FORWARD-LOOKING STATEMENTS

Certain statements contained in this Quarterly Report on Form 10-Q may be considered “forward-looking statements” as that term is defined in the Private Securities Litigation Reform Act of 1995. The forward-looking statements contained herein are subject to known and unknown risks, uncertainties, assumptions and other factors that may cause our actual results, performance or achievements to be materially different from those expressed or implied by any such forward-looking statements. Forward-looking statements include information concerning our future financial performance, business strategy, projected plans and objectives. These statements may be identified by the fact that they do not relate to historical or current facts and may use words such as “believes,” “expects,” “anticipates,” “will,” “should,” “could,” “may,” “would,” “intends,” “projects,” “estimates,” “plans,” and similar words, expressions or phrases. The following important factors and assumptions could affect our future results and could cause actual results to differ materially from those expressed in such forward-looking statements:

- the high level of competition in the vehicle rental industry and the impact such competition may have on pricing and rental volume;

- a change in travel demand, including changes in airline passenger traffic;

- a change in our fleet costs as a result of a change in the cost of new vehicles, manufacturer recalls, disruption in the supply of new vehicles, and/or a change in the price at which we dispose of used vehicles either in the used vehicle market or under repurchase or guaranteed depreciation programs;

- the results of operations or financial condition of the manufacturers of our cars, which could impact their ability to perform their payment obligations under our agreements with them, including repurchase and/or guaranteed depreciation arrangements, and/or their willingness or ability to make cars available to us or the rental car industry as a whole on commercially reasonable terms or at all;

- any change in economic conditions generally, particularly during our peak season or in key market segments;

- our ability to continue to achieve and maintain cost savings and successfully implement our business strategies;

- our ability to obtain financing for our global operations, including the funding of our vehicle fleet through the issuance of asset-backed securities and use of the global lending markets;

- an occurrence or threat of terrorism, pandemic disease, natural disasters, military conflict or civil unrest in the locations in which we operate;

- our dependence on third-party distribution channels, third-party suppliers of other services and co-marketing arrangements with third parties;

- our ability to utilize derivative instruments, and the impact of derivative instruments we utilize, which can be affected by fluctuations in interest rates, gasoline prices and exchange rates, changes in government regulations and other factors;

- our ability to accurately estimate our future results;

- any major disruptions in our communication networks or information systems;

our exposure to uninsured or unpaid claims in excess of historical levels;

risks associated with litigation, governmental or regulatory inquiries, or any failure or inability to comply with laws, regulations or contractual obligations or any changes in laws, regulations or contractual obligations, including with respect to personally identifiable information and taxes;

any impact on us from the actions of our licensees, dealers and independent contractors;

1

any substantial changes in the cost or supply of fuel, vehicle parts, energy, labor or other resources on which we depend to operate our business;

risks related to our indebtedness, including our substantial outstanding debt obligations and our ability to incur substantially more debt;

our ability to meet the financial and other covenants contained in the agreements governing our indebtedness;

risks related to tax obligations and the effect of future changes in accounting standards;

risks related to completed or future acquisitions or investments that we may pursue, including any incurrence of incremental indebtedness to help fund such transactions and our ability to promptly and effectively integrate any acquired businesses;

risks related to protecting the integrity of our information technology systems and the confidential information of our employees and customers against security breaches, including cyber-security breaches; and

other business, economic, competitive, governmental, regulatory, political or technological factors affecting our operations, pricing or services, including uncertainty and instability related to the potential withdrawal of countries from the European Union.

We operate in a continuously changing business environment and new risk factors emerge from time to time. New risk factors, factors beyond our control, or changes in the impact of identified risk factors may cause actual results to differ materially from those set forth in any forward-looking statements. Accordingly, forward-looking statements should not be relied upon as a prediction of actual results. Moreover, we do not assume responsibility for the accuracy and completeness of those statements. Other factors and assumptions not identified above, including those discussed in “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” “Risk Factors” and other portions of our 2016 Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 21, 2017 (the “2016 Form 10-K”), could cause actual results to differ materially from those projected in any forward-looking statements.

Although we believe that our assumptions are reasonable, any or all of our forward-looking statements may prove to be inaccurate and we can make no guarantees about our future performance. Should unknown risks or uncertainties materialize or underlying assumptions prove inaccurate, actual results could differ materially from past results and/or those anticipated, estimated or projected. Except to the extent of our obligations under the federal securities laws, we undertake no obligation to release any revisions to any forward-looking statements, to report events or to report the occurrence of unanticipated events. For any forward-looking statements contained in any document, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (Unaudited)

(Unless otherwise noted, all dollar amounts in tables are in millions, except per share amounts)

1. Basis of Presentation

Avis Budget Group, Inc. provides car and truck rentals, car sharing services and ancillary services to businesses and consumers worldwide. The accompanying unaudited Consolidated Condensed Financial Statements include the accounts and transactions of Avis Budget Group, Inc. and its subsidiaries, as well as entities in which Avis Budget Group, Inc. directly or indirectly has a controlling financial interest (collectively, the “Company”), and have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission for interim financial reporting.

The Company operates the following reportable business segments:

Americas—provides and licenses the Company’s brands to third parties for vehicle rentals and ancillary products and services in North America, South America, Central America and the Caribbean, and operates the Company’s car sharing business in certain of these markets.

International—provides and licenses the Company’s brands to third parties for vehicle rentals and ancillary products and services in Europe, the Middle East, Africa, Asia, Australasia, and operates the Company’s car sharing business in certain of these markets.

The operating results of acquired businesses are included in the accompanying Consolidated Condensed Financial Statements from the dates of acquisition. The fair value of the assets acquired and liabilities assumed in connection with the Company’s fourth quarter 2016 acquisition of FranceCars has not yet been finalized; however, there have been no significant changes to the preliminary allocation of the purchase price during the six months ended June 30, 2017.

In presenting the Consolidated Condensed Financial Statements in accordance with accounting principles generally accepted in the United States of America (“GAAP”), management makes estimates and assumptions that affect the amounts reported and related disclosures. Estimates, by their nature, are based on judgment and available information. Accordingly, actual results could differ from those estimates. In management’s opinion, the Consolidated Condensed Financial Statements contain all adjustments necessary for a fair presentation of interim results reported. The results of operations reported for interim periods are not necessarily indicative of the results of operations for the entire year or any subsequent interim period. These financial statements should be read in conjunction with the Company’s 2016 Form 10-K.

Summary of Significant Accounting Policies

The Company’s significant accounting policies are fully described in Note 2, “Summary of Significant Accounting Policies,” in the Company’s Annual Report on Form 10-K for fiscal year 2016.

Reclassifications. Certain reclassifications have been made to prior years’ Consolidated Condensed Financial Statements to conform to the current year presentation. These reclassifications have no impact on reported net income (see “Adoption of New Accounting Pronouncements” below).

Vehicle Programs. The Company presents separately the financial data of its vehicle programs. These programs are distinct from the Company’s other activities since the assets under vehicle programs are generally funded through the issuance of debt that is collateralized by such assets. The income generated by these assets is used, in part, to repay the

principal and interest associated with the debt. Cash inflows and outflows relating to the acquisition of such assets and the principal debt repayment or financing of such assets are classified as activities of the Company's vehicle programs. The Company believes it is appropriate to segregate the financial data of its vehicle programs because, ultimately, the source of repayment of such debt is the realization of such assets.

Table of Contents

Transaction-related costs, net. Transaction-related costs, net are classified separately in the Consolidated Condensed Statements of Comprehensive Income. These costs are comprised of expenses related to acquisition-related activities such as due diligence and other advisory costs, expenses related to the integration of the acquiree's operations with those of the Company, including the implementation of best practices and process improvements, non-cash gains and losses related to re-acquired rights, expenses related to pre-acquisition contingencies and contingent consideration related to acquisitions.

Currency Transactions. The Company records the gain or loss on foreign-currency transactions on certain intercompany loans and the gain or loss on intercompany loan hedges within interest expense related to corporate debt, net. During the three months ended June 30, 2017 and 2016, the Company recorded losses of an immaterial amount and \$4 million, respectively, and during the six months ended June 30, 2017 and 2016, the Company recorded losses of an immaterial amount and \$7 million, respectively.

Adoption of New Accounting Pronouncements

On January 1, 2017, as a result of a new accounting pronouncement, the Company adopted Accounting Standards Update ("ASU") 2016-09, "Improvements to Employee Share-Based Payment Accounting," which simplifies several aspects of the accounting for employee share-based payment transactions, including the accounting for income taxes, forfeitures, minimum statutory withholding requirements and classification in the statement of cash flows. Accordingly, in the Company's Consolidated Condensed Balance Sheet at January 1, 2017, deferred income tax assets, net of the valuation allowance were increased by \$56 million related to previously unrecognized excess tax benefits associated with equity awards, with a corresponding decrease to accumulated deficit, using the modified retrospective method. In addition, in the Company's Consolidated Condensed Statement of Cash Flows for the six months ended June 30, 2016, cash taxes paid related to shares directly withheld from employees for tax purposes of \$9 million were reclassified from accounts payable and other current liabilities within net cash provided by operating activities to repurchases of common stock within net cash provided by financing activities exclusive of vehicle programs. The Company elected to account for forfeitures on an actual basis, which did not have a material impact on its Consolidated Condensed Financial Statements.

Recently Issued Accounting Pronouncements

In May 2017, the Financial Accounting Standards Board ("FASB") issued ASU 2017-09, "Stock Compensation, Scope of Modification Accounting," which provides guidance on the types of changes to the terms or conditions of a share-based payment award to which an entity would be required to apply modification accounting. ASU 2017-09 becomes effective for the Company on January 1, 2018. The adoption of this pronouncement is not expected to have a material impact on the Company's Consolidated Financial Statements.

In March 2017, the FASB issued ASU 2017-07, "Improving the Presentation of Net Periodic Pension Costs and Net Periodic Postretirement Benefit Cost," which requires an entity to disaggregate the components of net benefit cost recognized in the consolidated statements of operations. ASU 2017-07 becomes effective for the Company on January 1, 2018. The adoption of this accounting pronouncement is not expected to have a material impact on the Company's Consolidated Financial Statements.

In January 2017, the FASB issued ASU 2017-04, "Intangibles—Goodwill and Other, Simplifying the Test for Goodwill Impairment," which requires an entity to perform its goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount and to recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value. ASU 2017-04 becomes effective for the Company on January 1, 2020. The adoption of this accounting pronouncement is not expected to have an impact on the Company's Consolidated Financial Statements.

In January 2017, the FASB issued ASU 2017-01, “Business Combinations, Clarifying the Definition of a Business,” which assists entities in evaluating whether transactions should be accounted for as acquisitions of assets or businesses. ASU 2017-01 becomes effective for the Company on January 1, 2018. The adoption of this accounting pronouncement is not expected to have a material impact on the Company’s Consolidated Financial Statements.

Table of Contents

In November 2016, the FASB issued ASU 2016-18, “Statement of Cash Flows, Restricted Cash,” which clarifies guidance on the classification and presentation of restricted cash in the statement of cash flows. ASU 2016-18 becomes effective for the Company on January 1, 2018. The adoption of this accounting pronouncement will impact the presentation of restricted cash in the Company’s Consolidated Statements of Cash Flows.

In August 2016, the FASB issued ASU 2016-15, “Classification of Certain Cash Receipts and Cash Payments,” which clarifies guidance on the classification of certain cash receipts and cash payments in the statement of cash flows. ASU 2016-15 becomes effective for the Company on January 1, 2018. The adoption of this accounting pronouncement is not expected to have a material impact on the Company’s Consolidated Financial Statements.

In February 2016, the FASB issued ASU 2016-02, “Leases,” which requires a lessee to recognize all long-term leases on its balance sheet as a liability for its lease obligation, measured at the present value of lease payments not yet paid, and a corresponding asset representing its right to use the underlying asset over the lease term and expands disclosure of key information about leasing arrangements. The ASU does not significantly change a lessee’s recognition, measurement and presentation of expenses and cash flows. Additionally, ASU 2016-02 aligns key aspects of lessor accounting with the new revenue recognition guidance in ASU 2014-09, “Revenue from Contracts with Customers” (see below). ASU 2016-02 becomes effective for the Company on January 1, 2019. Early adoption is permitted. In transition, lessees and lessors are required to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach which includes a number of optional practical expedients that entities may elect to apply. The Company is currently evaluating and planning for the implementation of this ASU, including assessing its overall impact, and expects most of its operating lease commitments will be subject to the new standard and recognized as operating lease liabilities and right-of-use assets upon adoption, which will materially increase total assets and total liabilities relative to such amounts prior to adoption. The Company has determined portions of its vehicle rental contracts that convey the right to control the use of identified assets are within the scope of the accounting guidance contained in ASU 2016-02.

In January 2016, the FASB issued ASU 2016-01, “Recognition and Measurement of Financial Assets and Financial Liabilities,” which makes limited amendments to the classification and measurement of financial instruments. The new standard amends certain disclosure requirements associated with the fair value of financial instruments. ASU 2016-01 becomes effective for the Company on January 1, 2018. The adoption of this accounting pronouncement is not expected to have a material impact on the Company’s Consolidated Financial Statements.

In May 2014, the FASB issued ASU 2014-09, “Revenue from Contracts with Customers,” which outlines a single model for entities to use in accounting for revenue arising from contracts with customers and supersedes current revenue recognition guidance. The new guidance applies to all contracts with customers except for leases, insurance contracts, financial instruments, certain nonmonetary exchanges and certain guarantees. Also, additional disclosures are required about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments. ASU 2014-09 becomes effective for the Company on January 1, 2018 and may be adopted on either a full or modified retrospective basis. The Company is currently evaluating and planning for the implementation of this ASU which will extend through 2017 and has determined it will adopt the requirements of the new standard on a modified retrospective basis using the practical expedient not to restate contracts that begin and end within the same prior fiscal year. The Company derives revenue primarily by providing vehicle rentals and ancillary products to customers and has determined this ASU will affect its presentation of vehicle rental and other revenue as the total transaction price for each vehicle rental contract must be allocated among performance obligations based on standalone selling price. ASU 2014-09 defines standalone selling price as the observable price of a good or service when sold separately in similar circumstances and to similar customers. The Company has also determined this ASU will impact its accounting for customer loyalty programs and rebates.

2. Restructuring and Other Related Charges

Restructuring

During first quarter 2017, the Company initiated a strategic restructuring initiative to drive operational efficiency throughout the organization by reducing headcount, improving processes and consolidating functions, closing certain rental locations and decreasing the size of our fleet (the “T17”). During the six months ended June 30, 2017, as part of this initiative, the Company formally communicated the termination of employment to approximately 535 employees, and as of June 30, 2017, the Company had terminated the employment of approximately 410 of these employees. The costs associated with this initiative primarily represent severance, outplacement services and other costs associated with employee terminations, the majority of which have been or are expected to be settled in cash. The Company expects further restructuring expense of approximately \$10 million related to this initiative to be incurred in 2017.

In conjunction with previous acquisitions, the Company identified opportunities to integrate and streamline its operations, primarily in Europe. This initiative is substantially complete, and the Company does not anticipate any further restructuring expense related to this initiative.

In 2014, the Company committed to various strategic initiatives to identify best practices and drive efficiency throughout its organization, by reducing headcount, improving processes and consolidating functions (the “T15”). The Company does not anticipate any further restructuring expense related to this initiative.

The following tables summarize the changes to our restructuring-related liabilities and identify the amounts recorded within the Company’s reporting segments for restructuring charges and corresponding payments and utilizations:

On May 12, 2017, the Company announced the resignation of David B. Wyshner as the Company’s President and Chief Financial Officer. In connection with Mr. Wyshner’s departure, the Company recorded other related charges of \$7 million during the three and six months ended June 30, 2017, inclusive of accelerated stock-based compensation expense of \$2 million.

Limited Voluntary Opportunity Plan (“LVOP”)

During second quarter 2017, the Company offered a voluntary termination program to certain employees in the Americas’ field operations, shared services, and general and administrative functions for a limited time. These employees, if qualified, could have elected resignation from employment in return for enhanced severance benefits to be settled in cash. In connection with the LVOP, the Company recorded other related

charges of \$14 million. Approximately 325 qualified employees elected to participate in the plan, and as of June 30, 2017, the Company had terminated the employment of approximately 185 of these participants.

3. Earnings Per Share

The following table sets forth the computation of basic and diluted earnings (loss) per share ("EPS") (shares in millions):

	Three Months Ended June 30, 2017 2016		Six Months Ended June 30, 2017 2016	
Net income (loss) for basic and diluted EPS	\$3	\$36	\$(104)	\$(15)
Basic weighted average shares outstanding	84.0	93.9	84.9	95.1
Options and non-vested stock ^(a)	1.2	1.2	—	—

Basic	\$0.04	\$0.39	\$(1.22)	\$(0.16)
Diluted	\$0.04	\$0.38	\$(1.22)	\$(0.16)

For the three months ended June 30, 2017 and 2016, 0.7 million and 0.2 million non-vested stock awards, respectively, have an anti-dilutive effect and therefore are excluded from the computation of diluted weighted average shares outstanding. As the Company incurred a net loss for the six months ended June 30, 2017 and 2016, 0.8 million outstanding options in each period, and 1.3 million and 1.5 million non-vested stock awards, respectively, have an anti-dilutive effect and therefore are excluded from the computation of diluted weighted average shares outstanding.

The floating rate term loan is part of the Company's senior credit facility, which is secured by pledges of capital stock of certain subsidiaries of the Company, and liens on substantially all of the Company's intellectual property and certain other real and personal property. As of June 30, 2017, the floating rate term loan due 2022 bears interest at three-month LIBOR plus 200 basis points, for an aggregate rate of 3.30%. The Company has entered into a swap to hedge \$700 million of its interest rate exposure related to the floating rate term loan at an aggregate rate of 3.75%.

^(b) Primarily includes capital leases which are secured by liens on the related assets.

In March 2017, the Company issued €250 million of 4½% euro-denominated Senior Notes due 2025, at par. In April 2017, the Company used the net proceeds from the offering to redeem its outstanding €175 million principal amount of 6% euro-denominated Senior Notes due 2021 for €180 million plus accrued interest. In June 2017, the Company used the remaining proceeds to redeem a portion of its Floating Rate Senior Notes due 2017.

In March 2017, the Company increased its Floating Rate Term Loan due 2022 to \$1.1 billion and reduced the loan interest rate to three-month LIBOR plus 2.00%. The Company used the incremental term loan proceeds to repay all of its outstanding Floating Rate Term Loan due 2019. In June 2017, the Company used the remaining proceeds to redeem the remainder of its outstanding Floating Rate Senior Notes due 2017.

Debt Covenants

The agreements under the Company's vehicle-backed funding programs contain restrictive covenants, including restrictions on dividends paid to the Company by certain of its subsidiaries and restrictions on indebtedness, mergers, liens, liquidations, and sale and leaseback transactions and in some cases also require compliance with certain financial requirements. As of June 30, 2017, the Company is not aware of any instances of non-compliance with any of the financial covenants contained in the debt agreements under its vehicle-backed funding programs.

11. Commitments and Contingencies

Contingencies

In 2006, the Company completed the spin-offs of its Realogy and Wyndham subsidiaries. The Company does not believe that the impact of any resolution of pre-existing contingent liabilities in connection with the spin-offs should result in a material liability to the Company in relation to its consolidated financial position or liquidity, as Realogy and Wyndham each have agreed to assume responsibility for these liabilities. The Company is also named in litigation that is primarily related to the businesses of its former subsidiaries, including Realogy and Wyndham. The Company is entitled to indemnification from such entities for any liability resulting from such litigation.

In February 2015, the French Competition Authority issued a statement of objections alleging that several car rental companies, including the Company and two of its European subsidiaries, engaged with (i) twelve French airports, the majority of which are controlled by public administrative bodies or the French state, and violated competition law through the distribution by airports of company-specific statistics to car rental companies operating at those airports and (ii) two other international car rental companies in a concerted practice relating to train station surcharges. In February 2017, the Company was notified that the French Competition Authority dismissed the charges and cleared the Company and its subsidiaries of any wrongdoing.

In February 2017, following a state court trial in Georgia, a jury found the Company liable for damages in a case brought by a plaintiff who was injured in a vehicle accident allegedly caused by an employee of an independent contractor of the Company who was acting outside of the scope of employment. In March 2017, the Company was

also found liable for damages in a companion case arising from the same incident. The Company considers the attribution of liability to the Company, and the amount of damages awarded, to be unsupported by the facts of these cases and intends to appeal the verdicts. At December 31, 2016, the Company had recognized a \$26 million liability for the expected loss related to these cases. During the three months ended March 31, 2017, the Company increased this liability by \$13 million and during the three months ended June 30, 2017, recognized recoverable insurance proceeds of \$27 million.

Table of Contents

Therefore, at June 30, 2017, the Company has recognized a net liability for the expected loss related to these cases of approximately \$12 million.

The Company is involved in claims, legal proceedings and governmental inquiries related, among other things, to its vehicle rental operations, including contract and licensee disputes, competition matters, employment matters, insurance and liability claims, intellectual property claims, business practice disputes and other regulatory, environmental, commercial and tax matters. Litigation is inherently unpredictable and, although the Company believes that its accruals are adequate and/or that it has valid defenses in these matters, unfavorable resolutions could occur. The Company estimates that the potential exposure resulting from adverse outcomes of legal proceedings in which it is reasonably possible that a loss may be incurred could, in the aggregate, be up to approximately \$50 million in excess of amounts accrued as of June 30, 2017; however, the Company does not believe that the impact should result in a material liability to the Company in relation to its consolidated financial condition or results of operations.

Commitments to Purchase Vehicles

The Company maintains agreements with vehicle manufacturers under which the Company has agreed to purchase approximately \$1.7 billion of vehicles from manufacturers over the next 12 months. Certain of these commitments are subject to the vehicle manufacturers' satisfying their obligations under their respective repurchase and guaranteed depreciation agreements. The purchase of such vehicles is financed primarily through the issuance of vehicle-backed debt and cash received upon the disposition of vehicles.

Concentrations

Concentrations of credit risk at June 30, 2017 include (i) risks related to the Company's repurchase and guaranteed depreciation agreements with domestic and foreign car manufacturers, including Ford, General Motors, Chrysler, Peugeot, Kia, Volkswagen, Fiat, Mercedes, Toyota and Volvo, and primarily with respect to receivables for program cars that have been disposed but for which the Company has not yet received payment from the manufacturers and (ii) risks related to Realogy and Wyndham, including receivables of \$41 million and \$25 million, respectively, related to certain contingent, income tax and other corporate liabilities assumed by Realogy and Wyndham in connection with their disposition.

12. Stockholders' Equity

Stockholder Rights Plan

In January 2017, the Company's Board of Directors authorized the adoption of a short-term stockholder rights plan, with an expiration date in January 2018. Effective May 3, 2017, the Company terminated the rights plan. Pursuant to the rights plan, the Company declared a dividend of one preferred share purchase right for each outstanding share of common stock, payable to holders of record as of the close of business on February 2, 2017. Each right, which was exercisable only in the event any person or group were to acquire a voting or economic position of 10% or more of the Company's outstanding common stock (with certain limited exceptions), would have entitled any holder other than the person or group whose ownership position had exceeded the ownership limit to purchase common stock having a value equal to twice the \$90 exercise price of the right, or, at the election of the Board of Directors, to exchange each right for one share of common stock (subject to adjustment). On May 3, 2017, the Company also entered into a new cooperation agreement with SRS Investment Management LLC and certain of its affiliates.

Share Repurchases

The Company's Board of Directors has authorized the repurchase of up to approximately \$1.5 billion of its common stock under a plan originally approved in 2013 and subsequently expanded, most recently in 2016. During the six months ended June 30, 2017, the Company repurchased approximately 3.4 million shares of common stock at a cost of approximately \$100 million under the program. During the six months ended June 30, 2016, the Company repurchased approximately 6.5 million shares of common stock at a cost of approximately \$180 million under the program. As of June 30, 2017, approximately \$200 million of authorization remains available to repurchase common stock under this plan.

For the three and six months ended June 30, 2017, amounts reclassified from accumulated other comprehensive income (loss) into selling, general and administrative expenses were \$2 million (\$2 million, net of tax) and \$4 million (\$3 million, net of tax), respectively. For the three and six months ended June 30, 2016, amounts reclassified from accumulated other comprehensive income (loss) into selling, general and administrative expenses were \$2 million (\$1 million, net of tax) and \$3 million (\$2 million, net of tax), respectively.

13. Stock-Based Compensation

The Company recorded stock-based compensation expense of \$4 million and \$6 million (\$3 million and \$4 million, net of tax) during the three months ended June 30, 2017 and 2016, respectively, and \$5 million and \$14 million (\$3 million and \$9 million, net of tax) during the six months ended June 30, 2017 and 2016, respectively.

The Company uses a Monte Carlo simulation model to calculate the fair value of stock unit awards containing a market condition. For the six months ended June 30, 2017, the Company did not issue any stock unit awards containing a market condition. For the six months ended June 30, 2016, the Company's weighted average assumptions for expected stock price volatility, risk-free interest rate, valuation period and dividend yield were 46%, 0.99%, 3 years, and 0.0%, respectively.

The activity related to the Company's restricted stock units ("RSUs") consisted of (in thousands of shares):

The weighted-average fair value of time-based RSUs, and performance-based and market-based RSUs granted during the six months ended June 30, 2016 was \$25.86 and \$23.29, respectively.

(b) The total grant date fair value of RSUs vested during the six months ended June 30, 2017 and 2016 was \$22 million and \$25 million, respectively.

The Company's outstanding time-based RSUs, and performance-based and market-based RSUs had aggregate intrinsic values of \$25 million and \$29 million, respectively. Aggregate unrecognized compensation expense related to time-based RSUs, and performance-based and market-based RSUs, at target, amounted to \$45 million and will be recognized over a weighted average vesting period of 1.5 years. The Company assumes that substantially all outstanding awards will vest over time.

14. Financial Instruments

Derivative Instruments and Hedging Activities

Currency Risk. The Company uses currency exchange contracts to manage its exposure to changes in currency exchange rates associated with its non-U.S.-dollar denominated receivables and forecasted royalties, forecasted earnings of non-U.S. subsidiaries and forecasted non-U.S.-dollar denominated acquisitions. The Company primarily hedges a portion of its current-year currency exposure to the Australian, Canadian and New Zealand dollars, the euro and the British pound sterling. The majority of forward contracts do not qualify for hedge accounting treatment. The fluctuations in the value of these forward contracts do, however, largely offset the impact of changes in the value of the underlying risk they economically hedge. Forward contracts used to hedge forecasted third-party receipts and disbursements up to 12 months are designated and do qualify as cash flow hedges. The Company has designated its euro-denominated notes as a hedge of its investment in euro-denominated foreign operations.

The amount of gains or losses reclassified from other comprehensive income (loss) to earnings resulting from ineffectiveness or from excluding a component of the hedges' gain or loss from the effectiveness calculation for cash flow and net investment hedges during the three and six months ended June 30, 2017 and 2016 was not material, nor is the amount of gains or losses the Company expects to reclassify from accumulated other comprehensive income (loss) to earnings over the next 12 months.

Interest Rate Risk. The Company uses various hedging strategies including interest rate swaps and interest rate caps to create an appropriate mix of fixed and floating rate assets and liabilities. The Company uses interest rate swaps and interest rate caps to manage the risk related to its floating rate corporate debt and its floating rate vehicle-backed debt. The Company records the effective portion of changes in the fair value of its cash flow hedges to other comprehensive income (loss), net of tax, and subsequently reclassifies these amounts into earnings in the period during which the hedged transaction is recognized. The Company records the gains or losses related to freestanding derivatives, which are not designated as a hedge for accounting purposes, in its consolidated results of operations. The changes in fair values of hedges that are determined to be ineffective are immediately reclassified from accumulated other comprehensive income (loss) into earnings. The amount of gains or losses reclassified from other comprehensive income (loss) to earnings resulting from ineffectiveness related to the Company's cash flow hedges was not material during the three and six months ended June 30, 2017 and 2016. The Company estimates that \$2 million of losses currently recorded in accumulated other comprehensive income (loss) will be recognized in earnings over the next 12 months.

The Company enters into derivative commodity contracts to manage its exposure to changes in the price of unleaded gasoline. Changes in the fair value of these derivatives are recorded within operating expenses.

The Company held derivative instruments with absolute notional values as follows:

	As of June 30, 2017
Interest rate caps ^(a)	\$10,855
Interest rate swaps	1,800
Foreign exchange contracts	1,176

Commodity contracts (millions of gallons of unleaded gasoline) 6

Represents \$8.0 billion of interest rate caps sold, partially offset by approximately \$2.9 billion of interest rate caps purchased. These amounts exclude \$5.1 billion of interest rate caps purchased by the Company's Avis Budget Rental Car Funding subsidiary as it is not consolidated by the Company.

15. Segment Information

The Company's chief operating decision maker assesses performance and allocates resources based upon the separate financial information from the Company's operating segments. In identifying its reportable segments, the Company considered the nature of services provided, the geographical areas in which the segments operated and other relevant factors. The Company aggregates certain of its operating segments into its reportable segments.

Management evaluates the operating results of each of its reportable segments based upon revenue and "Adjusted EBITDA," which the Company defines as income from continuing operations before non-vehicle related depreciation and amortization, any impairment charges, restructuring and other related charges, early extinguishment of debt costs, non-vehicle related interest, transaction-related costs, net charges for unprecedented personal-injury legal matters and income taxes. Net charges for unprecedented personal-injury legal matters are recorded within operating expenses in the Company's Consolidated Condensed Statement of Comprehensive Income. The Company has revised its definition of Adjusted EBITDA to exclude costs associated with the separation of certain officers of the Company and its limited voluntary opportunity plan, which offers certain employees the limited opportunity to elect resignation from employment for enhanced severance benefits. Costs associated with the separation of certain officers and the limited voluntary opportunity plan are recorded as part of restructuring and other related charges in the Company's Consolidated Condensed Statement of Comprehensive Income. The Company did not revise prior year's Adjusted EBITDA amounts because there were no costs similar in nature to these costs. The Company's presentation of Adjusted EBITDA may not be comparable to similarly-titled measures used by other companies.

16. Guarantor and Non-Guarantor Consolidating Condensed Financial Statements

The following consolidating financial information presents Consolidating Condensed Statements of Comprehensive Income for the three and six months ended June 30, 2017 and 2016, Consolidating Condensed Balance Sheets as of June 30, 2017 and December 31, 2016, and Consolidating Condensed Statements of Cash Flows for the six months ended June 30, 2017 and 2016 for: (i) Avis Budget Group, Inc. (the “Parent”); (ii) ABCR and Avis Budget Finance, Inc. (the “Subsidiary Issuers”); (iii) the guarantor subsidiaries; (iv) the non-guarantor subsidiaries; (v) elimination entries necessary to consolidate the Parent with the Subsidiary Issuers, and the guarantor and non-guarantor subsidiaries; and (vi) the Company on a consolidated basis. The Subsidiary Issuers and the guarantor and non-guarantor subsidiaries are 100% owned by the Parent, either directly or indirectly. All guarantees are full and unconditional and joint and several. This financial information is being presented in relation to the Company’s guarantee of the payment of principal, premium (if any) and interest on the notes issued by the Subsidiary Issuers. See Note 9 - Long-term Debt and Borrowing Arrangements for additional description of these guaranteed notes. The Senior Notes are guaranteed by the Parent and certain subsidiaries.

Investments in subsidiaries are accounted for using the equity method of accounting for purposes of the consolidating presentation. The principal elimination entries relate to investments in subsidiaries and intercompany balances and transactions. For purposes of the accompanying Consolidating Condensed Statements of Comprehensive Income, certain expenses incurred by the Subsidiary Issuers are allocated to the guarantor and non-guarantor subsidiaries.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our Consolidated Condensed Financial Statements and accompanying Notes thereto included elsewhere herein, and with our 2016 Form 10-K. Our actual results of operations may differ materially from those discussed in forward-looking statements as a result of various factors, including but not limited to those included elsewhere in this Quarterly Report on Form 10-Q and those included in the "Management's Discussion and Analysis of Financial Condition and Results of Operations," "Risk Factors" and other portions of our 2016 Form 10-K. Unless otherwise noted, all dollar amounts in tables are in millions and those relating to our results of operations are presented before taxes.

OVERVIEW

Our Company

We operate three of the most recognized brands in the global vehicle rental and car sharing industry, Avis, Budget and Zipcar together with several brands well recognized in their respective markets, including Maggiore in Italy and APEX in both New Zealand and Australia. We are a leading vehicle rental operator in North America, Europe, Australasia and certain other regions we serve, with an average rental fleet of more than 600,000 vehicles. We also license the use of our trademarks to licensees in the areas in which we do not operate directly. We and our licensees operate our brands in approximately 180 countries throughout the world.

Our Segments

We categorize our operations into two reportable business segments: Americas, consisting primarily of our vehicle rental operations in North America, South America, Central America and the Caribbean, and our car sharing operations in certain of these markets; and International, consisting primarily of our vehicle rental operations in Europe, the Middle East, Africa, Asia, Australasia, and our car sharing operations in certain of these markets.

Business and Trends

Our revenues are derived principally from vehicle rentals in our Company-owned operations and include:

- time and mileage fees charged to our customers for vehicle rentals;
- payments from our customers with respect to certain operating expenses we incur, including gasoline and vehicle licensing fees, as well as concession fees, which we pay in exchange for the right to operate at airports and other locations;
- sales of loss damage waivers and insurance and rentals of navigation units and other items in conjunction with vehicle rentals; and
- royalty revenue from our licensees in conjunction with their vehicle rental transactions.

Our operating results are subject to variability due to seasonality, macroeconomic conditions and other factors. Car rental volumes tend to be associated with the travel industry, particularly airline passenger volumes, or enplanements, which in turn tend to reflect general economic conditions. Our vehicle rental operations are also seasonal, with the third quarter of the year historically having been our strongest due to the increased level of leisure travel during the quarter. We have a partially variable cost structure and routinely adjust the size, and therefore the cost, of our rental fleet in response to fluctuations in demand.

Thus far in 2017, we have continued to operate in an uncertain and uneven economic environment marked by heightened geopolitical risks, competitive market conditions and soft used-vehicle values in the U.S. in particular. Nonetheless, we continue to anticipate that worldwide demand for vehicle rental and car sharing services will increase in 2017, most likely against a backdrop of modest and uneven global economic growth. Our access to new fleet vehicles has been adequate to meet our needs for both replacement of existing vehicles in the normal course and for

growth to meet incremental demand, and we expect that to continue to be the case. We will look to pursue opportunities for pricing increases in 2017 in order to enhance our profitability and returns on invested capital.

Table of Contents

Our objective is to focus on strategically accelerating our growth, strengthening our global position as a leading provider of vehicle rental services, continuing to enhance our customers' rental experience, and controlling costs and driving efficiency throughout the organization. We operate in a highly competitive industry and we expect to continue to face challenges and risks. We seek to mitigate our exposure to risks in numerous ways, including delivering upon our core strategic initiatives, continued optimization of fleet levels to match changes in demand for vehicle rentals, adjustments in the size, nature and terms of our relationships with vehicle manufacturers, appropriate investments in technology and maintenance of liquidity to fund our fleet and our operations.

During 2017:

Our net revenues totaled \$4.1 billion in the six months ended June 30, 2017 and decreased 1% compared to the six months ended June 30, 2016 due to lower time and mileage revenue per day offset by increased rental volumes.

In the six months ended June 30, 2017, our net loss was \$104 million, representing an \$89 million year-over-year reduction in earnings, and our Adjusted EBITDA was \$113 million, representing a \$135 million year-over-year reduction, due to lower revenues and higher per-unit fleet costs in the Americas, partially offset by an \$11 million favorable effect from currency exchange rate movements.

In the six months ended June 30, 2017, we repurchased approximately \$100 million of our common stock, reducing our shares outstanding by approximately 3.4 million shares, or 4%.

We issued €250 million of 4½% euro-denominated Senior Notes due 2025 and \$188 million of incremental term loan borrowings, the proceeds of which were used to redeem all of our outstanding 6% euro-denominated Senior Notes due 2021 and our Floating Rate Senior Notes due 2017. As a result of these transactions, we will have no significant corporate debt maturities until 2022.

RESULTS OF OPERATIONS

We measure performance principally using the following key operating statistics: (i) rental days, which represents the total number of days (or portion thereof) a vehicle was rented, (ii) time and mileage revenue per rental day, which represents the average daily revenue we earned from rental time and mileage fees charged to our customers, both of which exclude our U.S. truck rental and Zipcar car sharing operations and (iii) per-unit fleet costs represent vehicle depreciation, lease charges and gain or loss on vehicle sales, divided by average rental fleet and exclude our U.S. truck rental operations. We also measure our ancillary revenues (rental-transaction revenue other than time and mileage revenue), such as from the sale of collision and loss damage waivers, insurance products, fuel service options and portable GPS navigation unit rentals. Our vehicle rental operating statistics (rental days and time and mileage revenue per rental day) are all calculated based on the actual rental of the vehicle during a 24-hour period. We believe that this methodology provides our management with the most relevant statistics in order to manage the business. Our calculation may not be comparable to other companies' calculation of similarly-titled statistics. We present currency exchange rate effects to provide a method of assessing how our business performed excluding the effects of foreign currency rate fluctuations. Currency exchange rate effects are calculated by translating the current-year results at the prior-period average exchange rate plus any related gains and losses on currency hedges.

We assess performance and allocate resources based upon the separate financial information of our operating segments. In identifying our reportable segments, we also consider the nature of services provided by our operating segments, the geographical areas in which our segments operate and other relevant factors. Management evaluates the operating results of each of our reportable segments based upon revenue and "Adjusted EBITDA," which we define as income from continuing operations before non-vehicle related depreciation and amortization, any impairment charges, restructuring and other related charges, early extinguishment of debt costs, non-vehicle related interest,

transaction-related costs, net charges for unprecedented personal-injury legal matters and income taxes. Net charges for unprecedented personal-injury legal matters are recorded within operating expenses in our consolidated results of operations. We have revised our definition of Adjusted EBITDA to exclude costs associated with the separation of certain officers of the Company and its limited voluntary opportunity plan, which offers certain employees the limited opportunity to elect resignation from employment for enhanced severance benefits. Costs associated with the separation of certain officers and the limited voluntary opportunity plan are recorded as part of restructuring and other related charges

Table of Contents

in our consolidated results of operations. We did not revise prior year's Adjusted EBITDA amounts because there were no costs similar in nature to these costs. We believe Adjusted EBITDA is useful as a supplemental measure in evaluating the aggregate performance of our operating businesses and in comparing our results from period to period. We believe that Adjusted EBITDA is useful to investors because it allows investors to assess our results of operations and financial condition on the same basis that management uses internally. Adjusted EBITDA is a non-GAAP measure and should not be considered in isolation or as a substitute for net income or other income statement data prepared in accordance with U.S. GAAP. Our presentation of Adjusted EBITDA may not be comparable to similarly-titled measures used by other companies.

During second quarter 2017, our net revenues were in line with prior year as a result of a 5% increase in rental volumes, offset by a 5% reduction in time and mileage revenue per day. Currency exchange rate movements reduced revenues by \$20 million.

Total expenses increased as a result of increased volumes, a 7% increase in per-unit fleet costs and increased restructuring and other related charges, which include a voluntary termination program to reduce expenses in our field operations, shared services and general and administrative functions. These increases were partially offset by a \$19 million favorable effect on expenses from currency exchange rate movements and cost mitigating actions. Our effective tax rates were a provision of 73% and 43% for the three months ended June 30, 2017 and 2016, respectively, due to the mix of our earnings in the U.S. and foreign jurisdictions. As a result of these items, our net income decreased by \$33 million.

For the three months ended June 30, 2017, the Company reported earnings of \$0.04 per diluted share, which includes after-tax restructuring and other related charges of (\$0.28) per share, after-tax transaction-related costs of (\$0.05) per share and after-tax reversal of charges for legal matter of \$0.19 per share. For the three months ended June 30, 2016, the Company reported earnings of \$0.38 per diluted share, which includes after-tax debt extinguishment costs of (\$0.06) per share, after-tax restructuring and other related charges of (\$0.04) per share and after-tax transaction-related costs of (\$0.04) per share.

Table of Contents

In the three months ended June 30, 2017:

Operating expenses were reduced to 49.5% of revenue from 50.0% in second quarter 2016, primarily due to the recognition of recoverable insurance proceeds related to an unprecedented personal-injury legal matter.

Vehicle depreciation and lease charges increased to 26.7% of revenue from 23.7% in second quarter 2016, due to higher per-unit fleet costs.

Selling, general and administrative costs were reduced to 13.1% of revenue compared to 13.9% in second quarter 2016, due to cost mitigating actions.

Vehicle interest costs, at 3.3% of revenue, remained in line with the prior-year period.

Following is a more detailed discussion of the results of each of our reportable segments and reconciliation of net income to Adjusted EBITDA:

Americas

	2017	2016	% Change
Revenue	\$1,565	\$1,593	(2 %)
Adjusted EBITDA	96	163	(41 %)

Revenues were 2% lower in second quarter 2017 compared with second quarter 2016, primarily due to a 4% reduction in time and mileage revenue per day, partially offset by a 2% increase in rental volumes. Currency movements reduced revenues by \$4 million.

Adjusted EBITDA decreased 41% in second quarter 2017 compared with second quarter 2016, due to lower revenues and a 10% increase in per-unit fleet costs.

Table of Contents

In the three months ended June 30, 2017:

• Operating expenses were reduced to 47.6% of revenue from 48.6% in second quarter 2016, primarily due to the recognition of recoverable insurance proceeds related to an unprecedented personal-injury legal matter.

• Vehicle depreciation and lease charges increased to 29.5% of revenue from 25.9% in the prior-year period, due to higher per-unit fleet costs.

• Selling, general and administrative costs were reduced to 11.3% of revenue from 11.7% in second quarter 2016, primarily due to cost mitigating actions.

• Vehicle interest costs increased to 3.8% of revenue compared to 3.6% in second quarter 2016.

International

	2017	2016	% Change
Revenue	\$673	\$650	4 %
Adjusted EBITDA	59	57	4 %

Revenues increased 4% in second quarter 2017 compared to second quarter 2016, due to an 11% increase in rental volumes, largely driven by the acquisition of FranceCars in December 2016 and the shift in Easter to second quarter, partially offset by a 6% reduction in time and mileage revenue per day (including a 3% negative effect from currency movements). Currency movements negatively effected revenues by \$16 million.

Adjusted EBITDA increased 4% in second quarter 2017 compared to second quarter 2016, due to increased revenues and cost mitigating actions, partially offset by a 3% increase in per-unit fleet costs (including a 2% favorable effect from currency exchange rates) and a \$6 million negative effect from currency movements.

In the three months ended June 30, 2017:

• Operating expenses, at 53.3% of revenue, remained in line with the prior-year period.

• Vehicle depreciation and lease charges increased to 20.3% of revenue from 18.4% in second quarter 2016, due to higher per-unit fleet costs.

• Selling, general and administrative costs were reduced to 15.6% of revenue from 17.1% in the prior-year period, primarily due to cost mitigating actions.

• Vehicle interest costs were reduced to 2.1% of revenue compared to 2.5% in second quarter 2016, principally due to lower borrowing rates.

During the six months ended June 30, 2017, our net revenues decreased as a result of a 5% reduction in time and mileage revenue per day (including a 1% negative effect from currency exchange rate movements), partially offset by a 4% increase in rental volumes. Currency movements reduced revenues by \$24 million year-over-year.

Total expenses increased as a result of increased volumes and a 6% increase in per-unit fleet costs, partially offset by a \$46 million (1%) favorable effect on expenses from currency exchange rate movements and cost mitigating actions. Our effective tax rates were a benefit of 32% and 35% for the six months ended June 30, 2017 and 2016, respectively. As a result of the decrease in our net revenues and these items, our net loss increased by \$89 million.

For the six months ended June 30, 2017, the Company reported a loss of \$1.22 per diluted share, which includes after-tax restructuring and other related charges of (\$0.33) per share, after-tax transaction-related costs of (\$0.08) per share, after-tax debt extinguishment costs of (\$0.02) per share and after-tax reversal of charges for legal matter of \$0.10 per share. For the six months ended June 30, 2016, the Company reported a loss of \$0.16 per diluted share, which includes after-tax restructuring and other related charges of (\$0.15) per share, after-tax transaction-related costs of (\$0.07) per share and after-tax debt extinguishment costs of (\$0.06) per share.

In the six months ended June 30, 2017:

- Operating expenses increased to 52.9% of revenue from 52.4% in the prior-year period, due to lower time and mileage revenue per day, partially offset by the recognition of recoverable insurance proceeds related to an unprecedented personal-injury legal matter.

Vehicle depreciation and lease charges increased to 27.0% of revenue from 24.1% in the six months ended June 30, 2016, primarily due to higher per-unit fleet costs.

Table of Contents

Selling, general and administrative costs were reduced to 13.6% of revenue from 14.1% in first half 2016, primarily due to cost mitigating actions.

Vehicle interest costs were 3.4% of revenue compared to 3.3% in the prior-year period.

Adjusted EBITDA	66	58	14 %

Revenues increased 3% in the six months ended June 30, 2017 compared with the same period in 2016, primarily due to a 9% increase in rental volumes, largely driven by the acquisition of FranceCars, partially offset by a 6% reduction in time and mileage revenue per day (including a 2% negative effect from currency exchange rate changes). Currency movements negatively effected revenues by \$24 million.

Adjusted EBITDA increased 14% in the six months ended June 30, 2017 compared with the same period in 2016, due to increased revenues, cost mitigating actions and an \$11 million favorable effect from currency movements.

In the six months ended June 30, 2017:

Operating expenses were 56.4% of revenue compared to 56.5% in the prior-year period.

Vehicle depreciation and lease charges increased to 20.3% of revenue from 18.8% compared to first half 2016, primarily due to lower time and mileage revenue per day.

Selling, general and administrative costs were reduced to 15.6% of revenue compared to 17.2% in the prior-year period, due to cost mitigating actions.

Vehicle interest costs were reduced to 2.1% of revenue compared to 2.5% in the six months ended June 30, 2016 due to lower borrowing rates.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

We present separately the financial data of our vehicle programs. These programs are distinct from our other activities as the assets under vehicle programs are generally funded through the issuance of debt that is collateralized by such assets. The income generated by these assets is used, in part, to repay the principal and interest associated with the debt. Cash inflows and outflows relating to the generation or acquisition of such assets and the principal debt repayment or financing of such assets are classified as activities of our vehicle programs. We believe it is appropriate to segregate the financial data of our vehicle programs because, ultimately, the source of repayment of such debt is the realization of such assets.

FINANCIAL CONDITION

	June 30, 2017	December 31, 2016	Change
Total assets exclusive of assets under vehicle programs	\$6,813	\$ 6,065	\$ 748
Total liabilities exclusive of liabilities under vehicle programs	6,189	5,775	414
Assets under vehicle programs	14,019	11,578	2,441
Liabilities under vehicle programs	14,495	11,647	2,848
Stockholders' equity	148	221	(73)

Total assets exclusive of assets under vehicle programs increased primarily due to a seasonal increase in value-added tax receivables, which are recoverable from government agencies and a temporary increase in cash. Total liabilities exclusive of liabilities under vehicle programs increased primarily due to a seasonal increase in accounts payable.

The increases in assets under vehicle programs and liabilities under vehicle programs are principally related to the seasonal increase in the size of our vehicle rental fleet. The decrease in stockholders' equity is primarily due to our net loss.

LIQUIDITY AND CAPITAL RESOURCES

Our principal sources of liquidity are cash on hand and our ability to generate cash through operations and financing activities, as well as available funding arrangements and committed credit facilities, each of which is discussed below.

During the six months ended June 30, 2017, we issued €250 million of 4½% euro-denominated Senior Notes due 2025 at par. The proceeds from this borrowing were used to redeem all of our outstanding 6% euro-denominated Senior Notes due 2021 and a portion of our Floating Rate Senior Notes due 2017. We also increased our Floating Rate Term Loan borrowing by \$188 million, these proceeds were used to repay the remainder of our outstanding Floating Rate Senior Notes due 2017. In addition, our Avis Budget Rental Car Funding subsidiary issued approximately \$600 million in asset-backed notes with an expected final payment date of September 2022 and a weighted average interest rate of 3%. The proceeds from these borrowings were used to fund the repayment of maturing vehicle-backed debt and the acquisition of rental cars in the United States. We also increased our capacity under our European rental fleet securitization program by €250 million, the proceeds of which were used to finance fleet purchases for certain of our European operations. During the six months ended June 30, 2017, we repurchased approximately 3.4 million shares of our outstanding common stock for approximately \$100 million.

CASH FLOWS

The following table summarizes our cash flows:

	Six Months Ended June 30,		
	2017	2016	Change
Cash provided by			
(used in):			
Operating activities	\$ 1,139	\$ 1,079	\$ 60
Investing activities	(3,019)	(3,081)	62
Financing activities	2,139	2,064	75
Effect of exchange rate changes	27	13	14
Net increase in cash and cash equivalents	286	75	211
Cash and cash equivalents, beginning of period	490	452	38
Cash and cash equivalents, end of period	\$ 776	\$ 527	\$ 249

The increase in cash provided by operating activities during the six months ended June 30, 2017 compared with the same period in 2016 is principally due to changes in the components of working capital.

The decrease in cash used in investing activities during the six months ended June 30, 2017 compared with the same period in 2016 is primarily due to a net decrease in investment in vehicles.

The increase in cash provided by financing activities during the six months ended June 30, 2017 compared with the same period in 2016 primarily reflects a decrease in our repurchases of common stock.

DEBT AND FINANCING ARRANGEMENTS

At June 30, 2017, we had approximately \$15 billion of indebtedness, including corporate indebtedness of approximately \$4 billion and debt under vehicle programs of approximately \$11 billion. For detailed information regarding our debt and borrowing arrangements, see Notes 9 and 10 to our Consolidated Condensed Financial Statements.

LIQUIDITY RISK

Our primary liquidity needs include the payment of operating expenses, servicing of corporate and vehicle-related debt and procurement of rental vehicles to be used in our operations. The present intention of management is to reinvest the undistributed earnings of the Company's foreign subsidiaries indefinitely into its foreign operations. We do not anticipate the need to repatriate foreign earnings to the United States to service corporate debt or for other U.S. needs. Our primary sources of funding are operating revenue, cash received upon the sale of vehicles, borrowings under our vehicle-backed borrowing arrangements and our senior revolving credit facility, and other financing activities.

Table of Contents

As discussed above, as of June 30, 2017, we have cash and cash equivalents of approximately \$0.8 billion, available borrowing capacity under our committed credit facilities of approximately \$0.5 billion and available capacity under our vehicle programs of approximately \$1.6 billion.

Our liquidity position could be negatively affected by financial market disruptions or a downturn in the U.S. and worldwide economies, which may result in unfavorable conditions in the vehicle rental industry, in the asset-backed financing market, and in the credit markets generally. We believe these factors have in the past affected and could in the future affect the debt ratings assigned to us by credit rating agencies and the cost of our borrowings. Additionally, a downturn in the worldwide economy or a disruption in the credit markets could impact our liquidity due to (i) decreased demand and pricing for vehicles in the used-vehicle market, (ii) increased costs associated with, and/or reduced capacity or increased collateral needs under, our financings, (iii) the adverse impact of vehicle manufacturers, including Ford, General Motors, Chrysler, Peugeot, Kia, Volkswagen, Fiat, Mercedes, Toyota and Volvo, being unable or unwilling to honor their obligations to repurchase or guarantee the depreciation on the related program vehicles and (iv) disruption in our ability to obtain financing due to negative credit events specific to us or affecting the overall debt market.

Our liquidity position could also be negatively impacted if we are unable to remain in compliance with the financial and other covenants associated with our senior credit facility and other borrowings, including a maximum leverage ratio. As of June 30, 2017, we were in compliance with the financial covenants governing our indebtedness. For additional information regarding our liquidity risks, see Part I, Item 1A, “Risk Factors” of our 2016 Form 10-K.

CONTRACTUAL OBLIGATIONS

Our future contractual obligations have not changed significantly from the amounts reported within our 2016 Form 10-K with the exception of our commitment to purchase vehicles, which decreased by approximately \$6.0 billion from December 31, 2016, to approximately \$1.7 billion at June 30, 2017. Changes to our obligations related to corporate indebtedness and debt under vehicle programs are presented above within the section titled “Liquidity and Capital Resources—Debt and Financing Arrangements” and also within Notes 9 and 10 to our Consolidated Condensed Financial Statements.

ACCOUNTING POLICIES

The results of the majority of our recurring operations are recorded in our financial statements using accounting policies that are not particularly subjective, nor complex. However, in presenting our financial statements in conformity with generally accepted accounting principles, we are required to make estimates and assumptions that affect the amounts reported therein. Several of the estimates and assumptions that we are required to make pertain to matters that are inherently uncertain as they relate to future events. Presented within the section titled “Critical Accounting Policies” of our 2016 Form 10-K are the accounting policies (related to goodwill and other indefinite-lived intangible assets, vehicles, income taxes and public liability, property damage and other insurance liabilities) that we believe require subjective and/or complex judgments that could potentially affect 2017 reported results. There have been no significant changes to those accounting policies or our assessment of which accounting policies we would consider to be critical accounting policies.

New Accounting Standards

For detailed information regarding new accounting standards and their impact on our business, see Note 1 to our Consolidated Condensed Financial Statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to a variety of market risks, including changes in currency exchange rates, interest rates and gasoline prices. We assess our market risks based on changes in interest and currency exchange rates utilizing a sensitivity analysis that measures the potential impact on earnings, fair values and cash flows based on a hypothetical 10% change (increase and decrease) in interest and foreign currency exchange rates. We used June 30, 2017 market rates to perform a sensitivity analysis separately for each of these market risk exposures. We have determined, through such analyses, that the impact of a 10% change in interest or currency exchange rates on our results of operations, balance sheet and cash flows would not be material. Additionally, we have commodity price exposure related to fluctuations in the price of unleaded gasoline. We anticipate that such commodity risk will remain a market risk exposure for the foreseeable future. We determined that a 10% change in the price of unleaded gasoline would not have a material impact on our earnings for the period ended June 30, 2017. For additional information regarding our long-term borrowings and financial instruments, see Notes 9, 10 and 14 to our Consolidated Condensed Financial Statements.

Item 4. Controls and Procedures

Disclosure Controls and Procedures. Under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, our management conducted an evaluation of the effectiveness of our disclosure (a) controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of June 30, 2017.

(b) Changes in Internal Control Over Financial Reporting. During the fiscal quarter to which this report relates, there has been no change in the Company’s internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that has materially affected, or is reasonably likely to materially affect, the Company’s internal control over financial reporting.
