HYDROMER, INC. and CONSOLIDATED SUBSIDIARY  
Notes to Consolidated Financial Statements

In the opinion of management, the accompanying unaudited financial statements include all adjustments (consisting of only normal adjustments) necessary for a fair presentation of the results for the interim periods. Certain reclassifications have been made to the previous year's results to present comparable financial statements.

Segment Reporting:

The Company operates two primary business segments. The Company evaluates the segments by revenues, total expenses and earnings before taxes. Corporate Overhead is excluded from the business segments as to not distort the contribution of each segment.

The results for the six months ended December 31, by segment are:

	Polymer Research	Medical Products	Corporate Overhead	Total
2004				
Revenues.....	\$ 2,631,063	\$ 1,496,963	-	\$ 4,128,026
Expenses.....	(1,762,884)	(1,683,097)	\$ (637,628)	(4,083,609)
Earnings (Loss) before Income Taxes.....	\$ 868,179	\$ (186,134)	\$ (637,628)	\$ 44,417

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF THE FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### Results of Operations

The Company's revenues for the quarter ended December 31, 2004 were \$2,181,696 as compared to \$1,981,686 for the same period last year or a 10.1% increase. Revenues for the six months ended December 31, 2004 were \$4,128,026, up 14.0% from \$3,621,551 the corresponding period a year ago. Revenues are comprised of the sale of Products and Services and Royalty, Options and License payments.

Product sales and services were \$1,506,275 for the quarter ended December 31, 2004 as compared to \$1,391,276 for the same period last year, an increase of 8.3%. For the six months ended December 31, 2004, product sales and services were \$2,859,067 as compared to \$2,473,168 the prior year, a 15.6% increase. Stronger sales in our contract coating, R&D Services and Cosmetic product lines this year contributed to the increase.

Royalty, license and option revenues from patented products were \$675,421 for the quarter, up 14.4% from \$590,410 the same period a year ago. For the six months ended December 31, 2004, royalty, license and option revenues were \$1,268,959, up 10.5% from \$1,148,383 the same period a year ago.

As of December 31, 2004, our open sales order book was approximately \$982,000, which represents orders for delivery during the remainder of the current fiscal year. Some of these orders are subject to cancellation, however, the Company is of the opinion that no substantial cancellations will occur. Our open order book excludes though, future orders that would come up during the normal course of business for immediate delivery also during this fiscal year.

Total Expenses for the quarter ended December 31, 2004 were \$2,124,906 as compared with \$1,901,543 the year before, or an increase of 11.7%. For the six months ended December 31, 2004, total Expenses were \$4,094,621 as compared with \$3,532,025 the same period the year before, an increase of 15.9%

The Company's Cost of Goods Sold was \$757,406 for the quarter ended December 31, 2004 as compared with \$755,670 the year prior, an increase of 0.2%. On a year-to-date basis, cost of goods sold was \$1,456,163 this year as compared with \$1,343,485 the corresponding

## Edgar Filing: HYDROMER INC - Form 10QSB

period a year ago, an increase of 8.4%. There was a higher cost of goods sold corresponding to the increase in products and services revenues.

Operating expenses were \$1,302,102 for the quarter ended December 31, 2004 as compared with \$1,061,255 the year before, an increase of \$240,847 or 22.7%. For the six month periods, operating expenses were \$2,579,886 this year as compared with \$2,072,925 the previous year. The addition of four scientists, a production manager and a QC manager since March 1, 2004, as part of the Company's investment for the future, resulted in an increase of \$192,000 in higher personnel costs. In addition, during this six month period, the Company expended an additional \$80,000 in litigation costs in its continued infringement claim against a former licensee and other parties.

Interest expense for the six months ended December 31, 2004 and December 31, 2003 were \$50,934 and \$63,745, respectively, lower this period as a result of the lower interest rates: from the refinance of the first mortgage in October 2003 and from the amortization of the mortgage balances.

-6-

Income before Income Taxes was \$96,408 for the current quarter as compared with \$133,547 the same period a year before. For the six months ended December 31, 2004, Income before Income Taxes was \$44,417 compared with \$143,189 a year ago.

Net Income of \$56,790 (\$0.01 per share) is reported for the quarter ended December 31, 2004 as compared to Net Income of \$80,143 (\$0.02 per share) the year before. For the six months ended December 31, 2004, Net Income of \$33,405 (\$0.01 per share) is reported as compared to Net Income of \$89,526 (\$0.02 per share) the year before.

Our reinvestment back into the Company (primarily from an increase in R&D staffing) increased current operating expenses for planned returns in the future.

### Financial Condition

Working capital decreased \$201,090 during the six months ended December 31, 2004. Management believes that its current working capital and available line of credit, along with expected income and expense streams, are sufficient to maintain its current level of operations.

Operating activities used \$90,566 for the six month period ended December 31, 2004.

The Net income adjusted for non-cash expenses, provided \$124,276 in net cash. Working capital accounts utilized \$214,842 in net cash: primarily due to the increase in accounts receivables \$137,467 and \$91,424 for patent expenses.

Investing activities used \$291,584 on capital expenditures and financing activities provided \$492,898 during the six months ended December 31, 2004.

Capital expenditures (the adding of new production capabilities and facilities to meet current demand as well as expanding our QA laboratories and general building maintenance & improvements) were the Company's investing activities this period.

## Edgar Filing: HYDROMER INC - Form 10QSB

The Company manages its working capital and other cash requirements through utilization of its available short-term borrowings - a revolving Line of Credit. During the six months ending December 31, 2004, the Company borrowed, net of repayments, \$521,629 from the Line-of-Credit.

Due to the Company's self-funding of capital expenditures, which was un-typically high, the Company did not meet a ratio coverage covenant on its mortgage loan. During the past twelve months the Company has added new facilities and equipment in the areas of production, research and development and Quality Assurance as well as repaired its roof and replaced HVAC equipment. The Company is near completion of this initiative which will be sufficient for the existing and near future level of operations and R&D initiatives.

The Company's ability to repay the loan under the normal terms of the loan is unhindered and they believe that this issue can be resolved at no or minimal costs.

-7-

### Disclosure Controls and Procedures

The evaluation of the Company's Internal Controls Environment concluded that it was effective for the safeguarding of assets and in ensuring that management is presented material information regarding the organization. The evaluation also determined that there are areas that could be improved upon, however, the controls and procedures in place were appropriate for the type and size of the Company.

The Company has again reviewed its Internal Controls Environment during the prior 90 days, and it has been determined that there have been no significant changes in internal controls or in other factors that could significantly affect the financial statements.

### Litigation:

In May of 2004 the Company filed a suit in the District Court of New Jersey against a former licensee of its T-Hexx products and against an agricultural distributor selling certain products in the west and mid-west. The suit alleges among other things, that the defendants infringed on various patents belonging to the Company and illegally used Company trademarks. The former licensee denied the allegations. The distributor denied the allegations and filed counterclaims against the Company alleging inequitable conduct in obtaining and enforcing the patents and various anti-trust activities. The matter has just begun discovery but the Company is of the opinion that such counterclaims are totally without merit.

### PART II - Other Information

The Company operates entirely from its sole location at 35 Industrial Parkway in Branchburg, New Jersey, an owned facility secured by mortgages through banks.

The existing facility will be adequate for the Company's operations for the foreseeable future.

Edgar Filing: HYDROMER INC - Form 10QSB

Item 6. Exhibits and Reports on Form 8-K:

- a) Exhibits - none
- b) Reports on Form 8-K - Two Form 8-K's were filed during the quarter ending December 31, 2004. One reported the Company's announcement of earnings for the first quarter ending September 30, 2004. The second Form 8-K reported the Company's announcement of receiving a research grant from the National Institute of Health.
