NOTES TO UNAUDITED INTERIM FINANCIAL STATEMENTS

1) BASIS OF PRESENTATION

The accompanying unaudited interim financial statements as of June 30, 2017 and for the three and six months ended June 30, 2017 and 2016 have been prepared in conformity with accounting principles generally accepted in the United States (“GAAP”) for interim financial statements. The financial information as of December 31, 2016 is derived from the audited financial statements presented in the Willamette Valley Vineyards, Inc. (the “Company”) Annual Report on Form 10-K for the year ended December 31, 2016. Certain information or footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission. In the opinion of management, the accompanying financial statements include all adjustments necessary (which are of a normal recurring nature) for the fair statement of the results of the interim periods presented. The accompanying financial statements should be read in conjunction with the Company’s audited financial statements for the year ended December 31, 2016, as presented in the Company’s Annual Report on Form 10-K.

Operating results for the three and six months ended June 30, 2017 are not necessarily indicative of the results that may be expected for the entire year ending December 31, 2017, or any portion thereof.

The Company’s revenues include direct-to-consumer sales and national sales to distributors. These sales channels utilize shared resources for production, selling and distribution.

Basic earnings per share after preferred stock dividends are computed based on the weighted-average number of common shares outstanding each period. Diluted earnings per share are computed using the weighted average number of shares of common stock and dilutive common shares outstanding during the period. Dilutive shares from stock options and other instruments are excluded from the computation when their effect is anti-dilutive. There were no anti-dilutive shares outstanding as of June 30, 2017 and 2016. 0 and 4,069 potentially dilutive shares are included in the computation of dilutive earnings per share for the three month periods ended June 30, 2017 and 2016, respectively. 0 and 3,980 potentially dilutive shares are included in the computation of dilutive earnings per share for the six month periods ended June 30, 2017 and 2016, respectively.

The following table presents the earnings per share after preferred stock dividends calculation for the periods shown:

Recently issued accounting standards – In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606) (“ASU 2014-09”), a new standard to achieve a consistent application of revenue recognition within the U.S., resulting in a single revenue model to be applied by reporting companies under GAAP. The original effective date for ASU 2014-09 would have required adoption by the Company in the first quarter of fiscal 2017 with early adoption prohibited. In August 2015, the FASB issued ASU No. 2015-14, Revenue from Contracts with Customers (Topic 606) - Deferral of the Effective Date (“ASU 2015-14”), which defers the effective date of ASU 2014-09 for one year and permits early adoption in accordance with the original effective date of ASU 2014-09.

The new revenue standard is required to be applied retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying the standard recognized at the date of initial application. The Company anticipates adopting the standard in the first quarter of 2018 and is still evaluating the method of application. The Company has evaluated the effect of the standard and does not believe it will be material to the Company's financial reporting.

In February 2016, the FASB issued ASU 2016-02, Leases ("ASU 2016-02"). This update requires that lessees recognize assets and liabilities on the balance sheet for the rights and obligations created by all leases with terms of more than 12 months. ASU 2016-02 also will require disclosures designed to give financial statement users information on the amount, timing, and uncertainty of cash flows arising from leases. These disclosures include both qualitative and quantitative information. The effective date for ASU 2016-02 is for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018 with earlier adoption permitted. The Company is still evaluating the impact of ASU 2016-02 on its financial position and results of operations.

4) DISTRIBUTION AGREEMENT RECEIVABLE AND DEFERRED REVENUE

Effective September 1, 2011, the Company entered into an agreement with Young's Market Company for distribution of Company-produced wines in Oregon and Washington. The terms of this contract include exclusive rights to distribute Willamette Valley Vineyard's wines in Oregon and Washington for seven years. In an effort to facilitate the transition, with as little disruption as possible, Young's Market Company agreed to compensate Willamette Valley Vineyards for ongoing Oregon sales and branding efforts. As a result, the Company was due to receive \$250,000 per year starting on September 2011 for each of the next four years for a total of \$1,000,000. In October of 2014, the Company received payment of the final \$250,000 under this agreement. The total amount of \$1,000,000 received by the Company related to this agreement is being recognized as revenue on a straight line basis over the seven year life of the agreement. All stock options had an exercise price that was equal to the estimated fair market value of the Company's stock on the date the options were granted. Administration of the plan, including determination of the number, term, and type of options to be granted, was with the Board of Directors or a duly

authorized committee of the Board of Directors. Options were generally granted based on employee performance with vesting periods ranging from date of grant to seven years. At the date of the grant, the maximum term before expiration was ten years.

The following table presents information related to the value of outstanding stock options during the period shown:

	Three months ended		Six months ended

8) SEGMENT REPORTING

The Company has identified two operating segments, Direct Sales and Distributor Sales, based upon their different distribution channels, margins and selling strategies. Direct Sales includes retail sales in the tasting room and remote sites, Wine Club sales, on-site events, kitchen and catering sales and other sales made directly to the consumer without the use of an intermediary, including sales of bulk wine or grapes. Distributor Sales include all sales through a third

party where prices are given at a wholesale rate.

The two segments reflect how the Company's operations are evaluated by senior management and the structure of its internal financial reporting. The Company evaluates performance based on the gross profit of the respective business segments. Selling expenses that can be directly attributable to the segment, including depreciation of segment specific assets, are included, however, centralized selling expenses and general and administrative expenses are not allocated between operating segments. Therefore, net income information for the respective segments is not available. Discrete financial information related to segment assets, other than segment specific depreciation associated with selling, is not available and that information continues to be aggregated.

The following table outlines the sales, cost of sales, gross margin, directly attributable selling expenses, and contribution margin of the segments for the three and six month periods ending June 30, 2017 and 2016. Sales figures are net of related excise taxes.

9) SALE OF PREFERRED STOCK

In August 2015, the Company commenced a public offering of our Series A Redeemable Preferred Stock pursuant to a registration statement filed with the Securities and Exchange Commission. The preferred stock under this issue is non-voting and ranks senior in rights and preferences to the Company's common stock. Shareholders of this issue are entitled to receive dividends, when and as declared by the Company's Board of Directors, at a rate of \$0.22 per share. Dividends accrued but not paid will be added to the liquidation preference of the stock until the dividend is declared

and paid. At any time after June 1, 2021, the Company has the option, but not the obligation, to redeem all of the outstanding preferred stock in an amount equal to the original issue price of \$4.15 per share plus accrued but unpaid dividends and a redemption premium equal to 3% of the original issue price of \$4.15 per share. The Company registered this transaction with the securities authorities of the States of Oregon and Washington and subsequently obtained a listing on the NASDAQ under the trading symbol WVVIP. This issue had an aggregate initial offering price not to exceed \$6,000,000 and was fully subscribed as of December 31, 2015.

On December 23, 2015 the Company filed a Registration Statement on Form S-3 with the SEC pertaining to the potential future issuance of one or more classes or series of debt, equity or derivative securities. On February 28, 2016 shareholders of the Series A Redeemable Preferred Stock approved an increase in shares designated as Series A Redeemable Preferred Stock, from 1,445,783 to 2,857,548 shares, and amended the certificate of designation for those shares to allow the Company's Board of Directors to make future increases.

On March 10, 2016 the Company filed a Prospectus Supplement to the December 2015 Form S-3, pursuant to which the Company proposed to offer and sell, on a delayed or continuous basis, up to 970,588 additional shares of Series A Redeemable Preferred stock having proceeds not to exceed \$4,125,000. This stock was established to be sold in four offering periods beginning with an offering price of \$4.25 per share and concluding at \$4.55 per share. The Company sold all preferred stock available under this offering.

On May 3, 2017, the Company filed with the SEC a Prospectus Supplement to the December 2015 Form S-3, pursuant to which the Company proposed to offer and sell, on a delayed or continuous basis, up to 2,298,851 additional shares of Series A Redeemable Preferred stock having proceeds not to exceed \$10,000,000. This stock was established to be sold in four offering periods beginning with an offering price of \$4.35 per share and concluding at \$4.65 per share.

Proceeds from the sale of preferred stock for the three months ended June 30, 2017 were received by the Company and included as unrestricted cash. For the three months ended June 30, 2017 the Company processed \$2,912,176 in stock sales, net of acquisition costs, under this agreement and recorded it as a current liability, "Investor deposits for preferred stock", until the stock was issued effective July 1, 2017.

10) COMMITMENTS AND CONTINGENCIES

Litigation – From time to time, in the normal course of business, the Company is a party to legal proceedings. Management believes that these matters will not have a material adverse effect on the Company's financial position, results of operations or cash flows, but, due to the nature of litigation, the ultimate outcome of any potential actions cannot presently be determined.

Grape Purchases - The Company has entered into three long-term grape purchase agreements with one of its Willamette Valley wine grape growers. These contracts, entered into in 2004, 2006 and 2007, were extended through harvest year 2019. With these contracts, the Company is obligated to purchase, at pre-determined prices, 100% of the crop produced within the strict quality standards and crop loads, equating to maximum payments of approximately \$1,500,000 per year. The Company cannot calculate the minimum payment as such a calculation is dependent in large part on an unknown – the amount of grapes produced that meet the strict quality standards in any given year. If no grapes are produced that meet the contractual quality levels, the grapes may be refused and no payment would be due.

Asset Purchase Agreement – In May 2017 the Company agreed to buy the assets of an existing Company for approximately \$142,000. The purchase is scheduled to close in January 2018 and the Company will also assume two contracts.

ITEM 2:

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

As used in this Quarterly Report on Form 10-Q, "we," "us," "our" and "the Company" refer to Willamette Valley Vineyards, Inc.

Forward Looking Statements

This Management's Discussion and Analysis of Financial Condition and Results of Operations and other sections of this Form 10-Q contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements involve risks and uncertainties that are based on current expectations, estimates and projections about the Company's business, and beliefs and assumptions made by management. Words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates" "intends," "plans," "predicts," "potential," or the negative thereof and variations of such words and similar expressions are intended to identify such forward-looking statements. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements due to numerous factors, including, but not limited to: availability of financing for growth, availability of adequate supply of high quality grapes, successful performance of internal operations, impact of competition, changes in wine broker or distributor relations or performance, impact of possible adverse weather conditions, impact of reduction in grape quality or supply due to disease, changes in consumer spending, the reduction in consumer demand for premium wines and the impact of governmental regulatory decisions. In addition, such statements could be affected by general industry and market conditions and growth rates, and general domestic economic conditions. Many of these risks as well as other risks that may have a material adverse impact on our operations and business, are identified in Item 1A in the Company's Annual Report on Form 10-K for the year

ended December 31, 2016, as well as in the Company's other Securities and Exchange Commission filings and reports. The forward-looking statements in this report are made as of the date hereof, and, except as otherwise required by law, the Company disclaims any intention or obligation to update or revise any forward-looking statements or to update the reasons why the actual results could differ materially from those projected in the forward-looking statements, whether as a result of new information, future events or otherwise.

Critical Accounting Policies

The foregoing discussion and analysis of the Company's financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires the Company's management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to revenue recognition, collection of accounts receivable, valuation of inventories, and amortization of vineyard development costs. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. A description of the Company's critical accounting policies and related judgments and estimates that affect the preparation of the Company's financial statements is set forth in the Company's Annual Report on Form 10-K for the year ended December 31, 2016. Such policies were unchanged during the three months ended June 30, 2017.

Overview

The Company continues to position itself for strategic growth through property purchases, refinancing of long-term debt and issuance of our Series A Redeemable Preferred Stock (the "preferred stock"). Management expects near term financial results to be negatively impacted by these activities as a result of incurring costs of accrued preferred stock dividends, strategic planning and development costs and other growth associated costs.

The Company's wines are made from grapes grown in vineyards owned, leased or contracted by the Company, and from grapes purchased from other nearby vineyards. The grapes are harvested, fermented and made into wine at the Company's winery in Turner Oregon (the "Winery") and the wines are sold principally under the Company's Willamette Valley Vineyards label, but also under the Griffin Creek and Tualatin Estates labels. The Company also owns the Tualatin Estate Vineyards and Winery, located near Forest Grove, Oregon. The Company generates revenues from the sales of wine to wholesalers and direct to consumers.

Direct to consumer sales primarily include sales through the Company's tasting rooms and wine club. Direct to consumer sales are more profitable to the Company than sales through distributors due to prices received being closer to retail than those prices paid by wholesalers. The Company continues to emphasize growth in direct to consumer sales through the Company's remodeled 35,642 square foot hospitality facility at the Winery and expansion and growth in wine club membership. Additionally, the Company's preferred stock sales since August 2015 have resulted in approximately 3,591 new preferred stockholders many of which the Company believes are wine enthusiasts. When considering joint ownership, these new shareholders represent approximately 5,000 potential customers of the Company. Membership in the Company's wine club increased by approximately 163 net members, or 2.4%, to a total of 6,877 members during the six months ending June 30, 2017. The Company believes the increase in preferred shareholders, who receive enhanced discounts, has reduced the number of people who would otherwise become Wine Club members. However, management anticipates that new preferred shareholders will purchase the Company's wines over a longer period of time, than the average Wine Club member, making their enhanced winery status beneficial to the Company.

Periodically, the Company will sell grapes or bulk wine, due to them not meeting Company standards or being excess to production targets, however this is not a significant part of the Company's activities. The Company had bulk wine sales of \$155,538 for the three months ended June 30, 2017 and no bulk wine sales in the same period of 2016. The Company had bulk wine sales of \$163,788 for the six months ended June 30, 2017 and no bulk wine sales in the same period of 2016.

The Company sold approximately 65,081 and 64,547 cases of produced wine during the six months ended June 30, 2017 and 2016, respectively, an increase of 534 cases, or 0.8% in the current year period over the prior year period. The increase in wine case sales was primarily the result of increased sales through distributors partially offset by decreased direct to consumer case sales.

Cases sold in 2017 does not include unfulfilled “futures”, where a customer prepays for a wine not yet released. Proceeds from these sales are not recognized as revenue until shipped and are reflected as unearned revenue. Selling expenses for these sales are recognized in the period in which the expense is incurred.

Cost of sales includes grape costs, whether purchased or grown at Company vineyards, winemaking and processing costs, bottling, packaging, warehousing and shipping and handling costs. For grapes grown at Company vineyards, costs include farming expenditures and amortization of vineyard development costs.

At June 30, 2017, wine inventory included approximately 92,352 cases of bottled wine and 196,950 gallons of bulk wine in various stages of the aging process. Case wine is expected to be sold over the next 12 to 24 months and generally before the release date of the next vintage. The Winery bottled approximately 85,524 cases during the six months ended June 30, 2017.

Net income for the three months ended June 30, 2017 and 2016 was \$593,501 and \$477,172, respectively, an increase of \$116,329, or 24.4%, in the current year period over the prior year period. Gross profit as a percentage of net sales for the three months ended June 30, 2017 and 2016 was 60.0% and 63.0%, respectively, a decrease of 3.0 percentage points in the current year period over the prior year period. In June 2017 the Company wrote down \$112,599 of bulk wine as an expense to cost of sales. This write down reduced our gross profit as a percentage of net sales for the three months ended June 30, 2017 by approximately 2.1 percentage points. Overall gross profit for the six months ended June 30, 2017 and 2016 was \$5,931,799 and \$5,523,349, respectively, an increase of \$408,450, or 7.4%, in the current year period over the prior year period. RESULTS OF OPERATIONS

Revenue

Sales for the three months ended June 30, 2017 and 2016 were \$5,313,784 and \$4,639,028, respectively, an increase of \$674,756, or 14.5%, in the current year period over the prior year period. This increase was mainly caused by an increase in direct sales, including bulk wine, of \$429,653 and an increase in sales through distributors of \$245,103 in the current year three month period over the prior year period. The increase in direct sales to consumers is primarily the result of increased tasting room, wine club, hospitality and kitchen sales in 2017 when compared to 2016. The increase in sales through distributors was not attributable to an isolated factor. Sales for the six months ended June 30, 2017 and 2016 were \$9,764,329 and \$8,822,797, respectively, an increase of \$941,532, or 10.7%, in the current year period over the prior year period. This increase was mainly caused by an increase in direct sales, including bulk wine, of \$517,297 and an increase in sales through distributors of \$424,235 in the current year period over the prior year period. The increase in direct sales to consumers is primarily the result of increased tasting room, wine club, hospitality and kitchen sales in 2017 when compared to 2016.

Cost of Sales

Cost of Sales for the three months ended June 30, 2017 and 2016 were \$2,124,850 and \$1,714,727, respectively, an increase of \$410,123, or 23.9%, in the current period over the prior year period. This change was primarily the result of an increase in cost of product sales in addition to a write off of \$112,599 of bulk wine inventory to cost of sales in June 2017. Cost of Sales for the six months ended June 30, 2017 and 2016 were \$3,832,530 and \$3,299,448, respectively, an increase of \$533,082, or 16.2%, in the current period over the prior year period. This change was primarily the result of an increase in cost of product sales of \$344,565 in addition to a write down of bulk wine inventory of \$188,517 in 2017. The write down of bulk wine inventory was the result of the Company agreeing to sell wine, which did not meet the Company's quality standard, at a price below its carrying cost as well as the disposal of some wine.

Gross Profit

Gross profit for the three months ended June 30, 2017 and 2016 was \$3,188,934 and \$2,924,301, respectively, an increase of \$264,633, or 9.0%, in the current year period over the prior year period. Gross profit for the six months ended June 30, 2017 and 2016 was \$5,931,799 and \$5,523,349, respectively, an increase of \$408,450, or 7.4%, in the current year period over the prior year period. These increases were primarily the result of an overall increase in wine sales partially offset by the write off of bulk wine inventory discussed above.

Gross profit as a percentage of net sales for the three months ended June 30, 2017 and 2016 was 60.0% and 63.0%, respectively, a decrease of 3.0 percentage points in the current year period over the prior year period, of which 2.1 percentage points was attributable to the write down of bulk wine in 2017 discussed above. Gross profit as a percentage of net sales for the six months ended June 30, 2017 and 2016 was 60.7% and 62.6%, respectively, a decrease of 1.9 percentage points in the current year period over the prior year period of which a 2.0 percentage point decrease was attributable to the write down of bulk wine in 2017 discussed above.

Selling, General and Administrative Expense

Selling, general and administrative expense for the three months ended June 30, 2017 and 2016 was \$2,129,794 and \$2,096,097, respectively, an increase of \$33,697, or 1.6%, in the current year period over the prior year period. This increase was primarily the result of a decrease in selling expenses of \$41,664, or 2.9% being more than offset by an increase in general and administrative expenses of \$75,361, or 11.1% in the current quarter. Selling, general and administrative expense for the six months ended June 30, 2017 and 2016 was \$4,369,532 and \$3,953,069, respectively, an increase of \$416,463, or 10.5%, in the current year period over the prior year period. This increase was primarily the result of an increase in selling expenses of \$224,224, or 8.8% and an increase in general and administrative expenses of \$192,239, or 13.7% in the current year. Selling expenses increased in the first half of 2017 compared to the same period in 2016 primarily as a result of increases in sales staffing and incentive costs, product demonstrations and sales travel among other selling related activities in the first quarter of 2017. General and administrative expenses increased in both the second quarter and first half of 2017 compared to the same periods in 2016 primarily as a result of increased resources invested in facilities maintenance and long-term planning activities in 2017.

Interest Expense

Interest expense for the three months ended June 30, 2017 and 2016 was \$122,866 and \$72,154, respectively, an increase of \$50,712 or 70.3%, in the current year period over the prior year period. Interest expense for the six months ended June 30, 2017 and 2016 was \$219,566 and \$145,165, respectively, an increase of \$74,401 or 51.3%, in the current year period over the prior year period. The increase in interest expense in 2017 was primarily the result of additional interest associated with a new note payable used to finance a property purchase and additional debt incurred as part of a refinancing transaction in the first quarter of 2017.

Income Taxes

The income tax expense for the three months ended June 30, 2017 and 2016 was \$397,953 and \$317,397, respectively, an increase of \$80,556 or 25.4%, in the current year period over the prior year period mostly as a result of higher pre-tax income in the second quarter of 2017 compared to the same quarter in 2016. The Company's estimated federal and state combined income tax rate was 39.0% and 38.0% for the three months ended June 30, 2017 and 2016, respectively.

Net income for the six months ended June 30, 2017 and 2016 was \$908,630 and \$965,062, respectively, a decrease of \$56,432, or 5.8%, in the current year

period over the prior year period. The increase in net income for the second quarter of 2017 compared to the second quarter of 2016 was primarily the result of increased gross profits being partially offset by higher selling, general & administrative expenses in the second quarter of 2017, while the decrease in net income in the first half of 2017 compared to the same period in 2016 was primarily the result of increased gross profits being more than offset by higher selling, general & administrative expenses in the first half 2017.

Income Applicable to Common Shareholders

Income applicable to common shareholders for the three months ended June 30, 2017 and 2016 was \$461,668 and \$362,481, respectively, an increase of \$99,187, or 27.4%, in the current year period over the prior year period. The increase in income applicable to common shareholders in the second quarter of 2017 compared to the same quarter of 2016 was primarily the result of higher gross profit in the current quarter, while the decrease in the first half of 2017 compared to the same period of 2016 was primarily the result of increased gross profit being more than offset by an inventory write down discussed above, increases in selling and administrative expenses, and increased accrued preferred stock dividends in 2017.

Non-cash investing and financing activities in the six months ended June 30, 2017 was \$2,116,121. This was primarily the result of the financing of two parcels of land using seller financed notes.

The Company has an asset-based loan agreement (the "line of credit") with Umpqua Bank that allows it to borrow up to \$2,000,000. The Company renewed this agreement, in April of 2017, until July 31, 2018. The index rate of prime plus zero, with a floor of 3.25%, at June 30, 2017 is 3.5%. The loan agreement contains certain restrictive financial covenants with respect to total equity, debt-to-equity and debt coverage that must be maintained by the Company on a quarterly basis. As of June 30, 2017, the Company was in compliance with all of the financial covenants.

At June 30, 2017 and December 31, 2016 the Company had no balance outstanding on the line of credit. At June 30, 2017, the Company had \$2,000,000 available on the line of credit.

As of June 30, 2017 the Company had an installment note payable of \$275,333, due in payments of \$137,667 on March 15, 2018 and 2019, associated with the purchase of 45 acres of farmland in the Walla Walla AVA.

As of June 30, 2017 the Company had a 15 year installment note payable of \$1,657,591, due in quarterly payments of \$42,534, associated with the purchase of property in the Dundee Hills AVA.

As of June 30, 2017, the Company had a total long-term debt balance of \$7,429,022, including the portion due in the next year, owed to Farm Credit Services and Toyota Credit Corporation, exclusive of debt issuance costs of \$195,113. As of December 31, 2016, the Company had a total long-term debt balance of \$4,869,994.

The Company believes that cash flow from operations and funds available under the Company's existing credit facilities will be sufficient to meet the Company's foreseeable short and long-term needs.

Off Balance Sheet Arrangements

PART II: OTHER INFORMATION

Item 1 - Legal Proceedings.

From time to time, the Company is a party to various judicial and administrative proceedings arising in the ordinary course of business. The Company’s management and legal counsel have reviewed the probable outcome of any proceedings that were pending during the period covered by this report, the costs and expenses reasonably expected to be incurred, the availability and limits of the Company’s insurance coverage, and the Company’s established liabilities. While the outcome of legal proceedings cannot be predicted with certainty, based on the Company’s review, the Company believes that any unrecorded liability that may result as a result of any legal proceedings is not likely to have a material effect on the Company’s liquidity, financial condition or results from operations.

Item 1A - Risk Factors.

In addition to the other information set forth in this Quarterly Report, you should carefully consider the factors discussed in Part I, “Item 1A. However, it is important to note that the risks described in our 2016 Annual Report are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may eventually prove to materially adversely affect our business, results of operations or financial condition.
