We will use the net proceeds (approximately \$605,312,500 after deducting underwriting discounts, commissions and expenses or approximately \$696,109,375 if the underwriters exercise their over-allotment option in full) for general corporate purposes, including the repayment of existing indebtedness.

S-3

DESCRIPTION OF THE BONDS

General

The following description of the particular terms of the Bonds offered hereby supplements and, to the extent that the terms are inconsistent, replaces the description of the general terms and provisions of the Debt Securities set forth in the accompanying prospectus. The Bonds are part of the Debt Securities registered by GM in May 2001 to be issued on terms to be determined at the time of sale.

The Bonds offered hereby will be issued in an initial aggregate principal amount of \$625,000,000 pursuant to an Indenture dated as of December 7, 1995, between us and Citibank, N.A. (the "Trustee"), which is more fully described in the accompanying prospectus and the Bonds have been authorized and approved by resolution of our Board of Directors.

The Indenture and the Bonds are governed by, and construed in accordance with, the laws of the State of New York, United States.

The Bonds will be unsecured obligations of GM and will rank equally with all other unsecured and unsubordinated indebtedness of GM. The Bonds will mature on July 15, 2041. The Bonds are expected to be listed on the New York Stock Exchange. The Bonds will bear interest, calculated on the basis of a 360-day year consisting of twelve 30 day months, from July 9, 2001 at a rate of 7.25% per annum, payable on January 15, April 15, July 15 and October 15 of each year, the first payment to be made on October 15, 2001, to the person in whose name the Bonds are registered at the close of business on the last day of the month preceding such January 15, April 15, July 15 or October 15.

If any January 15, April 15, July 15 or October 15 falls on a day that is not a Business Day, then payment of interest will be made on the next succeeding Business Day with the same force and effect as if made on such date.

The Bonds will be issued in book-entry form. See "Book-Entry, Delivery and Form" in the accompanying prospectus.

Edgar Filing: GENERAL MOTORS CORP - Form 424B2

We may from time to time, without notice to or the consent of the registered holders of the Bonds, create and issue further Bonds ranking pari passu with the Bonds in all respects, or in all respects except for the payment of interest accruing prior to the issue date of such further Bonds or except for the first payment of interest following the issue date of such further Bonds. Such further Bonds may be consolidated and form a single series with the Bonds and have the same terms as to status, redemption or otherwise as the Bonds.

Optional Redemption

We may not redeem the Bonds before July 15, 2006, except for tax reasons as described below under "Redemption for Tax Reasons." On and after July 15, 2006, we may redeem the Bonds, at our option and at any time, in whole or in part at a redemption price equal to 100% of their principal amount plus accrued and unpaid interest up to but not including the date of redemption.

S-4

Redemption for Tax Reasons

We may elect to redeem the Bonds, in whole but not in part, at any time at a redemption price of 100% of their principal amount, plus accrued and unpaid interest up to but not including the redemption date, if on or after July 9, 2001, a change in the U.S. tax laws results in a substantial likelihood that we will not be able to deduct the full amount of interest accrued on the Bonds for U.S. federal income tax purposes.

The Bonds describe a change in tax laws broadly and permit us to redeem because of:

- o any actual or proposed change in or amendment to the laws of the U.S. or regulations or rulings promulgated under those laws;
- o any change in the way those laws, rulings or regulations are interpreted, applied or enforced;
- o any action taken by a taxing authority that applies to us;
- o any court decision, whether or not in a proceeding involving us; or
- o any technical advice memorandum, letter ruling or administrative pronouncement issued by the U.S. Internal Revenue Service, based on a fact pattern substantially similar to ours.

Selection and Notice

We will mail notices of redemption by first-class mail at least 30 and not more than 60 days prior to the date fixed for redemption to each registered holder of the Bonds to be redeemed at its registered address. If we redeem less than all of the Bonds at any time, the trustee will select the Bonds to be redeemed on a pro rata basis, by lot or by such other method directed by us. The trustee will make that selection not more than 45 days before the redemption date.

Trading Characteristics

We expect the Bonds to trade at a price that takes into account the value, if any, of accrued but unpaid interest. This means that purchasers will not pay, and sellers will not receive, accrued and unpaid interest on the Bonds that is not included in their trading price. Any portion of the trading price of a Bond

Edgar Filing: GENERAL MOTORS CORP - Form 424B2

that is attributable to accrued interest will be treated as ordinary interest income for federal income tax purposes and will not be treated as part of the amount realized for purposes of determining gain or loss on the disposition of the Bonds. See "U.S. Tax Considerations" below.

S-5

U.S. TAX CONSIDERATIONS

The following summary describes the material U.S. federal income and certain estate tax consequences of ownership and disposition of the Bonds to an initial investor purchasing a Bond at its "issue price" that is, the first price to the public at which a substantial amount of the Bonds in an issue is sold (excluding sales to bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers). This summary is based on the Internal Revenue Code of 1986, as amended to the date hereof (the "Code"), administrative pronouncements, judicial decisions and existing and proposed Treasury regulations, and interpretations of the foregoing, changes to any of which subsequent to the date of this prospectus supplement may affect the tax consequences described herein, possibly with retroactive effect. This summary discusses only Bonds held as capital assets within the meaning of Section 1221 of the Code. It does not discuss all of the tax consequences that may be relevant to holders in light of their particular circumstances or to holders subject to special rules, such as certain financial institutions, insurance companies, dealers in securities, partnerships or other entities classified as partnerships for U.S. federal income tax purposes, persons holding Bonds in connection with a hedging transaction, "straddle," conversion transaction or other integrated transaction, or persons who have ceased to be U.S. citizens or to be taxed as resident aliens.

Prospective investors should consult their tax advisers with regard to the application of U.S. federal tax laws to their particular situations, as well as any tax consequences arising under the laws of any state, local or foreign taxing jurisdiction.

U.S. Holders

"U.S. Holder" means a beneficial owner of a Bond that is, for U.S. federal income tax purposes, (i) a citizen or resident of the U.S., (ii) a corporation or other entity treated as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the U.S. or any political subdivision, (iii) an estate the income of which is subject to U.S. federal income taxation regardless of its source, (iv) a trust if (a) a court within the United States is able to exercise primary supervision over the administration of the trust and (b) one or more United States persons have the authority to control all substantial decisions of the trust, or (v) any other holder whose income with respect to a Bond is effectively connected with such holder's conduct of a U.S. trade or business.

Payments of Interest

GM intends to treat the Bonds as debt obligations of GM for U.S. federal income tax purposes. Stated interest on a Bond will be taxable to a U.S. Holder as ordinary interest income at the time it accrues or is received, in accordance with the U.S. Holder's method of accounting for tax purposes.

Sale, Exchange or Retirement

Edgar Filing: GENERAL MOTORS CORP - Form 424B2

Upon the sale, exchange or retirement of a Bond, a U.S. Holder will recognize taxable gain or loss equal to the difference between the U.S. Holder's adjusted tax basis in the Bond and the amount realized on the sale, exchange or retirement. For these purposes, the amount realized does not include unpaid interest that has accrued to the date of sale but has not previously been included in income. (See "Description of the Bonds --- Trading Characteristics.") Such amounts are treated as interest as described under "Payment of Interest" above.

A U.S. Holder's adjusted tax basis in a Bond will generally equal the cost of the Bond to the U.S. Holder. Gain or loss realized on the sale, exchange or retirement of a Bond will be capital gain or loss. Prospective investors should consult their tax advisers regarding the treatment of capital gains (which may be taxed at lower rates than ordinary income for taxpayers who are individuals, trusts or estates and have held their Bonds for more than one year) and losses (the deductibility of which is subject to limitations).

S-6

Non-U.S. Holders

"Non-U.S. Holder" means a beneficial owner of a Bond that is, for U.S. federal income tax purposes, (i) a nonresident alien individual, (ii) a foreign corporation or (iii) a nonresident alien fiduciary of a foreign estate or trust.

Under present U.S. federal tax law, and subject to the discussion below concerning backup withholding:

- (a) Payments of principal, interest and premium on the Bonds to any Non-U.S. Holder will be exempt from the 30% U.S. federal withholding tax, provided that in the case of interest, the Non-U.S. Holder does not own, actually or constructively, 10% or more of the total combined voting power of all classes of GM stock entitled to vote, is not a controlled foreign corporation related, directly or indirectly, to GM through stock ownership, and is not a bank receiving certain types of interest. Interest will not, however, be exempt from withholding tax unless the beneficial owner of the Bond certifies, generally on Internal Revenue Service ("IRS") Form W-8BEN, under penalties of perjury that it is not a U.S. person. Prospective investors, including foreign partnerships and their partners, should consult their tax advisers regarding possible additional reporting requirements;
- (b) a Non-U.S. Holder of a Bond will not be subject to U.S. federal income tax on gain realized on the sale, exchange or other disposition of the Bond, unless (i) the Non-U.S. Holder is an individual who is present in the U.S. for 183 days or more in the taxable year of the disposition, and either the gain is attributable to an office or other fixed place of business maintained by the individual in the U.S. or, generally, the individual has a "tax home" in the U.S., or (ii) the gain is effectively connected with the Non-U.S. Holder's conduct of a trade or business in the U.S.; and
- (c) a Bond held by an individual who is not, for U.S. estate tax purposes, a resident or citizen of the U.S. at the time of his death generally will not be subject to U.S. federal estate tax as a result of the individual's death, provided that the individual does not own, actually or constructively, 10% or more of the total combined voting power of all classes of GM stock entitled to vote

Edgar Filing: GENERAL MOTORS CORP - Form 424B2

and, at the time of the individual's death, payments with respect to the Bond would not have been effectively connected to the conduct by the individual of a trade or business in the U.S.

If a Non-U.S. Holder of a Bond is engaged in a trade or business in the U.S., and if interest on the Bond (or gain realized on its sale, exchange or other disposition) is effectively connected with the conduct of the trade or business, the Non-U.S. Holder, although exempt from the withholding tax discussed in the preceding paragraphs, will be subject to regular U.S. income tax on the effectively connected income, generally in the same manner as if it were a U.S. Holder. See "U.S. Holders" above. In lieu of Form W-8BEN, such a non-U.S. Holder will be required to provide to the withholding agent with a properly executed IRS Form W-8ECI to claim an exemption from withholding tax. In addition, if the Non-U.S. Holder is a foreign corporation, it may be subject to a 30% branch profits tax (unless reduced or eliminated by an applicable treaty) on its earnings and profits for the taxable year attributable to the effectively connected income, subject to certain adjustments.

Backup Withholding and Information Reporting

U.S. Holders

Backup withholding tax (at rates specified in the Code) and information reporting requirements apply to certain payments of principal of and interest on a Bond, and to proceeds of disposition of a Bond, to certain noncorporate U.S. Holders if such holders fail to provide correct taxpayer identification numbers and other information or fail to comply with certain other requirements. GM, its paying agent, or a broker, as the case may be, will be required to withhold from any payment that is subject to backup withholding unless the holder furnishes its taxpayer identification number in the manner prescribed in applicable Treasury regulations (generally on an IRS Form W-9) and certain other conditions are met.

S-7

Non-U.S. Holders

Backup withholding will not apply to payments of interest made on a Bond or to proceeds from a sale or other disposition of a Bond if the certifications required to claim the exemption from withholding tax or interest described above are received, provided that GM or its paying agent, as the case may be, do not have actual knowledge that the payee is a U.S. person.

Holders of Bonds should consult their tax advisers regarding the application of information reporting and backup withholding in their particular situations, the availability of an exemption therefrom and the procedure for obtaining such an exemption, if available. Backup withholding is not an additional tax. Any amounts withheld from a payment to a holder under the backup withholding rules will be allowed as a credit against such holder's U.S. federal income tax liability and may entitle the holder to a refund, provided that the required information is furnished to the IRS.

The Representatives of the underwriters have advised us that the underwriters propose initially to offer the Bonds to the public at the offering price set forth on the cover page of this prospectus supplement and to certain securities dealers at such price less a concession of \$ 0.50 per Bond. The underwriters may allow, and such dealers may reallow a concession not in excess of \$0.45 per Bond to certain brokers and dealers. After the initial public offering, the public offering price and concession may be changed.

We have granted the underwriters a right to request from us the opportunity to purchase up to an additional \$ 93,750,000 aggregate principal amount of Bonds to cover overallotments, if any, at the initial offering price to the public less the underwriting discounts set forth above and within 30 days from the date of this prospectus supplement. Whether or not to approve the underwriters' request is totally at our discretion. To the extent that we approve of the exercise of such option and the underwriters exercise such option, each of the underwriters will have a firm commitment, subject to certain conditions, to purchase from us approximately the same percentages of the aggregate principal amount of Bonds as the amount set forth next to such underwriter's name in the above table bears to the aggregate principal amount of Bonds set forth as the total to be purchased in the above table.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended.

Prior to the offering, there has been no public market for the Bonds. We intend to list the Bonds on the New York Stock Exchange, and we expect trading in the Bonds on the New York Stock Exchange to begin within 30 days after the original issue date. In order to meet one of the requirements for listing the

Edgar Filing: GENERAL MOTORS CORP - Form 424B2

Bonds, the underwriters will undertake to sell lots of 100 or more Bonds to a minimum of 400 beneficial holders.

The Bonds are a new issue of securities with no established trading market. The underwriters have advised us that the underwriters intend to make a market in the Bonds but are not obligated to do so and may discontinue market making at any time without notice. Neither we nor the underwriters can assure you that the trading market for the Bonds will be liquid.

S-10

In connection with the sale of the Bonds, certain of the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the Bonds. Specifically, the underwriters may overallocate the offering, creating a short position. In addition, the underwriters may bid for and purchase the Bonds in the open market to cover short positions or to stabilize the price of the Bonds. Any of these activities may stabilize or maintain the market price of the Bonds above independent market levels. The underwriters will not be required to engage in these activities, and may end any of these activities at any time.

We will deliver the Bonds to the underwriters at the closing of this offering when the underwriters pay us the purchase price of the Bonds. The underwriting agreement provides that the closing will occur on July 9, 2001, which is six business days after the date of this prospectus supplement. Rule 15c6-1 under the Securities Exchange Act of 1934 generally requires that securities trades in the secondary market settle in three business days, unless the parties to a trade expressly agree otherwise.

John H. Bryan, a director of Bank One Corporation, of which Banc One Capital Markets, Inc. is a direct wholly-owned subsidiary, is a director of GM. Lloyd D. Ward, a director of J.P. Morgan Chase & Co., of which J.P. Morgan Securities Inc. is an indirect subsidiary, is a director of GM. In the ordinary course of their respective businesses, the agents and their affiliates have engaged, and will in the future engage, in commercial banking and investment banking transactions with GM and certain of our affiliates for which they have received customary fees and expenses.

DESCRIPTION OF GENERAL MOTORS CORPORATION

General Motors is primarily engaged in the automotive and, through our wholly-owned Hughes subsidiary, the communications services industries. We are the world's largest manufacturer of automotive vehicles. We also have financing and insurance operations and, to a lesser extent, are engaged in other industries.

Our automotive segment is comprised of four regions:

- o GM North America;
- o GM Europe;
- o GM Latin America/Africa/Mid-East; and

Edgar Filing: GENERAL MOTORS CORP - Form 424B2

o GM Asia Pacific.

GM North America designs, manufactures and markets vehicles primarily in North America under the following nameplates:

o Chevrolet o GMC o Buick o Saturn
o Pontiac o Oldsmobile o Cadillac

GM Europe, GM Latin America/Africa/Mid-East, and GM Asia Pacific meet the demands of customers outside North America with vehicles designed, manufactured and marketed under the following nameplates:

o Opel o Holden o Saab o GMC o Buick
o Vauxhall o Isuzu o Chevrolet o Cadillac

We participate in the communications services industry through our Hughes subsidiary, which is a leading global provider of digital entertainment services, information and communications services and satellite-based private business networks.

Our financing and insurance operations primarily relate to General Motors Acceptance Corporation, which provides a broad range of financial services, including consumer vehicle financing, full-service leasing and fleet leasing, dealer financing, car and truck extended service contracts, residential and commercial mortgage services, commercial vehicle and homeowner's insurance and asset-based lending. Our other industrial operations include the design, manufacturing and marketing of locomotives and heavy-duty transmissions.

Substantially all of our automotive-related products are marketed through retail dealers and through distributors and jobbers in the United States, Canada and Mexico, and through distributors and dealers overseas. At December 31, 2000, there were approximately 8,000 GM vehicle dealers in the United States, 840 in Canada and 155 in Mexico. Additionally, there were a total of approximately 11,220 outlets overseas which include dealers and authorized sales, service and parts outlets.

RATIO OF EARNINGS TO FIXED CHARGES

Years Ended December 31, -----				
2000	1999	1998	1997	1996
----	----	----	----	----
1.71	2.12	1.72	2.22	1.96

We compute the ratio of earnings to fixed charges by dividing earnings before income taxes and fixed charges by the fixed charges. This ratio includes the earnings and fixed charges of GM and its consolidated subsidiaries. Fixed charges consist of interest and discount and the portion of rentals for real and personal properties in an amount deemed to be representative of the interest factor.

USE OF PROCEEDS

We will add the net proceeds from the sale of the securities to our general funds and they will be available for general corporate purposes, including the repayment of existing indebtedness.

Edgar Filing: GENERAL MOTORS CORP - Form 424B2

DESCRIPTION OF DEBT SECURITIES

The debt securities offered are to be issued under an Indenture dated as of December 7, 1995, between us and Citibank, N.A., as Trustee (the "Trustee"), a copy of which is filed as an exhibit to the registration statement. The following summaries of certain provisions of the Indenture are not complete and are subject to all provisions of the Indenture, including the definition of certain terms.

The Indenture provides that, in addition to the debt securities being offered, additional debt securities may be issued without limitation as to aggregate principal amount, but only as authorized by our Board of Directors.

General

Reference is made to the accompanying prospectus supplement for the following terms of the debt securities being offered:

- o the designation of the debt securities;
- o the aggregate principal amount of the debt securities;
- o the percentage of their principal amount at which the debt securities will be issued;
- o the date or dates on which the debt securities will mature;
- o the rate or rates per annum, if any, at which the debt securities will bear interest;
- o the times at which the interest will be payable;
- o the date after which the debt securities may be redeemed and the redemption price;
- o the currency or currencies in which the debt securities are issuable or payable;
- o the exchanges on which the debt securities may be listed; and
- o whether the debt securities shall be issued in book-entry form.

Principal and interest, if any, will be payable, and, unless the debt securities are issued in book-entry form, the debt securities being offered will be transferable, at the principal corporate trust office of the Trustee, which at the date hereof is 111 Wall Street, New York, New York 10043, provided that payment of interest may be made at our option by check mailed to the address of the person entitled thereto.

5

The debt securities will be unsecured and unsubordinated and will rank pari passu with all our other unsecured and unsubordinated obligations (other than obligations preferred by mandatory provisions of law).

Some of the debt securities may be issued as discounted debt securities, bearing no interest or interest at a rate, which at the time of issuance, is below market rates, to be sold at a substantial discount below their stated principal amount. Federal income tax consequences and other special considerations applicable to any such discounted debt securities will be described in the accompanying prospectus supplement.

Debt securities will include debt securities denominated in United States dollars or, at our option if so specified in the accompanying prospectus supplement, in any other freely transferable currency.

If a prospectus supplement specifies that debt securities are denominated in a currency other than United States dollars, the prospectus supplement will also specify the denomination in which such debt securities will be issued and

Edgar Filing: GENERAL MOTORS CORP - Form 424B2

the coin or currency in which the principal, premium, if any, and interest on the debt securities, where applicable, will be payable, which may be United States dollars based upon the exchange rate for such other currency existing on or about the time a payment is due.

If a prospectus supplement specifies that the debt securities will have a redemption option, the "Option to Elect Repurchase" constitutes an issuer tender offer under the Exchange Act. We will comply with all issuer tender offer rules and regulations under the Exchange Act, including Rule 14e-1, if such redemption option is elected. We will make any required filings with the Commission and furnish certain information to the holders of the debt securities.

Book-Entry, Delivery and Form

Unless otherwise indicated in the accompanying prospectus supplement, the debt securities will be issued in the form of one or more fully registered global securities (collectively, the "Global Debt Security") which will be deposited with, or on behalf of, The Depository Trust Company, New York, New York (the "Depository" or "DTC") and registered in the name of the Depository's nominee. Except as set forth below, the Global Debt Security may be transferred, in whole and not in part, only to another nominee of the Depository or to a successor of the Depository or its nominee.

The Depository has advised as follows: it is a limited-purpose trust company which was created to hold securities for its participating organizations and to facilitate the clearance and settlement of securities transactions between participants in such securities through electronic book-entry changes in accounts of its participants. Participants include:

- o securities brokers and dealers, including the underwriters named in the accompanying prospectus supplement;
- o banks and trust companies;
- o clearing corporations; and
- o certain other organizations.

Access to the Depository's system is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly. Persons who are not participants may beneficially own securities held by the Depository only through participants or indirect participants.

The Depository advises that pursuant to procedures established by it:

- o upon issuance of the debt securities by us, the Depository will credit the account of participants designated by the underwriters with the principal amounts of the debt securities purchased by the underwriters; and

6

- o ownership of beneficial interests in the Global Debt Security will be shown on, and the transfer of that ownership will be effected only through, records maintained by the Depository (with respect to participants' interests), the participants and the indirect participants (with respect to the owners of beneficial interests in the Global Debt Security).

The laws of some states require that certain persons take physical delivery in definitive form of securities which they own. Consequently, the ability to transfer beneficial interests in the Global Debt Security is limited to such extent.

Edgar Filing: GENERAL MOTORS CORP - Form 424B2

As long as the Depositary's nominee is the registered owner of the Global Debt Security, such nominee for all purposes will be considered the sole owner or holder of the debt securities under the Indenture. Except as provided below, you will not:

- o be entitled to have any of the debt securities registered in your name;
- o receive or be entitled to receive physical delivery of the debt securities in definitive form; or
- o be considered the owners or holders of the debt securities under the Indenture.

Neither we, the Trustee, any Paying Agent nor the Depositary will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests of the Global Debt Security, or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Principal and interest payments on the debt securities registered in the name of the Depositary's nominee will be made by the Trustee to the Depositary's nominee as the registered owner of the Global Debt Security. Under the terms of the Indenture, we and the Trustee will treat the persons in whose names the debt securities are registered as the owners of the debt securities for the purpose of receiving payment of principal and interest on the debt securities and for all other purposes whatsoever. Therefore, we do not have, and neither the Trustee nor any Paying Agent has, any direct responsibility or liability for the payment of principal or interest on the debt securities to owners of beneficial interests in the Global Debt Security. The Depositary has advised us and the Trustee that its present practice is, upon receipt of any payment of principal or interest, to immediately credit the accounts of the Participants with such payment in amounts proportionate to their respective holdings in principal amount of beneficial interests in the Global Debt Security as shown on the records of the Depositary. Payments by participants and indirect participants to owners of beneficial interests in the Global Debt Security will be the responsibility of such participants and indirect participants and will be governed by their standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in "street name".

If the Depositary is at any time unwilling or unable to continue as depositary and we have not appointed a successor depositary within 90 days, we will issue debt securities in definitive form in exchange for the Global Debt Security. In addition, we may at any time determine not to have the debt securities represented by the Global Debt Security and, in such event, will issue debt securities in definitive form in exchange for the Global Debt Security. In either instance, an owner of a beneficial interest in a Global Debt Security will be entitled to have debt securities equal in principal amount to the beneficial interest registered in its name and will be entitled to physical delivery of the debt securities in definitive form. Debt securities so issued in definitive form will be issued in denominations of \$1,000 and integral multiples thereof and will be issued in registered form only, without coupons. No service charge will be made for any transfer or exchange of the debt securities, but we may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection therewith.

Certain Covenants

DEFINITIONS APPLICABLE TO COVENANTS. The following definitions shall be applicable to the covenants specified below:

(i) "Attributable Debt" means, at the time of determination as to any lease, the present value (discounted at the actual rate, if stated, or, if no rate is stated, the implicit rate of interest of such lease transaction as determined by the chairman, president, any vice chairman, any vice president, the treasurer or any assistant treasurer of GM), calculated using the interval of scheduled rental payments under such lease, of the obligation of the lessee for net rental payments during the remaining term of such lease (excluding any subsequent renewal or other extension options held by the lessee). The term "net rental payments" means, with respect to any lease for any period, the sum of the rental and other payments required to be paid in such period by the lessee thereunder, but not including, however, any amounts required to be paid by such lessee (whether or not designated as rental or additional rental) on account of maintenance and repairs, insurance, taxes, assessments, water rates, indemnities or similar charges required to be paid by such lessee thereunder or any amounts required to be paid by such lessee thereunder contingent upon the amount of sales, earnings or profits or of maintenance and repairs, insurance, taxes, assessments, water rates, indemnities or similar charges; provided, however, that, in the case of any lease which is terminable by the lessee upon the payment of a penalty in an amount which is less than the total discounted net rental payments required to be paid from the later of the first date upon which such lease may be so terminated and the date of the determination of net rental payments, "net rental payments" shall include the then-current amount of such penalty from the later of such two dates, and shall exclude the rental payments relating to the remaining period of the lease commencing with the later of such two dates.

(ii) "Debt" means notes, bonds, debentures or other similar evidences of indebtedness for money borrowed.

(iii) "Manufacturing Subsidiary" means any Subsidiary (A) substantially all the property of which is located within the continental United States of America, (B) which owns a Principal Domestic Manufacturing Property and (C) in which GM's investment, direct or indirect and whether in the form of equity, debt, advances or otherwise, is in excess of \$2,500,000,000 as shown on the books of GM as of the end of the fiscal year immediately preceding the date of determination; provided, however, that "Manufacturing Subsidiary" shall not include Hughes Electronics Corporation and its Subsidiaries, General Motors Acceptance Corporation and its Subsidiaries (or any corporate successor of any of them) or any other Subsidiary which is principally engaged in leasing or in financing installment receivables or otherwise providing financial or insurance services to GM or others or which is principally engaged in financing GM's operations outside the continental United States of America.

(iv) "Mortgage" means any mortgage, pledge, lien, security interest, conditional sale or other title retention agreement or other similar encumbrance.

(v) "Principal Domestic Manufacturing Property" means any manufacturing plant or facility owned by GM or any Manufacturing Subsidiary which is located within the continental United States of America and, in the opinion of the Board of Directors, is of material importance to the total business conducted by GM and its consolidated affiliates as an entity.

(vi) "Subsidiary" means any corporation of which at least a majority of the outstanding stock having by the terms thereof ordinary voting power to elect a majority of the board of directors of such corporation (irrespective of whether or not at the time stock of any other class or classes of such

Edgar Filing: GENERAL MOTORS CORP - Form 424B2

corporation shall have or might have voting power by reason of the happening of any contingency) is at the time owned by GM, or by one or more Subsidiaries, or by GM and one or more Subsidiaries.

LIMITATION ON LIENS. For the benefit of the Debt Securities, GM will not, nor will it permit any Manufacturing Subsidiary to, issue or assume any Debt secured by a Mortgage upon any Principal Domestic Manufacturing Property of GM or any

8

Manufacturing Subsidiary or upon any shares of stock or indebtedness of any Manufacturing Subsidiary (whether such Principal Domestic Manufacturing Property, shares of stock or indebtedness are now owned or hereafter acquired) without in any such case effectively providing concurrently with the issuance or assumption of any such Debt that the Debt Securities (together with, if GM shall so determine, any other indebtedness of GM or such Manufacturing Subsidiary ranking equally with the Debt Securities and then existing or thereafter created) shall be secured equally and ratably with such Debt, unless the aggregate amount of Debt issued or assumed and so secured by Mortgages, together with all other Debt of GM and its Manufacturing Subsidiaries which (if originally issued or assumed at such time) would otherwise be subject to the foregoing restrictions, but not including Debt permitted to be secured under clauses (i) through (vi) of the immediately following paragraph, does not at the time exceed 20% of the stockholders' equity of GM and its consolidated subsidiaries, as determined in accordance with accounting principles generally accepted in the U.S. and shown on the audited consolidated balance sheet contained in the latest published annual report to the stockholders of GM.

The above restrictions shall not apply to Debt secured by:

(i) Mortgages on property, shares of stock or indebtedness of any corporation existing at the time such corporation becomes a Manufacturing Subsidiary;

(ii) Mortgages on property existing at the time of acquisition of such property by GM or a manufacturing Subsidiary, or Mortgages to secure the payment of all or any part of the purchase price of such property upon the acquisition of such property by GM or a manufacturing Subsidiary or to secure any Debt incurred prior to, at the time of, or within 180 days after, the later of the date of acquisition of such property and the date such property is placed in service, for the purpose of financing all or any part of the purchase price thereof, or Mortgages to secure any Debt incurred for the purpose of financing the cost to GM or a Manufacturing Subsidiary of improvements to such acquired property;

(iii) Mortgages securing Debt of a Manufacturing Subsidiary owing to GM or to another Subsidiary;

(iv) Mortgages on property of a corporation existing at the time such corporation is merged or consolidated with GM or a Manufacturing Subsidiary or at the time of a sale, lease or other disposition of the properties of a corporation as an entirety or substantially as an entirety to GM or a Manufacturing Subsidiary;

(v) Mortgages on property of GM or a Manufacturing Subsidiary in favor of the United States of America or any State thereof, or any department, agency or instrumentality or political subdivision of the United States of America or any State thereof, or in favor of any other country, or any political subdivision thereof, to secure partial, progress, advance or other payments pursuant to any contract or statute or to secure any indebtedness incurred for the purpose of financing all or any part of the purchase price or the cost of construction of

Edgar Filing: GENERAL MOTORS CORP - Form 424B2

the property subject to such Mortgages; or

(vi) any extension, renewal or replacement (or successive extensions, renewals or replacements) in whole or in part of any Mortgage referred to in the foregoing clauses (i) to (v); provided, however, that the principal amount of Debt secured thereby shall not exceed by more than 115% the principal amount of Debt so secured at the time of such extension, renewal or replacement and that such extension, renewal or replacement shall be limited to all or a part of the property which secured the Mortgage so extended, renewed or replaced (plus improvements on such property).

LIMITATION ON SALE AND LEASE-BACK. For the benefit of the Debt Securities, GM will not, nor will it permit any Manufacturing Subsidiary to, enter into any arrangement with any person providing for the leasing by GM or any Manufacturing Subsidiary of any Principal Domestic Manufacturing Property owned by GM or any Manufacturing Subsidiary on the date that the Debt Securities are originally issued (except for temporary leases for a term of not more than five years and except for leases between GM and a Manufacturing Subsidiary or between

9

Manufacturing Subsidiaries), which property has been or is to be sold or transferred by GM or such Manufacturing Subsidiary to such person, unless either:

(i) GM or such Manufacturing Subsidiary would be entitled, pursuant to the provisions of the covenant on limitation on liens described above, to issue, assume, extend, renew or replace Debt secured by a Mortgage upon such property equal in amount to the Attributable Debt in respect of such arrangement without equally and ratably securing the Debt Securities; provided, however, that from and after the date on which such arrangement becomes effective the Attributable Debt in respect of such arrangement shall be deemed for all purposes under the covenant on limitation on liens described above and this covenant on limitation on sale and lease-back to be Debt subject to the provisions of the covenant on limitation on liens described above (which provisions include the exceptions set forth in clauses (i) through (vi) of such covenant); or

(ii) GM shall apply an amount in cash equal to the Attributable Debt in respect of such arrangement to the retirement (other than any mandatory retirement or by way of payment at maturity), within 180 days of the effective date of any such arrangement, of Debt of GM or any Manufacturing Subsidiary (other than Debt owned by GM or any Manufacturing Subsidiary) which by its terms matures at or is extendible or renewable at the option of the obligor to a date more than twelve months after the date of the creation of such Debt.

Defeasance

If the terms of a particular series of Debt Securities so provide, we may, at our option, (a) discharge its indebtedness and its obligations under the Indenture with respect to such series or (b) not comply with certain covenants contained in the Indenture with respect to such series, in each case by depositing funds or obligations issued or guaranteed by the United States of America with the Trustee. The Prospectus Supplement will more fully describe the provisions, if any, relating to such defeasance.

Merger and Consolidation

The Indenture provides that we will not merge or consolidate with another corporation or sell or convey all or substantially all of our assets unless either we are the continuing corporation or the new corporation shall expressly assume the interest and principal due under the securities. In either case, the Indenture provides that neither we nor a successor corporation may be in default

Edgar Filing: GENERAL MOTORS CORP - Form 424B2

of performance immediately after a merger or consolidation. Additionally, the Indenture provides that in the case of any such merger or consolidation, either we or the successor company may continue to issue securities under the Indenture.

Modification of the Indenture

The Indenture contains provisions permitting us and the Trustee to modify or amend the Indenture or any supplemental indenture or the rights of the holders of the debt securities issued thereunder, with the consent of the holders of not less than 66 2/3% in aggregate principal amount of the debt securities of all series at the time outstanding under such Indenture which are affected by such modification or amendment, voting as one class, provided that no such modification shall:

- o extend the fixed maturity of any debt securities, or reduce the principal amount thereof, or premium, if any, or reduce the rate or extend the time of payment of interest thereon, without the consent of the holder of each debt security so affected; or
- o reduce the aforesaid percentage of debt securities, the consent of the holders of which is required for any such modification, without the consent of the holders of all debt securities then outstanding under the Indenture.

10

Events of Default

An Event of Default with respect to any series of debt securities issued subject to the Indenture is defined in the Indenture as being:

- o default in payment of any principal or premium, if any, on such series;
- o default for 30 days in payment of any interest on such series;
- o default for 30 days after notice in performance of any other covenant in the Indenture; or
- o certain events of bankruptcy, insolvency or reorganization.

No Event of Default with respect to a particular series of debt securities issued under the Indenture necessarily constitutes an Event of Default with respect to any other series of debt securities issued thereunder. In case an Event of Default as set out in the first, second and third items listed above shall occur and be continuing with respect to any series, the Trustee or the holders of not less than 25% in aggregate principal amount of debt securities of each such series then outstanding may declare the principal, or, in the case of discounted debt securities, the amount specified in the terms thereof, of such series to be due and payable. In case an Event of Default as set out in the fourth item listed above shall occur and be continuing, the Trustee or the holders of not less than 25% in aggregate principal amount of all the debt securities then outstanding, voting as one class, may declare the principal, or, in the case of discounted debt securities, the amount specified in the terms thereof, of all outstanding debt securities to be due and payable. Any Event of Default with respect to a particular series of debt securities may be waived by the holders of a majority in aggregate principal amount of the outstanding debt securities of such series, or of all the outstanding debt securities, as the case may be, except in a case of failure to pay principal or premium, if any, or interest on such debt security for which payment had not been subsequently made. We are required to file with the Trustee annually an Officers' Certificate as to

Edgar Filing: GENERAL MOTORS CORP - Form 424B2

the absence of certain defaults under the terms of the Indenture. The Indenture provides that the Trustee may withhold notice to the securityholders of any default, except in payment of principal, premium, if any, or interest, if it considers it in the interest of the securityholders to do so.

Subject to the provisions of the Indenture relating to the duties of the Trustee in case an Event of Default shall occur and be continuing, the Trustee shall be under no obligation to exercise any of its rights or powers under the Indenture at the request, order or direction of any of the securityholders, unless such securityholders shall have offered to the Trustee reasonable indemnity or security.

Subject to such provisions for the indemnification of the Trustee and to certain other limitations, the holders of a majority in principal amount of the debt securities of each series affected, with each series voting as a separate class, at the time outstanding shall have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee, or exercising any trust or power conferred on the Trustee.

Concerning the Trustee

Citibank, N.A. is the Trustee under the Indenture. It is also Trustee under various other indentures covering our outstanding notes and debentures. Citibank, N.A. and its affiliates act as depository for funds of, make loans to, act as trustee and perform certain other services for, certain of our affiliates and us in the normal course of its business. As trustee of various trusts, it has purchased our securities and those of certain of our affiliates.

11

DESCRIPTION OF WARRANTS

General

The following statements with respect to the warrants are summaries of the detailed provisions of one or more separate warrant agreements (each a "Warrant Agreement") between us and a banking institution organized under the laws of the United States or one of the states thereof (each a "Warrant Agent"), a form of which is filed as an exhibit to the registration statement. Wherever particular provisions of the Warrant Agreement or terms defined therein are referred to, such provisions or definitions are incorporated by reference as a part of the statements made, and the statements are qualified in their entirety by such reference.

The warrants will be evidenced by warrant certificates (the "Warrant Certificates") and, except as otherwise specified in the prospectus supplement accompanying this prospectus, may be traded separately from any debt securities with which they may be issued. Warrant Certificates may be exchanged for new Warrant Certificates of different denominations at the office of the Warrant Agent. The holder of a warrant does not have any of the rights of a holder of a debt security in respect of, and is not entitled to any payments on, any debt securities issuable, but not yet issued, upon exercise of the warrants.

The warrants may be issued in one or more series, and reference is made to the prospectus supplement accompanying this prospectus relating to the particular series of warrants, if any, offered thereby for the terms of, and other information with respect to, such warrants, including:

- o the title and the aggregate number of warrants;

Edgar Filing: GENERAL MOTORS CORP - Form 424B2

- o the debt securities for which each warrant is exercisable;
- o the date or dates on which the warrants will expire;
- o the price or prices at which the warrants are exercisable;
- o the currency or currencies in which the warrants are exercisable;
- o the periods during which and places at which the warrants are exercisable;
- o the terms of any mandatory or optional call provisions;
- o the price or prices, if any, at which the warrants may be redeemed at the option of the holder or will be redeemed upon expiration;
- o the identity of the Warrant Agent;
- o the exchanges, if any, on which the warrants may be listed; and
- o whether the Warrants shall be issued in book-entry form.

Exercise of Warrants

Warrants may be exercised by payment to the Warrant Agent of the exercise price, in each case in such currency or currencies as are specified in the warrant, and by communicating to the Warrant Agent the identity of the warrant holder and the number of warrants to be exercised. Upon receipt of payment and the Warrant Certificate properly completed and duly executed, at the office of the Warrant Agent, the Warrant Agent will, as soon as practicable, arrange for the issuance of the applicable debt securities, the form of which shall be set forth in the prospectus supplement. If less than all of the warrants evidenced by a Warrant Certificate are exercised, a new Warrant Certificate will be issued for the remaining amounts of Warrants.

12

PLAN OF DISTRIBUTION

We may sell the securities being offered in five ways:

- o directly to purchasers;
- o through agents;
- o through underwriters;
- o through dealers; and
- o through direct sales or auctions performed by utilizing the Internet or a bidding or ordering system.

Direct Sales

We may directly solicit offers to purchase securities. In this case, no underwriters or agents would be involved.

By Agents

We may use agents to sell the securities. Any such agent, who may be deemed to be an underwriter as that term is defined in the Securities Act of 1933, involved in the offer or sale of the securities in respect of which this prospectus is delivered will be named, and any commissions payable by us to such agent set forth, in the prospectus supplement. Unless otherwise indicated in the prospectus supplement, any such agent will be acting on a best efforts basis for the period of its appointment, which is ordinarily five business days or less.

By Underwriters

If an underwriter or underwriters are utilized in the sale, we will enter into an underwriting agreement with such underwriters at the time of sale to them and the names of the underwriters and the terms of the transaction will be set forth in the prospectus supplement, which will be used by the underwriters to make resales of the securities in respect of which this prospectus is

delivered to the public.

Among others, one or more of the following firms may act as managing underwriter(s) with respect to the offering of the securities: Bear, Stearns & Co. Inc., Chase Securities, Inc., Merrill Lynch, Pierce, Fenner & Smith Incorporated, Morgan Stanley & Co., Incorporated and Salomon Smith Barney Inc.

By Dealers

If a dealer is utilized in the sale of the securities in respect of which this prospectus is delivered, GM will sell such securities to the dealer as principal. The dealer may then resell such securities to the public at varying prices to be determined by such dealer at the time of resale.

Delayed Delivery Contracts

If so indicated in the prospectus supplement, we will authorize agents and underwriters to solicit offers by certain institutions to purchase securities from us at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on the date stated in the prospectus supplement. Each delayed delivery contract will be for an amount not less than the respective amounts stated in the prospectus supplement. Unless we otherwise agree, the aggregate principal amount of securities sold pursuant to delayed delivery contracts shall be not less nor more than the respective amounts stated in the prospectus supplement.

Institutions with whom delayed delivery contracts, when authorized, may be made include:

- o commercial and savings banks;
- o insurance companies;
- o pension funds;
- o investment companies;
- o educational and charitable institutions; and
- o other institutions.

All delayed delivery contracts are subject to our approval. Delayed delivery contracts will not be subject to any conditions except that the purchase by an institution of the securities covered by its delayed delivery contract shall not at the time of delivery be prohibited under the laws of any jurisdiction in the United States to which such institution is subject. A commission indicated in the prospectus supplement will be paid to underwriters and agents soliciting purchases of securities pursuant to contracts accepted by us.

Through the Internet

We may also offer debt securities directly to the public, with or without the involvement of agents, underwriters or dealers and may utilize the Internet or another electronic bidding or ordering system for the pricing and allocation of such debt securities. Such a system may allow bidders to directly participate, through electronic access to an auction site, by submitting conditional offers to buy that are subject to acceptance by us, and which may directly affect the price or other terms at which such securities are sold.

The final offering price at which debt securities would be sold and the allocation of debt securities among bidders, would be based in whole or in part

Edgar Filing: GENERAL MOTORS CORP - Form 424B2

on the results of the Internet bidding process or auction. Many variations of the Internet auction or pricing and allocating systems are likely to be developed in the future, and we may utilize such systems in connection with the sale of debt securities. We will describe in the related supplement to this prospectus how any auction or bidding process will be conducted to determine the price or any other terms of the debt securities, how potential investors may participate in the process and, where applicable, the nature of the underwriters' obligations with respect to the auction or ordering system.

General Information

The place and time of delivery for the securities described in this prospectus are set forth in the accompanying prospectus supplement.

We may have agreements with the agents, underwriters and dealers to indemnify them against certain liabilities, including liabilities under the Securities Act of 1933.

Underwriters, dealers and agents may engage in transactions with, or perform services for, us in the ordinary course of business.

In connection with the sale of the securities, certain of the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the securities. Specifically, the underwriters may overallocate the offering, creating a short position. In addition, the underwriters may bid for, and purchase, the securities in the open market to cover short positions or to stabilize the price of the securities. Any of these activities may stabilize or maintain the market price of the securities above independent market levels. The underwriters will not be required to engage in these activities, and may end any of these activities at any time.
