JACKSON, MISSISSIPPI, July 21, 2003 - EastGroup Properties, Inc. (NYSE-EGP)

Edgar Filing: EASTGROUP PROPERTIES INC - Form 8-K

announced today the results of its operations for the three and six months ended June 30, 2003.

FUNDS FROM OPERATIONS

For the quarter ended June 30, 2003, funds from operations (FFO) was \$.61 per share compared with \$.68 per share in the same period of 2002, a decrease of 10.3%. Included in these numbers are gains on securities of \$.005 per share for the second quarter of 2003 and \$.054 per share for the same period in 2002.

For the six months ended June 30, 2003, FFO was \$1.21 per share compared with \$1.31 per share in the same period of 2002, a decrease of 7.6% per share. Gains on securities were \$.02 per share in 2003 compared with \$.08 per share in 2002.

Property net operating income (PNOI) (GAAP basis) from same properties held for both the current and past reporting periods decreased 1.0% and .9% for the three months and six months ended June 30, 2003, respectively. Rental decreases on new and renewal leases averaged 8.8% for the quarter.

David H. Hoster II, President and CEO, stated, "During the second quarter, we signed 83 leases for almost 1.2 million square feet (6.1% of the portfolio) for both renewal and new leases. This is a definite positive given the continued sluggishness in the U.S. economy."

EARNINGS PER SHARE

On a diluted per share basis, earnings per common share (EPS) was \$.20 and \$.38 for the three and six months ended June 30, 2003 compared with \$.27 and \$.50 for the same periods in 2002.

DEVELOPMENT

The incremental growth of EastGroup's current development program and 2002 property transfers to the portfolio increased PNOI by \$650,000 in the second quarter of 2003. At June 30, 2003, EastGroup had seven development properties containing 510,000 square feet with a projected total cost of approximately \$28.2 million either in lease-up or under construction. Of this total, approximately 21% of the space has been leased as of July 21, 2003. No properties were transferred from development to the portfolio during the second quarter of 2003.

ACQUISITIONS

During the second quarter of 2003, EastGroup purchased in separate transactions two industrial properties - one in Phoenix, Arizona and one in Orlando, Florida - for a total price of \$6,458,000. The 63,000 square foot central Phoenix property, Airport Commons, has a projected stabilized cash yield of 10.0% and the 62,400 square foot Orlando property, Altamonte Commerce Center II, has a projected stabilized cash yield of 10.6%.

DIVIDENDS

EastGroup paid dividends of \$.475 per share of common stock in the second quarter of 2003, which represented 78% of funds from operations per diluted share for the quarter. This dividend was the 94th consecutive quarterly distribution to EastGroup's common stockholders and represents an annualized dividend rate of \$1.90 per share, which yields 6.7% on the closing stock price of \$28.40 on July 18, 2003.

EastGroup also paid quarterly dividends of \$.51875 per share on its Series A Preferred Stock at the redemption on July 7, 2003 (see below) and \$.547 per share on its Series B Preferred Stock on July 15, 2003 to stockholders of record

Edgar Filing: EASTGROUP PROPERTIES INC - Form 8-K

as of June 30, 2003.

CAPITAL TRANSACTIONS

On May 20, 2003, EastGroup closed on the sale of 571,429 shares of its common stock at \$26.25 per share. The shares were sold to an institutional buyer with proceeds of approximately \$14.6 million, net of related issuance expenses.

On July 2, 2003, EastGroup closed a public offering of 1,320,000 shares of 7.95% Series D Cumulative Redeemable Preferred Stock with a liquidation preference of \$25 per share. The offering resulted in approximately \$32.3 million of net proceeds.

On July 7, 2003, EastGroup redeemed all of its outstanding 9.00% Series A Cumulative Redeemable Preferred Stock. The redemption price of these shares (excluding accrued dividends) was \$43.125 million. The issuance costs of \$1,768,000 related to the original issuance of the Series A stock in 1998 will be recorded as a preferred issuance cost similar to a preferred dividend in the third quarter.

During the second quarter of 2003, 1,400,000 shares of 8.75% Series B Cumulative Convertible Preferred Stock were converted into 1,590,960 shares of common stock.

On May 14, 2003, EastGroup signed an application on a \$45.5 million, nonrecourse first mortgage loan secured by ten properties. The note will have a fixed interest rate of 4.75%, a ten-year term, and an amortization schedule of 25 years. The loan is expected to close in August 2003, and the proceeds will be used to reduce bank borrowings.

Mr. Hoster stated, "We have strengthened the balance sheet with the capital transactions both completed and proposed during the second quarter. Debt-to-total market capitalization was reduced to 36.0% at June 30, 2003, preferred dividend costs were reduced, common shares outstanding increased by 13.4%, and floating rate debt will be significantly reduced with the funding of the new mortgage loan. We are in a good position to take advantage of future acquisition and development opportunities with these transactions."

OUTLOOK FOR 2003

FFO per share for 2003 is estimated to be in the range of \$2.33 to \$2.39. Our estimate of FFO per share for the quarter ended September 30, 2003 and the year ended December 31, 2003 has been reduced by \$.09 per share because of the original issuance costs of the Series A Preferred Stock on its redemption on July 7, 2003. FFO per share projections are \$.51 to \$.54 for third quarter and \$2.33 to \$2.39 for the year. Earnings per share for 2003 should be in the range of \$.65 to \$.72, which includes \$.10 per share of issuance costs on the redemption of the preferred stock. The table below reconciles projected net income to projected FFO.

(A) The Company's chief decision makers use two primary measures of operating results in making decisions: property net operating income (PNOI), defined as income from real estate operations less property operating expenses (before interest expense and depreciation and amortization), and funds from operations (FFO). EastGroup defines FFO consistent with the National Association of Real Estate Investment Trusts' (NAREIT) definition, as net income (loss) (computed in accordance with accounting principles generally accepted in the United States of America (GAAP)), excluding gains or losses from sales of depreciable real estate property, plus real estate related depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures.

PNOI and FFO are supplemental industry reporting measurements used to evaluate the performance of the Company's investments in real estate assets and its operating results. The Company believes that the exclusion of depreciation and amortization in the industry's calculations of PNOI and FFO provide supplemental indicators of the properties' performance since real estate values have historically risen or fallen with market conditions. PNOI and FFO as calculated by the Company may not be comparable to similarly titled but differently calculated measures for other REITs. Investors should be aware that items excluded from or added back to FFO are significant components in understanding and assessing the Company's financial performance.

(B) Net of capitalized interest of \$516,000 and \$556,000 for the three months ended June 30, 2003 and 2002, respectively; and \$1,002,000 and \$1,088,000 for the six months ended June 30, 2003 and 2002, respectively.

(C) Assumes dilutive effect of common stock equivalents.
