

FARMERS NATIONAL BANC CORP /OH/
Form 10-Q
May 11, 2015

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

Quarterly Report Pursuant to Section 13 or 15(d) of the
Securities Exchange Act of 1934

For the Quarterly period ended March 31, 2015

Commission file number 001-35296

FARMERS NATIONAL BANC CORP.

(Exact name of registrant as specified in its charter)

OHIO	34-1371693
(State or other jurisdiction of	(I.R.S. Employer
incorporation or organization)	Identification No)
20 South Broad Street Canfield, OH	44406
(Address of principal executive offices)	(Zip Code)

(330) 533-3341

(Registrant's telephone number, including area code)

Not applicable

(Former name, former address and former fiscal year, if changed since last report)

Edgar Filing: FARMERS NATIONAL BANC CORP /OH/ - Form 10-Q

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class	Outstanding at April 30, 2015
Common Stock, No Par Value	18,408,612 shares

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Principles of Consolidation:

Farmers National Banc Corp. (“Company”) is a one-bank holding company registered under the Bank Holding Company Act of 1956, as amended. The Company provides full banking services through its nationally chartered subsidiary, The Farmers National Bank of Canfield (“Bank”). The Company provides trust services through its subsidiary, Farmers Trust Company (“Trust”), retirement consulting services through National Associates, Inc. (“NAI”) and insurance services through the Bank’s subsidiary, Farmers National Insurance (“Insurance”). In addition to the Insurance subsidiary, the Bank has created Farmers of Canfield Investment Co. (“Investments”), with the primary purpose of investing in municipal securities. The consolidated financial statements include the accounts of the Company, the Bank and its subsidiaries, along with the Trust and NAI. All significant intercompany balances and transactions have been eliminated in the consolidation.

Basis of Presentation:

The unaudited condensed consolidated financial statements have been prepared in conformity with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles (“U.S. GAAP”) for complete financial statements. The financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company’s 2014 Annual Report to Shareholders included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2014. The interim consolidated financial statements include all adjustments (consisting of only normal recurring items) that, in the opinion of management, are necessary for a fair presentation of the financial position and results of operations for the periods presented. The results of operations for the interim periods disclosed herein are not necessarily indicative of the results that may be expected for a full year. Certain items included in the prior period financial statements were reclassified to conform to the current period presentation. There was no effect on net income or total stockholders’ equity.

Estimates:

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Segments:

The Company provides a broad range of financial services to individuals and companies in northeastern Ohio. Operations are managed and financial performance is primarily aggregated and reported in three lines of business, the Bank segment, the Trust segment and the Retirement Consulting segment.

Comprehensive Income:

Comprehensive income consists of net income and other comprehensive income. Other comprehensive income consists of unrealized gains and losses on securities available for sale and changes in the funded status of the post-retirement health plan, which are recognized as separate components of equity, net of tax effects. For the three month period ended March 31, 2015, there was no change in the funded status of the post-retirement health plan.

6

Securities:

The following table summarizes the amortized cost and fair value of the available-for-sale investment securities portfolio at March 31, 2015 and December 31, 2014 and the corresponding amounts of unrealized gains and losses recognized in accumulated other comprehensive income:

(In Thousands of Dollars)	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
March 31, 2015				
U.S. Treasury and U.S. government sponsored entities	\$ 18,812	\$ 401	\$ (7)	\$ 19,206

Equity securities	120	121	(1)	240
Totals	\$ 388,337	\$ 5,219	\$ (3,727)	\$ 389,829

Proceeds from the sale of portfolio securities were \$40.9 million during the three month period ended March 31, 2015. Gross gains of \$73 thousand and gross losses of \$63 thousand were realized on these sales during the three month period ended March 31, 2015. Proceeds from the sale of portfolio securities were \$9 thousand during the three month period ended March 31, 2014, with no gains or losses realized.

The amortized cost and fair value of the debt securities portfolio are shown by expected maturity. Expected maturities may differ from contractual maturities if issuers have the right to call or prepay obligations with or without call or prepayment penalties. Securities not due at a single maturity date are shown separately.

(In Thousands of Dollars)	March 31, 2015	
	Amortized Cost	Fair Value
Maturity		
Within one year	\$11,824	\$11,931
One to five years	53,858	54,858
Five to ten years	32,934	33,692
Beyond ten years	15,212	15,244
Mortgage-backed, collateralized mortgage obligations and Small Business Administration securities	252,178	253,952
Total	\$366,006	\$369,677

Other-Than-Temporary-Impairment

Management evaluates securities for other-than-temporary impairment (“OTTI”) at least on a quarterly basis, and more frequently when economic or market conditions warrant such an evaluation. Investment securities are generally evaluated for OTTI under FASB Accounting Standards Codification (“ASC”) 320, Investments – Debt and Equity Securities. Consideration is given to the length of time and the extent to which the fair value has been less than cost, the financial condition and near-term prospects of the issuer, whether the market decline was affected by macroeconomic conditions and whether the Company has the intent to sell the debt security or more likely than not

will be required to sell the debt security before its anticipated recovery. In analyzing an issuer's financial condition, the Company may consider whether the securities are issued by the federal government or its agencies, or U.S. government sponsored enterprises, whether downgrades by bond rating agencies have occurred, and the results of reviews of the issuer's financial condition. The assessment of whether an other-than-temporary decline exists involves a high degree of subjectivity and judgment and is based on the information available to management at a point in time.

When OTTI occurs, the amount of the OTTI recognized in earnings depends on whether an entity intends to sell the security or it is more likely than not it will be required to sell the security before recovery of its amortized cost basis. If an entity intends to sell or it is more likely than not it will be required to sell the security before recovery of its amortized cost basis, the OTTI shall be recognized in earnings equal to the entire difference between the investment's amortized cost basis and its fair value at the balance sheet date. The previous amortized cost basis less the OTTI recognized in earnings becomes the new amortized cost basis of the investment. For debt securities that do not meet the aforementioned criteria, the amount of impairment is split into two components as follows: 1) OTTI related to credit loss, which must be recognized in the income statement and 2) OTTI related to other factors, which is recognized in other comprehensive income or loss. The credit loss is defined as the difference between the present value of the cash flows expected to be collected and the amortized cost basis. For equity securities, the entire amount of impairment is recognized through earnings.

As of March 31, 2015, the Company's security portfolio consisted of 321 securities, 82 of which were in an unrealized loss position. The majority of the unrealized losses on the Company's securities are related to its holdings of mortgage-backed securities,

collateralized mortgage obligations, state and political subdivision securities, and Small Business Administration securities as discussed below.

Unrealized losses on debt securities issued by state and political subdivisions have not been recognized into income. Generally these securities have maintained their investment grade ratings and management does not have the intent and does not expect to be required to sell these securities before their anticipated recovery. The fair value is expected to recover as the securities approach their maturity date.

All of the Company's holdings of collateralized mortgage obligations and residential mortgage-backed securities were issued by U.S. government-sponsored entities. Unrealized losses on these securities have not been recognized into income. Because the decline in fair value is attributable to changes in interest rates and illiquidity, and not credit quality, the issues are guaranteed by the issuing entity and which the U.S. government has affirmed its commitment to support, and because the Company does not have the intent to sell these residential mortgage-backed securities and it is likely that it will not be required to sell the securities before their anticipated recovery, the Company does not consider these securities to be OTTI.

Management does not believe any unrealized losses on Small Business Administration securities represent an other-than-temporary impairment. The securities are issued and backed by the full faith and credit of the U.S. government and the Company does not have the intent to sell these securities before their anticipated recovery. The fair value of these securities is expected to recover as they approach their maturity.

Loans:

Loan balances were as follows:

	March 31,	December 31,
(In Thousands of Dollars)	2015	2014
Commercial real estate		
Owner occupied	\$77,720	\$74,829

Troubled Debt Restructurings:

Total troubled debt restructurings were \$8.2 million and \$8.1 million at March 31, 2015 and December 31, 2014, respectively. The Company has allocated \$247 thousand and \$242 thousand of specific reserves to customers whose loan terms have been modified in troubled debt restructurings as of March 31, 2015 and December 31, 2014. There were \$11 thousand and \$25 thousand in commitments to lend additional amounts to borrowers with loans that were classified as troubled debt restructurings at March 31, 2015 and December 31, 2014.

During the three month periods ended March 31, 2015 and 2014, the terms of certain loans were modified as troubled debt restructurings. The modification of the terms of such loans included one or a combination of the following: a reduction of the stated interest rate of the loan; an extension of the maturity date at a stated rate of interest lower than the current market rate for new debt with similar risk; a deferral of principal payments; or a legal concession.

Troubled debt restructuring modifications involved a reduction of the notes stated interest rate in the range of 0.87% and 2.75%. There were also extensions of the maturity dates on these and other troubled debt restructurings in the range of 9 months to 120 months.

Edgar Filing: FARMERS NATIONAL BANC CORP /OH/ - Form 10-Q

The following table presents loans by class modified as troubled debt restructurings that occurred during the three month periods ended March 31, 2015 and 2014:

Three Months Ended March 31, 2015 (In Thousands of Dollars)	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post-Modification Outstanding Recorded Investment
Troubled Debt Restructurings:			
Commercial	1	\$ 8	\$ 8
Residential real estate			
1-4 family residential	3	354	354
Home equity lines of credit	1	50	50
Indirect	2	36	36
Total	7	\$ 448	\$ 448

Three Months Ended March 31, 2014 (In Thousands of Dollars)	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post-Modification Outstanding Recorded Investment
Troubled Debt Restructurings:			
Non-owner occupied	1	\$ 35	\$ 35
Residential real estate			
1-4 family residential	9	393	394
Home equity lines of credit	2	52	52
Total	12	\$ 480	\$ 481

There were \$35 thousand in charge offs and a \$33 thousand increase to the provision for loan losses during the three month period ended March 31, 2015, as a result of troubled debt restructurings. There were no charge offs and a \$26 thousand increase to the provision for loan losses during the three month period ended March 31, 2014.

There was one residential real estate loan for which there were payment defaults within twelve months following the modification of the troubled debt restructuring during the three month period ended March 31, 2015. This loan was past due at March 31, 2015. There was a \$23 thousand provision to the loan losses as a result of this default during 2015. A loan is considered to be in payment default once it is 30 days contractually past due under the modified terms.

There were four indirect loans modified as troubled debt restructuring for which there were payments defaults within twelve months following the modification during the three month period ended March 31, 2014. Two of the four loans were past due at March 31, 2014. There was one loan charged off during the three month period ended March 31, 2014. There was a \$1 thousand provision to the allowance for loan losses associated with these loans. A loan is considered to be in payment default once it is 30 days contractually past due under the modified terms.

Credit Quality Indicators:

The Company categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. The Company establishes a risk rating at origination for all commercial loan and commercial real estate relationships. For relationships over \$750 thousand, management monitors the loans on an ongoing basis for any changes in the borrower's ability to service their debt. Management also affirms the risk ratings for the loans and leases in their respective portfolios on an annual basis. The Company uses the following definitions for risk ratings:

Special Mention. Loans classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution's credit position at some future date. Special mention assets are not adversely classified and do not expose an institution to sufficient risk to warrant adverse classification.

Substandard. Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. Substandard loans are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

Edgar Filing: FARMERS NATIONAL BANC CORP /OH/ - Form 10-Q

Doubtful. Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Loans not meeting the criteria above that are analyzed individually as part of the above described process are considered to be pass rated loans.

As of March 31, 2015 and December 31, 2014, and based on the most recent analysis performed, the risk category of loans by class of loans is as follows:

(In Thousands of Dollars)	Pass	Special Mention	Sub standard	Doubtful	Not Rated	Total
March 31, 2015						
Commercial real estate						
Owner occupied	\$70,516	\$ 1,022	\$5,967	\$ 0	\$ 0	\$77,505

Other	25,710	0	319	0	0	26,029
Commercial	114,409	1,566	4,175	0	0	120,150
Total	\$321,314	\$ 7,860	\$13,549	\$ 0	\$ 0	\$342,723

The Company considers the performance of the loan portfolio and its impact on the allowance for loan losses. For residential, consumer indirect and direct loan classes, the Company also evaluates credit quality based on the aging status of the loan, which was previously presented, and by payment activity.

The following table presents the recorded investment in residential, consumer indirect and direct auto loans based on payment activity as of March 31, 2015 and December 31, 2014. Nonperforming loans are loans past due 90 days or more and still accruing interest and nonaccrual loans.

(In Thousands of Dollars)	Residential Real Estate 1-4 Family Residential Lines of	Home Equity	Consumer Indirect	Direct	Other

(In Thousands of Dollars)	Residential Real Estate		Consumer		
	1-4 Family Residential	Home Equity Lines of Credit	Indirect	Direct	Other
December 31, 2014					
Performing	\$ 149,661	\$ 31,076	\$ 124,296	\$ 9,035	\$ 3,625
Nonperforming	2,937	179	283	36	1
Total	\$ 152,598	\$ 31,255	\$ 124,579	\$ 9,071	\$ 3,626

Interest-Rate Swaps:

The Company uses a program that utilizes interest-rate swaps as part of its asset/liability management strategy. The interest-rate swaps are used to help manage the Company's interest rate risk position and not as derivatives for trading purposes. The notional amount of

the interest-rate swaps does not represent amounts exchanged by the parties. The amount exchanged is determined by reference to the notional amount and the other terms of the individual interest-rate swap agreements.

The objective of the interest-rate swaps is to protect the related fixed rate commercial real estate loans from changes in fair value due to changes in interest rates. The Company has a program whereby it lends to its borrowers at a fixed rate with the loan agreement containing a two-way yield maintenance provision, which will be invoked in the event of prepayment of the loan, and is expected to exactly offset the fair value of unwinding the swap. The yield maintenance provision represents an embedded derivative which is bifurcated from the host loan contract and, as such, the swaps and embedded derivatives are not designated as hedges. Accordingly, both instruments are carried at fair value and changes in fair value are reported in current period earnings.

Summary information about these interest-rate swaps at periods ended March 31, 2015 and December 31, 2014 is as follows:

	March 31, 2015		December 31, 2014	
Notional amounts (In thousands)	\$33,292		\$31,459	
Weighted average pay rate on interest-rate swaps	4.27	%	4.26	%
Weighted average receive rate on interest-rate swaps	2.65	%	2.67	%
Weighted average maturity (years)	6.0		5.9	
Fair value of combined interest-rate swaps (In thousands)	\$1,012		\$638	

The fair value of the yield maintenance provisions and interest-rate swaps is recorded in other assets and other liabilities, respectively, in the consolidated balance sheets. Changes in the fair value of the yield maintenance provisions and interest-rate swaps are reported in earnings, as other noninterest income in the consolidated statements of income. For the three month periods ended March 31, 2015 and 2014 there were no net gains or losses recognized in earnings.

Earnings Per Share:

The computation of basic and diluted earnings per share is shown in the following table:

	Three Months Ended March 31, 2015		2014	
Basic EPS				
Net income (In thousands)	\$2,211		\$2,191	
Weighted average shares outstanding	18,427,901		18,779,091	
Basic earnings per share	\$0.12		\$0.12	
Diluted EPS				
Net income (In thousands)	\$2,211		\$2,191	
Weighted average shares out-standing for basic	18,427,901		18,779,091	

earnings per share		
Dilutive effect of restricted stock awards	1,408	0
Weighted average shares for diluted earnings per share	18,429,309	18,779,091
Diluted earnings per share	\$0.12	\$0.12

There were no restricted stock awards that were considered anti-dilutive for the three month periods ended March 31, 2015 or 2014.

Stock Based Compensation:

During 2012, the Company, with the approval of shareholders, created the 2012 Equity Incentive Plan (the “Plan”). The Plan permits the award of up to 500 thousand shares to the Company’s directors and employees to promote the Company’s long-term financial success by motivating performance through long-term incentive compensation and to better align the interests of its employees with those of its shareholders. There were 80,918 additional net shares awarded under the Plan during February 2015. Expense recognized for the Plan was \$58 thousand for the three month period ended March 31, 2015. As of March 31, 2015, there was \$803 thousand of total unrecognized compensation expense related to the nonvested shares granted under the Plan. The remaining cost is expected to be recognized over 2.9 years. There were 46,957 shares awarded and \$29 thousand of expense recognized for the Plan for the three month period ended March 31, 2014.

The following is the activity under the Plan during the three months ended March 31, 2015:

	Restricted Stock	
	Units	Weighted Average
		Grant Date Fair
	Units	Value
Nonvested at January 1, 2015	46,957	\$ 7.39
Granted	85,918	7.88
Vested	0	0
Forfeited	(5,000)	7.88
Nonvested at March 31, 2015	127,875	\$ 7.70

Other Comprehensive Income:

The following table represents the detail of other comprehensive income for the three month periods ended March 31, 2015 and 2014.

(In Thousands of Dollars)	Three Months Ended March 31, 2015		
	Pre-tax	Tax	After-Tax
Unrealized holding gains on available-for-sale securities during the period	\$2,310	\$(808)	\$ 1,502
Reclassification adjustment for (gains) losses included in net income (1)	(10)	2	(8)
Net unrealized gains on available-for-sale securities	\$2,300	\$(806)	\$ 1,494

(In Thousands of Dollars)	Three Months Ended March 31, 2014		
	Pre-tax	Tax	After-Tax
Unrealized holding losses on available-for-sale securities during the period	\$4,087	\$(1,432)	\$ 2,655
Reclassification adjustment for (gains) losses included in net income (1)	0	0	0
Net unrealized losses on available-for-sale securities	\$4,087	\$(1,432)	\$ 2,655

(1) Pre-tax reclassification adjustments relating to available-for-sale securities are reported in security gains and the tax impact is included in income tax expense on the consolidated statements of income.

Regulatory Capital Matters

Banks and bank holding companies are subject to various regulatory capital requirements administered by the federal banking agencies. Capital adequacy guidelines and, additionally for banks, prompt corrective action regulations, involve quantitative measures of assets, liabilities, and certain off-balance sheet items calculated under regulatory accounting practices. Capital amounts and classifications are also subject to qualitative judgments by regulators. Failure to meet capital requirements can initiate regulatory action by regulators that, if undertaken, could have a direct material effect on the financial statements. Management believes as of March 31, 2015, the Company and Bank meet all capital adequacy requirements to which they are subject.

Prompt corrective action regulations provide five classifications: well capitalized, adequately capitalized, undercapitalized, significantly undercapitalized, and critically undercapitalized, although these terms are not used to represent overall financial condition. If only adequately capitalized, regulatory approval is required to accept brokered deposits. If undercapitalized, capital distributions are limited, as is asset growth and expansion, and capital restoration plans are required. At March 31, 2015 and December 31, 2014, the most recent regulatory notifications categorized the Bank as well capitalized under the regulatory framework for prompt corrective action. There are no conditions or events since that notification that management believes have changed the institution's category.

Edgar Filing: FARMERS NATIONAL BANC CORP /OH/ - Form 10-Q

Bank	106,689	9.37 %	45,565	4.00 %	56,956	5.00 %

Fair Value:

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1 – Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2 – Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Significant unobservable inputs that reflect a reporting entity’s own assumptions about the assumptions that market participants would use in pricing an asset or liability.

18

The Company used the following methods and significant assumptions to estimate the fair value of each type of financial instrument:

Investment Securities: The Company uses a third party service to estimate fair value on available for sale securities on a monthly basis. This service provider is considered a leading evaluation pricing service for U.S. domestic fixed income securities. They subscribe to multiple third-party pricing vendors, and supplement that information with matrix pricing methods. The fair values for investment securities are determined by quoted market prices in active markets, if available (Level 1). For securities where quoted prices are not available, fair values are calculated based on quoted prices for similar assets in active markets, quoted prices for similar assets in markets that are not active or inputs other than quoted prices, which provide a reasonable basis for fair value determination. Such inputs may include interest rates and yield curves, volatilities, prepayment speeds, credit risks and default rates. Inputs used are derived principally from observable market data (Level 2). For securities where quoted prices or market prices of similar securities are not available, fair values are calculated using discounted cash flows or other market indicators (Level 3). The fair values of Level 3 investment securities are determined by using unobservable inputs to measure fair value of assets for which there is little, if any market activity at the measurement date, using reasonable inputs and assumptions based on the best information at the time, to the extent that inputs are available without undue cost and effort. For the period ended March 31, 2015 and for the year ended December 31, 2014, the fair value of Level 3 investment securities was immaterial.

Derivative Instruments: The fair values of derivative instruments are based on valuation models using observable market data as of the measurement date (Level 2).

Impaired Loans: At the time loans are considered impaired, collateral dependent impaired loans are valued at the lower of cost or fair value and non-collateral dependent loans are valued based on discounted cash flows. Impaired loans carried at fair value generally receive specific allocations of the allowance for loan losses. For collateral dependent loans fair value is commonly based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value. Non-real estate collateral may be valued using an appraisal, net book value per the borrower's financial statements, or aging reports, adjusted or discounted based on management's historical knowledge, changes in market conditions from the time of the valuation, and management's expertise and knowledge of the client and client's business, resulting in a Level 3 fair value classification. Impaired loans are evaluated on a quarterly basis for additional impairment and adjusted accordingly.

Other Real Estate Owned: Assets acquired through or instead of loan foreclosure are initially recorded at fair value less costs to sell when acquired, establishing a new cost basis. These assets are subsequently accounted for at lower of cost or fair value less estimated costs to sell. Fair values are commonly based on recent real estate appraisals. These appraisals may use a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value.

Appraisals for both collateral-dependent impaired loans and other real estate owned are performed by certified general appraisers (for commercial and commercial real estate properties) or certified residential appraisers (for residential properties) whose qualifications and licenses have been reviewed and verified by the Company. Once received, a member of the Appraisal Department reviews the assumptions and approaches utilized in the appraisal as well as the overall resulting fair value in comparison with independent data sources such as recent market data or industry-wide statistics. On an annual basis, the Company compares the actual selling price of collateral that has been sold to the most recent appraised value to determine what adjustments should be made to appraisals to arrive at fair value.

Edgar Filing: FARMERS NATIONAL BANC CORP /OH/ - Form 10-Q

Assets measured at fair value on a recurring basis, including financial assets for which the Company has elected the fair value option, are summarized below:

(In Thousands of Dollars)	Fair Value Measurements at March 31, 2015 Using:

Commercial	\$ 807	\$ 0	\$ 0	\$ 807
1-4 family residential	63	0	0	63
Other real estate owned				
Commercial real estate	45	0	0	45

Impaired loans that are measured for impairment using the fair value of the collateral for collateral dependent loans, had a principal balance of \$451 thousand with a valuation allowance of \$42 thousand at March 31, 2015, resulting in an additional provision for loan losses of \$215 thousand for the three month period. At December 31, 2014, impaired loans had a principal balance of \$988 thousand, with a valuation allowance of \$117 thousand. Loans measured at fair value during the three months ended March 31, 2014 resulted in no additional provision for loan losses. Excluded from the fair value of impaired loans, at March 31, 2015 and December 31, 2014, discussed above are \$4.1 million and \$4.2 million of loans classified as troubled debt restructurings and measured using the present value of cash flows,

which are not carried at fair value.

Impaired commercial real estate loans, both owner occupied and non-owner occupied are valued by independent external appraisals. These external appraisals are prepared using the sales comparison approach and income approach valuation techniques. Management makes subsequent unobservable adjustments to the impaired loan appraisals. Impaired loans other than commercial real estate and other real estate owned are not considered material.

The following table presents quantitative information about Level 3 fair value measurements for financial instruments measured at fair value on a non-recurring basis at period ended March 31, 2015 and December 31, 2014:

March 31, 2015	Fair value	Valuation Technique(s)	Unobservable Input(s)	Range (Weighted Average)
Impaired loans				
				-41.21%
Commercial real estate	\$ 668	Quoted price for loan relationship	Adjustment for differences between earning multiplier	(-41.21%)
Commercial	230	Quoted price for loan relationship	Adjustment for differences between earning multiplier	(-39.80%)
				-27.43% - 32.86%
Commercial	143	Sales comparison	Adjustment for differences between comparable sales	(23.48%)
				-26.81% - 28.82%
Residential	266	Sales comparison	Adjustment for differences between comparable sales	(9.45%)

	Fair value	Valuation Technique(s)	Unobservable Input(s)	Range (Weighted Average)
December 31, 2014				
Impaired loans				-27.43% - 32.86%
Commercial	\$ 807	Sales comparison	Adjustment for differences between comparable sales	(9.96%) -18.32% - 24.16%
Residential	63	Sales comparison	Adjustment for differences between comparable sales	(-14.02%) -12.86% - 11.97%
Other real estate owned	45	Sales comparison	Adjustment for differences between comparable sales	(-5.79%)

The carrying amounts and estimated fair values of financial instruments not previously disclosed at March 31, 2015 and December 31, 2014 are as follows:

Fair Value Measurements at March 31, 2015 Using:

(In Thousands of Dollars)	Carrying Amount	Level 1	Level 2	Level 3	Total
Financial assets					
Cash and cash equivalents	\$26,929	\$11,800	\$15,129	\$0	\$26,929

Short-term borrowings	59,136	0	59,136	0	59,136

Edgar Filing: FARMERS NATIONAL BANC CORP /OH/ - Form 10-Q

Long-term borrowings	28,381	0	28,837	0	28,837
Accrued interest payable	402	2	400	0	402

The methods and assumptions used to estimate fair value, not previously described, are described as follows:

Cash and Cash Equivalents: The carrying amounts of cash and short-term instruments approximate fair values and are classified as either Level 1 or Level 2. The Company has determined that cash on hand and non-interest bearing due from bank accounts are Level 1 whereas interest bearing federal funds sold and other are Level 2.

Restricted Stock: It is not practical to determine the fair value of restricted stock due to restrictions placed on its transferability.

Loans: Fair values of loans, excluding loans held for sale, are estimated as follows: For variable rate loans that repriced frequently and with no significant change in credit risk, fair values are based on carrying values resulting in a Level 3 classification. Fair values for other loans are estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers of similar credit quality resulting in a Level 3 classification. Impaired loans are valued at the lower of cost or fair value as described previously. The methods utilized to estimate the fair value of loans do not necessarily represent an exit price.

Loans held for sale: The fair value of loans held for sale is estimated based upon binding contracts and quotes from third party investors resulting in a Level 2 classification.

Accrued Interest Receivable/Payable: The carrying amounts of accrued interest receivable and payable approximate fair value resulting in a Level 1, Level 2 or Level 3 classification. The classification is the result of the association with securities, loans and deposits.

Deposits: The fair values disclosed for demand deposits – interest and non-interest checking, passbook savings, and money market accounts – are, by definition, equal to the amount payable on demand at the reporting date resulting in a Level 1 classification. The carrying amounts of variable rate certificates of deposit approximate their fair values at the reporting date resulting in a Level 2 classification. Fair value for fixed rate certificates of deposit are estimated using a discounted cash flows calculation that applies interest rates currently being offered on certificates to a schedule of aggregated expected monthly maturities on time deposits resulting in a Level 2 classification.

Short-term Borrowings: The carrying amounts of federal funds purchased, borrowings under repurchase agreements, and other short-term borrowings, generally maturing within ninety days, approximate their fair values resulting in a Level 2 classification.

Long-term Borrowings: The fair values of the Company's long-term borrowings are estimated using discounted cash flow analyses based on the current borrowing rates for similar types of borrowing arrangements resulting in a Level 2 classification.

Off-balance Sheet Instruments: The fair value of commitments is not considered material.

Segment Information:

The reportable segments are determined by the products and services offered, primarily distinguished between banking, trust and retirement consulting operations. They are also distinguished by the level of information provided to the chief operating decision makers in the Company, who use such information to review performance of various components of the business, which are then aggregated. Loans, investments, and deposits provide the revenues in the banking operation. All operations are domestic.

Significant segment totals are reconciled to the financial statements as follows:

	Trust	Bank	Retirement Consulting	Eliminations and Others	Consolidated Totals

The Bank segment includes Farmers National Insurance and Farmers of Canfield Investment Co.

Business Acquisitions:

On January 27, 2015, the Company announced that it had entered into an Agreement and Plan of Merger (the “Merger Agreement”) with National Bancshares Corporation (“National Bancshares”), the parent company of First National Bank of Orrville (“First National Bank”), pursuant to which National Bancshares will merge with and into the Company (the “Merger”). Promptly following consummation of the Merger, it is expected that First National Bank will merge with and into the Bank. At the completion of the Merger, First National Bank of Orrville branches will become branches of Farmers National Bank of Canfield. Pursuant to the Agreement, each shareholder of National Bancshares will be entitled to elect to receive either \$32.15 per share in cash or 4.034 shares of Farmers’ common stock, subject to an overall limitation of 80% of the shares of National Bancshares being exchanged for stock and 20% for cash. Based on Farmers’ volume weighted average stock price over the last 20 trading days of \$7.97, as of January 26, 2015, the transaction is valued at approximately \$74.0 million. The merger is expected to qualify as a tax-free reorganization for those shareholders electing to receive Farmers’ stock. The transaction is subject to receipt of National Bancshares’ shareholder approval, Farmers’ shareholder approval and customary regulatory approvals. The Company expects the transaction to close in the first half of 2015.

On July 1, 2013, the Company completed the acquisition of all outstanding stock of the retirement planning consultancy National Associates, Inc. (“NAI”) of Rocky River, Ohio. The transaction involved both cash and stock totaling \$4.4 million, including up to \$1.5 million of future cash payments contingent upon NAI meeting income performance targets based on growth in EBITDA. The measurement period is defined, in essence, as “the twelve month period ending on the second anniversary of the closing date.” Based upon the closing date of July 1, 2013, the payment is due within five business days of final determination of the amount of the payment based upon EBITDA from August 1, 2014, to July 31, 2015. The payment is tiered as follows:

- i) If the calculated growth percentage of EBITDA is equal to or less than the base percentage (6.00%), the payment will be \$0;
- ii) If the calculated growth percentage of EBITDA is greater than or equal to the maximum percentage (12.00%), the payment will be \$1.5 million; and
- iii) If the calculated growth percentage of EBITDA is between the base and maximum percentages, a factor of the growth is interpolated and multiplied by the maximum \$1.5 million payment.

The acquisition-date fair value of contingent consideration was estimated to be \$920,000 and was recorded in other liabilities on the consolidated balance sheet. In the third quarter of 2014, management determined it was no longer probable that amount would be paid and reduced the liability through a reduction of other expense by \$764,000, the same amount as goodwill impairment expense recorded in the same line. As a result, the liability for contingent consideration included in other liabilities totaled \$156,000 at March 31, 2015 and December 31, 2014. The contingent consideration and related liability will be settled in the third quarter of 2015.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward Looking Statements

Discussions in this report that are not statements of historical fact (including statements that include terms such as "will," "may," "should," "believe," "expect," "anticipate," "estimate," "project," "intend," and "plan") are forward-looking statements and involve risks and uncertainties. Any forward-looking statement is not a guarantee of future performance and actual future results could differ materially from those contained in forward-looking information. Factors that could cause or contribute to such differences include, without limitation, risks and uncertainties detailed from time to time in the Company's filings with the Securities and Exchange

Commission (the “Commission”), including without limitation, the risk factors disclosed in Item 1A, “Risk Factors,” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2014.

Many of these factors are beyond the Company’s ability to control or predict, and readers are cautioned not to put undue reliance on those forward-looking statements. The following list, which is not intended to be an all-encompassing list of risks and uncertainties affecting the Company, summarizes several factors that could cause the Company’s actual results to differ materially from those anticipated or expected in these forward-looking statements:

- general economic conditions in market areas where we conduct business, which could materially impact credit quality trends;
- business conditions in the banking industry;
- the regulatory environment;
- fluctuations in interest rates;
- demand for loans in the market areas where we conduct business;
- rapidly changing technology and evolving banking industry standards;
- competitive factors, including increased competition with regional and national financial institutions;
- new service and product offerings by competitors and price pressures; and other like items.

Other factors not currently anticipated may also materially and adversely affect the Company’s results of operations, cash flows and financial position. There can be no assurance that future results will meet expectations. While the Company believes that the forward-looking statements in this report are reasonable, the reader should not place undue reliance on any forward-looking statement. In addition, these statements speak only as of the date made. The Company does not undertake, and expressly disclaims, any obligation to update or alter any statements whether as a result of new information, future events or otherwise, except as may be required by applicable law.

Overview

Net income for the three months ended March 31, 2015 was \$2.2 million, compared to \$2.2 million for the same period last year. On a per share basis, net income for the first quarter ended March 31, 2015 and 2014 was \$0.12 per diluted share.

Total gross loans were \$673.8 million at March 31, 2015, compared to \$663.9 million at December 31, 2014. This represents an increase of 1.5%. The increase in loans is a direct result of the Company’s focus on loan growth utilizing a talented lending and credit team while adhering to a sound underwriting discipline. Most of the increase in loans has occurred in the commercial real estate, commercial and industrial and residential real estate loan portfolios. Loans comprised 62.5% of the Bank's average earning assets at March 31, 2015, an improvement compared to 58.2% at March 31, 2014. This improvement has resulted in a 2.8% increase in tax equated loan income from the first quarter of 2014 to the same quarter in 2015. Non-performing assets to total assets remain at a safe level, currently at 0.71%. Early stage delinquencies also continue to remain at manageable levels, at \$4.3 million or 0.64% of total loans at March 31, 2015.

Deposits decreased \$6.3 million, from \$915.7 million at December 31, 2014 to \$909.4 million at March 31, 2015, as customers begin to move some cash into other investment options. At March 31, 2015, core deposits – savings and money market accounts, time deposits less than \$100 thousand, demand deposits and interest bearing demand deposits – represented approximately 91.5% of total deposits.

Edgar Filing: FARMERS NATIONAL BANC CORP /OH/ - Form 10-Q

Stockholders' equity totaled \$126.8 million, or 11.2% of total assets, at March 31, 2015, an increase of \$3.2 million, or 2.6%, compared to \$123.6 million at December 31, 2014. Contributing to the increase is a \$1.5 million, net of tax, improvement in the mark to market adjustment in the securities available for sale portfolio due to the changing long-term interest rate market and a \$1.7 million increase in retained net income. Shareholders received a total of \$0.12 per share in dividends over the past four quarters. Book value per share increased from \$6.71 per share at December 31, 2014 to \$6.89 per share at March 31, 2015. The Company's tangible book value per share also increased from \$6.23 per share at December 31, 2014 to \$6.42 per share at March 31, 2015. The increases in book value and tangible book value per share were also the result of the mark to market adjustments, net of tax, in the securities available for sale portfolio and the increases to retained earnings from profit retention.

Results of Operations

The following is a comparison of selected financial ratios and other results at or for the three months ended March 31, 2015 and 2014:

(In Thousands, except Per Share Data)	At or for the Three Months		
	Ended March 31,		
	2015	2014	
Total Assets	\$1,133,651	\$1,141,000	
Net Income	\$2,211	\$2,191	
Basic and Diluted Earnings Per Share	\$0.12	\$0.12	
Return on Average Assets (Annualized)	0.79	%	0.78 %
Return on Average Equity (Annualized)	7.14	%	7.65 %
Efficiency Ratio (tax equivalent basis)	70.71	%	69.87 %
Equity to Asset Ratio	11.18	%	10.28 %
Tangible Common Equity Ratio *	10.50	%	9.48 %
Dividends to Net Income	24.97	%	25.70 %
Net Loans to Assets	58.75	%	54.23 %
Loans to Deposits	74.09	%	67.84 %

*The tangible common equity ratio is calculated by dividing total common stockholders' equity by total assets, after reducing both amounts by intangible assets. The tangible common equity ratio is not required by U.S. GAAP or by applicable bank regulatory requirements, but is a metric used by management to evaluate the adequacy of the Company's capital levels. Since there is no authoritative requirement to calculate the tangible common equity ratio, the Company's tangible common equity ratio is not necessarily comparable to similar capital measures disclosed or used by other companies in the financial services industry. Tangible common equity and tangible assets are non-U.S. GAAP financial measures and should be considered in addition to, not as a substitute for or superior to, financial measures determined in accordance with U.S. GAAP. With respect to the calculation of the actual unaudited tangible common equity ratio as of March 31, 2015 and 2014, reconciliations of tangible common equity to U.S. GAAP total common stockholders' equity and tangible assets to U.S. GAAP total assets are set forth below:

(In Thousands of Dollars)	March 31, 2015	December 31, 2014	March 31, 2014
Reconciliation of Common Stockholders' Equity to Tangible Common Equity			

Edgar Filing: FARMERS NATIONAL BANC CORP /OH/ - Form 10-Q

Stockholders' Equity	\$126,771	\$123,560	\$117,323
Less Goodwill and Other Intangibles	8,646	8,813	10,151
Tangible Common Equity	\$118,125	\$114,747	\$107,172

(In Thousands of Dollars)	March 31, 2015	December 31, 2014	March 31, 2014
Reconciliation of Total Assets to Tangible Assets			
Total Assets	\$1,133,651	\$1,136,967	\$1,141,000
Less Goodwill and Other Intangibles	8,646	8,813	10,151
Tangible Assets	\$1,125,005	\$1,128,154	\$1,130,849

Edgar Filing: FARMERS NATIONAL BANC CORP /OH/ - Form 10-Q

Net Interest Income. The following schedule details the various components of net interest income for the periods indicated. All asset yields are calculated on a tax-equivalent basis where applicable. Security yields are based on amortized cost.

Net interest income and interest rate spread	\$ 9,451	3.52 %	\$ 9,318	3.46 %
Net interest margin		3.64 %		3.56 %

(1) Rates are calculated on an annualized basis.

(2) Equity securities include restricted stock, which is included in other assets on the consolidated balance sheets.

(3) Non-accrual loans and overdraft deposits are included in other assets.

(4) Includes unamortized discounts and premiums. Average balance and yield are computed using the average historical amortized cost.

(5) Interest on loans includes fee income of \$533 thousand and \$593 thousand for 2015 and 2014, respectively, and is reduced by amortization of \$536 thousand and \$522 thousand for 2015 and 2014, respectively.

(6) For 2015, adjustments of \$135 thousand and \$324 thousand, respectively, are made to tax equate income on tax exempt loans and tax exempt securities. For 2014, adjustments of \$120 thousand and \$342 thousand, respectively, are made to tax equate income on tax exempt loans and tax exempt securities. These adjustments are based on a marginal federal income tax rate of 35%, less disallowances.

27

Net Interest Income. Net interest income was \$9.0 million for the first quarter of 2015 compared to \$8.9 million for the same period in 2014. The net interest margin to average earning assets on a fully taxable equivalent basis increased 8 basis points to 3.64% for the three months ended March 31, 2015, compared to 3.56% for the same three month period in the prior year. In comparing the quarters ended March 31, 2015 and 2014, yields on earning assets decreased 1 basis point, while the cost of interest bearing liabilities decreased 7 basis points. The increase in net interest margin was mainly a result of time deposits with higher interest rates maturing and then being moved to products with lower interest rates.

Noninterest Income. Noninterest income was \$4.0 million for the first quarter of 2015, increasing 17.6% from \$3.4 million in the same quarter of 2014. The largest driver of the increase was Trust fees income which increased \$150 thousand or 10% and retirement plan consulting fees also increased \$140 thousand or 38.5% in the current year's quarter compared to the same quarter in 2014. Investment commissions also increased \$104 thousand or 54% in comparing the same two quarters. Trust fees and investment commissions increased as a result of the increasing value of trust and investment assets under management. Assets under management increased due to the addition of new clients and the continued growth in the equity markets. Retirement plan consulting fees increased as a result of additional consulting work performed during the first quarter of 2015.

Noninterest Expense. Noninterest expense totaled \$9.8 million for the first quarter of 2015, which was \$610 thousand more than the \$9.1 million during the same quarter in 2014. The increase is primarily the result of an increase of \$520 thousand in salaries and employee benefits during the current quarter compared to the same quarter in 2014. There was also \$245 thousand of merger related costs associated with the pending acquisition of NBOH, as described in a previous footnote, during the quarter ended March 31, 2015 compared to none in the quarter ended March 31, 2014.

The Company's tax equivalent efficiency ratio for the three month period ended March 31, 2015 was 70.7% compared to 69.9% for the same period in 2014. The slight negative change in the efficiency ratio was the result of the \$610 thousand increase in noninterest expenses offset by the \$604 thousand increase in noninterest income as explained in previous paragraphs. Management has continued to focus on increasing the levels of noninterest income and reducing the level of noninterest expenses.

Income Taxes. Income tax expense totaled \$617 thousand for the quarter ended March 31, 2015 and \$627 thousand for the quarter ended March 31, 2014. As discussed in previous paragraphs the increase in noninterest income nearly offset the increase in noninterest expense between the first quarter periods of 2015 and 2014. The effective tax rate for the three month period ended March 31, 2015 was 21.9% which nearly equaled the effective tax rate of 22.2% for the same period in 2014.

Other Comprehensive Income. For the quarter ended March 31, 2015, the change in net unrealized gains on securities, net of reclassifications, resulted in an unrealized gain, net of tax, of \$1.5 million, compared to an unrealized gain of \$2.7 million for the same period in 2014. The increase in fair value for the three month period ended March 31, 2015 compared to 2014 is the result of market interest rate fluctuations.

Financial Condition

Cash and Cash Equivalents. Cash and cash equivalents decreased \$499 thousand during the first three months of 2015. The Company expects these levels to remain steady over the next few months.

Securities. Securities available-for-sale decreased by \$19.9 million since December 31, 2014. The Company used proceeds from both maturing securities and sales of securities to fund repayment of Federal Home Loan Bank advances, to fund increases in the loan portfolio and to purchase additional bank owned life insurance.

Loans. Gross loans increased \$9.9 million since December 31, 2014. Most of the increase occurred in the commercial real estate, commercial and industrial and residential real estate loan portfolios. The increase in loan balances was

enough to overcome the low interest rate environment and help the current quarter's tax equated loan income improve by \$215 thousand compared to the first quarter of 2014. On a fully tax equivalent basis, loans contributed \$7.8 million of total interest income during the three month period ended March 31, 2015 compared to \$7.6 million for the same period in 2014.

28

Allowance for Loan Losses. The following table indicates key asset quality ratios that management evaluates on an ongoing basis. The unpaid principal balance of non-performing loans and non-performing assets was used in the calculation of amounts and ratios on the table below for quarters prior to the current quarter ended March 31, 2015. For the current quarter, recorded investment amounts were used in the calculations.

Asset Quality History

(In Thousands of Dollars)

	3/31/2015	12/31/2014	9/30/2014	6/30/2014	3/31/2014
Nonperforming loans	\$ 7,939	\$ 8,481	\$ 7,218	\$ 8,140	\$ 8,494
Nonperforming loans as a % of total loans	1.18 %	1.28 %	1.12 %	1.28 %	1.36 %
Loans delinquent 30-89 days	\$ 4,344	\$ 5,426	\$ 4,938	\$ 3,460	\$ 2,473
Loans delinquent 30-89 days as a % of total loans	0.64 %	0.82 %	0.76 %	0.54 %	0.39 %
Allowance for loan losses	\$ 7,723	\$ 7,632	\$ 7,333	\$ 7,356	\$ 7,387
Allowance for loan losses as a % of loans	1.15 %	1.15 %	1.13 %	1.15 %	1.18 %
Allowance for loan losses as a % of nonperforming loans	97.28 %	89.99 %	101.58 %	90.37 %	86.97 %
Annualized net charge-offs to average net loans					
outstanding	0.22 %	0.33 %	0.28 %	0.21 %	0.34 %
Non-performing assets	\$ 8,083	\$ 8,629	\$ 7,600	\$ 8,492	\$ 8,668
Non-performing assets as a % of total assets	0.71 %	0.76 %	0.67 %	0.75 %	0.76 %
Net charge-offs for the quarter	\$ 359	\$ 526	\$ 448	\$ 331	\$ 511

For the three months ended March 31, 2015, management recorded a \$450 thousand provision for loan losses, compared to providing \$330 thousand over the same three month period in the prior year. The larger provision recorded for the three month period ended March 31, 2015 was primarily a result of the loan portfolio's growth. The increase in the allowance for loan losses was consistent with the percentage of growth in total loans for the three month period ended March 31, 2015 as compared to the same period in 2014. As a result, the ratio of allowance for loan losses to gross loans remained relatively constant at 1.15% at March 31, 2015 and 1.18% at March 31, 2014. Non-performing loans as a percentage of total loans decreased from 1.3% at December 31, 2014 to 1.2% at March 31, 2015. With the reduction in non-performing loans the Company was able to increase the percentage of the allowance for loan losses to non-performing loans from 90.0% at December 31, 2014 to 97.3% at March 31, 2015. Also, loans 30-89 days delinquent decreased \$1.1 million from \$5.4 million at December 31, 2014 to \$4.3 million at March 31, 2015.

Based on the evaluation of the adequacy of the allowance for loan losses, management believes that the allowance for loan losses at March 31, 2015 is adequate and reflects probable incurred losses in the portfolio. The provision for loan losses is based on management's judgment after taking into consideration all factors connected with the collectability of the existing loan portfolio. Management evaluates the loan portfolio in light of economic conditions, changes in the nature and volume of the loan portfolio, industry standards and other relevant factors. Specific factors considered by management in determining the amounts charged to operating expenses include previous credit loss experience, the status of past due interest and principal payments, the quality of financial information supplied by loan customers and

the general condition of the industries in the community to which loans have been made.

Deposits. Total deposits decreased \$6.3 million from \$915.7 million at December 31, 2014 to \$909.4 million at March 31, 2015. The decline in deposits is cyclical and may be considered normal during the first three months of the year. Time deposits decreased \$9.9 million and were partially offset by an increase in interest bearing demand deposits of \$3.6 million during the first three month period of 2015. The Company's strategy is to maintain deposit balances while pricing deposit rates to remain competitive within the market. At March 31, 2015, core deposits, which include, savings and money market accounts, time deposits less than \$100 thousand, demand deposits and interest bearing demand deposits represented approximately 91.5% of total deposits.

Borrowings. Total borrowings decreased \$7.2 million, or 8.2%, since December 31, 2014. The decrease in borrowings is the result of the Company repaying \$10.3 million in Federal Home Loan Bank advances during the three month period ended March 31, 2015. The decrease in FHLB advances was offset by a \$3.1 million increase in securities sold under repurchase agreements during that same three month period.

Capital Resources. Total stockholders' equity increased to \$126.8 million, or 11.2% of total assets, at March 31, 2015, an increase of \$3.2 million, compared to \$123.6 million at December 31, 2014. Contributing to the increase is \$1.5 million improvement in the mark to market adjustment to the securities available for sale portfolio due to changing long-term interest rates during the period and a \$1.7 million increase in retained net income. Shareholders have received \$0.03 per share in cash dividends each quarter over the last four quarters. Book value per share increased from \$6.71 per share at December 31, 2014 to \$6.89 per share at March 31, 2015. The

Company's tangible book value per share also increased from \$6.23 per share at December 31, 2014 to \$6.42 per share at March 31, 2015. The increases in book value and tangible book value per share were also the result of the mark to market adjustments to the securities available for sale portfolio and the increases to retained earnings from profit retention.

The capital management function is a regular process that consists of providing capital for both the current financial position and the anticipated future growth of the Company. New minimum capital requirements associated with the Basel Committee on capital and liquidity regulation (Basel III) and are being phased in beginning on January 1, 2015 through January 1, 2019. At March 31, 2015 the Company is required to maintain 4.5% common equity tier 1 to risk weighted assets. As of March 31, 2015 the Company's common equity tier 1 to risk weighted assets was 15.03%, total risk-based capital ratio stood at 16.02%, and the Tier I risk-based capital ratio and Tier I leverage ratio were at 15.03% and 10.44%, respectively. Management believes that the Company and the Bank meet all capital adequacy requirements to which they are subject, as of March 31, 2015.

Critical Accounting Policies

The Company follows financial accounting and reporting policies that are in accordance with U.S. GAAP. These policies are presented in Note 1 of the consolidated audited financial statements in the Company's Annual Report to Shareholders included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014. Critical accounting policies are those policies that require management's most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. The Company has identified two accounting policies that are critical accounting policies and an understanding of these policies is necessary to understand the Company's financial statements. These policies relate to determining the adequacy of the allowance for loan losses and other-than-temporary impairment of securities. Additional information regarding these policies is included in the notes to the aforementioned 2014 consolidated financial statements, Note 1 (Summary of Significant Accounting Policies), Note 2 (Securities), Note 3 (Loans), and the sections captioned "Investment Securities" and "Loan Portfolio."

Management believes that the accounting for goodwill and other intangible assets also involves a higher degree of judgment than most other significant accounting policies. U.S. GAAP establishes standards for the amortization of acquired intangible assets and the impairment assessment of goodwill. Goodwill arising from business combinations represents the value attributable to unidentifiable intangible assets in the business acquired. The Company's goodwill relates to the value inherent in the banking industry and that value is dependent upon the ability of the Company's trust and NAI subsidiaries to provide quality, cost-effective services in a competitive marketplace. The goodwill value is supported by revenue that is in part driven by the volume of business transacted. A decrease in earnings resulting from a decline in the customer base or the inability to deliver cost-effective services over sustained periods can lead to impairment of goodwill that could adversely impact earnings in future periods. U.S. GAAP requires an annual evaluation of goodwill for impairment, or more frequently if events or changes in circumstances indicate that the asset might be impaired. The fair value of the goodwill, which resides on the books of the Trust and NAI, is estimated by reviewing the past and projected operating results for the subsidiaries and comparable industry information.

Liquidity

The Company maintains, in the opinion of management, liquidity sufficient to satisfy depositors' requirements and meet the credit needs of customers. The Company depends on its ability to maintain its market share of deposits as well as acquiring new funds. The Company's ability to attract deposits and borrow funds depends in large measure on its profitability, capitalization and overall financial condition. The Company's objective in liquidity management is to maintain the ability to meet loan commitments, purchase securities or to repay deposits and other liabilities in accordance with their terms without an adverse impact on current or future earnings. Principal sources of liquidity for the Company include assets considered relatively liquid, such as federal funds sold, cash and due from banks, as well as cash flows from maturities and repayments of loans, and securities.

Along with its liquid assets, the Bank has additional sources of liquidity available which help to ensure that adequate funds are available as needed. These other sources include, but are not limited to, loan repayments, the ability to obtain deposits through the adjustment of interest rates and the purchasing of federal funds and borrowings on approved lines of credit at major domestic banks. At March 31, 2015, these lines of credit totaled \$25.0 million of which the Bank had not borrowed against these lines. In addition, the Company has two revolving lines of credit with correspondent banks totaling \$6.5 million. The outstanding balance at March 31, 2015 was \$350 thousand. Management feels that its liquidity position is adequate and continues to monitor the position on a monthly basis. As of March 31, 2015, the Bank had outstanding balances with the Federal Home Loan Bank of Cincinnati ("FHLB") of \$18.1 million with additional borrowing capacity of approximately \$95.2 million with the FHLB as well as access to the Federal Reserve Discount Window, which provides an additional source of funds. The Bank views its membership in the FHLB as a solid source of liquidity.

The primary investing activities of the Company are originating loans and purchasing securities. During the first three months of 2015, net cash provided by investing activities amounted to \$12.7 million, compared to \$2.8 million provided in the same period in 2014. Proceeds from maturities and repayments of securities available for sale were up to \$11.4 million from \$10.3 million during the first three months of 2014. Proceeds from sales of securities available for sale amounted to \$40.9 million provided during the first three

months of 2015 compared to \$9 thousand provided during the same period in 2014. Cash used to purchase investment securities totaled \$23.2 million during the three month period ended March 31, 2015 compared to \$11.0 million used during the same period in 2014. There was \$10.4 million used by net loan originations and payments during the first quarter of 2015 compared to the \$4.0 million provided during the same period in 2014. The cash used by lending activities during this quarter can be attributed to the positive activity in the consumer real estate and commercial loan portfolios. The Company also used \$6.0 million to purchase additional bank owned life insurance during the first three months of 2015 compared to none in the first three months of 2014.

The primary financing activities of the Company are obtaining deposits, repurchase agreements and other borrowings. Net cash used in financing activities amounted to \$14.0 million for the first three months of 2015, compared to \$1.3 million used in financing activities for the same period in 2014. This increase in cash used can be attributed to the change in net change in short-term borrowings, deposits and FHLB advance borrowings. During the three month period ended March 31, 2015 cash provided by short-term borrowings was \$3.1 million compared to \$8.4 million used during the same period in 2014. Deposits used \$6.3 million during the first quarter of 2015 compared to \$7.8 million provided in the same quarter in 2014. There was also \$25 million used to repay FHLB advances and \$15 million provided by additional FHLB borrowings during the first three months of 2015 compared to none in 2014.

Off-Balance Sheet Arrangements

In the normal course of business, to meet the financial needs of our customers, we are a party to financial instruments with off-balance sheet risk. These financial instruments generally include commitments to originate mortgage, commercial and consumer loans, and involve to varying degrees, elements of credit and interest rate risk in excess of amounts recognized in the Consolidated Balance Sheets. The Bank's maximum exposure to credit loss in the event of nonperformance by the borrower is represented by the contractual amount of those instruments. Because some commitments may expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The same credit policies are used in making commitments as are used for on-balance sheet instruments. Collateral is required in instances where deemed necessary. Undisbursed balances of loans closed include funds not disbursed but committed for construction projects. Unused lines of credit include funds not disbursed, but committed for, home equity, commercial and consumer lines of credit. Financial standby letters of credit are conditional commitments issued to guarantee the performance of a customer to a third party. Those guarantees are primarily used to support public and private borrowing arrangements. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. Total unused commitments were \$138.2 million at March 30, 2015 and \$150.0 at December 31, 2014. Additionally, the Company has committed up to a \$3 million subscription in a Small Business Investment Company fund (SBIC). At March 31, 2015 the Company had invested \$1.8 million in this fund.

Recent Market and Regulatory Developments

In response to the current national and international economic recession, and in an effort to stabilize and strengthen the financial markets and banking industries, the United States Congress and governmental agencies have taken a number of significant actions over the past several years, including the passage of legislation and the implementation of a number of programs. The most recent of these actions was the passage into law, on July 21, 2010, of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act"). The Dodd-Frank Act is the most comprehensive change to banking laws and the financial regulatory environment since the Great Depression of the 1930s. The Dodd-Frank Act affects almost every aspect of the nation's financial services industry and mandates change in several key areas, including regulation and compliance, securities regulation, executive compensation, regulation of derivatives, corporate governance, and consumer protection.

The extent to which the Dodd-Frank Act and initiatives thereunder will succeed in addressing the credit markets or otherwise result in an improvement in the national economy is uncertain. In addition, because many aspects of this legislation still remain subject to intensive agency rulemaking and subsequent public comment prior to

implementation, it is difficult to predict at this time the ultimate effect of the Dodd-Frank Act on the Company. It is likely, however, that the Company's expenses will increase as a result of new compliance requirements.

In July 2013, the Federal banking regulators approved a final rule to implement the revised capital adequacy standards of the Basel Committee on Banking Supervision, commonly called Basel III, and to address relevant provisions of the Dodd-Frank Act. The final rule strengthens the definition of regulatory capital, increases risk-based capital requirements, makes selected changes to the calculation of risk-weighted assets, and adjusts the prompt corrective action thresholds. Community banking organizations, such as the Company and the Bank, become subject to the new rule on January 1, 2015 and certain provisions of the new rule will be phased in over the period of 2015 through 2019.

The final rule:

- Permits banking organizations that had less than \$15 billion in total consolidated assets as of December 31, 2009 to include in Tier 1 capital trust preferred securities and cumulative perpetual preferred stock that were issued and included in Tier 1 capital prior to May 19, 2010, subject to a limit of 25% of Tier 1 capital elements, excluding any non-qualifying capital instruments and after all regulatory capital deductions and adjustments have been applied to Tier 1 capital.
- Establishes new qualifying criteria for regulatory capital, including new limitations on the inclusion of deferred tax assets and mortgage servicing rights.
- Requires a minimum ratio of common equity Tier 1 capital to risk-weighted assets of 4.5%.
- Increases the minimum Tier 1 capital to risk-weighted assets ratio requirement from 4% to 6%.
- Retains the minimum total capital to risk-weighted assets ratio requirement of 8%.
- Establishes a minimum leverage ratio requirement of 4%.
- Retains the existing regulatory capital framework for 1-4 family residential mortgage exposures.
- Permits banking organizations that are not subject to the advanced approaches rule, such as the Company and the Bank, to retain, through a one-time election, the existing treatment for most accumulated other comprehensive income, such that unrealized gains and losses on securities available for sale will not affect regulatory capital amounts and ratios.
- Implements a new capital conservation buffer requirement for a banking organization to maintain a common equity capital ratio more than 2.5% above the minimum common equity Tier 1 capital, Tier 1 capital and total risk-based capital ratios in order to avoid limitations on capital distributions, including dividend payments, and certain discretionary bonus payments. The capital conservation buffer requirement will be phased in beginning on January 1, 2016 at 0.625% and will be fully phased in at 2.50% by January 1, 2019. A banking organization with a buffer of less than the required amount would be subject to increasingly stringent limitations on such distributions and payments as the buffer approaches zero. The new rule also generally prohibits a banking organization from making such distributions or payments during any quarter if its eligible retained income is negative and its capital conservation buffer ratio was 2.5% or less at the end of the previous quarter. The eligible retained income of a banking organization is defined as its net income for the four calendar quarters preceding the current calendar quarter, based on the organization's quarterly regulatory reports, net of any distributions and associated tax effects not already reflected in net income.
- Increases capital requirements for past-due loans, high volatility commercial real estate exposures, and certain short-term commitments and securitization exposures.
 - Expands the recognition of collateral and guarantors in determining risk-weighted assets.
- Removes references to credit ratings consistent with the Dodd Frank Act and establishes due diligence requirements for securitization exposures.

The Company's management is currently evaluating the provisions of the final rule and their expected impact on the Company.

Various legislation affecting financial institutions and the financial industry will likely continue to be introduced in Congress, and such legislation may further change banking statutes and the operating environment of the Company in substantial and unpredictable ways, and could increase or decrease the cost of doing business, limit or expand permissible activities or affect the competitive balance depending upon whether any of this potential legislation will be enacted, and if enacted, the effect that it or any implementing regulations, would have on the financial condition or results of operations of the Company or any of its subsidiaries. With the enactment of the Dodd-Frank Act, the nature and extent of future legislative and regulatory changes affecting financial institutions remains very unpredictable at this time.

Also, such statutes, regulations and policies are continually under review by Congress and state legislatures and federal and state regulatory agencies and are subject to change at any time, particularly in the current economic and regulatory environment. Any such change in statutes, regulations or regulatory policies applicable to the Company could have a material effect on the business of the Company.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company's ability to maximize net income is dependent, in part, on management's ability to plan and control net interest income through management of the pricing and mix of assets and liabilities. Because a large portion of assets and liabilities of the Company are monetary in nature, changes in interest rates and monetary or fiscal policy affect its financial condition and can have significant impact on the net income of the Company. Additionally, the Company's balance sheet is currently liability sensitive and in the low

32

interest rate environment that exists today, the Company's net interest margin should maintain current levels throughout the near future.

The Company considers the primary market exposure to be interest rate risk. Simulation analysis is used to monitor the Company's exposure to changes in interest rates, and the effect of the change to net interest income. The following table shows the effect on net interest income and the net present value of equity in the event of a sudden and sustained 300 basis point increase or 100 basis decrease in market interest rates:

Changes In Interest Rate (basis points)	March 31, 2015		December 31, 2014		ALCO Guidelines	
	Result		Result			
Net Interest Income Change						
+300	3.1	%	2.2	%	15	%
+200	2.6	%	1.9	%	10	%
+100	1.6	%	1.2	%	5	%
-100	-3.3	%	-4.0	%	5	%
Net Present Value Of Equity Change						
+300	-2.8	%	-4.6	%	20	%
+200	-0.1	%	-1.3	%	15	%
+100	1.6	%	0.8	%	10	%
-100	-9.1	%	-6.7	%	10	%

The results of the simulation indicate that in an environment where interest rates rise 100, 200 and 300 basis points or fall 100 basis points over a 12 month period, using March 31, 2015 amounts as a base case, and considering the increase in deposit liabilities, and the volatile financial markets. The results of this analysis comply with internal limits established by the Company. A report on interest rate risk is presented to the Board of Directors and the Asset/Liability Committee on a quarterly basis. The Company has no market risk sensitive instruments held for trading purposes, nor does it hold derivative financial instruments, and does not plan to purchase these instruments in the near future.

Item 4. Controls and Procedures

Based on their evaluation, as of the end of the period covered by this Quarterly Report on Form 10-Q, the Company's Chief Executive Officer and Chief Financial Officer have concluded the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934) are effective. There were no changes in the Company's internal controls over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during the fiscal quarter ended March 31, 2015, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

In the opinion of management there are no outstanding legal actions that will have a material adverse effect on the Company's financial condition or results of operations.

Item 1A. Risk Factors

There have been no material changes to the Company's risk factors from those disclosed in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2014.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Purchases of equity securities by the issuer.

On September 28, 2012, the Company announced that its Board of Directors approved a stock repurchase program that authorizes the repurchase of up to 920,000 shares of its outstanding common stock in the open market or in privately negotiated transactions. There were no shares purchased during the three month period ended March 31, 2015.

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

Not applicable.

Item 6. Exhibits

The following exhibits are filed or incorporated by reference as part of this report:
