NEW GOVERNANCE POLICIES AND PROCESSES

The Company has reviewed the provisions of the Sarbanes-Oxley Act of 2002 (the "Sarbanes-Oxley Act"), the proposed and final rules of the U.S. Securities and Exchange Commission (the "SEC") and the proposed new listing standards of the New York Stock Exchange (the "NYSE") regarding corporate governance policies and processes. In anticipation of the effectiveness or adoption of final rule changes, the Company is reviewing its corporate governance policies and practices. Based on the SEC's Proposed Rule: Standards Relating to Listed Company Audit Committees, the Company would be exempt from the audit committee requirements set forth in Section 301 of the Sarbanes-Oxley Act and, therefore, would not be required to have an audit committee or an audit committee report on whether it has an audit committee financial expert. The Southern Company Audit Committee would perform such functions on behalf of the Company's board of directors. The Southern Company board of directors has determined that all members of the Southern Company Audit Committee are independent and that Mr. J. Neal Purcell is the audit committee financial expert. (For more information, please see the Southern Company Audit Committee Report on page 6.) The Company will continue to monitor all actions taken by the SEC and the NYSE and will amend, to the extent necessary, the standards, disclosures and charters applicable to the board, its committees and the Company as a whole as final rules impacting the Company are adopted and become effective.

AUDIT COMMITTEE REPORT

The Audit Committee of Southern Company (the "Committee") oversees the Company's financial reporting process on behalf of the boards of directors of the Company and Southern Company. The Company's management has the primary responsibility for the financial statements and the reporting process including the systems of internal controls. In fulfilling its oversight responsibilities, the Committee reviewed the audited financial statements of the Company in the Annual Report with management. The Committee's review process included discussions of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements.

The independent auditors are responsible for expressing an opinion on the conformity of those audited financial statements with accounting principles generally accepted in the United States. The Committee reviewed with the independent auditors their judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Committee under generally accepted auditing standards. Such discussions also included reviews of critical accounting policies and practices, acceptable alternative financial treatments, proposed adjustments and control recommendations. In addition, the Committee has discussed with the independent auditors their independence from management and the Company including the matters in the written disclosures required by Independence Standards Board Standard No. 1, "Independence Discussions with Audit Committees." The Committee has also considered whether the independent auditors' provision of non-audit services to the Company is compatible with maintaining their independence.

The Committee discussed the overall scopes and plans with the Company's internal and independent auditors for their respective audits. The Committee meets with the internal and independent auditors, with and without management present, to discuss the results of their audits, their evaluations of the Company's internal controls and the overall quality of the Company's financial reporting. The Committee held 14 meetings during 2002.

In reliance on the reviews and discussions referred to above, the Committee recommended to the board of directors of Southern Company (and the board approved) that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2002 and filed with the Securities and Exchange Commission. The Committee also reappointed Deloitte & Touche LLP as the Company's independent auditors for 2003.

PRINCIPAL PUBLIC ACCOUNTING FIRM FEES

The following represents the fees billed to the Company for the last fiscal year by Deloitte & Touche LLP -- the Company's principal public accountant for 2002:

Audit Fees	\$553,322
Audit-Related Fees	32,471
Tax Fees	10,540
All Other Fees	-

	=====

The Southern Company Audit Committee has adopted a Policy on Engagement of the Independent Auditor for Audit and Non-Audit Services (see Appendix B) that includes requirements for the Audit Committee to pre-approve audit and non-audit services provided by Deloitte & Touche LLP.

CHANGE IN PRINCIPAL PUBLIC ACCOUNTING FIRM

On March 28, 2002, the Board of Directors of Southern Company, upon recommendation of its Audit Committee, decided not to engage Arthur Andersen LLP ("Arthur Andersen") as the Company's principal public accountants and engaged Deloitte & Touche LLP ("Deloitte & Touche") to serve as the Company's principal public accountants for fiscal year 2002.

Arthur Andersen's reports on the financial statements of the Company for the two fiscal years ended December 31, 2001 did not contain any adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles. Such reports have not been re-issued in connection with the Company's financial statements included in the annual report on Form 10-K for the year ended December 31, 2002.

During the Company's two fiscal years ended December 31, 2001, and the subsequent interim period through March 28, 2002:

- there were no disagreements between the Company and Arthur Andersen on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to Arthur Andersen's satisfaction, would have caused them to make reference to the subject matter of the disagreement in connection with their reports;
- there were no reportable events as described in Item 304(a)(1)(v) of Regulation S-K; and
- the Company did not consult Deloitte & Touche with respect to the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company's financial statements, or any other matters or reportable events as set forth in Items 304(a)(2)(i) and (ii) of Regulation S-K.

No representative of Deloitte & Touche is expected to be present at the meeting unless prior to the day of the meeting the Company's Corporate Secretary has

Edgar Filing: ALABAMA POWER CO - Form DEF 14C

received written notice from a shareholder addressed to the Corporate Secretary at Alabama Power Company, 600 North 18th Street, Birmingham, Alabama 35291, that such shareholder will attend the meeting and wishes to ask questions of a representative of Deloitte & Touche.

COMPENSATION AND MANAGEMENT SUCCESSION COMMITTEE REPORT

WHAT IS THE EXECUTIVE COMPENSATION PHILOSOPHY?

Southern Company's Compensation and Management Succession Committee's intent is to provide an executive compensation program that is competitive and is tied to Southern Company's and the Company's short- and long-term performance. With the objective of maximizing Southern Company shareholder value over time, the program aligns the interests of executives and Southern Company's shareholders.

TOTAL EXECUTIVE COMPENSATION

HOW IS TOTAL EXECUTIVE COMPENSATION ESTABLISHED?

The Committee retains an independent executive compensation consultant who provides information on total executive compensation paid at other large companies in the electric and gas utility industries. Seventeen of these companies are included in the 27 companies that comprise the S&P Electric Utility Index. Based on the market data, total executive compensation targets are set at an appropriate size-adjusted level. This means that for target level performance, the program is designed to pay executives an amount that is at or about the median of the market. Total executive compensation is paid through an appropriate mix of both fixed and performance-based (incentive) compensation. Because the program focuses on incentive compensation, actual total compensation paid can be above or below the targets based on actual corporate performance.

WHAT ARE THE COMPONENTS OF TOTAL EXECUTIVE COMPENSATION?

- Base pay (salary);
- Short-term incentives (annual performance bonuses); and
- Long-term incentives.

These are the primary components of the executive compensation program. The Company does provide certain perquisites that the Committee reviews periodically to determine if they are reasonable and appropriate. The primary perquisites provided by the Company are financial planning services, club memberships (for business use) and home security.

BASE PAY

A range for base pay is determined for each executive, including Mr. McCrary, by comparing the base pay at the appropriate peer group of companies described previously. Base pay is set at a level that is at or below the size-adjusted median paid at those companies because of the emphasis on incentive compensation in the executive compensation program.

ANNUAL PERFORMANCE BONUSES

Annual bonuses are paid through the Omnibus Incentive Compensation Plan. All named executive officers participated in this plan in 2002.

Edgar Filing: ALABAMA POWER CO - Form DEF 14C

PERFORMANCE GOALS

Maximum annual performance bonus levels are based on a percentage of Southern Company's net income from operations. In addition, the annual performance bonuses are reviewed in comparison to the attainment of other corporate performance and short-term business unit goals and individual goals. All performance goals were set at the beginning of the year.

8

For 2002, the corporate performance goals included specific targets for:

- Southern Company earnings - earnings per share ("EPS") and
- The Company's net income and return on equity ("ROE")

The Committee believes that accomplishing the corporate goals is essential for the Company's continued success and sustained financial performance. A target performance level is set for each corporate performance goal. Performance above or below the targets results in proportionately higher or lower bonus payments. The bonus amount is then adjusted, up or down, based on the degree of achievement of the short-term business unit goals related to capital expenditures, cash flow, customer service, plant availability and diversity; and also individual goals.

A target percentage of base pay is established for each executive officer based on his or her position level for target-level performance. Annual performance bonuses based on the achievement of the corporate performance goals, as adjusted for the short-term business unit goals and individual performance, may range from 0 percent of the target to 240 percent.

No bonuses are paid if performance is below a threshold level or if a minimum earnings level is not reached. Also, no bonuses are paid if Southern Company's current earnings are not sufficient to fund the Southern Company common stock dividend at the same level as the prior year. The Committee also capped the maximum amount for the annual performance bonus for each named executive officer at 0.6 percent of Southern Company's net income.

ANNUAL BONUS PAYMENTS

Performance met or exceeded the target levels in all areas in 2002, resulting in bonuses that exceeded the target levels.

Mr. McCrary's annual performance bonus under the Omnibus Incentive Compensation Plan for target-level performance was 75% of his base pay. The target percentage of base pay for the other named executive officers ranged from 50 to 55 percent. Each individual's bonus paid for 2002 performance was based 30% on the degree of achievement of the Southern Company EPS goal and 70% on the degree of achievement of the Company's net income and ROE goal. Performance for both goals exceeded the target, resulting in bonus payments to all named executive officers that exceeded their respective targets.

LONG-TERM INCENTIVES

The Committee bases a significant portion of the total compensation program on long-term incentives including Southern Company stock options and performance dividend equivalents.

Edgar Filing: ALABAMA POWER CO - Form DEF 14C

STOCK OPTIONS

Executives are granted options with ten-year terms to purchase Southern Company's common stock at the market price on the date of the grant under the terms of the Omnibus Incentive Compensation Plan. The estimated annualized value represented approximately 25 percent of Mr. McCrary's total target compensation and 19 to 24 percent for the other executives. The size of prior grants was not considered in determining the size of the grants made in 2002. These options vest over a three-year period.

PERFORMANCE DIVIDENDS

Executives also are paid performance-based dividend equivalents on most stock options held at the end of the year. Dividend equivalents can range from 25 percent of the common stock dividend paid during the year if total shareholder return over a four-year period, compared to a group of other utility companies, is at the 30th percentile to 100 percent of the dividend paid if it reaches the 90th percentile. For eligible stock options held on December 31, 2002, all executives received a payout of \$1.355 per option for maximum performance under the Omnibus Incentive Compensation Plan.

9

POLICY ON INCOME TAX DEDUCTIBILITY OF EXECUTIVE COMPENSATION

Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code"), limits the deductibility of certain executives' compensation that exceeds \$1 million per year unless the compensation is paid under a performance-based plan as defined in the Code and that has been approved by shareholders. Southern Company has obtained shareholder approval of the Omnibus Incentive Compensation Plan. However, because our policy is to maximize long-term shareholder value, tax deductibility is only one factor considered in setting compensation.

SUMMARY

We believe that the policies and programs described in this report link pay and performance and serve the best interest of Southern Company's shareholders. We frequently review the various pay plans and policies and modify them as we deem necessary to continue to attract, retain and motivate talented executives.

ARTICLES OF INCORPORATION

ITEM NO. 2 -- PROPOSED AMENDMENT

The board has approved, and recommends to the shareholders that they adopt, an amendment to the Company's Articles of Incorporation that would increase the Company's authorized common stock from 6,000,000 shares to 15,000,000 shares. If the amendment is adopted, Article IX of the Company's Articles of Amendment will be amended to read as follows:

"ARTICLE IX

CAPITAL STOCK

Edgar Filing: ALABAMA POWER CO - Form DEF 14C

The corporation is authorized to issue three classes of shares of capital stock to be designated, respectively, "common stock", "preferred stock" and "Class A preferred stock". The total number of shares of stock which the corporation shall have authority to issue shall be 46,350,000 shares, of which 15,000,000 shares shall be common stock with a par value of \$40 per share, 3,850,000 shares shall be preferred stock with a par value of \$100 per share and 27,500,000 shares shall be Class A preferred stock with a par value of \$1 per share. The designations, preferences, voting powers or restrictions or qualifications thereof, the rights of redemption, retirement and conversion of the shares of capital stock of the corporation, and the general provisions with respect thereto, shall be as hereinafter set forth; provided, however, that the preferred stock and Class A preferred stock may be divided into and issued from time to time in one or more series, each such series being hereinafter for convenience referred to as a "class" of preferred stock or Class A preferred stock, as the case may be, and all such series being hereinafter for convenience collectively referred to as "classes" of preferred stock or Class A preferred stock, as the case may be. The board of directors shall have, and is hereby granted the power and authority to divide the unissued shares of preferred stock and Class A preferred stock into series (including the power and authority to reclassify, in the manner provided by law, all or any number of the unissued shares of preferred stock authorized at the time of the adoption of the joint agreement between Alabama Power Company and Birmingham Electric Company prescribing the terms and conditions of the merger of Birmingham Electric Company into and with Alabama Power Company) and to fix and determine the following relative rights and preferences of any such series of preferred stock and Class A preferred stock, and the number of shares constituting any such series and the designation thereof, or any of them: (1) dividend rate, (2) the dividend payment dates, (3) the redemption price thereof, (4) the amount payable in event of liquidation, voluntary and involuntary and (5) the sinking fund provisions, if any, for the redemption or purchase of shares; and to increase or decrease the number of shares of any such series subsequent to the issue of shares of that series, but not below the number of shares of such series then outstanding. In case the number of shares of any series shall be so decreased, the shares constituting such decrease shall assume the status of authorized but unissued shares of preferred stock or Class A preferred stock, as the case may be. The board of directors may issue and sell such shares of preferred stock and Class A preferred stock in series and any other authorized shares provided for in this Article IX. Upon the issuance of shares of Class A preferred stock, there shall be transferred to stated capital represented by each such share of Class A preferred stock an amount equal to the excess of the consideration received over the par value thereof (up to an amount which, when added to such par value, shall not exceed such share's preferential claim in the event of involuntary liquidation) and the stated capital represented by each share so determined shall be equal to such share's preferential claim in the event of involuntary liquidation."

Of the 6,000,000 currently authorized shares of common stock, all 6,000,000 shares are outstanding. The additional shares of common stock for which authorization is sought would be a part of the existing class of common stock and, if and when issued, would have the same rights and privileges as the shares of common stock presently outstanding.

Edgar Filing: ALABAMA POWER CO - Form DEF 14C

The board believes that an increase in the number of shares of authorized common stock as contemplated by this proposal would benefit the Company and its shareholders by giving the Company needed flexibility in its corporate planning and its ability to raise additional capital and respond to developments in the Company's business. The board has no present intention of issuing any shares of common stock to any person other than Southern Company.

The additional shares of common stock will be issuable without further authorization by vote or consent of the shareholders and on such terms and for such consideration as may be determined by the board, subject to applicable law.

VOTE REQUIRED

The proposed increase in the authorized number of shares of common stock requires the affirmative vote of the larger amount in total value of the common stock and all classes of preferred stock and Class A preferred stock voting as a single class. For voting purposes, the total value of preferred stock shall be equal to the par value of all shares of preferred stock outstanding, the total value of the Class A preferred stock shall be equal to the stated value of all shares of Class A preferred stock outstanding and the total value of the common stock shall be equal to the par value of all shares of common stock outstanding plus Paid-in capital. The total value of the outstanding preferred stock is \$47,511,500, the total value of the outstanding Class A preferred stock is \$325,000,000 and the total value of the common stock using Paid-in capital as of December 31, 2002 is \$2,140,464,000. Southern Company, as owner of all of the Company's common stock, will vote for the proposed amendment.
