(SELECTED) NOTES TO FINANCIAL STATEMENTS (Unaudited)

1. SIGNIFICANT ACCOUNTING POLICIES

Petroleum & Resources Corporation (the Corporation) is registered under the Investment Company Act of 1940 as a non-diversified investment company. The Corporation is an internally-managed fund emphasizing petroleum and other natural resource investments. The investment objectives of the Corporation are preservation of capital, the attainment of reasonable income from investments, and an opportunity for capital appreciation.

Security Transactions and Investment Income-Investment transactions are accounted for on the trade date. Gain or loss on sales of securities and options is determined on the basis of identified cost. Dividend income and distributions to stockholders are recognized on the ex-dividend date, and interest income is recognized on the accrual basis.

Security Valuation-Investments in securities traded on national security exchanges are valued at the last reported sale price on the day of valuation. Over-the-counter and listed securities for which a sale price is not available are valued at the last quoted bid price. Short-term investments (excluding purchased options) are valued at amortized cost which approximates fair value. Purchased and written options are valued at the last quoted asked price.

The Corporation adopted Financial Accounting Standard Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements ("FAS 157"), effective January 1, 2008. There was no impact on the fair value of assets individually or in aggregate upon adoption. In accordance with FAS 157, fair value is defined as the price that the Corporation would receive upon selling an investment in an orderly transaction to an independent buyer. FAS 157 established a three-tier hierarchy to establish classification of fair value measurements, summarized as follows:

- . Level 1 -- fair value is determined based on market data obtained from independent sources; for example, quoted prices in active markets for identical investments,
- . Level 2 -- fair value is determined using other assumptions obtained from independent sources; for example, quoted prices for similar investments,
- . Level 3 -- fair value is determined using the

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-Q

Corporation's own assumptions, developed based on the best information available in the circumstances.

The Corporation's investments at September 30, 2008 are classified as follows:

	Investment in securities	Written options
	-----	-----
Level 1	\$ 783,078,927	\$2,000
Level 2	56,954,935*	--
Level 3	--	--
	-----	-----
Total	\$840,033,862	\$2,000

* Consists of short-term investments and securities lending collateral.

For federal income tax purposes, the identified cost of securities at September 30, 2008 was \$467,059,897 and net unrealized appreciation aggregated \$372,973,965, of which the related gross unrealized appreciation and depreciation were \$399,448,533 and \$26,474,568, respectively.

8 . PORTFOLIO SECURITIES LOANED

The Corporation makes loans of securities to approved brokers to earn additional income. It receives as collateral cash deposits, U.S. Government securities, or bank letters of credit valued at 102% of the value of the securities on loan. The market value of the loaned securities is calculated based upon the most recent closing prices and any additional required collateral is delivered to the Corporation on the next business day. Cash deposits are placed in an investment trust fund that may invest in money market instruments, commercial paper, repurchase agreements, U.S. Treasury Bills, and U.S. agency obligations. The Corporation accounts for securities lending transactions as secured financing and receives compensation in the form of fees or retains a portion of interest on the investment of any cash received as collateral. The Corporation also continues to receive interest or dividends on the securities loaned. Gain or loss in the fair value of securities loaned that may occur during the term of the loan will be for the account of the Corporation. At September 30, 2008, the Corporation had securities on loan of \$51,290,735 and held cash collateral of \$49,020,899; additional collateral was delivered the next business day in accordance with the procedure described above. The Corporation is indemnified by the Custodian, serving as lending agent, for loss of loaned securities and has the right under the lending agreement to recover the securities from the borrower on demand.
