The Board of Directors
LabOne, Inc.:

We have audited the accompanying statements of net assets available for plan benefits of the LabOne, Inc. Profit Sharing 401(k) Plan (the Plan) as of December 31, 2002 and 2001, and the related statements of changes in net assets

available for plan benefits for each of the years in the three-year period ended December 31, 2002. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the 401(k) Plan of LabOne, Inc. at December 31, 2002 and 2001, and the changes in net assets available for plan benefits for each of the years in the three-year period ended December 31, 2002, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of assets held for investment purposes and reportable transactions are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

LabOne, Inc. Profit Sharing 401(K) Plan

Notes to Financial Statements

December 31, 2002, 2001, and 2000

(1) Summary of Significant Accounting Policies

(a) Organization

The following description of the LabOne, Inc. Profit Sharing 401(k) Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description text for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan adopted by the board of directors of LabOne, Inc. (the Company) established to cover all full-time employees of the Company. The Plan was effective January 1, 1987. Employees of the Company are eligible for participation at the beginning of each calendar quarter following the date the employee completes five hundred hours of service, attains age 20 1/2, and completes six consecutive months of employment or one year of eligibility service, as defined. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974.

The Plan allows participating employees to deduct their contributions from personal taxable income. Contributions made by the Company and participating employees will not be required to be included in the employees' taxable income until the year of withdrawal from the Plan.

(b) Contributions

Participant contributions - The Plan establishes a qualified cash or deferred arrangement permitting eligible employees to authorize the Company to make tax-deferred salary reduction contributions on their behalf up to 15% (10% prior to January 1, 2002) of their annual earnings, as defined by the Plan, and subject to certain limitations under the Internal Revenue Code (the Code) (not to exceed \$11,000 in 2002 and \$10,500 in 2001). Additionally, new legislation allows participants that will attain the age of 50 during 2002 to contribute an additional \$1,000 catch-up contribution. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants may elect to change their investment allocations daily and may elect to transfer funds between accounts throughout the year.

Effective for plan years 1996 and thereafter, the Company amended the Plan during 1997 to redefine compensation for highly compensated employees. Severance pay for highly compensated employees is not considered compensation for Plan purposes. Therefore, highly compensated employees are restricted from making Plan contributions from severance pay.

Employer contributions - The Company has the discretion to contribute up to an additional 50% of the participant's contributions, not to exceed 5% of the participant's annual compensation. The Company elected to contribute the maximum amount for 2002, 2001, and 2000. Since 1987, all Company contributions have been invested in Company common stock.

(c) Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants may transfer funds between accounts at any time upon notification to the Plan record-keeper, American Century Investments, Inc. Prior to 2002, participants could not allocate Company contributions to other investment options, as they must be invested in Company common stock. In 2002, the plan was amended to allow participants with three years of vesting service to allocate up to 50% of the Company stock held in his/her account to other investment options offered by the Plan. Beginning January 1, 2003, all participants with three years of vesting service may allocate some or all shares of Company stock held in his/her account.

(d) Obligations for Benefits

Distributions of vested balances are available upon termination, subject to the approval of the plan administrator, retirement at or after age sixty-five, death, or permanent and total disability. Distributions can be made in either a lump-sum or annuity to designated beneficiaries and joint survivors. A participant may at any time withdraw any portion of his or her employee account upon showing financial hardship, as permitted by the Code.

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Through December 31, 2001, participants became 100% vested in Company contributions after completing five years of service. In 2002, the vesting schedule was amended to allow participants 100% vesting after completion of three years. Each participant is 100% vested in the employer contributions upon disability, death, or attainment of age sixty-five while employed by the Company.

(e) Loans to Participants

Loans to participants may be authorized by the Plan's Administrative Committee. The amount may not be less than \$500 and may not exceed one-half of the participants' vested account balances (limited to \$50,000). Loans must carry a reasonable rate of interest defined as not less than the prime rate plus 1% at the date of the last day of the month preceding loan issuance. The loan period may vary from one to five years.

(f) Forfeitures

Forfeitures represent the nonvested portion of participant account balances upon termination. Forfeited amounts are applied to reduce future Company contributions. During 2002 and 2001, Company contributions were reduced by \$119,073 and \$68,000, respectively, due to forfeited nonvested accounts. The balance of unallocated forfeitures to be used to offset future employer contributions was \$108,071 and \$29,196 at December 31, 2002 and 2001, respectively.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis in conformity with accounting principles generally accepted in the United States of America.

(b) Investment Valuation

The Plan's investments are held in a bank trust account. Investments in securities are stated at fair value. The fair value of marketable securities is based upon quotations from national securities exchanges. Plan assets include investments in common stock of the Company. Net appreciation (depreciation) in fair value of investments includes both realized and unrealized gains and losses on securities held by the funds. Purchases and sales of investments are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

(c) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements, and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

(d) Payment of Benefits

Benefits are recorded when paid.

The Plan has received a determination letter from the Internal Revenue Service, dated November 7, 2002, stating that the Plan meets the requirements of Section 401(a) of the Code, and the trust is exempt from Federal income taxes under the provisions of Section 501(a) of the Code. The plan administrator is not aware of any activity or transactions that may adversely affect the qualified status of the Plan.

Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

(6) Administrative Costs

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Substantially all administrative expenses for the Plan are paid by the Company.
