Upland Software, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements

1. Description of Business

Upland Software, Inc. ("Upland" or the "Company") is a leading provider of cloud-based enterprise work management software. Upland's software applications help organizations better optimize the allocation and utilization of their people, time and money. Upland provides a family of cloud-based enterprise work management software applications for the information technology, marketing, finance, professional services and process excellence functions within organizations. Upland's software applications address a broad range of enterprise work management needs, from strategic planning to task execution.

2. Summary of Significant Accounting Policies

Basis of Presentation

These condensed consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States ("GAAP"). The condensed consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

The accompanying unaudited interim condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC") for interim financial reporting. In the opinion of management of the Company, the unaudited interim condensed consolidated financial statements have been prepared on the same basis as the audited consolidated financial statements and include all adjustments necessary for a fair presentation. The results of operations for the three and six months ended June 30, 2015 are not necessarily indicative of the results to be expected for the year ending December 31, 2015 or for any other period.

The financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's 2014 Annual Report on Form 10-K filed with the SEC on March 31, 2015.

Use of Estimates

The preparation of the accompanying condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses. Significant items subject to such estimates include allowance for doubtful accounts, stock-based compensation, warrant liabilities, acquired intangible assets, the useful lives of intangible assets and property and equipment, and income taxes. In accordance with GAAP, management bases its estimates on historical experience and on various other assumptions that management believes are reasonable under the circumstances. Management regularly evaluates its estimates and assumptions using historical experience and other factors; however, actual results could differ from those estimates.

Concentrations of Credit Risk and Significant Customers

Financial instruments that potentially subject the Company to credit risk consist of cash and cash equivalents and accounts receivable. The Company's cash and cash equivalents are placed with high-quality financial institutions, which, at times, may exceed federally insured limits. The Company has not experienced any losses in these accounts, and the Company does not believe it is exposed to any significant credit risk related to cash and cash equivalents. The Company provides credit, in the normal course of business, to a number of its customers. The Company performs periodic credit evaluations of its customers and generally does not require collateral. No individual customer represented more than 10% of total revenues in the three and six months ended June 30, 2015 or 2014, or more than 10% of accounts receivable as of June 30, 2015.

Upland Software, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements (continued)

Fair Value of Financial Instruments

The Company's financial instruments consist principally of cash and cash equivalents, accounts receivable, and accounts payable, and long-term debt. The carrying value of cash and cash equivalents, accounts receivable, and accounts payable approximate fair value, primarily due to short maturities. The carrying values of the Company's debt instruments approximated their fair value based on rates currently available to the Company.

Recent Accounting Pronouncements

In May 2014, the FASB issued FASB ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), which supersedes the revenue recognition requirements in ASC 605, Revenue Recognition. The core principle of ASU 2014-09 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance provides a five-step process to achieve that core principle. ASU 2014-09 requires disclosures enabling users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. Additionally, qualitative and quantitative disclosures are required about contracts with customers, significant judgments and changes in judgments, and assets recognized from the costs to obtain or fulfill a contract. ASU 2014-09 is effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period, using one of two retrospective application methods. Early application is permitted. The Company has not selected a transition method and is currently evaluating the impact of the provisions of ASC 606 as well as the timing of its adoption.

In August 2014, the FASB issued FASB ASU No. 2014-15, Presentation of Financial Statements - Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern. The new standard provides guidance around management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and to provide related footnote disclosures. The new standard is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2016, with early adoption permitted. The adoption of this standard is not expected to have a material impact on our financial statements. The Company does not intend to adopt this standard prior to the effective date.

In April 2015, the FASB issued FASB ASU No. 2015-03 Interest—Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs. Under this revised guidance, debt issuance costs should be presented in the balance sheet as a direct deduction from the carrying value of the associated debt, consistent with the presentation of a debt discount. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this update. This revised guidance is effective for annual periods beginning after December 15, 2015, and interim periods within those fiscal years, with early adoption permitted. The Company has adopted this standard in the second quarter of 2015. The December 31, 2014 balance sheet was retrospectively adjusted to reclassify \$0.1 million from Other non-current assets to a reduction of the Notes payable liability.

3. Acquisitions

2014 Acquisitions

On November 21, 2014, the Company acquired 100% of the outstanding capital of Solution Q Inc. (Solution Q). On December 10, 2014, the Company acquired 100% of the outstanding capital of Mobile Commons, Inc. (Mobile Commons).

The Company recorded the purchase of the acquisitions described above using the acquisition method of accounting and, accordingly, recognized the assets acquired and liabilities assumed at their fair values as of the date of the acquisition. The results of operations of the acquisitions are included in the Company's consolidated results of operations beginning with the date of the acquisition. The purchase price allocations for the 2014 acquisitions are preliminary as the Company has not obtained and evaluated all of the detailed information necessary to finalize the opening balance sheet amounts. The Company has recorded the purchase price allocations based upon acquired company information that is currently available. The Company expects to

Upland Software, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements (continued)

finalize its purchase price allocations in late 2015.

4. Fair Value Measurements

Fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. GAAP sets forth a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The three tiers are Level 1, defined as observable inputs, such as quoted market prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore, requiring an entity to develop its own assumptions.

Changes to the fair value of earnout liabilities are recorded to other expense, net. Liabilities measured at fair value on a recurring basis are summarized below (in thousands):

	Fair Value Measurements at December 31, 2014			
	Level 1	Level 2	Level 3	Total
Earnout consideration liability	\$—	\$—	\$500	\$500
	Fair Value Measurements at June 30, 2015			
	Level 1	Level 2	Level 3	Total
Earnout consideration liability	\$—	\$—	\$500	\$500

The fair value of the earnout consideration was determined using the Binary Option model based on the present value of the probability-weighted earnout consideration.

5. Goodwill and Other Intangible Assets

Changes in the Company's goodwill balance for the six months ended June 30, 2015 are summarized in the table below (in thousands):

Balance at January 1, 2015	\$45,146
Adjustment of 2014 business combination	(61)
Foreign currency translation adjustment	(831)
Balance at June 30, 2015	\$44,254

Intangible assets, net, include the estimated acquisition-date fair values of customer relationships, marketing-related assets, and developed technology that the Company recorded as part of its business acquisitions. The following is a summary of the Company's intangible assets, net (in thousands):

	Estimated Useful Life (Years)	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
December 31, 2014:				
Customer relationships	10	\$30,053	\$5,813	\$24,240
Trade name	1-3	2,812	2,027	785
Developed technology	4-7	13,305	3,579	9,726
Total intangible assets		\$46,170	\$11,419	\$34,751

Upland Software, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements (continued)

	Estimated Useful Life (Years)	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
June 30, 2015:				
Customer relationships	1-10	\$29,921	\$7,320	\$22,601
Trade name	1-3	2,796	2,262	534
Developed technology	4-7	13,138	4,576	8,562
Total intangible assets		\$45,855	\$14,158	\$31,697

The Company periodically reviews the estimated useful lives of its identifiable intangible assets, taking into consideration any events or circumstances that might result in either a diminished fair value or revised useful life.

There have been no indicators of impairment or change in the useful life during the three and six months ended June 30, 2015 and 2014. Total amortization expense was \$2.9 million and \$2.5 million during the six months ended June 30, 2015 and 2014, respectively.

Estimated annual amortization expense for the next five years and thereafter is as follows (in thousands):

	Amortization Expense
Year ending December 31:	
Remainder of 2015	\$2,952
2016	5,567
2017	5,280
2018	5,044
2019 and thereafter	12,854
Total	\$31,697

6. Income Taxes

The Company's income tax provision for the three and six months ended June 30, 2015 and 2014 reflects its estimate of the effective tax rates expected to be applicable for the full years, adjusted for any discrete events that are recorded in the period in which they occur. The estimates are reevaluated each quarter based on the estimated tax expense for the full year. The tax provision for the three and six months ended June 30, 2015 and 2014 is primarily related to foreign income taxes associated with our Canadian operations, changes in deferred tax liabilities associated with amortization of United States tax deductible goodwill and state taxes in certain states in which the Company does not file on a consolidated basis. The Company has historically incurred operating losses in the United States and, given its cumulative losses and limited history of profits, has recorded a valuation allowance against its United States net deferred tax assets, exclusive of tax deductible goodwill, at June 30, 2015 and 2014.

The Company has not taken any uncertain tax positions impacting current or deferred taxes. Federal, state, and foreign income tax returns have been filed in jurisdictions with varying statutes of limitations. Varying among the separate companies, tax years 1998 through 2013 remain subject to examination by federal and most state tax authorities due to our net operating loss carryforwards. In the foreign jurisdictions, tax years 2008 through 2013 remain subject to examination.

Upland Software, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements (continued)

7. Debt

Long-term debt consisted of the following at June 30, 2015 and December 31, 2014 (in thousands):

	June 30, 2015	December 31, 2014
Senior secured loans (\$25,000 and \$16,946 face amount less discount of \$1,075 and \$155 at June 30, 2015 and December 31, 2014, respectively)	\$23,925	\$16,791
Revolving credit facility	121	3,000
Seller notes due 2015	—	3,000
Seller notes due 2016	500	500
	24,546	23,291
Less current maturities	(1,505) (10,964
Total long-term debt	\$23,041	\$12,327

New Loan and Security Agreements

On May 14, 2015, Upland Software, Inc. (the “Company”) entered into a Credit Agreement (the “Credit Agreement”) with a consortium of lenders (the “Lenders”), Wells Fargo Capital Finance, as agent, providing for a secured credit facility (the “Loan Facility”) that replaces and refinances (i) the Company’s existing Loan and Security Agreement dated March 5, 2012 between the Company and Comerica Bank, as amended (the “U.S. Comerica Agreement”) and (ii) an existing Canadian Loan and Security Agreement dated February 10, 2012 with Comerica Bank, as amended (the “Canadian Comerica Agreement”).

As of June 30, 2015, there was (i) \$0.1 million in U.S. revolving loans outstanding under the Credit Agreement, (ii) \$28.0 thousand drawn on the Canadian revolving credit facility, (iii) \$19.0 million in U.S. term loans outstanding under the Credit Agreement; and (iv) \$6.0 million in Canadian term loans outstanding under the Credit Agreement.

Loans

The Credit Agreement provides for up to \$60.0 million of financing credit as outlined below.

The Credit Agreement provides (i) a U.S. revolving credit facility in an aggregate principal amount of up to \$9.0 million (the “U.S. Revolver”), (ii) a U.S. term loan facility in an aggregate principal amount of up to \$19.0 million (the “U.S. Term Loan”), (iii) a delayed draw term loan facility in an aggregate principal amount of up to \$10.0 million (the “DDTL”), (iv) a Canadian revolving credit facility in an aggregate principal amount of up to \$1.0 million (the “Canadian Revolver” and, together with the U.S. Revolver, the “Revolver”); and (ii) a Canadian term loan facility in an aggregate principal amount of up to \$6.0 million (the “Canadian Term Loan” and, together with the U.S. Term Loan, the “Term Loan”).

The Credit Agreement also includes provisions for optional, uncommitted increases in the maximum size of the loan facility available under the Credit Agreement by an aggregate principal amount of \$15.0 million upon the satisfaction of the terms and conditions set forth in the Credit Agreement.

In addition, the Credit Agreement permits the Borrowers to incur subordinated, unsecured indebtedness owing to sellers in connection with the consummation of one or more permitted acquisitions upon the satisfaction of the terms and conditions set forth in the Credit Agreement so long as the aggregate principal amount for all such subordinated, unsecured indebtedness does not exceed \$10.0 million at any one time outstanding.

Terms of Revolver

Loans under the Revolver are available up to the lesser of (i) \$10.0 million (the “Maximum Revolver Amount”) or (ii) the result of (a) 0.80 multiplied by (subject to step-downs beginning June 30, 2016) of certain subsidiaries'

Upland Software, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements (continued)

recurring revenues on a trailing twelve month basis, minus (b) the outstanding balance of the Term Loans and any swing line loans made under the Credit Agreement (such amount, the "Credit Amount"). The Revolver provides a subfacility whereby Borrowers may request letters of credit (the "Letters of Credit") in an aggregate amount not to exceed, at any one time outstanding, \$0.5 million and \$0.25 million, from the U.S & Canadian facilities, respectively. The aggregate amount of outstanding Letters of Credit are reserved against the credit availability under the Maximum Revolver Amount and the Credit Amount.

Loans under the Revolver may be borrowed, repaid and reborrowed until May 14, 2020 (the "Maturity Date"), at which time all amounts borrowed under the Credit Agreement must be repaid.

Terms of Term Loans

The Term Loans are repayable, on a quarterly basis beginning September 30, 2015, by an amount equal to 5.0% per annum of the original principal amount of such loan. Any amount remaining unpaid is due and payable in full on the Maturity Date.

Terms of Delay Draw Term Loan

Pursuant to the terms of the Credit Agreement, the DDTL is to be used to finance acquisitions. The DDTL can be drawn upon until May 14, 2017. The DDTL is repayable, on a quarterly basis, by an amount equal to 5.0% per annum of the original funded amount of the DDTL. Any amount remaining unpaid would be due and payable in full on the Maturity Date.

Other Terms of Loan Facility

At the option of the Company, U.S. loans accrue interest at a per annum rate based on (i) the U.S. base rate plus a margin ranging from 3.0% to 4.0% depending on the leverage ratio or (ii) the LIBOR rate determined in accordance with the Credit Agreement (based on 1, 2, 3 or 6-month interest periods) plus a margin ranging from 4.0% to 5.0% depending on the leverage ratio. The U.S. base rate is a rate equal to the highest of the federal funds rate plus a margin equal to 0.5%, the LIBOR rate for a 1-month interest period plus 1.0% and Wells Fargo Capital Finance's prime rate. At the option of the Company, the Canadian loans accrue interest at a per annum rate based on (i) the Canadian prime rate or the U.S. base rate plus a margin ranging from 3.0% to 4.0% depending on the leverage ratio or (ii) the LIBOR rate determined in accordance with the Credit Agreement (based on 1, 2, 3 or 6-month interest periods) (or the Canadian BA rate determined in accordance with the Credit Agreement for obligations in Canadian dollars) plus a margin ranging from 4.0% to 5.0% depending on the leverage ratio.

Accrued interest on the loans will be paid monthly, or, with respect to loans that are accruing interest based on the LIBOR rate or Canadian BA rate, at the end of the applicable LIBOR or Canadian BA interest rate period.

Lenders are entitled to a premium (the "Prepayment Premium") in the event of certain prepayments of the loans in an amount equal to (i) from May 14, 2015 to May 14, 2016, 2.0% times the sum of (a) the Maximum Revolver Amount plus (b) the outstanding principal amount of the Term Loan and DDTL on the date immediately prior to the date of the prepayment (such sum, the "Prepayment Amount") (ii) from May 14, 2016 to May 14, 2017, 1.0% times the Prepayment Amount and (iii) during the period from and after May 14, 2017 to the Maturity Date, 0% times the Prepayment Amount. The Company may also be subject to prepayment fees in the case of commitment reductions of the Revolver and also may be obligated to prepay loans upon the occurrence of certain events.

The Company is also obligated to pay other customary servicing fees, letter of credit fees and unused credit facility fees.

The Loan Facility contains customary affirmative and negative covenants. The negative covenants limit the ability of the Company and its subsidiaries to, among other things (in each case subject to customary exceptions for a credit

Upland Software, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements (continued)

facility of this size and type):

• Incur additional indebtedness or guarantee indebtedness of others;

• Create liens on their assets;

• Make investments, including certain acquisitions;

• Enter into mergers or consolidations;

• Dispose of assets;

• Pay dividends and make other distributions on the Company's capital stock, and redeem and repurchase the Company's capital stock;

• Enter into transactions with affiliates; and

• Prepay indebtedness or make changes to certain agreements.

The Loan Facility also contains financial covenants that require certain subsidiaries to maintain (i) a minimum liquidity of \$10.0 million (which shall be \$8.0 million once the Company achieves trailing four quarters adjusted EBITDA of at least \$8.0 million) at all times. This covenant is subsequently replaced by certain other financial covenants that are required to be met based on various levels of operating results of the U.S. and Canadian subsidiaries. These financial covenants become more restrictive starting September 30, 2017. If an event of default occurs, at the election of the Lenders, a default interest rate shall apply on all obligations during an event of default, at a rate per annum equal to 2.00% above the applicable interest rate.

The Loan Facility limits the Company's ability to buyback its capital stock, subject to restrictions including a minimum liquidity requirement of \$20.0 million before and after any such buyback.

Termination of Prior Credit Agreements

On May 14, 2015, the Company terminated the U.S. Comerica Agreement and the Canadian Comerica Agreement. In conjunction with the terminations, the Company expensed unamortized debt issuance costs of \$0.2 million during the six months ended June 30, 2015.

Interest Rate and Financing Costs

Cash interest costs averaged 5.2% under the new Credit Agreement for the quarter ended June 30, 2015. In addition, the Company incurred \$1.1 million of financing costs associated with the Credit Agreement in the quarter ended June 30, 2015. These financing costs will be amortized to non-cash interest expense over the term of the Credit Agreement.

Debt Maturities

Future debt maturities of long-term debt (excluding financing costs) at June 30, 2015 are as follows (in thousands):

Upland Software, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements (continued)

Year ending December 31:

Remaining 2015	\$625
2016	1,750
2017	1,250
2018	1,250
2019	1,250
Thereafter	19,496
	\$25,621

8. Net Loss Per Common Share

The following table sets forth the computations of loss per share (in thousands, except share and per share amounts):

	Three Months Ended June 30, 2015		Six Months Ended June 30, 2014	
Numerators:				
Net Loss	\$ (3,334)	\$ (2,377)	\$ (7,077)	\$ (14,997)
Preferred stock dividends and accretion	—	(440)	—	(875)
Net loss attributable to common stockholders	\$ (3,334)	\$ (2,817)	\$ (7,077)	\$ (15,872)
Denominator:				
Weighted-average common shares outstanding, basic and diluted	14,867,947	3,533,198	14,854,139	3,225,077
Net loss per common share, basic and diluted	\$ (0.22)	\$ (0.80)	\$ (0.48)	\$ (4.92)

Upland Software, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements (continued)

Due to the net losses for the three and six months ended June 30, 2015 and 2014, basic and diluted loss per share were the same, as the effect of all potentially dilutive securities would have been anti-dilutive. The following table sets forth the anti-dilutive common share equivalents:

	As of June 30,	
	2015	2014
Redeemable Convertible preferred stock:		
Series A preferred stock	—	2,821,181
Series B preferred stock	—	1,701,909
Series B-1 preferred stock	—	237,740
Series B-2 preferred stock	—	155,598
Series C preferred stock	—	1,918,048
Stock options	810,400	600,312
Restricted stock	605,239	158,508
Total anti-dilutive common share equivalents	1,415,639	7,593,296

9. Commitments and Contingencies

Operating Leases

The Company renewed the office lease for its Nebraska office. The expiration of the renewal term is May 31, 2020. In connection with the renewal, the Company anticipates making approximately \$257,000 in annual base rent payments. The Company entered into a new office lease for its Massachusetts office. The inception date of the lease is September 1, 2015 and the expiration of the lease term is August 31, 2018. In connection with the lease, the Company anticipates making approximately \$125,000 in annual base rent payments.

The Company has a letter of credit for an office lease with a bank in the amount of \$100,000.

Capital Leases

During the three months ended June 30, 2015, the Company entered into seven capital lease agreements for computer equipment and office furniture. The term of each lease ranges from 48 months to 60 months and the Company anticipates making approximately \$347,000 in payments throughout the lease term.

The current and long-term portion of capital lease obligations are recorded in the accrued expenses and other long-term liabilities line items on the balance sheet, respectively.

Purchase Commitments

The Company has an outstanding purchase commitment for software development services pursuant to a technology services agreement in the amount of \$2.1 million in 2015, of which \$0.9 million was incurred during the six months ended June 30, 2015. For years after 2015, the purchase commitment amount for software development services will be equal to the prior year purchase commitment increased (decreased) by the percentage change in total revenue for the prior year as compared to the preceding year. For example, if 2015 total revenues increase by 10% as compared to 2014 total revenues, then the 2016 purchase commitment would increase by approximately \$213,000 from the 2015 purchase commitment amount to \$2.3 million. A similar 10% increase in 2016 total revenues as compared to 2015 total revenues would increase the 2017 purchase commitment amount from the 2016 purchase commitment amount of \$2.3 million by approximately \$234,000 to \$2.6 million.

Upland Software, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements (continued)

Litigation

In the normal course of business, the Company may become involved in various lawsuits and legal proceedings. While the ultimate results of these matters cannot be predicted with certainty, the Company does not expect them to have a material adverse effect on the consolidated financial position or results of operations of the Company.

10. Property and Equipment, Net

Property and equipment consisted of the following (in thousands) at:

	June 30, 2015	December 31, 2014
Equipment (including equipment under capital lease of \$3,414 and \$3,028 at June 30, 2015 and December 31, 2014, respectively)	\$9,028	\$7,712
Furniture and fixtures (including furniture under capital lease of \$120 at June 30, 2015 and December 31, 2014)	499	502
Leasehold improvements	624	574
Accumulated depreciation (including equipment and furniture under capital lease of \$1,355 and \$1,194 at June 30, 2015 and December 31, 2014, respectively)	(5,930) (4,858
Property and equipment, net	\$4,221	\$3,930

Amortization of assets recorded under capital leases is included with depreciation expense. Depreciation and amortization expense on property and equipment was \$0.6 million and \$0.5 million for the six months ended June 30, 2015 and 2014, respectively. The Company recorded no impairment of property and equipment and recorded no gains or losses on the disposal of property and equipment during the six months ended June 30, 2015 and 2014.

11. Stockholders' Equity

Restricted Stock Awards

On May 12, 2015, the Company granted 190,000 shares of restricted stock with a grant-date fair value of \$6.64 per share. The restricted stock has restrictions which vest over three years from the vesting commencement date for 140,000 shares and over four years from the vesting commencement date for 50,000 shares. The grant-date fair value of the shares is recognized over the requisite vesting period.

Restricted share activity during the six months ended June 30, 2015 was as follows:

	Number of Restricted Shares Outstanding	Weighted-Average Grant Date Fair Value
Outstanding at December 31, 2014	438,939	\$8.71
Shares granted	190,000	\$6.65
Shares vested	(23,700) \$3.44
Shares forfeited	—	\$—
Outstanding at June 30, 2015	605,239	\$8.19

Upland Software, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements (continued)

Stock Option Activity

Stock option activity during the six months ended June 30, 2015 was as follows:

	Number of Options Outstanding	Weighted-Average Exercise Price
Outstanding at December 31, 2014	665,210	\$4.39
Options granted	315,359	\$6.32
Options exercised	(53,295) \$1.87
Options forfeited	(116,874) \$4.90
Outstanding at June 30, 2015	810,400	\$5.29

Share-based Compensation

The Company recognized share-based compensation expense from all awards in the following expense categories (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Cost of subscription and support revenue	\$16	\$6	\$24	\$13
Cost of professional services revenue	(11) 5	(8) 11
Sales and marketing	36	7	50	14
Research and development	109	14	120	29
General and administrative	631	150	1,149	300
Total	\$781	\$184	\$1,335	\$367

12. Employee Benefit Plans

The Company has established two voluntary defined contribution retirement plans qualifying under Section 401(k) of the Internal Revenue Code. The Company made no contributions to the 401(k) plans for the six months ended June 30, 2015 and 2014.

13. Domestic and Foreign Operations

Revenue by geography is based on the ship-to address of the customer, which is intended to approximate where the customer's users are located. The ship-to country is generally the same as the billing country. The Company has operations in the U.S., Canada and Europe. Information about these operations is presented below (in thousands):

Upland Software, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements (continued)

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Revenues:				
U.S.	\$14,099	\$12,635	\$28,260	\$25,105
Canada	1,127	887	2,222	1,773
Other International	2,452	2,689	4,724	4,946
Total Revenues	\$17,678	\$16,211	\$35,206	\$31,824

14. Related Party Transactions

During the three months ended June 30, 2015 and 2014, the Company purchased software development services pursuant to a technology services agreement with a company controlled by a non-management investor in the Company in the amount of \$450,000 and \$532,000, respectively. In January 2014, the Company issued 1,803,574 shares of common stock to this company in connection with the amendment of such technology services agreement and took a noncash charge of \$11.2 million recorded in research and development expenses. Refer to Note 9 for a description of purchase commitments to this company.

When the Company receives requested services as detailed by statements of work pursuant to the software development agreement, it determines whether such software development costs should be capitalized as either internally-used software or software to be sold or otherwise marketed. If such costs are not capitalizable, the Company expenses such costs as the services are received. If the Company anticipates that it will not utilize the full amount of the annual minimum fee, the estimated unused portion of the annual minimum fee is expensed at that time.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward Looking Statements

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our unaudited condensed consolidated financial statements and the notes thereto appearing elsewhere in this Quarterly Report on Form 10-Q.

This Quarterly Report on Form 10-Q contains "forward-looking statements" within the meaning of Section 27A of the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act").

Forward-looking statements may be identified by the use of forward-looking words such as "anticipate," "believe," "may," "will," "continue," "seek," "estimate," "intend," "hope," "predict," "could," "should," "would," "project," "plan," "expect" or the plural of these words or similar expressions, although not all forward-looking statements contain these words. Factors or risks that could cause our actual results to differ from the results we anticipate include, but are not limited to:

- our financial performance and our ability to achieve or sustain profitability or predict future results;
- our ability to attract and retain customers; our ability to deliver high-quality customer service;
- the growth of demand for enterprise work management applications;
- our ability to effectively manage our growth;
- our ability to consummate and integrate acquisitions;
- maintaining our senior management team and key personnel;
- our ability to maintain and expand our direct sales organization;
- our ability to obtain financing in the future on acceptable terms or at all;
- our ability to adapt to changing market conditions and competition;
- our ability to successfully enter new markets and manage our international expansion;
- the operation and reliability of our third-party data centers;
- our ability to adapt to technological change and continue to innovate;
- economic and financial conditions;
- our ability to integrate our applications with other software applications;
- maintaining and expanding our relationships with third parties;
- costs associated with defending intellectual property infringement and other claims;
- our ability to maintain, protect and enhance our brand and intellectual property;
- our ability to comply with privacy laws and regulations; and
- other risk factors included under "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2014, filed with the SEC on March 31, 2015, as updated by this Quarterly Report on Form 10-Q.

Table of Contents

The outcome of the events described in these forward-looking statements is subject to known and unknown risks, uncertainties and other factors that could cause actual results to differ materially from our forward-looking statements, including those factors discussed in Part I: "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2014, filed with the SEC on March 31, 2015, as updated by Part II, Item 1A: "Risk Factors" of this Quarterly Report on Form 10-Q and other risks and uncertainties detailed in this and our other reports and filings with the SEC. The forward-looking statements in this Quarterly Report on Form 10-Q represent our views as of the date of this Quarterly Report on Form 10-Q. We anticipate that subsequent events and developments may cause our views to change. However, while we may elect to update these forward-looking statements at some point in the future, we have no current intention of doing so except to the extent required by applicable law. You should, therefore, not rely on these forward-looking statements as representing our views as of any date subsequent to the date of this Quarterly Report on Form 10-Q.

Overview

Upland is a leading provider of cloud-based enterprise work management software. We define enterprise work management software as software applications that enable organizations to plan, manage and execute projects and work. Our software applications help organizations better optimize the allocation and utilization of their people, time and money. We provide a family of cloud-based enterprise work management software applications for the information technology, process excellence, finance, professional services and marketing functions within organizations. Our software applications address a broad range of enterprise work management needs, from strategic planning to task execution.

We are helping transform how work gets done by providing organizations and their knowledge workers with software applications that better align resources with business objectives and increase visibility, governance, collaboration, quality of customer experience and responsiveness to changes in the business environment. This results in increased work capacity, higher productivity, better execution and greater levels of customer engagement. Our applications are easy-to-use, highly scalable and offer real-time collaboration for knowledge workers distributed on a local or global scale. Our applications address enterprise work challenges in the following categories:

• **Program and Portfolio Management:** Enables customers to gain high-level visibility across their organizations and improve top-down governance and management of programs, initiatives, investments and projects.

• **Project Management and Collaboration:** Enables customers to improve collaboration and the execution of both projects and unstructured work.

• **Workflow Automation and Enterprise Content Management:** Enables customers to automate document-based workflows and control access and distribution of their content to boost productivity, encourage collaboration, improve compliance and enhance and influence customer engagement.

• **Digital Engagement Management:** Enables customers to automate the digital provision of personalized content to target audiences via website and mobile devices, providing a timely and highly relevant customer experience.

• **Professional Services Automation:** Enables customers to more effectively manage their knowledge workers to better track work, expenses and client billing while improving scheduling, utilization and alignment of human capital.

• **Financial Management:** Enables customers to have visibility into the cost, quality and value of internal services delivered within their organizations, which helps improve alignment during planning and budgeting processes, and better assess and validate proposed investments and initiatives of a particular line of business.

We sell our software applications primarily through a direct sales organization comprised of inside sales and field sales personnel. In addition to our direct sales organization, we have an indirect sales organization, which sells to distributors and value-added resellers. We employ a land-and-expand go-to-market strategy. After we demonstrate the value of an initial application to an organization, our sales and account management teams work to expand the

Table of Contents

adoption of that initial application across the organization, as well as cross-sell additional applications to address other enterprise work management needs of the organization. Our customer success organization supports our direct sales efforts by managing the post-sale customer lifecycle.

Our subscription agreements are typically sold either on a per-seat basis or on a minimum contracted volume basis with overage fees billed in arrears, depending on the application being sold. We service customers ranging from large global corporations and government agencies to small- and medium-sized businesses. As of June 30, 2015, we had more than 1,600 customers with over 225,000 users, excluding users under volume-based contracts, across a broad range of industries, including financial services, retail, technology, manufacturing, education, consumer goods, media, telecommunications, government, food and beverage, healthcare and life sciences.

We have achieved significant growth and scale in a relatively short period of time. Through a series of acquisitions, we have established a diverse family of software applications under the Upland brand, each of which addresses a specific enterprise work management need. For the six months ended June 30, 2015 compared to the six months ended June 30, 2014, our total revenue grew from \$31.8 million to \$35.2 million, representing an 11% period-over-period growth rate, and our subscription and support revenue grew from \$23.5 million to \$28.3 million, representing a 20% period-over-period growth rate. See Note 13 of the Notes to Condensed Consolidated Financial Statements for more information regarding our revenue as it relates to domestic and foreign operations.

Our operating results in a given period can fluctuate based on the mix of subscription and support, perpetual license and professional services revenue. For the six months ended June 30, 2015 and 2014, our subscription and support revenue accounted for 81% and 74% of total revenue, respectively. Our customer agreements for program and portfolio management, project management and collaboration, and professional services automation typically are sold on a per-seat basis with terms varying from one to three years, paid in advance. Our customer agreements for workflow automation and enterprise content management and financial management historically have been sold on a volume basis with a one-year term, paid in advance. We generally seek to enter into multi-year contracts with our customers when possible. In each case, our customer agreements provide us with revenue visibility over a number of quarters. We typically negotiate the total number of seats or total minimum contracted volume a customer is entitled to use as part of its subscription, but these seats or minimum contracted volume may not be fully utilized over the term of the agreement. In addition, where customers exceed the minimum contracted volume, additional overage fees are billed in arrears.

Historically, we have sold certain of our applications under perpetual licenses, which also are paid in advance. For the six months ended June 30, 2015 and 2014, our perpetual license revenue accounted for 5% and 3% of total revenue, respectively. We expect perpetual license revenue to decrease as a percentage of revenue in the future. The support agreements related to our perpetual licenses are one-year in duration and entitle the customer to support and unspecified upgrades. The revenue related to such support agreements is included as part of our subscription and support revenue.

Professional services revenue consists of fees related to implementation, data extraction, integration and configuration and training on our applications. For the six months ended June 30, 2015 and 2014, our professional services revenue accounted for 14% and 23% of total revenue, respectively. We expect the proportional revenue contribution of product and professional services revenue to remain relatively constant in future periods.

We sell our software applications primarily through a direct sales organization comprised of inside sales and field sales personnel. In addition to our direct sales organization, we have an indirect sales organization, which sells to distributors and value-added resellers. We employ a land-and-expand go-to-market strategy. After we demonstrate the value of an initial application to an organization, our sales and account management teams work to expand the adoption of that initial application across the organization, as well as cross-sell additional applications to address other enterprise work management needs of the organization. Our customer success organization supports our direct sales efforts and our professional services organization by managing the post-sale customer life cycle. To support continued growth, we intend to pursue acquisitions of complementary technologies, products and businesses to enhance the features and functionalities of our applications, expand our customer base and provide access to new markets and increased benefits of scale. We will prioritize acquisitions within the enterprise functions we currently

Table of Contents

serve, including information technology, process excellence, finance, professional services and marketing, as well as pursue acquisitions that serve other enterprise functions. Consistent with our growth strategy, we made a total of eight acquisitions in 2014, 2013, and 2012.

Key Metrics

In addition to the GAAP financial measures described below in “—Components of Operating Results,” we regularly review the following key metrics to evaluate and identify trends in our business, measure our performance, prepare financial projections and make strategic decisions:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
	(dollars in thousands)			
Adjusted EBITDA	\$672	\$1,025	\$1,016	\$2,608

Adjusted EBITDA. We monitor our Adjusted EBITDA to help us evaluate the effectiveness and efficiency of our operations. Adjusted EBITDA is a non-GAAP financial measure. We define Adjusted EBITDA as net loss, calculated in accordance with GAAP, depreciation and amortization expense, interest expense, net, other expense (income), net, provision for (benefit from) income taxes, stock-based compensation expense, acquisition-related expenses and non-recurring litigation expenses.

The decrease in Adjusted EBITDA for the three and six months ended June 30, 2015 is primarily due to additional operating expenses associated with being a new publicly traded company.

The following table presents a reconciliation of net loss from continuing operations, the most comparable GAAP measure, to Adjusted EBITDA for each of the periods indicated.

	Three Months Ended June 30,		Six Months Ended June 30,		
	2015	2014	2015	2014	
	(dollars in thousands)				
Reconciliation of Net loss to Adjusted EBITDA:					
Net Loss	\$(3,334)	\$(2,377)	\$(7,077)	\$(14,997)	
Depreciation and amortization expense	2,039	1,807	4,040	3,605	
Interest expense, net	576	419	923	834	
Other expense (income), net	12	482	524	368	
Provision for (benefit from) income taxes	238	280	(5)	690	
Stock-based compensation expense	781	183	1,335	367	
Acquisition-related expenses	360	231	905	521	
Stock-based compensation expense --- related party vendor	—	—	—	11,220	
Non-recurring litigation expenses	\$—	\$—	\$371	\$—	
Adjusted EBITDA	\$672	\$1,025	\$1,016	\$2,608	
Total Revenue	\$17,678	\$16,211	\$35,206	\$31,824	
Adjusted EBITDA margin	4	% 6	% 3	% 8	%

Table of Contents

We believe that Adjusted EBITDA provides useful information to management, investors and others in understanding and evaluating our operating results for the following reasons:

Adjusted EBITDA is widely used by investors and securities analysts to measure a company's operating performance without regard to items that can vary substantially from company to company depending upon their financing, capital structures and the method by which assets were acquired;

our management uses Adjusted EBITDA in conjunction with GAAP financial measures for planning purposes, in the preparation of our annual operating budget, as a measure of our operating performance, to assess the effectiveness of our business strategies and to communicate with our board of directors concerning our financial performance because Adjusted EBITDA eliminates the impact of items that we do not consider indicative of our core operating performance;

- Adjusted EBITDA provides more consistency and comparability with our past financial performance, facilitates period-to-period comparisons of our operations and also facilitates comparisons with other companies, many of which use similar non-GAAP financial measures to supplement their GAAP results; and we anticipate that our investor and analyst presentations will include Adjusted EBITDA as a supplemental measure of our overall operating performance. Adjusted EBITDA should not be considered as an alternative to net loss or any other measure of financial performance calculated and presented in accordance with GAAP. The use of Adjusted EBITDA as an analytical tool has limitations such as:

depreciation and amortization are non-cash charges, and the assets being depreciated or amortized will often have to be replaced in the future and Adjusted EBITDA does not reflect cash requirements for such replacements; however, much of the depreciation and amortization currently reflected relates to amortization of acquired intangible assets as a result of business combination purchase accounting adjustments, which will not need to be replaced in the future;

Adjusted EBITDA may not reflect changes in, or cash requirements for, our working capital needs or contractual commitments;

Adjusted EBITDA does not reflect the potentially dilutive impact of stock-based compensation;

Adjusted EBITDA does not reflect interest or tax payments that could reduce cash available for use; and

other companies, including companies in our industry, might calculate Adjusted EBITDA or similarly titled measures differently, which reduces their usefulness as comparative measures.

Because of these limitations, you should consider Adjusted EBITDA together with other financial performance measures, including various cash flow metrics, net loss and our other GAAP results.

Components of Operating Results

Revenue

Subscription and support revenue. We derive our subscription revenue from fees paid to us by our customers for use of our cloud-based applications. We recognize the revenue associated with subscription agreements ratably over the term of the agreement, provided all criteria required for revenue recognition have been met. Our subscription agreements are typically one to three years.

Our support revenue consists of maintenance fees associated with our perpetual licenses and hosting fees paid to us by our customers. Typically, when purchasing a perpetual license, a customer also purchases maintenance for which we charge a fee, priced as a percentage of the perpetual license fee. Maintenance agreements include the right to support and unspecified upgrades. We recognize the revenue associated with maintenance ratably over the term of the contract. In limited instances, at the customer's option, we may host the software purchased by a customer under a perpetual license on systems at our third-party data centers. For hosting, we charge a fee, priced as a percentage of the perpetual license fee, and we recognize the revenue associated with hosting ratably over the associated hosting period. These hosting arrangements are typically for a period of one to three years.

Table of Contents

Perpetual license revenue. Perpetual license revenue reflects the revenue recognized from sales of perpetual licenses to new customers and additional perpetual licenses to existing customers. We generally recognize the license fee portion of the arrangement in advance, provided all revenue recognition criteria are satisfied. Our support and maintenance contracts associated with perpetual license agreements are typically one year.

Professional services revenue. Professional services revenue consists of fees related to implementation, data extraction, integration and configuration and training on our applications. We generally recognize the revenue associated with these professional services on a time and materials basis as we deliver the services or provide training to our customers.

Cost of Revenue

Cost of product revenue. Cost of product revenue consists primarily of personnel and related costs of our customer success and operations teams, including salaries, benefits, bonuses, payroll taxes, stock-based compensation and allocated overhead, as well as software license fees, hosting costs, Internet connectivity and depreciation expenses directly related to delivering our applications. We expect that cost of revenues may increase in the future depending on the growth rate of our new customers and billings and our need to support the implementation, hosting and support of those new customers. We intend to continue to invest additional resources in expanding the delivery capability of our applications. As we add data center capacity and support personnel in advance of anticipated growth, our cost of product revenue will increase and if such anticipated revenue growth does not occur, our product gross profit will be adversely affected both in terms of absolute dollars and as a percentage of total revenues in any particular quarterly or annual period. Our cost of product revenue is generally expensed as the costs are incurred.

Cost of professional services revenue. Cost of professional services revenue consists primarily of personnel and related costs, including salaries, benefits, bonuses, payroll taxes, stock-based compensation and allocated overhead, as well as the costs of contracted third-party vendors and reimbursable expenses. As most of our personnel are employed on a full-time basis, our cost of professional services revenue is largely fixed in the short-term, while our professional services revenue may fluctuate, leading to fluctuations in professional services gross profit. We expect that cost of professional services as a percentage of total revenues could fluctuate from period to period depending on the growth of our professional services business, the timing of sales of applications, and any associated costs relating to the delivery of services. Our cost of professional services revenue is generally expensed as costs are incurred.

Operating Expenses

Our operating expenses are classified into six categories: sales and marketing, research and development, refundable Canadian tax credits, general and administrative, depreciation and amortization and acquisition-related expenses. For each category, other than refundable Canadian tax credits and depreciation and amortization, the largest expense component is personnel and related costs, which includes salaries, employee benefit costs, bonuses, and payroll taxes. Operating expenses also include allocated overhead costs for facilities, which are allocated to each department based on relative department headcount. Operating expenses are generally recognized as incurred.

Sales and marketing. Sales and marketing expenses primarily consist of personnel and related costs for our sales and marketing staff, including salaries, benefits, bonuses, and payroll taxes. Sales and marketing operating expenses also include commissions, stock-based compensation, allocated overhead, as well as costs of promotional events, corporate communications, online marketing, product marketing and other brand-building activities. We expense sales commissions when the initial customer contract is signed and upon any renewal as our obligation to pay a sales commission arises at these times. We expect that sales and marketing expenses will continue to increase in absolute dollars as a result of our expected growth, and sales and marketing expenses may fluctuate as a percentage of total revenues due to the timing of such expenses, in any particular quarterly or annual period.

Research and development. Research and development expenses primarily consist of personnel and related costs of our research and development staff, including salaries, benefits, bonuses, and payroll taxes. Research and development operating expenses also include stock-based compensation, allocated overhead and costs of certain third-party contractors. Research and development costs related to the development of our software applications are generally recognized as incurred. For example, we are parties to a technology services agreement pursuant to which we generally recognize expenses for services as they are received. See Note 14 of the Notes to Condensed

Table of Contents

Consolidated Financial Statements for more information regarding how expenses under such agreement are recognized. We have devoted our product development efforts primarily to enhancing the functionality, and expanding the capabilities, of our applications. We expect that our research and development expenses will continue to increase in absolute dollars as we increase our research and development headcount to further strengthen and enhance our applications.

Refundable Canadian tax credits. Investment tax credits are accounted for as a reduction of research and development costs. Credits are accrued in the year in which the research and development costs of the capital expenditures are incurred, provided that we are reasonably certain that the credits will be received. The investment tax credit must be examined and approved by the tax authorities, and it is possible that the amounts granted will differ from the amounts recorded.

General and administrative. General and administrative expenses primarily consist of personnel and related costs for our executive, administrative, finance, information technology, legal, accounting and human resource staff, including salaries, benefits, bonuses, and payroll taxes. General and administrative operating expenses also include stock-based compensation, allocated overhead, professional fees and other corporate expenses. In preparation for operating as a public company, in 2014 we invested in personnel, internal enterprise systems, and internal processes, and we expect general and administrative expense, exclusive of non-cash stock compensation, to decrease as a percent of total revenue over time as we grow our business.

Depreciation and amortization. Depreciation and amortization expenses primarily consist of depreciation and amortization of acquired intangible assets as a result of business combination purchase accounting adjustments. The valuation of identifiable intangible assets reflects management's estimates based on, among other factors, use of established valuation methods. Customer relationships are valued using an income approach, which estimates fair value based on the earnings and cash flow capacity of the subject asset and are amortized over a 10-year period. The value of the trade name intangibles are determined using a relief from royalty method, which estimates fair value based on the value the owner of the asset receives from not having to pay a royalty to use the asset and are amortized over mostly a three-year period. Developed technology is valued using a cost-to-recreate approach and is amortized over a four- to seven-year period.

Acquisition-related expenses. Acquisition-related expenses consist of one-time costs in connection with each of our acquisitions, including legal fees, accounting fees, financing fees, restructuring costs, integration costs and other transactional fees and bonuses. We intend to continue executing our focused strategy of acquisitions to enhance the features and functionality of our applications, expand our customer base and provide access to new markets and increased benefits of scale. We expect acquisition-related expenses to be relatively constant as a percentage of revenue in the near term.

Total Other Income (Expense)

Total other expense consists primarily of interest expense on outstanding debt and gains and losses on foreign currency re-measurement.

(Provision for) benefit from Income Taxes

For both 2015 and 2014, we recorded income taxes that were principally attributable to state and foreign taxes, other than deferred taxes related to tax deductible goodwill. The primary decrease in income tax expense for the three and six months ended June 30, 2015 is attributable to lower pre-tax net income in Canada in the three and six months ended June 30, 2015 as compared to the three and six months ended June 30, 2014. Because we have not generated domestic taxable net income in any period to date, we have recorded a full valuation allowance against our domestic net deferred tax assets, exclusive of tax deductible goodwill. Realization of any of our domestic deferred tax assets depends upon future taxable earnings, the timing and amount of which are uncertain. Based on analysis of acquired net operating losses, utilization of our net operating losses will be subject to annual limitations due to the ownership change rules under the Code and similar state provisions. In the event we have subsequent changes in ownership, the availability of net operating losses and research and development credit carryovers could be further limited.

For the Three Months Ended June 30, 2015

Total revenue was \$17.7 million in the three months ended June 30, 2015, compared to \$16.2 million in the three months ended June 30, 2014, an increase of \$1.5 million, or 9%. Of the increase in total revenue, \$2.8 million was due to the 2014 acquisitions which includes a \$0.1 million decline due to the change in the foreign currency exchange rate between the Canada dollar versus the U.S. dollar during those periods. The organic businesses declined by \$1.3 million of which \$0.5 million was due to lower total revenue from our Canada operations for the same period due to the change in the foreign currency exchange rate between the Canada dollar versus the U.S. dollar during those periods. Therefore, on a constant currency basis, total revenue for the organic businesses declined by \$0.8 million, or 5%, which is attributed primarily to the decline in professional services revenue further described below.

Subscription and support revenue was \$14.0 million in the three months ended June 30, 2015, compared to \$11.8 million in the three months ended June 30, 2014, an increase of \$2.2 million, or 19%. Of the increase in subscription and support revenue, \$2.4 million was due to the 2014 acquisitions which includes a \$0.1 million decline due to the change in the foreign currency exchange rate between the Canada dollar versus the U.S. dollar during those periods. The organic businesses declined by \$0.2 million of which \$0.4 million was due to lower subscription and support revenue from our Canada operations for the same period due to the change in the foreign currency exchange rate between the Canada dollar versus the U.S. dollar during those periods. Therefore, on a constant currency basis, subscription and support revenue for the organic businesses increased by \$0.2 million, or 2%.

Perpetual license revenue was \$0.8 million in the three months ended June 30, 2015 as compared to \$0.7 million in the three months ended June 30, 2014, an increase of \$0.1 million, or 29%. The organic portion of our business increased \$0.1 million, or 12%.

Table of Contents

Professional services revenue was \$2.8 million in the three months ended June 30, 2015, compared to \$3.7 million in the three months ended June 30, 2014, a decrease of \$0.9 million, or 25%. Professional services revenue increased from the year ago period by \$0.3 million as a result of the 2014 acquisitions, offset by a \$1.2 million decrease in the organic businesses of which \$0.1 million was due to lower professional services revenue from our Canada operations for the same period due to the change in the foreign currency exchange rate between the Canada dollar versus the U.S. dollar during those periods. Therefore, on a constant currency basis, professional services revenue for our organic businesses declined by \$1.1 million, or 29%, due to the success of our 2015 customer expansion initiatives which have driven more focus on expanding existing customer recurring revenue and less focus on new customer professional service projects, compared to the year ago period.

For the Six Months Ended June 30, 2015

Total revenue was \$35.2 million in the six months ended June 30, 2015, compared to \$31.8 million in the six months ended June 30, 2014, an increase of \$3.4 million, or 11%. Of the increase in total revenue, \$5.5 million was due to the 2014 acquisitions which includes a \$0.2 million decline due to the change in the foreign currency exchange rate between the Canada dollar versus the U.S. dollar during those periods. The organic businesses declined by \$2.1 million of which \$1.0 million was due to lower total revenue from our Canada operations for the same period due to the change in the foreign currency exchange rate between the Canada dollar versus the U.S. dollar during those periods. Therefore, on a constant currency basis, total revenue for the organic businesses declined by \$1.1 million, or 3%, which is attributed primarily to the decline in professional services revenue further described below.

Subscription and support revenue was \$28.3 million in the six months ended June 30, 2015, compared to \$23.5 million in the six months ended June 30, 2014, an increase of \$4.8 million, or 20%. Of the increase in subscription and support revenue, \$4.8 million was due to the 2014 acquisitions which includes a \$0.2 million decline due to the change in the foreign currency exchange rate between the Canada dollar versus the U.S. dollar during those periods. The organic businesses remained substantially unchanged year-over-year offset by \$0.8 million of lower subscription and support revenue from our Canada operations for the same period due to the change in the foreign currency exchange rate between the Canada dollar versus the U.S. dollar during those periods. Therefore, on a constant currency basis, subscription and support revenue for the organic businesses increased by \$0.8 million, or 3%.

Perpetual license revenue was \$1.7 million in the six months ended June 30, 2015 as compared to \$1.1 million in the six months ended June 30, 2014, an increase of \$0.6 million, or 51%. The organic portion of our business increased \$0.4 million, or 32%, and the remaining \$0.2 million was contributed from the 2014 acquisitions.

Professional services revenue was \$5.2 million in the six months ended June 30, 2015, compared to \$7.2 million in the six months ended June 30, 2014, a decrease of \$2.0 million, or 28%. Professional services revenue increased from the year ago period by \$0.4 million as a result of the 2014 acquisitions, offset by a \$2.4 million decrease in our organic businesses of which \$0.2 million was due to lower professional services revenue from our Canada operations for the same period due to the change in the foreign currency exchange rate between the Canada dollar versus the U.S. dollar during those periods. Therefore, on a constant currency basis, professional services revenue for our organic businesses declined by \$2.2 million, or 31%, due to the success of our 2015 customer expansion initiatives which have driven more focus on expanding existing customer recurring revenue and less focus on new customer professional service projects, compared to the year ago period.

Professional services	10	% 14	%	11	% 15	%		
Total cost of revenue	37	% 35	%	38	% 36	%		
Gross profit	63	% 65	%	62	% 64	%		

⁽¹⁾ Includes depreciation and amortization expense as follows:

Depreciation	\$449	\$287	\$910	\$576
Amortization	\$527	\$454	\$1,053	\$908

For the Three Months Ended June 30, 2015

Cost of subscription and support revenue was \$4.8 million in the three months ended June 30, 2015, compared to \$3.3 million in the three months ended June 30, 2014, an increase of \$1.5 million, or 45%. Of the increase in cost of subscription and support revenue, \$0.9 million is due to the 2014 acquisitions. The acquisitions contributed \$0.4 million in data center hosting fees, \$0.3 million in personnel and related costs, \$0.1 million in software and license expenses, and \$0.1 million in amortization of intangible assets. Cost of subscription and support revenue for the organic portion of our business increased \$0.6 million primarily due to a \$0.4 million increase in personnel and related costs, a \$0.2 million increase in depreciation of equipment, a \$0.1 million increase in facility costs, and a \$0.1 million decrease in software and license expenses.

Cost of professional services revenue was \$1.7 million in the three months ended June 30, 2015, compared to \$2.3 million in the three months ended June 30, 2014, a decrease of \$0.6 million, or 26%. The organic portion of our business decreased \$0.8 million primarily due to a \$0.6 million decrease in personnel and related costs and a \$0.2 million decrease in outsourced contractor fees. These cost decreases in our organic business are due to the success of our 2015 customer expansion initiatives which have driven more focus on expanding existing customer recurring revenue and less focus on new customer professional service projects compared to the year ago period, and as a result professional services direct costs have been proportionately reduced in 2015 in order to maintain gross margin percentages on professional services revenue with normalized historical levels. The 2014 acquisitions contributed an increase in cost of professional services revenue of \$0.2 million primarily due to personnel and related costs.

Table of Contents

For the Six Months Ended June 30, 2015

Cost of subscription and support revenue was \$9.6 million in the six months ended June 30, 2015, compared to \$6.6 million in the six months ended June 30, 2014, an increase of \$3.0 million, or 45%. Of the increase in cost of subscription and support revenue, \$1.8 million is due to the 2014 acquisitions. The acquisitions contributed \$0.6 million in software and license expenses, \$0.5 million in personnel and related costs, \$0.4 million in data center hosting fees, and \$0.2 million in amortization of intangible assets. Cost of subscription and support revenue for the organic portion of our business increased \$1.2 million primarily due to a \$0.6 million increase in personnel and related costs, a \$0.3 million increase in depreciation, and a \$0.3 million increase in facility costs.

Cost of professional services revenue was \$3.6 million in the six months ended June 30, 2015, compared to \$4.7 million in the six months ended June 30, 2014, a decrease of \$1.1 million, or 23%. The organic portion of our business decreased \$1.4 million due to a \$1.2 million decrease in personnel and related costs, a \$0.3 million decrease in outsourced contractor fees, partially offset by a \$0.1 million increase in facility costs. These cost decreases in our organic business are due to the success of our 2015 customer expansion initiatives which have driven more focus on expanding existing customer recurring revenue and less focus on new customer professional service projects compared to the year ago period, and as a result professional services direct costs have been proportionately reduced in 2015 in order to maintain gross margin percentages on professional services revenue with normalized historical levels. The 2014 acquisitions contributed a \$0.3 million increase in cost of professional services revenue primarily due to personnel and related costs.

Operating Expenses

Sales and Marketing Expense

	Three Months Ended June 30,			Six Months Ended June 30,		
	2015	2014	% Change	2015	2014	% Change
	(dollars in thousands)			(dollars in thousands)		
Sales and marketing	\$3,446	\$4,015	(14)%	\$6,978	\$7,151	(2)%
Percentage of total revenue	19%	25%	%	20%	22%	%

For the Three Months Ended June 30, 2015

Sales and marketing expense was \$3.4 million in the three months ended June 30, 2015, compared to \$4.0 million in the three months ended June 30, 2014, a decrease of \$0.6 million, or 14%. Sales and marketing expense for the organic portion of our business decreased \$1.0 million primarily due to a \$0.3 million decrease in personnel and related costs, \$0.2 million decrease in sales commissions, a \$0.2 million decrease in outsourced contractor fees, and a \$0.1 million decrease in user conference expenses. The 2014 acquisitions contributed \$0.4 million of sales and marketing cost primarily due to \$0.2 million in personnel and related costs and \$0.1 million in sales commissions.

For the Six Months Ended June 30, 2015

Sales and marketing expense was \$7.0 million in the six months ended June 30, 2015, compared to \$7.2 million in the six months ended June 30, 2014, a decrease of \$0.2 million, or 2%. Sales and marketing expense for the organic portion of our business decreased \$1.2 million primarily due to a \$0.3 million decrease in marketing program spend, a \$0.2 million decrease in personnel and related costs, a \$0.2 million decrease in sales commissions, a \$0.2 million decrease in outsourced contractor fees, and a \$0.2 million decrease in user conference expenses. The 2014 acquisitions contributed \$1.0 of sales and marketing cost primarily due to \$0.5 million in personnel and related costs, \$0.2 million in sales commissions, \$0.1 million in marketing program spend, and \$0.1 million in outsourced contractor fees.

Total research and development	22	% 21	%	22	% 57	%	

For the Three Months Ended June 30, 2015

Research and development expense was \$4.2 million in the three months ended June 30, 2015, compared to \$3.5 million in the three months ended June 30, 2014, an increase of \$0.7 million, or 19%. The 2014 acquisitions contributed a \$0.5 million increase to research and development expense primarily due to personnel and related costs. Research and development expense for our organic business increased by \$0.2 million primarily due to a \$0.1 million increase in contractor fees and a \$0.1 million increase in employee stock-based compensation expense.

Refundable Canadian tax credits were substantially unchanged in the three months ended June 30, 2015 as compared to the three months ended June 30, 2014.

For the Six Months Ended June 30, 2015

Research and development expense was \$8.1 million in the six months ended June 30, 2015, compared to \$18.4 million in the six months ended June 30, 2014, a decrease of \$10.3 million, or 56%. Research and development expenses for our organic business decreased by \$11.3 million compared to the prior year period. In January 2014, we issued 1,803,574 shares of common stock in connection with an amendment of a technology services agreement with a related party and took a non-cash charge of \$11.2 million in the first quarter of 2014. Our agreement with the related party is viewed as a fixed purchase commitment contract that obligates us to annual purchase commitments even if we do not take delivery of the contracted services. Since the amended agreement still requires payments for future services that we believe are not discounted from amounts charged to other customers, we believe the fair value of the common stock consideration provided to the related party to amend the agreement does not represent an asset and, accordingly, was expensed immediately. The 2014 acquisitions contributed an increase of \$1.0 million in research and development expense primarily due to personnel and related costs.

Refundable Canadian tax credits were substantially unchanged in the six months ended June 30, 2015 as compared to the six months ended June 30, 2014.

Table of Contents

General and Administrative Expense

	Three Months Ended June 30,			Six Months Ended June 30,			
	2015	2014	% Change	2015	2014	% Change	
	(dollars in thousands)			(dollars in thousands)			
General and administrative	\$4,714	\$3,053	54	% \$9,833	\$5,676	73	%
Percentage of total revenue	27	% 19	%	28	% 18	%	

For the Three Months Ended June 30, 2015

General and administrative expense was \$4.7 million in the three months ended June 30, 2015, compared to \$3.1 million in the three months ended June 30, 2014, an increase of \$1.6 million, or 54%. Of the increase in general and administrative expenses, \$1.3 million is from our organic businesses primarily due to a \$1.0 million increase in personnel and related costs, which were for investments we made in the third and fourth quarters of 2014 in preparation for operating as a public company, a \$0.5 million increase in employee stock-based compensation expense, partially offset by a \$0.2 million decrease in professional service fees. General and administrative expenses include non-cash stock-based compensation of \$0.63 million and \$0.15 million for the three months ended June 30, 2015 and 2014, respectively. General and administrative expenses, excluding non-cash stock-based compensation, for the three months ended June 30, 2015 were \$4.1 million, or 23% of total revenue, and \$2.9 million, or 18% of total revenue, for the three months ended June 30, 2014. The remaining \$0.3 million increase in general and administrative expense was attributable to the 2014 acquisitions which consisted primarily of personnel and related costs.

For the Six Months Ended June 30, 2015

General and administrative expense was \$9.8 million in the six months ended June 30, 2015, compared to \$5.7 million in the six months ended June 30, 2014, an increase of \$4.1 million, or 73%. Of the increase in general and administrative expenses, \$3.5 million is from our organic businesses primarily due to a \$1.9 million increase in personnel and related costs, which were for investments we made in the third and fourth quarters of 2014 in preparation for operating as a public company, a \$0.8 million increase in employee stock-based compensation expense, a \$0.3 million increase in software and license expenses, and a \$0.2 million increase in professional service fees. General and administrative expenses include non-cash stock-based compensation of \$1.1 million and \$0.3 million for the six months ended June 30, 2015 and 2014, respectively. General and administrative expenses, excluding non-cash stock-based compensation, for the six months ended June 30, 2015 were \$8.7 million, or 25% of total revenue, and \$5.4 million, or 17% of total revenue, for the six months ended June 30, 2014. The remaining \$0.6 million increase in general and administrative expense was attributable to the 2014 acquisitions which consisted primarily of personnel and related costs.

Amortization	5	% 5	%	5	% 5	%
Total depreciation and amortization	6	% 7	%	6	% 7	%

For the Three Months Ended June 30, 2015

Depreciation and amortization expense was \$1.1 million in the three months ended June 30, 2015, compared to \$1.1 million in the three months ended June 30, 2014, substantially unchanged year-over-year. The organic businesses decreased by \$0.2 million primarily due to depreciation of equipment. The 2014 acquisitions contributed \$0.2 million in amortization expense primarily due to amortization of intangibles.

For the Six Months Ended June 30, 2015

Depreciation and amortization expense was \$2.1 million in the six months ended June 30, 2015, compared to \$2.1 million in the six months ended June 30, 2014, substantially unchanged year-over-year. The organic businesses decreased by \$0.3 million primarily due to depreciation of equipment. The 2014 acquisitions contributed \$0.3 million in amortization expense primarily due to amortization of intangibles.

Acquisition-related Expenses

	Three Months Ended June 30,			Six Months Ended June 30,		
	2015	2014	% Change	2015	2014	% Change
	(dollars in thousands)			(dollars in thousands)

Percentage of total revenue

Interest expense, net	(3)%	(3)%	(3)%	(3)%
Other expense, net	— %	(3)%	(1)%	(1)%
Total other expense	(3)%	(6)%	(4)%	(4)%

For the Three Months Ended June 30, 2015

Interest expense was \$0.6 million in the three months ended June 30, 2015, compared to \$0.4 million in the three months ended June 30, 2014, an increase in interest expense of \$0.2 million, or 37%. The increase was primarily due to deferred financing costs from our previous credit facility which were written off upon closing our new \$60.0 million credit facility with Wells Fargo Capital Finance.

Other expense was \$0.0 million in the three months ended June 30, 2015, compared to other expense of \$0.5 million in the three months ended June 30, 2014, a decrease in other expense of \$0.5 million, or 98%. The decrease in other expense was due to the \$0.3 million expense in the three months ended June 30, 2014 relating to the convertible preferred stock warrants outstanding as of December 31, 2013. In November 2014, in conjunction with our Initial Public Offering, the outstanding warrants were converted from preferred stock to common stock and the fair value of the corresponding liability was reclassified to additional paid-in capital. Gain on foreign currency re-measurements contributed a \$0.1 million decrease in other expense.

For the Six Months Ended June 30, 2015

Interest expense was \$0.9 million in the six months ended June 30, 2015, compared to \$0.8 million in the six months ended June 30, 2014, an increase in interest expense of \$0.1 million, or 11%. The increase was primarily due to deferred financing costs from our previous credit facility of which were written off upon closing our new \$60.0 million credit facility with Wells Fargo Capital Finance.

Other expense was \$0.5 million in the six months ended June 30, 2015, compared to other expense of \$0.4 million in the six months ended June 30, 2014, an increase in other expense of \$0.1 million, or 42%. The increase in other expense was primarily due to a loss on foreign currency re-measurements.

(Provision for) Benefit from Income Taxes

	Three Months Ended June 30,			Six Months Ended June 30,		
	2015	2014	% Change	2015	2014	% Change
	(dollars in thousands)			(dollars in thousands)

	(2)%	(2)%	— %	(1)%		

For the Three and Six Months Ended June 30, 2015 and 2014

Table of Contents

Provision for income taxes was \$0.2 million in the three months ended June 30, 2015, compared to the provision for income taxes of \$0.3 million in the three months ended June 30, 2014, a decrease in provision for income taxes of \$0.1 million, or 15%. Provision for income taxes was not material for the six months ended June 30, 2015, compared to the provision for income taxes of \$0.7 million for the six months ended June 30, 2014, a decrease in provision for income taxes of \$0.7 million, or 101%. For both 2015 and 2014, we recorded income taxes that were principally attributable to state and foreign taxes, other than deferred taxes related to tax deductible goodwill. The primary decrease in income tax expense for the three and six months ended June 30, 2015 is attributable to lower pre-tax net income in Canada in the three and six months ended June 30, 2015 as compared to the three and six months ended June 30, 2014. Because we have not generated domestic taxable net income in any period to date, we have recorded a full valuation allowance against our domestic net deferred tax assets, exclusive of tax deductible goodwill. Realization of any of our domestic deferred tax assets depends upon future taxable earnings, the timing and amount of which are uncertain. Based on analysis of acquired net operating losses, utilization of our net operating losses will be subject to annual limitations due to the ownership change rules under the Code and similar state provisions. In the event we have subsequent changes in ownership, the availability of net operating losses and research and development credit carryovers could be further limited.

Liquidity and Capital Resources

To date, we have financed our operations primarily through issuance of preferred stock and common stock and cash from operating activities, and to a lesser extent, borrowing under our loan and security agreements and the issuance of seller notes. As of June 30, 2015, we had cash and cash equivalents of \$29.1 million, \$19.9 million of available borrowings under our loan and security agreements, and \$25.1 million of borrowings outstanding under our loan and security agreements compared to cash and cash equivalents of \$31.0 million, \$5.0 million of available borrowings under our loan and security agreements, and \$19.9 million of borrowings outstanding under our loan and security agreements as of December 31, 2014. In addition to the available borrowings noted above, our current credit facility provides for an additional \$10.0 million in subordinated seller notes for acquisitions plus an uncommitted \$15.0 million accordion loan for future acquisitions. See further discussion under the heading Loan and Security Agreements in Note 7 to the unaudited Condensed Consolidated Financial Statements included elsewhere in this Quarterly Report for further details.

As of June 30, 2015 and December 31, 2014, we had a working capital surplus of \$11.0 million and \$2.2 million, respectively, which included \$21.6 million and \$21.2 million of deferred revenue recorded as a current liability as of June 30, 2015 and December 31, 2014, respectively. This deferred revenue will be recognized as revenue in accordance with our revenue recognition policy.

The following table summarizes our cash flows for the periods indicated (including cash flows from discontinued operations):

	Six Months Ended June 30,	
	2015	2014
	(dollars in thousands)	
Consolidated Statements of Cash Flow Data:		
Net cash provided by operating activities	\$872	\$297
Net cash used in investing activities	(3,517) (324
Net cash provided by (used in) financing activities	608	(1,623
Effect of exchange rate fluctuations on cash	101	6
Change in cash and cash equivalents	(1,936) (1,644
Cash and cash equivalents, beginning of period	30,988	4,703
Cash and cash equivalents, end of period	\$29,052	\$3,059

Cash Flows from Operating Activities

Cash used in operating activities is significantly influenced by the amount of cash we invest in personnel and infrastructure to support the anticipated growth of our business. Our operating assets and liabilities consist primarily of receivables from customers and unbilled professional services, accounts payable and accrued expenses and deferred

revenues. The volume of professional services rendered and the related timing of collections on those

33

Table of Contents

bookings, as well as payments of our accounts payable and accrued payroll and related benefits affect these account balances.

Our cash used in operating activities for the six months ended June 30, 2015 primarily reflects our net loss of \$7.1 million, offset by non-cash expenses that included \$4.0 million of depreciation and amortization, \$0.3 million of foreign currency re-measurement losses, and \$1.3 million of non-cash stock compensation expense. Working capital sources of cash included a \$1.5 million decrease in accounts receivable, a \$0.9 million increase in deferred revenue, and a \$0.4 million increase in accounts payable. These sources of cash were offset by a \$1.1 million decrease in accrued expenses and other liabilities.

A substantial source of cash is provided as a result of invoicing for subscriptions in advance, which is recorded as deferred revenue, and is included on our consolidated balance sheet as a liability. Deferred revenue consists of the unearned portion of booked fees for our software subscriptions and support, which is amortized into revenue in accordance with our revenue recognition policy. We assess our liquidity, in part, through an analysis of new subscriptions invoiced, expected cash receipts on new and existing subscriptions, and our ongoing operating expense requirements.

Cash Flows from Investing Activities

Our primary investing activities have consisted of acquisitions of complementary technologies, products and businesses. As our business grows, we expect our primary investing activities to continue to further expand our family of software applications and infrastructure and support additional personnel.

For the six months ended June 30, 2015 cash used in investing activities for business combinations, consisted of cash proceeds paid during the period to certain sellers of Mobile Commons, which was acquired in December, 2014 totaling \$2.8 million, purchases of customer relationships of \$0.4 million and purchases of property and equipment of \$0.3 million.

Our future capital requirements will depend on many factors, including our growth rate, the timing and extent of spending to support research and development efforts, the expansion of sales and marketing activities, the introduction of new and enhanced applications and professional service offerings and acquisitions of complementary technologies, products and businesses.

Cash Flows from Financing Activities

Our primary financing activities have consisted of capital raised to fund our operations, proceeds from debt obligations entered into to finance our operations, repayments of our debt obligations and share based payment activity.

During the six months ended June 30, 2015, in conjunction with a new debt facility closed in May, 2015, we borrowed \$23.8 million of notes payable, net of issuance costs of \$1.1 million, repaid \$22.8 million of notes payable and made principal payments of \$0.5 million on capital leases.

Loan and Security Agreements

New Credit Facility

On May 14, 2015 the Company entered into a \$60 million credit facility with Wells Fargo Capital Finance. The facility is comprised of a \$25 million term loan which paid off the existing Comerica Bank debt of approximately \$19 million and increased the Company's cash on hand by approximately \$6 million (less fees related to the transaction) for working capital and acquisitions. The facility also provides for \$10 million in revolving credit and a \$10 million delayed draw term loan for acquisitions. Additionally, the facility provides for an uncommitted \$15 million accordion loan to further support future acquisitions. The facility contains provisions for an additional \$10 million of subordinated seller notes for acquisitions. In addition, the facility permits stock buybacks, subject to certain liquidity requirements. The 5-year facility is subject to customary covenants primarily based on future Company performance measures including recurring revenue and adjusted EBITDA. These financial covenants become more restrictive starting September 30, 2017.

Table of Contents

Termination of Prior Credit Facility

On May 14, 2015, the Company terminated the U.S. Comerica Agreement and the Canadian Comerica Agreement, the details of which have been previously disclosed.

Contractual Payment Obligations

Other than as set forth below, there have been no material changes outside the ordinary course of the our business to the contractual payment obligations disclosed in our Annual Report on Form 10-K for the year ended December 31, 2014, filed with the SEC on March 31, 2015.

On May 14, 2015, we terminated our loan agreements with Comerica Bank and entered into a \$60 million credit facility with Wells Fargo Capital Finance. As of June 30, 2015, there was \$25.1 million outstanding under the credit facility, \$25 million of which was outstanding under the term loan portion of the credit facility and \$0.1 million of which was outstanding under the revolving portion of the credit facility.

As of June 30, 2015, the expected payments under the credit facility are estimated to be approximately \$0.6 million for fiscal year ended December 31, 2015, \$1.3 million for fiscal year ended December 31, 2016, \$1.3 million for fiscal year ended December 31, 2017, \$1.2 million for fiscal year ended December 31, 2018, \$1.2 million for the fiscal year ended December 31, 2019, \$19.5 million for fiscal year ended December 31, 2020 and \$0.0 million for the fiscal years ended December 31st thereafter. See further discussion under the heading Loan and Security Agreements in Note 7 to the reviewed consolidated financial statements included in this Quarterly Report for additional details regarding our obligations under the credit facility.

Off-Balance Sheet Arrangements

During the six months ended June 30, 2015 and 2014, we did not have any relationships with unconsolidated organizations or financial partnerships, such as structured finance or special-purpose entities, that would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes.

Critical Accounting Policies and the Use of Estimates

We prepare our consolidated financial statements in accordance with generally accepted accounting principles in the United States. The preparation of consolidated financial statements also requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, costs and expenses and related disclosures. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results could differ significantly from the estimates made by our management. To the extent that there are differences between our estimates and actual results, our future financial statement presentation, financial condition, results of operations and cash flows will be affected. We believe that the accounting policies discussed below are critical to understanding our historical and future performance, as these policies relate to the more significant areas involving management's judgments and estimates.

The following critical accounting policies reflect significant judgments and estimates used in the preparation of our consolidated financial statements:

- revenue recognition and deferred revenue;
- stock-based compensation;
- income taxes; and
- business combinations and the recoverability of goodwill and long-lived assets.

Table of Contents

Our unaudited interim financial statements and other financial information for the three and six months ended June 30, 2015, as presented herein and in Item 1 to this Quarterly Report on Form 10-Q, reflects no material changes in our critical accounting policies and estimates as set forth in our Annual report on Form 10-K for the year ended December 31, 2014 filed with the SEC on March 31, 2015. Please refer to this Annual Report for a detailed description of our critical accounting policies that involve significant management judgment.

We evaluate our estimates, judgments and assumptions on an ongoing basis, and while we believe that our estimates, judgments and assumptions are reasonable, they are based upon information available at the time. Actual results may differ significantly from these estimates under different assumptions, judgments or conditions.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We have operations both within the United States and internationally, and we are exposed to market risks in the ordinary course of our business. These risks primarily include interest rate, foreign exchange and inflation risks, as well as risks relating to changes in the general economic conditions in the countries where we conduct business. The statement of operations impact is mitigated by having an offsetting liability in deferred revenue to partially or completely offset against the outstanding receivable if an account should become uncollectible. Our cash balances are kept in customary operating accounts, a portion of which are insured by the Federal Deposit Insurance Corporation, and uninsured money market accounts. The majority of our cash balances in money market accounts are with Comerica Bank, our former lender under our loan and security agreements. To date, we have not used derivative instruments to mitigate the impact of our market risk exposures. We also have not used, nor do we intend to use, derivatives for trading or speculative purposes.

Interest Rate Risk

Our exposure to market risk for changes in interest rates primarily relates to our cash equivalents and any variable rate indebtedness. The primary objective of our investment activities is to preserve principal while maximizing yields without significantly increasing risk. This objective is accomplished currently by making diversified investments, consisting only of money market mutual funds and certificates of deposit. Any draws under our loan and security agreements bear interest at a variable rate tied to the prime rate. As of June 30, 2015, we had a principal balance of \$19.0 million under our U.S. Term Loan, \$0.1 million under our U.S. Revolver, \$6.0 million under our Canadian Term Loan and \$28 thousand under our Canadian Revolver. As of December 31, 2014, we had a principal balance of \$16.5 million under our U.S. Loan Agreement and \$3.4 million under our Canadian Loan Agreement.

Foreign Currency Exchange Risk

Our results of operations and cash flows are subject to fluctuations due to changes in foreign currency exchange rates. In addition, we incur a portion of our operating expenses in foreign currencies, including Canadian dollars, British pounds and Euros, and in the future as we expand into other foreign countries, we expect to incur operating expenses in other foreign currencies. In addition, our customers are generally invoiced in the currency of the country in which they are located. We are exposed to foreign exchange rate fluctuations as the financial results of our international operations are translated from the local functional currency into U.S. dollars upon consolidation. A decline in the U.S. dollar relative to foreign functional currencies would increase our non-U.S. revenue and improve our operating results. Conversely, if the U.S. dollar strengthens relative to foreign functional currencies, our revenue and operating results would be adversely affected. The effect of a hypothetical 10% change in foreign currency exchange rates applicable to our business would have resulted in a change in revenue of \$0.7 million for the six months ended June 30, 2015. To date, we have not engaged in any hedging strategies. As our international operations grow, we will continue to reassess our approach to manage our risk relating to fluctuations in foreign currency exchange rates.

Table of Contents

Inflation

We do not believe that inflation had a material effect on our business, financial condition or results of operations in the last three fiscal years. If our costs were to become subject to significant inflationary pressures, we may not be able to fully offset such higher costs through price increases. Our inability or failure to do so could harm our business, financial condition and results of operations.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act refers to controls and procedures that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that such information is accumulated and communicated to a company’s management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures as of June 30, 2015, the end of the period covered by this Quarterly Report on Form 10-Q. Based upon such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of such date.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the most recent fiscal quarter ended June 30, 2015 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Risks Related to Our Business

Other than with respect to the replacement of the risk factor entitled Our loan agreements contain operating and financial covenants that may restrict our business and financing activities set forth in our Annual Report on Form 10-K for the year ended December 31, 2014, with the risk factor set forth below, there have been no material changes from the risk factors disclosed in our Annual Report on Form 10-K for the year ended December 31, 2014.

Our credit facility contains operating and financial covenants that may restrict our business and financing activities. On May 14, 2015, we entered into a \$60 million credit facility with Wells Fargo Capital Finance. The facility is comprised of a \$25 million term loan, a \$10 million revolving credit facility and a \$10 million delayed draw term loan for acquisitions. Additionally, the facility provides for an uncommitted \$15 million accordion loan to further support future acquisitions and an additional \$10 million of subordinated seller notes for acquisitions. As of June 30, 2015, there was \$25.1 million outstanding under the credit facility, \$25 million of which was outstanding under the term loan portion and \$.1 million outstanding under the revolving portion of the credit facility.

Our obligations and the obligations of the co-borrowers and any guarantors under the Wells Fargo credit facility are secured by a security interest in substantially all of our assets and assets of the co-borrowers’ and of any guarantors, including intellectual property. The terms of the credit facility limits, among other things, our ability to

- sell, lease, license or otherwise dispose of assets;
- undergo a change in control;

Table of Contents

- consolidate or merge with or into other entities;
- make or own loans, investments and acquisitions;
- create, incur or assume guarantees in respect of obligations of other persons;
- create, incur or assume liens and other encumbrances; or
- pay dividends or make distributions on, or purchase or redeem, our capital stock.

Furthermore, the Wells Fargo credit facility requires us and our subsidiaries to comply with certain financial covenants. The operating and other restrictions and covenants in the credit facility, and in any future financing arrangements that we may enter into, may restrict our ability to finance our operations, engage in certain business activities, or expand or fully pursue our business strategies, or otherwise limit our discretion to manage our business. Our ability to comply with these restrictions and covenants may be affected by events beyond our control, and we may not be able to meet those restrictions and covenants. A breach of any of the restrictions and covenants could result in a default under the credit facility or any future financing arrangements, which could cause any outstanding indebtedness under the credit facility or under any future financing arrangements to become immediately due and payable, and result in the termination of commitments to extend further credit.
