**Magic Software and Dutch System Integrator ISDC Sign Strategic Partnership for iBOLT Integration Suite**

Irvine, California (July 29, 2003) - Magic Software Enterprises (Nasdaq: MGIC), a leading provider of state-of-the-art integration and development technology, announced today the signing of a strategic partnership with ISDC, a leading Dutch System Integrator to become an iBOLT Integration partner. With this agreement, ISDC joins a growing list of system integrators worldwide that have signed up as partners for iBOLT.

ISDC is a leading system integrator in the Netherlands specializing in customized solutions for large and mid-sized organizations. Since 1990 ISDC has been focused on delivering cost efficient solutions based on Magic Software's eDeveloper ([www.magicsoftware.com/edeveloper](http://www.magicsoftware.com/edeveloper)) rapid application development and deployment technology. With iBOLT, ISDC is expanding its focus into the area of business integration and process management.

Our mission is to make our clients more successful by delivering cost efficient customizable solutions incorporating the latest emerging technologies, said Cor Geertsma, Managing Director of ISDC. iBOLT will be an excellent addition to our portfolio in helping us to realize this mission.

iBOLT Integration Suite ([www.magicsoftware.com/ibolt](http://www.magicsoftware.com/ibolt)) provides organizations with an affordable platform for integrating many of their existing business-critical applications. It is a multi-tiered component-based environment, where developers define and combine components to automate business processes. iBOLT empowers companies to dramatically improve performance and return on investment.

The extensive possibilities of iBOLT combined with the implementation power that ISDC offers, results in a partnership that will provide even greater value to our customers, said Regev Yativ, Managing Director of Magic Software's European operation. We look forward to working closely with ISDC to assist their skilled professional services teams to deliver iBOLT integration projects.
