We operate on a fiscal calendar that, in a given fiscal year, consists of the 52- or 53-week period ending on the Saturday closest to January 31st. Our fiscal second quarters ended August 2, 2014 and August 3, 2013 both consisted

of 13 weeks and are referred to herein as the second quarter of fiscal year 2014 and second quarter of fiscal year 2013, respectively. Fiscal year 2013 contained 52 weeks of operations ended February 1, 2014. Fiscal year 2014 will contain 52 weeks of operations and will end on January 31, 2015.

#### STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q (this “10-Q”) contains statements that constitute forward-looking statements as that term is defined by the Private Securities Litigation Reform Act of 1995. These statements concern our business, operations and financial performance and condition as well as our plans, objectives and expectations for our business operations and financial performance and condition, which are subject to risks and uncertainties. All statements other than statements of historical fact included in this 10-Q are forward-looking statements. These statements may include words such as “aim,” “anticipate,” “assume,” “believe,” “can have,” “could,” “due,” “estimate,” “expect,” “goal,” “intend,” “li,” “objective,” “plan,” “potential,” “positioned,” “predict,” “should,” “target,” “will,” “would” and other words and terms of similar nature in connection with any discussion of the timing or nature of future operating or financial performance or other events or trends. For example, all statements we make relating to our plans and objectives for future operations, growth or initiatives and strategies are forward-looking statements.

These forward-looking statements are based on current expectations, estimates, forecasts and projections about our business and the industry in which we operate and our management’s beliefs and assumptions. We derive many of our forward-looking statements from our own operating budgets and forecasts, which are based upon many detailed assumptions. While we believe that our assumptions are reasonable, we caution predicting the impact of known factors is very difficult, and we cannot anticipate all factors that could affect our actual results.

All of our forward-looking statements are subject to risks and uncertainties that may cause our actual results to differ materially from our expectations. Important factors that could cause actual results to differ materially from our expectations include, but are not limited to:

- our retail-based business model is impacted by general economic conditions and economic and financial uncertainties may cause a decline in consumer spending;
- our concentration of stores in the Western United States makes us susceptible to adverse conditions in this region, which could affect our sales and cause our operating results to suffer;
- we operate in a highly fragmented and competitive industry and may face increased competition;
- we may not be able to anticipate, identify and respond to changes in consumer demands, including regional preferences, in a timely manner;
- we may not be successful in operating our stores in any existing or new markets into which we expand; and
- current and future government regulations, in particular regulations relating to the sale of firearms and ammunition, may impact the demand for our products and our ability to conduct our business.

The above is not a complete list of factors or events that could cause actual results to differ from our expectations, and we cannot predict all of them. All written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements disclosed under “Risk Factors,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and elsewhere in this 10-Q, as such disclosures may be amended, supplemented or superseded from time to time by other reports we file with the Securities and Exchange Commission (the “SEC”), including subsequent Annual Reports on Form 10-K and Quarterly Reports on Form 10-Q, and public communications. You should evaluate all forward-looking statements made in this 10-Q and otherwise in the context of these risks and uncertainties.

Potential investors and other readers are urged to consider these factors carefully in evaluating the forward-looking statements and are cautioned not to place undue reliance on any forward-looking statements we make. These forward-looking statements speak only as of the date of this 10-Q and are not guarantees of future performance or

developments and involve known and unknown risks, uncertainties and other factors that are in many cases beyond our control. Except as required by law, we undertake no obligation to update or revise any forward-looking statements publicly, whether as a result of new information, future developments or otherwise.

SPORTSMAN'S WAREHOUSE HOLDINGS, INC.

AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Unaudited)

Amounts reported in thousands, except per share data

(1) Description of Business and Basis of Presentation

Description of Business

Sportsman's Warehouse Holdings, Inc. ("Holdings") and its subsidiaries (collectively, the "Company") operate retail sporting goods stores. As of August 2, 2014, the Company operated 54 stores in 18 states. The Company's stores are aggregated into one single operating and reportable segment.

Basis of Presentation

The condensed consolidated financial statements included herein are unaudited and have been prepared by management of the Company pursuant to the rules and regulations of the SEC. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") have been condensed or omitted pursuant to such rules and regulations. The Company's condensed consolidated balance sheet as of February 1, 2014 was derived from the Company's audited consolidated balance sheet as of that date. All other condensed consolidated financial statements contained herein are unaudited and reflect all adjustments that are, in the opinion of management, necessary to summarize fairly our condensed consolidated financial statements for the periods presented. All of these adjustments are of a normal recurring nature. The results of the fiscal quarter ended August 2, 2014 are not necessarily indicative of the results to be obtained for the year ending January 31, 2015. These condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements and notes thereto for the fiscal year ended February 1, 2014.

(2) Summary of Significant Accounting Policies

Principles of Consolidation

The accompanying condensed consolidated financial statements include the accounts of Holdings and its wholly owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

Reporting Periods

The Company operates on a fiscal calendar that, in a given fiscal year, consists of the 52- or 53-week period ending on the Saturday closest to January 31st. The fiscal second quarters ended August 2, 2014 and August 3, 2013 both consisted of 13 weeks and are referred to herein as the second quarter of fiscal year 2014 and second quarter of fiscal year 2013, respectively. Fiscal year 2013 contained 52 weeks of operations ended February 1, 2014. Fiscal year 2014 will contain 52 weeks of operations and will end on January 31, 2015.

### Seasonality

The Company's business is generally seasonal, with a significant portion of total sales occurring during the third and fourth quarters of the calendar year.

### Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Certain costs are estimated for the full year and allocated to interim periods based on estimates of time expired, benefit received, or activity associated with the interim period.

## Segment Reporting

The Company operates solely as a sporting goods retailer whose Chief Operating Decision Maker (“CODM”) is the Chief Executive Officer. The CODM reviews financial information presented on a consolidated and individual store and cost center basis, for purposes of allocating resources and evaluating financial performance. The Company’s stores typically have similar square footage and offer essentially the same general product mix. The Company’s core customer demographic remains similar chainwide, as does the Company’s process for the procurement and marketing of its product mix. Furthermore, the Company distributes its product mix chainwide from a single distribution center. Given that the stores have the same economic characteristics, the individual stores are aggregated into one single operating and reportable segment.

## Cash and Cash Equivalents

The Company considers cash on hand in stores and highly liquid investments with an initial maturity of three months or less as cash and cash equivalents. Checks issued pending bank clearance that result in overdraft balances for accounting purposes are classified as accrued expenses in the accompanying condensed consolidated balance sheets.

In accordance with the terms of a financing agreement (Note 8), the Company maintains depository accounts with two banks in a lock-box arrangement. Deposits into these accounts are used to reduce the outstanding balance on the line of credit as soon as the respective bank allows the funds to be transferred to the financing company.

## Accounts Receivable

The Company offers credit terms on the sale of products to certain government and corporate retail customers and requires no collateral from these customers. The Company performs ongoing credit evaluations of its customers’ financial condition and maintains an allowance for doubtful accounts receivable based upon historical experience and a specific review of accounts receivable at the end of each period. Actual bad debts may differ from these estimates and the difference could be significant.

## Merchandise Inventories

Merchandise inventories are stated at the lower of cost or market. Cost is determined using the weighted average cost method. The Company estimates a provision for inventory shrinkage based on its historical inventory accuracy rates as determined by periodic cycle counts. The allowance for damaged goods from returns is based upon historical experience. The Company also adjusts inventory for obsolete or slow moving inventory based on inventory productivity reports and by specific identification of slow moving or obsolete inventory.

## Property and Equipment

Property and equipment are recorded at cost. Leasehold improvements primarily include the cost of improvements funded by landlord incentives or allowances. Maintenance, repairs, minor renewals and betterments are expensed as incurred. Major renewals and betterments are capitalized. Upon retirement or disposal of assets, the cost and accumulated depreciation and amortization are eliminated from the respective accounts and the related gains or losses are credited or charged to earnings.

Depreciation and amortization of property and equipment is computed using the straight-line method over the estimated useful lives of the related assets. Leasehold improvements are amortized over the shorter of the useful lives of the improvements or the term of the lease. Furniture, fixtures and equipment are depreciated over useful lives ranging from 3 to 10 years.

### Impairment of Long-Lived Assets

The Company reviews its long-lived assets with definite lives for impairment whenever events or changes in circumstances may indicate that the carrying value of an asset may not be recoverable. The Company uses an estimate of the future undiscounted net cash flows of the related asset or group of assets over their remaining useful lives in measuring whether the assets are recoverable. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized for the amount by which the carrying amount exceeds the estimated fair value of the asset. Impairment of long-lived assets is assessed at the lowest levels for which there are identifiable cash flows that are independent of other groups of assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value, less the estimated costs to sell.

### Prepaid Expenses and Other

Prepaid expenses and other primarily consists of prepaid expenses, vendor rebates receivable, vendor advertising receivables, tenant allowance receivables and miscellaneous deposits.

7

---

### Revenue Recognition

Revenue is recognized for retail sales at the time of the sale in the store. The Company records a reserve for estimated product returns in each reporting period, based on its historical experience. Revenue for gift cards sold is deferred and recognized as the gift cards are redeemed for merchandise. Gift card breakage income is recognized based upon historical redemption patterns and represents the balance of gift cards for which the Company believes the likelihood of redemption by the customer is remote. This income is included in the condensed consolidated statements of income as a reduction in selling, general and administrative expenses.

Under the Company's customer loyalty program, the Company issues credits in the form of points to loyalty program members. The value of points earned by loyalty program members is included in accrued liabilities and recorded as a reduction of revenue at the time the points are earned.

Customer deposits on items placed in layaway are recorded as a liability. Revenue is recognized on layaway transactions at the time the customer takes possession of the merchandise. These liabilities are recorded as unearned revenue in accrued expenses in the accompanying condensed consolidated balance sheets.

Sales taxes collected from customers and remitted to governmental authorities are accounted for on a net basis and, therefore, are excluded from revenues in the accompanying condensed consolidated statements of income.

### Cost of Goods Sold

Cost of goods sold primarily consists of merchandise acquisition costs, including freight-in costs, shipping costs, terms discounts received from the vendor and vendor allowances and rebates associated directly with merchandise. Vendor allowances include allowances and rebates received from vendors. The Company records an estimate of earned allowances based on purchase volumes. These funds are determined for each fiscal year, and the majority is based on various quantitative contract terms. Amounts expected to be received from vendors relating to purchase of merchandise inventories are recognized as a reduction of cost of goods sold as the merchandise is sold. Historical program results and current purchase volumes are reviewed when establishing the estimate for earned allowances.

### Shipping and Handling Fees and Costs

All shipping and handling fees billed to customers are recorded as a component of net sales. All costs incurred related to the shipping and handling of products are recorded in cost of sales.

### Vendor Allowances

Vendor allowances include price allowances, volume rebates, store opening costs reimbursements, marketing participation and advertising reimbursements received from vendors under the terms of specific arrangements with certain vendors. Vendor allowances related to merchandise are recognized as a reduction of the costs of merchandise as sold. Vendor reimbursements of costs are recorded as a reduction to expense in the period the related cost is incurred based on actual costs incurred. Any cost reimbursements exceeding expenses incurred are recognized as a reduction of the cost of merchandise sold. Volume allowances may be estimated based on historical purchases and estimates of projected purchases.

### Tenant Allowances

The Company may receive reimbursement from a landlord for some of the costs related to occupancy or tenant improvements per lease provisions. These reimbursements may be referred to as tenant allowances or landlord

reimbursements. Reimbursement from a landlord for occupancy or tenant improvements is included within deferred rent on the accompanying condensed consolidated balance sheets. The deferred rent credit is amortized as rent expense on a straight-line basis over the term of the lease. Landlord reimbursements from these transactions are included in cash flows from operating activities as a change in deferred rent.

#### Health Insurance

The Company maintains for its employees a partially self-funded health insurance plan. The Company maintains stop-loss insurance through an insurance company with a \$100 per person deductible and aggregate claims limit above a predetermined threshold. The Company intends to maintain this plan indefinitely. However, the plan may be terminated, modified, suspended, or discontinued at any time for any reason specified by the Company.

The Company has established reserve amounts based upon claims history and estimates of claims that have been incurred but not reported. Actual claims may differ from the estimate and such difference could be significant. These reserves are included in accrued expenses in the accompanying condensed consolidated balance sheets.

#### Operating Leases and Deferred Rent

The Company has various operating lease commitments on its store locations. Certain leases contain rent escalation clauses that require higher rental payments in later years. Leases may also contain rent holidays, or free rents, during the lease term. Rent expense is recognized on a straight-line basis over the lease term. Rent expense in excess of rental payments is recorded as deferred rent on the accompanying condensed consolidated balance sheets.

#### Advertising

Costs for newspaper, television, radio and other advertising are expensed in the period in which the advertising occurs. The Company participates in various advertising and marketing cooperative programs with its vendors, who, under these programs, reimburse the Company for certain costs incurred. Payments received under these cooperative programs are recorded as a decrease to expense in the period that the advertising occurred. These amounts are included in selling, general and administrative expenses in the accompanying condensed consolidated statements of income.

#### Stock-Based Compensation

Compensation expense is estimated based on grant date fair value on a straight-line basis over the requisite service period. Costs associated with awards are included in compensation expense as a component of selling, general and administrative expenses.

#### Income Taxes

The Company recognizes a deferred income tax liability or deferred income tax asset for the future tax consequences attributable to differences between the financial statement basis of existing assets and liabilities and their respective tax basis. Deferred income tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. A valuation allowance is provided against deferred income tax assets when it is more likely than not that all or some portion of the deferred income tax assets will not be realized.

The Company recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the relevant tax authorities, based on the technical merits of the position. Interest and potential penalties are accrued related to unrecognized tax benefits in the provision for income taxes.

#### Fair Value of Financial Instruments

The carrying amounts of financial instruments except for long-term debt approximate fair value because of the general short-term nature of these instruments. The carrying amounts of long-term variable rate debt approximate fair value as the terms are consistent with market terms for similar debt instruments.

#### Earnings Per Share

Basic earnings per share is calculated by dividing net income or loss by the weighted-average number of shares of common stock outstanding, reduced by the number of shares repurchased and held in treasury, during the period.

Diluted earnings per share represents basic earnings per share adjusted to include the potentially dilutive effect of outstanding share option awards, nonvested share awards and nonvested share unit awards.

#### Comprehensive Income

The Company has no components of net income or loss that would require classification as other comprehensive income for the quarters ended August 2, 2014 and August 3, 2013.

## Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") 2014-09 "Revenue from Contracts with Customers" (Topic 606) ("ASU 2014-09"). ASU 2014-09 is a comprehensive new revenue recognition model requiring a company to recognize revenue to depict the transfer of goods or services to a customer at an amount reflecting the consideration it expects to receive in exchange for those goods or services. In adopting ASU 2014-09, companies may use either a full retrospective or a modified retrospective approach. ASU 2014-09 is effective for the first interim period within annual reporting periods beginning after December 15, 2016, and early adoption is not permitted. Management is evaluating the provisions of ASU 2014-09 and has not determined what impact the adoption of ASU 2014-09 will have on the Company's financial position or results of operations.

### (3) Initial Public Offering

On April 23, 2014, the Company completed its initial public offering, pursuant to which it issued and sold 8,333 shares of common stock at a price to the public of \$9.50 per share; included in this offering was the sale of 4,167 shares by affiliates of Seidler Equity Partners III, L.P. The total net proceeds raised by the Company were \$70,299 after deducting underwriting discounts and commissions of \$5,542 and other offering expenses of \$3,326. Total net proceeds were used to make an unscheduled early payment on the term loan (Note 9). In connection with the initial public offering, all of the then-outstanding shares of restricted nonvoting common stock automatically converted into shares of common stock.

On May 16, 2014, the underwriters of the Company's initial public offering of common stock partially exercised the over-allotment option granted at the time of the initial public offering to purchase an additional 1,400 shares of common stock at the public offering price of \$9.50 per share, less underwriting discounts and commissions, which consists of 350 shares sold by the Company and 1,050 shares sold by affiliates of Seidler Equity Partners III, L.P. The Company received, after deducting underwriting discounts and commissions and estimated offering expenses, approximately \$3,100 of net proceeds. Substantially all of the net proceeds were used for the repayment of an additional amount outstanding under the Company's term loans.

### (4) Stock Split

On April 2, 2014, the Company's board of directors approved an amendment to the Company's amended and restated certificate of incorporation to effect a 2.87-for-1 stock split of the Company's common stock and restricted nonvoting common stock and to increase the number of authorized shares of capital stock that the Company is authorized to issue to 110,000 shares of capital stock in aggregate, consisting of 100,000 shares of common stock and 10,000 shares of restricted nonvoting common stock. The certificate of amendment giving effect to the stock split was filed on April 3, 2014. On April 16, 2014, the Company adopted a new charter, under which the Company is authorized to issue up to 120,000 shares of capital stock in aggregate, consisting of 100,000 shares of common stock and 20,000 shares of preferred stock. All information in the accompanying condensed consolidated financial statements and the related notes thereto related to common stock, restricted nonvoting common stock, restricted stock unit awards and earnings per share have been adjusted to reflect the 2.87-for-1 stock split.

### (5) Acquisition

On March 11, 2013, the Company acquired certain assets and assumed certain liabilities of Wholesale Sports Outdoor Outfitters.

Pro Forma Results

The following pro forma results are based on the individual historical results of the acquired stores with adjustments to give effect to the combined operations as if the acquisition has been consummated at the beginning of fiscal year 2013. The pro forma results are intended for information purposes only and do not purport to represent what the combined results of operations would actually have been had the acquisition in fact occurred at the beginning of the earliest period presented.

	26 Weeks Ended August 3, 2013 (In thousands, except per share amounts)
Net sales	\$ 293,043
Net income	\$ 11,998
Basic earnings per share	\$ 0.36
Diluted earnings per share	\$ 0.36

## (6) Property and Equipment

Property and equipment as of August 2, 2014 and February 1, 2014 were as follows:

	August 2, 2014	February 1, 2014
Furniture, fixtures, and equipment	\$30,348	\$23,953
Leasehold improvements	25,880	15,943
Construction in progress	7,922	4,664
	64,150	44,560
Less accumulated depreciation and amortization	(16,233)	(13,066)
	\$47,917	\$31,494

## (7) Accrued Expenses

Accrued expenses consisted of the following as of August 2, 2014 and February 1, 2014:

	August 2, 2014	February 1, 2014
Book overdraft	\$11,627	\$5,696
Unearned revenue	7,083	8,579
Accrued payroll and related expenses	5,055	6,919
Sales and use tax payable	3,072	2,277
Other	9,293	8,413
	\$36,130	\$31,884

## (8) Revolving Line of Credit

As of August 2, 2014 and February 1, 2014, the Company had \$71,079 and \$34,029, respectively, in outstanding revolving loans under a financing agreement (the “Revolving Line of Credit”). Amounts outstanding are offset on the condensed consolidated balance sheets by amounts in depository accounts under lock-box arrangements, which were \$8,164 and \$4,977 as of August 2, 2014 and February 1, 2014, respectively. As of August 2, 2014, the Company had \$23,021 of net borrowing availability under the terms of the Revolving Line of Credit and stand-by commercial letters of credit of \$400. As of August 2, 2014, the Company was in compliance with all covenants under the Revolving Line of Credit. The Revolving Line of Credit matures on August 20, 2018.

(9) Long-Term Debt

Long-term debt consisted of the following as of August 2, 2014 and February 1, 2014:

	August 2, 2014	February 1, 2014
Term loan	\$ 159,350	\$ 233,825
Less discount	(2,448 )	(2,693 )
	156,902	231,132
Less current portion, net of discount	(1,860 )	(1,860 )
Long-term portion	\$ 155,042	\$ 229,272

Term Loan

The Company entered into a \$235,000 senior secured term loan facility (“Term Loan”), consisting of a \$185,000 tranche and a \$50,000 tranche, with Credit Suisse AG as administrative agent and collateral agent, on August 20, 2013 (“Closing Date”). The Term Loans have a maturity date of August 20, 2019.

The Term Loan is secured by a lien on substantially all of the Company's tangible and intangible assets. The lien securing the obligations under the Term Loan is a first priority lien as to certain non-liquid assets, including equipment, intellectual property, proceeds of assets sales and other personal property.

The Term Loan was issued at a discount of \$2,938, which is classified as a reduction of the unpaid balance on the condensed consolidated balance sheets. The discount is being amortized over the term of the note using the effective interest method and is included as a component of interest expense on the condensed consolidated statements of income.

The Term Loan requires quarterly payments of \$588 payable on the last business day of each fiscal quarter commencing on November 1, 2013, and continuing up to and including August 20, 2019. A final installment payment consisting of the remaining unpaid balance is due on August 20, 2019. The Company may be required to make mandatory prepayments on the term loans in the event of, among other things, certain asset sales, the receipt of payment in respect of certain insurance claims or upon the issuance or incurrence of certain indebtedness. After the completion of fiscal year 2014, the Company may also be required to make mandatory prepayments based on any excess cash flows as defined in the term loan agreement.

The Term Loans bear interest at a rate per annum equal to the one-, two-, three-, or six-month LIBOR (or, the nine- or 12-month LIBOR), as defined in the term loan agreement, at the Company's election, which cannot be less than 1.25%, plus an applicable margin of 6.00% and 10.75% for the \$185,000 tranche and \$50,000 tranche, respectively. Since LIBOR has been less than 1.25% since the inception of the Term Loans through August 2, 2014, the interest rates have been fixed at 7.25% and 12.0% on the \$185,000 tranche and \$50,000 tranche, respectively.

On April 24, 2014 and May 23, 2014, the Company made unscheduled prepayments of \$70,299 and \$3,094, respectively, on a pro rata basis between the two tranches, using the net proceeds of its initial public offering and over-allotment exercise (Note 3).

As of August 2, 2014, the Term Loan had \$156,902 outstanding, net of unamortized discount of \$2,448. During the 13 weeks and 26 weeks ended August 2, 2014, the Company recognized \$123 and \$245, respectively, of non-cash interest expense with respect to the amortization of this discount.

Prior to August 20, 2013, Sportsman's Warehouse had a \$125,000 term loan that bore interest equal to the three-month LIBOR, which could not be less than 1.50%, plus an applicable margin of 7.00%. The interest rate on this term loan was fixed at 8.5% during fiscal year 2013 until the Company repaid it on August 20, 2013, because LIBOR was never more than 1.50% during that time. During the 13 weeks and 26 weeks ended August 3, 2013, the Company recognized \$115 and \$230, respectively, of non-cash interest expense with respect to the amortization of the discount on the \$125,000 term loan.

As part of the term loan agreement, there are a number of financial and non-financial debt covenants. The financial covenants include a net leverage ratio and an interest coverage ratio to be measured on a trailing twelve month basis. As of August 2, 2014, the Company was in compliance with all covenants under the Term Loan.

#### Restricted Net Assets

The provisions of the Term Loan and the Revolving Line of Credit restrict all of the net assets of the Company's consolidated subsidiaries, which constitute all of the net assets on the Company's condensed consolidated balance sheet as of August 2, 2014, from being used to pay any dividends without prior written consent from the financial institutions party to the Company's Term Loan and Revolving Line of Credit.

(10) Income Taxes

The 2014 estimated annual effective tax rate is expected to be 38.5% compared to 37.1% for the full year 2013. The change in the annual effective tax rate is primarily due to the store mix and applicable effective state income tax rates after apportionment.

(11) Earnings Per Share

Basic earnings per share is calculated by dividing net income by the weighted-average number of shares of common stock outstanding, reduced by the number of shares repurchased and held in treasury, during the period. Diluted earnings per share represents basic earnings per share adjusted to include the potentially dilutive effect of outstanding share option awards, nonvested share awards and nonvested share unit awards.

12

---

The following table sets forth the computation of basic and diluted earnings per common share:

	13 Weeks Ended		26 Weeks Ended	
	August	August	August	August
	2,	3,	2,	3,
	2014	2013	2014	2013
Net income	\$5,063	\$7,656	\$1,695	\$12,115
Weighted-average shares of common stock outstanding:				
Basic	41,768	33,229	38,105	33,229
Dilutive effect of common stock equivalents	198	—	210	—
Diluted	41,966	33,229	38,315	33,229
Basic earnings per share	\$0.12	\$0.23	\$0.04	\$0.36
Diluted earnings per share	\$0.12	\$0.23	\$0.04	\$0.36

For the 13 and 26 weeks ended August 3, 2013, basic net income per share was the same as diluted net income per share because there were no outstanding potentially dilutive securities.

#### (12) Stock-Based Compensation

Under the terms of the restricted stock unit agreements, twenty-five percent of the outstanding restricted stock units vested on the effective date of the registration statement relating to the initial public offering because such date occurred within the first vesting period of the outstanding restricted stock units. The Company recognized \$1,208 of stock-based compensation expense as a result of the change in the vesting date. The remaining non-vested restricted stock units will vest one third annually on each of the first three anniversaries of the effective date of the registration statement relating to the initial public offering.

The following table sets forth the rollforward of outstanding restricted stock units:

	26 Weeks Ended August 2, 2014
Unvested restricted stock units at February 1, 2014	1,193,747
Forfeiture	8,037
Vesting in connection with initial public offering	297,401
Unvested restricted stock units at August 2, 2014	888,309

Total compensation expense related to the restricted stock unit awards recognized during the 13 weeks ended August 2, 2014 and August 3, 2013 was \$524 and \$0, respectively. Total compensation expense recognized during the 26 weeks ended August 2, 2014 and August 3, 2013 was \$2,258 and \$0, respectively.

(13) Commitments and Contingencies

Operating Leases

The Company leases its retail store, office space and warehouse locations under non-cancelable operating leases. Rent expense under these leases totaled \$9,258 and \$18,152, respectively, for the 13 and 26 weeks ended August 2, 2014 and \$8,427 and \$15,480, respectively, for the 13 and 26 weeks ended August 3, 2013.

Legal Matters

The Company is involved in various legal matters generally incidental to its business. The Company believes, after discussion with legal counsel, the disposition of these matters will not have a material impact on its consolidated financial condition, liquidity, or results of operations.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The discussion below contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of various factors, including those which are discussed in the "Risk Factors" section in Part II, Item 1A of this 10-Q. Also see "Statement Regarding Forward-Looking Statements" preceding Part I.

The following discussion and analysis should be read in conjunction with the unaudited condensed consolidated financial statements and the notes thereto included in this 10-Q.

### Overview

We are a high-growth outdoor sporting goods retailer focused on meeting the everyday needs of the seasoned outdoor veteran, the first-time participant and every enthusiast in between. Our mission is to provide a one-stop shopping experience that equips our customers with the right quality, brand name hunting, shooting, fishing and camping gear to maximize their enjoyment of the outdoors.

Our business was founded in 1986 as a single retail store in Midvale, Utah. Today, we operate 55 stores in 18 states totaling approximately 2.6 million gross square feet. During fiscal year 2014 to date, we have increased our gross square footage by 13.9% through the opening of seven stores during the 26 weeks ended August 2, 2014 and one new store subsequent to August 2, 2014, in the following locations:

Hillsboro, Oregon on March 15, 2014

Carson City, Nevada on April 5, 2014

East Wenatchee, Washington on April 26, 2014

Chico, California on May 10, 2014

Vernal, Utah on June 7, 2014

Rancho Cordova, California on July 12, 2014

Kelso, Washington on August 2, 2014

Pocatello, Idaho on August 16, 2014

Individual stores are aggregated into one operating and reportable segment.

### How We Assess the Performance of Our Business

In assessing the performance of our business, we consider a variety of performance and financial measures. The key measures for determining how our business is performing are net sales, same store sales, gross margin, selling, general and administrative expenses, income from operations and Adjusted EBITDA.

### Net Sales and Same Store Sales

Our net sales are primarily received from revenue generated in our stores and also include sales generated through our e-commerce platform. When measuring revenue generated from our stores, we review our same store sales as well as the performance of our stores that have not operated for a sufficient amount of time to be included in same store sales. We include net sales from a store in same store sales on the first day of the 13th full fiscal month following the store's opening or acquisition by us. We exclude net sales from e-commerce from our calculation of same store sales and for fiscal years consisting of 53 weeks, such as fiscal year 2012, we exclude net sales during the 53<sup>rd</sup> week from our calculation of same store sales.

Measuring the change in year-over-year same store sales allows us to evaluate how our retail store base is performing. Various factors affect same store sales, including:

changes or anticipated changes to regulations related to some of the products we sell;  
consumer preferences, buying trends and overall economic trends;  
our ability to identify and respond effectively to local and regional trends and customer preferences;  
our ability to provide quality customer service that will increase our conversion of shoppers into paying customers;

14

---

competition in the regional market of a store;  
atypical weather;  
changes in our product mix; and  
changes in pricing and average ticket sales.

Opening new stores is also an important part of our growth strategy. Since the beginning of fiscal year 2011, we have opened 19 stores, including the eight new stores we have opened in fiscal year 2014. We do not expect to open any additional stores in 2014. For the next several years, we intend to grow our store base at a rate of eight to thirteen stores annually. As part of our growth strategy, we also re-acquired ten stores in fiscal year 2013 that were previously operated under our Sportsman's Warehouse banner.

For our new locations, we measure our investment by reviewing the new store's four-wall Adjusted EBITDA margin and pre-tax return on invested capital ("ROIC") of the new store. We target a minimum 10% four-wall Adjusted EBITDA margin and a minimum ROIC of 50% excluding initial inventory costs (or 20% including initial inventory cost) for the first full twelve months of operation for a new store. The 11 new stores that we have opened since 2010 and that have been open for a full twelve months (excluding the 10 acquired stores) have achieved an average four-wall Adjusted EBITDA margin of 14.6% and an average ROIC of 123.8% excluding initial inventory cost (and 40.2% including initial inventory cost) during their first full twelve months of operations. Four-wall Adjusted EBITDA means, for any period, a particular store's Adjusted EBITDA, excluding any allocations of corporate selling, general and administrative expenses allocated to that store. Four-wall Adjusted EBITDA margin means, for any period, a store's four-wall Adjusted EBITDA divided by that store's net sales. For a definition of Adjusted EBITDA and Adjusted EBITDA margin and a reconciliation of net income to Adjusted EBITDA, see "—Non-GAAP Measures." ROIC means a store's four-wall Adjusted EBITDA for a given period divided by our initial cash investment in the store. We calculate ROIC both including and excluding the initial inventory cost.

We also have been scaling our e-commerce platform and increasing sales through our website, [www.sportsmanswarehouse.com](http://www.sportsmanswarehouse.com).

We believe the key drivers to increasing our total net sales will be:

increasing our total gross square footage by opening new stores and increasing the selling square footage of our existing stores;  
continuing to increase and improve same store sales in our existing markets;  
increasing customer visits to our stores and improving our conversion rate through focused marketing efforts and continually high standards of customer service;  
increasing the average ticket sale per customer; and  
expanding our e-commerce platform.

#### Gross Margin

Gross profit is our net sales less cost of goods sold. Gross margin measures our gross profit as a percentage of net sales. Our cost of goods sold primarily consists of merchandise acquisition costs, including freight-in costs, shipping costs, payment term discounts received from the vendor and vendor allowances and rebates associated directly with merchandise and shipping costs related to e-commerce sales.

We believe the key drivers to improving our gross margin are increasing the product mix to higher margin products, particularly clothing and footwear, improving buying opportunities with our vendor partners and coordinating pricing strategies among our stores and buying group. Our ability to properly manage our inventory can also impact our gross margin. Successful inventory management ensures we have sufficient high margin products in stock at all times to meet customer demand, while overstocking of items could lead to markdowns in order to help a product sell. We believe that the overall growth of our business will allow us to generally maintain or increase our gross margins,

because increased merchandise volumes will enable us to maintain our strong relationships with our vendors.

#### Selling, General and Administrative Expenses

We closely manage our selling, general and administrative expenses. Our selling, general and administrative expenses are comprised of payroll, rent and occupancy, depreciation and amortization, acquisition expenses, pre-opening expenses and other operating expenses, including share-based compensation expense. Pre-opening expenses include expenses incurred in the preparation and opening of a new store location, such as payroll, travel and supplies, but do not include the cost of the initial inventory or capital expenditures required to open a location.

Our selling, general and administrative expenses are primarily influenced by the volume of net sales of our locations, except for our corporate payroll, rent and occupancy and depreciation and amortization, which are generally fixed in nature. We control our selling, general and administrative expenses through a budgeting and reporting process that allows our personnel to adjust our expenses as trends in net sales activity are identified.

We expect that our selling, general and administrative expenses will increase in future periods due to our continuing growth and in part to additional legal, accounting, insurance and other expenses we expect to incur as a result of being a public company.

#### Income from Operations

Income from operations is gross profit less selling, general and administrative expenses. We use income from operations as an indicator of the productivity of our business and our ability to manage selling, general and administrative expenses.

#### Adjusted EBITDA

We define Adjusted EBITDA as net income plus interest expense, income tax expense, depreciation and amortization, stock-based compensation expense, pre-opening expenses, expenses related to bonuses paid as a result of the successful completion of our initial public offering, bankruptcy-related expenses and expenses related to the acquisition of ten stores in fiscal year 2013. In evaluating our business, we use Adjusted EBITDA and Adjusted EBITDA margin as an additional measurement tool for purposes of business decision-making, including evaluating store performance, developing budgets and managing expenditures. See “—Non-GAAP Measures.”

#### Results of Operations

The following table summarizes key components of our results of operations as a percentage of net sales for the periods indicated:

	Thirteen Weeks Ended		Twenty Six Weeks Ended	
	August 2, 2014	August 3, 2013	August 2, 2014	August 3, 2013
<b>Percentage of net sales:</b>				
Net sales	100.0%	100.0%	100.0%	100.0%
Cost of goods sold	66.9	66.5	68.2	67.5
Gross profit	33.1	33.5	31.8	32.5
Selling, general and administrative expenses	25.3	23.1	27.6	23.3
Bankruptcy-related expenses	0.0	0.0	0.0	0.0
Income from operations	7.8	10.4	4.2	9.2
Interest expense	2.6	2.2	3.2	2.3
Income before income taxes	5.2	8.2	1.0	6.9
Income tax expense	2.0	3.2	0.4	2.7
Net income	3.2 %	5.0 %	0.6 %	4.2 %
Adjusted EBITDA	10.0 %	11.5 %	7.8 %	11.1 %

The following table shows our sales during the periods presented by department:

Department	Product Offerings	Thirteen Weeks Ended		Twenty Six Weeks Ended	
		August 2, 2014	August 3, 2013	August 2, 2014	August 3, 2013
Camping	Backpacks, camp essentials, canoes and kayaks, coolers, outdoor cooking equipment, sleeping bags, tents and tools	18.6 %	16.7 %	15.2 %	13.3 %
Clothing	Camouflage, jackets, hats, outerwear, sportswear, technical gear and work wear	7.0	6.2	7.2	5.8
Fishing	Bait, electronics, fishing rods, flotation items, fly fishing, lines, lures, reels, tackle and small boats	15.1	14.5	12.7	11.6
Footwear	Hiking boots, socks, sport sandals, technical footwear, trail shoes, waders and work boots	7.4	6.7	7.0	5.7
Hunting and Shooting	Ammunition, archery items, ATV accessories, blinds and tree stands, decoys, firearms, reloading equipment and shooting gear	40.4	44.4	46.6	53.4
Optics, Electronics and Accessories	Gift items, GPS devices, knives, lighting, optics (e.g. binoculars) and two-way radios	8.5	8.2	8.1	7.5
Other		3.0	3.3	3.2	2.7
Total		100.0%	100.0 %	100.0%	100.0 %

Thirteen Weeks Ended August 2, 2014 Compared to Thirteen Weeks Ended August 3, 2013

Net Sales. Net sales increased by \$3.6 million, or 2.3%, to \$159.5 million in the 13 weeks ended August 2, 2014 compared to \$155.9 million in the corresponding period of fiscal year 2013. This increase was due to net sales generated from our new store openings that have been open for less than 12 months and were, therefore, not included in our same store sales. These new stores generated \$12.8 million in additional net sales in the second quarter of fiscal year 2014 compared to the second quarter of fiscal year 2013. We opened four of these stores in the second quarter of fiscal year 2014 and they generated \$5.9 million in net sales during this quarter. This increase from our new store openings was partially offset by a decline in our same stores sales for the period of 6.1% (or a decrease of 1.4% excluding firearms and ammunition).

Each of our departments recognized an increase in net sales from the second quarter of fiscal year 2013 except for our hunting and shooting department. We experienced strong demand for our products in our camping department during the quarter. We also continued to see increased net sales from our clothing department as we continue to roll out the “store-within-a-store” concept with certain of our key vendors. All of our departments, other than our hunting and shooting department, combined for an increase in net sales of \$8.4 million during the second quarter of fiscal year 2014 as compared to the second quarter of fiscal year 2013. Our hunting and shooting department had a decrease in net sales during the quarter of \$4.8 million that is a result of decreased demand for firearms, ammunition and related products as compared to the corresponding period of fiscal year 2013. During the fourth fiscal quarter of fiscal year 2012, we experienced an increased demand for firearms that continued into the first half of fiscal year 2013, due in part to the public perception during that period that federal or state legislation might be enacted that would potentially make it more difficult to purchase certain firearms, ammunition and reloading supplies. Our sales of firearms returned closer to historical sales levels during the latter part of fiscal year 2013, which when combined with sales of ammunition and related products, resulted in the decrease in same store sales for the second quarter of fiscal year 2014

compared to the same period in fiscal year 2013.

With respect to same store sales, three of our six departments (hunting and shooting, fishing, and optics electronics and accessories) realized a decline in same store sales because of the decrease in demand for firearms and ammunition, as discussed above, and the associated decrease in customer traffic associated with this decreased demand. Our hunting and shooting department experienced a same store sales decline of 15.0% during the second quarter of fiscal year 2014 when compared to the corresponding period of fiscal year 2013. This decline was offset by the camping, clothing and footwear departments which had same store sales increases of 4.5%, 4.3% and 5.2%, respectively, during the same period. As of August 2, 2014, we had 46 stores included in our same store sales calculation.

Net sales from our e-commerce business increased by \$0.2 million, or 15.4%, to \$1.5 million in 13 weeks ended August 2, 2014 compared to \$1.3 million in the corresponding period of fiscal year 2013. This increase was primarily attributable to an increase in the average order value of our e-commerce transactions.

**Gross Profit.** Gross profit increased by \$0.6 million, or 1.1%, to \$52.8 million for the 13 weeks ended August 2, 2014 from \$52.2 million for the corresponding period of fiscal year 2013. As a percentage of net sales, gross profit decreased by 0.4% to 33.1% for the second quarter of fiscal year 2014 from 33.5% in the second quarter of fiscal year 2013. This decrease in gross margin from the corresponding period of the prior fiscal year is due to the success of our new loyalty program that was launched in November 2013 (accounting for approximately half of the decrease) and a lower gross margin in firearms, ammunition and other related product categories as a result of increased supply in the market for the quarter ended August 2, 2014 compared to the corresponding period of the prior year.

**Selling, General and Administrative Expenses.** Selling, general and administrative expenses increased by \$4.4 million, or 12.2%, to \$40.5 million for the 13 weeks ended August 2, 2014 from \$36.1 million for the corresponding period of fiscal year 2013. The increase in these expenses resulted primarily from an increase in the number of stores in operation over the corresponding period of the prior year. Our payroll, rent, and pre-opening expenses increased \$1.6 million, \$0.9 million and \$0.8 million, respectively, for the 13 weeks ended August 2, 2014 from the corresponding period of fiscal year 2013. Our total payroll expense for the second quarter of fiscal year 2014 included \$0.5 million in non-cash stock-based compensation. Selling, general and administrative expenses were 25.4% of net sales in the second quarter of fiscal year 2014 and 23.2% of net sales in the second quarter of fiscal year 2013. Selling, general and administrative expenses increased as a percentage of net sales primarily due to stock-based compensation expense and increased payroll, rent and pre-opening expenses from the new store locations.

**Interest Expense.** Interest expense increased by \$0.7 million, or 20.6%, to \$4.1 million in the 13 weeks ended August 2, 2014 from \$3.4 million for the corresponding period of fiscal year 2013. Interest expense increased as a result of our higher debt balance during the second quarter of fiscal year 2014. In August 2013, we refinanced our term loan facility and increased the outstanding amount under this facility by \$110.0 million, from \$125.0 million to \$235.0 million. As described below under “—Liquidity and Capital Resources,” we used the \$3.0 million of net proceeds from the partial exercise of the underwriter’s overallotment from our initial public offering to repay amounts outstanding under our term loan facility in May of 2014.

**Income Taxes.** We recorded income tax expense of \$3.2 million for the 13 weeks ended August 2, 2014 compared to income tax expense of \$5.0 million for the corresponding period of fiscal year 2013. Our effective tax rate for the 13 weeks ended August 2, 2014 of 38.5% decreased from the effective tax rate for the corresponding period of fiscal year 2013 of 39.6%. This decrease came as a result of a reduction in non-deductible interest associated with debt that was repaid at the beginning of fiscal year 2013 as well as a reduction of our effective state income tax rate as we opened stores in states with no applicable state income tax and changes to the income apportionment methods in certain states where we operate.

#### Twenty Six Weeks Ended August 2, 2014 Compared to Twenty Six Weeks Ended August 3, 2013

**Net Sales.** Net sales decreased by \$0.5 million, or 0.2%, to \$291.9 million in the 26 weeks ended August 2, 2014 compared to \$292.4 million in the corresponding period of fiscal year 2013. This decrease was due primarily to a decrease in our same store sales for the period of 11.6% (or a decrease of 1.5% excluding firearms and ammunition) offset by an additional \$32.7 million of net sales generated from 14 new stores we opened or acquired in fiscal year 2013 that were not included in our same store sales as well as the seven new stores opened during the first two quarters of fiscal year 2014. Each of our departments recognized an increase in net sales from the second quarter of fiscal year 2013 except for our hunting and shooting department. Our clothing, footwear and camping departments had a combined increase of \$12.5 million in net sales over the prior year period as a result of the expansion of selling square footage in the clothing department and the roll out of a “store-within-a-store” concept with certain of our key vendors and increased demand in our camping department. This increase was offset by a \$19.6 million decrease in the hunting and shooting department as a result of decreased demand for firearms, ammunition and related products as compared to the corresponding period of fiscal year 2013. During the fourth fiscal quarter of fiscal year 2012, we

experienced increased demand for firearms that continued into the earlier part of fiscal year 2013, due in part to the public perception during that period that federal or state legislation might be enacted that would potentially make it more difficult to purchase certain firearms. Our sales of firearms returned closer to historical sales levels during the latter part of fiscal year 2013, which when combined with sales of ammunition and related products, resulted in the decrease in same store sales for the first two quarters of fiscal year 2014 compared to the same period in fiscal year 2013.

Three of our six departments (hunting and shooting, fishing, and optics, electronics and accessories) realized a decline in same store sales because of the decrease in demand for firearms and ammunition, as discussed above, and the associated decrease in customer traffic associated with this decreased demand. Our hunting and shooting department experienced a same store sales decline of 23.6% during the 26 weeks ended August 2, 2014 when compared to the corresponding period of fiscal year 2013. This decline was partially offset by the camping, clothing and footwear departments which had same store sales increases of and 2.5%, 7.0% and 7.8%, respectively, during the same period. As of August 2, 2014, we had 46 stores included in our same store sales calculation.

During the first two quarters of fiscal year 2014, we opened seven new stores. These seven new locations generated net sales of \$14.6 million during this period. Existing stores that were not included in same store sales generated \$18.1 million in additional net sales in the first two quarters of fiscal year 2014 over the same period in fiscal year 2013.

Net sales from our e-commerce business decreased by \$0.3 million, or 9.4%, to \$2.9 million in the 26 weeks ended August 2, 2014 compared to \$3.2 million in the corresponding period of fiscal year 2013. This decrease was primarily attributable to the decreased demand for ammunition and other hunting related products that can be sold online.

**Gross Profit.** Gross profit decreased by \$2.1 million, or 2.2%, to \$93.0 million for the 26 weeks ended August 2, 2014 from \$95.1 million for the corresponding period of fiscal year 2013. As a percentage of net sales, gross profit decreased by 0.7% to 31.8% for the first two quarters of fiscal year 2014 from 32.5% in the first two quarters of fiscal year 2013. This decrease in gross margin from the corresponding period of the prior fiscal year is due to a return to our normal historical marketing calendar in the first quarter of fiscal year 2014 after having suspended certain of our regularly scheduled marketing events in the first quarter of fiscal year 2013 during the period of increased demand for firearms and ammunition, the success of our new loyalty program that was launched in November 2013 and lower gross margin in firearms, ammunition and other related product categories as a result of increased supply in the market for the first half of fiscal year 2014 compared to the corresponding period of the prior year.

**Selling, General and Administrative Expenses.** Selling, general and administrative expenses increased by \$12.4 million, or 18.1%, to \$80.8 million for the 26 weeks ended August 2, 2014 from \$68.4 million for the corresponding period of fiscal year 2013. The increase in these expenses resulted from an increase in the number of stores in operation over the corresponding period of the prior year. Our payroll, rent and pre-opening expenses increased \$7.4 million, \$2.6 million and \$1.3 million, respectively, for the 26 weeks ended August 2, 2014 from the corresponding period of fiscal year 2013. These increases were partially offset by a decrease in the costs associated with our acquisition of our ten previously owned stores in Montana, Oregon and Washington of \$2.3 million during the same period. Our total payroll expense for the first half of fiscal year 2014 included \$2.2 million in bonuses paid as a result of the successful completion of our initial public offering and pursuant to the terms of the employment agreements with our executive officers and \$2.3 million in non-cash stock-based compensation, \$1.2 million of which was due to accelerated vesting triggered by our initial public offering. Selling, general and administrative expenses were 27.7% of net sales in the first two quarters of fiscal year 2014 and 23.4% of net sales in the first two quarters of fiscal year 2013. Selling, general and administrative expenses increased as a percentage of net sales primarily due to the increase in bonuses and stock-based compensation expense related to our initial public offering and increased payroll, rent and pre-opening expenses from the new store locations.

**Interest Expense.** Interest expense increased by \$2.8 million, or 42.4%, to \$9.4 million in the 26 weeks ended August 2, 2014 from \$6.6 million for the corresponding period of fiscal year 2013. Interest expense increased as a result of our higher debt balance during the first half of fiscal year 2014 compared to the first half of fiscal year 2013. In August 2013, we refinanced our term loan facility and increased the outstanding amount under this facility by \$110.0 million, from \$125.0 million to \$235.0 million. As described below under “—Liquidity and Capital Resources,” we used the \$73.3 million of net proceeds from our initial public offering and partial exercise of the underwriter’s overallotment to repay amounts outstanding under our term loan facility in April and May of 2014.

**Income Taxes.** We recorded an income tax expense of \$1.1 million for the 26 weeks ended August 2, 2014 compared to income tax expense of \$8.0 million for the corresponding period of fiscal year 2013. Our effective tax rate for the 26 weeks ended August 2, 2014 of 38.5% decreased from the effective tax rate for the corresponding period of fiscal year 2013 of 39.6%. This decrease came as a result of a reduction in non-deductible interest associated with debt that was repaid at the beginning of fiscal year 2013 as well as a reduction of our effective state income tax rate as we opened stores in states with no applicable state income tax and changes to the income apportionment methods in certain states where we operate.

Seasonality

Due to holiday buying patterns and the openings of hunting and fishing season across the country, net sales are typically higher in the third and fourth fiscal quarters than in the first and second fiscal quarters. We also incur additional expenses in the third and fourth fiscal quarters due to higher volume and increased staffing in our stores. We anticipate our net sales will continue to reflect this seasonal pattern.

The timing of our new retail store openings also may have an impact on our quarterly results. First, we incur certain one-time expenses related to opening each new retail store, all of which are expensed as they are incurred. Second, most store expenses generally vary proportionately with net sales, but there is also a fixed cost component, which includes occupancy costs. These fixed costs typically result in lower store profitability during the initial period after a new retail store opens. Due to both of these factors, new retail store openings may result in a temporary decline in operating profit, in dollars and/or as a percentage of net sales.

Weather conditions affect outdoor activities and the demand for related clothing and equipment. Customers' demand for our products, and, therefore, our net sales, can be significantly impacted by weather patterns on a local, regional and national basis.

## Liquidity and Capital Resources

Our primary capital requirements are for seasonal working capital needs and capital expenditures related to opening new stores. Our sources of liquidity to meet these needs have primarily been borrowings under our revolving credit facility, operating cash flows and short and long-term debt financings from banks and financial institutions. We believe that our cash on hand, cash generated by operating activities and funds available under our revolving credit facility will be sufficient to finance our operating activities for at least the next twelve months.

We expect capital expenditures of approximately \$23.2 million for fiscal year 2014. We had capital expenditures of approximately \$19.6 million during the first two quarters of fiscal year 2014. We expect to incur approximately \$3.6 million in capital expenditures for the remainder of fiscal year 2014, including approximately \$0.2 million for the expansion of our store base, approximately \$1.9 million for improvements to our information technology infrastructure, approximately \$0.8 million to fully equip our recently opened distribution center and approximately \$0.7 million for store maintenance projects. We intend to fund these initiatives with our operating cash flows and funds available under our revolving credit facility. Other investment opportunities, such as potential strategic acquisitions or store expansion rates in excess of those presently planned, may require additional funding.

Cash flows from operating, investing and financing activities are shown in the following table:

	Twenty Six Weeks Ended	
	August 2, 2014	August 3, 2013
	(in thousands)	
Cash flows from operating activities	\$(18,118)	\$(21,125)
Cash flows from investing activities	(19,590)	(59,652)
Cash flows from financing activities	38,006	45,476
Cash and cash equivalents at end of period	1,652	1,214

Net cash used in operating activities was \$18.1 million for the first two quarters of fiscal year 2014, compared to \$21.1 million for the first two quarters of fiscal year 2013, a decrease of approximately \$3.0 million. Our net cash used in operating activities decreased primarily because of an increase in non-cash expenses, such as deferred rent and stock-based compensation and an increase in accounts payable, offset by a decrease in net income for the 26 weeks ended August 2, 2014 compared to the same period of the prior year.

Net cash used in investing activities was \$19.6 million for the first two quarters of fiscal year 2014 compared to net cash used in investing activities of \$59.9 million for the first two quarters of fiscal year 2013. During the first two quarters of fiscal year 2013, we acquired ten stores for \$47.8 million of cash. Capital expenditures increased \$7.7 million to \$19.6 million for the first two quarters of fiscal year 2014 compared to \$11.9 million for the first two quarters of fiscal year 2013. This increase was primarily a result of opening seven new stores in the first two quarters of fiscal year 2014 compared to three new stores opened in the first two quarters of fiscal year 2013, our continued remodel of our clothing department and equipment and racking required for our recently opened distribution center.

Net cash provided by financing activities was \$38.0 million for the first two quarters of fiscal year 2014, compared to \$45.5 million for the first two quarters of fiscal year 2013. During the first quarter of fiscal year 2014, we completed our initial public offering and, in the second quarter of fiscal year 2014, the underwriters partially exercised the over-allotment option granted at the time of the initial public offering to purchase additional shares of our common

stock. Through these transactions, we received total net proceeds, after deducting underwriting discounts and commissions and our offering expenses of \$3.3 million, of \$73.3 million. These proceeds were used to repay amounts outstanding under our term loans. Total principal payments on long-term debt during the first two quarters of 2014 were \$74.5 million compared to \$0.6 million in the corresponding period of fiscal year 2013. In addition to these changes, we had net borrowings of approximately \$33.9 million during the first two quarters of fiscal year 2014 on our revolving credit facility compared to \$40.9 million during the corresponding period of fiscal year 2013.

Our outstanding debt consists of our senior secured revolving line of credit and our senior secured term loans.

**Senior Secured Revolving Credit Facility.** We have a senior secured revolving credit facility with Wells Fargo Bank, National Association that provides for borrowings in the aggregate amount of up to \$105.0 million, subject to a borrowing base calculation. All borrowings under the revolving credit facility are limited to a borrowing base equal to roughly (1) the lesser of (a) 90% of the net orderly liquidation value of our eligible inventory and (b) 75% of the lower of cost or market value of our eligible inventory, plus (2) 90% of the eligible accounts receivable, less certain reserves against outstanding gift cards, layaway deposits and amounts outstanding under commercial letters of credit, each term as defined in the credit agreement. As of August 2, 2014, \$23.0 million was available for borrowing and \$62.9 million was outstanding under the revolving credit facility. The revolving credit facility matures on August 20, 2018.

Each of the subsidiaries of Sportsman's Warehouse Holdings, Inc., or Holdings, is a borrower under the revolving credit facility, and all obligations under the revolving credit facility are guaranteed by Holdings. All of our obligations under the revolving credit facility are secured by a lien on substantially all of Holdings' tangible and intangible assets and the tangible and intangible assets of all of our subsidiaries, including a pledge of all capital stock of each of our subsidiaries. The lien securing the obligations under the revolving credit facility is a first priority lien as to certain liquid assets, including cash, accounts receivable, deposit accounts and inventory. In addition, the credit agreement contains provisions that enable Wells Fargo to require us to maintain a lock-box for the collection of all receipts.

Borrowings under the revolving credit facility bear interest based on either, at our option, the base rate or LIBOR, in each case plus an applicable margin. The base rate is the higher of (1) Wells Fargo's prime rate, (2) the federal funds rate (as defined in the credit agreement) plus 0.50% and (3) the one-month LIBOR (as defined in the credit agreement) plus 1.00%. The applicable margin for loans under the revolving credit facility, which varies based on the average daily availability, ranges from 0.75% to 1.25% per year for base rate loans and from 1.75% to 2.25% per year for LIBOR loans. The weighted average interest rate on the amount outstanding under the revolving credit facility as of August 2, 2014 was 1.91%.

Interest on base rate loans is payable monthly in arrears and interest on LIBOR loans is payable based on the LIBOR interest period selected by us, which can be 30, 60 or 90 days. All amounts that are not paid when due under our revolving credit facility will accrue interest at the rate otherwise applicable plus 1.75% until such amounts are paid in full.

We may be required to make mandatory prepayments under the revolving credit facility in the event of a disposition of certain property or assets, in the event of receipt of certain insurance or condemnation proceeds, upon the issuance of certain debt or equity securities, upon the incurrence of certain indebtedness for borrowed money or upon the receipt of certain payments not received in the ordinary course of business.

The revolving credit facility contains customary affirmative and negative covenants, including covenants that limit our ability to incur, create or assume certain indebtedness, to create, incur or assume certain liens, to make certain investments, to make sales, transfers and dispositions of certain property and to undergo certain fundamental changes, including certain mergers, liquidations and consolidations. The revolving credit facility also requires us to maintain a minimum availability at all times of not less than 10% of the gross borrowing base, and in any event, not less than \$5.0 million. The revolving credit facility also contains customary events of default. As of August 2, 2014, we were in compliance with all covenants under the revolving credit facility.

Senior Secured Term Loans. Sportsman's Warehouse, Inc. entered into a \$235.0 million senior secured term loan facility, consisting of a \$185.0 million tranche and a \$50.0 million tranche, with Credit Suisse AG as administrative agent and collateral agent, on August 20, 2013. The term loans have a maturity date of August 20, 2019.

All of Sportsman's Warehouse, Inc.'s obligations under the term loans are guaranteed by Holdings, Minnesota Merchandising Corporation, a wholly owned subsidiary of Holdings, and each of Sportsman's Warehouse, Inc.'s subsidiaries. All obligations under the term loans are secured by a lien on substantially all of Holdings' tangible and intangible assets and the tangible and intangible assets of all of our subsidiaries. The lien securing the obligations under the term loans is a first priority lien as to certain non-liquid assets, including equipment, intellectual property, proceeds of assets sales and other personal property.

Sportsman's Warehouse, Inc. must make quarterly principal payments of \$0.6 million on the last business day of each fiscal quarter through maturity. On the maturity date, Sportsman's Warehouse, Inc. must pay all outstanding principal remaining on both tranches of the term loan facility, together with any accrued and unpaid interest. Sportsman's Warehouse, Inc. is permitted to prepay the term loans at any time, provided that it must apply any prepayments on a

pro rata basis between the two tranches. We used all of the \$73.3 million of net proceeds from our initial public offering and the underwriters' over-allotment exercise to repay amounts outstanding under our term loans on a pro rata basis between the two tranches. As of August 2, 2014, there was \$159.9 million outstanding under the term loans.

Sportsman's Warehouse, Inc. may be required to make mandatory prepayments on the term loans in the event of, among other things, certain asset sales, the receipt of payment in respect of certain insurance claims or upon the issuance or incurrence of certain indebtedness. After the completion of fiscal year 2014, Sportsman's Warehouse, Inc. may also be required to make mandatory prepayments based on any excess cash flows as defined in the term loan agreement.

The term loans bear interest at a rate per annum equal to the one-, two-, three-, or six-month LIBOR (or, if available to all relevant lenders, the nine- or twelve-month LIBOR), as defined in the term loan agreement, at Sportsman's Warehouse, Inc.'s election, which cannot be less than 1.25%, plus an applicable margin of 6.00% and 10.75% for the \$185.0 million tranche and \$50.0 million tranche, respectively. Since LIBOR has been less than 1.25% since the inception of the term loans through August 2, 2014, the interest rates have been fixed at 7.25% and 12.0% on the \$185.0 million tranche and \$50.0 million tranche, respectively.

The term loans contain customary affirmative and negative covenants, including covenants that limit our ability to incur, create or assume certain indebtedness, to incur or assume certain liens, to purchase, hold or acquire certain investments, to declare or make certain dividends and distributions and to engage in certain mergers, consolidations and asset sales. The term loans also require us to comply with specified financial covenants, including a minimum interest coverage ratio and a maximum total net leverage ratio. The term loans also contain customary events of default. As of August 2, 2014, we were in compliance with all covenants under the term loans.

#### Critical Accounting Policies

Our financial statements are prepared in accordance with generally accepted accounting principles in the United States, or GAAP. In connection with the preparation of the financial statements, we are required to make assumptions, make estimates and apply judgment that affect the reported amounts of assets, liabilities, revenue, expenses and the related disclosures. We base our assumptions, estimates and judgments on historical experience, current trends and other factors that we believe to be relevant at the time the condensed consolidated financial statements are prepared. On a regular basis, we review the accounting policies, assumptions, estimates and judgments to ensure that our financial statements are presented fairly and in accordance with GAAP. However, because future events and their effects cannot be determined with certainty, actual results could differ from our assumptions and estimates, and such differences could be material.

Our significant accounting policies are discussed in Note 2 of the Notes to our condensed consolidated financial statements. We believe that the following accounting policies are the most critical to aid in fully understanding and evaluating our reported financial results.

#### Revenue Recognition

We recognize revenue on our retail sales at the time of the sale in the store. We record a reserve for estimated product returns in each reporting period based on our historical experience. Had our estimate of product returns been lower or higher by 10% as of August 2, 2014, our operating income would have been correspondingly higher or lower by approximately \$0.1 million. Our policy regarding gift cards sold is to record revenue as the gift cards are redeemed for merchandise. Prior to their redemption, the gift cards are recorded as a liability. Gift card breakage income is recognized based upon historical redemption patterns and represents the balance of gift cards for which we believe the likelihood of redemption by the customer is remote. During the 13 and 26 weeks ended August 2, 2014 and August 3, 2013, we did not recognize any material gift card breakage income. We include gift card breakage income as a reduction in selling, general and administrative expenses, if applicable. Had our estimate of breakage on our recorded liability for gift cards been lower or higher by 10% of the recorded liability as of August 2, 2014, our selling, general and administrative expenses would have been correspondingly higher or lower by approximately \$0.6 million.

#### Inventory Valuation

We value our inventory at the lower of cost or market. Cost is determined using the weighted average cost method. We estimate a provision for inventory shrinkage based on our historical inventory accuracy rates as determined by periodic cycle counts. The allowance for damaged goods from returns is based upon our historical experience. We also adjust inventory for obsolete or slow moving inventory based on inventory productivity reports and by specific identification of obsolete or slow moving inventory. Had our estimated inventory reserves been lower or higher by 10% as of August 2, 2014, our cost of sales would have been correspondingly lower or higher by approximately \$0.4 million.

#### Valuation of Long-Lived Assets

We review our long-lived assets with definite lives for impairment whenever events or changes in circumstances may indicate that the carrying value of an asset may not be recoverable. We use an estimate of the future undiscounted net cash flows of the related asset or group of assets over their remaining useful lives in measuring whether the assets are recoverable. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized for the amount by which the carrying amount exceeds the estimated fair value of the asset. Impairment of long-lived assets is assessed at the lowest levels for which there are identifiable cash flows that are independent of other groups of assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value, less the estimated costs to sell. No impairment charge to long-lived assets was recorded during the 13 weeks ended August 2, 2014 or August 3, 2013.

#### Off Balance Sheet Arrangements

We are not party to any off balance sheet arrangements.

## Contractual Obligations

In the normal course of business, we enter into various contractual obligations that may require future cash payments for long-term debt, operating lease obligations, letters of credit or other purchase obligations. During the first two quarters of fiscal year 2014, we used the net proceeds of \$73.3 million from our initial public offering and the underwriters' exercise of the over-allotment option to repay amounts outstanding under our term loans. As a result of this partial repayment and the regularly scheduled principal and interest payment made on May 2, 2014 and August 1, 2014, the total payments to be made with respect to our long-term debt obligations was reduced from \$329.9 million as of February 1, 2014 to \$219.0 million as of August 2, 2014. All other changes to our contractual obligations during the first and second quarter of fiscal year 2014 were completed in the normal course of business and are not considered material.

## Non-GAAP Measures

In evaluating our business, we use Adjusted EBITDA and Adjusted EBITDA margin as supplemental measures of our operating performance. We define Adjusted EBITDA as net income plus interest expense, income tax expense, depreciation and amortization, stock-based compensation expense, pre-opening expenses, expenses related to bonuses paid as a result of the successful completion of our initial public offering, bankruptcy-related expenses and expenses related to the acquisition of ten stores in fiscal year 2013. Adjusted EBITDA margin means, for any period, the Adjusted EBITDA for that period divided by the net sales for that period. We consider Adjusted EBITDA and Adjusted EBITDA margin important supplemental measures of our operating performance and believe they are frequently used by analysts, investors and other interested parties in the evaluation of companies in our industry. Other companies in our industry, however, may calculate Adjusted EBITDA and Adjusted EBITDA margin differently than we do. Management also uses Adjusted EBITDA and Adjusted EBITDA margin as additional measurement tools for purposes of business decision-making, including evaluating store performance, developing budgets and managing expenditures.

Adjusted EBITDA is not defined under GAAP and is not a measure of operating income, operating performance or liquidity presented in accordance with GAAP. Adjusted EBITDA has limitations as an analytical tool, and when assessing our operating performance, you should not consider Adjusted EBITDA in isolation or as a substitute for net income or other condensed consolidated income statement data prepared in accordance with GAAP. Some of these limitations include, but are not limited to:

Adjusted EBITDA does not reflect our cash expenditures or future requirements for capital expenditures or contractual commitments;

Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs;

Adjusted EBITDA may be defined differently by other companies, and, therefore, it may not be directly comparable to the results of other companies in our industry;

Adjusted EBITDA does not reflect the interest expense, or the cash requirements necessary to service interest or principal payments, on our debt; and

Adjusted EBITDA does not reflect income taxes or the cash requirements for any tax payments.

The following table presents a reconciliation of net income, the most directly comparable financial measure presented in accordance with GAAP, to Adjusted EBITDA for the 13 and 26 weeks ended August 2, 2014 and August 3, 2013.

	Thirteen Weeks Ended		Twenty Six Weeks Ended	
	August 2, 2014	August 3, 2013	August 2, 2014	August 3, 2013
	(in thousands)			
Net income	\$5,063	\$7,656	\$1,695	\$12,115
Plus:				
Interest expense	4,107	3,365	9,365	6,593
Income tax expense	3,173	5,029	1,062	7,958
Depreciation and amortization	2,218	1,515	4,070	2,426
Stock-based compensation expense (1)	524	—	2,258	—
Pre-opening expenses (2)	904	142	2,129	837
IPO bonus (3)	—	—	2,200	—
Bankruptcy-related expenses (4)	—	—	—	55
Acquisition expenses (5)	—	154	—	2,324
Adjusted EBITDA	\$15,989	\$17,861	\$22,779	\$32,308
Adjusted EBITDA margin	10.0 %	11.5 %	7.8 %	11.1 %

- (1) Stock-based compensation expense represents non-cash expenses related to equity instruments granted to employees under our 2013 Performance Incentive Plan.
- (2) Pre-opening expenses include expenses incurred in the preparation and opening of a new store location, such as payroll, travel and supplies, but do not include the cost of the initial inventory or capital expenditures required to open a location.
- (3) As a result of the completion of our initial public offering and pursuant to the terms of the employment agreements with our executive officers, we paid \$2.2 million in bonuses to our executive officers.
- (4) On March 21, 2009, Sportsman's Warehouse Holdings, Inc. and its subsidiaries filed voluntary petitions for relief under Chapter 11 of the United States Bankruptcy Code, seeking to reorganize the business under the provisions of the Bankruptcy Code. The plan of reorganization under the Bankruptcy Code was confirmed by the United States Bankruptcy Court for the District of Delaware on July 30, 2009 and became effective when all material conditions of the plan of reorganization were satisfied on August 14, 2009. We incurred certain costs related to our restructuring and emergence from Chapter 11 bankruptcy and included a liability as part of the reorganization value at August 14, 2009, the date of emergence from bankruptcy. Bankruptcy-related expenses are those amounts that are greater than the initial estimated restructuring costs, whereas bankruptcy-related benefits are those amounts that are less than the initial estimated costs. They are expensed as incurred.
- (5) Acquisition expenses relate to the costs associated with the acquisition of our 10 previously operated stores in Montana, Oregon and Washington.

#### Recent Accounting Pronouncements

For a description of recent accounting pronouncements, see the notes to our condensed consolidated financial statements. Under the Jumpstart Our Business Startup Act, "emerging growth companies" ("EGCs") can delay adopting new or revised accounting standards until such time as those standards apply to private companies. We have

irrevocably elected not to avail ourselves of this exemption from new or revised accounting standards, and, therefore, we will be subject to the same new or revised accounting standards as other public companies that are not EGCs.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our principal exposure to market risk relates to changes in interest rates. Our revolving credit facility and term loans carry floating interest rates that are tied to LIBOR, the federal funds rate and the prime rate, and, therefore, our income and cash flows will be exposed to changes in interest rates to the extent that we do not have effective hedging arrangements in place. We historically have not used interest rate swap agreements to hedge the variable cash flows associated with the interest on our credit facilities. At August 2, 2014, the weighted average interest rate on our borrowings under our revolving credit facility was 1.91%. Based on a sensitivity analysis at August 2, 2014, assuming the amount outstanding under our revolving credit facility would be outstanding for a full year, a 100 basis point increase in interest rates would increase our annual interest expense by approximately \$0.6 million. As long as LIBOR is less than 1.25%, the interest rates on our \$185.0 million term loan and \$50.0 million term loan will be fixed at 7.25% and 12.0%, respectively. Since we entered into the term loan facility on August 20, 2013, LIBOR has not exceeded 1.25%. We do not use derivative financial instruments for speculative or trading purposes. However, this does not preclude our adoption of specific hedging strategies in the future.

### ITEM 4. CONTROLS AND PROCEDURES

#### Disclosure Controls and Procedures

As of the end of the period covered by this report, management, including our chief executive officer and chief financial officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures. Based upon and as of the date of the evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective as of August 2, 2014 to ensure that information required to be disclosed in the reports we file or submit under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports we file or submit under the Exchange Act is accumulated and communicated to our management, including our chief executive officer and our chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

#### Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the 13 weeks ended August 2, 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II. OTHER INFORMATION

### ITEM 1. LEGAL PROCEEDINGS

There was no material development to any legal proceedings disclosed in our Quarterly Report on Form 10-Q for the quarterly period ended May 3, 2014.

We are also subject to various legal proceedings and claims, including employment claims, wage and hour claims, intellectual property claims, contractual and commercial disputes and other matters that arise in the ordinary course of our business. While the outcome of these and other claims cannot be predicted with certainty, we do not believe that the outcome of these matters individually or in the aggregate will have a material adverse effect on our business, results of operations or financial condition.

### ITEM 1A. RISK FACTORS

Our business faces significant risks and uncertainties. Certain important factors may have a material adverse effect on our business prospects, financial condition and results of operations, and you should carefully consider them. There have been no material changes in our assessment of our risk factors from those set forth in our Quarterly Report on Form 10-Q for the quarterly period ended May 3, 2014.

### ITEM 6. EXHIBITS

Exhibit Number	Description
3.1	Amended and Restated Certificate of Incorporation of Sportsman's Warehouse Holdings, Inc. (incorporated by reference to Exhibit 3.1 to the Company's Quarterly Report on Form 10-Q filed on June 11, 2014).
3.2	Amended and Restated Bylaws of Sportsman's Warehouse Holdings, Inc. (incorporated by reference to Exhibit 3.2 to the Company's Quarterly Report on Form 10-Q filed on June 11, 2014).
31.1*	Certification of Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
