PROXY STATEMENT

for the
2017 ANNUAL MEETING OF SHAREHOLDERS

The Company's Board of Directors (the "Board") is making this Proxy Statement available to you in connection with the solicitation of proxies by our Board for the 2017 Annual Meeting of Shareholders (the "Meeting"). The Meeting will be held on Thursday, April 27, 2017 at 10:00 a.m. Eastern time, at Ten Post Office Square, 2nd Floor, Boston, Massachusetts 02109.

VOTING INFORMATION

Record Date. The record date for the Meeting is March 9, 2017 (the "Record Date"). At the close of business on the Record Date, there were 84,134,005 shares of the Company's common stock entitled to be voted at the Meeting, and there were 1,003 shareholders of record. There are no other outstanding shares that are eligible to vote.

Voting Your Proxy. Only shareholders of record at the close of business on the Record Date are entitled to vote at the Meeting. Each outstanding share of common stock is entitled to one vote on each matter before the Meeting.

Vote Required. A quorum of the common stock must be present at the Meeting for any business to be conducted. The presence, in person or by proxy, of the holders of at least a majority of the votes entitled to be cast on a matter for each voting group constitutes a quorum. Abstentions and broker non-votes will be counted for purposes of determining whether a quorum is present. If a quorum is not present, the Meeting will be adjourned until a quorum is obtained.

Because the number of director nominees is not greater than the number of directors that shareholders will be asked to elect, each director nominee must receive the affirmative vote of a majority of the votes cast as to such nominee by shareholders in order to be elected. Abstentions and broker non-votes will have no effect on the outcome of the election of the nominees.

The approval of the advisory, non-binding resolution on executive compensation requires the affirmative vote of a majority of the votes cast at the Meeting. Abstentions and broker non-votes will have no effect on the outcome of the vote for this proposal.

The non-binding resolution to select the frequency of future shareholder advisory votes to approve the compensation of the Company's named executive officers will involve your consideration of three choices: every year, every two years, or every three years. You also have the choice to abstain from voting on this item. The choice that receives the highest number of votes, even if it receives less than a majority of the votes cast, will be deemed the choice of the shareholders. Abstentions and broker non-votes will have no effect on the vote for this proposal.

The ratification of the selection of the Company's independent registered public accounting firm requires the affirmative vote of a majority of the votes cast at the Meeting. Abstentions and broker non-votes will have no effect on the vote for this proposal.

We are first sending this Proxy Statement and the accompanying materials to shareholders on or about March 21, 2017.

VOTING OPTIONS

Your vote is very important. Even if you plan to attend the Meeting in person, please cast your vote as soon as possible by:

Mail. The accompanying proxy card, if properly completed, signed, dated and returned in the enclosed envelope, will be voted in accordance with your instructions. The enclosed envelope requires no additional postage if mailed in the United States.

Telephone or Internet. If you hold your shares of common stock directly and not in street name, you may vote by telephone or Internet by following the instructions included on your proxy card. If you vote by telephone or Internet, you do not have to mail in your proxy card. Telephone and Internet voting are available 24 hours a day. For participants in the Company’s 401K and ESPP Plans, Internet and telephone voting are available through April 24, 2017 at 11:59 p.m. Eastern time. For all other holders, Internet and telephone voting are available through April 26, 2017 at 11:59 p.m. Eastern time.

Voting in Person at the Meeting. If you are a registered shareholder as of the Record Date and attend the Meeting, you may deliver your completed proxy card in person. Additionally, we will have ballots available for those registered shareholders as of the Record Date who wish to vote in person at the Meeting.

A shareholder of record may revoke a proxy any time before the polls close by submitting a later dated vote by telephone, Internet, or mail, by delivering instruments to the Corporate Secretary before the Meeting or by appearing in person at the Meeting and specifically withdrawing any previously voted proxy.

VOTING MATTERS AND VOTING RECOMMENDATIONS

By submitting your proxy by one of the methods listed above, you authorize Margaret W. Chambers, Executive Vice President, General Counsel and Corporate Secretary, and David J. Kaye, Executive Vice President, Chief Financial and Administrative Officer (collectively, the “Proxy Holders”), to represent you and vote your shares at the Meeting in accordance with your instructions. If a properly executed proxy is submitted and no instructions are given, the proxy will be voted in accordance with the Board’s recommendations as follows:

ANNUAL REPORT

All shareholders of record are being sent a copy of the Company’s 2016 Annual Report to Shareholders and the Annual Report on Form 10-K for the fiscal year ended December 31, 2016, which contains audited financial statements of the Company for the fiscal years ended December 31, 2016, 2015 and 2014, as filed with the Securities and Exchange Commission (“SEC”) on February 28, 2017. These reports, however, are not part of the proxy soliciting material.

PROPOSAL 1

ELECTION OF DIRECTORS

The Board of Directors of the Company currently consists of eleven members. On September 28, 2016, the Board of Directors elected Mark F. Furlong and Joseph C. Guyaux to the Board of Directors. At this year's annual meeting, shareholders will be asked to elect eleven directors, each of whom is currently serving as a director of the Company. Each of the eleven director nominees has consented to serve as a director if elected at this year's annual meeting. Each nominee elected as a director will serve until the next annual meeting and until his or her successor has been duly elected and qualified. If any nominee is unable to serve as a director at the annual meeting, the Board may reduce the number of directors to be elected at the annual meeting.

On January 18, 2017, the Board of Directors of the Company adopted Amended and Restated By-Laws of the Company to provide for majority voting in uncontested director elections. Article 1, Section 8 of the Amended and Restated Bylaws provides that in order to be elected in an uncontested election, a nominee must receive a majority of the votes cast as to such nominee by the shares entitled to vote in the election at a meeting at which a quorum is present. An incumbent director nominee who fails to receive at least a majority of the votes cast at such a meeting will be required to offer to resign from the Board. The Board will then consider such director's offer to resign, taking into consideration any factors that it deems relevant in deciding whether to accept such director's resignation. The Amended and Restated By-Laws retain the plurality voting standard in contested elections where the number of nominees exceeds the number of directors to be elected. At this year's annual meeting, because the number of director nominees is not greater than the number of directors that shareholders will be asked to elect, director nominees must receive a majority of the votes cast as to such nominee by shareholders in order to be elected.

The biographical description below for each nominee includes the specific experience, qualifications, attributes and skills that led to the conclusion by the Board of Directors that such person should serve as a director of the Company. In addition to the information presented below regarding each director's specific experience, qualifications, attributes and skills, the Board also believes that all of the directors have a reputation for integrity, honesty and adherence to high ethical standards. They each have demonstrated business acumen and an ability to exercise sound judgment, as well as a commitment of service to the Company.

The Board has determined that each nominee, except Mr. Deutsch, qualifies as an independent director under the NASDAQ listing standards.

If any of the nominees shall become unavailable for any reason, all proxies will be voted FOR the election of such other person as the Board of Directors may recommend.

The Board of Directors unanimously recommends a vote FOR each of its eleven director nominees.

Corporate Governance Guidelines

The Board of Directors has a particular focus on corporate governance, developing the strategic direction of the Company, and seeking to ensure the success of the Company's business through the appointment and retention of qualified executive management. The Board has documented its commitment to serve the best interests of the Company and its shareholders in its Corporate Governance Guidelines which, among other things, describe our corporate governance practices and address issues such as director qualification standards, director responsibilities, board composition and structure, performance evaluation and succession planning.

Board Leadership Structure

In accordance with the Company's by-laws, the Board of Directors elects the Chairman of the Board and appoints the President, who also serves as Chief Executive Officer ("CEO"). The Board of Directors has adopted a policy that provides for the separation of the roles of Chairman and CEO.

The Compensation, Governance and Executive Committee has established a Statement of Roles and Responsibilities ("Statement") for the non-executive Chairman of the Board of Directors ("non-executive Chair"). The Statement provides that the position of non-executive Chairman may only be held by a member of the Board of Directors who has been determined to be "independent" under the NASDAQ listing standards. The non-executive Chairman is elected by the Company's Board of Directors annually and may be removed at any time with or without cause. The non-executive Chairman is responsible for the management, development and effective functioning of the Board of Directors and provides leadership in every aspect of the Board's oversight of the Company. The non-executive Chairman acts in an advisory capacity to the CEO and President of the Company, and to other executive officers in matters concerning the interests of the organization and the Board, as well as serving as the liaison between management and the Board of Directors. The duties of the Chairman of the Board include the following:

- setting agendas for the Board meetings in consultation with the CEO;
- chairing Board meetings and ensuring that Board functions are effectively carried out;

- chairing executive sessions of independent directors and providing feedback to the CEO and President, as appropriate;
- serving as liaison for Chairs of affiliated company boards, as needed;
- facilitating the Board's efforts to create and maintain practices that respond to feedback from shareholders and other stakeholders;
- representing the Board at meetings with major shareholders and other stakeholder groups on governance-related matters, as may be requested from time to time;
- providing advice on behalf of the Board to the CEO and President on major issues;
- facilitating effective communication between directors and management, both inside and outside of meetings of the Board;
- working with the CEO and President to ensure management strategies, plans and performance are appropriately risk assessed and represented to the Board; and
- advising management in the planning of the strategy meeting.

The Compensation, Governance and Executive Committee conducts a periodic review of the role and responsibilities of the non-executive Chairman and this review is then presented to the full Board of Directors.

Risk Oversight

The Board of Directors plays an important role in the risk oversight of the Company and is involved in risk oversight through direct decision-making authority with respect to significant matters, including the development of limits and specific risk tolerances, and the oversight of management by the Board of Directors and its committees. The Board of Directors and its committees also are each directly responsible for considering risks and the oversight of risks relating to decisions that each committee is responsible for making. In light of the Company's overall business and market, the extensive regulatory schemes under which the Company and all of its affiliates operate, and the complexities of the Company's operations as a whole, the Board has established a Risk Management Committee that is tasked with specific responsibility for direct oversight of all of the risks inherent in the Company's business, along with management of the enterprise-wide risk management program. The Risk Management Committee consults with each of the other committees of the Board of Directors for an analysis of their areas of risk, as well as with management and outside experts, and provides regular, detailed reporting and recommendations on risk-related actions to the full Board. The Risk Management Committee also monitors the risk management function and reviews risk assessments for all of the Company's subsidiaries, participates directly in the risk management committee meetings of the Bank, which is the Company's largest subsidiary, adopts and directs the implementation of risk management policies that relate to both the Company and its subsidiaries, and analyzes reporting regarding the same.

In addition to the Risk Management Committee, the Board of Directors administers its risk oversight function through:

- the review and discussion of regular, periodic reports to the Board of Directors and its committees on topics relating to the risks that the Company faces, including, among others, credit risk, interest rate risk, operational risks, and regulatory risk;
- the required approval by the Board of Directors (or a committee thereof) of significant transactions and other decisions, including, among others, final budgets, material uses of capital, strategic direction, and executive management hiring and promotions;
- the direct oversight of specific areas of the Company's business by the Risk Management Committee, the Audit and Finance Committee, the Wealth Management/Trust and Investment Committee, and the Compensation, Governance and Executive Committee; and
- regular periodic reports from the Company's internal and external auditors and other third party consultants regarding various areas of potential risk, including, among others, those relating to the Company's internal controls and financial reporting.

The Board of Directors also relies on management to bring significant matters impacting the Company and its subsidiaries to the Board of Directors' attention.

Risk Review and Analysis

The Company's Chief Risk Officer and Chief Human Resources Officer monitor and, on a biennial basis, or more frequently as material changes occur, discuss, evaluate and review the Company's compensation programs. A detailed review was performed in 2016 with the majority of plans categorized as low risk. The next formal risk review will be conducted in 2018. The findings of these reviews are presented to the Compensation, Governance and Executive Committee for further evaluation and discussion with particular focus on the following key areas: (1) the compensation plans of the persons identified as named executive officers ("NEOs") in this Proxy Statement to ensure that such plans do not encourage the NEOs to take unnecessary or excessive risks that threaten the value of the Company; (2) employee compensation plans in light of the risks posed to the Company by such plans and how to limit these risks; and (3) employee compensation plans to ensure these plans do not encourage the manipulation of reported earnings to enhance compensation. NEO compensation plans are described in detail in "Compensation Discussion and Analysis."

The Compensation, Governance and Executive Committee's review focuses on incentive compensation plans as opposed to base salary plans or standard benefit arrangements, as the Company believes that incentive compensation arrangements have the greatest potential to encourage inappropriate risk-taking, and/or encourage the manipulation of earnings to enhance compensation. The Company also believes that its base salary and benefit arrangements are generally reasonable and appropriate, considering the Company's compensation philosophy and industry and regional differences.

The Compensation, Governance and Executive Committee evaluates each plan using the following risk categories: acceptable-to-low risk, moderate level of risk, and significant risk/potential for material adverse impact. The majority of the Company's incentive compensation plans have been rated in the "acceptable-to-low risk category." The Company believes appropriate controls are in place to minimize the risk for permitting unnecessary and inappropriate risk-taking or encouraging the manipulation of earnings to enhance compensation. Such controls include the addition of mechanisms to clawback compensation, enhanced governance processes for compensation reviews and the on-going monitoring of employee compensation that may trigger additional individual or plan reviews.

The Compensation, Governance and Executive Committee believes that the balance of base compensation, variable annual incentive bonuses determined based on Company and individual performance, and long-term equity incentive compensation is weighted such that excessive or unnecessary risk taking will not be encouraged by the variable elements of compensation. Further, the Compensation, Governance and Executive Committee believes that the long-term equity components of compensation encourage the Company's executives to focus on elements of the Company's performance to influence long-term value creation and share price appreciation.

Committees of the Board and Related Matters

The Board of Directors currently has four standing Committees: the Audit and Finance Committee; Compensation, Governance and Executive Committee; Risk Management Committee; and Wealth Management/Trust and Investment Committee. Each committee was comprised solely of members of the Board of Directors who have been determined to meet the definition of "independent" in accordance with the NASDAQ listing standards. All of the committees have adopted charters that provide a statement of the respective committee's roles and responsibilities. Current charters for the Audit and Finance Committee and the Compensation, Governance and Executive Committee can be viewed online by accessing the Company's website at www.bostonprivate.com, selecting the "Investor Relations" link at the bottom of the page, and then selecting "Corporate Governance" under "Corporate Information."

Attendance at Board and Committee Meetings, Annual Meeting

The Board of Directors held eight meetings of the full Board during 2016. Each incumbent director who was a director in 2016 attended at least 75% of the aggregate number of meetings of the full Board of Directors and relevant committees held during the time such person was a director. The Company does not have a policy of requiring directors to attend the annual meeting of shareholders. The Company does, however, typically schedule a meeting of its Board of Directors the day before or close to the annual meeting of shareholders to facilitate each director’s attendance at the annual meeting of shareholders. Eight of the Company’s directors attended the 2016 annual meeting. Executive Sessions without Management

To promote open discussion among the non-management directors, the Board of Directors schedules regular executive sessions in which the non-management directors meet without management’s participation. Such sessions are

scheduled to occur at every regularly scheduled Board and committee meeting. The Chairman of the Board is the presiding director at such executive sessions.

Audit and Finance Committee

The majority of members of the Audit and Finance Committee are “audit committee financial experts” as defined in SEC regulations and all members are “independent” as defined under the NASDAQ listing standards. Pursuant to the Audit and Finance Committee’s charter, the Audit and Finance Committee assists the Board in its oversight of (1) the process of reporting the Company’s financial statements; (2) the system of internal controls as it relates to financial reporting; (3) the audit process;

(4) the Company's process for monitoring compliance with laws and regulations and code of conduct; (5) the review and approval of the Company's declaration of dividends; and (6) the qualifications, independence and performance of the Company's independent registered public accounting firm in accordance with SEC regulations. The Audit and Finance Committee is solely responsible for retaining the Company's independent registered public accounting firm. The Audit and Finance Committee also conducts analysis and makes recommendations to the Board and management regarding the Company's financial planning, capital structure, capital raising, proposed acquisitions, mergers and divestitures, overall strategic planning, and financial performance, where relevant.

Risk Management Committee

The Risk Management Committee's responsibilities are described above under "Risk Oversight."

Wealth Management/Trust and Investment Committee

The Wealth Management/Trust and Investment Committee provides strategic direction and oversight on behalf of both the Board of Directors and the board of directors of the Bank regarding the Company's wealth management businesses, both in the registered investment advisory affiliates and in the Bank's Trust division. The Committee assists the boards in analyzing the optimal means of enhancing the Company's performance and expanding its acquisition and retention of private clients through these businesses. The Committee also assists the Bank in fulfilling its fiduciary responsibilities relating to the operation of trusts and the administration of fiduciary accounts. The Committee offers oversight and guidance to management relating to capital allocations and with respect to leveraging synergies within the wealth management business.

Compensation, Governance and Executive Committee

The Compensation, Governance and Executive Committee makes recommendations to the Board of Directors, where necessary, on certain matters including, but not limited to, changes to compensation plans and the adoption of new plans, changes to the CEO's compensation and changes to Board compensation programs of the Company. In addition, the Committee serves as the Executive Committee of the Bank's board of directors. The Compensation, Governance and Executive Committee has been delegated the authority by the Board of Directors to approve compensation matters for all executive officers. Compensation decisions relating to the CEO are also reviewed and approved by the Board. For additional information on the Compensation, Governance and Executive Committee's process for the consideration and determination of the executive officer and director compensation, please see "Compensation Discussion and Analysis."

The Compensation, Governance and Executive Committee periodically reviews the arrangements for the overall governance of the Company by the Board of Directors and its committees and, among other things, assists the Board of Directors by evaluating the performance of the Board and its committees, identifies individuals qualified to become members of the Board, recommends the slate of candidates to be nominated for election to the Board of Directors and on the boards at the Company's subsidiaries where such membership is not otherwise mandated by contract, recommends the members and the chairs of the committees of the Board, adopts and implements governance practices and policies applicable to both the Company and its subsidiaries, and reviews and assesses the charters of all of the committees of the Board.

Consideration of Director Nominees

The Compensation, Governance and Executive Committee is responsible for identifying, assessing and recommending the slate of candidates to be nominated for election to the Board of Directors. The Compensation, Governance and Executive Committee uses a variety of methods for identifying and evaluating nominees for director, and assesses the mix of skills and the performance of the Board as a whole on an annual basis. In the course of establishing the slate of nominees for director each year, the Compensation, Governance and Executive Committee will consider whether any

vacancies on the Board are expected due to retirement or otherwise, the skills represented by retiring and continuing directors, and additional skills highlighted during the annual Board self-assessment process that could improve the overall quality and ability of the Board to carry out its function. In the event that vacancies are anticipated or arise, the Compensation, Governance and Executive Committee considers various potential candidates for director. Candidates may come to the attention of the Compensation, Governance and Executive Committee through the business and other networks of the existing members of the Board or from management. The Compensation, Governance and Executive Committee may also solicit recommendations for director nominees from independent search firms or any other source it deems appropriate, and has most recently sourced non-incumbent candidates through the retention of such independent search firms and through the boards of its affiliates. When an incumbent director is up for re-election, the Compensation, Governance and Executive Committee reviews the performance, skills and characteristics of such incumbent director before making a determination to recommend that the full Board nominate him or her for re-election.

The Compensation, Governance and Executive Committee requires all nominees and candidates to possess the highest personal and professional ethics, integrity and values; to be committed to representing the long-term interests of our shareholders; to be able to devote the appropriate amount of time to be consistently informed about the Company's business and strategy, with a balanced perspective, strong business and financial acumen; and the ability to approach all decision making with a high level of confidence and independence. In addition to reviewing a candidate's background and accomplishments, candidates are reviewed in the context of the current composition of the Board of Directors and the evolving needs of the Company.

Following the 2016 annual meeting, the Board of Directors sought to recruit additional Board members whose qualifications aligned with the Company's long-term strategy. The Company engaged a third-party search firm to vet and recommend director candidates in exchange for a fee. After considering a number of candidates submitted by Directors, management and the search firm, the Board elected Messrs. Mark F. Furlong and Joseph C. Guyaux to the Board on September 28, 2016. Both have extensive banking experience and, as a result, bring excellent insights and perspectives to our Board.

Pursuant to guidelines established by the Board, no more than two members of the Board may be executive members, and all others must meet the definition of "independent" under the NASDAQ listing standards. The CEO will always be a member of the Board. Currently, the CEO is the only member of the Board who is not "independent." On an annual basis, the Compensation, Governance and Executive Committee reviews the "independent" status of each member of the Board to determine whether any relationship is inconsistent with a determination that the director was independent. The most recent review was undertaken in January 2017 and, as a result, the Board, after review and recommendation by the Compensation, Governance and Executive Committee, determined that each of the Company's non-executive directors (Mses. Kuenstner, Larson, Stevenson, Wells and Zlatkus, and Messrs. Furlong, Guyaux, Morton, Nolan and Waters) meets the qualifications for independence in accordance with the NASDAQ listing standards.

Directors of the Company are nominated in accordance with the Company's by-laws, which provide that directors may be nominated (1) by a majority of the Board of Directors, or (2) by any holder of record of any shares of the capital stock of the Company entitled to vote at the annual meeting of shareholders. While the Compensation, Governance and Executive Committee does not have a formal policy regarding the consideration of any director candidates recommended by shareholders, candidates recommended by a shareholder are evaluated on the same basis as candidates recommended from other sources. A shareholder wishing to nominate a director separately from the slate of directors nominated by the Company for the 2018 annual meeting should follow the procedures described in this Proxy Statement under the heading "Submission of Shareholder Proposals for 2018 Annual Meeting." Any shareholder who seeks to make such a nomination for the 2018 annual meeting must be present in person at such annual meeting.

Code of Business Conduct and Ethics

The Company has adopted a Code of Business Conduct and Ethics which applies to all of the Company's and its subsidiaries' employees, officers, and directors. In addition, the Company maintains procedures for the confidential, anonymous submission of any complaints or concerns about the Company, including complaints regarding accounting, internal accounting controls or auditing matters. Shareholders may access the Code of Business Conduct and Ethics by accessing the Company's website at www.bostonprivate.com, selecting the "Investor Relations" link at the bottom of the page, and then selecting "Corporate Governance" under "Corporate Information."

COMPENSATION DISCUSSION AND ANALYSIS

Executive Summary

This Compensation Discussion and Analysis ("CD&A") describes both the Company's executive compensation program, including 2016 total compensation for the Company's named executive officers ("NEOs"), and how the Compensation, Governance and Executive Committee of the Company's Board of Directors (the "Committee") determined 2016 compensation for the Company's NEOs, listed below.

Named executive officers reported in this year's CD&A (titles as of December 31, 2016):

• Clayton G. Deutsch - Chief Executive Officer and President

• David J. Kaye - Executive Vice President, Chief Financial and Administrative Officer

• Corey A. Griffin - Chief Executive Officer – Wealth Management and Trust Segment; and Executive Vice President

• George G. Schwartz - President, Boston Private Bank & Trust Company; Chief Executive Officer – Private Banking Segment

• Margaret W. Chambers - Executive Vice President, General Counsel and Corporate Secretary

All compensation actions taken in 2016 and recommended for 2017 reflect the Company's commitment to shareholder-aligned governance and compensation arrangements. The executive compensation program and related actions are intended to reward sustained, long-term performance and returns for shareholders consistent with the Company's overall risk profile and disciplined growth strategy.

2016 Operational and Financial Highlights

The Company made great progress in 2016 with respect to executing against its “One Boston Private” strategy for delivering integrated Wealth, Trust and Private Banking solutions to its clients and increasing shareholder value as illustrated below:

GAAP Earnings Per Share increased to \$0.81 per share in 2016 from \$0.74 per share in 2015, an increase of 9%.

GAAP Net Income was \$71.6 million in 2016 as compared to \$64.9 million in 2015, an increase of 10%.

Return on Average Common Equity (“ROACE”) was 9.4% in 2016 compared to 9.0% in 2015.

Total stock price appreciation in 2016 was 45.9%, outperforming the KBW Regional Bank Index (“KRX”) average appreciation of 35.7%.

The Company’s cumulative stock price appreciation from August of 2010 (Mr. Deutsch’s arrival) through December 2016 was 150.4%, outperforming the KRX gain of 129.9% while the S&P 500 gained 103.2% for the same time period.

The Company has increased its dividend six times in the past five years, from a quarterly dividend of \$0.01 per share in 2012, to \$0.11 per share as of January 2017, which was paid in February 2017.

• Total Shareholder Return (“TSR”) (stock price appreciation plus dividends), is shown below:

Despite a challenging environment, the Company continued to demonstrate progress in expense and balance sheet management, and continued to maintain strong capital ratios. Additional financial highlights included:

• Net Interest Income increased 8% in 2016. This was due to increases in interest income across both loans and investment securities, coupled with lower borrowing costs.

• Core Fees and Income decreased by 3% in 2016. This was due to revenue declines in the Wealth Management and Trust and Investment Management segments that were partially offset by an improvement in Banking segment fees.

• Non-Performing Assets as a percentage of Total Assets, as of December 31, 2016, decreased to 0.24% from a fourth quarter level of 0.36% in 2015 and 0.66% in 2014.

• Tier 1 Common Equity increased to 10% in 2016, from 9.8% in 2015 and 9.2% in 2014.

• Assets Under Management/Advisory were flat from 2015, ending 2016 at \$27.6 billion.

• The Company achieved 6% year-over-year average loan growth and 5% year-over-year average deposit growth.

In addition, the Company made strategic investments in talent, market expansion and branding for its core businesses and continues to make significant progress with respect to strengthening its leadership and talent profile, cost infrastructure, technology and overall market positioning. For example, the Company hired a Chief Technology Officer at the end of 2015, developed a three-year technology strategy and implemented Sales Force, a new client relationship management system, in 2016 to help enhance the overall client experience.

2016 Compensation Program Design Changes

The Company made targeted compensation program changes in 2016. Those changes were made to enhance the performance orientation and alignment of executive compensation programs with shareholders. In particular:

• Short-Term Incentive (“STI”) Plan: This Plan was simplified while maintaining a formulaic, scorecard approach with three metrics tied to key financial metrics, continuing to retain an element of discretion to ensure overall outcomes were aligned with actual performance and maintaining Section 162(m) tax deductibility. Company and business area scorecards were considered for funding the executive STI bonus pool and for the allocation of individual payouts in 2016. In 2017, the Company scorecard will be the primary driver for funding all executive bonuses to reinforce the Company’s One Boston Private strategy with business area and individual performance still considered in determining final bonus awards. Target STI goals for full target STI payout continue to align with market 75th percentile relative performance.

• Long-Term Incentive (“LTI”) Plan: The LTI consists of both a performance-based share payout and a time-based payout. A new matrix was developed in 2016 for determining executive performance-share payouts based on relative and absolute ROACE performance in 2016. The Committee is maintaining this matrix structure for 2017. Target ROACE for full target LTI payout continues to align with market 75th percentile relative performance.

The Company's compensation peer group was updated to align better with the Company's size from a revenue and market capitalization standpoint. The Company is now positioned in the mid-range of the peer group from a relative size standpoint (i.e., assets, market cap and enterprise value). The number of companies in the peer group was expanded to 19.

The Company continues to promote best practice standards with respect to compensation design and governance:

The use of stretch goals in its programs and a pay mix focused on delivering variable, performance-based pay promotes strong pay for performance orientation.

The Company caps the upside leverage (i.e., percentage of target pay opportunity) that can be earned each year by its executives through our incentive programs. This limitation, along with the performance scorecard framework noted above, ensures that executives are rewarded within the Company's risk/reward profile to take appropriate, but not excessive, risk. The following chart illustrates the STI and actual performance share payouts (percent of target awards) relative to the maximum payouts that could be earned based on limits defined in the executive compensation program.

(1) Although overall bonus funding for executives/senior leaders of the Company was 86%, the CEO bonus funding was based on the Company scorecard at 72%.

(2) For the 2014 to 2016 performance share tranche, the maximum payout is 180%; beginning with the 2016 to 2018 performance share tranche, the maximum payout increased from 180% to 200%.

The Company continues to promote executive stock ownership through ownership guidelines at the lower of (i) a range of three to six times base salary depending on the NEO position, or (ii) a minimum share guideline ranging from 83,000 shares for Ms. Chambers to 350,000 shares for Mr. Deutsch. All NEOs, with the exception of Mr. Griffin, have attained their guidelines. Mr. Griffin has five years from the start of his employment, May 2014, to achieve the ownership guidelines.

In October 2016, the Committee approved a formal severance plan for its executives with an officer designation of Executive Vice President and above that provides for severance benefits in the event that an executive's position is eliminated, or the executive is terminated "without cause." The severance plan was put in place to formalize the severance policy that had been in place since 2014 providing for a benefit of one times base salary, a pro-rated bonus, accelerated vesting of all unvested time-based stock awards on a pro-rata basis (pro-rata on accelerated shares is determined using the time period from grant date to the date of separation), pro-rata vesting for performance-based shares upon completion of the performance period, and reasonable outplacement costs. Severance benefits are provided in exchange for a general release and non-solicitation of clients and employees.

In addition, the Company continues to maintain the following practices:

• Double-trigger change-in-control severance arrangements (for legacy change-in-control agreements). The Company has not offered change-in-control agreements for any NEOs since 2008.

• No hedging policy.

• Claw-backs for compensation in the event of material financial restatements.

• No tax gross-ups on perquisites.

Say on Pay Shareholder Approval Levels for 2015 and 2016

The Company's shareholders approved the "say on pay" resolution included in the Company's 2016 Proxy Statement with 92% of the votes cast in favor of the resolution, compared to 98% in 2015. The Company believes these votes strongly affirm shareholder support of its approach to executive compensation.

CEO Pay Versus Performance

History of strong CEO pay and performance alignment

• Positive cumulative TSR over the past three-year period was 44%, with 2016 TSR of 51%.

• 2016 performance was slightly below expectations, correlating to a below-target payout on the annual cash incentive (72%) and a 71% payout on performance shares covering the 2014 to 2016 period.

• Over the three-year period, realizable pay was 5.4% above the target pay opportunity for the CEO as illustrated below:

(1) Represents Mr. Deutsch's cumulative base salary, target cash bonus, and target long-term incentive as of the end of fiscal 2016. Excludes 2014 retention LTI award granted on December 17, 2014.

Represents Mr. Deutsch's cumulative base salary, actual cash bonus paid at 72% of target for FY2016, and actual outstanding, unvested equity grants as of the end of fiscal 2016 with all of the equity being valued as of December (2) 31, 2016; 2014-2016 annual performance shares are valued assuming 71% of target number of shares earned and 2015-2017 and 2016-2018 performance shares valued assuming target number of shares will be earned. Excludes 2014 retention LTI award granted on December 17, 2014.

While there is a slight increase in realizable value of pay, attributable to the increase in the stock price over the calendar year and over the three-year period, the cash portion of the CEO's three-year pay is down 11% due to below target annual cash bonus payouts, demonstrating the strong alignment of pay to performance within the Company's compensation programs.

Analysis of 2016 Compensation Actions and 2017 Recommended Actions

Base Salary:

As a result of Mr. Schwartz's expanded role as CEO of the Private Banking Segment, his base salary increased to \$400,000 in July 2016. There were no salary increases for any other NEOs in 2016 or 2017.

Short Term Incentives:

Based on many improvements in the Company's 2016 financial and operational performance, executive compensation increased from the prior year. For example, in 2016 the CEO's cash bonus was increased by 29% as compared to 2015 (i.e., 72% of target versus 56% of target last year), and his performance share payout was increased from a 0% payout for the 2013-2015 performance share cycle to a 71% payout for the 2014-2016 performance share cycle. The other NEOs incurred similar increases in cash and equity award payouts given the performance improvements in 2016 as compared to 2015.

The Committee met on January 17, 2017 and approved 2016 maximum bonus funding for NEOs at 200% of target awards, with actual bonus payments and funding subject to the Committee's negative discretion. Maximum funding was determined based on the Company's achievement of positive net earnings for the year. After certification of maximum funding available for executive bonuses, the Committee then exercised its negative discretion to reduce the overall bonus pool funding to 86% of target in the aggregate for all executives/senior leaders of the Company to align better the funding of incentives with the performance of the Company, considering three performance scorecards covering the financial results for the consolidated Company, the Wealth Management and Trust Segment, and the Private Banking Segment. The Committee met again on February 8, 2017 and approved bonus payments for executives again using the combination of three scorecards based on an assessment of the contributions of its executives, many of whom serve across multiple areas of the Company. Although in aggregate the combined metrics for the scorecards produced an 86% funding level across the three scorecards, the funding level for the NEOs as a group was in aggregate 78% of target, to ensure appropriate allocation of bonus pool dollars to the non-executive population.

All NEOs were considered to be strong contributors to the Company's overall One Boston Private strategy and related deliverables. The CEO's bonus was approved at 72% of his target award to align his pay directly with the financial results of the Company scorecard. The Committee approved bonuses for all other executives in a tight range from 75% to 86% of target. The variable payout within a tight band reinforced a strong team orientation, yet allowed meaningful differentiation of bonuses awarded given individual performance considerations, compensation for specific positions versus industry benchmarks and different financial outcomes for the different businesses. Differences in Mr. Griffin's and Mr. Schwartz's bonus awards primarily reflect differences in the financial performance of the Wealth Management and Trust Segment and the Private Banking Segment. The Private Banking Segment continued to demonstrate strong credit quality, expense discipline and financial ratios, but fell short on its deposit and loan growth goals for the year. The Wealth Management and Trust Segment, although demonstrating measurable progress on new client development, gross AUM flows, expense management and the restructuring of its investment platform, was impacted by client attrition rates that were higher than expected in the first half of the year, despite trending improvements in the latter half of the year. Mr. Kaye's and Ms. Chambers' respective bonuses reflect their contributions across multiple areas of the Company, including the successful sale of select West Coast offices and contributions to the execution of the Company's integrated Wealth Management, Trust and Private Banking strategy from a legal, regulatory and governance perspective (Ms. Chambers) and from a financial, capital and balance sheet management perspective (Mr. Kaye), especially considering the challenging regulatory and interest rate environment for banking.

The CEO's bonus was determined by the Committee in executive session on February 8, 2017 and recommended for approval, and approved, by the full Board on February 9, 2017. The Committee approved bonuses for all other executives on February 8, 2017.

See "Annual Executive Incentive Plan (STI)" for further details.

Long Term Incentives:

The Committee met on April 19, 2016 and approved equity grant recommendations for NEOs at 100% of target award levels. Target award levels vary by position and range from 150% of base salary for the CEO to 75% to 100% for other NEO positions. The CEO's equity award was approved by the full Board on January 26, 2016. Equity awards were granted 60% in performance shares and must be earned based on future performance (three-year performance period) and 40% in time-based restricted stock with a three-year cliff vesting period. Given the team-performance orientation to managing the Company, and

the strong historical performance of individuals on the team, equity awards were allocated in a consistent manner across the NEO positions. 2017 equity awards will not be granted until May of 2017; however, on February 8, 2017, the Committee approved the equity value for May 15, 2017 awards at 100% of target awards levels. 2017 equity awards granted in May 2017 will be reported in next year's CD&A.

Compensation Components and Mix of Compensation

The Company's direct compensation components consist of base salary, performance-based annual cash incentives, performance-based equity incentives and service-based equity incentives. The Company continues to emphasize performance-based, variable pay in its executive compensation programs. For example, annual cash incentives can range from 0% of target awards to 200% of target awards based on performance that is typically measured over one year. Equity incentives consist of a combination of time-based restricted stock (40% of targeted equity compensation award for 2016) and performance-based restricted stock or "performance shares" (60% of targeted equity compensation award for 2016). Performance shares vest only if and to the extent they are earned based on the achievement of three-year, forward-looking metrics. The Company's overall executive compensation mix is heavily weighted towards variable and performance-based pay, approximately one-third base salary and two-thirds annual and equity incentives. The following charts illustrate the mix of fixed (base salary) versus variable (incentives/equity) pay and also performance-based versus service-based pay for the Company's CEO and other NEOs:

Peer Group and Total Compensation Market Benchmarking

In July 2016, the Committee reviewed and approved a new, size appropriate peer group. This peer group, listed below, includes nineteen banks/financial services companies which were selected based on similar size (approximately 1/3 to 3 times the Company's primary size indicators – i.e., total assets of \$2 billion to \$30 billion and market cap of \$300 million to \$3 billion) and fees as a percent of revenue of at least 20% to reflect the Company's Wealth Management, Trust and Private Banking business orientation (as opposed to community/retail banking orientation). Other criteria used for peer company selection included companies headquartered in major metropolitan areas and companies with whom the Company competes for executive talent. The peer group is a market frame of reference for compensation and performance comparisons and will also be used in 2017.

The following companies were included in the Company's 2016 peer group:

Banc of California, Inc.	NBT Bancorp, Inc.
Berkshire Hills Bancorp, Inc.	Pinnacle Financial Partners Inc.
Brookline Bancorp, Inc.	PrivateBancorp, Inc.
Bryn Mawr Bank Corp.	Sandy Spring Bancorp Inc.
CoBiz Financial Inc.	UMB Financial Corporation
Columbia Banking System Inc.	Washington Trust Bancorp, Inc.
Community Bank System Inc.	Webster Financial Corporation
First Commonwealth Financial Corp.	Wintrust Financial Corporation
Independent Bank Corp. (INDB)	WSFS Financial Corporation
MB Financial Inc.	

In addition, the KRX has been added to measure the Company's ROACE relative performance in the 2016 and 2017 long-term incentive matrices. The Committee believes the KRX provides a more consistent benchmark for purposes of measuring performance over a three-year time horizon given the larger number of peer banks in the Index to normalize any anomalies.

The Company's independent compensation consultant, Frederic W. Cook & Co. ("FW Cook"), provides other relevant market reference points such as broader financial services and general industry compensation survey data covering companies of similar size to augment this peer group data, when appropriate.

The last market compensation review was conducted by FW Cook in October of 2016 for the Company's CEO and other select executive positions. Based on the market comparative data used (reflecting 2015 actions), the Company's overall target compensation position for executive positions was determined to be competitive with market (above median) largely attributable to strong variable, performance-based pay opportunities that are aligned with stretch goals, that if attained, produce top quartile performance. Base salaries, in aggregate, were positioned close to median. Actual 2015 compensation was determined to be, on average, within 10% of median and lower than target pay due to 2015 performance which was below expectations, resulting in below-target bonus payouts. Actual compensation versus market and versus target opportunities will vary year-to-year based on overall Company performance, individual contributions and cost considerations.

Base Salary

The Committee reviews the base salaries of its NEOs each year, with salary increases, if any, taking effect on January 1. Salary increases are generally based on an executive's performance within specific areas of accountability, external market competitiveness and/or internal budget considerations. Mr. Schwartz was the only NEO to receive a base salary increase in 2016 as a result of his expanded role as CEO of the Private Banking Segment.

Annual Executive Incentive Plan (STI)

Following its usual practice, the Committee established an annual incentive target for 2016 for each NEO stated as a percentage of base salary. Incentive target levels are based on each executive's role, organization level, impact on annual performance and competitive considerations. Executives can earn from 0% up to 200% of target based on performance against pre-defined metrics. Targets are reviewed annually by the Committee and adjusted as appropriate to consider market competitiveness and desired mix of annual and long-term incentives. In 2016, the Board and Committee established a performance scorecard framework for compensation actions in 2016 that considered financial goals important to the Company's profitability and sustainable growth. Details of this performance-based framework, associated financial metrics, the Company's achievement of these metrics and the Committee's determination with respect to overall performance for the consolidated Company are described in the scorecard below.

	2016 Targeted	2016 Actual Performance	
	Performance Levels	Levels and	Weighted Funding
	Target	Result	Weighted Funding
ROACE	10%	9.4%	28%
Total Revenue Growth (year-over-year)	4.5%	2.7%	23%
Pre-Tax Pre Provision Growth	15%	7.9%	21%
Final Funding Level			72%

In addition to consolidated Company results, actual bonus payouts for NEOs also considered the separate performance results of the Wealth Management and Trust Segment, and Private Banking Segment, as well as individual performance.

After considering performance against all three scorecards covering the financial results for the consolidated Company, the Wealth Management and Trust Segment and the Private Banking Segment, the overall bonus pool funding was set at 86% of target in the aggregate for all executives/senior leaders of the Company. The Committee, with the input from the CEO for positions other than himself, then approved actual bonus payments for executives using the combination of three scorecards and based on an assessment of the contributions of its executives, many of whom serve across multiple areas of the Company. Although in aggregate the combined metrics for the scorecards produced an 86% funding level across the three scorecards, the funding level for the NEOs as a group was in aggregate 78% of target. For the CEO, the Committee approved a bonus directly aligned with the results of the overall Company scorecard.

The following table outlines the annual incentive targets for 2016 and the actual bonus received by each NEO:
TARGET AND ACTUAL BONUS DETAILS

Executive	Annual Base Salary	Target		Minimum (0% of Target)	Maximum (200% of Target)	Actual Bonus	Actual as % of Target

Equity-Based Long-Term Incentives

Overview of Program

The Committee considers long-term equity-based compensation to be an integral part of the Company's compensation program and grants equity each year, typically in May. The Company's primary grant forms for its executives are:

1. Performance-based shares (60% of an executive's target award value); and
2. Time-based restricted stock (40% of an executive's target award value).

The Committee reviews the mix of grant forms annually. Performance shares are earned and vest at the end of the three-year performance period only if and to the extent results are achieved within the acceptable performance range (threshold to significant over-achievement) as determined by the Committee. Performance shares are subject to forfeiture in the event that pre-established performance goals are not achieved. Time-based restricted stock will vest in full three years from the date of grant subject to the executive's continued employment through the vesting date.

Vesting of Performance Share Award for the 2014-2016 Performance Period

The Company's NEOs earned 71% of the targeted performance shares based on ROACE performance for the 2014 to 2016 performance period. As a result, a portion of the shares scheduled to vest on May 15, 2017 will be forfeited. The Company's three-year average ROACE for the 2014 to 2016 performance period was 9.7% versus a target goal of 12% and a threshold goal of 8% for the performance period. The 71% earn-out is the result of interpolation between a 50% payout at the threshold performance level and a 100% payout at the target performance level. The following table outlines the awards earned:

Executive	Grant Date	Target Number of Shares	Performance Metric Achieved	Total Shares Vested Based upon Performance
C. Deutsch	5/15/2014	45,134	71%	32,045
D. Kaye	5/15/2014	14,211	71%	10,090
C. Griffin	5/15/2014	8,916	71%	6,330
G. Schwartz	5/15/2014	10,030	71%	7,121
M. Chambers	5/15/2014	12,036	71%	8,546

2016 Equity Awards

In 2016, the Company granted equity awards to its NEOs of performance shares and time-based restricted stock under the Company's 2009 Amended and Restated Stock Option and Incentive Plan. Each NEO has an established long-term incentive award target as follows (expressed as a percentage of each executive's base salary): 150% for Mr. Deutsch, 75% each for Mr. Kaye and Ms. Chambers, 100% for Mr. Griffin and Mr. Schwartz.

The total long-term incentive award values set forth below were approved by the Board for the CEO on January 26, 2016 and by the Committee for the other NEOs on April 19, 2016 for a future grant date of May 13, 2016. For 2016, 60% of the grant date fair value of the award was delivered in the form of performance-based shares and 40% of the grant date fair value of the award was delivered in the form of time-based restricted stock. The approved values converted to a fixed number of time-based restricted shares and performance shares using the average daily stock price for the 30 days prior to the conversion date of \$11.32 per share. This methodology is used to provide an equity award that takes into account the share price of the Company over the prior 30-day period, as opposed to a single

trading day. Once the number of shares was determined based on the values previously approved by the Committee, shares were granted at the closing price of \$11.67 on May 13, 2016, the approved grant date under the Company's equity grant policy. Awards were determined based on each executive's performance, criticality of position and relevant employment agreement terms, as applicable.

The 2016 performance-based shares will be earned or forfeited based on the Company's performance for the January 1, 2016 to December 31, 2018 period, following the conclusion of such performance period, with 0% to 200% of the shares earned tied to the Company's ROACE performance utilizing a matrix approach, as follows:

1. Absolute Measure: Three-year average ROACE targeted at 10.5% over the 2016-2018 time frame:

Threshold Low Target Target Outperform

4.0% 8.0% 10.5% 11.5%

2. Relative Measure: Three-year average ROACE relative to the KBW Regional Bank Index targeted at the 50th percentile:

Threshold Target Outperform

25th percentile 50th percentile 75th percentile

Actual equity grants awarded to the Company's NEOs in 2016 are set forth in the table below. As described further in the footnotes below, a significant portion of the stock awards (60% of the total) must be earned based on performance with the potential for an earn-out of 0% to 200% of the target performance shares awarded.

Equity Grant Policy

The Company has adopted an Equity Grant Policy, most recently approved in July 2014, to ensure that its equity granting practices are maintained in strict compliance with the Company's equity plans, policies and all applicable laws, and specifically to prevent backdating of any equity grant, or changing of the timing of equity grants in relation to public release of material information with the intent of benefiting a grantee under an equity award. The policy became effective for equity grants made after March 31, 2007. The Company's policy is that equity grants occur on a pre-established day during each calendar quarter after the Company's financial results for the prior quarter have been publicly disclosed. Accordingly, the grant date for all equity grants is generally the 15th day of the month (or the last business day before the 15th day of the month) following the quarterly Board meeting, unless approved otherwise by the Committee. The grant date shall not precede the date the grant was authorized by the Committee, and the grant date for any new hire shall not precede the employee's date of hire. In addition, the policy provides that all awards and award terms are approved by the Committee in advance of the grant date. The Company executives do not have an ability to select a grant date, and the option exercise price is the closing price of the underlying stock on the date of grant.

Executive Stock Ownership and Share Retention Guidelines

The Committee implemented executive stock ownership guidelines in July 2008 and revised these guidelines in July of 2014 to increase the guidelines based upon a comprehensive review and recommendation by W.T. Haigh & Company, the Company's compensation consultant at the time. The requirements in the guidelines are expressed as the lesser of a multiple of an executive's base salary or a fixed number of shares. The Company and the Committee review executive officer stock holdings against the ownership guidelines at least annually. The Company has established ownership guideline multiples of six times base salary for the Company's CEO and three times base salary for the other NEOs. NEOs must meet the lesser of the fixed share guideline (350,000 for the Company's CEO and 83,000 to 98,000 for other NEO positions) or the salary multiple guideline. Executives and Board members must attain ownership guidelines within a five-year period.

The following table shows the NEOs' stock ownership relative to the guidelines as of December 31, 2016.

Name	Guideline (multiple of salary)	Status
Mr. Deutsch	6 x Base Salary (\$4,050,000)	Meets Requirement
Mr. Kaye	3 x Base Salary (\$1,275,000)	Meets Requirement
Mr. Griffin (1)	3 x Base Salary (\$1,200,000)	Does Not Meet Requirement
Mr. Schwartz	3 x Base Salary (\$1,200,000)	Meets Requirement
Ms. Chambers	3 x Base Salary (\$1,080,000)	Meets Requirement

(1) Mr. Griffin joined the Company in May of 2014 and is not required to attain minimum guidelines until May 2019.

Based on the beneficial ownership calculation as reported in this Proxy Statement, as of January 30, 2017, the CEO owned 0.88% and other NEOs as a group owned 0.61% of the Company's common stock.

Role of Compensation, Governance and Executive Committee, Outside Advisers and Management in Compensation Decisions

The Committee, pursuant to its charter, provides management and the Board with guidance on matters of executive and director compensation and related benefits. The Committee meets in executive sessions when discussing CEO performance and specific actions related to CEO compensation. The Committee approves all compensation actions with respect to the Company's CEO, and recommends to the Board of Directors that the Board of Directors also approve such compensation actions. The Committee approves all compensation actions for the Company's other executive officers after reviewing the recommendations of the CEO. The Committee relies on management and outside advisers for staff work and technical guidance in conducting its affairs. It retains full authority to engage independent third party advisers, and currently retains FW Cook to conduct independent studies and provide objective advice on executive and director compensation. FW Cook's primary role with the Company is as adviser to the Committee on executive compensation matters. In 2016, FW Cook's services wholly related to Committee matters and no conflicts of interest were noted.

The Company also retains Goodwin Procter LLP for legal services on executive compensation matters, including drafting of legal plan documents. The Company may use other firms from time to time in the normal course of business.

Executive Benefits and Perquisites

NEOs are entitled to a flexible benefit amount to be used for financial products and services including life insurance, financial planning, long-term care insurance and other health and wellness benefits that enable the executives to manage better and balance their personal lives given the amount of time spent at work. The flexible amount is a fixed

maximum annual benefit, \$65,000 for the CEO, and \$20,000 for other NEOs with the exception of Mr. Schwartz, who for 2016 was covered by separate, legacy long-term disability and long-term care policies sponsored by Boston Private Bank & Trust Company (the “Bank”). As of December 31, 2016, premiums for Mr. Schwartz’s Bank-sponsored long-term care policies have been fully paid and as a result Mr. Schwartz will transition to the flexible benefit of \$20,000 for 2017, which will include the continuation of his legacy long-term disability premiums. NEOs are also eligible for an annual physical examination. The full value of all perquisites is reported as income to the individuals and, accordingly, is taxable. The flexible benefit may not be used for any type of personal luxury or entertainment expenditures.

NEOs are also eligible for Company-sponsored benefit programs available broadly to Company employees, including healthcare, dental and vision benefits, short-term and long-term disability, life insurance, a 401(k) profit sharing plan and the Company's Employee Stock Purchase Plan.

Employment Agreements and Executive Severance and Change-in-Control Agreements

The Company no longer provides executive change-in-control agreements in the event of a change-in-control of the Company. The Company has grandfathered change-in-control agreements with three of the Company's NEOs: Ms. Chambers, Mr. Kaye and Mr. Schwartz. Mr. Deutsch has an employment agreement with the Company. These grandfathered change-in-control agreements and the employment agreement for Mr. Deutsch together with the payments and benefits payable to the NEOs in connection with a termination of employment or change-in-control, are discussed in greater detail under "Potential Payments Upon Termination or Change-in-Control."

Executive Deferred Compensation Plan

The Company offers a deferred compensation plan that enables certain executives, including each of the NEOs, to defer a portion of their income. Amounts deferred are excluded from an executive's taxable income and are not deductible by the Company until paid. Executives select from a number of mutual funds and the deferred amounts are increased or decreased to correspond to changes in market value of these underlying mutual fund investments. Any increase in value is recognized as compensation expense. The Company maintains a Rabbi trust with respect to these obligations. During 2016, no NEOs participated in the deferred compensation plan, but Mr. Schwartz had an outstanding deferred compensation balance from prior years' participation as of December 31, 2016.

Tax, Regulatory and Accounting Implications

The Company believes it complies with all tax, regulatory and accounting standards. Furthermore, the Committee will continue to review each element of compensation and take appropriate steps to ensure tax deductibility to the extent permitted under applicable law and to the extent this can be accomplished without sacrificing flexibility and other important objectives of the overall compensation program for its executives.

Compensation, Governance and Executive Committee Report

The Compensation, Governance and Executive Committee of the Board of Directors has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on this review and discussions, the Committee recommended to the Board that the Compensation Discussion and Analysis be included in the Company's Proxy Statement.

Potential Payments Upon Termination or Change-in-Control

Employment Agreement with the Company's Chief Executive Officer

On June 7, 2010, the Company entered into an employment agreement with its CEO, Mr. Deutsch. In addition to the compensation and benefit arrangements described in detail above, under the terms of the employment agreement, Mr. Deutsch will be eligible to receive certain payments and benefits if his employment is terminated under certain conditions.

If Mr. Deutsch's employment is terminated by the Company without "cause," or if Mr. Deutsch terminates his employment for "good reason," as defined in the applicable employment agreement, he will be entitled to receive the following payments and benefits:

subject to signing a general release of claims in favor of the Company, a severance payment equal to two times the sum of (1) his base salary and (2) his target annual bonus, paid out in substantially equal installments in accordance with the Company's payroll practice over 24 months;

time-based restricted stock awards granted to Mr. Deutsch are subject to pro-rated vesting based on the portion of the applicable vesting period completed as of the date of termination, pursuant to the terms of the applicable award agreements;

all stock options and other stock-based awards that are subject to performance-based vesting shall vest upon the completion of the performance period to which such award relates. Vesting of these awards shall be pro-rated based on the portion of the applicable performance period completed as of the date of termination; and

subject to the co-payment of premium amounts at the active employees' rate, Mr. Deutsch may continue to participate in the Company's group health, dental and vision programs for up to 24 months.

The payments described above will immediately cease if Mr. Deutsch breaches certain non-competition, non-solicitation, non-disparagement, confidentiality, third-party agreements and/or cooperation provisions of the his employment agreement.

If Mr. Deutsch's employment terminates due to death or disability, he would be entitled to receive the following: a portion of his annual bonus for the year of termination pro-rated for the number of days employed during the year to the date of termination;

all stock options and other stock-based awards that are subject to time-based vesting only shall vest in full and become exercisable or non-forfeitable as of the date of termination; and

all stock options and other stock-based awards that are subject to performance-based vesting will remain eligible to vest based on actual company performance for the applicable performance period. Vesting of such award shall be pro-rated based on the portion of the applicable performance period completed as of the date of termination.

If amounts payable to Mr. Deutsch, whether under his employment agreement or otherwise, give rise to the excise tax imposed by Section 4999 of the Code, he will receive the greater after-tax amount of either (1) the full payment or (2) a reduced payment that does not give rise to the excise tax imposed by Section 4999 of the Internal Revenue Code of 1986, as amended (the "Code"). Under the terms of his employment agreement, Mr. Deutsch will not be entitled to any tax gross-up related to severance payments.

Change-In-Control Agreement with NEOs

The Company has previously entered into change-in-control agreements with its NEOs (other than Mr. Deutsch and Mr. Griffin) that provide for certain payments and other benefits in connection with a “terminating event” that occurs within the two-year period following a change-in-control of the Company. For purposes of these agreements, the term “terminating event” includes the following: (1) a material diminution in the executive’s responsibilities, authority or duties; (2) a material diminution in the executive’s base salary or target annual bonus other than across the board salary reductions based on the Company’s financial performance similarly affecting all or substantially all senior management employees of the Company; (3) a material change in the geographic location at which the executive provides services to the Company; or (4) the material breach of the agreement by the Company, as set forth in the agreements. In connection with any such terminating event within the applicable period following a change-in-control, the NEOs will be eligible to receive the following payments and benefits:

- a lump-sum cash severance payment equal to 2.5 times annual compensation (sum of base salary and average bonus payments for the three most recent taxable years preceding termination);
- a pro-rated bonus for the fiscal year in which the termination occurs; and
- accelerated vesting of all outstanding, unvested stock option and stock awards.

Notwithstanding the foregoing, the Company will not be required to make any payment under the agreements to the extent such payment would constitute a parachute payment for purposes of Section 280G of the Code.

Equity Award Agreements

Pursuant to the terms of the Company’s current forms of restricted stock award agreements granted to the Company’s NEOs, in the event that an executive’s employment is terminated by the Company without “cause,” (1) a pro-rated number of shares of time-based restricted stock will vest, and (2) a pro-rated number of performance shares will remain eligible to vest based on actual Company performance for the applicable performance period. In connection with a termination of employment due to an executive’s disability, all outstanding awards of stock options or time-vesting restricted stock will vest and a pro-rated number of performance shares will remain eligible to vest based on actual Company performance for the applicable performance period. Termination of employment due to an executive’s death will result in full acceleration of all outstanding time-vesting restricted stock and pro-rata accelerated vesting of all performance based shares.

In the event of a change-in-control of the Company in which restricted stock awards are assumed, continued or substituted for new awards, (1) time-based restricted stock awards will vest in the event that the executive’s employment is terminated by the Company or its successor without cause within 24 months following such change-in-control, and (2) the parties to such change-in-control may adjust the performance metrics applicable to any performance share awards. In the event that restricted stock awards are not assumed or continued in a change-in-control or substituted for new awards, then (i) time-based restricted stock awards will vest upon and subject to the occurrence of such change-in-control, and (ii) a pro-rated portion of the performance shares will vest.

The table below sets forth the cash severance, bonus (if any), value of accelerated vesting of equity awards and value of health benefits payable to each NEO in the event of a termination of employment without cause, or due to death or disability, a change-in-control of the Company, and a termination of employment following a change-in-control, and assuming, in each case, that the applicable triggering event(s) occurred on December 31, 2016. Estimated equity values in the table below are calculated assuming the closing price of the Company's stock on December 31, 2016 of \$16.55.

(1) In the event of a change-in-control with no termination all outstanding non-vested grants of time-based restricted stock would vest if the acquiring company elected not to assume or replace the outstanding grants, and all

performance shares would vest pro-rata based on the number of days from the grant date to the date of the change-in-control.

Beginning with 2011 grants, time-based restricted stock is pro-rated (not fully accelerated) upon termination without cause/for good reason and fully accelerated in a change-in-control termination assuming grants not assumed or replaced.

- (4) In the event of termination due to death, the equity awards for all NEOs except for Mr. Deutsch will vest on a pro-rata basis for all performance based awards. Mr. Deutsch's equity awards will fully vest per his employment agreement.

- (5) Triggering termination of employment includes a termination in connection with a "terminating event," as defined in the applicable change-in-control agreement for each of Mr. Kaye, Mr. Schwartz and Ms. Chambers.

Compensation Committee Interlocks and Insider Participation in Compensation Decisions

The Compensation, Governance and Executive Committee is comprised entirely of the following independent directors: Deborah F. Kuenstner, Chair, Gloria C. Larson, Joseph C. Guyaux, Elizabeth H. Zlatkus and Stephen M. Waters. No member of the Compensation, Governance and Executive Committee is a current, or was a former, officer or employee of the Company or any of its subsidiaries.

Compensation of Directors

Board Retainer

Directors of the Company who are not full-time employees of the Company or any of its subsidiaries receive compensation under a compensation program effective May 1, 2016 that includes an annual retainer fee of \$120,000, of which 50% (\$60,000) is payable in cash as a cash retainer and 50% (\$60,000) is payable in Company stock as a stock retainer. The non-executive Chair's supplemental annual retainer fee is \$50,000, of which 50%, or \$25,000, is paid in cash, for a total cash retainer of \$85,000, and 50%, or \$25,000, is paid in stock, for a total stock retainer of \$85,000. The total Chair retainer is \$170,000. Each director can elect to receive up to 100% of the annual cash retainer fee in stock.

Committee Retainers

The annual retainer for Committee Chairs is \$10,000. This increased from \$3,000 in 2015 to more appropriately reflect the added work level and responsibilities of the Committee Chairs. It is assumed that each director will serve on two committees with a supplemental retainer of \$10,000 for any director serving on three or more committees.

Stock Ownership Guidelines

Directors receive their stock retainer, and any portion of their cash retainer that is elected to be paid in stock, in shares of the Company's common stock. These shares are purchased by the Company at fair market value on each of the Company's quarterly grant dates and deposited in each director's brokerage account. The Company believes that director stock ownership is important, and has implemented a minimum stock ownership guideline threshold for outside directors equal to the lower of (a) five times the annual cash retainer of \$60,000 or \$300,000 in value or (b) 30,000 shares. The non-executive Chair is required to hold the lower of \$425,000 in value based on his \$85,000 annual cash retainer ($5 \times \$85,000 = \$425,000$) or 42,500 shares. Board members must attain minimum ownership guidelines within a five year period from the date of their election.

REPORT OF THE AUDIT AND FINANCE COMMITTEE

The following is the report of the Audit and Finance Committee with respect to the Company's audited consolidated financial statements for the fiscal year ended December 31, 2016. The Audit and Finance Committee acts under a written charter which specifies the scope of the Audit and Finance Committee's responsibilities and how it carries out those responsibilities. Each member of the Audit and Finance Committee is listed below and is independent within the definition of the NASDAQ listing standards.

While the Audit and Finance Committee oversees the Company's financial reporting process for the Board of Directors consistent with its charter, management has primary responsibility for this process, including the Company's system of internal controls, and for the preparation of the Company's consolidated financial statements in accordance with U.S. generally accepted accounting principles. In addition, the Company's independent registered public accounting firm is responsible for auditing those consolidated financial statements, and not the Audit and Finance Committee.

The Audit and Finance Committee has reviewed and discussed the Company's December 31, 2016 audited consolidated financial statements with management and with KPMG LLP, the Company's independent registered public accounting firm ("KPMG"). The Audit and Finance Committee also has discussed with KPMG the matters required to be discussed by Auditing Standard No. 1301, Communication with Audit Committees as adopted by the Public Company Accounting Oversight Board (the "PCAOB"). In addition, the Audit and Finance Committee has also received from KPMG the written disclosures and the letter required by applicable requirements of the PCAOB regarding the independent accountant's communications with the Audit and Finance Committee concerning independence, and has discussed with KPMG its independence from the Company. The Audit and Finance Committee also considered whether KPMG's provision of non-audit services to the Company is compatible with its independence. Based on the reviews and discussions referred to above, the Audit and Finance Committee recommended to the Board of Directors that the audited consolidated financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2016 for filing with the Securities and Exchange Commission.

Submitted by the Audit and Finance Committee:

John Morton III, Chair

Lizabeth H. Zlatkus

Mark F. Furlong

Deborah F. Kuenstner

Daniel P. Nolan

The foregoing report shall not be deemed to be "soliciting material" or to be "filed" with the SEC and should not be deemed incorporated by reference by any general statement incorporating by reference this Proxy Statement into any filing under the Securities Act of 1933, as amended, or under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), except to the extent that the Company specifically incorporates this information by reference and shall not otherwise be deemed filed under such acts.

AUDIT FEES

The following table presents fees for professional audit services rendered by KPMG for the audit of the Company's annual financial statements for 2016 and 2015, and fees billed for other services rendered by KPMG.

	2016	2015
Audit fees (1)	\$1,103,750	\$915,500
All other fees (2)	—	1,662
Total fees	\$1,103,750	\$917,162

(1) Audit fees for 2016 and 2015 include fees billed, or expected to be billed, for the annual audit and quarterly reviews.

(2) All other fees for 2015 include fees billed during the year for services related to the IRS exam.

KPMG audited the Company's consolidated financial statements for the year ended December 31, 2016. The Company expects representatives of KPMG to be present at the Meeting. These representatives will have the opportunity to make a statement if they desire to do so, and are expected to be available to respond to appropriate questions.

In January 2017, the Audit and Finance Committee completed the process to review the appointment of the Company's independent registered accounting firm and to review compliance with applicable lead audit partner rotational requirements. In the course of the review, the Committee considered, among other things, (1) historical and recent performance on the Company's audit; (2) tenure as the Company's independent auditor and familiarity with our operations; (3) the appropriateness of fees; and (4) the auditor's independence. As a result of this review and following careful deliberation, the Committee has re-appointed KPMG LLP as the Company's independent registered public accounting firm and as auditors of the Company's consolidated financial statements for 2017. KPMG LLP has served as the Company's independent registered public accounting firm for over ten years.

The Audit and Finance Committee pre-approves all auditing services and the terms thereof (which may include providing comfort letters in connection with securities underwritings) and non-audit services (other than non-audit services prohibited under Section 10A(g) of the Exchange Act or the applicable rules of the SEC or the PCAOB) to be provided to the Company by KPMG; however, the pre-approval requirement is waived with respect to the provision of non-audit services for the Company if the "de minimis" provisions of Section 10A(i)(1)(B) of the Exchange Act are satisfied. There were no non-audit services provided under the "de minimis" provision in 2016. The authority to pre-approve non-audit services may be delegated to one or more members of the Audit and Finance Committee, who shall present all decisions to pre-approve an activity to the full Committee at its first meeting following such decision.

PROPOSAL 2

ADVISORY (NON-BINDING) VOTE ON EXECUTIVE COMPENSATION

As required by Section 14A of the Exchange Act, the Board of Directors is submitting for shareholder approval, on an advisory, non-binding basis, the compensation paid to the Company's named executive officers as described in this Proxy Statement pursuant to Item 402 of Regulation S-K. As previously disclosed by the Company, the shareholders of the Company previously voted on an advisory, non-binding basis, and the Board of Directors determined, to hold an advisory vote on executive compensation annually.

The resolution that is the subject of this proposal is an advisory, non-binding resolution and will not have any binding legal effect regardless of whether or not it is approved, and may not be construed as overruling a decision by the Company or the Board of Directors or creating or implying any change to the fiduciary duties of the Board.

Furthermore, because this advisory, non-binding resolution relates primarily to compensation that has already been paid or contractually committed for the Company's named executive officers, there is generally no opportunity for the Board to revisit those decisions. However, the Compensation, Governance and Executive Committee (the "Committee") intends to take the results of the vote on this proposal into account in its future decisions regarding the compensation of the Company's named executive officers.

The Company's compensation program is designed to attract, motivate and retain the named executive officers who are critical to the Company's success by offering a combination of base salary and annual and long-term incentives that are closely aligned with the Company's annual and long-term performance objectives. Please see the section titled "Compensation Discussion and Analysis" for additional information about the Company's executive compensation programs.

We believe that the effectiveness of our compensation programs is demonstrated by the accomplishments of management over the last fiscal year as detailed in our discussion in the section titled "Compensation Discussion and Analysis."

For these reasons, the Board of Directors recommends that shareholders vote in favor of the following resolution: RESOLVED, that the compensation of the Company's named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including in the Compensation Discussion and Analysis, the compensation tables and narrative discussion, be approved.

The Board of Directors unanimously recommends that shareholders vote FOR approval of the compensation of the Company's named executive officers.

PROPOSAL 3

ADVISORY (NON-BINDING) VOTE TO SELECT THE FREQUENCY OF FUTURE SHAREHOLDER
ADVISORY VOTES ON EXECUTIVE COMPENSATION

As required under the Dodd-Frank Act, the Company's Board of Directors is also submitting for shareholder consideration a proposal to determine, on an advisory basis, whether future shareholder advisory votes to approve the compensation paid to our named executive officers should be sought annually, every two years or every three years. The vote on this proposal is advisory. The vote on this proposal may not be construed as having any binding legal effect, or overruling a decision by the Company or the Board of Directors, and will not create or imply any change to the fiduciary duties of the Board. However, the Board intends to take the results of the vote on this proposal into account in its decision regarding the frequency with which the Company submits say-on-pay proposals in the future. The Board of Directors values the importance of receiving regular input from our shareholders on important matters such as the compensation of the Company's executive officers. Accordingly, as indicated below, the Board of Directors recommends that you vote for a frequency of every year for future shareholder advisory votes to approve the compensation of the Company's named executive officers.

The enclosed proxy card gives you four choices on voting on this item. In addition to considering whether future shareholder advisory votes to approve the compensation of the Company's named executive officers should occur every year, every two years, or every three years, you also have the choice to abstain from voting on this item.

Please note that you are not voting to approve or disapprove the Board's recommendation on this item.

The Board of Directors unanimously recommends that shareholders vote for a frequency of EVERY YEAR for future shareholder advisory votes to approve the compensation of the Company's named executive officers.

PROPOSAL 4

RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit and Finance Committee has selected KPMG as the Company's independent registered public accounting firm to perform the audit of the Company's consolidated financial statements for fiscal year 2017.

Although ratification by shareholders is not required by law or by the Company's bylaws, the Audit and Finance Committee believes that submission of its selection to shareholders is a matter of good corporate governance. If the shareholders fail to ratify the selection, the Audit and Finance Committee will take that fact into consideration, together with such other factors it deems relevant, in determining whether to retain KPMG as our independent registered public accounting firm in the future. Even if the selection is ratified, the Audit and Finance Committee, in its discretion, may direct the appointment of a different independent registered public accounting firm at any time during the year if the Committee determines that such change would be in the best interests of the Company and its shareholders.

Representatives of KPMG will be present at the Annual Meeting, will be given an opportunity to make a statement at the meeting if they desire to do so, and will be available to respond to appropriate questions from shareholders.

The Audit and Finance Committee reviews audit and non-audit services performed by KPMG, as well as the fees charged by KPMG for such services. In its review of non-audit service fees, the Audit and Finance Committee considers, among other things, the possible effect of the performance of such services on the auditor's independence. Additional information concerning the Audit and Finance Committee and its activities with KPMG can be found in the "Corporate Governance - Committees of the Board and Related Matters" and "Report of the Audit and Finance Committee" sections of this Proxy Statement.

Pre-approval Policy and Procedures

Pursuant to the Audit and Finance Committee Charter, all audit and non-audit services provided to the Company by KPMG must be pre-approved by the Audit and Finance Committee, provided, however, that certain de minimis services may be provided without such pre-approval. The Company's Internal Audit Policy provides for (a) general pre-approval of audit-related services which do not exceed certain aggregate dollar thresholds approved by the Audit and Finance Committee, and (b) specific pre-approval of all other permitted services and any proposed services which exceed these same dollar thresholds. The Audit and Finance Committee is also mindful of the relationship between fees for audit and non-audit services in deciding whether to pre-approve any such services. It may determine, for each fiscal year, the appropriate ratio between the total amount of fees for audit, audit related and tax services and the total amount of fees for certain permissible non-audit services classified as "all other fees."

The Audit and Finance Committee pre-approved all audit and non-audit fees of KPMG during fiscal 2016.

The Board of Directors unanimously recommends that shareholders vote FOR the ratification of the selection of KPMG as the Company's independent registered public accounting firm.

OTHER BUSINESS

The Board of Directors is not aware of any other business that may properly come before the Meeting. If any other matters properly come before the Meeting, the proxies will be voted at the discretion of the Proxy Holders.

RELATED PARTY TRANSACTIONS

The Company sends out questionnaires to its directors and officers, and those of its majority or wholly-owned subsidiaries regarding related party transactions. If there are any affirmative responses, the Board reviews them and the terms and conditions of any such transactions. There was one related party transaction disclosed in 2016. Before Jacqueline S. Shoback, who is Executive Vice President, Chief Client Development Officer, joined the Company in February 2015, her husband's company completed several credit facilities totaling approximately \$17.6 million in total. The credit facilities with Boston Private Bank & Trust Company were originated prior to Ms. Shoback becoming an employee of the Company and no additional credit facilities have been provided since then. All credit facilities were made in the ordinary course of business under normal credit terms, including interest rates and collateral requirements prevailing at the time of origination for comparable transactions with other persons, and do not represent more than normal credit risk.
