IONICS, INCORPORATED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation:

In the opinion of the management of Ionics, Incorporated (the "Company"), all adjustments have been made that are necessary for a fair statement of the consolidated financial position of the Company, the consolidated results of its operations and the consolidated cash flows for each period presented. The consolidated results of operations for the interim periods are not necessarily indicative of the results of operations to be expected for the full year. These financial statements should be read in conjunction with the Company's 2001 Annual Report as filed on Form 10-K with the Securities and Exchange Commission. Other than as noted below, there have been no significant changes in the information reported in those Notes, other than from the normal business activities of the Company, and there have been no changes which would, in the opinion of management, have a materially adverse effect upon the Company. Certain prior year amounts have been reclassified to conform to the current year presentation with no impact on net income.

2. Commitments:

The Company is involved in the normal course of its business in various litigation matters, some of which are in the pre-trial discovery stages. The Company believes that none of the pending matters will have an outcome material to its financial condition or results of operations.

During 2002, construction is expected to be completed on the Trinidad desalination facility owned by Desalination Company of Trinidad and Tobago Ltd. (Desalcott), in which the Company has a 40% equity interest. The Company has loaned \$10 million to the 60% equity owner, Hafeez Karamath

Edgar Filing: IONICS INC - Form 10-Q

Engineering Services Ltd. (HKES), as the source of HKES' equity contribution, in addition to the \$10 million contributed by the Company for its 40% equity interest. In 2000, Desalcott entered into a "bridge loan" agreement with a Trinidad bank providing \$60 million in construction financing. Effective November 8, 2001, the loan agreement was amended to increase maximum borrowings to \$79.9 million. The Company has committed to lend up to \$10 million to Desalcott as an additional source of funds for project completion costs once all bridge loan proceeds have been expended. However, the bridge loan of \$79.9 million and the \$20 million equity provided to Desalcott, together with the additional \$10 million dollars to be loaned to Desalcott by the Company, may not provide sufficient funds to pay all of Desalcott's obligations in completing construction and commissioning of the project prior to receipt of long-term financing. In such event, Desalcott would be required to seek additional funds to pay such obligations. Moreover, although Desalcott has received proposals, including a term sheet, for long-term debt financing, there is no assurance that such financing will be obtained on terms acceptable to Desalcott.

During 2001, the Company acquired a 25% equity ownership interest in a Kuwaiti project company, Utilities Development Company W.L.L., which was awarded a concession agreement by an agency of the Kuwaiti government for the construction, ownership and operation of wastewater reuse facility in Kuwait. At March 31, 2002, the Company had deferred costs of approximately \$1.1 million relating primarily to preliminary project management and initial design work on the project, and had invested \$1.5 million in the project company. Although the Company anticipates that long-term financing for the project should be obtained by mid-2002, there is no assurance that such financing will be obtained, and the Company would expense the deferred costs and investment in the event financing is not obtained. Also in such

-5-

event, the Company could incur its 25% proportionate share of liability under a \$28 million performance bond issued on behalf of the project company.

3. Earnings Per Share (EPS) Calculations:

(Amounts in thousands, except per share a

For the three months ended March 31,

	2002			
	Net Income	Shares	Per Share Amount	Net Income
Basic EPS				
Income available to common stockholders	\$ 1,937	17,508	\$ 0.11	\$ 2,995

Diluted EPS	\$ 1,937	17,776	\$ 0.11	\$ 2,995
	=====	=====	=====	=====

The effect of dilutive stock options excludes those stock options for which the impact would have been antidilutive based on the exercise price of the options. The number of options that were antidilutive at the three months ended March 31, 2002 and 2001 was 604,250 and 1,568,234, respectively.

4. Comprehensive Income:

The Company has adopted the Statement of Financial Accounting Standards ("SFAS") No. 130, "Reporting Comprehensive Income," which establishes standards for the reporting and display of comprehensive income and its components. The table below sets forth "comprehensive income" as defined by SFAS No. 130 for the three-month periods ended March 31, 2002 and 2001.

	(Amounts in thousands)	
	Three months ended

	-----	-----
Comprehensive income	\$ (643)	\$(1,595)
	=====	=====

-6-

5. Segment Information:

In 1998, the Company adopted SFAS No. 131, "Disclosures about Segments of an Enterprise and Related Information." At the end of 1998, the Company changed from three reportable segments to four reportable "business group" segments corresponding to a "business group" structure which was put into place in the latter part of 1998. The Company has instituted a matrix-type organization which became effective at the beginning of 2002. As part of the matrix organization, the Company's trailer leasing and non-consumer bleach based chemical supply businesses which were included in the Equipment Business Group in prior periods now are included in the Ultrapure Water Group. Segment information for all periods presented has been restated to reflect this change. Additionally, the Company's Aqua Cool Pure Bottled Water business, which had been reported as part of the operations of the Consumer Water Group, was sold to affiliates of Nestle S.A. on December 31, 2001 and therefore does not appear in 2002 operations.

The following table summarizes the Company's operations by the four business group segments and "Corporate." (Corporate includes legal and research and development expenses not allocated to the business groups, certain Corporate administrative and insurance costs, foreign exchange gains and losses on Corporate assets, as well as the elimination of

Edgar Filing: IONICS INC - Form 10-Q

intersegment transfers.)

-7-

For the three months ended March 31, 2002

	Equipment Business Group	Ultrapure Water Group	Consumer Water Group	Instrument Business Group
(Amounts in thousands)				
Revenue - unaffiliated customers	\$38,271	\$ 25,035	\$ 10,491	\$ 6,544

Goodwill	11,776	16,388	21,230	1,847

Identifiable assets at March 31, 2001 did not differ materially from identifiable assets at December 31, 2000.

6. Goodwill and Intangible Assets:

In June 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 142, Goodwill and Other Intangible

Edgar Filing: IONICS INC - Form 10-Q

Assets, (SFAS No. 142). This accounting standard addresses financial accounting and reporting for goodwill and other intangible assets and requires that goodwill amortization be discontinued and replaced with periodic tests of impairment. A two-step impairment test is used to first identify potential goodwill impairment and then measure the amount of goodwill impairment loss, if any. SFAS No. 142 is effective for fiscal years beginning after December 15, 2001, and is required to be applied at the beginning of the fiscal year. Impairment losses, if any, that arise due to the initial application of this standard will be reported as a cumulative effect of a change in accounting principle. The first step of the goodwill impairment test, which must be completed within six months of the effective date of this standard, will identify any potential goodwill impairment. The second step of the goodwill impairment test, which must be completed prior to the issuance of the annual financial statements, will measure the amount of goodwill impairment loss, if any.

-8-

In accordance with SFAS No. 142, amortization of goodwill was discontinued as of January 1, 2002. All of the Company's intangible assets are subject to amortization. The Company did not record any reclassification of amounts of intangible assets into or out of the amounts previously reported as goodwill. The Company has not yet completed its analysis of the effect of adopting SFAS No. 142 on its segments.

The following adjusts reported net income and EPS to present pro forma amounts which exclude amortization of goodwill:

	(Amounts in thousands , except per share amounts)	
	Three Months Ended March 31,

	=====	=====

Edgar Filing: IONICS INC - Form 10-Q

There was no change in the carrying value of goodwill during the quarter ended March 31, 2002, other than the impact of foreign currency translation adjustment. As a result of the foreign currency translation adjustment, the Equipment Business Group's goodwill balance decreased \$35 thousand and the Ultrapure Water Group's goodwill balance increased by \$4 thousand from the respective balances at December 31, 2001.

-9-

7. Divestiture

Included in the Company's quarterly results is \$2.6 million in revenues and a \$0.6 million pre-tax loss in the Company's Malaysian affiliate, in which the Company holds a 55% equity interest. The Company is currently in the process of divesting this interest, and accordingly, this asset is treated as "held for sale" and included in other current assets.

-10-

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The Company's Form 10-K Annual Report for the year ended December 31, 2001 contains Management's Discussion and Analysis of Financial Condition and Results of Operations at and for the year ended December 31, 2001. The following discussion and analysis describes material changes in the Company's financial condition since December 31, 2001. The analysis of results of operations compares the three months ended March 31, 2002 with the comparable period of the prior fiscal year.

Results of Operations

Comparison of the Three Months Ended March 31, 2002 with the Three Months Ended March 31, 2001

The Company reported consolidated revenues of \$80.3 million and net income of \$1.9 million for the first quarter of 2002, which compares to \$123.0 million of revenues and \$3.0 million of net income earned during the first quarter of 2001. Results for the first quarter of 2001 include the operations of the Aqua Cool Pure Bottled Water business, which was divested on December 31, 2001.

As part of the Company's adoption of a matrix business organization effective January 1, 2002, results associated with the Company's trailer leasing and non-consumer bleach based chemical supply businesses are included in the Ultrapure Water Group (UWG), rather than the Equipment Business Group (EBG) segment where they had historically been presented. Segment information for all periods presented has been restated to reflect these changes. First quarter 2002 revenues and gross margin for these businesses were \$7.3 million and \$2.1 million, respectively.

The Company's revenues for the first quarter of 2002 of \$80.3 million compared

Edgar Filing: IONICS INC - Form 10-Q

to revenues of \$123.0 million in the first quarter of 2001. Excluding the first quarter 2001 Aqua Cool Pure Bottled Water revenues of \$16.9 million, first quarter 2002 revenues were down \$25.7 million, or 24.2%, from the comparable period last year, with declines in all four of the Company's business segments. The reduction in revenues is primarily attributable to continued softness in the microelectronics industry affecting both the UWG and Instrument Business Group (IBG).

EBG revenues of \$38.3 million decreased by \$6.7 million, or 14.9%, compared to revenues of \$45.0 million during the first quarter of 2001. This decrease was primarily attributable to lower capital equipment revenues, reflecting the wind-down of the construction phase of the Trinidad desalination project, as well as lower volume levels associated with the Zero Liquid Discharge business.

UWG revenues of \$25.0 million decreased by \$15.8 million, or 38.7%, compared to revenues of \$40.8 million in the first quarter of 2001. Revenue levels for UWG were affected by continued softness in the capital equipment portion of the microelectronics industry, both domestically and internationally.

CWG revenues of \$10.5 million decreased by \$18.9 million, or 64.2%, compared to revenues of \$29.3 million in the first quarter of 2001, which included revenues generated in the Company's bottled water business. Excluding revenues associated with the bottled water business (which was divested on December 31, 2001), revenues in the first quarter of 2002 were down 15.6%, or \$1.9 million, from the first quarter of 2001. Revenues were primarily impacted by the warmer-than-expected winter, which affected revenue levels of CWG's consumer-based chemical business as a result of a lower demand for automobile windshield wash solution.

-11-

IBG revenues of \$6.5 million decreased by \$1.2 million, or 16.0%, compared to revenues of \$7.8 million in the first quarter of 2001. Lower revenue levels were primarily attributable to continued softness in the microelectronics industry, an important customer for IBG products.

Total Company cost of sales as a percentage of revenue was 71.2% in the first quarter of 2002 compared to 70.9% in the first quarter of 2001, and resulting gross margin was 28.8% in first quarter of 2002 and 29.1% for the first quarter of 2001. Cost of sales as a percentage of revenue decreased in the EBG and IBG segments and increased in the UWG and CWG segments in the first quarter of 2002, over the comparable period a year ago. EBG's cost of sales as a percentage of revenue decreased to 74.8% for the first quarter of 2002 compared to 77.8% for the first quarter of 2001 reflecting a shift in product mix from lower margin capital equipment to more profitable service and supply business. IBG's cost of sales as a percentage of revenue decreased to 42.1% in the first quarter of 2002 from 44.2% in the first quarter of 2001, primarily reflecting a shift in product mix from lower margin capital equipment to more profitable service revenue. UWG's cost of sales as a percentage of revenue increased slightly from 75.1% in the first quarter of 2001 to 75.9% in the first quarter of 2002, primarily attributable to lower overall volume levels in 2002 compared to 2001. CWG's cost of sales as a percentage of revenue increased to 65.1% in the first quarter of 2002 from 61.4% in the first quarter of 2001, reflecting the exclusion of the Aqua Cool Pure Bottled Water business which was divested on December 31, 2001.

Operating expenses as a percentage of revenue increased to 26.3% in the first quarter of 2002 compared to 24.6% in the first quarter of 2001, resulting primarily from lower revenue levels during the first quarter of 2002. Other factors impacting operating expenses include net foreign currency exchange gains of approximately \$1.7 million, relating primarily to the translation of certain of the proceeds from the sale of the Aqua Cool Pure Bottled Water business.

Edgar Filing: IONICS INC - Form 10-Q

These gains were partially offset by residual expenses incurred in the quarter of approximately \$1.4 million, related primarily to on-going restructuring initiatives in the CWG segment following the divestiture of the bottled water business.

Also included in the quarter's results is \$2.6 million in revenues and a \$0.6 million pre-tax loss in the Company's Malaysian affiliate, in which the Company holds a 55% equity interest. The Company is currently in the process of divesting of this interest, and accordingly this asset is treated as "held for sale" and included in other current assets.

Interest income of \$1.0 million in the first quarter of 2002 represents an increase of \$0.8 million from \$0.2 million earned in the first quarter of 2001, reflecting investment of the proceeds of the Aqua Cool Pure Bottled Water business divestiture. Interest expense of \$0.6 million for the first quarter of 2002 compared to \$1.6 million in the first quarter of 2001, represents a reduction in the average borrowings as a result of the pay-down of current debt, primarily from the proceeds of the sale of the bottled water business.

Equity income of \$0.9 million during the first three months of 2002 compared to \$0.4 million during the first three months of 2001, primarily reflecting improved performance in two projects located in Mexico in which the Company has a 20% equity interest.

The Company's effective tax rate was 34.0% for the first quarter of 2001 and 2002. The current year's effective rate reflects anticipated profit before tax adjusted for items such as non-deductible operating losses and anticipated tax planning initiatives.

Financial Condition

Working capital increased \$0.7 million during the first three months of 2002 while the Company's current ratio of 2.9 at March 31, 2002 increased from 2.4 at December 31, 2001. Net accounts receivable and accounts payable decreased \$11.2 million and \$9.7 million, respectively, during the first three months of 2002, primarily resulting from lower revenue levels. Current income taxes payable decreased \$15.5 million during the first three months of 2002, primarily reflecting payments made on gain from the sale of the Company's Aqua Cool Pure Bottled Water business.

-12-

Net cash used by operating activities amounted to \$13.9 million for the first three months of 2002, primarily reflecting cash used for payments of current income taxes, offset by increased collections on accounts receivable. The primary use of cash for investing activities of \$7.5 million was for additions to property, plant and equipment, primarily relating to investments made in the Company's UWG segment for a build, own and operate facility in the power industry. Net cash used by financing activities was \$10.9 million, primarily resulting from the pay-down of the Company's short-term borrowings utilizing the proceeds from the sale of the Aqua Cool Pure Bottled Water business.

During 2002, construction is expected to be completed on the Trinidad desalination facility owned by Desalination Company of Trinidad and Tobago Ltd. (Desalcott), in which the Company has a 40% equity interest. The Company has loaned \$10 million to the 60% equity owner, Hafeez Karamath Engineering Services Ltd. (HKES), as the source of HKES' equity contribution, in addition to the \$10 million contributed by the Company for its 40% equity interest. In 2000, Desalcott entered into a "bridge loan" agreement with a Trinidad bank providing \$60 million in construction financing. Effective November 8, 2001, the loan agreement was amended to increase maximum borrowings to \$79.9 million. The

Edgar Filing: IONICS INC - Form 10-Q

Company has committed to lend up to \$10 million to Desalcott as an additional source of funds for project completion costs once all bridge loan proceeds have been expended. However, the bridge loan of \$79.9 million and the \$20 million equity provided to Desalcott, together with the additional \$10 million dollars to be loaned to Desalcott by the Company, may not provide sufficient funds to pay all of Desalcott's obligations in completing construction and commissioning of the project prior to receipt of long-term financing. In such event, Desalcott would be required to seek additional funds to pay such obligations. Moreover, although Desalcott has received proposals, including a term sheet, for long-term debt financing, there is no assurance that such financing will be obtained on terms acceptable to Desalcott.

During 2001, the Company acquired a 25% equity ownership interest in a Kuwaiti project company, Utilities Development Company W.L.L., which was awarded a concession agreement by an agency of the Kuwaiti government for the construction, ownership and operation of wastewater reuse facility in Kuwait. At March 31, 2002, the Company had deferred costs of approximately \$1.1 million relating primarily to preliminary project management and initial design work on the project, and had invested \$1.5 million in the project company. Although the Company anticipates that long-term financing for the project should be obtained by mid-2002, there is no assurance that such financing will be obtained, and the Company would expense the deferred costs and investment in the event financing is not obtained. Also in such event, the Company could incur its 25% proportionate share of liability under a \$28 million performance bond issued on behalf of the project company.

On March 28, 2002, the Company amended its primary domestic credit agreement to reduce the borrowing limit to \$30 million, eliminate and revise certain financial and other covenants, extend the term of the agreement until March 2003, and make Fleet National Bank the sole lender.

The Company believes that its cash and cash equivalents, cash from operations, lines of credit and foreign exchange facilities are adequate to meet its currently anticipated needs for the foreseeable future.
