportation brokerage and freight forwarding services revenue consists of amounts billed to customers for services provided. The primary costs include third-party purchased transportation services, labor and equipment costs. Revenue and the related purchased third-party transportation costs are recognized over the duration of a delivery based upon the relative transit time completed in each reporting period. Labor and other operating costs are expensed as incurred. The Company reports revenue on a gross basis as the Company serves as the principal in these transactions because it is responsible for the contractual relationship with the customer and has latitude in establishing prices.

§ Logistics warehousing and distribution services revenue consist of amounts billed to customers for storage, handling, and value-added packaging of customer merchandise. Storage revenue is recognized in the month the service is provided to the customer. Storage expenses are recognized as incurred. Other warehousing and distribution services revenue and expense are recognized in proportion to the services performed.

§ Supply chain management and other services revenue and related costs are recognized in proportion to the services performed.

The Company generally invoices its customers at the commencement of the voyage or the transportation service being provided, or as other services are being performed. Revenue is deferred when services are paid in advance by the

Table of Contents

customer or when the voyage or transportation services have not commenced as of the end of the fiscal period. The Company's receivables are classified as short-term as collection terms are for periods of less than one year.

The Company expenses sales commissions and contract acquisition costs as incurred because the amounts are generally immaterial. These expenses are included in selling, general and administration expenses in the Condensed Consolidated Statements of Income and Comprehensive Income.

Capital Construction Fund: The Company's Capital Construction Fund ("CCF") is described in Note 7 to the Consolidated Financial Statements included in Part II, Item 8 of the Company's Annual Report on Form 10-K for the year ended December 31, 2017. As of March 31, 2018 and December 31, 2017, the following amounts related to the Company's CCF:

(In millions)	March 31, 2018	December 31, 2017
Capital Construction Fund:		
Cash on deposit	\$ 0.9	\$ 0.9
Assigned accounts receivables	\$ 135.7	\$ 134.8

Cash on deposit in the CCF is held in a money market account and classified as long-term assets in the Company's Condensed Consolidated Balance Sheets, as the Company intends to use qualified cash withdrawals to fund long-term investment in the construction of new vessels. During the three months ended March 31, 2018, the Company deposited \$53.5 million into the CCF, and made qualifying cash withdrawals of \$53.5 million from the CCF, respectively. Eligible accounts receivable that are assigned into the CCF are classified as part of accounts receivable in the Condensed Consolidated Financial Statements due to the nature of the assignment.

Investment in Terminal Joint Venture: The Company's investment in the Terminal Joint Venture was \$96.7 million and \$93.2 million at March 31, 2018 and December 31, 2017, respectively. Condensed income statement information (unaudited) for the Terminal Joint Venture for the three months ended March 31, 2018 and 2017 consisted of the following:

	Three Months Ended March 31,	
Condensed Statements of Operating Income and Net Income (Unaudited) (in millions)	2018	2017
Operating revenue	\$ 250.9	\$ 196.7
Operating costs and expenses	(219.7)	(184.0)
Operating income	31.2	12.7

Net Income (1)	30.7	14.3
Company Share of Net Income	\$ 10.5	\$ 4.9

(1) Includes earnings from equity method investments held by the Terminal Joint Venture less earnings allocated to non-controlling interests.

Income Taxes: In connection with the Tax Cuts and Jobs Act that was signed into law on December 22, 2017 (the “Tax Act”), the Company recorded a non-cash tax adjustment of \$3.3 million due to the application of an estimated 6.6 percent sequestration by the Internal Revenue Service (IRS) on alternative minimum tax (AMT) refunds for the years 2018 to 2021. The adjustment increased income tax expense during the three months ended March 31, 2018 and is based on recent guidance issued by the IRS and interpretations of the Tax Act that are currently available. The Company will continue to assess the impact of the Tax Act and any related interpretations, when issued, on the Company’s income tax estimates. These and other factors could materially affect the Company’s financial condition or its future operating results.

Contingencies: Environmental Matters: The Company’s Ocean Transportation business has certain risks that could result in expenditures for environmental remediation. The Company believes that based on all information available to it, the Company is currently in compliance, in all material respects, with applicable environmental laws and regulations.

Other Matters: The Company and its subsidiaries are parties to, or may be contingently liable in connection with other legal actions arising in the normal course of their businesses, the outcomes of which, in the opinion of management after consultation with counsel, would not have a material effect on the Company’s financial condition, results of operations, or cash flows.

Table of Contents

New Accounting Pronouncements: Revenues from Contracts with Customers (Topic 606), (“ASU 2014-09”): The Company has adopted ASU 2014-09 commencing the first quarter in 2018 using the modified retrospective method. This method allows the Company to recognize the cumulative effect of initially applying ASU 2014-09 as an adjustment to retained earnings as of December 31, 2017. Prior to adopting ASU 2014-09, the Company performed a review of its revenue contracts and evaluated the Company’s current accounting policies and procedures for recognizing revenues in the Company’s Consolidated Financial Statements, and compared these to the new requirements of ASU 2014-09. In addition, the Company identified the performance obligations and consideration applicable under each contract.

Based upon our evaluation, the Company determined that the impact of adopting ASU 2014-09 is immaterial because the analysis of the Company’s contracts under ASU 2014-09 supports the recognition of revenue over time as the service is performed, which is consistent with the Company’s current revenue recognition accounting policy. The majority of the Company’s contracts require the Company to provide ocean and logistics transportation services to its customers. Such services are provided by the Company over a period of time, generally, when cargo is being delivered from source to destination point, or as the service is being performed. Therefore, performance obligations are completed in a short period of time due to the nature of the services provided by the Company. Under the new standard, revenues from the majority of the Company’s contracts will continue to be recognized over time as the customer simultaneously receives and consumes the benefit of these services as described in ASU 2014-09. In addition, the identification of performance obligations and related consideration under the new standard is not materially different from our current accounting treatment.

Income Statement - Reporting Comprehensive Income (Topic 220), (“ASU 2018-02”): ASU 2018-02 allows a reclassification from accumulated other comprehensive income (loss) to retained earnings for the remeasurement tax effects resulting from the Tax Act. The Company elected to early adopt ASU 2018-02 during the three months ended March 31, 2018, and recorded a reclassification adjustment of \$6.0 million between accumulated other comprehensive income (loss) and retained earnings (see Note 7).

Leases (Topic 842), (“ASU 2016-02”): ASU 2016-02 requires lessees to record most leases on their balance sheets but recognize the expenses in their income statements in a manner similar to current practice. ASU 2016-02 states that a lessee would recognize a lease liability for the obligation to make lease payments, and a right-of-use asset for the underlying leased asset for the period of the lease term. The new standard is effective for interim and annual periods beginning after December 15, 2018 and early adoption is permitted. The Company is in the process of evaluating the implementation of this guidance.

Compensation – Retirement Benefits (Topic 715), Improving the Presentation of Net Periodic Pension Cost and Benefit Cost (“ASU 2017-07”): ASU 2017-07 requires employees that sponsor defined benefit pension and post-retirement plans to present the service cost component of net benefit cost in the same income statement line item as other employee compensation costs arising from services rendered, and that only the service cost component will be eligible for capitalization. The other components of the net periodic benefit cost must be presented separately from the line

item that includes the service cost component and outside of the income from operations subtotal. The Company adopted ASU 2017-07 during the three months ended March 31, 2018, and recorded a retrospective reclassification adjustment of \$(0.8) million from costs and expenses to other income (expenses) in the Condensed Consolidated Statement of Income and Comprehensive Income for the three months ended March 31, 2017.

3. REPORTABLE SEGMENTS

Reportable segments are components of an enterprise that engage in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available. The Company's chief operating decision maker is its Chief Executive Officer.

Table of Contents

The Company consists of two reportable segments, Ocean Transportation and Logistics, which are further described in Note 1. Reportable segments are measured based on operating income, exclusive of interest expense and income taxes. In arrangements where the customer purchases ocean transportation and logistics services, the revenues are allocated to each reportable segment based upon the contractual amounts for each type of service. The Company's Terminal Joint Venture segment has been aggregated into the Company's Ocean Transportation segment due to the operations of the Terminal Joint Venture being an integral part of the Company's Ocean Transportation business.

The Company's Ocean Transportation segment provides ocean transportation services to the Logistics segment, and the Logistics segment provides logistics services to the Ocean Transportation segment. Accordingly, inter-segment revenue of \$18.3 million and \$16.9 million for the three months ended March 31, 2018 and 2017, respectively, have been eliminated from operating revenue in the table below.

Reportable segment results for the three months ended March 31, 2018 and 2017 consisted of the following:

(In millions)	Three Months Ended March 31,	
	2018	2017
Operating Revenue:		
Ocean Transportation	\$ 379.3	\$ 370.0
Logistics	132.1	104.4
Total Operating Revenue	\$ 511.4	\$ 474.4
Operating Income:		
Ocean Transportation (1)	\$ 24.5	\$ 15.3
Logistics	4.2	1.9
Total Operating Income	28.7	17.2
Interest expense, net	(5.0)	(6.3)

Income before Income Taxes	24.5	10.1
Income taxes	(10.3)	(3.1)
Net Income	\$ 14.2	\$ 7.0

(1) Ocean Transportation segment information includes \$10.5 million and \$4.9 million of equity in income from the Terminal Joint Venture for the three months ended March 31, 2018 and 2017, respectively.

4. PROPERTY AND EQUIPMENT

Property and equipment at March 31, 2018 and December 31, 2017 consisted of the following:

(In millions)	March 31, 2018	December 31, 2017

8. FAIR VALUE MEASUREMENTS

The Company values its financial instruments based on the fair value hierarchy of valuation techniques for fair value measurements. Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date. Level 2 inputs include quoted prices for similar assets and liabilities in active markets and inputs other than quoted prices observable for the asset or liability. Level 3 inputs are unobservable inputs for the asset or liability. If the technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy, the lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The Company uses Level 1 inputs for the fair values of its cash equivalents, and Level 2 inputs for its CCF – cash on deposit, and variable and fixed rate debt. The fair values of cash and cash equivalents, CCF – cash on deposit, and variable rate debt approximate their carrying values due to the nature of the instruments. The fair value of the Company's fixed rate debt is calculated based upon interest rates available for debt with terms and maturities similar to the Company's existing debt arrangements.

Table of Contents

The carrying value and fair value of the Company's financial instruments as of March 31, 2018 and December 31, 2017 were as follows:

	Total		Quoted Prices in Active Markets	Significant Observable Inputs	Significant Unobservable Inputs
(In millions)	Carrying Value March 31, 2018	Total Fair Value	(Level 1) Measurements at March 31, 2018	(Level 2)	(Level 3)

9. EARNINGS PER-SHARE

The number of shares used to compute basic and diluted earnings per-share for the three months ended March 31, 2018 and 2017, were as follows:

Three Months Ended March 31, 2018		Three Months Ended March 31, 2017	
Weighted Average	Per Common	Weighted Average	Per Common

Edgar Filing: Matson, Inc. - Form 10-Q

	Net	Common	Share	Net	Common	Share
(In millions, except per-share amounts)	Income	Shares	Amount	Income	Shares	Amount
Basic:	\$ 14.2	42.6	\$ 0.33	\$ 7.0	43.0	\$ 0.16
Effect of Dilutive Securities:		0.3	—		0.4	—
Diluted:	\$ 14.2	42.9	\$ 0.33	\$ 7.0	43.4	\$ 0.16

Basic earnings per-share is determined by dividing net income by the weighted-average common shares outstanding during the period. The calculation of diluted earnings per-share includes the dilutive effect of unexercised non-qualified stock options and non-vested restricted stock units.

The computation of weighted-average dilutive shares outstanding excludes certain non-qualified stock options to purchase shares of common stock where the options' exercise prices were greater than the average market price of the Company's common stock for the periods presented and, therefore, the effect would be anti-dilutive. The number of such shares excluded was nominal.

10. SHARE-BASED COMPENSATION

During the three months ended March 31, 2018, the Company granted approximately 351,600 in total of time-based restricted stock units and performance-based shares to certain of its employees at a weighted-average grant date fair value of \$31.35.

Total share-based compensation cost recognized in the Condensed Consolidated Statements of Income and Comprehensive Income as a component of selling, general and administrative expenses was \$2.7 million and \$2.6 million for the three months ended March 31, 2018 and 2017, respectively. Total unrecognized compensation cost related to unvested share-based compensation arrangements was \$19.6 million at March 31, 2018, and is expected to be recognized over a weighted-average period of 2.2 years. Total unrecognized compensation cost may be adjusted for any unearned performance shares or forfeited shares.

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with the Condensed Consolidated Financial Statements and related notes, and other financial information appearing elsewhere in this Quarterly Report on Form 10-Q.

FORWARD-LOOKING STATEMENTS

Except for historical information, the statements made in this Quarterly Report on Form 10-Q are forward-looking statements made pursuant to the safe-harbor provisions of the Private Security Litigation Reform Act of 1995. Such forward-looking statements may be contained in, among other things, SEC filings, such as reports on Forms 10-K, 10-Q and 8-K, the Annual Report to Shareholders, press releases made by the Company, the Company’s Internet Websites (including Websites of its subsidiaries), and oral statements made by officers of the Company.

This report, and other statements that the Company may make, may contain forward-looking statements with respect to the Company’s future financial or business performance, strategies or expectations. Forward-looking statements are typically identified by words or phrases such as “trend,” “potential,” “opportunity,” “pipeline,” “believe,” “comfortable,” “expect,” “anticipate,” “current,” “intention,” “estimate,” “position,” “assume,” “outlook,” “continue,” “remain,” “maintain,” “sustain,” “may,” “will,” “would,” “should,” “could,” “may” or similar expressions, or future or conditional verbs such as “will,” “would,” “should,” “could,” “may” or similar expressions.

The Company cautions that forward-looking statements are subject to numerous assumptions, risks and uncertainties, which change over time, including, but not limited to, the risk factors that are described in Part I, Item 1A, “Risk Factors” of Matson’s Annual Report on Form 10-K for the year ended December 31, 2017. Forward-looking statements speak only as of the date they are made, and the Company assumes no duty to and does not undertake any obligation to update forward-looking statements. Actual results could differ materially from those anticipated in forward-looking statements and future results could differ materially from historical performance.

OVERVIEW

Management’s Discussion and Analysis of Financial Condition and Results of Operations (“MD&A”) is designed to provide a discussion of the Company’s financial condition, results of operations, liquidity and certain other factors that may affect its future results from the perspective of management. The discussion that follows is intended to provide

information that will assist in understanding the changes in the Company's financial statements from period to period, the primary factors that accounted for those changes, and how certain accounting principles, policies and estimates affect the Company's financial statements. MD&A is provided as a supplement to the Condensed Consolidated Financial Statements and notes herein, and should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2017, the Company's reports on Forms 10-Q and 8-K, and other publicly available information.

BUSINESS OUTLOOK

Ocean Transportation: The Company's container volume in the Hawaii service in the first quarter 2018 was 1.9 percent lower year-over-year due primarily to lower eastbound volume as westbound volume was essentially flat. The Hawaii economy continues to be strong, supported primarily by healthy tourism activity and low unemployment. The Company expects flat-to-modest volume growth in 2018, reflecting a solid Hawaii economy and stable market share.

In China, the Company's container volume in the first quarter 2018 was 22.2 percent lower year-over-year largely due to two fewer sailings and lower volume during the Lunar New Year period. Matson continued to realize a sizeable rate premium in the first quarter 2018 and achieved average freight rates moderately higher than the first quarter 2017. For 2018, the Company expects pricing to remain as favorable and to approximate the average rate achieved in 2017 and volume to be modestly lower compared to the levels achieved in 2017.

Table of Contents

In Guam, as expected, the Company's container volume in the first quarter 2018 was lower on a year-over-year basis, the result of competitive losses. For 2018, the Company expects a heightened competitive environment and lower volume than the levels achieved in 2017.

In Alaska, the Company's container volume for the first quarter 2018 was 10.1 percent higher year-over-year, primarily due to an increase in northbound volume mainly related to the dry-docking of a competitor's vessel and one additional sailing. For 2018, the Company expects volume to be modestly higher than the level achieved in 2017 with improvement in northbound volume, partially offset by lower southbound seafood-related volume due to a moderation from the very strong seafood harvest levels in 2017.

As a result of the first quarter performance and the outlook trends noted above, the Company expects full year 2018 Ocean Transportation operating income to be modestly higher than the \$128.8 million achieved in 2017. In the second quarter 2018, the Company expects Ocean Transportation operating income to approach the level achieved in the second quarter 2017.

Logistics: In the first quarter 2018, operating income for the Company's Logistics segment was \$2.3 million higher compared to the operating income achieved in the first quarter 2017 due to improved performance across almost all of the service lines. For 2018, the Company expects Logistics operating income to be moderately higher than the \$20.6 million achieved in 2017. In the second quarter 2018, the Company expects operating income to be moderately higher than the level achieved in the second quarter 2017.

Depreciation and Amortization: For the full year 2018, the Company expects depreciation and amortization expense to be approximately \$132 million, inclusive of dry-docking amortization of approximately \$36 million.

EBITDA: The Company expects full year 2018 EBITDA to be lower than the \$296.0 million achieved in 2017.

Interest Expense: The Company expects interest expense for the full year 2018 to be approximately \$23 million.

Income Tax Expense: In the first quarter 2018, the Company's effective tax rate was 42.0 percent, which includes a non-cash tax adjustment of \$3.3 million resulting from a reduction in the alternative minimum tax receivable under the Tax Cuts and Jobs Act. For the balance of 2018, the Company expects its effective tax rate to be approximately 28 percent.

Capital and Vessel Dry-docking Expenditures: In the first quarter 2018, the Company made maintenance capital expenditure payments of \$13.1 million, capitalized vessel construction expenditures of \$57.7 million, and dry-docking payments of \$4.6 million. For the full year 2018, the Company expects to make maintenance capital expenditure payments of approximately \$68 million, vessel construction expenditures (inclusive of capitalized interest and owner's items) of approximately \$388 million, and dry-docking payments of approximately \$18 million.

Diluted earnings per-share	\$ 0.33	\$ 0.16	\$ 0.17	106.3	%

Changes in operating revenue, and operating costs and expenses are further described below in the Analysis of Operating Revenue and Income by Segment.

The decrease in interest expense during the three months ended March 31, 2018, compared to the three months ended March 31, 2017, was due to increased interest expense due to higher average debt borrowings, offset by a higher amount of capitalized interest.

Income tax expense was \$10.3 million or 42.0 percent of income before income taxes for the three months ended March 31, 2018, compared to \$3.1 million or 30.7 percent of income before income taxes for the three months ended March 31, 2017. The increase in the effective income tax rate during the three months ended March 31, 2018, was primarily due to the recording of a non-cash tax adjustment of \$3.3 million due to an application of an estimated 6.6 percent sequestration by the Internal Revenue Service (IRS) on alternative minimum tax (AMT) refunds. Excluding the impact of this adjustment, the income tax rate for the three months ended March 31, 2018, would have been 28.6 percent, which is lower than the tax rate for the three months ended March 31, 2017, as a result of applying the tax law changes resulting from the Tax Act.

ANALYSIS OF OPERATING REVENUE AND INCOME BY SEGMENT

Edgar Filing: Matson, Inc. - Form 10-Q

Ocean Transportation Operating Results: Three months ended March 31, 2018, compared with 2017:

Table of Contents

Ocean Transportation revenue increased \$9.3 million, or 2.5 percent, during the three months ended March 31, 2018, compared with the three months ended March 31, 2017. This increase was primarily due to higher fuel surcharge revenue and higher volume in Alaska, partially offset by lower volume in China and lower revenue in Guam.

On a year-over-year FEU basis, Hawaii container volume decreased by 1.9 percent primarily due to lower eastbound volume; Alaska volume increased by 10.1 percent primarily due to an increase in northbound volumes mainly related to the dry-docking of a competitor's vessel and one additional sailing; China volume was 22.2 percent lower primarily due to two fewer sailings and lower volume during the Lunar New Year period; and Guam volume was 9.3 percent lower due to increased competition.

Ocean Transportation operating income increased \$9.2 million during the three months ended March 31, 2018, compared with the three months ended March 31, 2017. This increase was primarily due to the favorable timing of fuel surcharge collections, lower vessel operating costs, a higher contribution from SSAT, and higher Alaska volume, partially offset by lower volume in China, lower revenue from Guam and higher terminal handling costs.

The Company's SSAT terminal joint venture investment contributed \$10.5 million during the three months ended March 31, 2018, compared to a \$4.9 million contribution during the three months ended March 31, 2017. The increase was nearly equally attributable to improved lift volume and one-time items.

Logistics Operating Results: Three months ended March 31, 2018, compared with 2017:

(Dollars in millions)	Three Months Ended March 31,				
	2018	2017	Change		
Logistics Revenue	\$ 132.1	\$ 104.4	\$ 27.7	26.5	%
Operating costs and expenses	(127.9)	(102.5)	(25.4)	24.8	%
Operating income	\$ 4.2	\$ 1.9	\$ 2.3	121.1	%
Operating income margin	3.2	% 1.8	%		

Logistics revenue increased \$27.7 million, or 26.5 percent, during the three months ended March 31, 2018, compared with the three months ended March 31, 2017. This increase was primarily due to higher highway and intermodal brokerage revenue.

Logistics operating income increased \$2.3 million for the three months ended March 31, 2018 compared with the three months ended March 31, 2017. The increase was due primarily to higher contributions from highway brokerage and freight forwarding.

LIQUIDITY AND CAPITAL RESOURCES

Sources of Liquidity: Sources of liquidity available to the Company at March 31, 2018, compared to December 31, 2017 were as follows:

(In millions)	March 31, 2018	December 31, 2017	Change
Cash and cash equivalents	\$ 13.7	\$ 19.8	\$ (6.1)
Accounts receivable, net (1)	\$ 209.1	\$ 194.6	\$ 14.5

Cash and cash equivalents, beginning of the year	19.8	13.9	5.9
Cash and cash equivalents, end of the year	\$ 13.7	\$ 19.5	\$ (5.8)

(1) Change in net cash provided by operating activities:

Changes in net cash provided by operating activities for the three months ended March 31, 2018, compared to the three months ended March 31, 2017, were due to the following:

(In millions)	Change
Net income from operations	\$ 7.2
Non-cash deferred income taxes	3.5
Other non-cash related changes, net	(6.8)
Distributions from Terminal Joint Venture	7.0
Deferred dry-docking payments	10.5
Accounts receivable, net	(6.1)
Prepaid expenses and other assets	9.3
Accounts payable, accruals and other liabilities	2.3
Other long-term liabilities	(1.0)
Total	\$ 25.9

Distributions received from the Company's Terminal Joint Venture for the three months ended March 31, 2018 were \$7.0 million, compared to no distributions received during the three months ended March 31, 2017. Deferred dry-docking payments decreased during the three months ended March 31, 2018, compared to the three months ended March 31, 2017, due to fewer vessels in dry-docking during the period. Changes in accounts receivable were due to the timing of billings and collections. Changes in prepaid expenses and other assets primarily relates to the timing of insurance prepayments and a reduction in income tax receivable. Changes in accounts payable, accruals and other liabilities were due to the timing of payments associated with those liabilities.

(2) Change in net cash used in investing activities:

Changes in net cash used in investing activities for the three months ended March 31, 2018, compared to the three months ended March 31, 2017, were due to the following:

(In millions)	Change
Capitalized vessel construction expenditures	\$ (56.4)
Other capital expenditures	9.8
Proceeds from disposal of property and equipment, net	1.0
Total	\$ (45.6)

Vessel construction expenditures including capitalized interest were \$57.7 million during the three months ended March 31, 2018, compared to \$1.3 million during the three months ended March 31, 2017, and relate to the construction of four new vessels for the Hawaii service. Other capital expenditures decreased to \$13.1 million during the three months ended March 31, 2018, compared to \$22.9 million during the three months ended March 31, 2017.

The decrease was primarily due to lower capital expenditures incurred during 2018 due to the timing of capital projects.

Table of Contents

(3) Change in net cash used in financing activities:

Changes in net cash used in financing activities for the three months ended March 31, 2018, compared to the three months ended March 31, 2017, were due to the following:

(In millions)	Change
Repayments of debt and capital leases	\$ 0.1
Increase in borrowings under revolving credit facility, net	5.0
Repurchase of Matson common stock	0.7
Dividends paid	(0.4)
Change in other payments, net	2.6
Total	\$ 8.0

During the three months ended March 31, 2018, net borrowings under the Company's revolving credit facility was \$49.0 million, compared to \$44.0 million for the three months ended March 31, 2017. Borrowings from the Company's revolving credit facility were primarily used to fund progress payments related to the construction of four new vessels for the Hawaii service. During the three months ended March 31, 2018, the Company paid \$8.7 million in dividends compared to \$8.3 million during the three months ended March 31, 2017. During the three months ended March 31, 2017, the Company paid \$0.7 million in the repurchase of Matson common stock. There was no repurchases of any Matson common stock during the three months ended March 31, 2018.

Working Capital: The Company had a working capital deficiency of \$6.8 million and \$20.3 million at March 31, 2018 and 2017, respectively.

CONTRACTUAL OBLIGATIONS, COMMITMENTS, CONTINGENCIES AND OFF-BALANCE SHEET ARRANGEMENTS

There were no material changes during this quarter to the Company's contractual obligations, commitments, contingencies and off-balance sheet arrangements that are described in Part II, Item 7 of the Company's Annual Report on Form 10-K for the year ended December 31, 2017, which is incorporated herein by reference, except as described below.

Contractual Obligations (in millions)	2018	Payment Due By Period			Total

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures.

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of March 31, 2018, the Company's disclosure controls and procedures are effective.

Changes in Internal Control Over Financial Reporting.

There were no changes in the Company's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the three months ended March 31, 2018, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Environmental Matters: The Company's Ocean Transportation business has certain risks that could result in expenditures for environmental remediation. The Company believes that based on all information available to it, the Company is currently in compliance, in all material respects, with applicable environmental laws and regulations.

Other Matters: The Company and its subsidiaries are parties to, or may be contingently liable in connection with other legal actions arising in the normal course of their businesses, the outcomes of which, in the opinion of management after consultation with counsel, would not have a material effect on the Company's financial condition, results of operations, or cash flows.

ITEM 1A. RISK FACTORS

There were no material changes to the Company's risk factors that are described in Part I, Item 1A, "Risk Factors" of the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Share Repurchases: On November 4, 2015, the Company announced that Matson's Board of Directors had approved a share repurchase program of up to 3.0 million shares of common stock through November 2, 2018. Shares can be repurchased in the open market from time to time, and may be made pursuant to a trading plan in accordance with Rule 10b5-1 of the Securities Exchange Act of 1934. During the quarter ended March 31, 2018, no shares were repurchased, excluding shares withheld for employee taxes upon vesting of share-based awards.
