### **Report of Independent Registered Public Accounting Firm**

To the Participants and Administrator of

Kinder Morgan, Inc. Savings Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of Kinder Morgan, Inc. Savings Plan (the Plan ) at December 31, 2004 and December 31, 2003, and the changes in net assets available for benefits for the year ended December 31, 2004 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management.

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of assets held for investment purposes and reportable transactions are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

## **Kinder Morgan, Inc. Savings Plan**

### **Notes to Financial Statements**

#### **1.**

#### **Description of the Plan**

##### **General**

The Employees Retirement Fund Trust Profit Sharing Plan (the Profit Sharing Plan) of K N Energy, Inc. was established in 1945 for the benefit of eligible employees (as defined in the Profit Sharing Plan indenture). Effective with K N Energy, Inc.'s acquisition of Kinder Morgan (Delaware), Inc., formerly Kinder Morgan, Inc., a Delaware corporation, K N Energy, Inc. changed its name to Kinder Morgan, Inc. (the Company).

The Profit Sharing Plan has been amended and restated, and has been renamed the Kinder Morgan, Inc. Savings Plan (the Plan). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

On December 29, 2004, benefits were transferred to the Plan from the Global Material Services LLC 401(k) Plan, the Arrow Terminal 401(k) Plan and the Arrow Terminal Union Profit Sharing 401(k) Plan. Investments in these plans were transferred to similar investments in the Plan, and the participants were allowed to re-allocate their investments at their individual discretion.

Benefits under the Plan are not guaranteed by the Pension Benefit Guaranty Corporation. Refer to the Plan agreement for a more complete description of the Plan's provisions.

## **Plan Administration**

The Plan is administered by the Kinder Morgan Fiduciary Committee. The Plan's recordkeeper during 2004 was Putnam Defined Contribution Servicing. Plan assets were maintained during 2004 under the custody of Putnam Fiduciary Trust Company ( Trustee ). During 2004, the Trustee made payments as authorized by the Plan. Effective January 1, 2005, the Putnam Defined Contribution Servicing business of Putnam Investments was merged with the Mercer Human Resources Defined Benefit and Health and Group businesses to form a new company, Mercer HR Outsourcing, which now provides record keeping and trustee services to the Plan.

## **Contributions**

Participants may elect to make pretax contributions totaling from 1% to 50% of their annual compensation, limited by requirements of the Internal Revenue Code ( IRC ). Participants may discontinue their election to contribute at any time. During 2004, all new employees were automatically enrolled in the Plan with a pretax contribution by the employee of 2% of their annual compensation. Effective May 1, 2005, the pretax contribution of all new employees automatically enrolled in the Plan was changed to 3% of their annual compensation. Within the first 30 days of hire, employees may opt out of automatic enrollment.

The Company makes Qualified Non-Elective Contributions ( QNEC ) to the Plan on behalf of each eligible employee. The QNEC is equal to 4% of eligible compensation and is allocated as of each pay period (certain collectively bargained employees receive a 3% QNEC contribution, and certain other collectively bargained employees receive a 25% Company match on contributions up to 6% of eligible compensation). All QNEC and other Company contributions are initially invested in Kinder Morgan, Inc. common stock, which is immediately transferable to other available investments at the employee's discretion. In addition to the QNEC, the Company may also make discretionary contributions to the Plan, based on the Company's performance. For the year ended December 31, 2004, Company contributions totaled approximately \$12.2 million.

## **Kinder Morgan, Inc. Savings Plan**

### **Notes to Financial Statements**

In July 2004, the Kinder Morgan, Inc. Board of Directors Compensation Committee approved, contingent upon

approval at its July 2005 meeting, an additional 1% contribution to each eligible employee beginning with the first pay period after the July 2005 meeting. This additional 1% contribution is discretionary and will require annual approval by the Compensation Committee.

Participants may invest in Kinder Morgan, Inc. common stock held in the ESOP portion of the Plan as described under Section 4967 (e)(7) of the IRC. Dividends on Kinder Morgan, Inc. common stock are reinvested in Kinder Morgan, Inc. common stock, unless the participant elects direct dividend payment as allowed by the Plan. All Company matching contributions are used to purchase Kinder Morgan, Inc. common stock. At any time, a participant may, by a change in investments direction, direct that shares of Kinder Morgan, Inc. common stock be converted to cash and the proceeds less any applicable sales expenses be invested in another investment option.

Under Internal Revenue Service regulation, annual additions under the Plan and all other qualified plans sponsored by the Company are limited to the lesser of 100% of eligible compensation or \$41,000 for each employee. Annual additions are defined as employer contributions and employee contributions.

### **Benefits/Vesting**

Participants are fully and immediately vested in all participant contributions and all Company contributions made after July 1, 2000. Participants who were employed by the former K N Energy, Inc. and received Company contributions between January 1, 1995 and June 30, 2000 were subject to a four-year vesting provision (25% per year of service) on those contributions. Participant contributions may be withdrawn, with the approval of the Fiduciary Committee, in the event of unusual expenses connected with illness or disability, for college expenses for a participant or his or her dependents, or for the purchase of a primary residence, as defined in the Plan document. If not withdrawn earlier, a participant's account will be distributed in the event of termination of employment, death, or termination of the Plan. If a participant's account is \$5,000 or less, a lump-sum distribution will automatically be made. If a participant's account is greater than \$5,000, the participant's distribution options are: lump-sum distribution, partial distributions, or periodic installments. Upon retirement, participants whose accounts exceed \$5,000 may choose to leave their accounts in the Plan until age 70 1/2, when minimum distributions are required under the IRC.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

### **Loans**

Participants may borrow, from the vested portion of their Plan accounts, a minimum of \$500 up to a maximum equal to the lesser of 50% of their vested balance or \$50,000. All loans are charged a variable interest rate equal to the prime rate published on the first of each month. The loans are subject to certain restrictions as defined in the Plan document and applicable restrictions under the IRC.

### **Forfeitures**

Forfeitures of non-vested employer contributions remain in the Plan and earn interest income. Forfeited balances of terminated participants' non-vested accounts are used to reduce future Company QNEC contributions. During 2004, \$38,940 of employer contributions was forfeited by employees who were terminated before those amounts became vested. The entire forfeiture balance of \$38,940 was used to reduce employer contributions, leaving a forfeiture balance at December 31, 2004 of \$0.

### **Notes to Financial Statements**

#### **2.**

### **Significant Accounting Policies**

#### **Basis of Accounting**

The financial statements of the Plan are prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

#### **Investment Valuation and Income Recognition**

Investments are accounted for at fair market values as determined by quoted market prices in an active market. Participant loans are valued at cost, which approximates fair market value. Life insurance contracts are stated at contract value (see Note 3). Unrealized appreciation (depreciation) is the difference between the fair value of the investment at the end of the current year and the cost of the investment if acquired during the Plan year, or the fair value of the investment at the beginning of the Plan year. The accompanying supplemental schedule of assets held for investment purposes reflects cost basis determined utilizing a historical cost approach as required by ERISA.

Purchases and sales of the funds are reflected on a trade date basis. Gain or loss on sale of investments is based on average cost.

The Plan presents in the accompanying Statement of Changes in Net Assets Available for Benefits the net appreciation in the fair value of investments, which consists of realized gains and losses, and the net change in unrealized appreciation (depreciation) on investments (see Note 3).

### **Administrative Expenses**

Accounting and certain administrative services for the Plan are provided by the Company at no cost to the Plan. All other expenses are paid by the Plan.

### **Other**

The Company's annual discretionary contribution, if any, is determined when annual net income and payroll amounts are known. The contribution is allocated to participants subsequent to year-end. The Company did not make a discretionary contribution in 2004.

### **3.**

#### **Investments**

Participants may designate their contributions and their allocated portion of the employer contributions, in percentage increments divisible by five, to one or more of the eligible investment programs. New Plan participants may elect to transfer investments from other qualified plans into the Plan.

The investment programs of the Plan and the number of participants in each program at December 31, 2004 and 2003 are briefly described as follows:

In 1970, the Plan entered into a deposit administration investment contract (the Contract) with Principal Financial Group (Principal). Prior to January 1, 1987, participants had the option of purchasing life insurance through the Contract. Thereafter, the segment of the Plan allowing for the purchase of a life insurance policy on the life of the participant was frozen so that no new policies could be written. Participants with policies at December 31, 1986, had the following options: 1) allow the policy to remain in force with a frozen face value and fixed premium payments, 2) elect to use the cash surrender value (CSV) of the policy to purchase paid-up life insurance or 3) reinvest the CSV of the policy in another fund. Principal maintains the contributions in a group account.

The Contract is included in the Statements of Net Assets Available for Benefits at contract value (which represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses) because it is fully benefit responsive. There are no reserves against contract value for credit risk of Principal or otherwise. The value of the Contract at December 31, 2004 and 2003 was \$687,709 and \$700,346, respectively.

The following presents the fair value of investments that represent 5% or more of the Plan's net assets:

**Tax Status**

The Plan is qualified under the IRC as exempt from federal income taxes, and the Plan received a favorable determination letter from the Internal Revenue Service on November 26, 2002. The Plan has been amended since receiving this determination; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the administrator believes that the Plan was tax exempt as of the financial statement dates.

Employer contributions to the Plan and all earnings from Plan investments are not taxable to participants until a partial or complete distribution of such contributions or earnings is made.

6.

**Party-in-Interest Transactions**

Certain Plan investments are shares of Kinder Morgan, Inc. common stock. Certain Plan investments are shares of mutual funds and money market funds managed by Putnam Investments, Inc. Putnam Fiduciary Trust Company (the Trustee of the Plan) is a subsidiary of Putnam Investments, Inc. and, therefore, these transactions qualify as

party-in-interest. Any purchases and sales of these investments are open market transactions at fair market value. Consequently, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

7.

**Risks and Uncertainties**

The Plan provides for various investment options in mutual funds, money market funds and Company common stock. Investments, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts shown in the Statements of Net Assets Available for Benefits.

8.

**Reconciliation of the Plan Financial Statements to Form 5500**

The following is a reconciliation of the Plan's net assets available for benefits per the accompanying financial statements at December 31, 2004 and 2003 to Form 5500:

	<b>2004</b>	<b>December 31,</b>	<b>2003</b>
Net assets available for benefits per the financial statements	\$537,398,603		\$457,585,904
Deemed distributions of participant loans	(132,448	)	(110,043)
Net assets available for benefits per Form 5500	\$537,266,155		\$457,475,861

The following is a reconciliation of the change in net assets available for benefits per the accompanying financial statements for the year ended December 31, 2004 to Form 5500:

	<b>Year Ended</b>
	<b>December 31, 2004</b>
Net increase in net assets available for benefits per the financial statements	\$ 79,812,699
Deemed distributions of participant loans	(22,405)

Net increase, net of transfer of assets per Form 5500	\$ 79,790,294
--	---------------

Amounts allocated to deemed distributions of participant loans are recorded as an investment in the accompanying financial statements and recorded as an expense on Form 5500.

A participant loan is deemed distributed during the plan year under the provisions of IRC section 72(p) and Treasury Regulation section 1.72(p) if the participant loan is treated as a direct investment solely of the participant's individual account and the participant has discontinued payment of the loan as of the end of the year. For financial statement purposes, the loan balance is still considered as an outstanding loan until the loan obligation has been satisfied and is not treated as an actual distribution until such time the participant separates from employment and the participant's vested account balance is fully distributed.
