### Summary of Second Quarter 2017 Financial Results

This includes \$2.2 million of net operating expenses and an unrealized \$0.5 million mark-to-market loss on our investment in Midas Gold Corp. ("Midas"). During the three months ended June 30, 2016, we reported net income of \$1.6 million or \$0.02 per share inclusive of \$1.7 million of net operating expenses and an unrealized \$3.3 million mark-to-market gain on our investment in Midas.

Our working capital at June 30, 2017 totaled approximately \$23.6 million, including cash and short-term investments (comprised of government securities) of approximately \$20.2 million. The Company has no debt.

### Corporate Highlights

We continue to undertake activities to improve value and further de-risk our Mt Todd gold project, including:

- Bulk Metallurgical Testing we recently completed crushing, screening and automated sorting tests on four 5-tonne bulk samples from the Batman deposit. These bulk tests demonstrated that automated sorting technology can be used to efficiently separate plus 5/8" (16 mm) product from the HPGR crusher with gold-bearing sulfide/quartz/calcite minerals from the host rock, at production rates in production scale equipment.
- · Grinding and Leaching Optimization Studies we are undertaking additional metallurgical testing to confirm gold recoveries with a proposed 2-stage grinding circuit and a finer grind size (P80 of 65 um vs the 90 um in the original PFS).
- · PFS Update we have commenced an update of the Mt Todd Preliminary Feasibility Study ("PFS") in which we intend to include all appropriate project improvements and the most current economic factors.
- · MMP Update we are nearing the completion of the preparation of a draft Mine Management Plan ("MMP") and expect to present this plan for preliminary agency review later this year. This is expected to reduce the approval time for the final MMP.
