REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Plan Committee
Savings and Investment Plan for
Employees of Weingarten Realty
Houston, Texas

We have audited the accompanying statements of net assets available for benefits of the Savings and Investment Plan for Employees of Weingarten Realty (the "Plan") as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements and the schedules referred to below are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2009 and schedule of reportable transactions for the year ended December 31, 2009, are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedules have been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

/s/ Calvetti, Ferguson & Wagner, P.C.

See accompanying notes to financial statements.

SAVINGS AND INVESTMENT PLAN FOR
EMPLOYEES OF WEINGARTEN REALTY
NOTES TO FINANCIAL STATEMENTS

1. PLAN DESCRIPTION

The following description of the Savings and Investment Plan for Employees of Weingarten Realty (the “Plan”) provides only general information. The Plan provides retirement and related benefits for employees of Weingarten Realty Investors (“WRI”) and its wholly owned subsidiary, Weingarten Realty Management Company (“WRMC”), (collectively, the “Company”). Participants should refer to the Plan agreement or Summary Plan Description for a more complete description of the Plan’s provisions.

General

The Plan is a voluntary defined contribution plan covering all eligible employees of the Company. Mickey Townsell, (Vice President/Human Resources at WRI) is the plan administrator. All employees are eligible to participate in the Plan upon their hire date with the exception of those classified as a leased employee, a non-resident alien with no United States earned income or an employee governed by a collective bargaining agreement. To be eligible to participate in the Plan, an employee must have completed at least one hour of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions

Participants may elect to contribute pre-tax annual compensation up to the maximum amount allowed by the Internal Revenue Service (“IRS”) of their annual compensation, subject to certain limitations, with the contributions and earnings thereon being nontaxable until withdrawn from the Plan. Participants can rollover balances from certain individual retirement accounts and qualified plans of former employers. In accordance with IRS regulations, participants age 50 and older are eligible to contribute for the calendar years ended December 31, 2009 and 2008, an additional \$5,500 and \$5,000, respectively, as a “catch-up” contribution in excess of the maximum 401(k) contributions of \$16,500 and \$15,500 for each year ended 2009 and 2008, respectively. Participants may change their percentage contribution election at any time. The Company matches up to 50% of the first 6% of the participant’s compensation for each plan year (limited to the maximum amount allowed by the IRS). The match is invested in various investment options as directed by the participant.

The Company may also make discretionary contributions which are subject to the approval of the Board of Trustees. Discretionary contributions are allocated to the individual participant based on the ratio of the participant’s compensation to the total compensation of all participants during the year. No discretionary contributions were made during the years ended December 31, 2009 and 2008. Discretionary contributions are invested in various investment options as directed by the participant.

Participants’ Accounts

Each participant’s account is credited with the participant’s and the Company’s contributions and an allocation of net plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Participants may direct the investment of their account balances into various investment options offered by the Plan. Currently, the Plan offers 18 funds as investment options for participants.

Vesting

Participants are immediately vested in their pre-tax deferred contributions and any income or loss thereon. Participants become 100% vested in Company contributions after five years of service.

Participant Loans

Participants may borrow up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The minimum loan amount is \$1,000. The loans are secured by the balance in the participant's account and bear interest at 3.75% to 9.25%, which are commensurable with local prevailing rates as determined at a fixed rate based on prime plus 1% at the time of issuance. The loans are repaid ratably through semi-monthly payroll deductions over a period of five years or less, unless the loan is to purchase a principal residence in which case the repayment period shall not exceed 15 years. Principal and interest are credited to the participant's account.

Payment of Benefits

Upon termination of service due to death, disability, retirement or separation, a participant may elect to receive either a lump-sum distribution or installment payments under various options. Withdrawals from the Plan may also be made upon circumstances of financial hardship, in accordance with provisions specified in the Plan.

Forfeitures

All Company contributions credited to a participant's account, but not vested are forfeited by the participant. Forfeitures of Company contributions credited to a participant's account are applied to reduce subsequent Company contributions. During the years ended December 31, 2009 and 2008, forfeitures in the amounts of \$78,560 and \$54,989 respectively, were used to reduce the Company's contributions. Forfeited non-vested accounts totaled \$16,351 and \$42,243 at December 31, 2009 and 2008, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value as defined below:

- Mutual Funds

These assets are valued based on publicly quoted market prices.

- Common Stock Fund

At December 31, 2009, these assets are valued based on publicly quoted market prices. At December 31, 2008, the unit price of the common stock fund was based on the fair values of underlying assets of the fund, minus its liabilities, and then divided by the number of shares outstanding as determined by the trustee. The fair value of the underlying assets is based on publicly quoted market prices.

- Participant Loans

Participant loans are valued at cost plus accrued interest, which approximates fair value.

• Common/Collective Trust Fund

The unit price of the common/collective trust fund is based on the fair values of the underlying assets of the fund, minus its liabilities, and then divided by the number of shares outstanding as determined by the fund's trustee.

The fund's trustee uses the following valuation methods for the assets. Conventional investment contracts fair value is determined using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rate as of year end. Individual assets of the synthetic investment contract are generally valued at representative quoted market prices. Short-term securities, if any, are stated at amortized cost, which approximates market value. Debt securities are valued on the basis of valuations furnished by a pricing service approved by the fund's trustee, which determines valuations using methods based on market transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders. Accrued interest, if any, on the underlying investments is added to the fair value of the investments for presentation purposes.

The fair value of these assets is then adjusted by the account level fees determined by the Fee Class Schedule described in the Plan's trust fund agreement.

The common/collective trust fund consists of fully benefit-responsive investment contracts as defined by GAAP. At December 31, 2009 and 2008, the statements of net assets available for benefits present this investment at fair value, as well as an additional line item showing an adjustment of the fully benefit-responsive contract value. The statements of changes in net assets available for benefits are presented on a contract value basis for both periods as defined by GAAP. Contract value is based on the invested principal plus accrued interest on the investment contracts held, as determined by the fund's trustee.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Risks and Uncertainty

The Plan invests in various investment securities. Such investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Administrative Expenses

Certain administrative expenses of the Plan are paid directly by the Company or directly by the Plan and participants.

Subsequent Events

The Plan has evaluated subsequent events through June 29, 2010, which is the date the financial statements were issued.

3. INVESTMENTS

The following presents the fair value of investments that represent 5% or more of the Plan's net assets at December 31, 2009 and 2008:

	2009	2008
Gartmore Morely Stable Value Common Trust Fund	\$7,424,791	\$6,937,967
JPMorgan Core Bond Fund A	3,536,154	*
American Funds Growth Fund R-4	2,709,643	2,068,259
Weingarten Realty Investors Stock Fund	2,623,822	2,166,004
American Funds Europacific Growth R-4	2,416,830	1,660,156
MFS Value Fund A	2,281,114	*
Prudential Jennison Mid Cap Growth Fund A	1,888,446	*
Dodge & Cox Stock Fund	1,659,395	1,516,760
Dodge & Cox Income Fund	*	2,946,857
Vanguard Windsor II Fund	*	1,914,396
T. Rowe Price Mid Cap Growth Fund	*	1,324,163

* Investment's balance does not exceed 5% of the Plan's net assets at the respective year end.

4. FAIR VALUE MEASUREMENTS

In accordance with GAAP, the Plan classifies its investments within the fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access. Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs that are observable for the asset or liability (other than quoted prices), such as interest rates and yield curves that are observable at commonly quoted intervals. Level 3 inputs are unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market activity. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Plan's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

Assets and liabilities measured at fair value on a recurring basis as of December 31, 2009 and 2008, aggregated by the level in the fair value hierarchy in which those measurements fall, are as follows:

	Quoted Prices in Active Markets for Identical Assets and Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Value at December 31, 2009
Investments:				
Mutual funds	\$21,927,488			\$21,927,488
Common/collective trust fund		\$7,424,791		7,424,791
Common stock fund	2,623,822			2,623,822
Money market fund	358,679			358,679
Participant loans			\$ 582,249	582,249
Total	\$24,909,989	\$7,424,791	\$ 582,249	\$32,917,029

	Quoted Prices in Active Markets for Identical Assets and Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Value at December 31, 2008
Investments:				
Mutual funds	\$16,197,702			\$16,197,702
Common/collective trust fund		\$6,937,967		6,937,967
Common stock fund	2,166,004			2,166,004
Participant loans			\$ 539,636	539,636
Total	\$18,363,706	\$6,937,967	\$ 539,636	\$25,841,309

The table below sets forth a reconciliation of the changes in fair value of the Plan's Level 3 investment assets for the year ended December 31, 2009:

	Fair Value Measurements Using Significant Unobservable Inputs (Level 3)
Participant Loans:	
Beginning balance	\$ 539,636

Included in interest and dividend income on the statement of changes in net assets	30,520
Issuances, maturities and settlements	12,093
Transfers in and/out of Level 3	-
Ending balance	\$ 582,249

5. INVESTMENT CONTRACTS IN COMMON/COLLECTIVE TRUST FUND

The Plan through its investment in the common/collective trust fund has fully benefit-responsive investment contracts issued by insurance companies and other institutions. The fund's trustee maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The common/collective trust fund is included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by the fund's trustee. Contract value represents invested principal plus accrued interest on the investment contracts held. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is remote.

Most investments in the common/collective trust fund are contractually obligated to pay the principal and specified interest rate that is guaranteed to the trust fund. The crediting interest rate is based on a formula agreed upon with the fund's trustee, but may not be less than 0%. Such interest rates are reviewed on a monthly or quarterly basis for resetting. The crediting rate of the contract is expected to track current market yields on a trailing basis.

Average fund blended yields:	2009	2008
Based on annualized earnings (1)	2.65%	4.45 %
Based on interest rate credited to participants (2)	2.52%	3.68 %

(1) Calculated based on a single unit of participation outstanding throughout the year.

(2) Calculated based on weighted average credit rating of all the fund's investment contracts and short-term income at year-end.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants' accounts will become fully vested in their employer contributions and will be distributed in accordance with Plan provisions.

7. INCOME TAX STATUS

The Plan has received a favorable determination letter, dated March 31, 2008, from the Internal Revenue Service which states that the Plan qualifies under Section 401 (a) of the Internal Revenue Code ("IRC") and, therefore, has made no provision for federal income taxes under the provisions of Section 501 (a). The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

8. PARTY-IN-INTEREST TRANSACTIONS

The Plan assets were managed by Merrill Lynch, Pierce, Fenner & Smith ("Merrill Lynch") beginning September 2009 and previously by The Standard. Both Merrill Lynch and The Standard was the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the daily operational services of the Plan amounted to \$33,884 and \$83,465 inclusive of fees paid directly by the common/collective trust fund of \$8,453 and \$5,392 for the years ended December 31, 2009 and 2008, respectively.
