- Cellular subscriber base surpasses 31 million in February 2008
- Broadband subscribers for the Group more than double in 2007 to 579,000. Total revenue contribution from broadband and internet services surge 46% to P7.6 billion
- Consolidated debt declines to US\$1.6 billion; net debt down to US\$0.9 billion – an historic low

MANILA, Philippines, 4th March 2008 Philippine Long Distance Telephone Company (PLDT) (PSE: TEL) (NYSE: PHI) today announced unaudited consolidated net profit of P36.0 billion for the year 2007, an increase of 2% from the P35.1 billion net profit reported last year. This year's results benefited from a decline in additional depreciation charges and higher foreign exchange translations gains, offset by increased provision for taxes and higher

asset impairment charges. Core net income, net of these exceptional items, rose to P35.2 billion in 2007, 11% over the core net income of P31.6 billion recorded in 2006. Consolidated service revenues increased by 8% to P135.5 billion, notwithstanding the 10% appreciation of the peso which negatively impacted 38% of the PLDT Group's revenues that are dollar-linked. Consolidated EBITDA improved by 4% to P82.9 billion; EBITDA margin declined to 61% mainly on account of forex impact on dollar-linked revenues and certain exceptional expense items.

Core earnings attributable to each common share reached P184 per share, an increase of 9% compared with P169 per share last year.

The Group's consolidated balance sheet continued to strengthen with consolidated debt balances down to US\$1.6 billion. Net debt as at 31st December 2007 stood at US\$ 0.9 billion. Net debt to EBITDA and net debt to equity improved to 0.42 times and 0.31 times, respectively.

Page 5 of 10

Exhibit 1

Consolidated free cash flow remained strong at P46.5 billion in 2007 despite the increases in capital expenditures and working capital requirements. Consolidated capital expenditures increased to P25 billion, or 20% higher than 2006 levels, and were primarily utilized to accelerate the capacity and rollout of the wireless and broadband network as a result of higher than anticipated subscriber growth. Total capital expenditures for 2007 remained below annual depreciation costs and represented 18% of service revenues. Capital expenditures for the Group are expected to remain at approximately P25 billion in 2008.

Approximately P18.3 billion of our cash was utilized to pay down debt with another P28.2 billion used to pay out cash dividends, excluding the dividends declared earlier today.

The Company's Board of Directors, in its meeting today, declared a final dividend of P68 per share, fulfilling the Company's commitment to pay out a minimum ratio of 70% of core earnings. In addition, the Board also approved a special dividend of P56 per share. Added to the previously paid interim dividend of P60 per share paid in September 2007, total dividends for the year will amount to P184 per share, representing a payout of substantially 100% of 2007 core earnings. This compares with an 85% payout ratio on 2006 core earnings, which includes a special dividend as well. Total dividend payments for 2007 increased by 50% to P28.2 billion, from P18.8 billion in 2006.

We are extremely pleased that our record earnings and robust cashflows allow us to declare both a final dividend of P68 per share as well as a special dividend of P56 per share, bringing total dividends for 2007 to P184 per share, inclusive of the interim dividend of P60 per share paid earlier. This unprecedented 100% dividend payout of Core EPS, following the 85% payout for 2006, reflects the continued strength of PLDT's financial position, and affirms our commitment to increase returns to our shareholders whenever possible, stated **Manuel V. Pangilinan, PLDT Chairman**.

Wireless: Setting the Pace

Consolidated wireless service revenues rose to P86.5 billion for the full year 2007, 10% higher than the P78.4 billion realized last year, with cellular subsidiaries, Smart Communications, Inc (Smart) and Pilipino Telephone Corporation (Piltel) continuing their stellar performances. Service revenues of P22.4 billion in the fourth quarter were 6% higher than the third quarter revenues due to the increased usage normally associated with the holiday season and 10% higher than the fourth quarter revenue of P20.4 billion reported in 2006.

Consolidated wireless EBITDA improved by 10% to P55.3 billion in 2007 from P50.3 billion in 2006 while EBITDA margins remained steady at 64% in the face of higher revenues.

The PLDT Group's total cellular subscriber base for the year grew by 5.9 million to 30 million at year-end. For the year, Smart recorded net additions of approximately 3.2 subscribers while *Talk N Text* added about 2.7 million subscribers to end 2007 with 20.3 million and 9.7 million subscribers, respectively. In February 2008, the PLDT Group's cellular subscriber base surpassed the 31 million mark as Smart and Piltel added about one million new subscribers in the first two months of the year.

Page 6 of 10

Exhibit 1

In 2007, Smart continued to successfully defend its market leadership by developing innovative voice and text packages that drive activations, boost usage and strengthen brand equity.

Smart's continued strong subscriber growth belies the belief that the Philippines' high penetration rate is indicative of slowing market demand. This strong growth is manifested in our capital expenditure levels as we expanded both capacity and coverage to accommodate our increasing subscriber base. We are also gratified with the success of our segmented approach that allows us to offer customized promotions to segments of our subscriber base and address their specific needs, without diluting our overall revenue base," stated **Napoleon L. Nazareno, President and CEO of PLDT and Smart**.

Smart's wireless broadband service - branded *SmartBro (ang broadband ng bayan)* - sustained its excellent performance as its wireless broadband subscriber base grew 148% to reach 302,000 at the end of 2007, adding approximately 180,000 new subscribers for the year. Smart now has 2,780 wireless broadband-enabled base stations providing high-speed internet access to over 625 cities and municipalities all over the Philippines. Wireless broadband revenues grew 190% to about P2.4 billion in 2007, an improvement of 190% over the P823 million achieved in 2006. In November 2007, *SmartBro* enhanced its wireless broadband portfolio with *Plug-It*, a service offering instant internet access through a portable wireless modem. *Plug-It* provides internet access in all areas where there is Smart network coverage.

By optimizing our various technologies, we have made our wireless broadband service into another pillar of strength for Smart to stand on. Our investment in this space will accelerate as we seek to solidify our leadership in the overall broadband space, **added Nazareno**.

PLDT Fixed Line: Facing the Future

Fixed Line service revenues decreased slightly by 1% to P48.6 billion in 2007 from P49.2 billion in 2006 as improvements in data revenues, both from corporate data and residential DSL services, were offset by the decline in revenues from the local exchange and ILD services. Our dollar-linked revenues arising from the local exchange and ILD businesses were adversely impacted by the 10% appreciation of the average US dollar/peso exchange rate in 2007. Fixed Line revenues would have improved 3% year-on-year if foreign exchange rates had remained stable.

Retail DSL continued to grow as broadband subscribers nearly doubled to 264,000 in 2007 from 133,000 at the end of 2006. PLDT DSL generated P4.1 billion in revenues for 2007, up 18% from P3.5 billion in 2006, accounting for 54% of the PLDT's broadband and internet revenues for the year.

Fixed Line EBITDA in 2007 declined 7% to P26.4 billion in line with the decrease in revenues as impacted already by forex movement, and by cash costs associated with manpower rightsizing initiatives. Consequently, EBITDA margin likewise declined to 54%.

On 4th December 2007, Piltel and PLDT executed an Asset Sale and Purchase Agreement covering the sale and purchase of assets relating to Piltel's fixed line or LEC business. The sale is still subject to the fulfillment of certain closing conditions, including the procurement of the requisite regulatory approvals.

"Our recent organizational changes in our fixed line business and organization underscore our commitment to match our financial success with equally exceptional service, organization and culture. To this end, we have reorganized ourselves to ensure that the Fixed Line continues to make the necessary changes in order to transform our business and our people and become more customer-centric," declared **Nazareno**.

ePLDT: Gearing Up for Growth

ePLDT, the Group's information and communications technology arm, reported service revenues of P10.1 billion for 2007, a 59% increase from P6.3 billion last year, driven by the continued growth in the call center business (ePLDT Ventus) and the consolidation of SPi Technologies (SPi), after its acquisition in July 2006. Despite their significant growth, ePLDT's revenues were likewise adversely impacted by the strong appreciation of the peso since approximately 82% of its service revenues are denominated in U.S. Dollars. As a result, ePLDT's EBITDA margin for 2007 declined to 11% compared with 14% in 2006. ePLDT would have reported an additional 74% growth in revenues if the peso had remained stable year-on-year. ePLDT's revenues now account for 7% of the PLDT Group's consolidated revenues.

Consolidated call center revenues continued to make significant gains, growing 24% to P3.3 billion as a result of increased capacity utilization and billable hours, for new and existing clients, and despite the appreciation of the peso. ePLDT Ventus now operates nine facilities with combined seats of 6,400.

SPi, on the other hand, generated revenues of P5.3 billion in 2007. In addition to the Philippines and the USA, SPi has operations in India and Vietnam. Consolidated seats total 4,500 of which 80% are located in the Philippines. SPi was ranked third globally among the Leader - Emerging Asian Markets, sixth in Best Performing BPO Provider and ninth among Top Leaders in Human Capital Development in the 2008 Global Outsourcing 100 Survey conducted by Global Services Magazine and neoIT, an outsourcing advisory firm.

ePLDT core income for 2007 increased by 160% to P 687 million from P 264 million in 2006.

The continuing integration of SPi and Ventus proceeds apace and has resulted in operating efficiencies and enhanced processes across both companies which we anticipate will contribute to improved margins in due course. We also have high expectations for improving results from our world-class data center, VITRO, which recently achieved its ISO27001:2005 and ISO9001:2000 recertification as well as PEZA accreditation., said **Ray C. Espinosa, ePLDT President and CEO.**

PLDT at 80 Changing Lives

As we celebrate PLDT's 80th year in the Philippines, we take pride in PLDT's accomplishments and the positive effect we have had on the lives of our fellow Filipinos, stated **Pangilinan**. We are determined to make this milestone year even more special by delivering outstanding results we expect to sustain our strong performance through 2008, our core net income this year being guided at P37 billion. We also renew our commitment to continue investing in our country by providing the needed infrastructure and value-driven services that make a difference.

Pangilinan concluded by saying that As we pursue our strategic goal of transforming PLDT from an integrated telco into a customer-centric, multi-media company delivering communications, information, technology - especially mobile commerce- and entertainment, we have, over several years, initiated a number of organizational changes that have propelled us to higher levels of developmental challenges. These initiatives have produced unprecedented profits these past years. Of course, our overarching goal is to make PLDT a truly world class company - in terms of profits, customer orientation, and quality of service .
