NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

BASIS OF PRESENTATION

The accompanying interim unaudited consolidated financial statements have been prepared by Movado Group, Inc. (the “Company”), in a manner consistent with that used in the preparation of the annual audited consolidated financial statements included in the Company’s Annual Report on Form 10-K for the fiscal year ended January 31, 2018 (the “2018 Annual Report on Form 10-K”). The unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, which require the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the dates of the unaudited consolidated financial statements and the reported amounts of revenues and expenses during the periods reported. Actual results could differ from those estimates. In the opinion of management, the accompanying unaudited consolidated financial statements reflect all adjustments, consisting of only normal and recurring adjustments, necessary for a fair statement of the financial position and results of operations for the periods presented. The consolidated balance sheet data at January 31, 2018 is derived from the audited annual financial statements, which are included in the Company’s 2018 Annual Report on Form 10-K and should be read in connection with these interim unaudited financial statements. Operating results for the interim periods presented are not necessarily indicative of the results that may be expected for the full year.

NOTE 1 – RECLASSIFICATIONS

As discussed below in Note 2 Changes to Critical Accounting Policies, certain reclassifications were made to prior years’ financial statement amounts and related note disclosures to conform to fiscal 2019 presentation.

NOTE 2 - CHANGES TO CRITICAL ACCOUNTING POLICIES

Revenue

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2014-09, Revenue from Contracts with Customers (Topic 606) which supersedes nearly all existing revenue recognition guidance. Subsequent to the issuance of Topic 606, the FASB clarified the guidance through several Accounting Standard Updates; hereinafter the collection of revenue guidance is referred to as “ASC 606”.

On February 1, 2018, the Company adopted ASC 606 using the modified retrospective method and the Company recognized a reduction of \$0.7 million to opening retained earnings as the cumulative effect of adopting the new revenue standard. This adjustment did not have a material impact on the Company’s Consolidated Financial Statements. (See Note 17 - Revenue for additional disclosures required by ASC 606).

Statement of Cash Flows

In November 2016, the FASB issued ASU 2016-18, “Statement of Cash Flows (Topic 230) — Restricted Cash,” which requires that a statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash and restricted cash equivalents. With this standard, amounts generally described as restricted cash or restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning of period and end of period total amounts shown on the statement of cash flows. We adopted this guidance on February 1, 2018, and the guidance has been retrospectively applied to all periods presented. The changes to the beginning of period balance presented in the consolidated statement of cash flows are as follows (in thousands):

	January 31, 2018		January 31, 2017	
	As adjusted	As previously reported	As adjusted	As previously reported
Cash and cash equivalents	\$214,811	\$214,811	\$256,279	\$256,279
Restricted funds included in other non-current assets	600	—	600	—
Beginning of period balance presented in the statement of cash flows	\$215,411	\$214,811	\$256,879	\$256,279

## NOTE 3 – FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Accounting guidance establishes a fair value hierarchy which prioritizes the inputs used in measuring fair value into three broad levels as follows:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly.

Level 3 – Unobservable inputs based on the Company's assumptions.

The following tables present the fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis (in thousands) as of April 30, 2018 and 2017 and January 31, 2018:

	Balance Sheet Location	Fair Value at April 30, 2018

Hedge derivatives	Accrued liabilities	—	162	—	162
<b>Total</b>		<b>\$32,421</b>	<b>\$ 162</b>	<b>\$ —</b>	<b>\$32,583</b>

The fair values of the Company's available-for-sale securities are based on quoted prices. The fair value of the short-term investment, which is a guaranteed investment certificate, is based on its purchase price plus one half of a percent calculated annually. The assets related to the Company's defined contribution supplemental executive retirement plan ("SERP") consist of both employer (employee unvested) and employee assets which are invested in investment funds with fair values calculated based on quoted market prices. The SERP liability represents the Company's liability to the employees in the plan for their vested balances. The hedge derivatives are entered into by the Company principally to reduce its exposure to Swiss franc and Euro exchange rate risks. Fair values of the Company's hedge derivatives are calculated based on quoted foreign exchange rates and quoted interest rates.
