Citizens Communications Reports 2005 Fourth-Quarter Results;
Announces New Stock Buyback and Debt Retirement Programs;
Declares Quarterly Dividend

Stamford, Conn., February 24, 2006 -- Citizens Communications (NYSE:CZN) today reported fourth quarter 2005 revenues of \$556.1 million; operating income of \$173.2 million; and net income of \$76.8 million.

Fourth quarter 2005 revenue from the company's Frontier operations increased 2.7 percent to \$513.7 million from \$500.4 million in the fourth quarter of 2004. The increase is due primarily to growth in data and enhanced service revenues and higher access service revenues (which includes subsidy payments we receive from federal and state agencies). Data service revenues increased 30.3 percent compared to the fourth quarter of 2004 and high margin enhanced service revenues increased 3.0 percent from the fourth quarter of 2004. During the fourth quarter of 2005, we recognized approximately \$10.0 million of additional Universal Service Fund (USF) subsidy revenue because of a missed filing deadline with the USF during the third quarter of 2005.

The company added 21,200 high-speed internet customers during the quarter and had 311,400 high-speed data subscribers at December 31, 2005. The number of the company's high-speed internet subscribers has increased by more than 99,000 or 46.7 percent from a year ago.

Frontier operating income for the fourth quarter of 2005 was \$165.0 million and operating income margin was 32.1 percent, compared to \$138.0 million and 27.6 percent in the fourth quarter of 2004. Capital expenditures for the Frontier operations were \$90.0 million for the fourth quarter of 2005.

Free cash flow was \$123.9 million during the fourth quarter and increased 9.2 percent to \$545.2 million for the full year. The company's dividend represents a payout of 62.1 percent of 2005 free cash flow.

During the fourth quarter, the company bought 6,119,000 shares of its common stock at a total cost of \$78.0 million and completed its \$250.0 million authorized share repurchase program. Under this program, the company repurchased a total of 18,775,000 shares of common stock.

--MORE --

The company's Board of Directors has authorized new share repurchase and debt retirement programs. Under the new programs, up to \$300.0 million of common stock may be repurchased over the next 12 months and up to \$150.0 million of debt may be retired prior to maturity over the next 12 months. The new stock repurchase program, in combination with the 2005 program, will result in the retirement of almost 13 percent of the company's common stock. The new debt retirement program is in addition to the previously announced repayment of \$228.0 million of debt that matures in 2006 and \$49.0 million of debt that will be repaid in 2007. The combination of the previously announced debt repayments and the new debt retirement program total \$427.0 million of debt that may be repaid during 2006 and 2007 and will result in a reduction of 11 percent of the company's debt.

The company expects to receive approximately \$64.6 million in cash upon the liquidation of the Rural Telephone Bank during the second quarter of 2006. In addition, the previously announced sale of Electric Lightwave, LLC (ELI) for \$247.0 million (including \$243.0 million in cash) is expected to close during the third quarter of 2006.

The company expects to produce during 2006 between \$500.0 million and \$525.0 million of free cash flow assuming that the sale of ELI closes during the third

Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 8-K

quarter of 2006. This estimate of free cash flow does not take into account the effect of the new debt retirement program announced today.

The company's next regular quarterly cash dividend of \$0.25 per share will be paid on March 31, 2006 to shareholders of record on March 9, 2006. The company expects that dividends paid to stockholders in 2006 will be treated as dividends for federal income tax purposes. Shareholders are encouraged to consult with their tax advisors.

The company uses certain non-GAAP financial measures in evaluating its performance. These include free cash flow. A reconciliation of the differences between free cash flow and the most comparable financial measure calculated and presented in accordance with GAAP is included in the tables that follow. The non-GAAP financial measures are by definition not measures of financial performance under generally accepted accounting principles and are not alternatives to operating income or net income reflected in the statement of operations or to cash flow as reflected in the statement of cash flows and are not necessarily indicative of cash available to fund all cash flow needs. The non-GAAP financial measures used by the company may not be comparable to similarly titled measures of other companies.

The company believes that presentation of non-GAAP financial measures provides useful information to investors regarding the company's financial condition and results of operations because these measures, when used in conjunction with related GAAP financial measures, (i) together provide a more comprehensive view of the company's core operations and ability to generate cash flow, (ii) provide investors with the financial analytical framework upon which management bases financial, operational, compensation and planning decisions and (iii) presents measurements that investors and rating agencies have indicated to management are useful to them in assessing the company and its results of operations. Management uses these non-GAAP financial measures to plan and measure the performance of its core operations and its divisions measure performance and report to management based upon these measures. In addition, the company believes that free cash flow, as the company defines it, can assist in comparing performance from period to period, without taking into account factors affecting cash flow reflected in the statement of cash flows, including changes in working capital and the timing of purchases and payments.

--MORE --

Management uses these non-GAAP financial measures to (i) assist in analyzing the company's underlying financial performance from period to period, (ii) evaluate the financial performance of its business units, (iii) analyze and evaluate strategic and operational decisions, (iv) establish criteria for compensation decisions; and (v) assist management in understanding the company's ability to generate cash flow and, as a result, to plan for future capital and operational decisions. Management uses these non-GAAP financial measures in conjunction with related GAAP financial measures. The company believes that the non-GAAP financial measures are meaningful and useful for the reasons outlined above.

While the company utilizes these non-GAAP financial measures in managing and analyzing its business and financial condition and believes they are useful to management and to investors for the reasons described above, these non-GAAP financial measures have certain shortcomings. In particular, free cash flow does not represent the residual cash flow available for discretionary expenditures, since items such as debt repayments and dividends are not deducted from such measure. Management compensates for the shortcomings of these measures by utilizing them in conjunction with their comparable GAAP financial measures. The information in this press release should be read in conjunction with the financial statements and footnotes contained in our documents to be filed with the U.S. Securities and Exchange Commission.

About Citizens Communications

More information about Citizens can be found at www.czn.net.

This press release contains forward-looking statements that are made pursuant to the safe harbor provisions of The Private Securities Litigation Reform Act of 1995. These statements are made on the basis of management's views and assumptions regarding future events and business performance. Words such as "believe," "anticipate," "expect" and similar expressions are intended to identify forward-looking statements. Forward-looking statements (including oral representations) involve risks and uncertainties that may cause actual results to differ materially from any future results, performance or achievements expressed or implied by such statements. These risks and uncertainties are based on a number of factors, including but not limited to: our ability to effectively manage our operations, costs and capital spending; our ability to successfully introduce new product offerings, including bundled service packages; our ability to sell enhanced services; our ability to comply with federal and state regulations; changes in the number of our revenue generating units; general and local economic and employment conditions; the effects of ongoing changes in the regulation of the communications industry; overall changes in the telecommunications market; and greater than anticipated competition from wireless or wireline carriers. In addition, we may be unable to implement some of our current business initiatives if we fail to recognize the benefits we expect to receive from certain transactions, including but not limited to, the anticipated sale of ELI and the liquidation of Rural Telephone Bank. These and other uncertainties related to our business are described in greater detail in our filings with the Securities and Exchange Commission, including our reports on Forms 10-K and 10-Q. We undertake no obligation to publicly update or revise any forward-looking statement or to make any other forward-looking statements, whether as a result of new information, future events or otherwise unless required to do so by securities laws.
