Item 1.01 Entry into a Material Definitive Agreement.

On April 26, 2018, Alliant Energy Finance, LLC (“AEF”), a wholly-owned subsidiary of Alliant Energy Corporation (“Alliant Energy”), entered into a two-year term loan credit agreement (the “Credit Agreement”) with U.S. Bank National Association, as Administrative Agent, and the several lenders party thereto. The maximum principal amount available under the Credit Agreement is \$300 million, with a maturity in April 2020. Alliant Energy guaranteed payment and performance of AEF’s obligations under the Credit Agreement. Advances under the Credit Agreement will be used for general corporate purposes.

The Credit Agreement contains various covenants, including a requirement that Alliant Energy maintains a debt-to-capital ratio of not greater than 65% on a consolidated basis. The debt component of the debt-to-capital ratio includes, among others, long- and short-term debt (excluding non-recourse debt and hybrid securities to the extent the total carrying value of such hybrid securities does not exceed 15% of consolidated capital of Alliant Energy), capital lease obligations, certain letters of credit, guarantees of the foregoing and synthetic leases. Unfunded vested benefits under qualified pension plans and sales of accounts receivable are not included in the debt component of the debt-to-capital ratio. The equity component of the debt-to-capital ratio excludes accumulated other comprehensive income (loss).

The Credit Agreement contains a covenant that prohibits placing liens on any of the property of AEF, Alliant Energy or its subsidiaries with certain exceptions. Exceptions include among others, liens to secure obligations of up to 10% of the consolidated assets of Alliant Energy (valued at carrying value), liens imposed by government entities, materialmen’s and similar liens, judgment liens, liens to secure additional non-recourse debt not to exceed \$100 million outstanding at any one time at each of Interstate Power and Light Company and Wisconsin Power and Light Company, and \$100 million at Alliant Energy’s non-utility subsidiaries, and purchase money liens. The Credit Agreement also contains a covenant that requires, during its term, any proceeds from asset sales, with certain exclusions, in excess of 25% of Alliant Energy’s consolidated assets be used to reduce certain debt commitments. Exclusions include, among others, certain sale and lease-back transactions, sales of non-regulated assets, intercompany asset sales and sales of certain contracts and accounts receivables.

The Credit Agreement contains customary events of default, including a cross-default provision which would be triggered if Alliant Energy or any of its domestic subsidiaries defaults on debt (other than nonrecourse debt) totaling \$100 million or more. If an event of default under the Credit Agreement occurs and is continuing, then the lenders may declare any outstanding obligations under the Credit Agreement immediately due and payable. In addition, if any order for relief is entered under bankruptcy laws with respect to AEF or Alliant Energy, then any outstanding obligations under the Credit Agreement would be immediately due and payable.

The description of the Credit Agreement set forth above is not complete and is qualified in its entirety by reference to the Credit Agreement filed herewith as Exhibit 10.1, which is incorporated by reference herein.

Item 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off Balance Sheet Arrangement of a Registrant.

The information included or incorporated by reference in Item 1.01 of this Current Report on Form 8 K is incorporated by reference into this Item 2.03 of this Current Report on Form 8 K.
