#### **Basis of Presentation**

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared in accordance with United States Generally Accepted Accounting Principles ("GAAP") for interim financial information and in accordance with guidance provided by the Securities and Exchange Commission. Accordingly, the condensed financial statements do not include all of the information and footnotes required by GAAP for complete financial statements. The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements reflect all normal and recurring adjustments considered necessary for a fair presentation. Transactions between the subsidiaries have been eliminated. These condensed consolidated financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2015. Operating results for the three and nine months ended September 30, 2016 are not necessarily indicative of the results that may be expected for the year ending December 31, 2016.

The Company has four reportable segments consisting of Factoring, Banking, Asset Management, and Corporate. The Company's Chief Executive Officer uses segment results to make operating and strategic decisions.

Newly Issued, But Not Yet Effective Accounting Standards

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers" ("ASU 2014-09"), which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in GAAP when it becomes effective. The new standard was originally effective for the Company on January 1, 2017. However, in

August 2015 the FASB issued ASU No. 2015-14, "Revenue from Contracts with Customers – Deferral of the Effective Date" which deferred the mandatory effective date the new standard would take effect to reporting periods beginning after December 15, 2017, with early adoption allowed as of the original effective date for public companies. The standard permits the use of either the retrospective or cumulative effect transition method. The Company is evaluating the effect that ASU 2014-09 will have on its consolidated financial statements and related disclosures. The Company has not yet selected a transition method nor has it determined the effect of the standard on its ongoing financial reporting.

In January 2016, the FASB issued ASU No. 2016-01, "Financial Instruments – Overall: Recognition and Measurement of Financial Assets and Financial Liabilities" ("ASU 2016-01"). The guidance affects the accounting for equity investments, financial liabilities under the fair value option and the presentation and disclosure requirements of financial instruments. The guidance is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The Company is evaluating the effect that ASU 2016-01 will have on its consolidated financial statements and related disclosures.

In February 2016, the FASB issued ASU 2016-02, "Leases (Topic 842)" ("ASU 2016-02"). The FASB issued this ASU to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet by lessees for those leases classified as operating leases under current U.S. GAAP and disclosing key information about leasing arrangements. The amendments in this ASU are effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2018. Early application of this ASU is permitted for all entities. The Company is currently assessing the impact that the adoption of this standard will have on the financial condition and results of operations of the Company.

TRIUMPH BANCORP, INC. AND SUBSIDIARIES

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

In March 2016, the FASB issued ASU 2016-09, "Compensation – Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting" ("ASU 2016-09"). The FASB issued this ASU to improve the accounting for share-based payments. ASU 2016-09 simplifies several aspects of the accounting for share-based payment award transactions, including: the presentation of income tax consequences, classification of awards as either equity or liabilities, classification on the statement of cash flows, and calculation of diluted earnings per share. The amendments in this ASU are effective for fiscal years beginning after December 31, 2016, and interim periods within those years for public business entities. Early adoption is permitted in any interim or annual period provided that the entire ASU is adopted. Adoption of ASU 2016-09 is not expected to have a material impact on the Company's financial statements.

In June 2016, the FASB issued ASU 2016-13, "Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments" ("ASU 2016-13"). Among other things, ASU 2016-13 requires the measurement of all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. Financial institutions and other organizations will now use forward-looking information to better form their credit loss estimates. Many of the loss estimation techniques applied today will still be permitted, although the inputs to those techniques will change to reflect the full amount of expected credit losses. In addition, ASU 2016-13 amends the accounting for credit losses on available-for-sale debt securities and purchased financial assets with credit deterioration. The amendments in ASU 2016-13 are effective for fiscal years beginning after December 31, 2019, and interim periods within those years for public business entities that are SEC filers. Early adoption is permitted for fiscal years, and interim periods within those years, beginning after December 15, 2018. The Company is currently assessing the impact that the adoption of this standard will have on the financial condition and results of operations of the Company.

TARP Preferred Stock assumed	10,500
Consideration transferred	80,500
Goodwill	\$12,059

The consideration transferred was comprised of a combination of cash and the assumption of ColoEast's TARP Preferred Stock. The Company has recognized goodwill of \$12,059,000, which was calculated as the excess of both the consideration exchanged and liabilities assumed as compared to the fair value of identifiable net assets acquired and was allocated to the Company's Banking segment. The goodwill in this acquisition resulted from expected synergies and expansion into the Colorado and Kansas markets. The goodwill will not be amortized for tax purposes. The initial accounting for the ColoEast acquisition has not been completed because the fair value of certain assets acquired and income taxes associated with the transaction have not yet been finalized.

The TARP Preferred Stock assumed in the acquisition was redeemed by the Company at par on August 31, 2016.

In connection with the ColoEast acquisition, the Company acquired loans both with and without evidence of credit quality deterioration since origination. The acquired loans were initially recorded at fair value with no carryover of any allowance for loan losses. Acquired loans were segregated between those considered to be purchased credit impaired ("PCI") loans and those without credit impairment at acquisition. The following table presents details on acquired loans at the acquisition date:

#### **Doral Money Acquisition**

On February 27, 2015, the Company entered into a Purchase and Sale Agreement with the Federal Deposit Insurance Corporation ("FDIC"), in its capacity as receiver of Doral Bank, to acquire 100% of the equity of Doral Money, Inc.

("Doral Money"), a subsidiary of Doral Bank, and the management contracts associated with two active collateralized loan obligations ("CLOs") with approximately \$700,000,000 in assets under management. The consideration transferred in the acquisition consisted of cash paid of \$135,864,000. The primary purpose of the acquisition was to expand the CLO assets under management at TCA.

On February 26, 2015, the Company entered into a \$99,975,000 secured term loan credit facility payable to a third party, with an interest rate equal to LIBOR plus 3.5%, and a maturity date of March 31, 2015. The proceeds from the loan were used by the Company to partially fund the Doral Money acquisition.

The acquisition was completed on March 3, 2015, at which time the Company also repaid the \$99,975,000 third party secured term loan credit facility in full by delivering the securities issued by the CLOs that were acquired from Doral Money with an acquisition date fair value of \$98,316,000 and cash representing payments received on the CLO securities in the amount of \$1,659,000.

The Company completed the acquisition via an FDIC bid process for Doral Money as part of the Doral Bank failure and the resulting nontaxable bargain purchase gain represents the excess of the fair value of the net assets acquired over the fair value of the net consideration transferred. The Company subsequently recorded measurement period adjustments related to the finalization of income taxes associated with the transaction and the valuation of loans acquired in the transaction, which increased the bargain purchase gain by \$1,708,000 and \$900,000 during the three months ended September 30, 2015 and the three months ended December 31, 2015, respectively.

Management evaluates securities for other than temporary impairment at least on a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. Consideration is given to (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) the intent and ability of the Company to retain its investment in the security for a period of time sufficient to allow for any anticipated recovery in fair value.

As of September 30, 2016, management does not have the intent to sell any of the securities classified as available for sale with unrealized losses in the table above and believes that it is more likely than not that the Company will not have to sell any such securities before a recovery of cost. The fair value is expected to recover as the bonds approach their maturity date or repricing date or if market yields for such investments decline. Management does not believe that any of the securities are impaired due to reasons of credit quality. Accordingly, as of September 30, 2016,

management believes that the unrealized losses detailed in the previous table are temporary and no other than temporary impairment loss has been recognized in the Company's consolidated statements of income.

The following is a summary of information pertaining to impaired loans.
