**AMERISERV FINANCIAL REPORTS FINANCIAL RESULTS FOR THIRD QUARTER AND FIRST NINE MONTHS OF 2005**

JOHNSTOWN, PA AmeriServ Financial, Inc. (NASDAQ: ASRV), as expected, reported a loss of \$10.6 million or (\$0.53) per diluted share for the third quarter of 2005 compared to net income of \$742,000 or \$0.05 per diluted share for the third quarter of 2004. For the first nine months of 2005, the Company reported a net loss of \$9.4 million or (\$0.47) per diluted share compared to net income of \$1.2 million or \$0.09 per diluted share for the first nine months of 2004. The following table highlights the Company's financial performance for both the three and nine-month periods ended September 30, 2005 and 2004:

Third Quarter 2005	Third Quarter 2004	Nine Months Ended	Nine Months Ended
-----------------------	-----------------------	-------------------	-------------------

			September 30, 2005	September 30, 2004
Net income (loss)	(\$10,564,000)	\$742,000	(\$9,361,000)	\$1,222,000
Diluted earnings per share	(0.53)	0.05	(0.47)	0.09

The previously announced successful completion of a \$10.3 million private placement common stock offering provided the Company with the capital to facilitate a series of transactions in the third quarter of 2005 which were designed to significantly improve the Company's interest rate risk position and position the Company for future increased earnings performance. These transactions and their related impact on third quarter earnings were as follows:

1) The Company retired all remaining \$100 million of Federal Home Loan Bank (FHLB) convertible advances that had a cost of approximately 6.0% and a 2010 maturity. The Company incurred a \$6.5 million pre-tax prepayment penalty to accomplish this transaction. 2) The Company terminated all interest rate hedges associated with the FHLB debt. The Company incurred a pre-tax termination fee of \$5.8 million to eliminate these hedges on which the Company was a net payer. 3) The Company sold \$112 million of investment securities to provide the cash needed at the bank for this FHLB debt and swap prepayment. The Company incurred a \$2.6 million pre-tax loss on these investment security sales. The execution of these transactions combined with the capital provided from the successful private placement common stock offering strengthened the Company's balance sheet and reduced its risk profile. At September 30, 2005, the Company's asset leverage ratio improved to 9.90% compared to 7.85% at September 30, 2004.

Allan R. Dennison, President and Chief Executive Officer, commented on the third quarter 2005 results, "While there was considerable cost associated with executing these balance sheet restructuring strategies, it was necessary for the Company to take these corrective actions to complete this phase of our turnaround. AmeriServ now has a traditional community bank balance sheet with debt levels below our peers. We now will be able to fully focus on community banking and our dynamically growing trust company in order to drive meaningful future earnings improvement."

The Company's provision for loan losses totaled \$100,000 or 0.08% of total loans in the third quarter of 2005 compared to no provision recognized in the prior year third quarter. The third quarter 2005 provision was slightly lower than the net charge-offs for the quarter which totaled \$145,000 or 0.11% of total loans. For the nine month period ended September 30, 2005, the Company recorded a negative loan loss provision of \$175,000 compared to a provision of \$643,000 for the same period in 2004 or a net favorable change of \$818,000. The overall reduced provision in 2005 resulted from improved asset quality. Non-performing assets have declined for six consecutive quarters and now total \$3.3 million or 0.61% of total loans. Net charge-offs year-to-date in 2005 have totaled \$283,000 or only 0.07% of total loans compared to net charge-offs of \$2.3 million or 0.63% in 2004. As a result of these asset quality improvements, the allowance for loan losses provided 284% coverage of non-performing assets at September 30, 2005 compared to 254% coverage at December 31, 2004, and 195% coverage at September 30, 2004. The allowance for loan losses as a percentage of total loans amounted to 1.73% at September 30, 2005.

The Company's net interest income in the third quarter of 2005 decreased by \$194,000 from the prior year third quarter and for the first nine months of 2005 declined by \$33,000 when compared to the first nine months of 2004. This decrease reflects the impact of a reduced level of earning assets that offset the benefit of an increased net interest margin. Specifically, for the first nine months of 2005 the net interest margin increased by 34 basis points to 2.60% while the level of average earning assets declined by \$143 million. Both of these items reflect the deleverage of high

cost debt from the Company's balance sheet which has resulted in lower levels of both borrowed funds and investment securities. The Company's net interest margin also benefited from increased loans in the earning asset mix as total loans outstanding averaged \$520 million in the first nine months of 2005 a \$27 million or 5.4% increase from the same 2004 period. This loan growth was most evident in the commercial loan portfolio. Deposits continued their recovery from the low point reached in the fourth quarter of 2004. Total deposits averaged \$697 million for the first nine months of 2005, a \$30 million or 4.6% increase from the same 2004 period due to increased deposits from the trust company's operations. On a linked quarter basis in 2005, the Company has experienced net interest income and net interest margin pressure due to the negative impact that the flatter yield curve has had on the Company's remaining leverage program. The balance sheet restructuring that the Company executed late in the third quarter of 2005 was designed to address this issue and position the Company for net interest income and margin expansion beginning in the fourth quarter.

The Company's non-interest income in the third quarter of 2005 decreased by \$3.4 million from the prior year's third quarter and for the first nine months of 2005 declined by \$4.4 million when compared to the first nine months of 2004. The largest factor responsible for these declines was the previously mentioned \$2.6 million investment security loss realized on the third quarter balance sheet restructuring. The Company had realized investment security gains of \$228,000 in the third quarter of 2004 and \$1.3 million for the nine-month period ended September 30, 2004. Other income declined by \$742,000 in the third quarter of 2005 and by \$903,000 for the nine-month period as the Company benefited from a \$666,000 gain on the sale of an OREO property in the third quarter of 2004. There was no such gain in 2005. Lower mortgage production related revenues also contributed to the decrease in other income in 2005. Deposit service charges increased by \$31,000 in the third quarter of 2005 but are down by \$127,000 for the nine-month period due primarily to fewer overdraft fees and checking service charges. These items overshadowed a \$209,000 quarterly improvement and a \$573,000 or 14.4% increase in trust fees for the nine month period ended September 30, 2005 due to continued successful new business development efforts and the benefit of new customer fee schedules that were implemented in the fourth quarter of 2004.

The Company's non-interest expense for both the third quarter and first nine months of 2005 increased by approximately \$13.2 million from the same 2004 periods. The previously discussed special charges related to the FHLB prepayment penalty and interest rate hedge termination costs were the predominant factors causing the increased non-interest expense. Professional fees were also up by \$392,000 for the quarter and \$530,000 for the nine-month period ended September 30, 2005 due to costs associated with implementing Sarbanes-Oxley Section 404 and higher legal fees. Total employee costs are up by \$98,000 for the third quarter and by \$214,000 or 1.5% for the nine-month period ended September 30, 2005 due primarily to higher medical insurance costs and pension costs which has offset the benefit of a smaller employee base. The Company did benefit from reduced amortization of core deposit intangibles that decreased by \$286,000 for the nine-month period ended September 30, 2005. Also, the loss from discontinued operations declined by \$268,000 in the third quarter of 2005 and by \$339,000 for the nine-month period as a result of the closure of the unprofitable mortgage servicing operation as of June 30, 2005.

The Company's third quarter and nine-month 2005 performance was favorably impacted by an increased income tax benefit resulting from the pre-tax loss incurred in 2005. However, in both 2005 and 2004, the Company lowered its income tax expense by approximately \$450,000 due to a reduction in reserves for prior year tax contingencies as a result of the successful conclusion of an IRS examination on several open tax years.

At September 30, 2005, ASRV had total assets of \$901 million and shareholders' equity of \$85 million or \$3.85 per share. AmeriServ Financial, Inc., is the parent of AmeriServ Financial Bank and AmeriServ Trust & Financial Services in Johnstown, AmeriServ Associates of State College, and AmeriServ Life Insurance Company.

This news release may contain forward-looking statements that involve risks and uncertainties, as defined in the Private Securities Litigation Reform Act of 1995, including the risks detailed in the Company's Annual Report and Form 10-K to the Securities and Exchange Commission. Actual results may differ materially.
