FLIR SYSTEMS, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1. Basis of Presentation

The accompanying consolidated financial statements of FLIR Systems, Inc. and its consolidated subsidiaries (the "Company") are unaudited and have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. In the opinion of management, these statements have been prepared on the same basis as the audited consolidated financial statements and include all adjustments, consisting of only normal recurring adjustments, necessary for a fair presentation of the Company's consolidated financial position and results of operations for the interim periods. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to such rules and regulations. These consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2012.

The accompanying consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant intercompany accounts and transactions have been eliminated. The results of operations for the interim periods presented are not necessarily indicative of the operating results to be expected for any subsequent interim period or for the year ending December 31, 2013.

Reclassifications and Adjustments to Prior Year

The Company made certain reclassifications to the prior year's financial statements to conform them to the presentation as of June 30, 2013. In addition, the December 31, 2012 balance sheet has been adjusted for purchase price allocations of the Lorex and Traficon acquisitions. See Note 18, "Business Acquisitions," of the Notes to the Consolidated Financial Statements for additional information. These reclassifications and adjustments had no effect on consolidated net earnings, shareholders' equity or net cash flows for any of the periods presented.

Note 2. Stock-based Compensation

Outstanding at June 30, 2013	2,804	\$20.94

During the six months ended June 30, 2013 and 2012, the Company granted approximately 1,088,000 and 978,000 time-vested restricted stock units, respectively. The fair value of time-vested restricted stock units is fixed and determined on the date of grant based upon the Company's stock price on the date of grant. The weighted average fair values of the time-vested restricted stock units granted during the six months ended June 30, 2013 and 2012 were \$23.43 and \$21.68, respectively.

During the six months ended June 30, 2013 and 2012, the Company also granted approximately 7,000 and 795,000 market-based restricted stock units, respectively. These units may be earned based upon the Company's total shareholder return compared to the total shareholder return of the S&P 500 Index over a three year period. The fair value of the market-based restricted units was determined and fixed on the date of grant using a lattice-based option-pricing valuation model that incorporates a Monte-Carlo simulation and considered the likelihood of the Company achieving the market-based condition. The fair value of the market-based restricted stock units granted during the six months ended June 30, 2013 and 2012 was \$15.87 and \$11.73, respectively.

There were 125,000 shares issued under the 2011 Employee Stock Purchase Plan ("ESPP") during the six months ended June 30, 2013 and 3,728,000 shares remain available under the ESPP at June 30, 2013 for future issuance. Shares issued for ESPP purchases are newly issued shares.

Note 3. Net Earnings Per Share

The following table sets forth the reconciliation of the numerator and denominator utilized in the computation of basic and diluted earnings per share (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
Numerator for earnings per share:				
Earnings from continuing operations	\$50,158	\$42,405	\$101,794	\$91,230
Loss from discontinued operations	—	(1,312)	—	(1,998)
Net earnings for basic and diluted earnings per share	\$50,158	\$41,093	\$101,794	\$89,232
Denominator for earnings per share:				
Weighted average number of common shares outstanding	142,085	153,172	143,350	153,829
Assumed exercises of stock options and vesting of restricted stock awards, net of shares assumed reacquired under the treasury stock method	1,689	1,861	1,631	2,154
Weighted average diluted shares outstanding	143,774	155,033	144,981	155,983

The effect of stock-based compensation awards for the three and six months ended June 30, 2013, which aggregated 1,102,000 shares and 1,142,000 shares, respectively, and for the three and six months ended June 30, 2012, which aggregated 3,582,000 shares and 3,302,000 shares, respectively, has been excluded for purposes of calculating diluted earnings per share since including such stock-based compensation awards would have been anti-dilutive.

Note 4. Fair Value of Financial Instruments

The Company had \$105.4 million and \$5.9 million of cash equivalents at June 30, 2013 and December 31, 2012, respectively, which were primarily investments in money market funds. The Company has categorized its cash equivalents as a Level 1 financial asset, measured at fair value based on quoted prices in active markets of identical assets. The fair value of the Company's forward currency contracts and interest rate swap contracts as of June 30, 2013 and December 31, 2012 are disclosed in Note 5, "Derivative Financial Instruments," of the Notes to the Consolidated Financial Statements below and are based on Level 2 inputs. The fair value of the Company's senior unsecured notes as described in Note 13, "Long-Term Debt," of the Notes to the Consolidated Financial Statements is approximately \$258.6 million based upon Level 2 inputs at June 30, 2013. The fair value of the Company's term loan, also described in Note 13, approximates the carrying value due to the variable market rate used to calculate interest payments. The Company does not have any other significant financial assets or liabilities that are measured at fair value.

Note 5. Derivative Financial Instruments

Foreign Currency Exchange Rate Risk

The gains and losses related to outstanding derivative instruments recorded in other expense (income) are offset, in general, by the reciprocal gains and losses from the underlying assets or liabilities which originally gave rise to the exposure. The net amount of these realized and unrealized gains and losses for the three and six months ended June 30, 2013, were losses of \$5.0 million and \$3.5 million, respectively. The net amount of these gains and losses for the three and six months ended June 30, 2012 were a loss of \$1.4 million and a gain of \$0.3 million, respectively.

Interest Rates

The Company's outstanding long-term debt at June 30, 2013 consists of fixed rate notes and a floating rate term loan. The Company maintains its floating rate revolver for flexibility to fund working capital needs and for other uses of cash. Interest expense on the Company's floating rate debt is typically calculated based on a fixed spread over a reference rate, such as LIBOR (also known as the Eurodollar rate). Therefore, fluctuations in market interest rates will cause interest expense increases or decreases on a given amount of floating rate debt.

The Company is managing a portion of its interest rate risk related to floating rate debt by entering into interest rate swaps in which the Company receives floating rate payments and makes fixed rate payments. The impact of the interest rate swaps is to fix the floating rate basis for the calculation of interest on the term loan at the levels indicated in the table below. The effective interest rate paid is equal to the fixed rates shown below plus the credit spread then in effect. At June 30, 2013, the effective interest rate on the term loan was 2.49 percent. As of June 30, 2013, the following interest rate swaps were outstanding:

Contract Date	Notional Amount (in millions)	Fixed Rate	Effective Date	Maturity Date
March 15, 2013	\$73.1	1.0165 %	April 5, 2013	March 31, 2019
March 29, 2013	73.1	0.97 %	April 5, 2013	March 31, 2019

Interest rate swaps are recorded as an asset or liability in the Company's Consolidated Balance Sheet at fair value. Gains and losses on cash flow hedges are recorded as an adjustment to accumulated other comprehensive (loss) earnings, except that any gains and losses on ineffectiveness of cash flow hedges would be recorded as an adjustment to other expense (income).

The fair value carrying amount of the Company's interest rate swaps of \$2.5 million has been recorded to other assets in the Consolidated Balance Sheet as of June 30, 2013.

Note 11. Credit Agreements

At June 30, 2013, the Company had no borrowings outstanding under its Credit Agreement, dated February 8, 2011 with Bank of America, N.A., U.S. Bank National Association, JPMorgan Chase Bank N.A. and other Lenders, and \$12.4 million of letters of credit outstanding, which reduces the total available credit under the Credit Agreement to \$187.6 million.

On April 5, 2013, the Credit Agreement was amended to extend the maturity of the revolving credit facility from February 8, 2016 to April 5, 2018. The amendment also incorporated a revised schedule of interest rates.

Note 12. Accrued Product Warranties

The following table summarizes the Company's warranty liability and activity (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012

Note 13. Long-Term Debt

Long-term debt consists of the following (in thousands):

	June 30, 2013	December 31, 2012
Unsecured notes	\$250,000	\$250,000
Term loan	146,250	—
Unamortized issuance costs of unsecured notes	(1,451)	(1,681)
	\$394,799	\$248,319

In August 2011, the Company issued \$250 million aggregate principal amount of its 3.750% senior unsecured notes due September 1, 2016 (the "Notes"). The net proceeds from the issuance of the Notes were approximately \$247.7 million, after deducting underwriting discounts and offering expenses, which are being amortized over a period of five years. Interest is payable on the Notes semiannually in arrears on March 1 and September 1. The proceeds from the Notes are being used for general corporate purposes, which may include working capital and capital expenditure needs, business acquisitions and repurchases of the Company's common stock.

The Credit Agreement amendment of April 5, 2013, discussed in Note 11, "Credit Agreements," of the Notes to the Consolidated Financial Statements above, incorporated a \$150 million term loan facility that matures on April 5, 2019. On April 5, 2013 the Company drew down \$150 million under the term loan facility. Interest is accrued at the one-month LIBOR rate plus the scheduled spread and paid monthly. Quarterly principal payments of \$3.8 million commenced on June 30, 2013 and will continue through December 31, 2018 with the final maturity payment including any accrued interest due on April 5, 2019.

Note 14. Shareholders' Equity

The following table summarizes the common stock and additional paid-in capital activity during the six months ended June 30, 2013 (in thousands):

Common stock and additional paid-in capital, December 31, 2012	\$171,546
Excess income tax benefit of common stock options exercised	(71)
Common stock issued pursuant to stock-based compensation plans, net	92
Stock-based compensation costs	13,610
Repurchase of common stock	(116,830)
Common stock and additional paid-in capital, June 30, 2013	\$68,347

During the six months ended June 30, 2013, the Company repurchased 1.6 million shares of the Company's common stock through open market transactions and entered into an accelerated share repurchase program at a notional amount of \$75.0 million under which the Company received 2.6 million shares in March 2013 and an additional 0.3 million shares in April 2013. The repurchases were under the February 2013 authorization by the Company's Board of Directors pursuant to which the Company is authorized to repurchase up to 25.0 million shares of the Company's outstanding common stock. This authorization expires in February 2015.

On February 9, 2011, the Company's Board of Directors adopted a dividend policy under which the Company intends to pay quarterly cash dividends on its common stock. Accordingly, a dividend of \$0.09 per share of outstanding common stock was paid on June 7, 2013 to shareholders of record as of the close of business on May 20, 2013. The total cash payments for dividends in the six months ended June 30, 2013 was \$25.9 million.

Note 15. Contingencies

The Company and its subsidiary, Indigo Systems Corporation (now known as FLIR Commercial Systems, Inc.) (together, the "FLIR Parties"), were named in a lawsuit filed by Raytheon Company ("Raytheon") on March 2, 2007 in the United States District Court for the Eastern District of Texas. Raytheon's complaint, as amended, asserted claims for tortious interference, patent infringement, trade secret misappropriation, unfair competition, breach of contract and fraudulent concealment. The FLIR Parties filed an answer to the complaint on September 2, 2008, in which they denied all material allegations. On August 31, 2009, the court entered an order granting the FLIR Parties' motion for summary judgment on Raytheon's trade secret misappropriation claim based on the FLIR Parties' statute of limitations defense. Raytheon abandoned all of its other claims except its claims relating to four patents (the "Patent Claims"). On August 11, 2010, the FLIR Parties and Raytheon entered into an agreement in principle to resolve the remaining Patent Claims, which resulted in a payment of \$3 million by the FLIR Parties to Raytheon and entitles the FLIR Parties to certain license rights in the patents that were the subject of the Patent Claims. The parties appealed certain rulings of the District Court to the United States Court of Appeals for the Federal Circuit which on August 1, 2012 reversed the judgment of the District Court and remanded the case for further proceedings consistent with the appellate court's opinion. The Company intends to vigorously defend itself in this matter and is unable to estimate the amount or range of potential loss, if any, which might result if the outcome in this matter is unfavorable.

Note 16. Income Taxes

As of June 30, 2013, the Company had approximately \$34.3 million of unrecognized tax benefits all of which would affect the Company's effective tax rate if recognized. The Company anticipates an immaterial portion of its net unrecognized tax benefits will be recognized within 12 months as the result of settlements or effective settlements with various tax authorities, the closure of certain audits and the lapse of the applicable statute of limitations. The Company classifies interest and penalties related to uncertain tax positions as income tax expense. As of June 30, 2013, the Company had approximately \$2.8 million of net accrued interest and penalties related to uncertain tax

positions.

Note 17. Operating Segments and Related Information

Operating Segments

The Company has two business divisions: Commercial Systems and Government Systems.

Commercial Systems Division

The Commercial Systems division is focused on the design, manufacture, and marketing of instrument, sensor, and electronics solutions that facilitate improved situational awareness and environmental analytics for commercial customers. The division is comprised of two operating segments: Thermal Vision and Measurement and Raymarine. The Thermal Vision and Measurement segment provides advanced thermal imaging solutions for emerging commercial and industrial markets that enable people to see at night or through adverse weather conditions and to capture, measure, and analyze temperature data. The Raymarine segment provides electronics for the maritime market and is a leading global provider of fully integrated “stem to stern” networked electronic systems for boats of all sizes.

Government Systems Division

The Government Systems division designs, manufactures, and markets advanced imaging and detection systems for government markets where high performance is required. The division is comprised of three operating segments: Surveillance, Detection, and Integrated Systems. The Surveillance segment provides enhanced imaging and recognition solutions to a wide variety of military, law enforcement, public safety, and other government customers around the world for the protection of borders, troops, and public welfare. The Detection segment produces sensor instruments that detect and identify chemical, biological, radiological, nuclear, and explosives (“CBRNE”) threats for military force protection, homeland security, and commercial applications. The Integrated Systems segment develops platform solutions for combating sophisticated security threats and incorporates multiple sensor systems in order to deliver actionable intelligence for wide area surveillance, intrusion detection, and facility security.

Note 18. Business Acquisitions

In December 2012, the Company acquired Lorex Technology Inc. ("Lorex"), a provider of consumer oriented and professional grade video surveillance systems, for approximately \$61.2 million in cash. At December 31, 2012, the Company initially reported the net tangible assets of \$19.1 million in the respective balance sheet accounts and the excess purchase price of \$42.1 million in other assets.

The Company has since performed a preliminary purchase price allocation which resulted in an allocation of \$15.1 million of identifiable intangible assets and \$29.3 million of goodwill in conjunction with the Lorex acquisition, which has been recorded in the Company's Thermal Vision and Measurement business segment as of June 30, 2013. This goodwill consists largely of the ability of Lorex to provide the Company domain knowledge and distribution channels in adjacent security markets. These purchase price adjustments have been applied retrospectively to the December 31, 2012 balance sheet.

The preliminary allocation of the purchase price is as follows (in thousands):

Cash acquired	\$1,170	
Accounts receivable, net	10,183	
Inventories	13,967	
Property and equipment	1,049	
Other assets	3,004

Net deferred taxes	(2,387))
Identifiable intangible assets	15,100	
Goodwill	29,336	
Purchase price	\$61,170	

Certain tax attributes and the related impact on goodwill are pending final valuation and are expected to be finalized by September 30, 2013. None of the goodwill recognized is deductible for income tax purposes.

The identifiable intangible assets and the estimated useful life of each are as follows (in thousands):

	Estimated Useful Life	Amount
Lorex Trade Name	indefinite	\$6,800
Customer Relationships	7 years	8,300
		\$15,100

Also in December 2012, the Company acquired Traficon International NV ("Traficon"), a provider of video image processing software and hardware for traffic analysis applications, for approximately \$46.3 million in cash. At December 31, 2012, the Company initially reported the net tangible assets of \$5.1 million in the respective balance sheet accounts and the excess purchase price of \$41.2 million in other assets.

In April 2013, the Company made an additional payment of \$2.1 million in cash as an adjustment to the purchase price. The Company has performed a preliminary purchase price allocation which resulted in an allocation of \$20.1 million of identifiable intangible assets and \$28.4 million of goodwill in conjunction with the Traficon acquisition, which has been recorded in the Company's Thermal Vision and Measurement business segment as of June 30, 2013. This goodwill consists largely of the ability of Traficon to expand the Company's presence in the global traffic monitoring market through the provision of domain expertise and distribution channels. These purchase price adjustments have been applied retrospectively to the December 31, 2012 balance sheet.

In April 2013, the Company acquired Marine and Remote Sensing Solutions, Ltd. ("MARSS"), a developer of software and sensor control systems for use in maritime security applications, including above and below water port security and ship-based man overboard detection, for approximately \$3.1 million in cash.

The operating results for these acquisitions are included in the Company's 2013 results of operations.

These acquisitions are not significant, either individually or in the aggregate, as defined in Regulation S-X of the Securities and Exchange Commission, compared to the Company's overall financial position.

Note 19. Subsequent Events

On July 18, 2013, the Company's Board of Directors declared a quarterly dividend of \$0.09 per share on its common stock, payable on September 6, 2013, to shareholders of record as of the close of business on August 19, 2013. The total cash payment of this dividend will be approximately \$12.8 million.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

This Quarterly Report on Form 10-Q (the "Report"), including "Management's Discussion and Analysis of Financial Condition and Results of Operations" in Part I, Item 2, contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 regarding future events and the future results of FLIR Systems, Inc. and its consolidated subsidiaries ("FLIR" or the "Company") that are based on management's current expectations, estimates, projections, and assumptions about the Company's business. Words such as "expects," "anticipates," "intends," "plans," "believes," "sees," "estimates" and variations of such words and similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements due to numerous factors including, but not limited to, those discussed in the "Risk Factors" section of the Company's Annual Report on Form 10-K filed for the fiscal year ended December 31, 2012, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in Part I, Item 2, and elsewhere in this Report as well as those discussed from time to time in the Company's other Securities and Exchange Commission filings and reports. In addition, such statements could be affected by general industry and market conditions. Such forward-looking statements speak only as of the date of this Report or, in the case of any document incorporated by reference, the date of that document, and we do not undertake any obligation to update any forward-looking statement to reflect events or circumstances after the date of this Report, or for changes made to this document by wire services or Internet service providers. If we update or correct one or more forward-looking statements, investors and others should not conclude that we will make additional updates or corrections with respect to other forward-looking statements.

Results of Operations

The following discussion of operating results provides an overview of our operations by addressing key elements in our Consolidated Statements of Income. The "Segment Operating Results" section that follows describes the contributions of each of our business segments to our consolidated revenue and earnings from operations. Given the nature of our business, we believe revenue and earnings from operations (including operating margin percentage) are most relevant to an understanding of our performance at a segment level as revenue levels are the most significant indicators of business conditions for each of the respective segments and earnings from operations reflect our ability to manage each of our segments as revenue levels change. Additionally, at the segment level we disclose backlog, which represents orders received for products or services for which a sales agreement is in place and delivery is expected within twelve months.

Revenue. Consolidated revenue for the three months ended June 30, 2013 increased by 15.1 percent year over year, from \$338.3 million in the second quarter of 2012 to \$389.3 million in the second quarter of 2013. Consolidated revenue for the six months ended June 30, 2013 increased by 7.5 percent year over year, from \$686.7 million in the first six months of 2012 to \$737.9 million in the first six months of 2013. Our Thermal Vision and Measurement and Integrated Systems segments reported increases in revenue year over year, while our other three segments reported decreases in year over year revenues. The increase in revenue from our Thermal Vision and Measurement segment was due to revenue from two companies acquired late in 2012, while the increase in revenue from our Integrated Systems segment resulted from significant shipments under two large programs.

The timing of orders, scheduling of backlog and fluctuations in demand in various regions of the world can give rise to quarter to quarter and year over year fluctuations in the mix of revenue. Consequently, year over year comparisons for any given quarter may not be indicative of comparisons using longer time periods. While we currently expect total annual revenue for 2013 to be approximately 10 percent higher than 2012 revenue, unexpected changes in economic conditions from key customer markets or other major unanticipated events may cause total revenue, and the mix of revenue between our segments, to vary from quarter to quarter during the year.

International sales accounted for 45.0 percent and 55.1 percent of total revenue for the quarters ended June 30, 2013 and 2012, respectively, and 47.8 percent and 48.9 percent for the six months ended June 30, 2013 and 2012,

respectively. The proportion of our international revenue compared to total revenue will fluctuate from quarter to quarter due to normal variation in order activity across various regions as well as specific factors that may affect one region and not another. Overall we anticipate that revenue from international sales will continue to comprise a significant percentage of total revenue.

Cost of goods sold. Cost of goods sold for the three and six months ended June 30, 2013 was \$199.3 million and \$363.9 million, respectively, compared to cost of goods sold for the three and six months ended June 30, 2012 of \$168.3 million and \$334.0 million, respectively. The year over year increase in cost of goods sold primarily relates to increases in revenues and changes in product mix.

Gross profit. Gross profit for the quarter ended June 30, 2013 was \$190.0 million compared to \$170.0 million for the same quarter last year. Gross profit for the six months ended June 30, 2013 was \$374.0 million compared to \$352.8 million for the same period of 2012. The increases in gross profit were primarily due to increases in revenues. Gross margin, defined as gross profit divided by revenue, decreased from 50.3 percent in the second quarter of 2012 to 48.8 percent in the second quarter of 2013 and from 51.4 percent in the first six months of 2012 to 50.7 percent in the first six months of 2013. The decreases in gross margins were primarily due to lower gross margins of products sold by Lorex and product mix changes in our Integrated Systems segment.

Research and development expenses. Research and development expenses for the second quarter of 2013 totaled \$39.6 million, compared to \$37.5 million in the second quarter of 2012. Research and development expenses for the first six months of 2013 and 2012 were \$76.3 million and \$74.1 million, respectively. Research and development expenses as a percentage of revenue was 10.2 percent and 10.3 percent for the three and six months ended June 30, 2013, respectively. Research and development expenses as a percentage of revenue was 11.1 percent and 10.8 percent for the three and six months ended June 30, 2012, respectively. Research and development expenses are expected to remain at the upper end of our anticipated long-term research and development spending relative to sales due to the current sluggish revenue environment. Over the five annual periods through December 31, 2012, our annual research and development expenses have varied between 8.0 percent and 9.8 percent of revenue.

Selling, general and administrative expenses. Selling, general and administrative expenses were \$80.2 million for the quarter ended June 30, 2013, compared to \$71.8 million for the quarter ended June 30, 2012. Selling, general and administrative expenses for the first six months of 2013 and 2012 were \$158.3 million and \$149.7 million, respectively. The increases in selling, general and administrative expenses for the second quarter year over year were attributable to the addition of operating expenses of businesses acquired in December of 2012, offset by cost containment efforts taken across the Company in 2012 in response to the lower revenues during that year. Selling, general and administrative expenses as a percentage of revenue were 20.6 percent and 21.2 percent for the quarters ended June 30, 2013 and 2012, respectively and 21.5 percent and 21.8 percent for the six months ended June 30, 2013 and 2012, respectively. Over the past five years, our annual selling, general and administrative expenses have varied between 19.2 percent and 23.8 percent of revenue.

Interest expense. Interest expense for the second quarter and first six months of 2013 was \$3.8 million and \$6.7 million, respectively, compared to \$2.8 million and \$5.8 million for the same periods of 2012. Interest expense is primarily associated with the \$250 million aggregate principal amount of 3.750% senior unsecured Notes due September 1, 2016 issued in August 2011 and the \$150 million term loan that was drawn on April 5, 2013.

Income taxes. The income tax provision of \$16.4 million for the three months ended June 30, 2013 represents a quarterly effective tax rate of 24.7 percent. We expect the annual effective tax rate for the full year of 2013 to be approximately 25 percent, excluding discrete items. The effective tax rate is lower than the US Federal tax rate of 35 percent because of the mix of lower foreign jurisdiction tax rates, the effect of federal, foreign and state tax credits and discrete adjustments.

Segment Operating Results

Thermal Vision and Measurement

Thermal Vision and Measurement operating results are as follows (in millions):

	Three Months Ended		Six Months Ended		
	June 30,		June 30,		
	2013	2012	2013	2012	
Revenue	\$175.0	\$142.6	\$342.4	\$298.4

Operating margin	23.9	% 19.2	% 23.9	% 22.4	%
Backlog, end of period			185	158	

Revenue for the three and six months ended June 30, 2013 increased by 22.7 percent and 14.7 percent, respectively, compared to the same periods of 2012. The increases in the three and six months ended June 30, 2013 are due to the

combined revenue of \$31.6 million and \$53.4 million, respectively, reported by Lorex and Traficon, which were acquired in December 2012. For the six months ended June 30, 2013 there were slightly lower revenues in several of our other product lines, a portion of which was due to lower demand from cores and components customers, including US Government funded customers. The increases in earnings from operations for the three and six months ended June 30, 2013 compared to the same periods of 2012 were primarily due to the cost containment efforts taken during the second quarter of 2012 and the earnings from operations of the acquired

businesses. The rise in backlog at June 30, 2013 compared to June 30, 2012 was a result of the addition of orders reported by Lorex and Traficon, as well as large orders received late in the quarter.

Raymarine operating results are as follows (in millions):

Backlog, end of period			5	6	

Revenue for the three and six months ended June 30, 2013 decreased by 0.6 percent and 2.7 percent, respectively, compared to the same periods of 2012, primarily due to weak market conditions in Europe, partially offset by an increase in revenue from the Asia Pacific region. The increases in earnings from operations for the three and six months ended June 30, 2013 compared to the same periods of 2012 were primarily due to realizing the benefit in 2013 of cost containment efforts taken during the second quarter of 2012 offsetting the slight decline in year over year revenue.

Surveillance

Surveillance operating results are as follows (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,		
	2013	2012	2013	2012

Operating margin	29.8	% 34.2	% 30.7	% 32.3	%
Backlog, end of period			269	249	

Revenue for the three and six months ended June 30, 2013 decreased by 0.7 percent and 2.2 percent, respectively, compared to the same periods of 2012. The decrease in earnings from operations for the three month period was primarily due to slightly lower gross margins due to changes in product mix and increased operating expenses. The decrease in earnings from operations for the six month period was primarily due to decreases in revenues and increased operating expenses.

Detection

Detection operating results are as follows (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,		
	2013	2012	2013	2012	
Revenue	\$14.4	\$15.7	\$26.9	\$35.1

Operating margin	9.2	% (11.2)	% 7.1	% (0.9))%
Backlog, end of period			23	23	

Revenue for the three and six months ended June 30, 2013 decreased by 8.6 percent and 23.3 percent, respectively, compared to the same periods of 2012, which was primarily due to the absence of several large product orders and lower research and development contract revenues due to the timing of programs. Earnings from operations increased for the three and six month periods year over year due to reductions in operating expenses, which included a \$2.2

million restructuring charge in the second quarter of 2012, partially offset by lower revenues.

Revenue for the three and six months ended June 30, 2013 increased by 160.1 percent and 90.8 percent, respectively, compared to the same periods of 2012, which was primarily due to the timing of large program deliveries during the three months ended June 30, 2013. Backlog at June 30, 2013 reflects a decrease of approximately \$15 million compared to June 30, 2012 due to the program deliveries in the three months ended June 30, 2013.

Liquidity and Capital Resources

At June 30, 2013, we had a total of \$492.4 million in cash and cash equivalents, of which \$246.0 million was in the United States and \$246.4 million was at our foreign subsidiaries, compared to cash and cash equivalents at December 31, 2012 of \$321.7 million, of which \$150.3 million was in the United States and \$171.4 million was at our foreign subsidiaries. The increase in cash and cash equivalents was primarily due to \$150 million borrowed against a term loan facility and cash from operations, partially offset by \$116.8 million spent for the repurchase of shares of our common stock, capital expenditures of \$23.3 million, and dividends paid of \$25.9 million during the period.

Cash provided by operating activities totaled \$197.3 million for the six months ended June 30, 2013, which primarily consisted of net earnings, adjusted for non-cash charges for depreciation and amortization and stock-based compensation, and net collections of our accounts receivable, partially offset by net increases in other working capital components.

Cash provided by financing activities totaled \$6.9 million for the six months ended June 30, 2013, which primarily consisted of cash received from the term loan offset by the repurchase of shares of our common stock and the payment of dividends.

On February 8, 2011, we signed a Credit Agreement (“Credit Agreement”) with Bank of America, N.A., U.S. Bank National Association, JPMorgan Chase Bank N.A. and other Lenders. The Credit Agreement provides for a \$200 million, five-year revolving line of credit. On April 5, 2013, the Credit Agreement was amended to extend the maturity of the revolving credit facility from February 8, 2016 to April 5, 2018 in addition to incorporating a \$150 million term loan facility maturing April 5, 2019. We have the right, subject to certain conditions including approval of additional commitments by qualified lenders, to increase the line of credit by an additional \$150 million until April 5, 2018. The Credit Agreement allows us and certain designated subsidiaries to borrow in US dollars, euro, Swedish Kronor, pound sterling and other agreed upon currencies. The Credit Agreement requires us to pay a commitment fee on the amount of unused credit at a rate, based on the Company’s leverage ratio, which ranges from 0.25 percent to 0.40 percent. The Credit Agreement contains two financial covenants that require the maintenance of certain leverage ratios with which we were in compliance at June 30, 2013. The five-year revolving line of credit available under the Credit Agreement and the term loan facility are not secured by any of our assets.

As noted above, the Credit Agreement amendment of April 5, 2013 incorporated a \$150 million term loan facility that matures on April 5, 2019. On April 5, 2013 we drew down \$150 million under the term loan facility. Interest is accrued at the one-month LIBOR rate plus the scheduled spread and paid monthly. By entering into interest rate swap agreements, we have effectively fixed the basis for calculating the interest rate on the term loan. The effective interest rate paid is equal to the fixed rate in the swap agreements plus the credit spread then in effect. At June 30, 2013, the effective interest rate on the term loan was 2.49 percent. Principal payments of \$3.8 million are made in quarterly

installments which commenced on June 30, 2013 and will continue through December 31, 2018 with the final maturity payment including any accrued interest due on April 5, 2019.

At June 30, 2013, we had no amounts outstanding under the Credit Agreement and the commitment fee on the amount of unused credit was 0.25 percent. We had \$12.4 million of letters of credit outstanding at June 30, 2013, which reduced the total available credit under the Credit Agreement.

On August 19, 2011, we issued \$250 million aggregate principal amount of our 3.750% senior unsecured notes due September 1, 2016 (the "Notes"). The net proceeds from the issuance of the Notes were approximately \$247.7 million, after deducting underwriting discounts and offering expenses, which are being amortized over a period of five years. Interest is payable on the Notes semiannually in arrears on March 1 and September 1. The proceeds from the Notes are being used for general corporate purposes, which may include working capital and capital expenditure needs, business acquisitions and repurchases of our common stock.

On February 6, 2013, our Board of Directors authorized the repurchase of up to 25.0 million shares of our outstanding common stock. As of June 30, 2013, there were approximately 20.5 million shares still remaining for repurchase under this authorization, which expires on February 6, 2015.

United States income taxes have not been provided for on accumulated earnings of certain subsidiaries outside of the United States as we currently intend to reinvest the earnings in operations outside the United States indefinitely. Should we subsequently elect to repatriate foreign earnings, we would need to accrue and pay United States income taxes, thereby reducing the amount of our cash.

We believe that our existing cash combined with the cash we expect to generate from operating activities and our available credit facilities and financing available from other sources will be sufficient to meet our cash requirements for the foreseeable future. We do not have any significant capital commitments for the current year nor are we aware of any significant events or conditions that are likely to have a material impact on our liquidity.

Recent Accounting Pronouncements

In February 2013, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2013-02, "Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income" ("ASU 2013-02") which establishes new requirements for disclosing reclassifications of items out of accumulated other comprehensive income and includes identification of the line items in net earnings affected by the reclassifications. ASU 2013-02 is effective for annual and interim periods for fiscal years beginning after December 15, 2012. Accordingly, the Company adopted ASU 2013-02 on January 1, 2013. The Company did not have any reclassifications during the first three months of 2013 that would require additional disclosure under this pronouncement.

In March 2013, the FASB issued Accounting Standards Update No. 2013-05, "Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity" ("ASU 2013-05") which addresses the accounting for the cumulative translation adjustment when a parent either sells a part or all of its investment in a foreign entity or no longer holds a controlling financial interest in a subsidiary or group of assets that is a nonprofit activity or a business within a foreign entity. ASU 2013-05 is effective for annual and interim periods beginning after December 15, 2014. Accordingly, the Company currently intends to adopt ASU 2013-05 on January 1, 2015 and does not expect the adoption of ASU 2013-05 to have a material impact on its consolidated financial statements.

Critical Accounting Policies and Estimates

The Company reaffirms the critical accounting policies and our use of estimates as reported in our Form 10-K for the fiscal year ended December 31, 2012. As described in Note 1, Nature of Business and Significant Accounting Policies," of the Notes to the Consolidated Financial Statements included in the Form 10-K for the fiscal year ended December 31, 2012, the determination of fair value for stock-based compensation awards requires the use of management's estimates and judgments.

Contractual Obligations

As of June 30, 2013, there have been no material changes to our contractual obligations outside the ordinary course of our business since December 31, 2012, other than the \$150 million borrowed under the term loan facility and the related interest as part of the Credit Agreement amendment of April 5, 2013, as discussed above.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As of June 30, 2013, the Company has not experienced any changes in market risk exposure that would materially affect the quantitative and qualitative disclosures about market risk presented in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2012, other than the following:

Interest Rate Risk

Our exposure to changes in market interest rates relates primarily to interest paid on our floating rate long-term debt. Our floating rate long-term debt consists of the \$150 million borrowed under our term loan facility that bears interest at the one-month LIBOR rate plus a scheduled spread. Fluctuations in market interest rates will cause interest expense increases or decreases on such long-term debt.

As our risk management objectives include mitigating the risk of changes in cash flows attributable to changes in the designated one-month LIBOR rate for the term loan facility, we entered into interest rate swaps for the aggregate notional amount of \$150 million and fixed interest rates of 1.016 percent and 0.97 percent effective at the time the term loan was drawn to hedge this exposure. Changes in the cash flows of the interest rate swaps are expected to exactly offset the changes in cash flows attributable to fluctuations in the one-month LIBOR based interest payments. The net effect of these swap agreements is to convert the floating interest rate basis to fixed rates of 1.016 percent and 0.97 percent.

See Note 5, "Derivative Financial Instruments-Interest Rates," Note 11, "Credit Agreements," and Note 13, "Long-Term Debt," of the Notes to the Consolidated Financial Statements and Item 2 of Part I, "Management's Discussion and Analysis of Financial Condition and Results of Operations," for additional information on the Company's interest rate risk.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As of June 30, 2013, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and the Company's Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures, as such term is defined in Rule 13a-15(e). Based on the evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective such that information required to be disclosed by the Company in the reports it files or submits under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms.

Changes in Internal Control Over Financial Reporting

There was no change in the Company's internal control over financial reporting that occurred during the Company's fiscal quarter ended June 30, 2013 that has materially affected, or is reasonably likely to materially affect, such internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company is subject to legal proceedings, claims and litigation arising in the ordinary course of its business. See Note 15, "Contingencies," of the Notes to the Consolidated Financial Statements for additional information on the Company's legal proceedings.

Item 1A. Risk Factors

There has been no material change in the risk factors previously disclosed in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2012, which was filed with the Securities and Exchange Commission on March 1, 2013, other than the following:

We have indebtedness as a result of the issuance of the our 3.75 percent senior unsecured notes due September 1, 2016 (the "Notes") and the borrowing under the term loan facility and are subject to certain restrictive covenants under the indenture governing the Notes (the "Indenture") and the Credit Agreement which may limit our operational and financial flexibility

As of June 30, 2013, we had \$250.0 million outstanding under the Notes and \$146.3 million outstanding under the term loan facility. Our ability to meet our debt service obligations and comply with the financial covenants under the Indenture and the Credit Agreement will be dependent upon our future performance, which will be subject to financial, business and other factors affecting our operations, many of which are beyond our control. Our inability to meet our debt service obligations or comply with the required covenants could result in a default under the Credit Agreement or the Indenture. In the event of any such default under the Credit Agreement, the lenders thereunder could elect to declare all outstanding debt, accrued interest and fees under the facility to be due and immediately payable. In the event of any such default under the Indenture, either the trustee or the holders of at least 25 percent of the outstanding principal amount of the Notes could declare the principal amount of all of the Notes to be due and payable immediately. See Note 11, "Credit Agreements," and Note 13, "Long-Term Debt," of the Notes to the Consolidated Financial Statements and Item 2 of Part I, "Financial Information-Management's Discussion and Analysis of Financial Condition and Results of Operations," for additional information on the Company's indebtedness.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the three months ended June 30, 2013, the Company repurchased the following shares:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽¹⁾	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs ⁽³⁾
April 1 to April 30, 2013 ⁽¹⁾	285,741	\$25.99	285,741	
June 1 to June 30, 2013 ⁽²⁾	350,000	\$24.20	350,000	
Total	635,741	\$25.00	635,741	20,514,479

(1) On February 25, 2013, we entered into an accelerated share repurchase program ("ASR") at a notional amount of \$75.0 million under which we were to receive a number of shares based on the daily volume weighted average price of common stock, less a discount, over a period beginning on the effective date of the ASR and ending on a date no later than May 1, 2013. Under the ASR, we received the minimum number of shares of 2,599,780 on March 6, 2013. The ASR was settled on April 12, 2013 with an additional 285,741 shares delivered on April 17, 2013.

(2) The share repurchases were through open market transactions.

(3) All share repurchases are subject to applicable securities law, and are at times and in amounts as management deems appropriate. On February 6, 2013, our Board of Directors authorized the repurchase of up to 25.0 million shares of our outstanding common stock. This authorization will expire on February 6, 2015.
