Item 1.01. Entry into a Material Definitive Agreement.

On March 2, 2007, New Jersey Resources Corporation (the “Company”), through a wholly-owned subsidiary, entered into a series of agreements (the “Joint Venture Agreements”) with subsidiaries of Spectra Energy Corporation (“Spectra”) to form Steckman Ridge, LP, a joint venture Delaware limited partnership (“Steckman Ridge”). Steckman Ridge was formed to acquire, develop and operate a natural gas storage facility in Bedford County, Pennsylvania; it will have access to the Texas Eastern Transmission, LP pipeline system, which will enable it to serve the Northeastern and Mid-Atlantic regions of the United States. The Company and Spectra will each own 50% of the equity interests in Steckman Ridge and will share equally in funding obligations. Pursuant to the Joint Venture Agreements, each party is required to fund 50% of total acquisition and development costs up to a maximum of \$125 million for each party. Steckman Ridge expects to obtain non-recourse financing for some portion of those development costs; however, no such financing has been obtained as of this date and the Company can make no assurances that Steckman Ridge will be able to obtain such financing in the future.
