On the record date, there were 27,621,356 shares of common stock of the Company, par value \$.01 per share, issued and outstanding and entitled to vote.

Each share of common stock entitles the holder to one vote on each matter presented at the Meeting. Proxies will be voted in accordance with the directions specified thereon. Edgar Filing: SWIFT ENERGY CO - Form DEF 14A

ELECTION OF DIRECTORS

At the Meeting, three Class II directors are to be elected for terms to expire at the 2007 Annual Meeting and one Class III director is to be elected for a term to expire at the 2005 Annual Meeting. The Company has three classes of directors and each year the directors in one of these classes are nominated to serve three year terms, or until their successors have been duly elected and qualified. Because Mr. Withrow is retiring from the Board at the expiration of his term in May 2004, a vacancy will be open in Class II. Mr. Matiuk was appointed to the Board as a Class III director last September 2003 in accordance with the Bylaws of the Company so that there would be an even number of directors in each class. Both Mr. Matiuk and Ms. Cannon were recommended to stand for election by non-management directors. In order to be elected, each nominee for director must receive at least the number of votes equal to a majority of the shares having voting power that are present in person or represented by proxy at the Meeting.

The persons named as proxies on the accompanying proxy card, unless authority is withheld by a shareholder on a proxy card, intend to vote for the election of all of the nominees named below to the Board. If any nominee should become unavailable or unable to serve as a director, the persons named as proxies may vote for a substitute selected by them, or the Board may be reduced accordingly; however, the Board is not aware of any circumstances likely to render any nominee unavailable. Any director elected by the Board to fill a vacancy will be elected for the unexpired term of such director's predecessor in office.

Committees of the Board

The Board of the Company has established the following standing committees: Audit, Corporate Governance, Compensation and Executive Committees. Descriptions of the functions of the Audit, Corporate Governance and Compensation Committees are set forth below:

Audit Committee. The Audit Committee assists the Board in fulfilling its responsibilities with respect to oversight in monitoring (i) the integrity of the financial statements of the Company; (ii) Swift Energy's compliance with legal and regulatory requirements; (iii) the independent auditors' selection, qualifications and independence; and (iv) the performance of Swift Energy's internal audit function and independent auditors. The Board has determined that both Messrs. See "Shareholder Proposals" below. The Corporate Governance Committee also develops, monitors and recommends to the Board corporate governance principles and practices applicable to Swift Energy. This includes evaluating the compensation of the executive officers of the Company and its affiliates and their performance relative to their compensation to assure that such executive officers are compensated effectively in a manner consistent with the strategy of Swift Energy, competitive practices, and the requirements of the appropriate regulatory bodies. In addition, this committee evaluates and makes recommendations to the Board regarding the compensation of the directors. The Compensation Committee also evaluates and approves any amendment, subject to shareholder approval, to the Company's existing equity-related plans, and approves the adoption of any new equity-related plans, subject to shareholder and Board approval. The Compensation Committee is required to be comprised of at least three directors

6

Employment Contracts

A. Earl Swift's employment agreement was amended and restated in November 2000. Effective May 8, 2001, Mr. Swift stepped down as Chief Executive Officer and effective June 30, 2001 began working on a half-time basis. He may continue on a half-time basis for five years (up to 46 weeks per year as the Board may specify) on specific matters designated by the Board. During this five-year period, Mr. Swift's compensation is one-half (i.e. \$300,000) his annual base compensation at the time of transition from a full-time to half-time schedule, with a 4% per annum inflation adjustment, plus any bonus provided by the Board. These amounts are also payable in one lump sum, discounted to present value, upon Mr. Swift's death or disability, which also triggers 100% vesting of all unexercised options, plus continuation of insurance for his spouse and minor children for a year. In the event of a change of control, Mr. Swift is to be paid a lump sum equal to the discounted present value of amounts payable during the remainder of the contract, plus a one-year continuation of medical and dental coverage, and a tax gross-up if such payments are deemed to be subject to "parachute payment" excise taxes. Mr. Swift's contract also provides for a payment of approximately \$407,000 per year to Mr. Swift or his estate during each of the last five years of the agreement in consideration of Mr. Swift's agreement not to compete with the Company while he is receiving payments from the Company. These payments have been made for each of the years 2003, 2002 and 2001. Upon termination of Mr. Swift's employment during its term, other than for cause, Mr. Swift is entitled to receive continuation of his salary for a period of one year plus 4 weeks' salary for every year of service to the Company if he is then being employed and paid on a half-time basis, provided that salary payments are not to be made for more than five years after he begins his part-time status. Insurance coverage is to be continued while he is being paid, and all unexercised stock options held at such date are to become vested.

Effective May 9, 2001, the Company entered into amended and restated employment agreements with Terry E. Swift, President and Chief Executive Officer, Bruce H. Vincent, Executive Vice President, Alton D. Heckaman, Senior Vice President and Chief Financial Officer, James M. Kitterman, Senior Vice President, and Joseph A. D'Amico, Executive Vice President and on the same date entered into a new employment agreement with Victor Moran, Senior Vice President. Effective November 1, 2003, the Company also entered into an employment agreement with James P. Mitchell, Senior Vice President. All of the agreements provide for an initial three-year term, which is automatically extended for one year on May 9 of each year (such period, as so extended at any time, the "Contract Term"). These agreements provide for payment of certain amounts and continuation of medical benefits for one-half of the remainder of the Contract Term upon termination of employment other than for cause. The payment shall be equal to the executive's base salary in effect immediately prior to the termination date, plus one week's salary for every year of service to the Company, plus in the case of Messrs. Swift, Kitterman and Heckaman, certain amounts compounded at a rate of 8% per annum, representing amounts in lieu of Company contributions to a 401(k) plan for those periods of employment prior to adoption of such a plan by the Company. The agreements also provide for the continuation of medical benefits for one-half of the remainder of the Contract Term upon termination of employment other than for cause. The agreements can be terminated by the Company other than for cause only by a majority of the continuing directors who have been directors for two years or

nominated for election by a majority of continuing directors. Upon employment termination in connection with or following a change of control, the executives are entitled to receive their salary that would have been paid for the remainder of the Contract Term, plus two weeks' salary for every year of service to the Company, plus in the case of Messrs. Swift, Kitterman and Heckaman, certain amounts compounded at a rate of 8% per annum, representing amounts in lieu of Company contributions to a 401(k) plan for those periods of employment prior to adoption of such a plan by the Company, and continuation of medical and dental insurance and universal life coverages for certain periods. Immediately prior to termination of employment, outstanding unexercised stock options vest or are deemed to have vested, and the executives retain such options with no change to

their terms, except as to Messrs. Moran and Mitchell, for whom the only outstanding options that vest are those granted after the date of their respective employment agreement.

Compensation Committee Interlocks and Insider Participation

During 2003, the Compensation Committee of the Company consisted of Messrs. Smith, Galvin, Montgomery, Withrow and, from September 2003, Mr. Matiuk, who are all independent directors. To the Company's knowledge, there are no inter-relationships involving members of the Compensation Committee or other directors of the Company requiring disclosure in this section of the proxy statement.

Related Party Transaction

During 2003, the Company received research, technical writing, publishing and website-related services from Tec-Com Inc., a corporation located in Knoxville, Tennessee and controlled by the sister of the Company's Chairman and Vice Chairman of the Board. The sister and brother-in-law of Messrs. E. Swift and V. Swift also own a substantial majority of Tec-Com. For the fiscal year ended December 31, 2003, the Company paid an aggregate of \$381,400 to Tec-Com for such services pursuant to the terms of the contract between the parties. The contract expires June 30, 2004 but is expected to be renewed or extended. The Company believes that the terms of this contract are consistent with third party arrangements that provide similar services.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

Compensation Philosophy

The Board first established its Compensation Committee in 1982. The Compensation Committee has always been composed solely of non-employee directors, and has set executive compensation since that time. Since 1987, when the Compensation Committee undertook an evaluation of the Company's policies, compensation has been based upon Company performance.

Philosophically, the Compensation Committee and the Company's founding Chief Executive Officer believed it to be beneficial to the Company in its early years to keep executive compensation in the low to middle ranges in comparison to levels paid by comparable entities, particularly in comparison to many companies in the oil and gas industry. Since 1987, the bonus compensation of the Company's Chief Executive Officer has been based almost solely upon the Company's performance, as described below.

Since late 1989, the bonus formula for the Chief Executive Officer has been based upon earnings per share and growth in oil and gas reserves, as described in detail below. Since 1995, the criteria also have reflected the importance of cash flow to an oil and gas company and the Company's increased emphasis on exploration and drilling activities to achieve growth in probable reserves, in addition to acquisition of producing properties, given the Compensation Committee's belief that successful drilling activities are based upon a high level of drilling prospects. Accordingly, the bonus formula in the 2001 Omnibus Stock Compensation Plan (the "2001 Plan"), which was adopted by the Shareholders at the 2001 Annual Meeting and was in effect with respect to compensation in 2003, provides for bonuses based upon year-to-year increases in earnings per share, cash flow per share, proved reserves and probable reserves and an assessment of the individual's contribution over the course of the year.

During 2003, the Compensation Committee adopted a new charter, which additionally provided for the Compensation Committee to evaluate and make recommendations as to the compensation of the Company's directors.

Review and Evaluation of Compensation Practices

Upon recommendation by the Compensation Committee, during 2003 the Board retained The Delves Group to work with senior management and the Compensation Committee to examine the current compensation practices for its top executive team and directors and to make recommendations with regard to alignment with competitive and best practices. The Delves Group is a consulting firm with expertise in measuring performance, setting goals, and designing effective pay and incentive systems. The Delves Group reviewed Swift Energy's current compensation practices, both with regard to the Company's officers and its directors, and conducted a competitive analysis of those practices in relation to various market benchmarks. The Delves Group also reviewed Swift Energy's short- and long-term incentive programs and offered analysis and advice with regard to those pay components for both 2003 and 2004 going forward. No changes were made to the Company's compensation practices with respect to 2003 compensation in connection with The Delves Group's consultation services. Additional review and studies are expected to be conducted during 2004 by the Compensation Committee based in part on recommendations from The Delves Group, as well as at the request of the Compensation Committee and the Chairman of the Board.

Edgar Filing: SWIFT ENERGY CO - Form DEF 14A

Director Compensation

Because of the increased demands on the time required from its directors due to the heightened corporate governance environment, the cash compensation portion of director compensation was increased for 2003 from an aggregate amount of \$32,250 for a full year of service on the Board and one or more committees of the Board to \$39,750. After a presentation on director compensation by The Delves Group, the Compensation Committee recommended that the increased cash compensation of the directors for 2003 was adequate and not be increased further and that alternative forms of stock compensation to the current option grants under the 1990 Nonqualified Stock Option Plan be considered for the future.

Executive Compensation Criteria and Performance Measurement

The Company's executive compensation consists of three components: base salary, annual incentive bonuses, and long-term stock-based incentives.

Base Salary for a particular year is based upon (i) the executive's scope of responsibility, (ii) an evaluation of each executive's individual performance during the year, (iii) an attempt to keep executive salaries within the range paid by comparably sized oil and gas exploration and production companies, based in part upon annual surveys provided by outside consultants on independent oil and gas companies with similar market capitalizations (the "Compensation Surveys"), and (iv) an evaluation of the Company's performance during the preceding year, including the Company's earnings, reserve growth and cash flow. Individual performance evaluation is based upon each executive's review of his own performance throughout the year and upon a performance review and compensation recommendation by the Company's Chief Executive Officer, which is then reviewed and acted upon by the Compensation Committee.

The Compensation Surveys include companies in common with the Dow Jones Oil, Secondary Index (the "Index") used in the "Five Year Shareholder Return Comparison" set forth herein. The Compensation Surveys are used by the Company for purposes of executive compensation comparison because they constitute a broader group than the group of companies included in the Index, and because the Compensation Surveys are comprised of companies somewhat closer in size and line of business to the Company than some of the companies included in the Index. The Index was selected in accordance with SEC rules solely for shareholder return comparison purposes because it is a published industry index.

Annual Incentive Bonuses for a particular year are awarded after the end of that year, based on both individual and Company performance during that year. Under the 2001 Plan, bonuses are awarded in the form of Performance Bonus Awards, which may be in cash, in shares of the Company's common stock or a combination thereof, as determined by the Compensation Committee. The amount of an executive officer's Performance Bonus Award for a particular year is determined utilizing the following factors: (i) the increase in earnings per share during that year and the increase in the cash flow per share during that year (measures of short-term performance); (ii) the increase in the volume of the Company's proved and probable oil and gas reserves during that year (measures of long-term performance); (iii) individual performance of that executive officer in contributing to either the Company's overall achievement of its strategic objectives, or the achievement of the objectives of the executive's department or group within the Company; and (iv) the Compensation Committee's determination of the extent to which the executive officer's individual performance merits a bonus.

In determining Performance Bonus Awards for 2003 (determined and paid in February 2004), the Committee considered all of the above factors in determining bonuses awarded. The Compensation Committee also took into account individual

performance ratings reflecting individual contribution and contribution to group effectiveness.

Long-Term Stock-Based Incentives are provided through grants of incentive stock options, usually on an annual basis, to executives and others under the 2001 Plan. This component is intended to retain and motivate executives to improve long-term shareholder value. Stock options are granted at the prevailing market price. Grants have always vested in equal amounts over five years.

The Compensation Committee determines a total number of options to be granted in any year based on the total number of outstanding unexercised options, so as to avoid excessive dilution of the shareholders' value in the Company through option exercises. Out of the number so determined, options are granted to executive officers in varying amounts, roughly related to their levels of executive responsibility. Outstanding performance by an executive officer may be recognized through a larger than normal option grant.

The Company believes that its compensation policy described above provides an excellent link between the value created for shareholders and the compensation paid to executive officers.

Compensation of Chief Executive Officer

Base Salary. The Chief Executive Officer's base salary in 2003 was \$450,000, compared to his base salary of \$400,000 in 2002 for his service as President and Chief Executive Officer of the Company. The Compensation Committee's determination was based on the factors described above under "Compensation Criteria and Performance Measurement--Base Salary."

Bonus. In determining the Chief Executive Officer's bonus, the Compensation Committee has typically given more weight to factors based upon the Company's performance than to its evaluation of his general contribution, since the Compensation Committee does not observe and supervise such performance on a day-to-day basis. Terry E. Swift received a bonus of \$180,000 in cash for his service as Chief Executive Officer and President of the Company, compared to his cash bonus of \$120,000 in 2002 for his service in the same positions.

Stock Options. In 2003, the Company granted the Chief Executive Officer 40,000 options to purchase shares of the Company's common stock, on the basis explained above under "Compensation Criteria and Performance Measurement--Long-Term Stock-Based Incentives."

Section 162(m) of the Internal Revenue Code

The Compensation Committee does not propose to adopt any particular policy with respect to Section 162(m) of the Internal Revenue Code. Section 162(m) generally limits deductions for compensation paid to any employee in excess of \$1 million per year. The Company believes that any loss of deduction for compensation exceeding Section 162(m)'s limitations is outweighed by the flexibility it gains in not meeting the requirements of this section.

AUDIT COMMITTEE REPORT

In fulfilling its oversight responsibilities, the Audit Committee reviewed and discussed with management the Company's audited financial statements for the year ended December 31, 2003, including a discussion of the quality and acceptability of the Company's financial reporting and controls. The Audit Committee also reviewed with the Company's independent auditors, Ernst & Young LLP, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, Ernst & Young's judgments as to the quality and acceptability of the Company's financial reporting and other matters, including those matters required to be discussed by Statement on Auditing Standards No. 61, Communications With Audit Committees.

Edgar Filing: SWIFT ENERGY CO - Form DEF 14A

The Audit Committee discussed with Ernst & Young the auditors' independence from the Company and its management, including the matters in the written disclosures and the letter from Ernst & Young required by Independence Standards Board Standard No. 1, Independence Discussions With Audit Committees, and carefully considered whether the provision by the auditors of non-audit professional services is compatible with maintaining the auditors independence. In connection with the standards for independence of the Company's independent public accountants promulgated by the SEC, the Audit Committee has reviewed and is satisfied that the additional services did not affect the independence of Ernst & Young.

Based on the review and discussions referred to above, the Audit Committee recommended to the Board that the audited financial statements be included in the Company's Annual Report on Form 10-K for filing with the SEC for the year ended December 31, 2003.

No portion of this Audit Committee Report shall be deemed to be incorporated by reference into any filing under the Securities Act or the Exchange Act, through any general statement incorporating by reference in its entirety the Proxy Statement in which this report appears, except to the extent that the Company specifically incorporates this report or a portion of it by reference. In addition, this report shall not be deemed to be filed under either the Securities Act or the Exchange Act.

There were no disagreements with the former accountants. That change was reported by Swift Energy in a Current Report on

The Committee may delegate pre-approval authority to a member of the Committee. The decisions of any Committee member to whom pre-approval authority is delegated must be presented to the full Committee at its next scheduled meeting.

All of the services described above for 2003 and 2002 were pre-approved by the Audit Committee before Ernst & Young was engaged to render the services.

DIRECTOR NOMINEES

Edgar Filing: SWIFT ENERGY CO - Form DEF 14A

The Corporate Governance Committee will consider shareholder recommendations for membership on the Board, upon written request by a shareholder in accordance with the procedures for submitting shareholder proposals. See "Shareholder Proposals" below. Such recommendations must also meet the requirements of the Company's Bylaws, which in general requires that the recommendation must be delivered to or received not less than 60 days nor more than 90 days prior to the first anniversary of the preceding year's annual meeting. The recommendation must state the name, age, business address and residence address of the recommended nominee and any other information required to be disclosed in the Company's proxy statement by rules promulgated by the SEC. Additionally, the recommendation must include the name and address of the shareholder and the number of shares of the Company's securities that the shareholder beneficially owns and the period for which the shareholder has held such shares.

The Board has ultimate responsibility for nominating individuals for election to the Board by shareholders and for filling vacancies on the Board. The Corporate Governance Committee, in consultation with the Chairman of the Board, is responsible for identifying, screening, personally interviewing and recommending candidates to the entire Board for nomination or appointment to the Board. Nominees to serve as director of the Company are expected to understand the Company's business and the marketplaces in which it operates. Director nominees are expected to keep abreast of general economic, business and management news and trends, as well as developments in Swift Energy's competitive environment and Swift Energy's performance with respect to that environment. Nominees for director will be selected taking all factors into account, including reputation, mature judgment, career specialization, relevant technical skills, diversity, the extent to which the candidate would fill a present need on the Board, as well as their willingness to devote adequate time to Board duties and the likelihood that he or she will be willing and able to serve on the Board for a sustained period of time.

SHAREHOLDER PROPOSALS

Pursuant to various rules promulgated by the SEC, a shareholder that seeks to include a proposal in the Company's proxy statement and form of proxy card for the meeting of the shareholders of the Company to be held in 2005 must timely submit such proposal in accordance with SEC Rule 14a-8 to the Company, addressed to Bruce H. Vincent, Secretary, 16825 Northchase Drive, Houston, Texas 77060 no later than December 3, 2004. Further, a shareholder may not submit a

22

matter for consideration at the 2004 Meeting, regardless of whether presented for inclusion in the Company's proxy statement and form of proxy card, unless the shareholder shall have timely complied with the requirements in the Company's Bylaws which set a notice deadline after which a shareholder will not be permitted to present a proposal at the Company's shareholder meetings. The Bylaws state that in order for business to be properly brought before an annual meeting by a shareholder, the shareholder must have given timely notice thereof in writing to the Secretary of the Company. To be timely, a shareholder's notice must be delivered to or mailed and received at the principal executive offices of the Company not less than 60 days nor more than 90 days prior to the first anniversary of the preceding year's annual meeting. A notice given pursuant to this advance notice Bylaw will not be timely with respect to the Company's 2005 meeting unless duly given by no later than March 11, 2005 and no earlier than February 9, 2005.

Edgar Filing: SWIFT ENERGY CO - Form DEF 14A

With respect to business to be brought before the 2004 Meeting, the Company has not received any notices from shareholders that the Company is required to include in this proxy statement.

COMMUNICATIONS WITH THE BOARD OF DIRECTORS

Typically the Chairman of the Corporate Governance Committee presides at executive sessions of the independent directors of the Board of Directors. Any communications that shareholders may wish to send to the Board of Directors may be directly sent to the Chairman of the Corporate Governance Committee at the following address:

Chairman of the Corporate Governance Committee
Swift Energy Company
c/o CCI
P. O. Box 561915
Charlotte, NC 28256

Historically, the Company's annual meeting of its Board of Directors was held to coincide with the annual meeting of its shareholders and a majority of the directors would attend the annual meeting of shareholders. However, with the increased responsibilities and time requirements in connection with the Board's annual meeting, the Board's annual meeting is now held the week before the shareholders' annual meeting. Therefore, the Company does not have a policy with regard to Board members' attendance at its annual meetings of shareholders. At the Company's 2003 Annual Meeting of Shareholders, a majority of the members of the Board attended and it is expected that a majority of the members of the Board will also attend the 2004 Annual Meeting of Shareholders.

"HOUSEHOLDING" OF PROXY MATERIALS

The SEC permits companies and intermediaries, such as brokers, to satisfy the delivery requirements for proxy materials with respect to two or more shareholders sharing the same address by delivering a single annual report and one set of proxy materials addressed to those shareholders. This process, which is commonly referred to as "householding," potentially means extra convenience for shareholders and cost savings for companies.

Shareholders who currently receive multiple copies of the Company's communications and would like to request householding or shareholders that are receiving only a single copy of the Company's communications but would like to received multiple copies in the future should contact their broker or, if a shareholder is a direct holder of shares of Swift Energy's common stock, he or

she should submit a written request to the Company's transfer agent, American Stock Transfer & Trust Company, 59 Maiden Lane, Plaza Level, New York, New York 10038, phone number (877) 777-0800 or contact the Company by mail to Swift Energy Company, Attention: Scott Espenshade, Director of Investor Relations, 16825 Northchase Dr., Suite 400, Houston, Texas 77060; by telephone at (713) 874-2700 or (800) 777-2412; or by email to info@swiftenergy.com. Additionally, the Company will promptly deliver a separate copy of the annual report or proxy statement, as applicable, to a shareholder at a shared address to which a single copy of the documents was delivered upon written or oral notice from the affected shareholder to the Company.

FORWARD LOOKING STATEMENTS

The statements contained in this proxy statement that are not historical are "forward-looking statements," as that term is defined in Section 21E of the Exchange Act that involve a number of risks and uncertainties. Forward-looking statements use forward-looking terms such as "believe," "expect," "may," "intend," "will," "project," "budget," "should" or "anticipate" or other similar words. These statements discuss "forward-looking" information such as future net revenues from production and estimates of oil and gas reserves.

These forward-looking statements are based on assumptions that the Company believes are reasonable, but they are open to a wide range of uncertainties and business risks, including the following:

- o fluctuations of the prices received or demand for crude oil and natural gas over time;
- o geopolitical conditions or hostilities;
- o uncertainty of reserve estimates; o operating hazards;
- o unexpected substantial variances in capital requirements;
- o environmental matters; and o general economic conditions.

Other factors that could cause actual results to differ materially from those anticipated are discussed in the Company's Annual Report to Shareholders for the year ended December 31, 2003. The Company will not update these forward-looking statements unless the securities laws require the Company to do so.
