Item 2.02 Results of Operations and Financial Condition.

On February 27, 2018, Mallinckrodt plc ("the Company") disclosed in its Annual Report on Form 10-K filed with the United States Securities and Exchange Commission ("SEC") that the Company's Board of Directors authorized commencement of a process to dispose of (1) the Company's Specialty Generics business comprised of the previously externally reported Specialty Generics segment, with the exception of BioVectra - a contract manufacturing business in Canada, (2) certain of the Company's non-promoted brands business, which were previously reflected in the Specialty Brands segment; and (3) the Company's ongoing, post-divestiture supply agreement with the acquirer of the contrast media and delivery systems ("CMDs") business, which was previously reflected in the Other non-operating segment (referred to collectively as the "Specialty Generics Disposal Group"). The Company determined that the Specialty Generics Disposal Group met the criteria prescribed by United States ("U.S.") Generally Accepted Accounting Principles ("GAAP") to be recorded as held for sale and discontinued operations during the first quarter of fiscal 2018.

The Company is providing recast historical financial information reflecting the estimated impact of discontinued operations and the adoption of Accounting Standard Update ("ASU") 2017-07, "Compensation - Retirement Benefits: Improving the Presentation of Net Periodic Pension Cost and Net Periodic Post Retirement Benefit Cost" in the attached Exhibit 99.1. The Company has not yet issued its first quarter financial statements for fiscal 2018 reflecting this disposal group as a discontinued operation. All of the recast historical financial information included in Exhibit 99.1 is considered non-GAAP financial information.

Exhibit 99.1 contains financial measures, including adjusted income from continuing operations, adjusted diluted income from continuing operations per share, adjusted gross profit, and adjusted selling, general and administrative expenses ("SG&A"), which are considered "non-GAAP" financial measures under applicable SEC rules and regulations. Reconciliations of the non-GAAP financial measures to the most directly comparable GAAP financial measures are included in the tables furnished as part of Exhibit 99.1.

Adjusted income from continuing operations, adjusted gross profit and adjusted SG&A represent amounts, prepared in accordance with GAAP, adjusted for certain items (on a pre-tax basis for adjusted gross profit and adjusted SG&A and on an after-tax basis for adjusted income from continuing operations) that management believes are not reflective of the operational performance of the business. Adjustments to GAAP amounts include, as applicable to each measure, intangible amortization expense and non-restructuring impairments, restructuring and related charges, net; inventory step-up expense; income or loss from discontinued operations; change in contingent consideration fair value; acquisition-related expenses; income taxes; significant legal and environmental charges; pension settlement charges; gain on divestiture; debt refinancing costs; and other items identified by the Company. Adjusted diluted income from continuing operations per share represents adjusted income from continuing operations divided by the number of diluted shares.

The Company has provided these non-GAAP financial measures because they are used by management, along with financial measures in accordance with GAAP, to evaluate the Company's operating performance. In addition, the Company believes that these non-GAAP measures will be used by certain investors to measure Mallinckrodt's operating results. Management believes that presenting these non-GAAP measures provides useful information about the Company's performance across reporting periods on a consistent basis by excluding items (which may be favorable or unfavorable) that the Company does not believe are indicative of its core operating performance. These non-GAAP measures should be considered supplemental to and not a substitute for financial information prepared in accordance with GAAP. The Company's definition of these non-GAAP measures may differ from similarly titled measures used by others.

Because non-GAAP financial measures exclude the effect of items that will increase or decrease the Company's reported results of operations, management strongly encourages investors to review the Company's consolidated financial statements and publicly filed reports in their entirety. A reconciliation of certain of these historical non-GAAP financial measures to the most directly comparable GAAP financial measures is included in the tables accompanying this release.
