Effective January 1, 2015, companies incorporated in Louisiana became subject to the Louisiana Business Corporation Act (“LBCA”), which eliminates the concept of treasury stock and provides that shares reacquired by a company are to be treated as authorized but unissued. Refer to Note 1, Summary of Significant Accounting Policies, in the Annual Report on Form 10-K for the year ended December 31, 2015, for further discussion.

IBERIABANK CORPORATION AND SUBSIDIARIES

Notes to Unaudited Consolidated Financial Statements

NOTE 1 – BASIS OF PRESENTATION

General

The accompanying unaudited consolidated financial statements have been prepared in accordance with GAAP for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all information or footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments, consisting of normal and recurring items, necessary for a fair presentation of the consolidated financial statements have been made. These interim financial statements should be read in conjunction with the audited consolidated financial statements and footnote disclosures for the Company previously filed with the SEC in the Company's Annual Report on Form 10-K for the year ended December 31, 2015. Operating results for the period ended June 30, 2016 are not necessarily indicative of the results that may be expected for the year ending December 31, 2016.

When we refer to the "Company," "we," "our," or "us" in this Report, we mean IBERIABANK Corporation and subsidiaries (consolidated). When we refer to the "Parent," we mean IBERIABANK Corporation. See the Glossary of Acronyms at the end of this Report for terms used throughout this Report.

Principles of Consolidation

The Company's consolidated financial statements include all entities in which the Company has a controlling financial interest under either the voting interest or variable interest model. The assessment of whether or not the Company has a controlling interest (i.e., the primary beneficiary) in a variable interest entity ("VIE") is performed on an on-going basis. All equity investments in non-consolidated VIEs are included in "other assets" in the Company's consolidated balance sheets. The Company's maximum exposure to loss as a result of its involvement with non-consolidated VIEs was approximately \$162 million and \$160 million at June 30, 2016 and December 31, 2015, respectively. The Company's maximum exposure to loss was equivalent to the carrying value of its investments and any related outstanding loans to the non-consolidated VIEs.

Investments in entities that are not consolidated are accounted for under either the equity, cost, or proportional amortization method of accounting. Investments for which the Company has the ability to exercise significant influence over the operating and financing decisions of the entity are accounted for under the equity method. Investments for which the Company does not hold such ability are accounted for under the cost method. Investments in qualified affordable housing projects, which meet certain criteria, are accounted for under the proportional amortization method.

The consolidated financial statements include the accounts of the Company and its subsidiaries, IBERIABANK; Lenders Title Company; IBERIA Capital Partners, LLC; 1887 Leasing, LLC; IBERIA Asset Management, Inc.; 840 Denning, LLC; and IBERIA CDE, LLC. All significant intercompany balances and transactions have been eliminated in consolidation.

Nature of Operations

The Company offers commercial and retail banking products and services to customers throughout locations in seven states through IBERIABANK. The Company also operates mortgage production offices in 10 states through IMC and offers a full line of title insurance and closing services throughout Arkansas and Louisiana through LTC and its subsidiaries. ICP provides equity research, institutional sales and trading, and corporate finance services throughout the energy industry. 1887 Leasing, LLC owns an aircraft used by management of the Company. IAM provides wealth management and trust services for commercial and private banking clients. CDE is engaged in the purchase of tax credits.

Reclassifications

Certain amounts reported in prior periods have been reclassified to conform to the current period presentation. These reclassifications did not have a material effect on previously reported consolidated net income, shareholders' equity or cash flows.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. Material estimates that are susceptible to significant change in the near term are the allowance for credit losses, valuation of and accounting for acquired loans, goodwill and other intangibles, income taxes, and fair value estimates.

Concentrations of Credit Risk

Most of the Company's business activity is with customers located within the states of Louisiana, Florida, Arkansas, Alabama, Texas, Tennessee and Georgia. The Company's lending activity is concentrated in its market areas in those states. The Company has emphasized originations of commercial loans and private banking loans, defined as loans to larger consumer clients. Concentrations in commercial real estate have increased as a result of the Company's recent acquisitions of CRE-focused banks. Repayments on loans are expected to come from cash flows of the borrower and/or guarantor. Losses on secured loans are limited by the value of the collateral upon default of the borrowers and guarantor support. The Company does not have any significant concentrations to any one industry or customer.

NOTE 2 – RECENT ACCOUNTING PRONOUNCEMENTS

ASU No. 2015-02

In February 2015, the FASB issued ASU No. 2015-02, Consolidation - Amendments to the Consolidation Analysis, which changes the analysis that a reporting entity must perform to determine whether it should consolidate certain types of legal entities. The amendments in the guidance: 1) modify the evaluation of whether limited partnerships and similar legal entities are variable interest entities or voting interest entities, 2) eliminate the presumption that a general partner should consolidate a limited partnership, 3) affect the consolidation analysis of reporting entities that are involved with VIEs, particularly those that have fee arrangements and related party relationships, and 4) provide a scope exception from consolidation guidance for certain investment funds.

The Company adopted the amendment, effective January 1, 2016, through retrospective application on all existing agreements; however, there was no resulting change to amounts reported in prior periods. Refer to Note 1 for current principles of consolidation.

ASU No. 2015-05

In April 2015, the FASB issued new accounting guidance related to whether a cloud computing arrangement includes a software license (ASU No. 2015-05, Intangibles-Goodwill and Other-Internal-Use Software (Subtopic 350-40): Customer's Accounting for Fees Paid in a Cloud Computing Arrangement). If a cloud computing arrangement includes a software license, the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract.

The Company adopted the amendment prospectively on all arrangements entered into or materially modified beginning January 1, 2016, on an individual arrangement basis. The impact of adoption has not been material to the Company's consolidated financial statements.

ASU No. 2016-02

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842). The most significant amendment to existing GAAP is the recognition of lease assets (i.e., right of use assets) and liabilities on the balance sheet for leases that are classified as operating leases by lessees. Lessees may also make a policy election to scope out all short-term leases, defined as leases with lease terms (including options to extend) that are less than 12 months. In general, the lessor model is similar to the current model. Amendments to lessor accounting largely align with certain changes to the lessee model and lease recognition criteria within ASC Topic 606 - Revenue from Contracts with Customers. Additional amendments include the elimination of leveraged leases; modification to the definition of a lease; clarification on separating lease components from non-lease components (including a practical expedient not to separate components, by class of assets); amendments on sale and leaseback guidance to include evaluating "sale" criteria in accordance with ASC Topic 606 - Revenue from Contracts with Customers; and disclosure of additional quantitative and qualitative information.

ASU 2016-02 will be effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early adoption is permitted. Lessees and lessors are required to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach. Lessees and lessors are also required to disclose the other comparative amounts for each prior period presented in the financial statements as if the updated guidance had always been applied, including practical expedients (if elected) for lease determination, lease classification, initial direct costs, lease term (i.e., probability of lease extension), and impairment.

The Company is currently evaluating the impact of the ASU on the Company's consolidated financial statements, including whether to adopt any practical expedients or policy elections from this ASU. The Company is not expecting to early adopt the ASU.

ASU No. 2016-08 and ASU No. 2016-10

In March 2016, the FASB issued ASU No. 2016-08, Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net), which is intended to improve implementation guidance on principal versus agency considerations within Topic 606. The amendments clarify the following:

- How an entity could be both principal and agent in a contract with a customer that includes more than one specified good or service;

- How an entity determines the nature of its promise (to provide each specified good or service);

- How control over the good or service, prior to transfer to the customer, determines the assessment of principal or agency for each specified good or service in the contract; and

- How the indicators that an entity is the principal within the implementation guidance of Topic 606 support or assist in the assessment of control as one or more indicators may be more or less persuasive than others.

In April 2016, the FASB issued ASU No. 2016-10, Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing, which is intended to improve implementation guidance on identifying performance obligations and licensing aspects of Topic 606. Only a few of the amendments may potentially impact the Company. These amendments are as follows:

- When identifying performance obligations, whether it is necessary to assess whether promised goods or services are performance obligations if they are immaterial in the context of the contract; and

- Determining whether promised goods and services are separately identifiable (that is, distinct within the context of the contract).

The amendments in ASU No. 2016-08 and No. 2016-10 will be effective for annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. Early adoption is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that annual reporting period. The amendments will be applied through the election of one of two retrospective methods. The Company is currently evaluating the impact of the ASU on the Company's consolidated financial statements. The Company is not expecting to early adopt the ASU.

ASU No. 2016-09

In March 2016, the FASB issued ASU No. 2016-09, Compensation-Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. The amendments will require recognition of excess tax benefits and deficiencies associated with awards which vest or settle within income tax expense or benefit in the statement of comprehensive income, with the tax effects treated as discrete items in the reporting period in which they occur. The ASU further requires entities to recognize excess tax benefits regardless of whether the benefit reduces taxes payable in the current period. In addition, excess tax benefits will be classified as an operating activity rather than as a financing activity in the statement of cash flows. This will eliminate the current APIC pool concept.

The amendments will allow an accounting policy election to account for forfeitures as they occur as opposed to estimating the forfeiture rate. Entities will also be permitted to withhold up to the maximum statutory tax rates in the applicable jurisdictions while still qualifying for equity classification and will subsequently classify all cash paid for withholding shares for tax-withholding purposes as a financing activity in the statement of cash flows.

ASU 2016-09 will be effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. Amendments related to the timing of when excess tax benefits are recognized, minimum statutory withholding requirements, and forfeitures should be applied using a modified retrospective transition method.

Amendments related to the presentation of employee taxes paid on the statement of cash flows when an employer withholds shares to meet the minimum statutory withholding requirement should be applied retrospectively.

Amendments requiring recognition of excess tax benefits and tax deficiencies in the income statement should be applied prospectively. An entity may elect to apply the amendments related to the presentation of excess tax benefits on the statement of cash flows using either a prospective transition method or a retrospective transition method.

The Company expects to elect an accounting policy to account for forfeitures as they occur upon adoption. Based on the Company's current stock valuation, it does not anticipate a significant impact to the Company's consolidated financial statements at adoption.

ASU No. 2016-12

In May 2016, the FASB issued ASU No. 2016-12, Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients, which is intended to improve implementation guidance on certain narrow aspects of Topic 606. The amendments in this ASU:

- Clarify how an entity assesses the collectability criterion in Step 1 of Topic 606;
- Permit, as an accounting policy election, entities to exclude from the transaction price amounts collected from customers for all sales (and other similar) taxes;
- Specify the measurement date of noncash consideration as the date of contract inception;
- Clarify when a contract is considered completed for purposes of transition of Topic 606; and
- Clarify that an entity that retrospectively applies the guidance in Topic 606 to each prior reporting period is not required to disclose the effect of the accounting change for the period of adoption. However, an entity is still required to disclose the effect of the changes on any prior periods retrospectively adjusted.

The amendments in ASU No. 2016-12 will be effective for annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. Early adoption is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that annual reporting period. The amendments will be applied through the election of one of two retrospective methods.

The Company is currently evaluating the impact of the ASU on the Company's consolidated financial statements. The Company is not expecting to early adopt the ASU.

ASU No. 2016-13

In June 2016, the FASB issued ASU No. 2016-13, Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. The amendments introduce an impairment model that is based on expected credit losses ("ECL"), rather than incurred losses, to estimate credit losses on certain types of financial instruments (e.g., loans and held-to-maturity securities), including certain off-balance sheet financial instruments (e.g., loan commitments). The model is generally referred to as current expected credit losses ("CECL"). The ECL should consider historical information, current information, and reasonable and supportable forecasts, including estimates of prepayments, over the contractual term. Financial instruments with similar risk characteristics may also be grouped together when estimating the ECL.

The ASU also amends the current AFS security impairment model for debt securities. The new model will require an estimate of ECL when the fair value is below the amortized cost of the asset through the use of an allowance to record estimated credit losses (and subsequent recoveries). The length of time the fair value of an AFS debt security has been below the amortized cost will no longer impact the determination of whether a credit loss exists. Non-credit related losses will continue to be recognized through OCI.

In addition, the amendments provide for a simplified accounting model for purchased financial assets with a more-than-insignificant amount of credit deterioration since their origination ("PCD" model). The initial estimate of expected credit losses for a PCD would be recognized through an ALL with an offset (i.e., increase) to the cost basis of the related financial asset at acquisition. Subsequently, the accounting will follow the applicable CECL or AFS debt security impairment model with all adjustments of the ALL recognized through earnings.

The ASU permits entities to use practical expedients to measure ECL for collateral dependent financial assets and financial assets for which the borrower must continually adjust the amount of securing collateral (e.g., repurchase agreements).

ASU 2016-13 will be effective for fiscal years beginning after December 15, 2019, including interim periods. The amendments arising from the CECL and PCD models will be applied through a modified-retrospective approach, resulting in a cumulative-effect adjustment to retained earnings as of the beginning of the first reporting period in which the guidance is effective. A prospective transition approach is required for debt securities for which OTTI had been recognized before the effective date. Amounts previously recognized in AOCI as of the date of adoption that relate to improvements in cash flows expected to be collected should continue to be accreted into income over the remaining life of the asset. Recoveries of amounts previously written off relating to improvements in cash flows after the date of adoption should be recorded in earnings when received.

The Company is currently evaluating the impact of the ASU on the Company's consolidated financial statements.

NOTE 3 –ACQUISITION ACTIVITY

During 2015, the Company expanded its presence in Florida and Georgia through acquisitions of Florida Bank Group, Inc. on February 28, 2015, Old Florida Bancshares, Inc. on March 31, 2015, and Georgia Commerce Bancshares, Inc. on May 31, 2015. Further information on these acquisitions can be found in Note 3, Acquisition Activity, in the 2015 Annual Report on Form 10-K for the year ended December 31, 2015.

The Company accounts for business combinations under the acquisition method in accordance with ASC Topic 805, Business Combinations. Accordingly, for each transaction, the purchase price is allocated to the fair value of the assets acquired and liabilities assumed as of the date of acquisition. In conjunction with the adoption of ASU 2015-16, upon receipt of final fair value estimates during the measurement period, which must be within one year of the acquisition dates, the Company records any adjustments to the preliminary fair value estimates in the reporting period in which the adjustments are determined. Information regarding the Company's loan discount and related deferred tax assets, core deposit intangible assets and related deferred tax liabilities, as well as income taxes payable and the related deferred tax balances, among other assets and liabilities recorded in the acquisitions may be adjusted as the Company refines its estimates. Determining the fair value of assets and liabilities, particularly illiquid assets and liabilities, is a complicated process involving significant judgment. Fair value adjustments based on updated estimates could materially affect the goodwill recorded on the acquisitions. The Company may incur losses on the acquired loans that are materially different from losses the Company originally projected and included in the fair value estimates of loans.

During the first quarter of 2016, the Company finalized the purchase price allocations related to the Florida Bank Group and Old Florida acquisitions. During the second quarter of 2016, the Company finalized the purchase price allocation related to the Georgia Commerce acquisition. The year-to-date impact of these adjustments was a \$2.3 million increase to goodwill, with an offsetting decrease to net deferred tax assets.

The following tables summarize the consideration paid, allocation of purchase price to net assets acquired and resulting goodwill for the aforementioned acquisitions.

Acquisition of Florida Bank Group, Inc.

| (Dollars in thousands) | Number of Shares | Amount |
|---|------------------|----------|
| Equity consideration | | |
| Common stock issued | 752,493 | \$47,497 |
| Total equity consideration | | 47,497 |
| Non-Equity consideration | | |
| Cash | | 42,988 |
| Total consideration paid | | 90,485 |
| Fair value of net assets assumed including identifiable intangible assets | | 73,043 |
| Goodwill | | \$17,442 |

| (Dollars in thousands) | As Acquired | Fair Value Adjustments | As recorded by the Company |
|-------------------------------|-------------|---------------------------|-------------------------------|
| Assets | | | |
| Cash and cash equivalents | \$ 72,982 | \$ — | \$ 72,982 |
| Investment securities | 107,236 | 136 | (1) 107,372 |
| Loans | 312,902 | (5,371) | (2) 307,531 |
| Other real estate owned | 498 | (75) | (3) 423 |
| Core deposit intangible | — | 4,489 | (4) 4,489 |
| Deferred tax asset, net | 18,151 | 8,569 | (5) 26,720 |
| Other assets | 29,817 | (8,949) | (6) 20,868 |
| Total Assets | \$ 541,586 | \$ (1,201) | \$ 540,385 |
| Liabilities | | | |
| Interest-bearing deposits | \$ 282,417 | \$ 263 | (7) \$ 282,680 |
| Non-interest-bearing deposits | 109,548 | — | 109,548 |
| Borrowings | 60,000 | 8,598 | (8) 68,598 |
| Other liabilities | 1,898 | 4,618 | (9) 6,516 |
| Total Liabilities | \$ 453,863 | \$ 13,479 | \$ 467,342 |

Explanation of certain fair value adjustments:

(1) The amount represents the adjustment of the book value of Florida Bank Group's investments to their estimated fair value on the date of acquisition.

The amount represents the adjustment of the book value of Florida Bank Group's loans to their estimated fair values based on acquisition date interest rates and expected cash flows, which includes estimates of expected credit losses inherent in the portfolio.

(2) The adjustment represents the adjustment of Florida Bank Group's OREO to its estimated fair value less costs to sell on the date of acquisition.

(3) The amount represents the fair value of the core deposit intangible asset created in the acquisition.

(4) The amount represents the deferred tax asset recognized on the fair value adjustments of Florida Bank Group acquired assets and assumed liabilities.

(5) The amount represents the adjustment of the book value of Florida Bank Group's property, equipment, and other assets to their estimated fair value at the acquisition date based on their appraised value.

(6) The amount represents the adjustment of the book value of Florida Bank Group's time deposits to their estimated fair values at the date of acquisition.

(7) The amount represents the adjustment of the book value of Florida Bank Group's borrowings to their estimated fair value based on acquisition date interest rates and the credit characteristics inherent in the liability.

(8) The amount is necessary to record Florida Bank Group's rent liability at fair value.

(9) Acquisition of Old Florida Bancshares, Inc.

| (Dollars in thousands) | Number of Shares | Amount |
|---|------------------|------------|
| Equity consideration | | |
| Common stock issued | 3,839,554 | \$ 242,007 |
| Total equity consideration | | 242,007 |
| Non-Equity consideration | | |
| Cash | | 11,145 |
| Total consideration paid | | 253,152 |
| Fair value of net assets assumed including identifiable intangible assets | | 152,375 |
| Goodwill | | \$ 100,777 |

| (Dollars in thousands) | As Acquired | Fair Value Adjustments | As recorded by the Company |
|-------------------------------|---------------------|---------------------------|-------------------------------|
| Assets | | | |
| Cash and cash equivalents | \$ 360,688 | \$ — | \$ 360,688 |
| Investment securities | 67,209 | — | 67,209 |
| Loans held for sale | 5,952 | — | 5,952 |
| Loans | 1,073,773 | (10,822) | (1) 1,062,951 |
| Other real estate owned | 4,515 | 1,449 | (2) 5,964 |
| Core deposit intangible | — | 6,821 | (3) 6,821 |
| Deferred tax asset, net | 9,490 | 4,388 | (4) 13,878 |
| Other assets | 30,549 | (7,238) | (5) 23,311 |
| Total Assets | \$ 1,552,176 | \$ (5,402) | \$ 1,546,774 |
| Liabilities | | | |
| Interest-bearing deposits | \$ 1,048,765 | \$ 123 | (6) \$ 1,048,888 |
| Non-interest-bearing deposits | 340,869 | — | 340,869 |
| Borrowings | 1,528 | — | 1,528 |
| Other liabilities | 3,038 | 76 | (7) 3,114 |
| Total Liabilities | \$ 1,394,200 | \$ 199 | \$ 1,394,399 |

Explanation of certain fair value adjustments:

The amount represents the adjustment of the book value of Old Florida's loans to their estimated fair values based (1) on acquisition date interest rates and expected cash flows, which includes estimates of expected credit losses inherent in the portfolio.

(2) The adjustment represents the adjustment of Old Florida's OREO to its estimated fair value less costs to sell on the date of acquisition.

(3) The amount represents the fair value of the core deposit intangible asset created in the acquisition.

(4) The amount represents the net deferred tax asset recognized on the fair value adjustment of Old Florida acquired assets and assumed liabilities.

(5) The amount represents the adjustment of the book value of Old Florida's property, equipment, and other assets to their estimated fair value at the acquisition date based on their appraised value.

(6) The amount represents the adjustment of the book value of Old Florida's time deposits to their estimated fair values on the date of acquisition.

(7) The adjustment is necessary to record Old Florida's rent liability at fair value.

Acquisition of Georgia Commerce Bancshares, Inc

| (Dollars in thousands) | Number of Shares | Amount |
|---|------------------|------------------|
| Equity consideration | | |
| Common stock issued | 2,882,357 | \$ 185,249 |
| Total equity consideration | | 185,249 |
| Non-Equity consideration | | |
| Cash | | 5,015 |
| Total consideration paid | | 190,264 |
| Fair value of net assets assumed including identifiable intangible assets | | 103,569 |
| Goodwill | | \$ 86,695 |

| (Dollars in thousands) | As Acquired | Fair Value Adjustments | As recorded by the Company |
|-------------------------------|---------------------|---------------------------|-------------------------------|
| Assets | | | |

| Other liabilities | 4,171 | — | 4,171 |
| Total Liabilities | \$ 925,247 | \$ 176 | \$ 925,423 |

Explanation of certain fair value adjustments:

(1) The amount represents the adjustment of the book value of Georgia Commerce's investments to their estimated fair value on the date of acquisition.

The amount represents the adjustment of the book value of Georgia Commerce's loans to their estimated fair value based on acquisition date interest rates and expected cash flows, which includes estimates of expected credit losses inherent in the portfolio.

(3) The adjustment represents the adjustment of Georgia Commerce's OREO to its estimated fair value less costs to sell on the date of acquisition.

(4) The amount represents the fair value of the core deposit intangible asset created in the acquisition.

(5) The amount represents the net deferred tax asset recognized on the fair value adjustment of Georgia Commerce acquired assets and assumed liabilities.

(6) The amount represents the adjustment of the book value of Georgia Commerce's property, equipment, and other assets to their estimated fair value at the acquisition date based on their appraised value.

(7) The amount represents the adjustment of the book value of Georgia Commerce's time deposits to their estimated fair values at the date of acquisition.

NOTE 4 – INVESTMENT SECURITIES

The amortized cost and fair values of investment securities, with gross unrealized gains and losses, consist of the following:

| (Dollars in thousands) | June 30, 2016 | | | |
|--|----------------|------------------------|-------------------------|-------------|
| | Amortized Cost | Gross Unrealized Gains | Gross Unrealized Losses | Fair Value |
| Securities available for sale: | | | | |
| U.S. Government-sponsored enterprise obligations | \$218,151 | \$ 3,642 | \$— | \$221,793 |
| Obligations of states and political subdivisions | 232,591 | 9,608 | — | 242,199 |
| Mortgage-backed securities | 2,190,563 | 35,460 | (792) | 2,225,231 |
| Other securities | 85,510 | 1,351 | (69) | 86,792 |
| Total securities available for sale | \$2,726,815 | \$ 50,061 | \$(861) | \$2,776,015 |
| Securities held to maturity: | | | | |
| Obligations of states and political subdivisions | \$65,838 | \$ 3,208 | \$— | \$69,046 |
| Mortgage-backed securities | 27,066 | 347 | (220) | 27,193 |
| Total securities held to maturity | \$92,904 | \$ 3,555 | \$(220) | \$96,239 |

| (Dollars in thousands) | December 31, 2015 | | | |
|--|-------------------|------------------------|-------------------------|-------------|
| | Amortized Cost | Gross Unrealized Gains | Gross Unrealized Losses | Fair Value |
| Securities available for sale: | | | | |
| U.S. Government-sponsored enterprise obligations | \$252,514 | \$ 1,161 | \$(1,592) | \$252,083 |
| Obligations of states and political subdivisions | 182,541 | 5,429 | (9) | 187,961 |
| Mortgage-backed securities | 2,272,879 | 8,457 | (16,523) | 2,264,813 |
| Other securities | 95,496 | 430 | (497) | 95,429 |
| Total securities available for sale | \$2,803,430 | \$ 15,477 | \$(18,621) | \$2,800,286 |
| Securities held to maturity: | | | | |
| Obligations of states and political subdivisions | \$69,979 | \$ 2,803 | \$(101) | \$72,681 |
| Mortgage-backed securities | 28,949 | 107 | (776) | 28,280 |
| Total securities held to maturity | \$98,928 | \$ 2,910 | \$(877) | \$100,961 |

Securities with carrying values of \$1.3 billion and \$1.4 billion were pledged to secure public deposits and other borrowings at June 30, 2016 and December 31, 2015, respectively.

Information pertaining to securities with gross unrealized losses, aggregated by investment category and length of time that individual securities have been in a continuous loss position, is as follows:

| | June 30, 2016 | | | | | |
|-------------------------------------|-------------------------|------------|-------------------------|------------|-------------------------|------------|
| | Less Than Twelve Months | | Over Twelve Months | | Total | |
| (Dollars in thousands) | Gross Unrealized Losses | Fair Value | Gross Unrealized Losses | Fair Value | Gross Unrealized Losses | Fair Value |
| Securities available for sale: | | | | | | |
| Mortgage-backed securities | \$(259) | \$41,403 | \$(533) | \$94,658 | \$(792) | \$136,061 |
| Other securities | (38) | 10,998 | (31) | 6,708 | (69) | 17,706 |

The Company assessed the nature of the losses in its portfolio as of June 30, 2016 and December 31, 2015 to determine if there are losses that should be deemed other-than-temporary. In its analysis of these securities, management considered numerous factors to determine whether there were instances where the amortized cost basis of the debt securities would not be fully recoverable, including, but not limited to:

- The length of time and extent to which the estimated fair value of the securities was less than their amortized cost,
- Whether adverse conditions were present in the operations, geographic area, or industry of the issuer,
- The payment structure of the security, including scheduled interest and principal payments, the issuer's failure to make scheduled payments, if any, and the likelihood of failure to make scheduled payments in the future,
- Changes to the rating of the security by a rating agency, and
- Subsequent recoveries or additional declines in fair value after the balance sheet date.

Management believes it has considered these factors, as well as all relevant information available, when determining the expected future cash flows of the securities in question. In each instance, management has determined the cost basis of the securities would be fully recoverable. Management also has the intent to hold debt securities until their maturity or anticipated recovery if the security is classified as available for sale. In addition, management does not believe the Company will be required to sell debt securities before the anticipated recovery of the amortized cost basis of the security. As a result of the

Company's analysis, no declines in the estimated fair value of the Company's investment securities were deemed to be other-than-temporary at June 30, 2016 or December 31, 2015.

At June 30, 2016, 45 debt securities had unrealized losses of 0.63% of the securities' amortized cost basis. At December 31, 2015, 252 debt securities had unrealized losses of 1.10% of the securities' amortized cost basis. The unrealized losses for each of the securities related to market interest rate changes and not credit concerns of the issuers. Additional information on securities that have been in a continuous loss position for over twelve months at June 30, 2016 and December 31, 2015 is presented in the following table.

| (Dollars in thousands) | June 30, 2016 | December 31, 2015 |
|--|------------------|----------------------|
| Number of securities | | |
| Issued by Fannie Mae, Freddie Mac, or Ginnie Mae | 30 | 40 |
| Issued by political subdivisions | — | 2 |
| Other | 3 | 1 |
| | 33 | 43 |
| Amortized cost basis | | |
| Issued by Fannie Mae, Freddie Mac, or Ginnie Mae | \$ 111,154 | \$ 236,800 |
| Issued by political subdivisions | — | 4,253 |
| Other | 6,739 | 508 |
| | \$ 117,893 | \$ 241,561 |
| Unrealized loss | | |
| Issued by Fannie Mae, Freddie Mac, or Ginnie Mae | \$ 753 | \$ 5,895 |
| Issued by political subdivisions | — | 92 |
| Other | 31 | 9 |
| | \$ 784 | \$ 5,996 |

The Fannie Mae, Freddie Mac, and Ginnie Mae securities are rated AA+ by S&P and Aaa by Moody's.

The amortized cost and estimated fair value of investment securities by maturity at June 30, 2016 are shown in the following table. Securities are classified according to their contractual maturities without consideration of principal amortization, potential prepayments or call options. Accordingly, actual maturities may differ from contractual maturities. Weighted average yields are calculated on the basis of the yield to maturity based on the amortized cost of each security.

| (Dollars in thousands) | Securities Available for Sale | | | Securities Held to Maturity | | |
|------------------------------|-------------------------------|-------------------|-------------------------|------------------------------|-------------------|----------------------------|
| | Weighted Average Yield | Amortized Cost | Estimated Fair Value | Weighted Average Yield | Amortized Cost | Estimated Fair Value |
| Within one year or less | 2.36 % | \$ 12,975 | \$ 13,093 | 2.63 % | \$ 1,026 | \$ 1,036 |
| One through five years | 1.63 % | 279,112 | 283,824 | 2.87 % | 12,146 | 12,504 |
| After five through ten years | 2.31 % | 556,517 | 574,992 | 3.02 % | 16,603 | 17,511 |
| Over ten years | 2.10 % | 1,878,211 | 1,904,106 | 3.01 % | 63,129 | 65,188 |
| | 2.10 % | \$ 2,726,815 | \$ 2,776,015 | 2.99 % | \$ 92,904 | \$ 96,239 |

The following is a summary of realized gains and losses from the sale of securities classified as available for sale. Gains or losses on securities sold are recorded on the trade date, using the specific identification method.

| | Three Months Ended June 30, | | Six Months Ended June 30, | |
|------------------------|--------------------------------|-------|------------------------------|---------|
| (Dollars in thousands) | 2016 | 2015 | 2016 | 2015 |
| Realized gains | \$2,473 | \$955 | \$2,935 | \$1,362 |
| Realized losses | (684) | (52) | (950) | (73) |
| | \$1,789 | \$903 | \$1,985 | \$1,289 |

In addition to the gains above, the Company realized certain immaterial gains on calls of held to maturity securities. Other Equity Securities

The Company included the following securities, accounted for at amortized cost, which approximates fair value, in “other assets” on the consolidated balance sheets:

| (Dollars in thousands) | June 30, December | |
|-------------------------------------|-------------------|-----------|
| | 2016 | 31, 2015 |
| Federal Home Loan Bank (FHLB) stock | \$47,380 | \$ 16,265 |
| Federal Reserve Bank (FRB) stock | 48,584 | 48,584 |
| Other investments | 1,158 | 1,159 |
| | \$97,122 | \$ 66,008 |

NOTE 5 – LOANS

Loans consist of the following, segregated into legacy and acquired loans, for the periods indicated:

| (Dollars in thousands) | June 30, 2016 | | |
|-----------------------------|-----------------|----------------|--------------|
| | Legacy Loans | Acquired Loans | Total |
| Commercial loans: | | | |
| Real estate | \$5,097,689 | \$ 1,374,312 | \$6,472,001 |
| Commercial and industrial | 3,027,590 | 408,219 | 3,435,809 |
| Energy-related | 659,510 | 2,524 | 662,034 |
| | 8,784,789 | 1,785,055 | 10,569,844 |
| Residential mortgage loans: | 794,701 | 454,361 | 1,249,062 |
| Consumer and other loans: | | | |
| Home equity | 1,695,113 | 434,699 | 2,129,812 |
| Indirect automobile | 182,199 | 24 | 182,223 |
| Other | 528,047 | 63,573 | 591,620 |
| | 2,405,359 | 498,296 | 2,903,655 |
| Total | \$11,984,849 | \$ 2,737,712 | \$14,722,561 |

| (Dollars in thousands) | December 31, 2015 | | Total |
|-----------------------------|-------------------|----------------|--------------|
| | Legacy Loans | Acquired Loans | |
| Commercial loans: | | | |
| Real estate | \$4,504,062 | \$1,569,449 | \$6,073,511 |
| Commercial and industrial | 2,952,102 | 492,476 | 3,444,578 |
| Energy-related | 677,177 | 3,589 | 680,766 |
| | 8,133,341 | 2,065,514 | 10,198,855 |
| Residential mortgage loans: | 694,023 | 501,296 | 1,195,319 |
| Consumer and other loans: | | | |
| Home equity | 1,575,643 | 490,524 | 2,066,167 |
| Indirect automobile | 246,214 | 84 | 246,298 |
| Other | 541,299 | 79,490 | 620,789 |
| | 2,363,156 | 570,098 | 2,933,254 |
| Total | \$11,190,520 | \$3,136,908 | \$14,327,428 |

Since 2009, the Company has acquired certain assets and liabilities of six failed banks. Substantially all of the loans and foreclosed real estate that were acquired through these transactions were covered by loss share agreements between the FDIC and IBERIABANK, which afforded IBERIABANK loss protection. Covered loans, which are included in acquired loans in the tables above, were \$211.4 million and \$229.2 million at June 30, 2016 and December 31, 2015, respectively, of which \$177.9 million and \$191.7 million, respectively, were residential mortgage and home equity loans. Refer to Note 7 for additional information regarding the Company's loss sharing agreements.

Net deferred loan origination fees were \$21.6 million and \$18.7 million at June 30, 2016 and December 31, 2015, respectively. In addition to loans issued in the normal course of business, the Company considers overdrafts on customer deposit accounts to be loans and reclassifies these overdrafts as loans in its consolidated balance sheets. At June 30, 2016 and December 31, 2015, overdrafts of \$3.9 million and \$5.1 million, respectively, have been reclassified to loans.

Loans with carrying values of \$4.1 billion and \$3.9 billion were pledged as collateral for borrowings at June 30, 2016 and December 31, 2015, respectively.

Aging Analysis

The following tables provide an analysis of the aging of loans as of June 30, 2016 and December 31, 2015. Due to the difference in accounting for acquired loans, the tables below further segregate the Company's loans between loans originated by the Company ("legacy loans") and acquired loans.

June 30, 2016

Legacy loans

| (Dollars in thousands) | Past Due ⁽¹⁾ | | | Total | Current | Total Legacy Loans, Net of Unearned Income | > 90 days and Accruing |

(1) Past due information presents acquired loans at the gross loan balance, prior to application of discounts.

Non-accrual Loans

The following table provides the recorded investment of legacy loans on non-accrual status at the periods indicated.

| (Dollars in thousands) | June 30, December | |
|---------------------------------------|-------------------|-----------|
| | 2016 | 31, 2015 |
| Commercial real estate - Construction | \$26 | \$ 120 |
| Commercial real estate - Other | 3,649 | 15,422 |
| Commercial and industrial | 9,616 | 6,659 |
| Energy-related | 60,766 | 7,081 |
| Residential mortgage | 12,823 | 13,674 |
| Consumer - Home equity | 5,591 | 5,628 |
| Consumer - Indirect automobile | 1,372 | 1,181 |
| Consumer - Credit card | 532 | 394 |
| Consumer - Other | 721 | 769 |
| Total | \$95,096 | \$ 50,928 |

Loans Acquired

As discussed in Note 3, during 2015, the Company acquired loans with fair values of \$0.3 billion from Florida Bank Group, \$1.1 billion from Old Florida and \$0.8 billion from Georgia Commerce. Of the total \$2.2 billion of loans acquired, \$2.1 billion were determined to have no evidence of deteriorated credit quality and are accounted for under ASC Topics 310-10 and 310-20. The remaining \$57.8 million were determined to exhibit deteriorated credit quality since origination under ASC 310-30. The tables below show the balances acquired during 2015 for these two subsections of the portfolio as of the acquisition date.

(Dollars in thousands)

| | |
|--|-------------|
| Contractually required principal and interest at acquisition | \$2,384,114 |
| Expected losses and foregone interest | (15,539) |
| Cash flows expected to be collected at acquisition | 2,368,575 |
| Fair value of acquired loans at acquisition | \$2,105,466 |

| (Dollars in thousands) | Acquired Impaired Loans |
|---|-------------------------------|
| Contractually required principal and interest at acquisition | \$76,445 |
| Non-accretable difference (expected losses and foregone interest) | (11,867) |
| Cash flows expected to be collected at acquisition | 64,578 |
| Accretable yield | (6,823) |
| Basis in acquired loans at acquisition | \$57,755 |

The following is a summary of changes in the accretable difference for loans accounted for under ASC 310-30 during the six months ended June 30:

| (Dollars in thousands) | 2016 | 2015 |
|--|------------|------------|
| Balance at beginning of period | \$ 227,502 | \$ 287,651 |
| Acquisition | — | 4,592 |
| Transfers from non-accretable difference to accretable yield | 4,425 | 5,006 |
| Accretion | (36,256) | (41,836) |
| Changes in expected cash flows not | 8,949 | 2,288 |

affecting
non-accretable
differences ⁽¹⁾

| | | | | |
|-----------------------------|----|---------|----|---------|
| Balance at end of period | \$ | 204,620 | \$ | 257,701 |
|-----------------------------|----|---------|----|---------|

(1) Includes changes in cash flows expected to be collected due to the impact of changes in actual or expected timing of liquidation events, modifications, changes in interest rates and changes in prepayment assumptions.

Troubled Debt Restructurings

Information about the Company's troubled debt restructurings ("TDRs") at June 30, 2016 and 2015 is presented in the following tables. Modifications of loans that are accounted for within a pool under ASC Topic 310-30, which include covered loans, as well as certain acquired loans are excluded as TDRs. Accordingly, such modifications do not result in the removal of those loans from the pool, even if the modification of those loans would otherwise be considered a TDR. As a result, all covered and certain acquired loans that would otherwise meet the criteria for classification as a TDR are excluded from the tables below.

TDRs totaling \$165.3 million and \$29.6 million occurred during the six-month periods ended June 30, 2016 and June 30, 2015, respectively, through modification of the original loan terms. The following table provides information on how the TDRs were modified during the six months ended June 30:

| (Dollars in thousands) | 2016 | 2015 |
|---|-----------|----------|
| Extended maturities | \$57,533 | \$4,413 |
| Maturity and interest rate adjustment | 31,048 | 19,857 |
| Forbearance | 38,367 | — |
| Movement to or extension of interest-rate only payments | 440 | — |
| Interest rate adjustment | 134 | — |
| Other concession(s) ⁽¹⁾ | 37,761 | 5,367 |
| Total | \$165,283 | \$29,637 |

⁽¹⁾ Other concessions may include covenant waivers, forgiveness of principal or interest associated with a customer bankruptcy, or a combination of any of the above concessions.

Of the \$165.3 million of TDRs occurring during the six-month period ended June 30, 2016, \$126.6 million are on accrual status and \$38.7 million are on non-accrual status. Of the \$29.6 million of TDRs occurring during the six-month period ended June 30, 2015, \$14.3 million were on accrual status and \$15.2 million were on non-accrual status at June 30, 2015.

The following table presents the end of period balance for loans modified in a TDR during the six-month periods ended June 30:

| (In thousands, except number of loans) | 2016 | | 2015 | |
|--|------------------|-------------------|------------------|-------------------|
| | Pre-modification | Post-modification | Pre-modification | Post-modification |
| | Number of Loans | Outstanding | Number of Loans | Outstanding |
| | Recorded | Recorded | Recorded | Recorded |
| | Investment | Investment | Investment | Investment |
| Commercial real estate | 16 \$ 12,613 | \$ 11,825 | 6 \$ 7,815 | \$ 7,762 |
| Commercial and industrial | 28 24,018 | 23,632 | 17 18,678 | 18,441 |
| Energy-related | 25 110,443 | 119,890 | 1 3,434 | 3,434 |
| Residential mortgage | 25 4,733 | 4,692 | — — | — |
| Consumer - Home Equity | 57 3,928 | 3,916 | — — | — |
| Consumer - Other | 85 1,386 | 1,328 | — — | — |
| Total | 236 \$ 157,121 | \$ 165,283 | 24 \$ 29,927 | \$ 29,637 |

Information detailing TDRs which defaulted during the six-month periods ended June 30, 2016 and 2015, and were modified in the previous twelve months (i.e., the twelve months prior to the default) is presented in the following table. The Company has defined a default as any loan with a loan payment that is currently past due greater than 30 days, or was past due greater than 30 days at any point during the previous twelve months, or since the date of modification, whichever is shorter.

| (In thousands, except number of loans) | June 30, 2016 | | June 30, 2015 | |

Portfolio Segment Risk Factors

Commercial real estate loans include loans to commercial customers for long-term financing of land and buildings or for land development or construction of a building. These loans are repaid through revenues from operations of the businesses, rents of properties and refinances. Commercial and industrial loans represent loans to commercial customers to finance general working capital needs, equipment purchases and other projects where repayment is derived from cash flows resulting from business operations. The Company originates commercial business loans on a secured and, to a lesser extent, unsecured basis.

Residential mortgage loans consist of loans to consumers to finance a primary residence. The vast majority of the residential mortgage loan portfolio is comprised of one-to-four family mortgage loans secured by properties located in the Company's market areas and originated under terms and documentation that permit sale in the secondary market. Consumer loans are offered by the Company in order to provide a full range of retail financial services to its customers and include home equity, indirect automobile, credit card and other direct consumer installment loans. The Company originates substantially all of its consumer loans in its primary market areas. Loans in the consumer segment are sensitive to unemployment and other key consumer economic measures.

Credit Quality

The Company utilizes an asset risk classification system in accordance with guidelines established by the Federal Reserve Board as part of its efforts to monitor commercial asset quality. "Special mention" loans are defined as loans where known information about possible credit problems of the borrower cause management to have some doubt as to the ability of these borrowers to comply with the present loan repayment terms and which may result in future disclosures of these loans as non-performing. For assets with identified credit issues, the Company has two primary classifications for problem assets: "substandard" and "doubtful".

Substandard assets have one or more defined weaknesses and are characterized by the distinct possibility that the Company will sustain some loss if the deficiencies are not corrected. Doubtful assets have the weaknesses of the substandard assets with the additional characteristic that the weaknesses make collection or liquidation in full satisfaction of the loan balance outstanding questionable, which makes probability of loss based on currently existing facts, conditions, and values higher. Loans classified as "Pass" do not meet the criteria set forth for special mention, substandard, or doubtful classification and are not considered criticized. Asset risk classifications are determined at origination or acquisition and reviewed on an ongoing basis. Risk classifications are changed if, in the opinion of management, the risk profile of the customer has changed since the last review of the loan relationship.

The Company's investment in loans by credit quality indicator is presented in the following tables. The tables below further segregate the Company's loans between loans that were originated by the Company (legacy loans) and acquired loans. Loan premiums/discounts in the tables below represent the adjustment of non-covered acquired loans to fair value at the acquisition date, as adjusted for income accretion and changes in cash flow estimates in subsequent periods. Asset risk classifications for commercial loans reflect the classification as of June 30, 2016 and December 31, 2015. Credit quality information in the tables below includes loans acquired at the gross loan balance, prior to the application of premiums/discounts, at June 30, 2016 and December 31, 2015.

Loan delinquency is the primary credit quality indicator that the Company utilizes to monitor consumer asset quality.

Legacy Impaired Loans

Information on the Company's investment in legacy impaired loans, which include all TDRs and all other non-accrual loans, is presented in the following tables as of and for the periods indicated. Legacy non-accrual mortgage and consumer loans, and commercial loans below the Company's specific threshold, are included for purposes of this disclosure although such loans are generally not evaluated or measured individually for impairment for purposes of determining the allowance for loan losses.

As of June 30, 2016 and December 31, 2015, the Company was not committed to lend a material amount of additional funds to any customer whose loan was classified as impaired or as a troubled debt restructuring.

NOTE 7 – LOSS SHARING AGREEMENTS AND FDIC LOSS SHARE RECEIVABLES

Loss Sharing Agreements

Since 2009, the Company has acquired certain assets and liabilities of six failed banks. Substantially all of the loans and foreclosed real estate acquired through these transactions are subject to loss share agreements between the FDIC and IBERIABANK, which afford IBERIABANK loss protection.

During the reimbursable loss periods, the FDIC will cover 80% of covered loan and foreclosed real estate losses up to certain thresholds for the six acquisitions, and 95% of losses that exceed contractual thresholds for three acquisitions. The reimbursable loss periods, excluding single family residential assets, ended in 2014 for three acquisitions, ended during 2015 for one acquisition and will end during the third quarter of 2016 for two acquisitions. The reimbursable loss period for single family residential assets will end in 2019 for three acquisitions, in 2020 for one acquisition, and in 2021 for two acquisitions. To the extent that loss share coverage ends prior to triggering events on covered assets that would enable the Company to collect these amounts from the FDIC, future impairments may be required.

In addition, all covered assets, excluding single family residential assets, have a three year recovery period, which begins upon expiration of the reimbursable loss period. During the recovery periods, the Company must reimburse the FDIC for its share of any recovered losses, net of certain expenses, consistent with the covered loss reimbursement rates in effect during the recovery periods.

FDIC loss share receivables

The Company recorded indemnification assets in the form of FDIC loss share receivables as of the acquisition date of each of the six banks covered by loss share agreements. At acquisition, the indemnification assets represented the fair value of the expected cash flows to be received from the FDIC under the loss share agreements. Subsequent to acquisition, the FDIC loss share receivables are updated to reflect changes in actual and expected amounts collectible, adjusted for amortization.

The following is a summary of the year-to-date activity for the FDIC loss share receivables:

| | Six Months Ended June 30, | |
|--|------------------------------|-----------|
| (Dollars in thousands) | 2016 | 2015 |
| Balance at beginning of period | \$39,878 | \$69,627 |
| Reversal of loan loss provision recorded on FDIC covered loans | (797) | (843) |
| Amortization | (8,549) | (13,411) |
| Submission of reimbursable losses to the FDIC | (1,287) | (3,243) |
| Changes in cash flow assumptions on OREO and other adjustments | (21) | (1,678) |
| Balance at end of period | \$29,224 | \$50,452 |

FDIC loss share receivables collectibility assessment

The Company assesses the FDIC loss share receivables for collectibility on a quarterly basis. Based on the collectibility analysis completed as of June 30, 2016, the Company concluded that the \$29.2 million FDIC loss share receivable is fully collectible as of June 30, 2016.

NOTE 8 – GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill

Changes to the carrying amount of goodwill by reporting unit for the six months ended June 30, 2016, and the year ended December 31, 2015 are provided in the following table.

| (Dollars in thousands) | IBERIABANK | IMC | LTC | Total |
|--|------------|----------|---------|-----------|
| Balance, December 31, 2014 | \$ 489,183 | \$23,178 | \$5,165 | \$517,526 |
| Goodwill acquired during the year | 207,077 | — | — | 207,077 |
| Balance, December 31, 2015 | \$ 696,260 | \$23,178 | \$5,165 | \$724,603 |
| Goodwill adjustments during the period | 2,253 | — | — | 2,253 |
| Balance, June 30, 2016 | \$ 698,513 | \$23,178 | \$5,165 | \$726,856 |

The goodwill adjustments during the first six months of 2016 are the result of updates to preliminary fair value estimates related to the 2015 acquisitions of Florida Bank Group, Old Florida, and Georgia Commerce, during the respective measurement periods. See Note 3 for further information on these acquisitions.

The Company performed the required annual goodwill impairment test as of October 1, 2015. The Company's annual impairment test did not indicate impairment in any of the Company's reporting units as of the testing date. Subsequent to the testing date, management has evaluated the events and changes that could indicate that goodwill might be impaired and concluded that a subsequent interim test is not required.

Mortgage Servicing Rights

Mortgage servicing rights are recorded at the lower of cost or market value in "other assets" on the Company's consolidated balance sheets and amortized over the remaining servicing life of the loans, with consideration given to prepayment assumptions. Mortgage servicing rights had the following carrying values as of the periods indicated:

| | June 30, 2016 | | | December 31, 2015 | | |
|---------------------------|-----------------|--------------|-----------------|-------------------|--------------|-----------------|
| | Gross | Accumulated | Net | Gross | Accumulated | Net |
| (Dollars in thousands) | Carrying Amount | Amortization | Carrying Amount | Carrying Amount | Amortization | Carrying Amount |
| Mortgage servicing rights | \$6,131 | \$ (2,710) | \$ 3,421 | \$6,104 | \$ (2,320) | \$ 3,784 |

Title Plant

The Company held title plant assets recorded in "other assets" on the Company's consolidated balance sheets totaling \$6.7 million at both June 30, 2016 and December 31, 2015. No events or changes in circumstances occurred during the six months ended June 30, 2016 to suggest the carrying value of the title plant was not recoverable.

Intangible assets subject to amortization

Definite-lived intangible assets had the following carrying values included in "other assets" on the Company's consolidated balance sheets as of the periods indicated:

| | June 30, 2016 | | | December 31, 2015 | | |
|--|-----------------|--------------|-----------------|-------------------|--------------|-----------------|
| | Gross | Accumulated | Net | Gross | Accumulated | Net |
| (Dollars in thousands) | Carrying Amount | Amortization | Carrying Amount | Carrying Amount | Amortization | Carrying Amount |
| Core deposit intangibles | \$74,001 | \$ (48,074) | \$ 25,927 | \$74,001 | \$ (43,957) | \$ 30,044 |
| Customer relationship intangible asset | 1,348 | (962) | 386 | 1,348 | (984) | 364 |
| Non-compete agreement | 61 | (12) | 49 | 100 | (79) | 21 |
| Other intangible assets | — | — | — | 205 | (114) | 91 |
| Total | \$75,410 | \$ (49,048) | \$ 26,362 | \$75,654 | \$ (45,134) | \$ 30,520 |

NOTE 9 –DERIVATIVE INSTRUMENTS AND OTHER HEDGING ACTIVITIES

The Company enters into derivative financial instruments to manage interest rate risk, exposures related to liquidity and credit risk, and to facilitate customer transactions. The primary types of derivatives used by the Company include interest rate swap agreements, foreign exchange contracts, interest rate lock commitments, forward sales commitments, and written and purchased options. All derivative instruments are recognized on the consolidated balance sheets as "other assets" or "other liabilities" at fair value, as required by ASC Topic 815, Derivatives and Hedging.

For cash flow hedges, the effective portion of the gain or loss related to the derivative instrument is initially reported as a component of other comprehensive income and subsequently reclassified into earnings when the forecasted transaction affects earnings or when the hedge is terminated. The ineffective portion of the gain or loss is reported in earnings immediately. In applying hedge accounting for derivatives, the Company establishes and documents a method for assessing the effectiveness of the hedging derivative and a measurement approach for determining the ineffective aspect of the hedge upon the inception of the hedge. The Company has designated interest rate swaps in a cash flow hedge to convert forecasted variable interest payments to a fixed rate on its junior subordinated debt and has concluded that the forecasted transactions are probable of occurring.

For derivative instruments that are not designated as hedging instruments, changes in the fair value of the derivatives are recognized in earnings immediately.

Information pertaining to outstanding derivative instruments is as follows:

| (Dollars in thousands) | Balance Sheet Location | Asset Derivatives Fair Value | | Balance Sheet Location | Liability Derivatives Fair Value | |
|---|------------------------|------------------------------|-------------------|------------------------|----------------------------------|-------------------|
| | | June 30, 2016 | December 31, 2015 | | June 30, 2016 | December 31, 2015 |

| Total | \$1,306,707 | \$1,255,277 | \$1,579,770 | \$950,105 |

The Company is party to collateral agreements with certain derivative counterparties. Such agreements require that the Company maintain collateral based on the fair values of individual derivative transactions. In the event of default by the Company, the counterparty would be entitled to the collateral.

At June 30, 2016 and December 31, 2015, the Company was required to post \$14.2 million and \$21.8 million, respectively, in cash as collateral for its derivative transactions, which are included in "interest-bearing deposits in banks" on the Company's consolidated balance sheets. The Company does not anticipate additional assets will be required to be posted as collateral, nor does it believe additional assets would be required to settle its derivative instruments immediately if contingent features were triggered at June 30, 2016. The Company's master netting agreements represent written, legally enforceable bilateral agreements that (1) create a single legal obligation for all individual transactions covered by the master agreement and (2) in the event of default, provide the non-defaulting counterparty the right to accelerate, terminate, and close-out on a net basis all transactions under the agreement and to promptly liquidate or set-off collateral posted by the defaulting counterparty. As permitted by U.S. GAAP, the Company does not offset fair value amounts recognized for the right to reclaim cash collateral or the obligation to return cash collateral against recognized fair value amounts of derivatives executed with the same counterparty under a master netting agreement.

The following table reconciles the gross amounts presented in the consolidated balance sheets to the net amounts that would result in the event of offset.

| (Dollars in thousands) | June 30, 2016 | | | |
|---|--|---|----------------|----------|
| | Gross Amounts Presented in the Balance Sheet | Gross Amounts Offset in the Balance Sheet | Collateral (1) | Net |
| Derivatives subject to master netting arrangements | | | | |
| Derivative assets | | | | |
| Interest rate contracts not designated as hedging instruments | \$43,569 | \$— | \$— | \$43,569 |
| Written and purchased options | 7,144 | (3,784) | — | 3,360 |
| Total derivative assets subject to master netting arrangements | \$50,713 | \$(3,784) | \$— | \$46,929 |
| Derivative liabilities | | | | |
| Interest rate contracts designated as hedging instruments | \$9,872 | \$(3,784) | \$(3,072) | \$3,016 |
| Interest rate contracts not designated as hedging instruments | 43,569 | — | (11,125) | 32,444 |
| Total derivative liabilities subject to master netting arrangements | \$53,441 | \$(3,784) | \$(14,197) | \$35,460 |

(1) Consists of cash collateral recorded at cost, which approximates fair value, and investment securities.

| (Dollars in thousands) | December 31, 2015 | | | |
|---|--|---|----------------|-----------|
| | Gross Amounts Presented in the Balance Sheet | Gross Amounts Offset in the Balance Sheet | Collateral (1) | Net |
| Derivatives subject to master netting arrangements | | | | |

| Total derivative liabilities subject to master netting arrangements | \$18,058 | \$ — | —\$ (9,428) | \$ 8,630 |

(1) Consists of cash collateral recorded at cost, which approximates fair value, and investment securities.

During the six months ended June 30, 2016 and 2015, the Company has not reclassified into earnings any gain or loss as a result of the discontinuance of cash flow hedges because it was probable the original forecasted transaction would not occur by the end of the originally specified term.

At June 30, 2016, the Company does not expect to reclassify any amount from accumulated other comprehensive income into interest income over the next twelve months for derivatives that will be settled.

Edgar Filing: IBERIABANK CORP - Form 10-Q

At June 30, 2016 and 2015, and for the three and six months then ended, information pertaining to the effect of the hedging instruments on the consolidated financial statements is as follows:

| (Dollars in thousands) | Amount of Gain (Loss) Recognized in OCI net of taxes (Effective Portion) | | Location of Gain (Loss) Reclassified from Accumulated OCI into Income (Effective Portion) | | Amount of Gain (Loss) Reclassified from Accumulated OCI into Income (Effective Portion) | | Location of Gain (Loss) Recognized in Income on Derivative (Ineffective Portion and Amount Excluded from Effectiveness Testing) | | Amount of Gain (Loss) Recognized in Income on Derivative (Ineffective Portion and Amount Excluded from Effectiveness Testing) | |

| Total | | \$35 | \$7,284 | \$1,637 | \$8,804 |

⁽¹⁾ Includes fees associated with customer interest rate contracts.

NOTE 10 –SHAREHOLDERS' EQUITY, CAPITAL RATIOS AND OTHER REGULATORY MATTERS

The Company and IBERIABANK are subject to various regulatory capital frameworks administered by federal and state agencies. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Company's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Company and IBERIABANK, as applicable, must meet specific capital guidelines that involve quantitative measures of their assets, liabilities and certain off-balance sheet items as calculated under regulatory accounting practices. The capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

On January 1, 2015, the Company and IBERIABANK became subject to revised capital adequacy standards as implemented by new final rules approved by the U.S. banking regulatory agencies, including the FRB, to address relevant provisions of the Dodd-Frank Act. Certain provisions of the new rules will be phased in from that date to January 1, 2019.

Effective January 1, 2016, the Company was subject to an additional 25% phase out of its trust preferred securities from Tier 1 Risk-Based Capital. As a result, 100% of the Company's trust preferred securities are excluded from Tier 1 Risk-Based Capital at June 30, 2016. Additionally, the Company and IBERIABANK's Common Equity Tier 1 Capital, Tier 1 Risk-Based Capital, and Total Risk-Based Capital were impacted at June 30, 2016 by an additional 20% phase out of certain intangible assets above the December 31, 2015 phase out percentage.

Management believes that, as of June 30, 2016, the Company and IBERIABANK met all capital adequacy requirements to which they are subject.

As of June 30, 2016, the most recent notification from the FDIC categorized IBERIABANK as well capitalized under the regulatory framework for prompt corrective action (the prompt corrective action requirements are not applicable to the Company) existing at the time of notification. To be categorized as well capitalized, an institution must maintain minimum total risk-based, Tier 1 risk-based and Tier 1 leverage ratios as set forth in the following table. There are no conditions or events since the notification that management believes have changed that categorization.

The Company's and IBERIABANK's actual capital amounts and ratios as of June 30, 2016 and December 31, 2015 are presented in the following table.

| (Dollars in thousands) | June 30, 2016 | | Well Capitalized | | Actual | |
|-----------------------------|----------------|-------|------------------|-------|-------------|---------|
| | Minimum Amount | Ratio | Amount | Ratio | Amount | Ratio |
| Tier 1 Leverage | | | | | | |
| Consolidated | \$768,953 | 4.00% | N/A | N/A | \$1,864,891 | 9.70 % |
| IBERIABANK | 766,355 | 4.00 | 957,944 | 5.00 | 1,781,513 | 9.30 |
| Common Equity Tier 1 (CET1) | | | | | | |
| Consolidated | \$773,983 | 4.50% | N/A | N/A | \$1,732,793 | 10.07 % |

Beginning January 1, 2016, minimum CET1, Tier 1 Risk-Based Capital, and Total Risk-Based Capital ratios are subject to a capital conservation buffer of 0.625%. This capital conservation buffer will increase in subsequent years by 0.625% annually until it is fully phased in on January 1, 2019 at 2.50%. At June 30, 2016, the capital conservation buffers of the Company and IBERIABANK were 4.46% and 3.33%, respectively.

On May 9, 2016, the Company issued an aggregate of 2,300,000 depositary shares (the “Depositary Shares”), each representing a 1/400th ownership interest in a share of the Company’s 6.60% Fixed-to-Floating Non-Cumulative Perpetual Preferred Stock, Series C, par value \$1.00 per share, (“Series C Preferred Stock”), with a liquidation preference of \$10,000 per share of Series C Preferred Stock (equivalent to \$25 per depositary share), which represents \$57,500,000 in aggregate liquidation preference.

Dividends will accrue and be payable on the Series C preferred stock, subject to declaration by the Company’s board of directors, from the date of issuance to, but excluding May 1, 2026, at a rate of 6.60% per annum, payable quarterly, in arrears, and from and including May 1, 2026, dividends will accrue and be payable at a floating rate equal to three-month LIBOR plus a spread of 492 basis points, payable quarterly, in arrears. The Company may redeem the Series C preferred stock at its option, subject to regulatory approval, as described in the Prospectus.

On May 4, 2016, the Company's Board of Directors authorized the repurchase of up to 950,000 shares of IBERIABANK Corporation's outstanding common stock. Stock repurchases under this program will be made from time to time, on the open market or in privately negotiated transactions. The timing of these repurchases will depend on market conditions and other requirements. The Company anticipates the share repurchase program will extend over a 2-year time frame, or earlier if the shares have been repurchased. The share repurchase program does not obligate the Company to repurchase any dollar amount or number of shares, and the program may be extended, modified, suspended, or discontinued at any time. During the second quarter of 2016, the Company repurchased 202,506 common shares at a weighted average price of \$57.61 per common share.

NOTE 11 – EARNINGS PER SHARE

Share-based payment awards that entitle holders to receive non-forfeitable dividends before vesting are considered participating securities that are included in the calculation of earnings per share using the two-class method. The two-class method is an earnings allocation formula under which earnings per share is calculated for common stock and participating securities according to dividends declared and participating rights in undistributed earnings. Under this method, all earnings, distributed and undistributed, are allocated to common shares and participating securities based on their respective rights to receive dividends.

The following table presents the calculation of basic and diluted earnings per share for the periods indicated.

Edgar Filing: IBERIABANK CORP - Form 10-Q

| (In thousands, except per share data) | Three Months | | Six Months Ended | |
|--|----------------|----------|------------------|----------|
| | Ended June 30, | | June 30, | |
| | 2016 | 2015 | 2016 | 2015 |
| Earnings per common share - basic | | | | |
| Net income | \$50,810 | \$30,836 | \$93,579 | \$55,962 |
| Preferred stock dividends | (854) | — | (3,430) | — |
| Dividends and undistributed earnings allocated to unvested restricted shares | (540) | (355) | (1,003) | (675) |
| Earnings allocated to common shareholders - basic | \$49,416 | \$30,481 | \$89,146 | \$55,287 |
| Weighted average common shares outstanding | 40,771 | 38,546 | 40,741 | 35,871 |
| Earnings per common share - basic | \$1.21 | \$0.79 | \$2.19 | \$1.54 |
| Earnings per common share - diluted | | | | |
| Earnings allocated to common shareholders - basic | \$49,416 | \$30,481 | \$89,146 | \$55,287 |
| Dividends and undistributed earnings allocated to unvested restricted shares | (12) | (9) | (13) | (31) |
| Earnings allocated to common shareholders - diluted | \$49,404 | \$30,472 | \$89,133 | \$55,256 |
| Weighted average common shares outstanding | 40,771 | 38,546 | 40,741 | 35,871 |
| Dilutive potential common shares - stock options | 137 | 121 | 86 | 103 |
| Weighted average common shares outstanding - diluted | 40,908 | 38,667 | 40,827 | 35,974 |
| Earnings per common share - diluted | \$1.21 | \$0.79 | \$2.18 | \$1.54 |

For the three months ended June 30, 2016, and 2015, the calculations for basic shares outstanding exclude the weighted average shares owned by the Recognition and Retention Plan ("RRP") of 461,124, and 597,975, respectively. For the six months ended June 30, 2016, and 2015, basic shares outstanding exclude 468,273 and 601,698 shares owned by the RRP, respectively.

The effects from the assumed exercises of 262,853 and 8,926 stock options were not included in the computation of diluted earnings per share for the three months ended June 30, 2016, and 2015, respectively, because such amounts would have had an antidilutive effect on earnings per common share. For the six months ended June 30, 2016, and 2015, the effects from the assumed exercise of 482,272 and 79,793 stock options, respectively, were not included in the computation of diluted earnings per share because such amounts would have had an antidilutive effect on earnings per common share.

NOTE 12 – SHARE-BASED COMPENSATION

The Company has various types of share-based compensation plans that permit the granting of awards in the form of stock options, restricted stock, restricted share units, phantom stock and performance units. These plans are administered by the Compensation Committee of the Board of Directors, which selects persons eligible to receive awards and determines the terms, conditions and other provisions of the awards. At June 30, 2016, awards of 2,464,592 shares could be made under approved incentive compensation plans.

Stock option awards

The Company issues stock options under various plans to directors, officers and other key employees. The option exercise price cannot be less than the fair value of the underlying common stock as of the date of the option grant and the maximum option term cannot exceed ten years.

The following table represents the activity related to stock options during the periods indicated:

| | Number of shares | Weighted Average Exercise Price |
|--|------------------|---------------------------------------|
| Outstanding options, December 31, 2015 | 813,777 | \$ 56.99 |
| Granted | 149,932 | 47.46 |
| Exercised | (8,811) |) 55.62 |
| Forfeited or expired | (45,723) |) 60.97 |
| Outstanding options, June 30, 2016 | 909,175 | \$ 55.23 |
| Exercisable options, June 30, 2016 | 598,469 | \$ 56.31 |
| Outstanding options, December 31, 2014 | 867,682 | \$ 55.92 |
| Granted | 80,844 | 62.56 |
| Exercised | (94,415) |) 50.69 |
| Forfeited or expired | (15,183) |) 67.03 |
| Outstanding options, June 30, 2015 | 838,928 | \$ 56.95 |
| Exercisable options, June 30, 2015 | 567,127 | \$ 56.55 |

The Company uses the Black-Scholes option pricing model to estimate the fair value of stock option awards. The following weighted-average assumptions were used for option awards issued during the following periods:

| | For the Six Months Ended June 30 | | | |
|--|-------------------------------------|---------|---|--|
| | 2016 | 2015 | | |
| Expected dividends | 2.9 | % 2.2 | % | |
| Expected volatility | 29.1 | % 35.6 | % | |
| Risk-free interest rate | 1.4 | % 2.0 | % | |
| Expected term (in years) | 6.5 | 7.5 | | |
| Weighted-average grant-date fair value | \$10.10 | \$19.61 | | |

The assumptions above are based on multiple factors, including historical stock option exercise patterns and post-vesting employment termination behaviors, expected future exercise patterns and the expected volatility of the Company's stock price.

The following table represents the compensation expense that is included in non-interest expense in the accompanying consolidated statements of comprehensive income related to stock options for the following periods:

| | For the Three Months Ended June 30 | | For the Six Months Ended June 30 | |
|---|--|-------|---|-------|
| (Dollars in thousands) | 2016 | 2015 | 2016 | 2015 |
| Compensation expense related to stock options | \$502 | \$474 | \$987 | \$945 |

At June 30, 2016, there was \$3.0 million of unrecognized compensation cost related to stock options that is expected to be recognized over a weighted-average period of 2.5 years.

Restricted stock awards

The Company issues restricted stock under various plans for certain officers and directors. The restricted stock awards may not be sold or otherwise transferred until certain restrictions have lapsed. The holders of the restricted stock receive dividends and have the right to vote the shares. The compensation expense for these awards is determined

based on the market price of the Company's common stock at the date of grant applied to the total number of shares granted and is recognized over the vesting period. As of June 30, 2016 and 2015, unrecognized share-based compensation associated with these awards totaled \$21.1 million and \$24.0 million, respectively.

Restricted share units

During the first six months of 2016 and 2015, the Company issued restricted share units to certain of its executive officers. Restricted share units vest after the end of a three-year performance period, based on satisfaction of the market and performance conditions set forth in the restricted share unit agreement. Recipients do not possess voting or investment power over the common stock underlying such units until vesting. The grant date fair value of these restricted share units is the same as the value of the corresponding number of shares of common stock, adjusted for assumptions surrounding the market-based conditions contained in the respective agreements.

The following table represents the compensation expense that was included in non-interest expense in the accompanying consolidated statements of comprehensive income related to restricted stock awards and restricted share units for the periods indicated:

| | For the Three Months Ended June 30 | | For the Six Months Ended June 30 | |
|--|--|---------|--|---------|
| (Dollars in thousands) | 2016 | 2015 | 2016 | 2015 |
| Compensation expense related to restricted stock awards and restricted share units | \$3,329 | \$2,834 | \$6,715 | \$5,804 |

The following table represents unvested restricted stock award and restricted share unit activity for the following periods:

| | For the Six Months Ended June 30 | |
|--------------------------------|-------------------------------------|-----------|
| | 2016 | 2015 |
| Balance at beginning of period | 507,130 | 506,289 |
| Granted | 240,699 | 185,270 |
| Forfeited | (9,040) | (20,411) |
| Earned and issued | (172,356) | (158,514) |
| Balance at end of period | 566,433 | 512,634 |

Phantom stock awards

The Company issues phantom stock awards to certain key officers and employees. The awards are subject to a vesting period of five to seven years and are paid out in cash upon vesting. The amount paid per vesting period is calculated as the number of vested “share equivalents” multiplied by the closing market price of a share of the Company’s common stock on the vesting date. Share equivalents are calculated on the date of grant as the total award’s dollar value divided by the closing market price of a share of the Company’s common stock on the grant date. Award recipients are also entitled to a “dividend equivalent” on each unvested share equivalent held by the award recipient. A dividend equivalent is a dollar amount equal to the cash dividends that the participant would have been entitled to receive if the participant’s share equivalents were issued in shares of common stock. Dividend equivalents are reinvested as share equivalents that will vest and be paid out on the same date as the underlying share equivalents on which the dividend equivalents were paid. The number of share equivalents acquired with a dividend equivalent is determined by dividing the aggregate of dividend equivalents paid on the unvested share equivalents by the closing price of a share of the Company’s common stock on the dividend payment date.

Performance units

During the first six months of 2016 and 2015, the Company issued performance units to certain of its executive officers. Performance units are tied to the value of shares of the Company’s common stock, are payable in cash, and vest in increments of one-third per year after attainment of one or more performance measures. The value of performance units is the same as the value of the corresponding number of shares of common stock.

The following table indicates compensation expense recorded for phantom stock and performance units based on the number of share equivalents vested at June 30 of the periods indicated and the current market price of the Company’s stock at that time:

| | For the Three Months Ended June 30 | For the Six Months Ended June 30 |
|--|--|--|
|--|--|--|

Edgar Filing: IBERIABANK CORP - Form 10-Q

(Dollars in thousands)

| | 2016 | 2015 | 2016 | 2015 |
|---|---------|---------|---------|---------|
| Compensation expense related to phantom stock and performance units | \$2,793 | \$3,335 | \$5,198 | \$6,506 |

41

The following table represents phantom stock award and performance unit activity during the periods indicated:

| (Dollars in thousands) | Number of share equivalents (1) | Value of share equivalents (2) |
|-----------------------------|------------------------------------|-----------------------------------|
| Balance, December 31, 2015 | 462,430 | \$ 25,466 |
| Granted | 192,359 | 11,490 |
| Forfeited share equivalents | (16,283) |) 973 |
| Vested share equivalents | (147,511) |) 7,452 |
| Balance, June 30, 2016 | 490,995 | \$ 29,327 |
| Balance, December 31, 2014 | 475,347 | \$ 30,826 |
| Granted | 147,460 | 10,061 |
| Forfeited share equivalents | (24,310) |) 1,659 |
| Vested share equivalents | (127,874) |) 8,087 |
| Balance, June 30, 2015 | 470,623 | \$ 32,111 |

(1) Number of share equivalents includes all reinvested dividend equivalents for the periods indicated.

Except for share equivalents at the beginning of each period, which are based on the value at that time, and vested share payments, which are based on the cash paid at the time of vesting, the value of share equivalents is calculated based on the market price of the Company's stock at the end of the respective periods. The market price of the Company's stock was \$59.73 and \$68.23 on June 30, 2016, and 2015, respectively.

NOTE 13 – FAIR VALUE MEASUREMENTS

Recurring fair value measurements

The Company has segregated all financial assets and liabilities that are measured at fair value on a recurring basis into the most appropriate level within the fair value hierarchy based on the inputs used to estimate the fair value at the measurement date in the tables below. See Note 1, Summary of Significant Accounting Policies, in the 2015 Annual Report on Form 10-K for the year ended December 31, 2015, for a description of how fair value measurements are determined.

| | June 30, 2016 | | |
|-------------------------------|---------------|-------------|---------------|
| (Dollars in thousands) | Level 1 | Level 2 | Level 3 Total |
| Assets | | | |
| Securities available for sale | \$— | \$2,766,015 | \$— |
| Mortgage loans held for sale | — | 229,653 | — |
| Derivative instruments | — | 61,598 | — |
| Total | \$— | \$3,057,266 | \$— |
| Liabilities | | | |
| Derivative instruments | \$— | \$64,907 | \$— |
| Total | \$— | \$64,907 | \$— |

| | December 31, 2015 | | |
|-------------------------------|-------------------|-------------|---------------|
| (Dollars in thousands) | Level 1 | Level 2 | Level 3 Total |
| Assets | | | |
| Securities available for sale | \$— | \$2,800,286 | \$— |
| Mortgage loans held for sale | — | 166,247 | — |
| Derivative instruments | — | 30,486 | — |
| Total | \$— | \$2,997,019 | \$— |
| Liabilities | | | |

Edgar Filing: IBERIABANK CORP - Form 10-Q

| | | | |
|------------------------|-------------|----|-----------|
| Derivative instruments | \$—\$24,939 | \$ | —\$24,939 |
| Total | \$—\$24,939 | \$ | —\$24,939 |

During the six months ended June 30, 2016 there were no transfers between the Level 1 and Level 2 fair value categories.

Non-recurring fair value measurements

The Company has segregated all financial assets and liabilities that are measured at fair value on a non-recurring basis into the most appropriate level within the fair value hierarchy based on the inputs used to determine the fair value at the measurement date in the tables below.

June 30, 2016

(Dollars in thousands)

| | Level 1 | Level 2 | Level 3 | Total |
|--|---------|---------|---------|-------|
|--|---------|---------|---------|-------|

| | | | | |
|-----------|-----|---|----------|----------|
| Assets | | | | |
| Loans | \$— | — | \$39,122 | \$39,122 |
| OREO, net | — | — | 433 | 433 |
| Total | \$— | — | \$39,555 | \$39,555 |

December 31, 2015

(Dollars in thousands)

| | Level 1 | Level 2 | Level 3 | Total |
|--|---------|---------|---------|-------|
|--|---------|---------|---------|-------|

| | | | | |
|-----------|-----|---|----------|----------|
| Assets | | | | |
| Loans | \$— | — | \$31,669 | \$31,669 |
| OREO, net | — | — | 1,106 | 1,106 |
| Total | \$— | — | \$32,775 | \$32,775 |

The tables above exclude the initial measurement of assets and liabilities that were acquired as part of the acquisitions completed in 2015. These assets and liabilities were recorded at their fair value upon acquisition in accordance with U.S. GAAP and were not re-measured during the periods presented unless specifically required by U.S. GAAP.

Acquisition date fair values represent either Level 2 fair value measurements (investment securities, OREO, property, equipment, and debt) or Level 3 fair value measurements (loans, deposits, and core deposit intangible asset).

In accordance with the provisions of ASC Topic 310, the Company records certain loans considered impaired at their estimated fair value. A loan is considered impaired if it is probable the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement. Fair value is measured at the estimated fair value of the collateral for collateral-dependent loans. Impaired loans with an outstanding balance of \$57.0 million and \$40.2 million were recorded at their fair value at June 30, 2016 and December 31, 2015, respectively. These loans include reserves and charge-offs of \$17.9 million and \$8.5 million included in the Company's allowance for credit losses at June 30, 2016 and December 31, 2015, respectively.

The Company did not record any liabilities at fair value for which measurement of the fair value was made on a non-recurring basis at June 30, 2016 and December 31, 2015.

Fair value option

The Company has elected the fair value option for certain originated residential mortgage loans held for sale, which allows for a more effective offset of the changes in fair values of the loans and the derivative instruments used to hedge them without the burden of complying with the requirements for hedge accounting.

The following table summarizes the difference between the aggregate fair value and the aggregate unpaid principal balance for mortgage loans held for sale measured at fair value:

| | June 30, 2016 | | | December 31, 2015 | | |
|---|----------------------|----------------------------|--|----------------------|----------------------------|--|
| (Dollars in thousands) | Aggregate Fair Value | Aggregate Unpaid Principal | Aggregate Fair Value Less Unpaid Principal | Aggregate Fair Value | Aggregate Unpaid Principal | Aggregate Fair Value Less Unpaid Principal |
| Mortgage loans held for sale, at fair value | \$229,653 | \$219,967 | \$ 9,686 | \$166,247 | \$161,083 | \$ 5,164 |

Interest income on mortgage loans held for sale is recognized based on contractual rates and is reflected in interest income on loans held for sale in the consolidated statements of comprehensive income. Net gains resulting from the change in fair value of these loans that were recorded in mortgage income in the consolidated statements of comprehensive income for the three and six months ended June 30, 2016 totaled \$2.0 million and \$3.9 million,

respectively, while net gains resulting from the change in fair value of these loans were \$3.1 million and \$3.7 million for the three and six months ended June 30, 2015, respectively. The

changes in fair value are mostly offset by economic hedging activities, with an immaterial portion of these changes attributable to changes in instrument-specific credit risk.

NOTE 14 – FAIR VALUE OF FINANCIAL INSTRUMENTS

The estimated fair value of a financial instrument is the current amount that would be exchanged between willing parties, other than in a forced liquidation. Fair value is best determined based upon quoted market prices. However, in many instances, there are no quoted market prices for the Company's various financial instruments. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the instrument. ASC Topic 825, Financial Instruments, excludes certain financial instruments and all non-financial instruments from its disclosure requirements. Consequently, the aggregate fair value amounts presented may not necessarily represent the underlying fair value of the Company.

The carrying amount and estimated fair values, as well as the level within the fair value hierarchy, of the Company's financial instruments are included in the tables below. See Note 1, Summary of Significant Accounting Policies, in the 2015 Annual Report on Form 10-K for the year ended December 31, 2015, for a description of how fair value measurements are determined.

| (Dollars in thousands) | June 30, 2016 | | | | |
|---|-----------------|--------------|-----------|-----------|--------------|
| | Carrying Amount | Fair Value | Level 1 | Level 2 | Level 3 |
| Financial Assets | | | | | |

The fair value estimates presented herein are based upon pertinent information available to management as of June 30, 2016 and December 31, 2015.

NOTE 15 – BUSINESS SEGMENTS

Each of the Company's reportable operating segments serves the specific needs of the Company's customers based on the products and services it offers. The reportable segments are based upon those revenue-producing components for which separate financial information is produced internally and primarily reflect the manner in which resources are allocated and performance is assessed. Further, the reportable operating segments are also determined based on the quantitative thresholds prescribed within ASC Topic 280, Segment Reporting, and consideration of the usefulness of the information to the users of the consolidated financial statements.

The Company reports the results of its operations through three reportable segments: IBERIABANK, IMC, and LTC. The IBERIABANK segment represents the Company's commercial and retail banking functions, including its lending, investment, and deposit activities. IBERIABANK also includes the Company's wealth management, capital markets, and other corporate functions. The IMC segment represents the Company's origination, funding, and subsequent sale of one-to-four family residential mortgage loans. The LTC segment represents the Company's title insurance and loan closing services.

Certain expenses not directly attributable to a specific reportable segment are allocated to segments based on pre-determined methods that reflect utilization. Also, within IBERIABANK are certain reconciling items that translate reportable segment results into consolidated results. The following tables present certain information regarding our operations by reportable segment, including a reconciliation of segment results to reported consolidated results for the periods presented. Reconciling items between segment results and reported results include:

Elimination of interest income and interest expense representing interest earned by IBERIABANK on interest-bearing checking accounts held by related companies, as well as the elimination of the related deposit balances at the IBERIABANK segment;

Elimination of investment in subsidiary balances on certain operating segments included in total and average segment assets; and

Elimination of intercompany due to and due from balances on certain operating segments that are included in total and average segment assets.

NOTE 16 – COMMITMENTS AND CONTINGENCIES

Off-balance sheet commitments

In the normal course of business, to meet the financing needs of its customers, the Company is a party to credit related financial instruments, with risk not reflected in the consolidated financial statements. These financial instruments include commitments to extend credit, standby letters of credit, and commercial letters of credit. Such commitments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the consolidated balance sheets. The credit policies used for these commitments are consistent with those used for on-balance sheet instruments. The Company's exposure to credit loss in the event of non-performance by its customers under such commitments or letters of credit represents the contractual amount of the financial instruments as indicated in the table below. At June 30, 2016 and December 31, 2015, the fair value of guarantees under commercial and standby letters of credit was \$1.7 million and \$1.5 million, respectively. These amounts represent the unamortized fees associated with the guarantees and is included in "other liabilities" on the Company's consolidated balance sheets. This fair value will decrease as the existing commercial and standby letters of credit approach their expiration dates. At June 30, 2016 and December 31, 2015, respectively, the Company had the following financial instruments outstanding and related reserves, whose contract amounts represent credit risk:

| (Dollars in thousands) | June 30, 2016 | December 31, 2015 |
|--|------------------|----------------------|
| Commitments to grant loans | \$365,284 | \$ 61,240 |
| Unfunded commitments under lines of credit | 4,695,238 | 4,617,802 |
| Commercial and standby letters of credit | 167,594 | 150,281 |
| Reserve for unfunded lending commitments | 13,826 | 14,145 |

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to be drawn upon, the total commitment amounts generally represent future cash requirements. The Company evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral, if any, is based on management's credit evaluation of the customer. Unfunded commitments under commercial lines of credit, revolving credit lines, and overdraft protection agreements are commitments for possible future extensions of credit to existing customers. Many of these types of commitments do not contain

a specified maturity date and may not be drawn upon to the total extent to which the Company is committed. See Note 6 for additional discussion related to the Company's unfunded lending commitments.

Commercial and standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. These guarantees are primarily issued to support public and private borrowing arrangements, including commercial paper issuance, bond financing, and similar transactions. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. When necessary they are collateralized, generally in the form of marketable securities and cash equivalents.

Legal proceedings

The nature of the business of the Company's banking and other subsidiaries ordinarily results in a certain amount of claims, litigation, investigations, and legal and administrative cases and proceedings, which are considered incidental to the normal conduct of business. Some of these claims are against entities or assets of which the Company is a successor or acquired in business acquisitions and certain of these claims will be covered by loss sharing agreements with the FDIC. The Company has asserted defenses to these litigations and, with respect to such legal proceedings, intends to continue to defend itself vigorously, litigating or settling cases according to management's judgment as to what is in the best interest of the Company and its shareholders.

In July of 2016, a subsidiary of IBERIABANK received a subpoena from the U.S. Department of Housing and Urban Development ("HUD") requesting information on certain previously originated FHA insured loans as well as other documents regarding FHA-related policies and practices. The Company is cooperating with HUD in responding to the subpoena. Due to the recent nature of the HUD subpoena, the Company is unable to determine if the submission of the information requested would result in an additional information request by HUD and/or further proceedings by HUD or other government agencies.

The Company assesses its liabilities and contingencies in connection with outstanding legal proceedings utilizing the latest information available. Where it is probable that the Company will incur a loss and the amount of the loss can be reasonably estimated, the Company records a liability in its consolidated financial statements. These legal reserves may be increased or decreased to reflect any relevant developments on a quarterly basis. Where a loss is not probable or the amount of loss is not estimable, the Company does not accrue legal reserves. While the outcome of legal proceedings is inherently uncertain, based on information currently available, advice of counsel, and available insurance coverage, the Company's management believes that it has established appropriate legal reserves. Any liabilities arising from pending legal proceedings are not currently expected to have a material adverse effect on the Company's consolidated financial position, consolidated results of operations, or consolidated cash flows. However, it is possible that the ultimate resolution of these matters, or any unasserted claims, if unfavorable, may be material to the Company's consolidated financial position, consolidated results of operations, or consolidated cash flows.

As of the date of this filing, the Company believes the amount of losses associated with legal proceedings that it is reasonably possible to incur above amounts already accrued is immaterial.

NOTE 17 - RELATED PARTY TRANSACTIONS

In the ordinary course of business, the Company may execute transactions with various related parties. These transactions are consummated at terms equivalent to the prevailing market rates and terms at the time. Examples of such transactions may include lending or deposit arrangements, transfers of financial assets, services for administrative support, and other miscellaneous items.

The Company has granted loans to executive officers and directors and their affiliates. These loans, including the related principal additions, principal payments, and unfunded commitments are immaterial to the consolidated financial statements at June 30, 2016 and December 31, 2015. None of the related party loans were classified as non-accrual, past due, troubled debt restructurings, or potential problem loans at June 30, 2016 or December 31, 2015, with the exception of the loan discussed below.

IBERIABANK and several other financial institutions have extended credit (the "Credit Facility") under a multi-bank syndicated credit facility to a corporation ("the Borrower"). One of the Company's independent directors is the Chairman, President and Chief Executive Officer of the Borrower. The Credit Facility consists of an asset based revolving line of credit not to exceed \$900 million, with a current borrowing base of \$500 million and a \$300 million

sublimit for letters of credit. IBERIABANK holds approximately six percent of the total commitments from twelve banks under the Credit Facility, which based on the current borrowing base, equates to \$30 million in IBERIABANK commitments. At December 31, 2015, there was no outstanding balance to IBERIABANK under the Credit Facility. At June 30, 2016, there was approximately \$20.5 million

outstanding to IBERIABANK under the Credit Facility. Depending on the type of advance, IBERIABANK earns interest on its advances under the Credit Facility at the London Interbank Offered Rate (“LIBOR”) or at a rate equal to the highest of (a) the Federal Funds Rate plus 1/2 of 1%, (b) the rate of interest in effect for such day as publicly announced from time to time by Bank of America as its “prime rate”, or (c) LIBOR plus 1.00%. The Borrower’s primary operations involve the exploration and production of oil and natural gas. Although the Borrower is current in its obligations under the Credit Facility, given the levels and extended duration of depressed oil and gas prices, and the impact of these depressed prices on the Borrower, the lead syndicator restructured the loan in June of 2016 and consequently IBERIABANK’s management has classified the loan as a TDR as of June 30, 2016.

Deposits from related parties held by the Company were immaterial at June 30, 2016 and December 31, 2015.

Item 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis is intended to assist readers in understanding the consolidated financial condition and results of operations of IBERIABANK Corporation and its wholly owned subsidiaries (collectively, the “Company”) as of and for the period ended June 30, 2016, and updates the Annual Report on Form 10-K for the year ended December 31, 2015. This discussion should be read in conjunction with the unaudited consolidated financial statements, accompanying footnotes and supplemental financial data included herein. The emphasis of this discussion will be amounts as of June 30, 2016 compared to December 31, 2015 for the balance sheets and the three and six months ended June 30, 2016 compared to June 30, 2015 for the statements of comprehensive income. Certain amounts in prior year presentations have been reclassified to conform to the current year presentation.

When we refer to the “Company,” “we,” “our” or “us” in this Report, we mean IBERIABANK Corporation and subsidiaries (consolidated). When we refer to the “Parent,” we mean IBERIABANK Corporation. See the Glossary of Acronyms at the end of this Report for terms used throughout this Report.

To the extent that statements in this Report relate to future plans, objectives, financial results or performance of the Company, these statements are deemed to be “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements, which are based on management’s current information, estimates and assumptions and the current economic environment, are generally identified by use of the words “may,” “plan,” “believe,” “expect,” “intend,” “will,” “should,” “continue,” “potential,” “anticipate,” “estimate,” “predict,” “project” or expressions, or the negative of these terms or other comparable terminology, including statements related to expected timing of proposed mergers, expected returns and other benefits of proposed mergers to shareholders, expected improvement in core efficiency resulting from mergers, estimated expense reductions, expected impact on and timing of the recovery of the impact on tangible book value, and expected effect of mergers on the Company’s capital ratios. The Company’s actual strategies and results in future periods may differ materially from those currently expected due to various risks and uncertainties.

Forward-looking statements represent management’s beliefs, based upon information available at the time the statements are made, with regard to the matters addressed; they are not guarantees of future performance.

Forward-looking statements are subject to numerous assumptions, risks and uncertainties that change over time and could cause actual results or financial condition to differ materially from those expressed in or implied by such statements. Factors that could cause or contribute to such differences include, but are not limited to: the level of market volatility, our ability to execute our growth strategy, including the availability of future bank acquisition opportunities, our ability to execute on our revenue and efficiency improvement initiatives, unanticipated losses related to the completion and integration of mergers and acquisitions, refinements to purchase accounting adjustments for acquired businesses and assets and assumed liabilities in these transactions, adjustments of fair values of acquired assets and assumed liabilities and of deferred taxes in acquisitions, actual results deviating from the Company’s current estimates and assumptions of timing and amounts of cash flows, credit risk of our customers, resolution of assets subject to loss share agreements with the FDIC within the coverage periods, effects of low energy and commodity prices, effects of residential real estate prices and levels of home sales, our ability to satisfy new capital and liquidity standards such as those imposed by the Dodd-Frank Wall Street Reform and Consumer Protection Act and those adopted by the Basel Committee on Banking Supervision and federal banking regulators, sufficiency of our allowance for loan losses, changes in interest rates, access to funding sources, reliance on the services of executive management, competition for loans, deposits and investment dollars, competition from competitors with greater financial resources than the Company, reputational risk and social factors, changes in government regulations and legislation, increases in FDIC insurance assessments, geographic concentration of our markets, economic or business conditions in our markets or nationally, rapid changes in the financial services industry, significant litigation, cyber-security risks including dependence on our operational, technological, and organizational systems and infrastructure and those of third party providers of those services, hurricanes and other adverse weather events, and valuation of intangible assets. Factors that may cause actual results to differ materially from these forward-looking statements are discussed in the Company’s Annual Report on Form 10-K and other filings with the Securities and Exchange Commission (the “SEC”), available at the SEC’s website, www.sec.gov, and the Company’s website, www.iberiabank.com, under the heading

“Investor Relations” and then “Financial Information.” All information in this discussion is as of the date of this Report. Except to the extent required by applicable law or regulation, the Company undertakes no obligation to revise or update publicly any forward-looking statement for any reason.

EXECUTIVE SUMMARY

Corporate Profile

The Company is a \$20.2 billion bank holding company primarily concentrated in commercial banking in the southeastern United States. The Company has been fulfilling the commercial and retail banking needs of our customers for 129 years through our subsidiary, IBERIABANK, with products and services currently offered in locations in seven states. The Company also operates mortgage production offices in 10 states through IBERIABANK's subsidiary, IMC, and offers a full line of title insurance and closing services throughout Arkansas and Louisiana through LTC and its subsidiaries. ICP provides equity research, institutional sales and trading, and corporate finance services. 1887 Leasing, LLC owns an aircraft used by management of the Company and its subsidiaries. IAM provides wealth management and trust services for commercial and private banking clients. CDE is engaged in the acquisition and allocation of tax credits.

Summary of 2016 Second Quarter Results of Operations

Net income available to common shareholders for the three months ended June 30, 2016 totaled \$50.0 million, a 62.0% increase compared to \$30.8 million for the same period in 2015. Earnings for the second quarter of 2015 included \$12.7 million in pre-tax merger-related expenses resulting from the acquisition of Georgia Commerce on May 31, 2015, and the conversions of the first quarter 2015 acquisitions of Florida Bank Group on February 28, 2015, and Old Florida on March 31, 2015. The three acquisitions in the first half of 2015, organic growth in the Company's legacy loan portfolio and fee income businesses, and successful cost containment efforts, contributed to the increase in net income during the second quarter of 2016.

Earnings per diluted common share for the second quarter of 2016 were \$1.21 compared to \$0.79 for the same quarter of 2015. Excluding non-core items, primarily the gain on sale of investments impacting the second quarter of 2016, and merger-related expenses impacting the second quarter of 2015, core earnings per share on a diluted basis (Non-GAAP) were \$1.18 for the quarter ended June 30, 2016, compared to \$1.05 for the quarter ended June 30, 2015. See Table 18, Reconciliations of Non-GAAP Financial Measures.

Net interest income was \$162.8 million for the second quarter of 2016, a \$17.1 million, or 11.7%, increase compared to the same quarter of 2015. The net interest spread increased nine basis points to 3.47%, from 3.38%, and the net interest margin on an annualized basis increased nine basis points to 3.61%, from 3.52%, when comparing the periods. Non-interest income was \$64.9 million in the second quarter of 2016, an increase of \$3.4 million, or 5.5%, over the second quarter of 2015. The period-over-period increase included increases in client derivatives income, treasury management income, and higher gains on sales of available-for-sale securities, as well as slight increases in mortgage income and service charges, partially offset by a decrease in income generated by ICP, the Company's energy investment banking boutique.

Non-interest expense for the second quarter of 2016 decreased \$13.7 million, or 8.9%, to \$139.5 million compared to \$153.2 million during the same quarter of 2015. The primary reason for the decrease relates to merger-related expenses and conversion costs incurred during the second quarter of 2015 related to the Company's 2015 acquisitions, which resulted in decreases in data processing expenses, marketing and business development expenses, and professional services expenses between periods.

The Company's GAAP efficiency ratio was 61.3% for the three months ended June 30, 2016, a significant improvement over the 73.9% efficiency ratio for the three months ended June 30, 2015. Including the effects of tax benefits related to tax-exempt income, and excluding amortization of intangibles and non-core revenues and expenses, the core tangible efficiency ratio on a tax-equivalent non-GAAP basis was 60.0% for the second quarter of 2016, compared to 64.4% for the second quarter of 2015. The reconciliation of the GAAP to non-GAAP measure is included in Table 18.

Provision for loan losses increased \$3.1 million, or 35.0%, to \$11.9 million in the second quarter of 2016, compared to \$8.8 million in the second quarter of 2015. The increase is attributable to both legacy loan growth and the downward migration of energy-related credits as expected, due to general energy sector weakness from a global supply and demand imbalance that has led to sustained low oil and gas prices.

Summary of 2016 Year-to-Date Results

Net income available to common shareholders for the six months ended June 30, 2016 totaled \$90.1 million, a 61.1% increase compared to \$56.0 million for the same period in 2015. Earnings for the first half of 2015 were impacted by \$22.0 million in pre-tax merger-related expenses resulting from the acquisitions of Florida Bank Group, Old Florida and Georgia Commerce during that period. In addition, organic growth in the Company's legacy loan portfolio and fee income businesses, and successful cost containment efforts, contributed to the increase in net income during the first half of 2016.

Earnings per diluted common share for the six months ended June 30, 2016 were \$2.18, compared to \$1.54 for the same period in 2015. Excluding non-core items, primarily merger-related expenses impacting 2015 results, core earnings per share on a diluted basis (Non-GAAP) were \$2.19 for the six months ended June 30, 2016, compared to \$2.00 for the six months ended June 30, 2015. See Table 18, Reconciliations of Non-GAAP Financial Measures. Net interest income was \$324.2 million for the first half of 2016, a \$52.7 million, or 19.4%, increase compared to the same period of 2015. The net interest spread increased nine basis points to 3.48%, from 3.39%, and the net interest margin on an annualized basis increased 10 basis points to 3.63%, from 3.53%, when comparing the periods. Non-interest income increased \$10.4 million, or 9.4%, to \$120.8 million during the first six months of 2016, which included increases in client derivatives income, treasury management income, and mortgage income. These increases, in addition to increased non-interest income related to service charges on deposit accounts, sales of SBA loans, and sales of available-for-sale investments, were partially offset by a decrease in broker commissions income from lower ICP revenues.

Non-interest expense for the first half of 2016 was \$277.0 million, \$9.4 million, or 3.3%, lower than the comparable period of 2015. The primary reason for the decrease is the \$22.0 million of merger-related expenses incurred during the first half of 2015 resulting from the Company's three 2015 acquisitions. This decrease was partially offset by a \$9.1 million, or 5.8%, increase in salaries and employee benefits expense, primarily a result of the Company's acquisition-related growth.

Provision expense was \$26.8 million, up \$12.6 million, or 89.4%, during the first six months of 2016 compared to 2015. The increase is partially related to total loan growth of 5.5% from June 30, 2015 to June 30, 2016, but primarily is due to a 53% increase in classified assets as of those respective period ends. Classified assets as of June 30, 2016 were \$414 million, of which \$244 million were energy-related, compared to classified assets of \$270 million as of June 30, 2015, of which \$32 million were energy-related.

The Company's estimated annual effective tax rate is 33.7% year-to-date in 2016, compared to 31.2% for the same period of the prior year. Compared to 2015, the annual effective tax rate has increased in line with the increase in pre-tax income, and due to expired tax credits.

Summary of Financial Condition at June 30, 2016

The Company's total loan portfolio increased \$395.1 million, or 2.8%, from year-end 2015 to \$14.7 billion at June 30, 2016, which was driven by legacy loan growth of \$794.3 million, partially offset by a decrease of \$399.2 million in acquired loans. By loan type, the increase was primarily driven by legacy commercial loan growth of \$651.4 million during the first six months of 2016, 8.0% higher than at the end of 2015.

From an asset quality perspective, total non-performing assets increased \$11.6 million, or 6.1%, compared to December 31, 2015. Annualized net charge-offs were 33 basis points and 11 basis points of average loans during the second quarters of 2016 and 2015, respectively. The regression in asset quality from year-end is a result of loans to customers in the energy industry, which has been impacted by depressed oil prices. At June 30, 2016, \$60.8 million in energy-related loans were considered non-performing, up significantly from \$8.4 million at year-end 2015. At June 30, 2016, the Company had approximately \$35.3 million in aggregate reserves for energy-related loans and unfunded commitments, an increase of \$8.6 million, or 32.3%, since December 31, 2015. Excluding energy-related loans, non-performing assets decreased \$40.8 million, or 22.4%, from year-end. The Company's total allowance for loan losses increased \$9.1 million, or 6.6%, from \$138.4 million at December 31, 2015 to \$147.5 million at June 30, 2016, and represented approximately 1.0% of total loans at both December 31, 2015 and June 30, 2016.

Total deposits decreased \$316.7 million, or 2.0%, to \$15.9 billion at June 30, 2016, from \$16.2 billion at December 31, 2015. Over the same period, non-interest-bearing deposits increased \$187.0 million, or 4.3%, and equated to 28.6% and 26.9% of total deposits at June 30, 2016 and December 31, 2015, respectively. The decrease in deposits from year-end is partially cyclical in nature due to a surge in public funds in the fourth quarter that decline over the remainder of the subsequent year. In addition, the Company had several large temporary deposits, related to a few specific energy clients, leave since year-end, as anticipated.

On May 9, 2016, the Company issued 2,300,000 Depositary Shares, each representing a 1/400th ownership interest in a share of the Company's 6.60% Series C Preferred Stock, resulting in net proceeds of approximately \$55.3 million. The Company used a portion of the proceeds, as previously approved by resolution of the Board of Directors, to

repurchase 202,506 shares of its common stock at an average price of \$57.61 during June of 2016. The primary purpose of the combined transactions was to lower the Company's overall cost of capital.

Capital ratios as of June 30, 2016 compared to December 31, 2015 were impacted by the phase out of the Company's remaining 25% of trust preferred securities from Tier 1 risk-based capital into Tier 2 capital, and the issuance of preferred stock and repurchase of common shares in May and June, 2016, respectively, in addition to normal operations of the Company. Overall, the Company's Tier 1 risk-based capital ratio increased 14 basis points and the total risk-based capital ratio increased 32 basis points from year-end. The Company met all capital adequacy requirements and IBERIABANK continued to meet the minimum requirements to be considered well-capitalized under regulatory guidelines as of June 30, 2016.

2016 Outlook

The Company's long-term financial goals are as follows:

• Core Return on Average Tangible Common Equity of 13% to 17%;

• Core Tangible Efficiency Ratio of less than 60%;

• Legacy Asset Quality in the top 10% of our peers;

• Double-digit percentage growth in core diluted EPS.

Despite a challenging economic environment, as discussed below, the Company is striving to meet several of these financial goals in 2016, and our year-to-date results and full-year 2016 forecast are consistent with these goals. Based on our current forecasts and absent an increase in interest rates, the Company expects net interest margin to be around 3.60% for the full year of 2016. The Company anticipates that higher provision expense, currently estimated at \$45 million in 2016, compared to \$31 million in 2015, will be offset by continued strength in its mortgage, title, treasury management and customer derivatives businesses. Core expenses are expected to be less than \$560 million for the full year of 2016 and forecasted 2016 core EPS is in line with guidance released in January 2016 of \$4.58. Although concerns over future global economic growth has led to increased demand for safe haven assets and a corresponding contraction in interest rates, the Company is well-positioned with a strong balance sheet to withstand the current economic uncertainty. In addition, the Company believes that its market diversification should continue to limit the impact of sustained low oil and gas prices and the related uncertainty in the energy sector on the Company's consolidated financial results.

Excess oil supply and weakening global demand have weighed heavily on oil prices, which reached a 12-year low at less than \$27 per barrel in January of 2016. Oil prices have rebounded, with monthly average prices increasing over the last 5 months to \$48 per barrel in June of 2016. However, the expectation of continuing inventory builds, concerns over future global economic growth and associated global oil demand, the responsiveness of oil producers, and general economic and geopolitical uncertainty could contribute to future disruptions in oil prices. The Company remains cautious regarding the effects on its markets most impacted by the oil and gas industry. The Company has made a concerted effort through stringent underwriting standards and conservative concentration limits to balance risk and return as it relates to energy exposures. Energy-related loans were \$662.0 million, or 4.5% of our total loan portfolio at June 30, 2016, compared to \$680.8 million, or 4.8% of our total loan portfolio at December 31, 2015. The Company has experienced a downward migration in ratings of energy credits as expected, with 47% of the energy-related loan portfolio criticized, and 37% classified, at June 30, 2016. At quarter-end, the Company had \$35.3 million in aggregate reserves for energy-related loans, which was 5.3% of the energy-related outstandings at that date, and covered energy NPAs of \$60.8 million by 58%. The Company incurred energy-related charge-offs of \$7.7 million during the current quarter, specifically related to two customers. No energy-related charge-offs occurred during the first quarter of 2016 or during the 2015 year. Future losses will depend on the duration and severity of the depression of commodity prices. The Company will continue to manage risk by reducing and exiting energy relationships that no longer fit our credit profile and recording additional provision, as necessary.

The mortgage origination locked pipeline was \$345 million at June 30, 2016, compared to \$227 million at December 31, 2015 and \$329 million at June 30, 2015. Mortgage originations increased 4% year-to-date in 2016 compared to 2015 and volumes sold were up 5% year-over-year. Due to the current rate environment and housing inventory, the Company is expecting a longer seasonal benefit in the mortgage business whereby third quarter production, which typically trends lower, should look similar to second quarter production. Mortgage volume in 2016 is expected to be greater than \$2.5 billion, with margins up approximately 10% over 2015 levels. Overall, mortgage income is expected to be up almost 5% in 2016 over 2015. Title revenue is up slightly year-over-year and is expected to be flat for the full year of 2016. At June 30, 2016, the commercial loan pipeline was approximately \$1.0 billion.

The Company expects consolidated loan growth in the 5% to 7% range in 2016.

The Company experienced revenue growth in the majority of its fee income businesses during the first half of 2016. Treasury management income was up \$2.3 million, or 35.1%, year-to-date in 2016, and is expected to be up 26% in 2016 compared to 2015. Client derivatives income was up approximately \$3.4 million, or 173.0%, year-to-date, and is expected to be up 95% in 2016, as this business has benefited from the flat yield curve. IFS revenues increased 6.7% year-to-date as of June 30, 2016 compared to June 30, 2015 and are expected to be up slightly for the year. Revenues for IWA were up 1.3% in the first half of

2016 compared to the six months ended June 30, 2015 and are expected to be flat for the year. Despite stable growth in these fee income businesses, ICP, the Company's energy investment banking boutique, has faced headwinds, with revenues decreasing 49% year-over-year. In 2016, the Company expects revenues for ICP to decrease approximately 13% from 2015.

Revenue enhancement and cost control measures contributed to a GAAP efficiency ratio of 61.3% during the current quarter, and the efficiency ratio has decreased steadily in each of the last five quarters from 73.9% in the second quarter of 2015. The Company's core tangible efficiency ratio on a tax-equivalent basis (non-GAAP) declined to 60.0% in the second quarter of 2016. The Company's long-term goal is to sustain an efficiency ratio at or below 60% on a non-GAAP core basis.

ANALYSIS OF RESULTS OF OPERATIONS

The following table sets forth selected financial ratios and other relevant data used by management to analyze the Company's performance.

TABLE 1 – SELECTED CONSOLIDATED FINANCIAL INFORMATION

| | As of and For the Three Months Ended June 30 | | | |
|---|---|---|--------|---|
| | 2016 | | 2015 | |
| Key Ratios ⁽¹⁾ | | | | |
| Return on average assets | 1.00 | % | 0.67 | % |
| Core return on average assets (Non-GAAP) | 0.98 | | 0.89 | |
| Return on average common equity | 8.05 | | 5.54 | |
| Core return on average tangible common equity (Non-GAAP) ⁽²⁾ | 11.64 | | 11.14 | |
| Equity to assets at end of period | 13.08 | | 12.29 | |
| Earning assets to interest-bearing liabilities at end of period | 143.39 | | 138.56 | |
| Interest rate spread ⁽³⁾ | 3.47 | | 3.38 | |
| Net interest margin (TE) ^{(3) (4)} | 3.61 | | 3.52 | |
| Non-interest expense to average assets (annualized) | 2.80 | | 3.33 | |
| Efficiency ratio ⁽⁵⁾ | 61.3 | | 73.9 | |
| Core tangible efficiency ratio (TE) (Non-GAAP) ^{(2) (4) (5)} | 60.0 | | 64.4 | |
| Common stock dividend payout ratio | 28.0 | | 45.3 | |
| Asset Quality Data | | | | |
| Non-performing assets to total assets at end of period ⁽⁶⁾ | 1.00 | % | 1.28 | % |
| Allowance for credit losses to non-performing loans at end of period ⁽⁶⁾ | 92.22 | | 71.78 | |
| Allowance for credit losses to total loans at end of period | 1.10 | | 1.01 | |
| Consolidated Capital Ratios | | | | |
| Tier 1 leverage ratio | 9.70 | % | 9.24 | % |
| Common Equity Tier 1 (CET1) | 10.07 | | 9.97 | |
| Tier 1 risk-based capital ratio | 10.84 | | 10.06 | |
| Total risk-based capital ratio | 12.46 | | 11.49 | |

(1) With the exception of end-of-period ratios, all ratios are based on average daily balances during the respective periods.

Tangible calculations eliminate the effect of goodwill and acquisition-related intangible assets and the corresponding amortization expense on a tax-effected basis where applicable. See Table 18 for Non-GAAP reconciliations.

Interest rate spread represents the difference between the weighted average yield on earning assets and the weighted average cost of interest-bearing liabilities. Net interest margin represents net interest income as a percentage of average net earning assets.

(4) Fully taxable equivalent (TE) calculations include the tax benefit associated with related income sources that are tax-exempt using a rate of 35%, which approximates the marginal tax rate.

- (5) The efficiency ratio represents non-interest expense as a percentage of total revenues. Total revenues are the sum of net interest income and non-interest income.
- (6) Non-performing loans consist of non-accruing loans and loans 90 days or more past due. Non-performing assets consist of non-performing loans and repossessed assets.

Net Interest Income/Net Interest Margin

Net interest income is the difference between interest realized on earning assets and interest paid on interest-bearing liabilities and is also the driver of core earnings. As such, it is subject to constant scrutiny by management. The rate of return and relative risk associated with earning assets are weighed to determine the appropriate mix of earning assets. Additionally, the need for lower cost funding sources is weighed against relationships with clients and future growth opportunities.

The following tables set forth the quarter-to-date and year-to-date information regarding (i) the total dollar amount of interest income from earning assets and the resultant average yields; (ii) the total dollar amount of interest expense on interest-bearing liabilities and the resultant average rates; (iii) net interest income; (iv) net interest spread; and (v) net interest margin. Information is based on average daily balances during the indicated periods. Investment security market value adjustments and trade-date accounting adjustments are not considered to be earning assets and, as such, the net effect of these adjustments is included in non-earning assets.

TABLE 2 – QUARTERLY AVERAGE BALANCES, NET INTEREST INCOME AND INTEREST YIELDS/RATES

| | Three Months Ended June 30 | | | | | | |
|--|----------------------------|----------------------------|----------------|--|--------------------|----------------------------|----------------|
| | 2016 | | | | 2015 | | |
| (Dollars in thousands) | Average Balance | Interest Income/Expense | Yield/ Rate | | Average Balance | Interest Income/Expense | Yield/ Rate |
| Earning Assets: | | | | | | | |

| Total earning assets | 18,155,004 | 178,694 | 3.97 % | | 16,688,287 | 160,545 | 3.87 % |
| Allowance for loan losses | (149,037) | | | | (129,069) | | |
| Non-earning assets | 1,997,950 | | | | 1,886,068 | | |
| Total assets | \$20,003,917 | | | | \$18,445,286 | | |
| Interest-bearing liabilities | | | | | | | |
| Deposits: | | | | | | | |
| NOW accounts | \$2,911,510 | 2,080 | 0.29 % | | \$2,639,140 | 1,765 | 0.27 % |
| Savings and money market accounts | 6,486,242 | 5,527 | 0.34 % | | 6,228,052 | 5,058 | 0.33 % |
| Certificates of deposit | 2,117,711 | 4,309 | 0.82 % | | 2,331,537 | 4,959 | 0.85 % |
| Total interest-bearing deposits | 11,515,463 | 11,916 | 0.42 % | | 11,198,729 | 11,782 | 0.42 % |
| Short-term borrowings | 624,302 | 662 | 0.42 % | | 461,742 | 220 | 0.19 % |
| Long-term debt | 593,305 | 3,363 | 2.24 % | | 446,748 | 2,866 | 2.54 % |
| Total interest-bearing liabilities | 12,733,070 | 15,941 | 0.50 % | | 12,107,219 | 14,868 | 0.49 % |
| Non-interest-bearing demand deposits | 4,463,928 | | | | 3,933,468 | | |
| Non-interest-bearing liabilities | 203,050 | | | | 172,473 | | |
| Total liabilities | 17,400,048 | | | | 16,213,160 | | |
| Shareholders' equity | 2,603,869 | | | | 2,232,126 | | |
| Total liabilities and shareholders' equity | \$20,003,917 | | | | \$18,445,286 | | |
| Net earning assets | \$5,421,934 | | | | \$4,581,068 | | |
| Net interest income / Net interest spread | | \$ 162,753 | 3.47 % | | | \$ 145,677 | 3.38 % |
| Net interest income (TE) / Net interest margin (TE) ⁽³⁾ | | \$ 165,085 | 3.61 % | | | \$ 147,673 | 3.52 % |

⁽¹⁾ Total loans include non-accrual loans for all periods presented.

⁽²⁾ Interest income includes loan fees of \$0.7 million and \$0.8 million for the three-month periods ended June 30, 2016 and 2015, respectively.

⁽³⁾ Taxable equivalent yields are calculated using a rate of 35%, which approximates the marginal tax rate.

TABLE 3 – YEAR-TO-DATE AVERAGE BALANCES, NET INTEREST INCOME AND INTEREST YIELDS/RATES

| (Dollars in thousands) | Six Months Ended June 30 2016 | | | 2015 | | |
|--|----------------------------------|----------------------------|----------------|--------------------|----------------------------|----------------|
| | Average Balance | Interest Income/Expense | Yield/ Rate | Average Balance | Interest Income/Expense | Yield/ Rate |

| Long-term debt | 558,404 | 6,477 | 2.29 % | 435,186 | 5,946 | 2.72 % |
| Total interest-bearing liabilities | 12,654,027 | 31,474 | 0.50 % | 11,367,720 | 27,649 | 0.49 % |
| Non-interest-bearing demand deposits | 4,426,093 | | | 3,624,628 | | |
| Non-interest-bearing liabilities | 185,430 | | | 154,077 | | |
| Total liabilities | 17,265,550 | | | 15,146,425 | | |
| Shareholders' equity | 2,567,064 | | | 2,061,896 | | |
| Total liabilities and shareholders' equity | \$ 19,832,614 | | | \$ 17,208,321 | | |
| Net earning assets | \$ 5,360,152 | | | \$ 4,219,261 | | |
| Net interest income / Net interest spread | | \$ 324,156 | 3.48 % | | \$ 271,481 | 3.39 % |
| Net interest income (TE) / Net interest margin (TE) ⁽³⁾ | | \$ 328,848 | 3.63 % | | \$ 275,517 | 3.53 % |

⁽¹⁾ Total loans include non-accrual loans for all periods presented.

⁽²⁾ Interest income includes loan fees of \$1.4 million for the six-month periods ended June 30, 2016 and 2015.

⁽³⁾ Taxable equivalent yields are calculated using a rate of 35%, which approximates the marginal tax rate.

Net interest income was \$162.8 million for the second quarter of 2016, a \$17.1 million, or 11.7%, increase compared to the same quarter of 2015. The second quarter of 2016 reflects a \$1.5 billion, or 8.8%, increase in average earning assets, partially offset by a \$625.6 million, or 5.2%, increase in average interest-bearing liabilities compared to the second quarter of 2015. The earning asset yield increased 10 basis points to 3.97% during the second quarter of 2016, while funding costs increased one basis point to 0.50% when compared to the second quarter of 2015. The primary driver of the increase in earning asset yield was the timing of large purchases of bonds during the second half of 2015 at a higher average yield, and sale of lower yielding investments at the end of the current period. In addition, amortization of the FDIC loss share receivable, which results in a negative yield for this asset, continues to decrease. While the FOMC increased rates in December of 2015, the incremental benefit of that rate increase was partially offset by compressing spreads on loan originations. As a result, the net interest spread increased nine basis points to 3.47%, from 3.38%, and the net interest margin on an annualized basis increased nine basis points to 3.61%, from 3.52%, when comparing the periods.

Net interest income was \$324.2 million for the first half of 2016, a \$52.7 million, or 19.4%, increase compared to the same period of 2015. Year-to-date 2016 results reflect a \$2.4 billion, or 15.6%, increase in average earning assets, partially offset by a \$1.3 billion, or 11.3%, increase in average interest-bearing liabilities compared to the first six months of 2015. The earning asset yield increased 10 basis points to 3.98% during the first half of 2016, primarily due to the timing of investment securities purchases at higher yields and sale of lower yielding securities, and a decrease in amortization on FDIC loss share receivables. Funding costs increased one basis point to 0.50% when compared to 2015. As a result, the net interest spread increased nine basis points to 3.48%, from 3.39%, and the net interest margin on an annualized basis increased 10 basis points to 3.63%, from 3.53%, when comparing the periods.

Average loans made up 80.3% and 79.7% of average earning assets in the second quarters of 2016 and 2015, respectively, and 80.3% and 79.8% for the respective six-month periods. Average loans increased \$1.3 billion, or 9.6%, when comparing the second quarter of 2016 to the same quarter of 2015, and \$2.0 billion, or 16.3%, when comparing the six months of 2016 to the same period of 2015. The increase in loans was a result of organic growth in the Company's legacy loan portfolio. Investment securities made up 15.7% and 14.8% of average earning assets for the second quarters of 2016 and 2015, respectively, and 15.9% and 15.3% for the respective six-month periods. Average interest-bearing deposits made up 90.4% and 92.5% of average interest-bearing liabilities in the second quarters of 2016 and 2015, respectively, and 91.2% and 90.9% for the respective six-month periods. Average short-term borrowings and long-term debt comprised 9.6% of average interest-bearing liabilities in the second quarter of 2016, compared to 7.5% for the second quarter of 2015, and 8.8% for the first six months of 2016, compared to 9.1% for the same period of 2015.

The following table sets forth information regarding average loan balances and average yields, segregated into the legacy and acquired portfolios, for the periods indicated.

TABLE 4 – AVERAGE LOAN BALANCE AND YIELDS

| | Three Months Ended June 30 | | | | Six Months Ended June 30 | | | | | | | |

| (Dollars in thousands) | Average Balance | Average Yield | Average Balance | Average Yield | Average Balance | Average Yield | Average Balance | Average Yield | Average Balance | Average Yield | Average Balance | Average Yield |
| Legacy loans | 11,737,394 | 4.00 % | 10,147,037 | 3.88 % | 11,528,043 | 4.01 % | 9,941,937 | 3.88 % | | | | |
| Acquired loans | 2,833,551 | 6.66 % | 3,150,687 | 6.85 % | 2,934,634 | 6.57 % | 2,493,688 | 7.22 % | | | | |
| Total loans | 14,570,945 | 4.52 % | 13,297,724 | 4.58 % | 14,462,677 | 4.53 % | 12,435,625 | 4.55 % | | | | |
| FDIC loss share receivables | 32,189 | (51.16)% | 55,751 | (52.50)% | 34,775 | (48.63)% | 60,929 | (43.78)% | | | | |
| Total loans and FDIC loss share receivables | \$14,603,134 | 4.45 % | \$13,353,475 | 4.38 % | \$14,497,452 | 4.45 % | \$12,496,554 | 4.36 % | | | | |
| Provision for Loan Losses | | | | | | | | | | | | |

Provision for loan losses was up \$3.1 million, or 35.0%, to \$11.9 million in the second quarter of 2016, compared to \$8.8 million in the second quarter of 2015. The increase is attributable to both organic loan growth and the downward migration of energy-related credits as expected, due to general energy sector weakness from a global supply and demand imbalance that has led to sustained low oil and gas prices.

Provision expense was \$26.8 million, up \$12.6 million, or 89.4%, during the first six months of 2016 compared to 2015. The increase is partially related to total loan growth of 5.5% from June 30, 2015 to June 30, 2016, but primarily is due to a 69%

increase in classified assets as of those respective period ends. Classified assets as of June 30, 2016 were \$414 million, of which \$244 million were energy-related, compared to classified assets of \$245 million as of June 30, 2015, of which \$32 million were energy-related.

See the "Asset Quality" section for further discussion on past due loans, non-performing assets, troubled debt restructurings and the allowance for credit losses.

Non-interest Income

The Company's operating results for the three months ended June 30, 2016 included non-interest income of \$64.9 million compared to \$61.5 million for the same period of 2015. The \$3.4 million, or 5.5%, increase in non-interest income was primarily due to a \$1.4 million, or 149.7%, increase in client derivatives income, a \$1.1 million, or 32.1%, increase in treasury management income, higher gains on sales of available-for-sale securities of \$886 thousand, or 98.1%, as well as slight increases in mortgage income (\$745 thousand, or 3.0%) and service charges (\$778 thousand, or 7.7%), partially offset by a \$1.7 million, or 56.9%, decrease in income generated by ICP.

Non-interest income as a percentage of total gross revenue (defined as total interest and dividend income and non-interest income) in the second quarter of 2016 was 26.6% compared to 27.7% of total gross revenue in the second quarter of 2015.

Non-interest income increased \$10.4 million, or 9.4%, to \$120.8 million during the first six months of 2016, which included increases of \$3.4 million, or 173.0%, in client derivatives income, \$2.3 million, or 35.1%, in treasury management income, and \$2.7 million, or 6.2%, in mortgage income. These increases, in addition to increased non-interest income related to service charges on deposit accounts, sales of SBA loans, and sales of available-for-sale investments, were partially offset by a \$2.1 million, or 21.7%, decrease in broker commissions income from lower ICP revenues.

In the first half of 2016, mortgage production and sales resulted in a \$2.7 million, or 6.2%, increase in mortgage income over the first six months of 2015. The Company originated \$1.23 billion in mortgage loans in the first six months of 2016, up \$48.8 million, or 4.1%, from the year-ago period. The Company sold \$1.21 billion in mortgage loans during the six months ended June 30, 2016, up \$64.1 million, or 5.6%, from the comparable period of 2015.

Non-interest Expense

Non-interest expense for the second quarter of 2016 decreased \$13.7 million, or 8.9%, compared to the same quarter of 2015. The primary reason for the decrease relates to merger-related expenses associated with the acquisition of Georgia Commerce during the second quarter of 2015 and conversion costs related to the Company's acquisitions of Florida Bank Group and Old Florida. Merger-related expense decreases period over period included a \$5.3 million, or 46.7%, decrease in data processing expenses, a \$1.0 million, or 25.0%, decrease in marketing and business development expenses, and a \$1.0 million, or 17.2%, decrease in professional services expenses.

Credit and other loan related expense decreased \$1.8 million, or 38.0%, from the year-ago quarter as a result of a lower reserve for unfunded lending commitments due to a risk shift from higher-risk energy-related commitments, which have decreased as these lines have funded or been curtailed, to lower-risk unfunded commitments. In addition, other non-interest expense decreased \$4.2 million, or 27.8%, primarily the result of \$2.3 million in lower net costs of OREO from write-downs of former bank properties in the second quarter of 2015 as part of branch consolidation efforts, in contrast to gains on sales of those properties recognized during the current quarter of 2016. Other non-interest expense in the second quarter of 2015 also included \$1.3 million of prepayment charges on the early redemption of long-term borrowings. Salaries and employee benefits and occupancy and equipment expenses were essentially flat quarter-over-quarter, despite the Company's acquisition-related growth, as a result of the Company's focus on cost control.

Non-interest expense for the first half of 2016 was \$277.0 million, \$9.4 million, or 3.3%, lower than the comparable period of 2015. The primary reason for the decrease is the merger-related expenses incurred during the first half of 2015 resulting from the Company's three 2015 acquisitions. Merger-related expenses included data processing expense of \$9.9 million and professional services expense of \$4.5 million during the first half of 2015.

On a year-to-date basis, credit and other loan related expenses decreased \$3.3 million, or 37.1%, period-over-period as a result of a decrease in the reserve for unfunded lending commitments. Net costs of OREO property decreased \$3.6 million, or 154.3%, related to impairment charges on branch closures taken in 2015, compared to the gains recognized on sales of those former bank properties in 2016. These decreases were offset by a \$9.1 million, or 5.8%, increase in salaries and employee benefits expense, primarily a result of the Company's acquisition-related growth.

The Company's GAAP efficiency ratio was 61.3% for the three months ended June 30, 2016, a significant improvement over the 73.9% efficiency ratio for the three months ended June 30, 2015. Including the effects of tax benefits related to tax-exempt income, and excluding amortization of intangibles and non-core revenues and expenses, the core tangible efficiency ratio on a

tax-equivalent non-GAAP basis was 60.0% for the second quarter of 2016, compared to 64.4% for the second quarter of 2015. The reconciliation of the GAAP to non-GAAP measure is included in Table 18.

Income Taxes

For the three months ended June 30, 2016 and 2015, the Company recorded income tax expense of \$25.5 million and \$14.4 million, respectively, equating to an effective income tax rate of 33.4% and 31.8%, respectively. For the six months ended June 30, 2016 and 2015, the Company recorded income tax expense of \$47.6 million and \$25.4 million, respectively, which resulted in an effective income tax rate of 33.7% for the first half of 2016 and 31.2% for the same period of 2015.

The difference between the effective tax rate and the statutory federal and state tax rates relates to items that are non-taxable or non-deductible, primarily the effect of tax-exempt income, the non-deductibility of a portion of the amortization recorded on acquisition intangibles, and various tax credits. The effective tax rate was negatively impacted by the increase in pre-tax income, expiration of new market tax credits, and the post-merger effect of the 2015 acquisitions, which contributed to the increase in the Company's state effective tax rate given the higher statutory tax rates in Florida and Georgia.

FINANCIAL CONDITION

Earning Assets

Interest income associated with earning assets is the Company's primary source of income. Earning assets are composed of interest-earning or dividend-earning assets, including loans, securities, short-term investments and loans held for sale. As a result of organic growth, earning assets increased \$543.4 million, or 3.1%, since December 31, 2015.

The following discussion highlights the Company's major categories of earning assets.

Loans

The Company had total loans of approximately \$14.7 billion at June 30, 2016, an increase of \$395.1 million, or 2.8%, from December 31, 2015. Legacy loans increased \$794.3 million, or 7.1%, to \$12.0 billion at June 30, 2016, while acquired loans decreased \$399.2 million, or 12.7%, to \$2.7 billion at June 30, 2016. The growth in the legacy portfolio included increases in commercial loans of \$651.4 million, or 8.0%, consumer loans of \$42.2 million, or 1.8%, and mortgage loans of \$100.7 million, or 14.5%, over December 31, 2015 balances. With no additional acquisitions in the first half of 2016, the acquired portfolio is decreasing as expected over time as pay-downs and pay-offs occur. In addition, acquired loans are transferred to the legacy portfolio as they are refinanced, renewed, restructured, or otherwise underwritten to the Company's standards.

The major categories of loans outstanding at June 30, 2016 and December 31, 2015 are presented in the following tables, segregated into legacy and acquired loans.

TABLE 5 – SUMMARY OF LOANS

60

Loan Portfolio Components

The Company's loan to deposit ratio at June 30, 2016 and December 31, 2015 was 92.8% and 88.6%, respectively. The percentage of fixed rate loans to total loans was 46.0% at June 30, 2016 and 47.9% at December 31, 2015. The discussion below highlights activity by major loan type.

Commercial Loans

Total commercial loans increased \$371.0 million, or 3.6%, to \$10.6 billion at June 30, 2016, from \$10.2 billion at December 31, 2015. Legacy commercial loan growth during the first six months of 2016 totaled \$651.4 million, an 8.0% increase from year-end 2015. The Company continued to attract and retain commercial customers as commercial loans were 71.8% of the total loan portfolio at June 30, 2016, compared to 71.2% at December 31, 2015. Unfunded commitments on commercial loans, including approved loan commitments not yet funded, were \$3.9 billion at June 30, 2016, an increase of \$308.5 million, or 8.7%, when compared to year-end 2015.

Commercial real estate loans increased \$398.5 million, or 6.6%, during the first six months of 2016, driven by an increase in legacy commercial real estate loans of \$593.6 million, or 13.2%, partially offset by a decrease in acquired commercial real estate loans of \$195.1 million, or 12.4%. At June 30, 2016, commercial real estate loans totaled \$6.5 billion, or 44.0% of the total loan portfolio, compared to 42.4% at December 31, 2015. The Company's underwriting standards generally provide for loan terms of three to five years, with amortization schedules of generally no more than twenty years. Low loan-to-value ratios are generally maintained and usually limited to no more than 80% at the time of origination.

As of June 30, 2016, commercial and industrial loans totaled \$3.4 billion, or 23.3% of the total loan portfolio. This represents an \$8.8 million, or 0.3%, decrease from December 31, 2015.

The following table details the Company's commercial loans by state, as defined by market of origination.

TABLE 6 – COMMERCIAL LOANS BY STATE

| (Dollars in thousands) | Louisiana | Florida | Alabama | Texas | Arkansas | Georgia | Tennessee | Other | Total |

| Total | \$3,353,274 | \$2,026,812 | \$1,087,749 | \$1,852,909 | \$569,383 | \$693,776 | \$507,123 | \$107,829 | \$10,198,855 |
| Energy-related Loans | | | | | | | | | |

The Company's loan portfolio includes energy-related loans totaling \$662.0 million outstanding at June 30, 2016, or 4.5% of total loans, compared to \$680.8 million, or 4.8% of total loans, at December 31, 2015, a decrease of \$18.7 million, or 2.8%. At June 30, 2016, E&P loans accounted for 49.5% of energy-related loans and 53.5% of energy-related commitments. Midstream companies accounted for 18.7% of energy-related loans and 18.9% of energy commitments, while service company loans totaled 31.8% of energy-related loans and 27.6% of energy commitments. The rapid and sustained decline in energy commodity prices has unsettled the financial condition of businesses and communities tied to the oil and gas industries. While the vast majority of the Company's loan portfolio continues to have no exposure to these concerns, we remain vigilant in our actions to mitigate the risks in the current environment.

Generally, service companies are the most affected by fluctuations in commodity prices, while midstream companies are least affected. The Company's historical focus on sound client selection, conservative credit underwriting, proactive portfolio management, and market and business diversification continue to serve the Company well. The strategic decision to expand into larger markets across the southeastern U.S. allows the Company to drive growth and profitability to offset declining exposures to clients in the energy sector. Based on the composition of its portfolio at June 30, 2016, the Company believes most of its exposures are in areas of lower credit risk.

Mortgage Loans

The Company continues to sell the majority of conforming mortgage loan originations in the secondary market rather than assume the interest rate risk associated with these longer term assets. Upon the sale, the Company retains servicing on a limited portion of these loans. Total residential mortgage loans increased \$53.7 million, or 4.5%, compared to December 31, 2015, the result of seasonal demand.

Consumer Loans

The Company offers consumer loans in order to provide a full range of retail financial services to its customers. The Company originates substantially all of its consumer loans in its primary market areas. At June 30, 2016, \$2.9 billion, or 19.7%, of the total loan portfolio was comprised of consumer loans, compared to \$2.9 billion, or 20.5%, at the end of 2015. Total consumer loans decreased \$29.6 million, or 1.0%, from December 31, 2015, primarily due to decreases across most categories of consumer loans with the exception of a \$63.6 million, or 3.1%, increase in home equity loans, which comprise \$2.1 billion of the \$2.9 billion consumer loan portfolio at June 30, 2016.

In January 2015, the Company announced it would exit the indirect automobile lending business. The Company concluded compliance risk associated with these loans had become unbalanced relative to potential returns generated by the business on a risk-adjusted basis. At June 30, 2016, indirect automobile loans totaled \$182.2 million, or 1.2% of the total loan portfolio, compared to \$246.3 million, or 1.7% of the total loan portfolio, at December 31, 2015.

The remainder of the consumer loan portfolio at June 30, 2016 consisted of credit card loans, direct automobile loans and other personal loans, and comprised 4.0% of the total loan portfolio.

Overall, the composition of the Company's loan portfolio as of June 30, 2016 is consistent with the composition as of December 31, 2015.

In order to assess the risk characteristics of the loan portfolio, the Company considers the current U.S. economic environment and that of its primary market areas. See Note 6, Allowance for Credit Losses, for credit quality factors by loan portfolio segment.

Additional information on the Company's consumer loan portfolio is presented in the following tables. For the purposes of Table 6, unscorable consumer loans have been included in loans with credit scores below 660. Credit scores reflect the Company's most recent information available as of the dates indicated.

Mortgage Loans Held for Sale

Loans held for sale increased \$63.4 million, or 38.1%, to \$229.7 million at June 30, 2016 compared to year-end 2015. The increase in the balance during the first six months of 2016 resulted primarily from higher seasonal production and the timing of mortgage production and sales. Mortgage loan originations during the quarter ended June 30, 2016 totaled \$710 million, and outpaced sales of \$673 million during that period. In contrast, mortgage loan sales of \$597 million during the fourth quarter of 2015 exceeded originations of \$558 million during that quarter.

Loans held for sale have primarily been fixed-rate single-family residential mortgage loans under contracts to be sold in the secondary market. In most cases, loans in this category are sold within thirty days of closing. Buyers generally have recourse to return a purchased loan to the Company under limited circumstances. See Note 1, Summary of Significant Accounting Policies, in the Annual Report on Form 10-K for the year ended December 31, 2015, for further discussion.

Asset Quality

Written underwriting standards established by management and approved by the Board of Directors govern the lending activities of the Company. The commercial credit department, in conjunction with senior lending personnel, underwrites all commercial business and commercial real estate loans. The Company provides centralized underwriting of substantially all residential mortgage, construction and consumer loans. Established loan origination procedures require appropriate documentation, including financial data and credit reports. For loans secured by real property, the Company generally requires property appraisals, title insurance or a title opinion, hazard insurance, and flood insurance, where appropriate.

Loan payment performance is monitored and late charges are generally assessed on past due accounts. A centralized department administers delinquent loans. Risk ratings on commercial exposures are reviewed on an ongoing basis and are adjusted as necessary based on the obligor's risk profile and debt capacity. Loan Review is responsible for independently assessing and validating risk ratings assigned to commercial exposures. All other loans are also subject to loan reviews through a periodic sampling process. The Company exercises judgment in determining the risk classification of its commercial loans.

The Company utilizes an asset risk classification system in accordance with guidelines established by the FRB as part of its efforts to monitor commercial asset quality. In connection with their examinations of insured institutions, both federal and state examiners also have the authority to identify problem assets and, if appropriate, reclassify them.

There are three classifications for problem assets: "substandard," "doubtful" and "loss", all of which are considered adverse classifications. Substandard assets have one or more defined weaknesses and are characterized by the distinct possibility that the Company will sustain some loss if the weaknesses are not corrected. Doubtful assets have the weaknesses of substandard assets with the additional characteristic that the weaknesses make collection or liquidation in full questionable, and there is a high probability of loss based on currently existing facts, conditions and values. An asset classified as loss is considered not collectible and of such little value that continuance as an asset of the Company is not warranted. Commercial loans with adverse classifications are reviewed by the Board Risk Committee of the Board of Directors periodically. Loans are placed on non-accrual status when they are 90 days or more past due unless, in the judgment of management, the probability of timely collection of principal and interest is deemed to be sufficient to warrant further accrual. When a loan is placed on non-accrual status, the accrual of interest income ceases and accrued but unpaid interest attributable to the current year is reversed against interest income. Accrued interest receivable attributable to the prior year is recorded as a charge-off to the allowance for credit losses.

Real estate acquired by the Company through foreclosure or by deed-in-lieu of foreclosure is classified as OREO, and is recorded at the lesser of the related loan balance (the pro-rata carrying value for acquired loans) or estimated fair value less costs to sell. Closed bank branches are also classified as OREO and recorded at the lower of cost or market value.

Under GAAP, certain loan modifications or restructurings are designated as TDRs. In general, the modification or restructuring of a debt constitutes a TDR if the Company, for economic or legal reasons related to the borrower's financial difficulties, grants a concession to the borrower that the Company would not otherwise consider under current market conditions.

Non-performing Assets

The Company defines nonperforming assets as non-accrual loans, accruing loans more than 90 days past due, OREO and foreclosed property. Management continually monitors loans and transfers loans to non-accrual status when warranted. The Company accounts for covered loans, loans formerly covered by loss sharing agreements with the FDIC, other loans acquired with deteriorated credit quality, as well as all loans acquired with significant discounts that did not exhibit deteriorated credit quality at acquisition, in accordance with ASC Topic 310-30. Collectively, all loans accounted for under ASC 310-30 are referred to as "purchased impaired loans". Application of ASC Topic 310-30 results in significant accounting differences, compared to loans originated or acquired by the Company that are not accounted for under ASC 310-30. See Note 1, Summary of Significant Accounting Policies, in the 2015 Annual Report on Form 10-K for the year ended December 31, 2015 for further details.

The following table sets forth the composition of the Company's non-performing assets, including accruing loans 90 days or more past due and TDRs for the periods indicated.

TABLE 9 – NON-PERFORMING ASSETS AND TROUBLED DEBT RESTRUCTURINGS

(Dollars in thousands)

| | June 30, 2016 | | December 31, 2015 | |

| Performing troubled debt restructurings ⁽³⁾ | 147,893 | 5,571 | 38,441 | 3,233 |
| Total non-performing assets and troubled debt restructurings ⁽¹⁾ | \$257,820 | \$97,756 | \$106,484 | \$125,716 |
| Non-performing loans to total loans ⁽¹⁾ | 0.80 | % 2.90 | % 0.46 | % 3.34 |
| Non-performing assets to total assets ⁽¹⁾ | 0.63 | % 3.35 | % 0.42 | % 3.84 |
| Non-performing assets and troubled debt restructurings to total assets ⁽¹⁾ | 1.48 | % 3.55 | % 0.65 | % 3.94 |
| Allowance for credit losses to non-performing loans | 126.44 | % 51.09 | % 209.41 | % 42.51 |
| Allowance for credit losses to total loans | 1.01 | % 1.48 | % 0.96 | % 1.42 |

⁽¹⁾ Non-performing loans and assets include accruing loans 90 days or more past due.

⁽²⁾ OREO and foreclosed property at June 30, 2016 and December 31, 2015 include \$8.0 million and \$8.1 million, respectively, of legacy former bank properties held for development or resale.

Performing troubled debt restructurings for June 30, 2016 and December 31, 2015 exclude \$52.6 million and \$23.4

⁽³⁾ million, respectively, of legacy loans, and \$1.2 million and \$408,000, respectively, of acquired loans, in troubled debt restructurings that meet non-performing asset criteria.

Legacy non-performing assets increased \$41.9 million, or 61.6%, compared to December 31, 2015, as non-accrual loans increased \$44.2 million offset by a decrease in OREO of \$2.0 million. Including TDRs that are in compliance with their modified terms, total legacy non-performing assets and TDRs increased \$151.3 million during the first six months of 2016.

Non-performing legacy loans were 0.80% of total legacy loans at June 30, 2016, 34 basis points higher than at December 31, 2015. The increase in legacy non-performing assets for the first six months of 2016 was due primarily to a \$53.7 million increase in energy-related non-accrual loans, offset by an \$8.9 million decrease in commercial non-accrual loans.

Non-performing assets as a percentage of total assets have remained at relatively low levels. Legacy non-performing assets were 0.63% of total legacy assets at June 30, 2016, 21 basis points higher than at December 31, 2015. The allowance for credit losses as a percentage of non-performing legacy loans was 126.44% at June 30, 2016 and 209.41% at December 31, 2015. The Company's allowance for credit losses as a percentage of legacy loans increased five basis points from 0.96% at December 31, 2015 to 1.01% at June 30, 2016.

The Company had gross charge-offs on legacy loans of \$17.3 million during the six months ended June 30, 2016. Offsetting these charge-offs were recoveries of \$2.0 million. As a result, net charge-offs on legacy loans for the first six months of 2016 were \$15.3 million, or 0.27% annualized of average loans, as compared to net charge-offs of \$5.1 million, or 0.10% annualized, for the first six months of 2015.

At June 30, 2016, excluding acquired loans, the Company had \$331.7 million of legacy commercial assets classified as substandard, \$11.0 million of legacy commercial assets classified as doubtful, and no assets classified as loss. Accordingly, the aggregate of the Company's legacy commercial classified assets was 1.70% of total assets, 2.33% of total loans, and 2.86% of legacy loans. At December 31, 2015, legacy commercial classified assets totaled \$144.1 million, or 0.74% of total assets, 1.01% of total loans, and 1.29% of legacy loans. As with non-classified assets, a reserve for credit losses has been recorded for substandard and doubtful loans at June 30, 2016 in accordance with the Company's allowance for credit losses policy.

In addition to the problem loans described above, there were \$121.0 million of legacy commercial loans classified as special mention at June 30, 2016, which in management's opinion were subject to potential future rating downgrades. Special mention loans are defined as loans where known information about possible credit problems of the borrowers causes management to have some doubt as to the ability of these borrowers to comply with the present loan repayment terms, which may result in future disclosure of these loans as non-performing. Special mention loans at June 30, 2016, increased \$16.2 million, or 15.5%, from December 31, 2015, primarily due to energy-related loans.

As noted above, the asset quality of the Company's energy-related loan portfolio has been and may continue to be impacted by low commodity prices. At June 30, 2016, non-accrual energy-related loans totaled \$60.8 million, compared to \$8.5 million at year-end 2015. To date, the Company has experienced \$7.7 million in energy-related charge-offs. Excluding energy-related loans, non-accrual loans decreased \$33.5 million from December 31, 2015 to June 30, 2016.

The overall balance of the acquired loan portfolio has diminished as loans have paid down and paid off. The credit quality of the acquired loan portfolio has also improved over time. Acquired non-performing loans decreased \$25.4 million, or 24.2%, from year-end, and were 2.90% of total acquired loans at June 30, 2016, compared to 3.34% at December 31, 2015.

Past Due Loans

Past due status is based on the contractual terms of loans. Legacy past due loans (including non-accrual loans) were 1.18% of total loans at June 30, 2016 and 0.65% at December 31, 2015. At June 30, 2016, total past due acquired loans were 3.37% of total loans, a decrease of 47 basis points from December 31, 2015. Additional information on past due loans is presented in the following table.

TABLE 10 – PAST DUE LOAN SEGREGATION

| | June 30, 2016 | | | | | | | |
|--------------------------------------|---------------|--------------------------|----------|--------------------------|-----------|--------|--------------------------|--|

⁽¹⁾ The acquired loans balance represents the outstanding balance of loans that would otherwise meet the Company's definition of non-accrual loans.

| | December 31, 2015 | | | | | | | | |
|----------------------------------|-------------------|--------------------------------|-----------|--------------------------------|-----------|--------------------------------|--|--|--|
| | Legacy | | Acquired | | Total | | | | |
| (Dollars in thousands) | Amount | % of Outstanding Balance | Amount | % of Outstanding Balance | Amount | % of Outstanding Balance | | | |
| Accruing loans: | | | | | | | | | |
| 30-59 days past due | \$13,839 | 0.12 % | \$9,039 | 0.29 % | \$22,878 | 0.16 % | | | |
| 60-89 days past due | 6,270 | 0.07 | 6,431 | 0.21 | 12,701 | 0.09 | | | |
| 90-119 days past due | 461 | — | 1,290 | 0.04 | 1,751 | 0.01 | | | |
| 120 days past due or more | 163 | — | 56 | — | 219 | — | | | |
| | 20,733 | 0.19 | 16,816 | 0.54 | 37,549 | 0.26 | | | |
| Non-accrual loans ⁽¹⁾ | 50,928 | 0.46 | 103,497 | 3.30 | 154,425 | 1.08 | | | |
| Total past due loans | \$71,661 | 0.65 % | \$120,313 | 3.84 % | \$191,974 | 1.34 % | | | |

(1) The acquired loans balance represents the outstanding balance of loans that would otherwise meet the Company's definition of non-accrual loans.

Total legacy loans past due increased \$69.7 million, or 97.3%, from December 31, 2015, which included increases in legacy non-accrual loans of \$44.2 million and \$25.8 million of loans 30-89 days past due. The increase in legacy non-accrual loans was due primarily to a net \$53.7 million increase in energy-related non-accrual loans.

Total acquired past due loans decreased \$27.9 million from December 31, 2015 to \$92.4 million at June 30, 2016. The change was primarily due to a decrease in total acquired non-accrual loans of \$25.3 million.

Allowance for Credit Losses

The allowance for credit losses represents management's best estimate of probable credit losses inherent at the balance sheet date. Determination of the allowance for credit losses involves a high degree of complexity and requires significant judgment. Several factors are taken into consideration in the determination of the overall allowance for credit losses. Based on facts and circumstances available, management of the Company believes that the allowance for credit losses was appropriate at June 30, 2016 to cover probable losses in the Company's loan portfolio. However, future adjustments to the allowance may be necessary, and the results of operations could be adversely affected, if circumstances differ substantially from the assumptions used by management in determining the allowance for credit losses. See the "Application of Critical Accounting Policies and Estimates" and Note 1, Summary of Significant Accounting Policies, in the 2015 Annual Report on Form 10-K for the year ended December 31, 2015 for more information.

The allowance for credit losses was \$161.3 million at June 30, 2016, or 1.10% of total loans, \$8.8 million higher than at December 31, 2015. The allowance for credit losses as a percentage of loans was 1.06% at December 31, 2015.

The allowance for credit losses on the legacy portfolio increased \$12.7 million, or 11.8%, since December 31, 2015, primarily due to an increase in legacy non-accrual and classified loans during the first six months of 2016. Legacy non-accrual and commercial classified loans increased \$44.2 million and \$198.6 million, respectively, when compared to year-end 2015, primarily due to general energy sector weakness, as previously discussed.

At June 30, 2016 and December 31, 2015, the allowance for loan losses covered non-performing legacy loans 1.1 times and 1.8 times, respectively. Including acquired loans, the allowance for loan losses covered 84.3% and 88.5% of total non-performing loans at June 30, 2016 and December 31, 2015, respectively.

At June 30, 2016, the Company had an allowance for credit losses of \$40.6 million to reserve for probable losses currently in the acquired loan portfolio that have arisen after the losses estimated at the respective acquisition dates.

The following table sets forth the activity in the Company's allowance for credit losses for the periods indicated.

TABLE 11 – SUMMARY OF ACTIVITY IN THE ALLOWANCE FOR CREDIT LOSSES

| (Dollars in thousands) | June 30, 2016 | | | June 30, 2015 | | |
|---|---------------|----------------|-----------|---------------|----------------|-----------|
| | Legacy Loans | Acquired Loans | Total | Legacy Loans | Acquired Loans | Total |
| Allowance for loan losses at beginning of period | \$93,808 | \$44,570 | \$138,378 | \$76,174 | \$53,957 | \$130,131 |
| Provision for (Reversal of) loan losses before benefit attributable to FDIC loss share agreements | 28,390 | (2,416) | 25,974 | 12,631 | 661 | 13,292 |

FDIC Loss Share Receivable

As part of the FDIC-assisted acquisitions in 2009 and 2010, the Company recorded a receivable from the FDIC, which represented the fair value of the expected reimbursable losses covered by the loss share agreements as of the acquisition dates. The FDIC loss share receivable decreased \$10.7 million, or 26.7%, from \$39.9 million at December 31, 2015 to \$29.2 million at June 30, 2016. The decrease was due primarily to amortization of \$8.5 million and submission of reimbursable losses to the FDIC of \$1.3 million. See Note 7 to the unaudited consolidated financial statements for discussion of the reimbursable loss periods of the loss share agreements.

Investment Securities

Investment securities decreased by \$30.3 million, or 1.0%, since December 31, 2015 to \$2.9 billion at June 30, 2016. Investment securities approximated 14.2% and 14.9% of total assets at June 30, 2016 and December 31, 2015, respectively. Average investment securities were 15.9% of average earning assets in the first six months of 2016, up from 15.3% for the same period of 2015.

All of the Company's mortgage-backed securities were issued by government-sponsored enterprises at June 30, 2016. The Company does not hold any Fannie Mae or Freddie Mac preferred stock, corporate equity, collateralized debt obligations, collateralized loan obligations, or structured investment vehicles, nor does it hold any private label collateralized mortgage obligations, sub-prime, Alt-A, or second lien elements in its investment portfolio. At June 30, 2016, the Company's investment portfolio did not contain any securities that are directly backed by subprime or Alt-A mortgages.

Funds generated as a result of sales and prepayments are used to fund loan growth and purchase other securities. The Company continues to monitor market conditions and take advantage of market opportunities with appropriate risk and return elements.

The Company assesses the nature of the unrealized losses in its investment portfolio at least quarterly to determine if there are losses that are deemed other-than-temporary. Based on its analysis, the Company concluded no declines in the market value of the Company's investment securities were deemed to be other-than-temporary at June 30, 2016 and December 31, 2015. Note 4 to the unaudited consolidated financial statements provides further information on the Company's investment securities.

Short-term Investments

Short-term investments primarily result from excess funds invested overnight in interest-bearing deposit accounts at the FRB and the FHLB of Dallas. These balances fluctuate daily depending on the funding needs of the Company and earn interest at the current FHLB and FRB discount rates. The balance in interest-bearing deposits at other institutions increased \$148.5 million, or

68

55.3%, from December 31, 2015 to \$417.2 million at June 30, 2016. The Company's cash activity is further discussed in the "Liquidity and Other Off-Balance Sheet Activities" section below.

FUNDING SOURCES

Deposits obtained from clients in its primary market areas are the Company's principal source of funds for use in lending and other business purposes. The Company attracts local deposit balances by offering a wide variety of products, competitive interest rates, convenient branch office locations and service hours, and mobile and online banking. Increasing core deposits through the development of client relationships, and acquisitions as opportunities arise, is a continuing focus of the Company. Short-term and long-term borrowings have become an important funding source as the Company has grown. Other funding sources include junior subordinated debt and shareholders' equity. Refer to the "Liquidity and Other Off-Balance Sheet Activities" section below for further discussion of the Company's sources and uses of funding. The following discussion highlights the major changes in the mix of deposits and other funding sources during the first six months of 2016.

Deposits

The Company's ability to attract and retain customer deposits is critical to the Company's continued success. Total deposits decreased \$316.7 million, or 2.0%, to \$15.9 billion at June 30, 2016, from \$16.2 billion at December 31, 2015. Over the same period, non-interest-bearing deposits increased \$187.0 million, or 4.3%, and equated to 28.6% and 26.9% of total deposits at June 30, 2016 and December 31, 2015, respectively. The decrease in deposits from year-end is partially cyclical in nature due to a surge in public funds in the fourth quarter that decline over the remainder of the subsequent year. In addition, the Company had several large temporary deposits, related to a few specific energy clients, leave since year-end, as anticipated.

The following table sets forth the composition of the Company's deposits as of the dates indicated.

TABLE 12 – DEPOSIT COMPOSITION BY PRODUCT

| (Dollars in thousands) | June 30, 2016 | | December 31, 2015 | | \$ Change | % Change |
|-------------------------------|---------------|--------|-------------------|--------|--------------|----------|
| Non-interest-bearing deposits | \$4,539,254 | 28.6 % | \$4,352,229 | 26.9 % | \$187,025 | 4.3 % |
| NOW accounts | 2,985,284 | 18.8 | 2,974,176 | 18.4 | 11,108 | 0.4 |
| Money market accounts | 5,391,390 | 34.0 | 6,010,882 | 37.2 | (619,492) | (10.3) |
| Savings accounts | 796,855 | 5.0 | 716,838 | 4.4 | 80,017 | 11.2 |
| Certificates of deposit | 2,149,244 | 13.6 | 2,124,623 | 13.1 | 24,621 | 1.2 |
| Total deposits | \$15,862,027 | 100.0% | \$16,178,748 | 100.0% | \$(316,721) | (2.0)% |

Short-term Borrowings

The Company may obtain advances from the FHLB of Dallas based upon its ownership of FHLB stock and certain pledges of its real estate loans and investment securities, provided certain standards related to the Company's creditworthiness have been met. These advances are made pursuant to several credit programs, each of which has its own interest rate and range of maturities. The level of short-term borrowings can fluctuate significantly on a daily basis depending on funding needs and the source of funds chosen to satisfy those needs.

The Company also enters into repurchase agreements to facilitate customer transactions that are accounted for as secured borrowings. These transactions typically involve the receipt of deposits from customers that the Company collateralizes with its investment portfolio and have an average rate of 12.5 basis points.

The following table details the average and ending balances of repurchase transactions as of and for the six months ended June 30:

TABLE 13 – REPURCHASE TRANSACTIONS

| (Dollars in thousands) | 2016 | 2015 |
|------------------------|-----------|-----------|
| Average balance | \$241,380 | \$249,899 |
| Ending balance | 288,017 | 209,004 |

Total short-term borrowings increased \$439.0 million, or 134.4%, from December 31, 2015, to \$765.6 million at June 30, 2016, a result of increases of \$367.6 million in FHLB advances outstanding and \$71.4 million in repurchase agreements. On a quarter-to-date average basis, short-term borrowings increased \$162.6 million, or 35.2%, from the

second quarter of 2015. The increase in the average outstanding balance was largely due to the increase of FHLB advances during 2016.

Total short-term borrowings were 4.4% of total liabilities and 52.7% of total borrowings at June 30, 2016, compared to 1.9% and 49.0%, respectively, at December 31, 2015. On a quarter-to-date average basis, short-term borrowings were 3.6% of total liabilities and 51.3% of total borrowings in the second quarter of 2016, compared to 2.8% and 50.8%, respectively, during the same period of 2015.

The weighted average rate paid on short-term borrowings was 0.42% and 0.19% during the second quarters of 2016 and 2015, respectively.

Long-term Debt

Long-term debt increased \$347.0 million from December 31, 2015 to \$687.4 million at June 30, 2016, due to an increase in FHLB borrowings during the period. On a period-end basis, long-term debt was 3.9% and 2.0% of total liabilities at June 30, 2016 and December 31, 2015, respectively.

On average, long-term debt increased to \$593.3 million in the second quarter of 2016, \$146.6 million, or 32.8%, higher than the second quarter of 2015, as the Company took advantage of favorable rates on FHLB advances to offset expected deposit outflows and pre-fund future debt maturities. Average long-term debt was 3.4% of total liabilities during the current quarter, compared to 2.8% during the second quarter of 2015.

Long-term debt at June 30, 2016 included \$483.5 million in fixed-rate advances from the FHLB of Dallas that cannot be prepaid without incurring substantial penalties. The remaining debt consisted of \$120.1 million of the Company's junior subordinated debt and \$83.8 million in notes payable on investments in new market tax credit entities. Interest on the junior subordinated debt is payable quarterly and may be deferred at any time at the election of the Company for up to 20 consecutive quarterly periods. During any deferral period, the Company is subject to certain restrictions, including being prohibited from declaring dividends to its common and preferred shareholders. The junior subordinated debt is redeemable by the Company, at its option, in whole or in part.

CAPITAL RESOURCES

Federal regulations impose minimum regulatory capital requirements on all institutions with deposits insured by the FDIC. The FRB imposes similar capital regulations on bank holding companies. Compliance with bank and bank holding company regulatory capital requirements, which include leverage and risk-based capital guidelines, are monitored by the Company on an ongoing basis. Under the risk-based capital method, a risk weight is assigned to balance sheet and off-balance sheet items based on regulatory guidelines.

At June 30, 2016 and December 31, 2015, the Company exceeded all required regulatory capital ratios, and the regulatory capital ratios of IBERIABANK were in excess of the levels established for "well-capitalized" institutions, as shown in the following table.

TABLE 14 – REGULATORY CAPITAL RATIOS

| | Well-Capitalized | | June 30, 2016 | | December 31, 2015 | |
|-----------------------------|------------------|---|---------------|---|-------------------|---|
| | Minimums | | Actual | | Actual | |
| IBERIABANK Corporation | | | | | | |
| Tier 1 Leverage | N/A | | 9.70 | % | 9.52 | % |
| Common Equity Tier 1 (CET1) | N/A | | 10.07 | | 10.07 | |
| Tier 1 risk-based capital | N/A | | 10.84 | | 10.70 | |
| Total risk-based capital | N/A | | 12.46 | | 12.14 | |
| IBERIABANK | | | | | | |
| Tier 1 Leverage | 5.00 | % | 9.30 | % | 9.03 | % |
| Common Equity Tier 1 (CET1) | 6.50 | | 10.39 | | 10.14 | |
| Tier 1 risk-based capital | 8.00 | | 10.39 | | 10.14 | |
| Total risk-based capital | 10.00 | | 11.33 | | 11.05 | |

In the second quarter of 2016, the Company's Tier 1 capital ratio was impacted by the phase out of the remaining 25% of its trust preferred securities from Tier 1 capital into Tier 2 capital. Additionally, the Company and IBERIABANK's CET1 capital, Tier 1 risk-based capital and total risk-based capital were impacted at June 30, 2016 by an additional 20% phase out of certain intangible assets above the December 31, 2015 phase out percentage. See Note 10 to the

unaudited consolidated financial statements for additional information on the Company's capital ratios and shareholders' equity.

On May 4, 2016, the Company's Board of Directors authorized the repurchase of up to 950,000 shares of IBERIABANK Corporation's outstanding common stock. Stock repurchases under this program will be made from time to time, on the open market or in privately negotiated transactions. The timing of these repurchases will depend on market conditions and other requirements. The Company anticipates the share repurchase program will extend over a two-year time frame, or earlier if the shares have been repurchased. The share repurchase program does not obligate the Company to repurchase any dollar amount or number of shares, and the program may be extended, modified, suspended, or discontinued at any time. During the second quarter of 2016, the Company repurchased 202,506 common shares at a weighted average price of \$57.61 per common share.

On May 9, 2016, the Company issued an aggregate of 2,300,000 depositary shares (the "Depositary Shares"), each representing a 1/400th ownership interest in a share of the Company's 6.60% Fixed-to-Floating Non-Cumulative Perpetual Preferred Stock, Series C, par value \$1.00 per share, ("Series C Preferred Stock"), with a liquidation preference of \$10,000 per share of Series C Preferred Stock (equivalent to \$25 per depositary share), which represents \$57,500,000 in aggregate liquidation preference. See Note 10 to the unaudited consolidated financial statements for additional information on the Company's preferred share issuance.

LIQUIDITY AND OTHER OFF-BALANCE SHEET ACTIVITIES

Liquidity refers to the Company's ability to generate sufficient cash flows to support its operations and to meet its obligations, including the withdrawal of deposits by customers, commitments to originate loans, and its ability to repay its borrowings and other liabilities. Liquidity risk is the risk to earnings or capital resulting from the Company's inability to fulfill its obligations as they become due. Liquidity risk also develops from the Company's failure to timely recognize or address changes in market conditions that affect the ability to liquidate assets in a timely manner or to obtain adequate funding to continue to operate on a profitable basis.

The primary sources of funds for the Company are deposits and borrowings. Other sources of funds include repayments and maturities of loans and investment securities, securities sold under agreements to repurchase, and, to a lesser extent, off-balance sheet borrowing availability. Certificates of deposit scheduled to mature in one year or less at June 30, 2016 totaled \$1.7 billion. Based on past experience, management believes that a significant portion of maturing deposits will remain with the Company. Additionally, the majority of the investment securities portfolio is classified as available-for-sale, which provides the ability to liquidate unencumbered securities as needed. Of the \$2.9 billion in the investment securities portfolio, \$1.6 billion is unencumbered and the remaining \$1.3 billion has been pledged to support repurchase transactions, public funds deposits and certain long-term borrowings. Due to the relatively short implied duration of the investment securities portfolio, the Company has historically experienced significant cash inflows on a regular basis. Securities cash flows may be dependent on prepayment speeds and could change as economic or market conditions change.

Scheduled cash flows from the amortization and maturities of loans and securities are relatively predictable sources of funds. Conversely, deposit flows, prepayments of loan and investment securities, and draws on customer letters and lines of credit are greatly influenced by general interest rates, economic conditions, competition, and customer demand. The FHLB of Dallas provides an additional source of liquidity to make funds available for general requirements and also to assist with the variability of less predictable funding sources. At June 30, 2016 the Company had \$961.1 million of outstanding FHLB advances, of which \$477.6 million was short-term and \$483.5 million was long-term. Additional FHLB borrowing capacity at June 30, 2016 amounted to \$3.9 billion. At June 30, 2016, the Company also has various funding arrangements with commercial banks providing up to \$180.0 million in the form of federal funds and other lines of credit. At June 30, 2016, there were no balances outstanding on these lines, and all of the funding was available to the Company.

Liquidity management is both a daily and long-term function of business management. The Company manages its liquidity with the objective of maintaining sufficient funds to respond to the predicted needs of depositors and borrowers and to take advantage of investments in earning assets and other earnings enhancement opportunities. Excess liquidity is generally invested in short-term investments such as overnight deposits. On a longer-term basis, the Company maintains a strategy of investing in various lending and investment security products. The Company uses its

sources of funds primarily to fund loan commitments and meet its ongoing commitments associated with its operations. Based on its available cash at June 30, 2016 and current deposit modeling, the Company believes it has adequate liquidity to fund ongoing operations. The Company has adequate availability of funds from deposits, borrowings, repayments and maturities of loans and investment securities to provide the Company additional working capital if needed.

ASSET/LIABILITY MANAGEMENT, MARKET RISK AND COUNTERPARTY CREDIT RISK

The principal objective of the Company's asset and liability management function is to evaluate the interest rate risk included in certain balance sheet accounts, determine the appropriate level of risk given the Company's business focus, operating environment, capital and liquidity requirements and performance objectives, establish prudent asset concentration guidelines, and manage the risk consistent with Board approved guidelines. Through such management, the Company seeks to reduce the vulnerability of its operations to changes in interest rates. The Company's actions in this regard are taken under the guidance of the Asset and Liability Committee. The Asset and Liability Committee normally meets monthly to review, among other things, the sensitivity of the Company's assets and liabilities to interest rate changes, local and national market conditions, and interest rates. In connection therewith, the Asset and Liability Committee generally reviews the Company's liquidity, cash flow needs, composition of investments, deposits, borrowings, and capital position.

The objective of interest rate risk management is to control the effects that interest rate fluctuations have on net interest income and on the net present value of the Company's earning assets and interest-bearing liabilities. Management and the Board are responsible for managing interest rate risk and employing risk management policies that monitor and limit this exposure. Interest rate risk is measured using net interest income simulation and asset/liability net present value sensitivity analyses. The Company uses financial modeling to measure the impact of changes in interest rates on the net interest margin and to predict market risk. Estimates are based upon numerous assumptions including the nature and timing of interest rate levels including yield curve shape, prepayments on loans and securities, deposit decay rates, pricing decisions on loans and deposits, reinvestment/replacement of asset and liability cash flows, and others. These analyses provide a range of potential impacts on net interest income and economic value of equity caused by interest rate movements.

Included in the modeling are instantaneous parallel rate shift scenarios, which are utilized to establish exposure limits. These scenarios are known as "rate shocks" because all rates are modeled to change instantaneously by the indicated shock amount, rather than a gradual rate shift over a period of time that has traditionally been more realistic.

The Company's interest rate risk model indicates that the Company is asset sensitive in terms of interest rate sensitivity. Based on the Company's interest rate risk model at June 30, 2016, the table below illustrates the impact of an immediate and sustained 100 and 200 basis point increase or decrease in interest rates on net interest income.

TABLE 15 – INTEREST RATE SENSITIVITY

| Shift in Interest Rates (in bps) | % Change in Projected Net Interest Income (Yr 1) |
|----------------------------------|--|
| + 200 | 10.7% |
| + 100 | 5.4% |
| - 100 | (4.2)% |
| - 200 | (5.4)% |

The influence of using the forward curve as of June 30, 2016 as a basis for projecting the interest rate environment would approximate a 1.0% increase in net interest income over the next 12 months. The computations of interest rate risk shown above are performed on a static balance sheet and do not necessarily include certain actions that management may undertake to manage this risk in response to unanticipated changes in interest rates and other factors to include shifts in deposit behavior.

The short-term interest rate environment is primarily a function of the monetary policy of the FRB. The principal tools of the FRB for implementing monetary policy are open market operations, or the purchases and sales of U.S. Treasury and federal agency securities, as well as the establishment of a short-term target rate. The FRB's objective for open market operations has varied over the years, but the focus has gradually shifted toward attaining a specified level of the federal funds rate to achieve the long-run goals of price stability, full employment, and sustainable economic growth. The federal funds rate is the basis for overnight funding and drives the short end of the yield curve. Longer maturities are influenced by the market's expectations for economic growth and inflation, but can also be influenced by

FRB actions and expectations of monetary policy going forward.

The FOMC of the FRB, in an attempt to stimulate the overall economy, has, among other things, kept interest rates low through its targeted Federal funds rate. On December 17, 2015, the FOMC voted to raise the target Federal funds rate by 0.25%, the first increase since 2006. The FOMC expects that economic conditions will evolve in a manner that will warrant only gradual increases in the Federal funds rate over the next several years. As the FOMC increases the Federal funds rate, it is possible that overall interest rates could rise, which may negatively impact the housing markets and the U.S. economic recovery. In addition,

deflationary pressures, while possibly lowering our operating costs, could have a significant negative effect on our borrowers, especially our commercial borrowers, and the values of collateral securing loans, which could negatively affect our financial performance.

The Company's commercial loan portfolio is also impacted by fluctuations in the level of the LIBOR, as a large portion of this portfolio reprices based on this index. Our net interest income may be reduced if more interest-earning assets than interest-bearing liabilities reprice or mature during a period when interest rates are declining, or more interest-bearing liabilities than interest-earning assets reprice or mature during a period when interest rates are rising. The table below presents the Company's anticipated repricing of loans and investment securities over the next four quarters.

TABLE 16 – REPRICING OF CERTAIN EARNING ASSETS⁽¹⁾

| (Dollars in thousands) | 3Q 2016 | 4Q 2016 | 1Q 2017 | 2Q 2017 | Total less than one year |
|------------------------|-------------|-----------|-----------|-----------|-----------------------------|
| Investment securities | \$142,460 | \$106,502 | \$87,827 | \$82,199 | \$ 418,988 |
| Fixed rate loans | 626,437 | 493,501 | 468,550 | 435,362 | 2,023,850 |
| Variable rate loans | 7,290,507 | 83,357 | 48,516 | 57,424 | 7,479,804 |
| Total loans | 7,916,944 | 576,858 | 517,066 | 492,786 | 9,503,654 |
| | \$8,059,404 | \$683,360 | \$604,893 | \$574,985 | \$ 9,922,642 |

⁽¹⁾ Amounts include expected maturities, scheduled paydowns, expected prepayments, and loans subject to floors and exclude the repricing of assets from prior periods, as well as covered loans, non-accrual loans and market value adjustments.

As part of its asset/liability management strategy, the Company has emphasized the origination of loans with adjustable or variable rates of interest as well as commercial and consumer loans, which typically have shorter terms than residential mortgage loans. The majority of fixed-rate, long-term residential loans are sold in the secondary market to avoid assumption of the interest rate risk associated with longer duration assets in the current low rate environment. As of June 30, 2016, \$8.0 billion, or 54.0%, of the Company's total loan portfolio had adjustable interest rates. The Company had no significant concentration to any single borrower or industry segment at June 30, 2016. The Company's strategy with respect to liabilities in recent periods has been to emphasize transaction accounts, particularly non-interest or low interest-bearing transaction accounts, which are significantly less sensitive to changes in interest rates. At June 30, 2016, 86.4% of the Company's deposits were in transaction and limited-transaction accounts, compared to 86.9% at December 31, 2015. Non-interest-bearing transaction accounts were 28.6% and 26.9% of total deposits at June 30, 2016 and December 31, 2015, respectively.

Much of the liquidity increase experienced in the past several years has been due to a significant increase in non-interest-bearing demand deposits. The behavior of non-interest-bearing deposits and other types of demand deposits is one of the most important assumptions used in determining the Company's interest rate and liquidity risk positions. A loss of these deposits in the future would reduce the asset sensitivity of the Company's balance sheet as interest-bearing funds would most likely be increased to offset the loss of this favorable funding source.

The table below presents the Company's anticipated repricing of liabilities over the next four quarters.

TABLE 17 – REPRICING OF LIABILITIES⁽¹⁾

| (Dollars in thousands) | 3Q 2016 | 4Q 2016 | 1Q 2017 | 2Q 2017 | Total less than one year |
|------------------------|-------------|-----------|-----------|-----------|-----------------------------|
| Time deposits | \$729,375 | \$348,126 | \$357,795 | \$268,347 | \$ 1,703,643 |
| Short-term borrowings | 565,637 | 25,000 | 95,000 | 80,000 | 765,637 |
| Long-term debt | 165,190 | 15,997 | 10,109 | 11,016 | 202,312 |
| | \$1,460,202 | \$389,123 | \$462,904 | \$359,363 | \$ 2,671,592 |

⁽¹⁾ Amounts exclude the repricing of liabilities from prior periods.

As part of an overall interest rate risk management strategy, derivative instruments may also be used as an efficient way to modify the repricing or maturity characteristics of on-balance sheet assets and liabilities. Management may from time to time

engage in interest rate swaps to effectively manage interest rate risk. The interest rate swaps of the Company would modify net interest sensitivity to levels deemed appropriate.

IMPACT OF INFLATION OR DEFLATION AND CHANGING PRICES

The unaudited consolidated financial statements and related financial data presented herein have been prepared in accordance with GAAP, which generally requires the measurement of financial position and operating results in terms of historical dollars, without considering changes in relative purchasing power over time due to inflation. Unlike most industrial companies, the majority of the Company's assets and liabilities are monetary in nature. As a result, interest rates generally have a more significant impact on the Company's performance than does the effect of inflation.

Although fluctuations in interest rates are neither completely predictable nor controllable, the Company regularly monitors its interest rate position and oversees its financial risk management by establishing policies and operating limits. Interest rates do not necessarily move in the same direction or in the same magnitude as the prices of goods and services, since such prices are affected by inflation to a larger extent than interest rates. Although not as critical to the banking industry as to other industries, inflationary factors may have some impact on the Company's growth, earnings, total assets and capital levels. Management does not expect inflation to be a significant factor in 2016.

Conversely, a period of deflation could affect our business, as well as all financial institutions and other industries. Deflation could lead to lower profits, higher unemployment, lower production and deterioration in overall economic conditions. In addition, deflation could depress economic activity, including loan demand and the ability of borrowers to repay loans, and consequently impair earnings through increasing the value of debt while decreasing the value of collateral for loans.

Management believes the most significant potential impact of deflation on financial results relates to the Company's ability to maintain a sufficient amount of capital to cushion against future losses. However, the Company would employ certain risk management tools to maintain its balance sheet strength in the event a deflationary scenario were to develop.

Non-GAAP Measures

This discussion and analysis included herein contains financial information determined by methods other than in accordance with GAAP. The Company's management uses these non-GAAP financial measures in their analysis of the Company's performance. Non-GAAP measures include but are not limited to descriptions such as core, tangible, and pre-tax pre-provision. These measures typically adjust GAAP performance measures to exclude the effects of the amortization of intangibles and include the tax benefit associated with revenue items that are tax-exempt, as well as adjust income available to common shareholders for certain significant activities or transactions that in management's opinion can distort period-to-period comparisons of the Company's performance. Transactions that are typically excluded from non-GAAP performance measures include realized and unrealized gains/losses on former bank owned real estate, realized gains/losses on securities, income tax gains/losses, merger related charges and recoveries, litigation charges and recoveries, and debt repayment penalties. Management believes presentations of these non-GAAP financial measures provide useful supplemental information that is essential to a proper understanding of the operating results of the Company's core businesses. These non-GAAP disclosures should not be viewed as a substitute for operating results determined in accordance with GAAP, nor are they necessarily comparable to non-GAAP performance measures that may be presented by other companies.

TABLE 18 – RECONCILIATIONS OF NON-GAAP FINANCIAL MEASURES

| (Dollars in thousands, except per share amounts) | Three Months Ended June 30, 2016 | | | June 30, 2015 | | |

| U.S. | United States of America |

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Quantitative and qualitative disclosures about market risk are presented at December 31, 2015 in Part II, Item 7A of the Company's Annual Report on Form 10-K, filed with the Securities and Exchange Commission on February 29, 2016. Additional information at June 30, 2016 is included herein under Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations".

Item 4. Controls and Procedures

An evaluation of the effectiveness of the Company's disclosure controls and procedures as of June 30, 2016 was carried out under the supervision, and with the participation of, the Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"). Based on that evaluation, the CEO and CFO have concluded that the Company's disclosure controls and procedures are effective in alerting them in a timely manner to material information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act of 1934 (the "Exchange Act").

Disclosure controls and procedures are designed to ensure that information required to be disclosed in reports filed by the Company under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls are also designed with the objective of ensuring that such information is accumulated and communicated to the Company's management, including the CEO and the CFO, as appropriate, to allow timely decisions regarding required disclosures. Disclosure controls include review of internal controls that are designed to provide reasonable assurance that transactions are properly authorized, assets are safeguarded against unauthorized or improper use and transactions are properly recorded and reported. There was no significant change in the Company's internal controls over financial reporting during the last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the internal control over financial reporting.

Any control system, no matter how well conceived and operated, can provide only reasonable assurance that its objectives are achieved. The design of a control system inherently has limitations, including the controls' cost relative to their benefits. Additionally, controls can be circumvented. No cost-effective control system can provide absolute assurance that all control issues and instances of fraud, if any, will be detected.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

See the "Legal Proceedings" section of "Note 16 – Commitments and Contingencies" of the Notes to the Unaudited Consolidated Financial Statements, incorporated herein by reference.

Item 1A. Risk Factors

There have been no material changes in risk factors disclosed by the Company in its Annual Report on Form 10-K, filed with the Securities and Exchange Commission on February 29, 2016.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Information concerning Iberiabank Corporation's repurchases of its outstanding common stock during the three-month period ended June 30, 2016, is included in the following table:

Issuer Purchases of Equity Securities

| Period | Total Number of Shares Purchased | Average Price Paid per Share | Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs | Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs |
|------------------|---|---------------------------------------|--|--|
| April 1-30, 2016 | — | — | — | — |
| May 1-31, 2016 | — | — | — | 950,000 |
| June 1-30, 2016 | 202,506 | 57.61 | 202,506 | 747,494 |
| Total | 202,506 | 57.61 | 202,506 | 747,494 |

On May 4, 2016, IBERIABANK Corporation's Board of Directors authorized the repurchase of up to 950,000 shares of the Company's outstanding common stock. Stock repurchases under this program will be made from time to time, on the open market or in privately negotiated transactions. The timing of these repurchases will depend on market conditions and other requirements. The Company anticipates the share repurchase program will extend over a two-year time frame, or earlier if the shares have been repurchased. The share repurchase program does not obligate the Company to repurchase any dollar amount or number of shares, and the program may be extended, modified, suspended, or discontinued at any time.

Restrictions on Dividends and Repurchase of Stock

Holders of IBERIABANK Corporation common stock are only entitled to receive such dividends as the Company's Board of Directors may declare out of funds legally available for such payments. Furthermore, holders of IBERIABANK Corporation common stock are subject to the prior dividend rights of any holders of the Company's preferred stock then outstanding. There were 13,750 shares of preferred stock outstanding at June 30, 2016.

IBERIABANK Corporation understands the importance of returning capital to shareholders. Management will continue to execute the capital planning process, including evaluation of the amount of the common stock dividend, with the Board of Directors and in conjunction with the regulators, subject to the Company's results of operations. Also, IBERIABANK Corporation is a bank holding company, and its ability to declare and pay dividends is dependent on certain federal regulatory considerations, including the guidelines of the Federal Reserve regarding capital adequacy and dividends.
