Washington Trust Announces 14% Increase
In 2nd Quarter Earnings

Westerly, Rhode Island...Washington Trust Bancorp, Inc. (NASDAQ: WASH), parent company of The Washington Trust Company, today reported net income of \$4.574 million for the three months ended June 30, 2003, up 14 percent from the \$4.024 million reported for the second quarter of 2002. On a diluted earnings per share basis, the Corporation earned 34 cents for the three months ended June 30, 2003, compared to 31 cents per diluted share for the second quarter of 2002. In June 2003, the Corporation incurred an after tax charge of \$649 thousand, or 5 cents per diluted share, related to the prepayment of certain higher interest rate Federal Home Loan Bank advances. Excluding this special item in 2003 and excluding merger related charges of \$417 thousand after tax, or 3 cents per diluted share, in the second quarter 2002, earnings for the three months ended

June 30, 2003 were \$5.223 million, or 39 cents per diluted share, as compared to \$4.441 million, or 34 cents per share, for the same period a year ago.

The return on average assets and return on average equity for the three months ended June 30, 2003 were 1.01% and 13.57%, compared to 1.03% and 13.68%, respectively, for the three months ended June 30, 2002.

John C. Warren, Washington Trust's Chairman and Chief Executive Officer stated, "We're pleased with our second quarter results. They reflect the Bank's solid performance throughout our lines of business, and our success in maintaining excellent asset quality in a challenging economic environment. Strong residential loan sale gains afforded us the opportunity to prepay certain higher interest rate borrowings to reduce our future borrowing costs, while still realizing a respectable increase in earnings."

Net income for the six months ended June 30, 2003 amounted to \$9.3 million, or 70 cents per diluted share, as compared to \$7.8 million, or 62 cents per diluted share for the same period in 2002. Excluding the 2003 debt prepayment charges and the 2002 merger related charges described previously, earnings for the six months ended June 30, 2003 totaled \$10.0 million, or 75 cents per diluted share, as compared to \$8.2 million, or 65 cents per diluted share for the corresponding period in 2002.

The return on average assets for the six months ended June 30, 2003 was similar to that of the same period a year ago, 1.04% as compared to 1.07%, while the return on average equity declined to 14.06% for the six months ended June 30, 2003, as compared to 14.27% for the same period in 2002.

Net interest income for the second quarter of 2003 increased by 6 percent to \$12.3 million from the second quarter of 2002. Net interest income for the six months ended June 30, 2003 amounted to \$24.2 million, up 15% from the \$21.0 million reported for the corresponding 2002 period, largely due to the April 2002 acquisition of First Financial Corp. The increase in net interest income was due to earning asset growth, however net interest income was adversely affected by a decline in the net interest margin. The net interest margin for the six months ended June 30, 2003 amounted to 2.97%, down 22 basis points from the 3.19% reported for the same period a year ago. The net interest margin has been affected by the significant decline in market interest rates and reflects a decline in yields on loans and securities offset somewhat by lower funding costs of interest-bearing deposits and Federal Home Loan Bank advances.

Noninterest income, excluding net realized gains on securities, totaled \$7.0 million for the quarter ended June 30, 2003, up 29 percent from the \$5.4 million reported for the second quarter of 2002. For the six months ended June 30, 2003, noninterest income amounted to \$12.8 million, an increase of 23 percent from the comparable 2002 amount of \$10.3 million.

--M O R E--

The growth in noninterest income was attributable to increases in gains on loan sales and service charges on deposits. For the first six months of 2003, gains on loan sales amounted to \$2.7 million, an increase of \$1.8 million from the same period in 2002. As a result of the decline in interest rates, the Corporation has experienced heavy residential mortgage activity, predominantly refinancing, which increased the amount of loans sold into the secondary market. The Corporation expects this activity to remain strong during the third quarter of 2003, however this level of activity may not be sustainable in future periods. For the six months ended June 30, 2003, service charges on deposit accounts amounted to \$2.4 million, up \$646 thousand from the corresponding period in 2002. Growth in deposits and changes in the fee structure of various deposit products were contributing factors in this increase. Revenue from trust and investment management services continues to be the largest component of

noninterest income. Trust and investment management income, which is closely tied to the performance of the financial markets, totaled \$5.3 million for the six months ended June 30, 2003, essentially unchanged from the amount reported for the corresponding period in 2002. Revenue growth has slowed reflecting the financial market declines. Trust and investment assets under administration amounted to \$1.576 billion at June 30, 2003, compared to \$1.524 billion at December 31, 2002.

The Corporation recognized net realized gains on securities amounting to \$400 thousand and \$381 thousand in the second quarter of 2003 and 2002, respectively, related to annual contributions of appreciated equity securities to the Corporation's charitable foundation. The costs associated with the contributions amounted to \$433 thousand and \$403 thousand and were included in other noninterest expenses in the second quarter of 2003 and 2002, respectively. For the six months ended June 30, 2003 and 2002, net realized gains on securities totaled \$630 thousand and \$672 thousand, respectively.

For the second quarter of 2003, noninterest expenses totaled \$12.8 million, up \$1.4 million from the amount of noninterest expenses reported for second quarter of 2002. For the six months ended June 30, 2003, noninterest expenses amounted to \$23.8 million, up \$3.2 million from the comparable 2002 amount. Included in noninterest expenses in the second quarter of 2003 were \$941 thousand in prepayment penalty charges associated with the prepayment of certain Federal Home Loan Bank advances totaling \$23 million. The prepayment of certain higher interest rate borrowings was consummated in June 2003 to reduce future funding costs. The Corporation expects that this debt restructuring will result in future interest expense savings of approximately \$510 thousand on an annualized basis over the remaining term of the prepaid debt. Included in the second quarter of 2002 were \$605 thousand of acquisition costs incurred in connection with acquisition of First Financial Corp. Exclusive of the debt prepayment penalties in 2003 and the acquisition costs in 2002, the increase in noninterest expenses was primarily due to normal growth and higher operating costs resulting from the acquisition of First Financial Corp. Salaries and benefits, the largest component of total noninterest expense, amounted to \$13.2 million for the six months ended June 30, 2003, compared to the \$11.6 million reported for the first six months of 2002.

In the first six months of 2003, total loans increased \$27.7 million to \$822.8 million at June 30, 2003. Consumer loans increased \$11.3 million, or 9 percent, from the balance at December 31, 2002, primarily due to growth in home equity lines. Commercial loans increased \$12.6 million, or 3 percent, to \$394.8 million at June 30, 2003. Residential real estate loans were impacted by the refinancing of fixed rate residential loans being sold into the secondary market. Total residential real estate loans amounted to \$284.6 million at June 30, 2003, up from \$280.9 million at December 31, 2002.

Total securities were \$846.9 million at June 30, 2003, up \$51.1 million from the December 31, 2002 balance. The increase in securities was primarily due to purchases of mortgage-backed securities, corporate bonds and U.S. government agency securities.

Total deposits at June 30, 2003 amounted to \$1.136 billion, up \$25.7 million from the December 31, 2002 balance of \$1.110 billion. Demand deposits rose \$26.3 million, or 17 percent, in the first six months of 2003 and totaled \$183.8 million at June 30, 2003. Savings deposits increased \$11.5 million from December 31, 2002 and amounted to \$482.9 million at June 30, 2003. Time deposits amounted to \$469.5 million at June 30, 2003, down from the December 31, 2002 balance of \$481.6 million. In the six months ended June 30, 2003, Federal Home Loan Bank advances increased \$63.8 million to \$543.9 million at June 30, 2003.

Asset quality continues to be strong, as measured by the level of nonperforming assets. Nonaccrual loans as a percentage of total loans at June 30, 2003 were

..38%, compared to .53% at December 31, 2002. Similarly, nonperforming assets (nonaccrual loans and property acquired through foreclosure) as a percent of total assets at June 30, 2003 amounted to .17%, as compared to .24% at December 31, 2002. The Corporation's allowance for loan losses amounted to \$15.7 million at June 30, 2003, compared to \$15.5 million at December 31, 2002.

Total shareholders' equity amounted to \$135.2 million at June 30, 2003, up from \$128.7 million at December 31, 2002. Book value per share as of June 30, 2003 and December 31, 2002 amounted to \$10.31 and \$9.87, respectively.

#### --M O R E--

Washington Trust Bancorp, Inc. Chairman and Chief Executive Officer, John C. Warren, and David V. Devault, Executive Vice President, Treasurer, and Chief Financial Officer will host a conference call today, Thursday, July 17, at 4:30 p.m. (Eastern Daylight Time) to discuss the Corporation's second quarter earnings. Access to the call is available in a listen-only mode on Washington Trust's web site, www.washtrust.com. The link can be found in the Investor Relations section of the site under the subhead "Investor Information" and then "Presentations." In addition, a replay of the call will be posted in this same section of the web site shortly after conclusion of the call.

Washington Trust Bancorp, Inc. is the parent of The Washington Trust Company, a Rhode Island state-chartered bank founded in 1800. The Bank offers a full range of financial services, including trust and investment management, through its offices in Rhode Island and southeastern Connecticut. Washington Trust Bancorp, Inc.'s common stock trades on The Nasdaq Stock Market(R) under the symbol WASH. Investor information is available on the Corporation's web site: www.washtrust.com.

Note: This press release contains financial information determined by methods other than in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The Corporation's management uses these non-GAAP measures in its analysis of the Corporation's performance. These measures typically adjust GAAP performance measures to exclude the effects of charges and expenses related to the consummation of acquisitions and costs related to the integration of merged entities. These non-GAAP measures also may exclude other significant gains or losses that are unusual in nature. Because these items and their impact on the Corporation's performance are difficult to predict, management believes that presentations of financial measures excluding the impact of these items provide useful supplemental information that is essential to a proper understanding of the operating results of the Corporation's core businesses. These disclosures should not be viewed as a substitute for operating results determined in accordance with GAAP, nor are they necessarily comparable to non-GAAP performance measures that may be presented by other Corporations. A quantitative reconciliation of the differences between the non-GAAP financial information discussed herein and the most directly comparable financial information calculated and presented in accordance with GAAP is contained in the Financial Summary statements attached to this press release.

This report contains certain statements that may be considered "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The Corporation's actual results, performance or achievements could differ materially from those projected in the forward-looking statements as a result, among other factors, of changes in general national or regional economic conditions, changes in interest rates, reductions in the market value of trust and investment assets under management, reductions in deposit levels necessitating increased borrowing to fund loans and investments, changes in the size and nature of the Corporation's competition, changes in loan default and

charge-off rates and changes in the assumptions used in making such forward-looking statements.
