Denny's Corporation and Subsidiaries Notes to Condensed Consolidated Financial Statements (Unaudited)

Note 1. Introduction and Basis of Presentation

Denny's Corporation, or Denny's, is one of America's largest family-style restaurant chains. At June 30, 2010, the Denny's brand consisted of 1,556 restaurants, 1,328 (85%) of which were franchised/licensed restaurants and 228 (15%) of which were company-owned and operated.

The following table shows the unit activity for the quarter and two quarters ended June 30, 2010 and July 1, 2009:

Our unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Therefore, certain information and notes normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted. In our opinion, all adjustments considered necessary for a fair presentation of the interim periods presented have been included. Such adjustments are of a normal and recurring nature. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. Actual results may differ from these estimates under different assumptions or conditions; however, we believe that our estimates, including those for the above-described items, are reasonable.

These interim condensed consolidated financial statements should be read in conjunction with our consolidated financial statements and notes thereto for the year ended December 30, 2009 and the related Management's Discussion and Analysis of Financial Condition and Results of Operations, both of which are contained in our Annual Report on Form 10-K for the fiscal year ended December 30, 2009. The results of operations for the interim periods presented are not necessarily indicative of the results for the entire fiscal year ending December 29, 2010.

Note 2. Summary of Significant Accounting Policies

Newly Adopted Accounting Standards

Fair Value

Accounting Standards Update ("ASU") No. 2010-06, "Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements"

Effective March 31, 2010, we adopted ASU No. 2010-06, which improves disclosure requirements related to fair value measurements under the Codification. The new disclosure requirements relate to transfers in and out of Levels 1 and 2. ASU No. 2010-06 also includes separate disclosure requirements about purchases, sales, issuances and settlements relating to Level 3 measurements, which we are required to adopt in the first quarter of 2011. The adoption did not have a material impact on the disclosures included in our Condensed Consolidated Financial Statements.

Subsequent Events

ASU No. 2010-09, "Subsequent Events (Topic 855): Amendments to Certain Recognition and Disclosure Requirements"

Effective December 31, 2009, the first day of fiscal 2010, we adopted ASC No. 2010-09, which removes the requirement to disclose the date through which subsequent events have been evaluated. The adoption did not have a material impact on the disclosures included in our Condensed Consolidated Financial Statements. See Note 18.

Variable Interest Entities

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 810 "Consolidation"

Effective December 31, 2009, the first day of fiscal 2010, we adopted FASB ASC 810, which amends the guidance on the consolidation of variable interest entities for determining whether an entity is a variable interest entity and modifies the methods allowed for determining the primary beneficiary of a variable interest entity. In addition, it requires ongoing reassessments of whether an enterprise is the primary beneficiary of a variable interest entity and enhanced disclosures related to an enterprise's involvement in a variable interest entity. The adoption did not have a material impact on our Condensed Consolidated Financial Statements.

There have been no other material changes to our significant accounting policies and estimates from the information provided in Note 2 of our Consolidated Financial Statements included in our Form 10-K for the fiscal year ended December 30, 2009.

Accounting Standards to be Adopted

Fair Value

Accounting Standards Update ("ASU") No. 2010-06, "Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements"

As mentioned under the "Fair Value" section above, we are required to adopt the disclosure requirements of ASU 2010-06 about purchases, sales, issuances and settlements relating to Level 3 measurements in the first quarter of 2011. We do not anticipate the adoption to have a material impact on the disclosures included in our Condensed Consolidated Financial Statements.

Accounting standards that have been issued or proposed by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on our Condensed Consolidated Financial Statements upon adoption.

Note 3. Notes Receivables

Notes receivable were comprised of the following:

| | June | 230, 2010 | Dec | cember 30, 2009 |
|---|------|-----------|--------|-----------------|
| | | (In thou | sands) | |
| Current assets (included as a component of receivables): | | ` | ŕ | |

| Receivables related to sale of real estate to a third party | | 62 | | 61 |
| Total current notes receivable | \$ | 1,155 | \$ | 3,565 |
| | | | | |
| Noncurrent (included as a component of other | | | | |
| noncurrent assets): | | | | |
| Receivables related to sale of restaurants to franchisees | \$ | 1,844 | \$ | 1,894 |
| Receivables related to sale of real estate to a third party | | 80 | | 111 |
| Total noncurrent notes receivable | \$ | 1,924 | \$ | 2,005 |

Note 4. Assets Held for Sale

Assets held for sale of \$2.9 million as of June 30, 2010, include restaurants and real estate to be sold to franchisees. There were no assets held for sale as of December 30, 2009. We expect to sell each of these assets within 12 months. Our Credit Facility (defined in Note 8) requires us to make mandatory prepayments to reduce outstanding indebtedness with the net cash proceeds from the sale of specified real estate properties, restaurant assets and restaurant operations to franchisees, net of a voluntary \$10.0 million annual exclusion related to proceeds from the sale of restaurant operations to franchisees and a voluntary \$10.0 million annual exclusion related to proceeds from the sale of restaurant assets. As of June 30, 2010 and December 30, 2009, no reclassification of long-term debt to current liabilities was required. There were no impairment charges recognized related to assets held for sale for the quarter and two quarters ended June 30, 2010. As a result of classifying certain assets as held for sale, we recognized impairment charges of \$0.1 million and \$0.4 million for the quarter and two quarters ended July 1, 2009. This expense is included as a component of operating (gains), losses and other charges, net in our Condensed Consolidated Statements of Operations.

As of June 30, 2010 and December 30, 2009, we had accrued severance and other restructuring charges of \$1.1 million and \$0.9 million, respectively. The balance as of June 30, 2010 is expected to be paid during the next 12 months.

Note 7. Fair Value of Financial Instruments

Fair Value of Assets and Liabilities Measured on a Recurring and Nonrecurring Basis

Financial assets and liabilities measured at fair value on a recurring basis are summarized below:

In addition to the financial assets and liabilities that are measured at fair value on a recurring basis, we measure certain assets and liabilities at fair value on a nonrecurring basis. As of June 30, 2010, there were no such nonrecurring measurements. As of December 30, 2009, impaired assets related to an underperforming unit were written down to a fair value of \$0 based on the income approach.

Fair Value of Long-Term Debt

The market quotation for our Denny's Holdings, Inc. 10% Senior Notes due 2012 ("the 10% Notes") was equal to their par value as of June 30, 2010. Therefore, there was no difference between the estimated fair value of long-term debt and its historical cost reported in our Condensed Consolidated Balance Sheets at June 30, 2010. The difference between the estimated fair value and historical cost at December 30, 2009 directly relates to the market quotations for the 10% Notes.

Note 8. Long-Term Debt

Credit Facility

Our subsidiaries, Denny's, Inc. and Denny's Realty, LLC (the "Borrowers"), have a senior secured credit agreement consisting of a \$50 million revolving credit facility (including up to \$10 million for a revolving letter of credit facility for short term needs), a \$65 million term loan and an additional \$30 million letter of credit facility for longer term needs (together, the "Credit Facility"). At June 30, 2010, we had outstanding letters of credit of \$24.5 million (comprised of \$24.4 million under our letter of credit facility and less than \$0.1 million under our revolving letter of credit facility). There were no revolving loans outstanding at June 30, 2010. These balances result in availability of \$5.6 million under our letter of credit facility and \$49.9 million under the revolving facility.

The revolving facility matures on December 15, 2011. The term loan and the \$30 million letter of credit facility mature on March 31, 2012. The term loan amortizes in equal quarterly installments at a rate equal to approximately 1% per annum with all remaining amounts due on the maturity date. The Credit Facility is available for working capital, capital expenditures and other general corporate purposes. We will be required to make mandatory prepayments under certain circumstances (such as required payments related to asset sales) typical for this type of credit facility and may make certain optional prepayments under the Credit Facility. We believe that our estimated cash flows from operations for 2010, combined with our capacity for additional borrowings under our Credit Facility, will enable us to meet our anticipated cash requirements and fund capital expenditures over the next twelve months.

The Credit Facility is guaranteed by Denny's and its other subsidiaries and is secured by substantially all of the assets of Denny's and its subsidiaries. In addition, the Credit Facility is secured by first-priority mortgages on approximately 100 company-owned real estate assets. The Credit Facility contains certain financial covenants (i.e., maximum total debt to EBITDA (as defined under the Credit Facility) ratio requirements, maximum senior secured debt to EBITDA ratio requirements, minimum fixed charge coverage ratio requirements and limitations on capital expenditures), negative covenants, conditions precedent, material adverse change provisions, events of default and other terms, conditions and provisions customarily found in credit agreements for facilities and transactions of this type.

A commitment fee of 0.5% is paid on the unused portion of the revolving credit facility. Interest on loans under the revolving facility is payable at per annum rates equal to LIBOR plus 250 basis points and will adjust over time based on our leverage ratio. Interest on the term loan and letter of credit facility is payable at per annum rates equal to LIBOR plus 200 basis points. The weighted-average interest rate under the term loan was 2.5% and 3.6% as of June 30, 2010 and July 1, 2009, respectively. Taking into consideration our interest rate swap, described below, the weighted-average interest rate under the term loan was 6.4% as of July 1, 2009.

Note 9. Derivative Financial Instruments

We may choose to utilize derivative financial instruments to manage our exposure to interest rate risk and commodity risk in relation to natural gas costs. We do not enter into derivative instruments for trading or speculative purposes.

As of June 30, 2010 and December 30, 2009, there were no derivative instruments included in the Condensed Consolidated Balance Sheet.

The gains (losses) recognized in our Condensed Consolidated Statements of Operations as a result of interest rate swaps and natural gas hedge contracts are as follows:

| Interest rate swap | \$ | -\$ 312 | \$ (167) \$ | 875 |

Natural gas contracts

\$ _\$ 400 \$

-\$ 406

The unrealized gains (losses) related to the interest rate swap include both the changes in the fair value of the swap and the amortization of losses previously recorded in accumulated other comprehensive income.

Interest Rate Swap

In 2007, we entered into an interest rate swap with a notional amount of \$150 million that was designated as a cash flow hedge of our interest rate exposure. Under the terms of the swap, we paid a fixed rate of 4.8925% on the notional amount and received payments from the counterparties based on the 3-month LIBOR rate for a term ending on March 30, 2010, effectively resulting in a fixed rate of 6.8925% on the notional amount. Interest rate differentials paid or received under the swap agreement were recognized as adjustments to interest expense. At the end of 2007, we determined that a portion of the underlying cash flows related to the swap were no longer probable of occurring over the term of the swap as a result of the probability of paying the debt down below the notional amount. As a result, we discontinued hedge accounting treatment. The losses included in accumulated other comprehensive income as of December 26, 2007 were amortized to other nonoperating expense over the remaining term of the swap. In 2008, we terminated \$50 million of the notional amount of the swap. In the fourth quarter of 2009 we terminated the remaining \$100 million of the notional amount of the swap. The 2009 termination resulted in a \$1.3 million cash payment, which was made in the fourth quarter of 2009. There were no interest rate swaps outstanding as of December 30, 2009 or June 30, 2010.

Natural Gas Hedge Contracts

Realized gains (losses) on the contracts are recorded as utility cost which is a component of other operating expenses. The contracts are not accounted for under hedge accounting; therefore, changes in the contracts' fair value are recorded in other nonoperating expense.

Note 10. Defined Benefit Plans

The components of net periodic benefit cost were as follows:

We did not make any contributions to our qualified pension plan during the two quarters ended June 30, 2010. We made contributions of \$0.6 million to our qualified pension plan during the two quarters ended July 1, 2009. We made contributions of \$0.1 million and \$0.1 million to our other defined benefit plans during the two quarters ended June 30, 2010 and July 1, 2009, respectively. We do not expect to contribute to our qualified pension plan during 2010. We expect to contribute an additional \$0.1 million to our other defined benefit plans over the remainder of fiscal 2010.

Additional minimum pension liability of \$18.0 million is reported as a component of accumulated other comprehensive loss in the Condensed Consolidated Statement of Shareholders' Deficit and Comprehensive Income as of June 30, 2010 and December 30, 2009.

Note 11. Share-Based Compensation

Total share-based compensation included as a component of net income was as follows:

Stock Options

During the two quarters ended June 30, 2010, we granted approximately 0.6 million stock options to certain employees. These stock options vest evenly over 3 years and have a 10-year contractual life.

The weighted average fair value per option for options granted during the two quarters ended June 30, 2010 was \$1.21. The fair value of these stock options was estimated at the date of grant using the Black-Scholes option pricing model. Use of this option pricing model requires the input of subjective assumptions. These assumptions include estimating the length of time employees will retain their vested stock options before exercising them ("expected term"), the estimated volatility of our common stock price over the expected term and the number of options that will ultimately not complete their vesting requirements ("forfeitures"). Changes in the subjective assumptions can materially affect the estimate of the fair value of share-based compensation and, consequently, the related amount recognized in the Condensed Consolidated Statements of Operations.

We used the following weighted average assumptions for the stock option grants for the two quarters ended June 30, 2010:

| Dividend yield | 0.0% |
|--------------------------------|-----------|
| Expected volatility | 60.2% |
| Risk-free interest rate | 2.48% |
| Weighted average expected term | 4.7 years |

The dividend yield assumption was based on our dividend payment history and expectations of future dividend payments. The expected volatility was based on the historical volatility of our stock for a period approximating the expected life. The risk-free interest rate was based on published U.S. Treasury spot rates in effect at the time of grant with terms approximating the expected life of the option. The weighted average expected term of the options represents the period of time the options are expected to be outstanding based on historical trends.

As of June 30, 2010, we had approximately \$1.3 million of unrecognized compensation cost related to unvested stock option awards outstanding, which is expected to be recognized over a weighted average of 1.8 years.

Restricted Stock Units

In June 2010, we granted two awards of less than 0.1 million restricted stock units to certain non-employee board members. One award had a grant date fair value of \$2.72 and the other had a grant date fair value of \$2.82. The units vest 12 months from the grant date and, based on the participant's election, are converted to shares of Denny's stock either upon vesting or upon the board member's separation from the Board of Directors.

In January 2010, we granted approximately 0.1 million performance shares and 0.1 million performance units to certain employees. As these awards contain a market condition, a Monte Carlo valuation was used to determine the performance shares grant date fair value of \$2.69 per share. The awards granted to our named executive officers also contain a performance condition based on certain operating measures for the fiscal year ended December 29, 2010. The performance units were valued at \$2.00 per unit. The performance period is the three year fiscal period beginning December 31, 2009 and ending December 26, 2012. The performance shares and units will vest and be earned (from 0% to 150% of the target award for each such increment) at the end of the performance period based on the Total Shareholder Return of our stock compared to the Total Shareholder Returns of a group of peer companies.

During the two quarters ended June 30, 2010, we made payments of \$0.9 million (before taxes) in cash and issued 0.2 million shares of common stock related to the restricted stock unit awards that vested as of December 30, 2009.

Accrued compensation expense included as a component of the Condensed Consolidated Balance Sheet was as follows:

| | June (| 30, 2010 | | ember 30, 2009 | |
|--|--------|----------|----------|-------------------|--|
| | | (In thou | ousands) | | |

| | | | | | |
| Equity classified restricted stock units: | | | | | |
| Additional paid-in capital | \$ | 5,207 | \$ | 5,237 | |

As of June 30, 2010, we had approximately \$1.6 million of unrecognized compensation cost (approximately \$0.6 million for liability classified units and approximately \$1.0 million for equity classified units) related to all unvested restricted stock unit awards outstanding, which is expected to be recognized over a weighted average of 1.4 years.

Board Deferred Stock Units

During the two quarters ended June 30, 2010, we granted 0.1 million deferred stock units (which are equity classified) with a weighted average grant date fair value of \$2.92 per unit to non-employee members of our Board of Directors. The directors may elect to convert these awards into shares of common stock either on a specific date in the future (while still serving as a member of the Board of Directors) or upon termination as a member of the Board of Directors.

Note 12. Comprehensive Income and Accumulated Other Comprehensive Loss

Total comprehensive income was \$10.2 million and \$14.2 million for the two quarters ended June 30, 2010 and July 1, 2009, respectively.

The components of Accumulated Other Comprehensive Loss, Net in the Condensed Consolidated Statement of Shareholder's Deficit and Comprehensive Loss are as follows:

| Unrealized loss on interest rate swap | | | | (167) |
| Accumulated other comprehensive loss | \$ | (18,046) | \$ | (18,213) |

Note 13. Income Taxes

The provision for income taxes was \$0.4 and \$0.6 million for the quarter and two quarters ended June 30, 2010 compared to \$0.6 million and \$0.2 million for the quarter and two quarters ended July 1, 2009. The provision for income taxes for the first two quarters of 2010 and 2009 was determined using our effective rate estimated for the entire fiscal year. The increase in our effective tax rate for the two quarters ended June 30, 2010 results primarily from the recognition of \$0.7 million of current tax benefits during the first quarter of 2009 related to the enactment of certain federal laws during the first quarter of 2009. We have provided valuation allowances related to any benefits from income taxes resulting from the application of a statutory tax rate to our net operating losses ("NOL") generated in previous periods.

Note 16. Related Party Transactions:

Execution of capital leases

During the quarter and two quarters ended July 1, 2009, we sold company-owned restaurants to franchisees that are former employees, including a former executive. We received cash proceeds of \$1.1 million and recognized losses of \$0.1 million from these related party sales during the quarter and two quarters ended July 1, 2009. In relation to these sales, we may enter into leases or subleases with the franchisees. These leases and subleases are entered into at fair market value.

Note 17. Commitments and Contingencies

On July 23, 2010, the Company received notice that our former Chief Executive Officer ("CEO") has elected to arbitrate issues with respect to the settlement of any outstanding obligations related to his departure. Under the terms of the employment agreement with our former CEO, such arbitration proceeding is to be held before a single arbitrator in Charlotte, North Carolina in accordance with the rules of the American Arbitration Association and is to be completed within 60 days of the delivery of such notice. We estimate that the arbitration could result in payments to our former CEO ranging from approximately \$0.8 million to \$3.2 million. At June 30, 2010, we have recorded \$0.8 million of severance and other restructuring charges related to the resolution of this matter.

In addition, there are various other claims and pending legal actions against or indirectly involving us, including actions involving employees and guests, other employment related matters, taxes, sales of franchise rights and businesses and other matters. Based on our examination of these matters and our experience to date, we have recorded reserves reflecting our best estimate of liability, if any, with respect to these matters. However, the ultimate disposition of these matters cannot be determined with certainty. We record legal expenses and other litigation costs as those costs are incurred.

Note 18. Subsequent Events

We performed an evaluation of subsequent events and determined that no events required disclosure.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

The following discussion is intended to highlight significant changes in our financial position as of June 30, 2010 and results of operations for the quarter and two quarters ended June 30, 2010 compared to the quarter and two quarters ended July 1, 2009. The forward-looking statements included in Management's Discussion and Analysis of Financial Condition and Results of Operations, which reflect our best judgment based on factors currently known, involve risks, uncertainties, and other factors which may cause our actual performance to be materially different from the performance indicated or implied by such statements. Such factors include, among others: competitive pressures from within the restaurant industry; the level of success of our operating initiatives and advertising and promotional efforts; adverse publicity; changes in business strategy or development plans; terms and availability of capital; regional weather conditions; overall changes in the general economy (including with regard to energy costs), particularly at the retail level; political environment (including acts of war and terrorism); and other factors included in the discussion below, or in Part II. Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations and Part I. Item 1A. Risk Factors, contained in our Annual Report on Form 10-K for the year ended December 30, 2009.

Company Restaurant Operations

During the quarter ended June 30, 2010, we incurred a 6.2% decrease in same-store sales, comprised of a 2.7% decrease in guest check average and a 3.7% decrease in guest counts. Company restaurant sales decreased \$20.2 million, or 16.1%, primarily resulting from a 37 equivalent-unit decrease in company-owned restaurants. The decrease in equivalent units primarily resulted from the sale of company-owned restaurants to franchisees.

Total costs of company restaurant sales as a percentage of company restaurant sales increased to 86.2% from 85.7%. Product costs decreased to 23.3% from 23.4%. Payroll and benefits decreased to 41.2% from 41.6% primarily as a result of a decrease in incentive compensation, partially offset by the deleveraging effect of lower sales and unfavorable workers' compensation claims development. Occupancy costs increased to 6.6% from 6.4% primarily due to the effect of lower sales. Other operating expenses were comprised of the following amounts and percentages of company restaurant sales:

| | Quarter Ended | | | | | | | | |
|--------------------------|---------------|-----------|-----------------|---------|-------|--|--|--|--|
| | | July 1, 2 | 2009 | | | | | | |
| | | | (Dollars in tho | usands) | | | | | |
| Utilities | \$ | 4,391 | 4.2% \$ | 5,584 | 4.4% | | | | |

| Marketing | | 4,522 | 4.3% | 4,812 | 3.8% | | | | |
| Legal settlement costs | | 77 | 0.1% | | 0.0% | | | | |
| Other direct costs | | 5,005 | 4.8% | 5,065 | 4.0% | | | | |
| Other operating expenses | \$ | 15,994 | 15.2% \$ | 17,994 | 14.3% | | | | |

Utilities decreased 0.2 percentage points primarily due to the recognition of \$0.4 million in losses on natural gas contracts during the prior year quarter. Marketing increased 0.5 percentage points as we funded additional advertising for the Super Bowl promotion and the \$2/\$4/\$6/\$8 value menu program. Other direct costs increased 0.8 percentage points primarily as a result of charges for excess promotional materials.

Franchise Operations

Franchise and license revenue and related costs were comprised of the following amounts and percentages of franchise and license revenue for the periods indicated:

| | Quarter Ended | | | | | | | | |
|--|---------------|---------|-----------------|------------|--------|--|--|--|--|
| | | June 30 | July 1, | ly 1, 2009 | | | | | |
| | | | (Dollars in tho | usands) | | | | | |

| Occupancy revenue | | 11,273 | 37.8% | 11,035 | 36.4% | | | | |
| Franchise and license revenue | \$ | 29,776 | 100.0% \$ | 30,313 | 100.0% | | | | |
| | | | | | | | | | |
| Occupancy costs | | 8,642 | 29.0% | 8,586 | 28.3% | | | | |
| Other direct costs | | 2,481 | 8.4% | 2,103 | 7.0% | | | | |
| Costs of franchise and license revenue | \$ | 11,123 | 37.4% \$ | 10,689 | 35.3% | | | | |

Royalties decreased by \$0.2 million, or 0.9%, primarily resulting from the effects of a 5.9% decrease in same-store sales, partially offset by a 49 equivalent unit increase in franchised and licensed units. The increase in equivalent units resulted primarily from the sale of company-owned restaurants to franchisees. Initial fees decreased by \$0.6 million, or 47.2%, as fewer restaurants were opened by and sold to franchisees during the current year quarter. The increase in occupancy revenue of \$0.2 million, or 2.2%, is also primarily the result of the sale of restaurants to franchisees over the last 12 months.

Costs of franchise and license revenue increased by \$0.4 million, or 4.1%. The increase in occupancy costs of \$0.1 million, or 0.7%, is primarily the result of the sale of company-owned restaurants to franchisees. Other direct costs increased by \$0.4 million, or 18.0%, primarily as a result of expenses associated with future restaurant openings related to the Pilot Flying J transaction (See Recent Events section). As a result, costs of franchise and license revenue as a percentage of franchise and license revenue increased to 37.4% for the quarter ended June 30, 2010 from 35.3% for the quarter ended July 1, 2009.

Other Operating Costs and Expenses

Other operating costs and expenses such as general and administrative expenses and depreciation and amortization expense relate to both company and franchise operations.

General and administrative expenses were comprised of the following:

| | Quarter E | Ended |
|---|-------------|---------|
| | June 30, | July 1, |
| | 2010 | 2009 |
| | (In thous | ands) |
| Share-based compensation | \$ (109) \$ | 1,817 |
| Other general and administrative expenses | 13,220 | 14,090 |
| Total general and administrative expenses | \$ 13,111 | 15,907 |

The \$1.9 million decrease in share-based compensation expense is primarily due to the adjustment of the liability classified restricted stock units to fair value as of June 30, 2010 and a \$0.5 million reduction in expense related to forfeitures resulting from the departure of the Company's former Chief Executive Officer. The \$0.9 million decrease in other general and administrative expenses is primarily the result of a \$2.6 million decrease in incentive and deferred compensation, partially offset by a \$1.5 million increase in costs related to our recent proxy contest.

Depreciation and amortization was comprised of the following:

| | | Quarter | End | ded | |
|---|----|---------------|-----|-------|--|
| | Ju | June 30, July | | | |
| | | 2010 | 2 | 2009 | |
| | | (In thousa | | | |
| Depreciation of property and equipment | \$ | 5,328 | \$ | 6,028 | |
| Amortization of capital lease assets | | 691 | | 678 | |
| Amortization of intangible assets | | 1,272 | | 1,309 | |
| Total depreciation and amortization expense | \$ | 7,291 | \$ | 8,015 | |

The overall decrease in depreciation and amortization expense is due to the sale of company-owned restaurants to franchisees during fiscal 2009.

Operating (gains), losses and other charges, net were comprised of the following:

| Operating (gains), losses and other charges, net | \$ | (117) \$ | (3,751) | | |

During the quarter ended June 30, 2010, we recognized \$1.2 million of gains on the sale of nine restaurant operations to four franchisees for net proceeds of \$3.0 million (which included a note receivable of \$0.2 million). During the quarter ended July 1, 2009, we recognized \$2.3 million of gains on the sale of 22 restaurant operations to eight franchisees for net proceeds of \$7.0 million (which included a note receivable of \$0.1 million). The remaining gains for the two periods resulted from the recognition of gains on the sale of other real estate assets and deferred gains.

Restructuring charges and exit costs were comprised of the following:

Severance and other restructuring charges for the quarter ended June 30, 2010 includes \$0.8 million related to the departure of the Company's former Chief Executive Officer (see Part II Item 1. Legal Proceedings).

Impairment charges for the quarter ended July 1, 2009 relate to underperforming restaurants as well as restaurants held for sale.

Operating income was \$12.9 million for the quarter ended June 30, 2010 compared with \$17.4 million for the quarter ended July 1, 2009.

Interest expense, net was comprised of the following:

| | Quarter Ended | | | |

| Interest accretion on other liabilities | | 404 | | 599 |
| Total interest expense, net | \$ | 6,514 | \$ | 8,239 |

The decrease in interest expense resulted primarily from the repayment of \$15.0 million and \$46.7 million of term loan debt during 2010 and 2009, respectively.

Other nonoperating expense (income), net was \$0.6 million for the quarter ended June 30, 2010 compared with other nonoperating income of \$0.7 million for the quarter ended July 1, 2009.

The provision for income taxes was \$0.4 million for the quarter ended June 30, 2010 compared to \$0.6 million for the quarter ended July 1, 2009. The provision for income taxes for the second quarters of 2010 and 2009 was determined using our effective rate estimated for the entire fiscal year. We have provided valuation allowances related to any benefits from income taxes resulting from the application of a statutory tax rate to our net operating losses ("NOL") generated in previous periods.

Net income was \$5.5 million for the quarter ended June 30, 2010 compared with \$9.3 million for the quarter ended July 1, 2009 due to the factors noted above.

Company Restaurant Operations

During the two quarters ended June 30, 2010, we realized a 5.8% decrease in same-store sales, comprised of a 1.3% decrease in guest check average and a 4.6% decrease in guest counts. Company restaurant sales decreased \$48.0 million, or 18.4%, primarily resulting from a 50 equivalent-unit decrease in company-owned restaurants. The decrease in equivalent-units primarily resulted from the sale of company-owned restaurants to franchisees.

Total costs of company restaurant sales as a percentage of company restaurant sales decreased to 86.3% from 87.0%. Product costs remained constant at 23.6%. Payroll and benefits decreased to 41.1% from 42.1% primarily as a result of a decrease in incentive compensation. Occupancy costs increased to 6.7% from 6.5% primarily due to the deleveraging effect of lower sales. Other operating expenses were comprised of the following amounts and percentages of company restaurant sales:

| Other operating expenses | \$ 31,858 | 15.0% \$ | 38,592 | 14.8% | | |

Utilities decreased 0.6 percentage points primarily due to the recognition of \$1.0 million in losses on natural gas contracts during the prior year. Marketing increased 0.4 percentage points as we funded additional advertising for the Super Bowl promotion and the \$2/\$4/\$6/\$8 value menu program.

Franchise Operations

Franchise and license revenue and costs of franchise and license revenue were comprised of the following amounts and percentages of franchise and license revenue for the periods indicated:

| | Two Quarters Ended | | | | | |
|--|--------------------|---------|----------------|-----------|--------|--|
| | | June 30 |), 2010 | July 1 | , 2009 | |
| | | | (Dollars in th | ousands) | | |
| Royalties | \$ | 35,818 | 60.1% | \$ 35,885 | 59.3% | |
| Initial fees | | 1,112 | 1.9% | 2,906 | 4.8% | |
| Occupancy revenue | | 22,635 | 38.0% | 21,706 | 35.9% | |
| Franchise and license revenue | \$ | 59,565 | 100.0% | \$ 60,497 | 100.0% | |
| | | | | | | |
| Occupancy costs | | 17,319 | 29.1% | 16,608 | 27.4% | |
| Other direct costs | | 6,170 | 10.3% | 5,379 | 8.9% | |
| Costs of franchise and license revenue | \$ | 23,489 | 39.4% | \$ 21,987 | 36.3% | |

Royalties decreased by \$0.1 million, or 0.2% primarily resulting from the effects of a 6.1% decrease in same-store sales, offset by a 64 equivalent-unit increase in franchised and licensed units. The increase in equivalent-units resulted primarily from the sale of company-owned restaurants to franchisees. Initial fees decreased by \$1.8 million, or 61.7%, as fewer restaurants were opened by and sold to franchisees during the current year period. The increase in occupancy revenue of \$0.9 million, or 4.3%, is also primarily the result of the sale of restaurants to franchisees over the last 12

months.

Costs of franchise and license revenue increased by \$1.5 million, or 6.8%. The increase in occupancy costs of \$0.7 million, or 4.3%, is primarily the result of the sale of company-owned restaurants to franchisees. Other direct costs increased by \$0.8 million, or 14.7%, primarily as a result of expenses associated with future restaurant openings related to the Pilot Flying J transaction (See Recent Events section). As a result, costs of franchise and license revenue as a percentage of franchise and license revenue increased to 39.4% for the two quarters ended June 30, 2010 from 36.3% for the two quarters ended July 1, 2009.

Other Operating Costs and Expenses

Other operating costs and expenses such as general and administrative expenses and depreciation and amortization expense relate to both company and franchise operations.

General and administrative expenses are comprised of the following:

| | T | wo Quar | Ended | | |
|---|----|---------|-------|---------|--|
| | Jı | une 30, | | July 1, | |
| | | 2010 | | 2009 | |
| | | (In tho | ısa | nds) | |
| Share-based compensation | \$ | 1,249 | \$ | 2,702 | |
| General and administrative expenses | | 24,936 | | 27,052 | |
| Total general and administrative expenses | \$ | 26,185 | \$ | 29,754 | |

The \$1.5 million decrease in share-based compensation expense is primarily due to a \$0.5 million reduction in expense related to forfeitures resulting from the departure of the Company's former Chief Executive Officer and the adoption of lower cost share-based compensation plans during recent years. The \$2.1 million decrease in other general and administrative expenses is primarily the result of a \$4.1 million decrease in incentive and deferred compensation, partially offset by a \$2.0 million increase in costs related to our recent proxy contest.

Depreciation and amortization is comprised of the following:

| | T | Two Quarters Ended | | | |
|---|----|--------------------|---------|--------|--|
| | Jı | ine 30, | July 1, | | |
| | | 2010 | 2009 | | |

| Amortization of capital lease assets | | 1,345 | | 1,396 | |
| Amortization of intangible assets | | 2,523 | | 2,727 | |
| Total depreciation and amortization expense | \$ | 14,664 | \$ | 16,727 | |

The overall decrease in depreciation and amortization expense is due primarily to the sale of company-owned restaurants to franchisees during fiscal 2009.

Operating gains, losses and other charges, net are comprised of the following:

| | Two Quarters Ended | | | |
|--|--------------------|----------|---------|---------|
| | Jı | une 30, | July 1, | |
| | | 2010 | 2009 | |
| | | (In thou | sands) | |

| Impairment charges | | _ | - | 823 |
| Operating gains, losses and other charges, net | \$ | 306 | \$ | (3,453) |

During the two quarters ended June 30, 2010, we recognized \$1.2 million of gains on the sale of nine restaurant operations to four franchisees for net proceeds of \$3.0 million (which included a note receivable of \$0.2 million) and additional gains on prior year restaurant sale transactions. During the two quarters ended July 1, 2009, we recognized \$2.8 million of gains on the sale of 52 restaurant operations to ten franchisees for net proceeds of \$11.8 million (which included notes receivable of \$1.5 million). The remaining gains for the two periods resulted from the recognition of gains on the sale of other real estate assets and deferred gains.

Restructuring charges and exit costs were comprised of the following:

| | T | Two Quarters Ende | | | |

| Severance and other restructuring charges | | 919 | | 501 | |
| Total restructuring and exit costs | \$ | 1,782 | \$ | (244) | |

Severance and other restructuring charges for the two quarters ended June 30, 2010 includes \$0.8 million related to the departure of the Company's former Chief Executive Officer (see Part II Item 1. Legal Proceedings).

Impairment charges for the two quarters ended July 1, 2009 generally relate to underperforming restaurants as well as restaurants and real estate held for sale.

Operating income was \$24.1 million for the two quarters ended June 30, 2010 and \$29.4 million for the two quarters ended July 1, 2009.

Interest expense, net is comprised of the following:

| | Two Quarters Ended | | | |
|--|--------------------|---------|---------|--------|
| | \mathbf{J}_1 | une 30, | July 1, | |
| | | 2010 | 2009 | |

| Letters of credit and other fees | | 776 | | 859 |
| Interest income | | (838) | | (830) |
| Total cash interest | | 11,570 | | 14,950 |

| Interest accretion on other liabilities | | 825 | | 1,238 |
| Total interest expense, net | \$ | 12,912 | \$ | 16,730 |

The decrease in interest expense resulted primarily from the repayment of \$15.0 million and \$46.7 million of term loan debt during 2010 and 2009, respectively.

Other nonoperating expense (income), net was \$0.6 million for the two quarters ended June 30, 2010 compared with other nonoperating income of \$1.2 million for the two quarters ended July 1, 2009.

The provision for income taxes was \$0.6 for the two quarters ended June 30, 2010 compared to \$0.2 million for the two quarters ended July 1, 2009. The provision for income taxes for the first two quarters of 2010 and 2009 was determined using our effective rate estimated for the entire fiscal year. The increase in our effective tax rate for the two quarters ended June 30, 2010 results primarily from the recognition of \$0.7 million of current tax benefits during the first quarter of 2009 related to the enactment of certain federal laws during the first quarter of 2009. We have provided valuation allowances related to any benefits from income taxes resulting from the application of a statutory tax rate to our net operating losses ("NOL") generated in previous periods.

Net income was \$10.0 million for the two quarters ended June 30, 2010 compared with \$13.6 million for the two quarters ended July 1, 2009 due to the factors noted above.

Liquidity and Capital Resources

Our primary sources of liquidity and capital resources are cash generated from operations, borrowings under our Credit Facility (as defined in Note 8) and, in recent years, cash proceeds from the sale of surplus properties and sales of restaurant operations to franchisees, to the extent allowed by our Credit Facility. Principal uses of cash are operating expenses, capital expenditures and debt repayments.

The following table presents a summary of our sources and uses of cash and cash equivalents for the periods indicated:

| | T | wo Quar | Ended | |
|---|----|---------|---------|-------|
| | J | une 30, | July 1, | |
| | | 2010 | | 2009 |
| | | (In tho | usar | ıds) |
| Net cash provided by operating activities | \$ | 10,692 | \$ | 7,427 |
| Net cash (used in) provided by investing activities | | (297) | | 5,094 |

| Net cash used in financing activities | (15,243) (13,698) |
|---|-----------------------|
| Net decrease in cash and cash equivalents | \$ (4,848) \$ (1,177) |

The increase in operating cash flows is primarily the result of timing differences in marketing spending and the reduction in our interest payments. We believe that our estimated cash flows from operations for 2010, combined with our capacity for additional borrowings under our Credit Facility, will enable us to meet our anticipated cash requirements and fund capital expenditures over the next twelve months.

Net cash flows used in investing activities were \$0.3 million for the two quarters ended June 30, 2010. These cash flows include capital expenditures of \$8.4 million, of which \$2.1 million was financed through capital leases. These expenditures were partially offset by \$3.3 million in proceeds from the sales of restaurant operations to franchisees and the sale of other real estate assets and collections of notes receivable of \$2.7 million. Our principal capital requirements have been largely associated with the maintenance of our existing company-owned restaurants and facilities, new construction, remodeling, information technology and our strategic initiatives, as follows:

| | | ded | | | |
|------------------------|-------------|----------|----|---------|--|
| | Ju | June 30, | | July 1, | |
| | | 2010 | 2 | 2009 | |
| | (In thousar | | | ıds) | |
| Facilities | \$ | 2,742 | \$ | 2,904 | |
| New construction | | 1,630 | | 1,819 | |
| Remodeling | | 756 | | 1,253 | |
| Information technology | | 597 | | 35 | |
| Strategic initiatives | | 11 | | 836 | |
| Other | | 574 | | 1,089 | |
| Capital expenditures | \$ | 6,310 | \$ | 7,936 | |

We generally expect our capital requirements to trend downward as we reduce our company-owned restaurant portfolio and remain selective in our new restaurant investments.

Cash flows used in financing activities were \$15.2 million for the two quarters ended June 30, 2010, which included \$14.6 million of term loan prepayments and \$0.4 million of scheduled term loan payments.

Our Credit Facility consists of a \$50 million revolving credit facility (including up to \$10 million for a revolving letter of credit facility for short term needs), a \$65 million term loan and an additional \$30 million letter of credit facility for longer term needs. At June 30, 2010, we had outstanding letters of credit of \$24.5 million (comprised of \$24.4 million under our letter of credit facility and less than \$0.1 million under our revolving letter of credit facility). There were no revolving loans outstanding at June 30, 2010. These balances result in availability of \$5.6 million under our letter of credit facility and \$49.9 million under the revolving facility.

The revolving facility matures on December 15, 2011. The term loan and the \$30 million letter of credit facility mature on March 31, 2012. The term loan amortizes in equal quarterly installments at a rate equal to 1% per annum with all remaining amounts due on the maturity date. The revolving facility is available for working capital, capital expenditures and other general corporate purposes. We will be required to make mandatory prepayments under certain circumstances (such as required payments related to asset sales) typical for this type of credit facility and may make certain optional prepayments under the Credit Facility.

The Credit Facility is guaranteed by Denny's and its other subsidiaries and is secured by substantially all of the assets of Denny's and its subsidiaries. In addition, the Credit Facility is secured by first-priority mortgages on approximately 100 company-owned real estate assets. The Credit Facility contains certain financial covenants (i.e., maximum total debt to EBITDA (as defined under the Credit Facility) ratio requirements, maximum senior secured debt to EBITDA ratio requirements, minimum fixed charge coverage ratio requirements and limitations on capital expenditures), negative covenants, conditions precedent, material adverse change provisions, events of default and other terms, conditions and provisions customarily found in credit agreements for facilities and transactions of this type. We were in compliance with the terms of the Credit Facility as of June 30, 2010.

As of June 30, 2010, interest on loans under the revolving facility is payable at per annum rates equal to LIBOR plus 250 basis points and will adjust over time based on our leverage ratio. Interest on the term loan and letter of credit facility is payable at per annum rates equal to LIBOR plus 200 basis points. As of June 30, 2010, the weighted-average interest rate under the term loan was 2.5%.

Our working capital deficit was \$23.2 million at June 30, 2010 compared with \$33.8 million at December 30, 2009. The decrease in working capital deficit resulted primarily from the sale of company-owned restaurants to franchisees during 2009 and 2010 and a \$2.9 million increase in assets held for sale. We are able to operate with a substantial

working capital deficit because (1) restaurant operations and most food service operations are conducted primarily on a cash (and cash equivalent) basis with a low level of accounts receivable, (2) rapid turnover allows a limited investment in inventories, and (3) accounts payable for food, beverages and supplies usually become due after the receipt of cash from the related sales.

Recent Events

As previously disclosed, Denny's has been selected as the full-service restaurant operator of choice for Pilot Travel Centers LLC ("Pilot"). On June 30, 2010, the Federal Trade Commission approved Pilot's merger with Flying J Travel Centers ("Flying J"). Now named Pilot Flying J, the company is North America's largest retail operator of travel centers. Up to 140 Flying J full-service restaurants could be converted to Denny's. We began converting former Flying J restaurant operations in July 2010 and expect to have 80 sites converted by year end 2010, including 10 sites which will operate as company restaurants. Denny's franchisees will convert and operate most of the Flying J locations with the Company planning to convert and operate approximately fifteen of the restaurants. We also expect up to an additional 50 Denny's restaurants will open in existing and proposed Pilot Travel Centers over the next several years.

Implementation of New Accounting Standards

See Note 2 to our Condensed Consolidated Financial Statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

We have exposure to interest rate risk related to certain instruments entered into for other than trading purposes. Specifically, borrowings under the term loan and revolving credit facility bear interest at variable rates based on LIBOR plus a spread of 200 basis points per annum for the term loan and letter of credit facility and 250 basis points per annum for the revolving credit facility.

Based on the levels of borrowings under the Credit Facility at June 30, 2010, if interest rates changed by 100 basis points, our annual cash flow and income before income taxes would change by approximately \$0.7 million. This computation is determined by considering the impact of hypothetical interest rates on the variable rate portion of the Credit Facility at June 30, 2010. However, the nature and amount of our borrowings under the Credit Facility may vary as a result of future business requirements, market conditions and other factors.

Our other outstanding long-term debt bears fixed rates of interest. The book value and estimated fair value of our fixed rate long-term debt (excluding capital lease obligations and revolving credit facility advances) was approximately \$175.2 million at June 30, 2010. This computation is based on market quotations for the same or similar debt issues or the estimated borrowing rates available to us. The market quotation for the 10% Notes was equal to their par value as of June 30, 2010, therefore there was no difference between the estimated fair value of long-term debt compared with its historical cost.

We also have exposure to interest rate risk related to our pension plan, other defined benefit plans and self-insurance liabilities. A 25 basis point increase or decrease in discount rate would decrease or increase our projected benefit obligation related to our pension plan by approximately \$1.8 million and would impact the pension plan's net periodic benefit cost by \$0.1 million. The impact of a 25 basis point increase or decrease in discount rate would decrease or increase our projected benefit obligation related to our other defined benefit plans by less than \$0.1 million while the plans' net periodic benefit cost would remain flat. A 25 basis point increase or decrease in discount rate related to our self-insurance liabilities would result in a decrease or increase of \$0.2 million, respectively.

Commodity Price Risk

We purchase certain food products, such as beef, poultry, pork, eggs and coffee, and utilities such as gas and electricity, which are affected by commodity pricing and are, therefore, subject to price volatility caused by weather, production problems, delivery difficulties and other factors that are outside our control and which are generally unpredictable. Changes in commodity prices affect us and our competitors generally and often simultaneously. In general, we purchase food products and utilities based upon market prices established with vendors. Although many of the items purchased are subject to changes in commodity prices, the majority of our purchasing arrangements are structured to contain features that minimize price volatility by establishing fixed pricing and/or price ceilings and floors. We use these types of purchase arrangements to control costs as an alternative to using financial instruments to hedge commodity prices. In many cases, we believe we will be able to address commodity cost increases which are significant and appear to be long-term in nature by adjusting our menu pricing or changing our product delivery strategy. However, competitive circumstances could limit such actions and, in those circumstances, increases in commodity prices could lower our margins. Because of the often short-term nature of commodity pricing aberrations and our ability to change menu pricing or product delivery strategies in response to commodity price increases, we believe that the impact of commodity price risk is not significant.

We have established a policy to identify, control and manage market risks which may arise from changes in interest rates, commodity prices and other relevant rates and prices. We do not use derivative instruments for trading purposes.

Item 4. Controls and Procedures

As required by Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended, (the "Exchange Act") our management conducted an evaluation (under the supervision and with the participation of our Interim Chief Executive Officer, Debra Smithart-Oglesby, and our Executive Vice President, Chief Administrative Officer and Chief Financial Officer, F. Mark Wolfinger) as of the end of the period covered by this report, of the effectiveness of our disclosure controls and procedures as defined in Rule 13a-15(e) under the Exchange Act. Based on that evaluation, Ms. Smithart-Oglesby and Mr. Wolfinger each concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act (i) is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and (ii) is accumulated and communicated to our management, including Ms. Smithart-Oglesby and Wolfinger, as appropriate to allow timely decisions regarding required disclosure.

There have been no changes in our internal control over financial reporting identified in connection with the evaluation required by Rule 13a-15(d) of the Exchange Act that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

On July 23, 2010, the Company received notice that our former Chief Executive Officer ("CEO") has elected to arbitrate issues with respect to the settlement of any outstanding obligations related to his departure. Under the terms of the employment agreement with our former CEO, such arbitration proceeding is to be held before a single arbitrator in Charlotte, North Carolina in accordance with the rules of the American Arbitration Association and is to be completed within 60 days of the delivery of such notice. We estimate that the arbitration could result in payments to our former CEO ranging from approximately \$0.8 million to \$3.2 million. At June 30, 2010, we have recorded \$0.8 million of severance and other restructuring charges related to the resolution of this matter.

In addition, there are various other claims and pending legal actions against or indirectly involving us, including actions involving employees and guests, other employment related matters, taxes, sales of franchise rights and businesses and other matters. Based on our examination of these matters and our experience to date, we have recorded reserves reflecting our best estimate of liability, if any, with respect to these matters. However, the ultimate disposition of these matters cannot be determined with certainty.
