Additional Information:

Calculation of Interest

Each Note will bear interest at the Interest Rate Per Annum. Interest on the Notes will be calculated by applying the Interest Rate Per Annum to the principal amount of the Notes, multiplying such sum by the Applicable Day Count Fraction, and rounding the resultant figure to the nearest cent, half a cent being rounded upwards.

"Actual/Actual (ICMA)" means, where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the "Calculation Period") is equal to or shorter than the Determination Period (as defined below) during which the Calculation Period ends, the number of days in such Calculation Period divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Dates that would occur in one calendar year, assuming interest was to be payable in respect of the whole of that year.

"Determination Dates" mean April 10 and December 10 in each year.

"Determination Period" means the period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date).

"Interest Commencement Date" means the Original Issue Date.

General

At December 31, 2006, the Company had outstanding indebtedness totaling \$425.713 billion, consisting of notes payable within one year, senior notes payable after one year and subordinated notes payable after one year. The total amount of outstanding indebtedness at December 31, 2006, excluding subordinated notes payable after one year, was equal to \$420.811 billion.

Consolidated Ratio of Earnings to Fixed Charges

The information contained in the Prospectus under the caption "Consolidated Ratio of Earnings to Fixed Charges" is hereby amended in its entirety, as follows:

Year Ended December 31

<u>2002</u>	<u>2003</u>	<u>2004</u>	<u>2005</u>	<u>2006</u>
1.43	1.77	1.87	1.70	1.64

For purposes of computing the consolidated ratio of earnings to fixed charges, earnings consist of net earnings adjusted for the provision for income taxes, minority interest and fixed charges.

Fixed charges consist of interest and discount on all indebtedness and one-third of rentals, which the Company believes is a reasonable approximation of the interest factor of such rentals.
