ITEM 8.01. OTHER EVENTS

On November 1, 2005, General Motors Corporation (GM) issued a news release announcing October 2005 sales. The release is as follows:

GM Reports 257,623 Deliveries in October Launch Vehicles Continue to Build Sales Momentum Saturn and HUMMER Post Sales Gains

DETROIT - General Motors dealers in the United States sold 257,623 new cars and trucks in October, down 23 percent from the same month a year ago. Car sales declined 12 percent and truck sales were off 30 percent.

"Although a slowdown after the record sales of the last several months was expected, October was a difficult month for us and the industry," said Mark LaNeve, GM North America vice president, Vehicle Sales, Service and Marketing. "On a positive note, we continue to see solid sales results for our launch vehicles, indicating that consumers recognize the overall value our products represent. We have committed to consumers that they will receive segment-leading value in every vehicle we manufacture, including industry-leading fuel economy, quality and vehicle features and benefits."

GM's new vehicles continue to post solid sales results. Small sport utility vehicle deliveries in October rose 29 percent with the addition of the Chevrolet HHR and Pontiac Torrent to the category. Torrent sales have improved each month since its August launch, with October sales 15 percent higher than September, despite constrained inventories. HHR continues to bring new customers into the GM family, with about half of HHR buyers trading in non-GM vehicles. A 17 percent sales increase for the new Saturn Vue also contributed to the positive sales results in the small utility category. Saturn sales in October were up 11 percent.

H3, the new mid-size HUMMER, continues to drive record sales for the division and broaden its appeal from a niche brand to a wider audience. About 70 percent of vehicles traded in by H3 buyers are non-GM models. HUMMER sales were up 129 percent compared to year-ago levels.

Pontiac G6 sales continue to build with October deliveries 135 percent greater than year-ago levels. Retail sales in October were up 111.5 percent.

The all-new 2006 Chevrolet Impala also is off to a fast sales start, with strong consumer demand for the Impala SS, with its small-block V8 engine, displacement-on-demand and 28 mpg fuel economy (highway). Impala retail sales in October were up 6 percent.

Cadillac DTS achieved its best sales since its launch, with 5,710 deliveries, a 50 percent improvement over September sales.

Certified Used Vehicles

October sales for all certified GM brands, including GM Certified Used Vehicles, Cadillac Certified Pre-Owned Vehicles, Used Cars from Saturn and Saab Certified

Pre-Owned Vehicles, were 43,090 units, down 9 percent from last year. Total year-to-date certified GM sales are 445,555 units, up 1 percent from the same period last year.

GM Certified Used Vehicles, the industry's top-selling manufacturer-certified used brand, posted sales of 37,765 units, down 7 percent from the previous October. Year-to-date sales for GM Certified Used Vehicles are 379,534 units, up 3 percent from the same period in 2004.

Cadillac Certified Pre-Owned Vehicles posted October sales of 2,817 units, down 15 percent from last October. Cadillac Certified year-to-date sales are up 8.5 percent. Used Cars from Saturn in October sold 1,901 units, down 32 percent. Saab Certified Pre-Owned Vehicles sold 607 units, down nearly 14 percent.

"October was a challenging month, but GM Certified Used Vehicles continues to lead all manufacturers in the category," LaNeve said. "Calendar year-to-date sales are 3 percent ahead of last year's record performance. Looking ahead, we're confident that GM Certified will continue to set the pace for the certified segment for the remainder of the year."
