SECTION 2 – FINANCIAL INFORMATION

Item 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant

On March 25, 2010, Mountain Prairie Wind, LLC (Mountain Prairie), an indirect wholly-owned subsidiary of NextEra Energy Resources, LLC (NextEra Energy Resources), issued approximately \$305 million of 6.56% limited-recourse senior secured notes maturing in March 2030. NextEra Energy Resources is an indirect wholly-owned subsidiary of FPL Group, Inc. Principal and interest on the notes are payable semi-annually. Substantially all of the proceeds from the sale of the notes were used to reimburse NextEra Energy Resources, in part, for its capital contributions related to the development and construction of two wind generation facilities with a generating capability totaling approximately 273 megawatts located in North Dakota and Oklahoma. The notes are secured by liens on those wind generating facilities' assets and certain other assets of, and the ownership interests in, Mountain Prairie and the entities that own the facilities, which are also indirect wholly-owned subsidiaries of NextEra Energy Resources. The note indenture contains default and related acceleration provisions relating to the failure to make required payments or to observe other covenants in the note indenture and related documents, actions by Mountain Prairie or by other parties under specified agreements relating to the generating facilities or the note indenture, the termination of certain of such specified agreements and certain events in bankruptcy.
