AMERISERV FINANCIAL REPORTS SECOND CONSECUTIVE QUARTER OF PROFITABILITY

JOHNSTOWN, PA AmeriServ Financial, Inc. (NASDAQ: ASRV) completed its second consecutive quarter of profitability by reporting net income for the third quarter of 2003 of \$249,000 or \$0.02 per diluted share. This represents significant improvement and a dramatic turnaround from the net loss of \$4.2 million or \$0.31 per share reported in the third quarter of 2002. As a result of the positive second and third quarter 2003 performance, the Company is also profitable for the nine month period ended September 30, 2003 with net income of \$369,000 or \$0.03 per diluted share compared to a net loss of \$3.2 million or \$0.23 per share for the same period in 2002. The following table highlights the Company's financial performance for both the three and nine month periods ended September 30, 2003 and 2002:

	Third Quarter 2003	Third Quarter 2002	Nine Months Ended September 30, 2003	Nine Months Ended September 30, 2002
Net income (loss)	\$249,000	(\$4,224,000)	\$369,000	(\$3,190,000)

Diluted earnings (loss) per share

0.02	(0.31)	0.03	(0.23)
------	--------	------	--------

At September 30, 2003, ASRV had total assets of \$1.16 billion and shareholders' equity of \$73 million or \$5.21 per share. The Company is well capitalized for regulatory purposes with an asset leverage ratio at September 30, 2003 of 7.19%, compared to a regulatory minimum of 5.0%.

The Company's provision for loan losses totaled \$384,000 or 0.30% of total loans in the third quarter of 2003. This represented a decrease of \$3 million from the third quarter 2002 provision of \$3.4 million or 2.24% of total loans. Net charge-offs also experienced a similar decline dropping from \$3.1 million or 2.08% of total loans in the third quarter of 2002 to \$428,000 or 0.33% of total loans in the third quarter of 2003. The Company's allowance for loan losses totaled \$11.9 million at September 30, 2003 providing 106% coverage of non-performing assets. Non-performing assets totaled \$11.2 million at September 30, 2003. This represented an increase of \$1.1 million from the June 30, 2003 level primarily due to the transfer of a commercial lease into non-accrual status. The Company's largest non-performing asset continues to be a \$4.8 million commercial mortgage loan to a borrower in the personal care industry that is supported by an 80% guarantee by the U.S. Department of Agriculture and is secured by a first mortgage on the personal care facility. If the government guaranteed portion of this commercial mortgage were excluded from the non-performing asset totals, the loan loss reserve coverage of non-performing assets would amount to 162% at September 30, 2003. Overall, the allowance for loan losses as a percentage of total loans increased to 2.39% at September 30, 2003 compared to 1.75% at December 31, 2002 and 0.97% at September 30, 2002.

The Company's net interest income in the third quarter of 2003 decreased by \$1.1 million from the prior year third quarter due to a reduced level of earning assets and a 34 basis point decline in the net interest margin to 2.14%. Loan portfolio shrinkage experienced during 2003 was a predominant factor contributing to both the lower level of earning assets and the quarterly net interest margin contraction. The overall net decrease in loans reflects continuing prepayment pressures caused by the historically low interest rate environment and the Company's internal focus on improving asset quality. The Company completed the restructuring of its lending division during the third quarter of 2003 and is now better positioned to generate increased new loan production in the fourth quarter of 2003. The record rate of mortgage re-financings also contributed to accelerated prepayments on the Company's mortgage backed securities portfolio. This caused an approximate \$500,000 increase in amortization expense on premiums associated with the mortgage-backed securities thus reducing the yield earned on the investment securities portfolio. The Company believes that the after-effect of the significant May-June refinancing wave is now largely completed and the negative earnings impact related to these accelerated prepayments should decline in the fourth quarter.

The Company's total non-interest income in the third quarter of 2003 declined by \$947,000 from the prior year third quarter due primarily to fewer gains realized on investment security sales. Investment security gains decreased by \$954,000 and were at their lowest quarterly level in seven quarters as the increasing interest rate environment limited the Company's ability to capture profits on prepaying securities. The Company's decision to exit the merchant card business in the fourth quarter of 2002 was the item responsible for the decline in other income. Items that favorably impacted third quarter 2003 non-interest income were increased trust fees and deposit service charges. The trust division is focused on continuing to increase the fee revenue generated from union business activities, particularly the

ERECT and Build Funds, which are collective investment funds for trade union pension funds.

The Company's total non-interest expense in the third quarter of 2003 favorably decreased by \$5.9 million when compared to the prior year third quarter due to the Company's continued focus on reducing and containing expenses. The Company recorded a \$3.0 million impairment charge on its mortgage servicing rights in the third quarter of 2002 compared to a modest impairment reversal of \$230,000 in the third quarter of 2003. The dramatic downsizing of the mortgage servicing asset in the first quarter of 2003 has significantly reduced the volatility of this business line on the Company's financial performance. The value of the Company's mortgage servicing rights has declined from \$6.9 million at December 31, 2002 to \$1.9 million at September 30, 2003. The Company also recorded in the third quarter of 2002 a \$920,000 restructuring charge associated with implementing its earnings improvement program. There was no such charge in the third quarter of 2003. The Company is realizing the benefits of its ongoing focus on reducing expenses as evidenced by salaries and employee benefits dropping by \$613,000. There were 42 fewer full-time equivalent employees when compared to the beginning of the third quarter of 2002. Other expenses also declined by \$988,000 due to cost cutting in numerous expense categories, some of the larger of which included advertising expense, merchant card expense, business development expense and education expenses.

AmeriServ Financial, Inc., is the parent of AmeriServ Financial Bank and AmeriServ Trust & Financial Services in Johnstown, AmeriServ Associates of State College, and AmeriServ Life Insurance Company.

This news release may contain forward-looking statements that involve risks and uncertainties, including the risks detailed in the Company's Annual Report and Form 10-K to the Securities and Exchange Commission as defined in the Private Securities Litigation Reform Act of 1995. Actual results may differ materially.
