metrics for the Company's 2004 Bonus Plan to exclude the net income impacts of the Company's asset impairment charge, business restructuring charge and three other non-operating events. The Committee also established the performance metrics for the Company's 2005 Bonus Plan which will be based on 50% net income and 50% revenue, and a discretionary modifier (plus or minus up to 25%) based on competitive performance. The Company's senior executives participate in the Company's Bonus Plans subject to the terms of the AT&T Short Term Incentive Program, as amended, filed by the Company as Exhibit (10)(iii)(A)(1) to its Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2004 (Commission file number 1-1105).

The Committee approved effective January 20, 2005 a payout level of 100% of target for performance share awards for senior executives outstanding from the 2002-2004 performance cycle. These performance share awards were made under the Company's 1997 Long Term Incentive Program, as amended, filed by the Company as Exhibit (10)(iii)(A)(2) to its Annual Report on Form 10-K for 1997 (Commission file number 1-1105). In addition, the Committee approved the 2005 compensation structure for equity awards, which in the case of senior executives will consist of 70% performance shares for a 2005-2007 performance cycle and 30% restricted stock units. The performance criteria for outstanding performance shares for 2005 will be the same as those established under the 2005 Bonus Plan. The restricted stock units will vest 50% after two years and 25% each after the third and fourth year. The Company's equity awards for 2005 will be made under the Company's 2004 Long Term Incentive Plan, which was filed by the Company as Exhibit 4.1 to Form S-8 filed May 26, 2004 (Commission file number 333-115909).

The 2004 Bonus Plan payments, and 2005 restricted stock awards and performance share awards, approved by the Committee for AT&T's named executive officers based upon 2004 compensation are set forth in the table below:
