The Fund seeks long-term capital appreciation primarily through investment in middle-market German equities.

Investments in funds involve risks, including the loss of principal.

The shares of most closed-end funds, including the Fund, are not continuously offered. Once issued, shares of closed-end funds are bought and sold in the open market. Shares of closed-end funds frequently trade at a discount to net asset value. The price of the Fund's shares is determined by a number of factors, several of which are beyond the control of the Fund. Therefore, the Fund cannot predict whether its shares will trade at, below, or above net asset value.

This Fund is diversified, but primarily focuses its investments in Germany, thereby increasing its vulnerability to developments in that country. Investing in foreign securities presents certain risks, such as currency fluctuations, political and economic changes and market risks. Any fund that concentrates in a particular segment of the market will generally be more volatile than a fund that invests more broadly.

The European Union, the United States and other countries have imposed sanctions on Russia as a result of the Russian military intervention in Ukraine. These sanctions have adversely affected Russian individuals, issuers and the Russian economy, and Russia, in turn, has imposed sanctions targeting Western individuals, businesses and products including food products. The various sanctions have adversely affected, and may continue to adversely affect, not only the Russian economy but also the economies of many countries in Europe, including Germany. Potential developments in Ukraine, and the continuation of current sanctions or the imposition of additional sanctions may materially adversely affect the value of the Fund's portfolio.

Letter to the Shareholders (Unaudited)

Dear Shareholder,

For the six months ended June 30, 2015, the New Germany Fund's total return in U.S. dollars (USD) was 9.51% based on net asset value (NAV) and 10.01% based on market price. During the same period, the total return in USD of the Fund's benchmark, the Midcap Market Performance Index, was 7.6%.<sup>1</sup> The net asset value increased 18.98% in euro terms vs. its benchmark of 17.20% in euro terms during the same period. The Fund's discount to NAV averaged 8.38% for the period in review, compared with 9.99% for the six months ended June 30, 2014.

German consumer sentiment remained strong throughout the period, although the overall mood in June was somewhat constrained compared to the previous months in light of the risk of a "Grexit," or Greek exit from the Eurozone.<sup>2,3</sup> The consumer climate, measured by the German Consumer Confidence Index ("GfK"), remained on an elevated level, but declined slightly for the first time since last October.<sup>4</sup> Still, dampened economic confidence has not yet shown an effect in household income. Rather than feeling financially threatened by a possible Greek default, German consumers

see benefits in the current employment climate in Germany and in the potential for positive collective bargaining agreements being reached. Due to the low unemployment rate, German employees can expect to see wages increase around 3% this year, with an inflation rate below 1%. In fact, seasonally adjusted employment steadily increased to 42.7 million in May 2015, up 0.5% year-on-year and 0.2% quarter-on-quarter. The seasonally adjusted unemployment rate decreased to 6.4% in May 2015. Overall, the GfK maintains its forecast that private consumption will increase by 1.5% year-on-year in 2015, following an increase of 1.2% (inflation adjusted) in 2014. We believe that consumption will continue to be a key pillar of the economy, comprising almost 60% of gross domestic product (GDP).<sup>5</sup> We remain constructive on German consumers as trends in wages, employment, price inflation and interest rate levels continue to support private consumption.

Industrial macroeconomic indicators show solid near-term growth, but give some reason for caution longer term. In June, the German composite PMI, as measured by Markit Economics, bounced back to 53.7 after falling in the last two months.<sup>6</sup> The German Ifo Business Climate Index published by the Ifo Institute reveals a similar pattern.<sup>7</sup> The current business situation indicator declined in June following three successive increases, but still showed a reading for Q2 above that of Q1. Business expectations, on the other hand, deteriorated for the third consecutive month and are now seen as only slightly optimistic. On a sector level, the weakening of the Ifo index was primarily driven by the manufacturing sector. Manufacturers still plan to ramp up production, but to a lesser extent than previously.

We are of the opinion that both the decrease in business expectations shown by the Ifo index and the slowing PMI new order component should not be overemphasized. First of all, the Ifo mirrors current sentiment, strongly driven by the perceived risk of a Grexit, whereas the PMI, which actually rose in June, shows improved actual activity. Second, we believe that German growth in 2015 will be primarily driven by consumption.

In our German mid-caps portfolio, taking into account German and global macroeconomic indicators, we remain constructive overall, but at the same time more cautious in line with decelerating economic growth (although not yet mirroring possible wealth effects) due to recent tumultuous stock market performance of the world's second-largest economy, China. In fact, China recorded double-digit growth at 24% year-on-year and 13% year-on-year for the passenger car market in 2013 and 2014. Chinese dynamics have been a key driver of the entire sector. Yet despite these factors, sales growth since January 2015 has been continuously decreasing, ending in negative territory with -0.2% year-on-year growth in June. In our opinion, this may provide the German automobile industry with the opportunity for both a volume and a margin headwind. Consequently, we have reduced the portfolio weight in this industry in favor of focusing on suppliers with a bias towards European and U.S. production or those possessing unique underlying structural growth support.

Within the Fund, positive contributions to performance were generated by Zalando SE, Stroeer Media and Stabilus, among others, while detractors included LEG Immobilien, Kontron and Draegerwerk.

Sincerely,

Christian Strenger  
Chairman

<sup>1</sup> The Midcap Market Performance Index is a total-return index that is composed of various mid-cap securities across all sectors of the MDAX and TecDAX. The MDAX is a total-rate-of-return index of 50 mid-cap issues that rank below the DAX. The DAX is a total-rate-of-return index of 30 selected German blue chip stocks traded on the

Frankfurt Stock Exchange. The TecDAX is a total-return index that tracks the 30 largest and most liquid issues from the various technology sectors of the Prime Standard Segment beneath the DAX. Index returns assume reinvestment of dividends and, unlike Fund returns, do not reflect any fees or expenses. It is not possible to invest directly in the Midcap Market Performance Index.

2 Grexit is the term used to describe a Greek exit from the Eurozone, either deliberately or accidentally.

3 The Eurozone refers to a currency union among the 19 members of the European Union states that have adopted the euro as their sole currency.

4 The German Consumer Confidence Index ("GfK") is a composite of information extracted from a monthly survey of more than 2,000 consumer interviews about personal spending patterns, inflationary expectations and opinions about the economic outlook. The survey is conducted by the GfK, a market research organization, on behalf of the European Union ("EU") commission.

5 Gross domestic product (GDP) is the monetary value of goods and services produced within a country's borders in a specific time frame.

6 The Markit/BMI Germany Manufacturing Purchasing Managers' Index measures the performance of the manufacturing sector and is derived from a survey of 500 industrial companies. The Manufacturing Purchasing Managers' Index is based on five individual indexes with the following weights: New Orders (30%), Output (25%), Employment (20%), Suppliers' Delivery Times (15%) and Stock of Items Purchased (10%), with the Delivery Times index inverted so that it moves in a comparable direction.

7 The Ifo Business Climate Index is a monthly survey that measures the business climate in Germany.

Outlook Interview with the

Portfolio Manager (Unaudited)

Portfolio Manager

Philipp Schweneke

Question: How are the key macro indicators developing and is the Fund well positioned for this?

Answer: While retail PMIs continued to climb, the composite PMI declined. This was driven by the construction and service segments. Also, the last three readings on the usually reliable leading Ifo business expectations indicator were negative. Short-term uncertainty related to the Greek situation in particular, and also the U.K. "in or out" vote, as well as Chinese market volatility, might have influenced these readings. As all these indicators are still in expansionary territory, this currently appears more like a summer slowdown than a change in trajectory. While the industrial sector weight increased, this was due to the addition of two more defensive, quality growth stocks, GEA and Fraport. With the Fund relevantly positioned in businesses like Zalando SE, Hornbach Holding, Metro or Fielmann that focus on the German and European consumer and recent, targeted reductions in some of the more cyclical industrial related companies, the Fund should be well positioned for the current environment.

Question: How are signs of slower growth in auto demand in China affecting the portfolio?

Answer: Growth in Chinese automobile sales slowed more than anticipated at the beginning of the year. The clients of German mid-cap automobile suppliers, the international original equipment manufacturers (OEMs), have lost significant market share to Chinese OEMs.<sup>1</sup> Because German suppliers are less exposed to the Chinese OEMs and China has been one of the most important profit pools for the industry in the recent past, the industry might see not only significant headwinds in volume, but also in margins going forward.

Question: What influenced the weak recent Residential Real Estate shares' performance in Germany during the quarter?

Answer: The sector had a strong run in 2014. However, it has seen significant new issuance activity of primary shares and secondary placements, meaning the scarcity of those assets has been reduced. Further, the asset class is interest rate sensitive, and discussions about the timing of an upturn in the interest rate cycle had a negative impact. Finally, quantitative easing has been a negative for such stocks in the past in the U.S., and key stocks in the sector peaked around the start of the ECB's QE, which seems to now be repeating in Germany.<sup>2</sup>

<sup>1</sup> Original equipment manufacturer (OEM) is the term used to define a company whose products are used as components in another company's product. The OEM typically works closely with the company that sells the finished product, the VAR (value-added reseller) to customize designs based on the VAR's needs.

<sup>2</sup> Quantitative easing is a policy enacted by a central bank in an effort to stimulate the economy.

Performance Summary June 30, 2015 (Unaudited)

All performance shown is historical, assumes reinvestment of all dividend and capital gain distributions, and does not guarantee future results. Investment return and principal value fluctuate with changing market conditions so that, when sold, shares may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. For purposes of its industry concentration policy, the Fund classifies issuers of portfolio securities at the industry sub-group level. Certain of the categories in the above Schedule of Investments consist of multiple industry sub-groups or industries.

Fair Value Measurements

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in three broad levels. Level 1 includes quoted prices in active markets for identical securities. Level 2 includes other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds and credit risk). Level 3 includes significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments). The level assigned to the securities valuations may not be an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of June 30, 2015 in valuing the Fund's investments.

## Notes to Financial Statements (Unaudited)

### A. Accounting Policies

The New Germany Fund, Inc. (the "Fund") was incorporated in Maryland on January 16, 1990 as a non-diversified, closed-end management investment company. The Fund commenced investment operations on January 30, 1990. The Fund became a diversified fund on October 26, 2007.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

**Security Valuation.** The Fund calculates its net asset value ("NAV") per share for publication at 11:30 a.m., New York time.

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in three broad levels. Level 1 includes quoted prices in active markets for identical securities. Level 2 includes other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds and credit risk). Level 3 includes significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments). The level assigned to the securities valuations may not be an indication of the risk or liquidity associated with investing in those securities.

Equity securities are valued at the most recent sale price or official closing price reported on the exchange (U.S. or foreign) or over-the-counter market on which they trade prior to the time of valuation. Securities for which no sales are reported are valued at the calculated mean between the most recent bid and asked quotations on the relevant market or, if a mean cannot be determined, at the most recent bid quotation. Equity securities are generally categorized as Level 1.

Investments in open-end investment companies and closed-end investment companies are valued at their NAV each business day and are categorized as Level 1.

Securities and other assets for which market quotations are not readily available or for which the above valuation procedures are deemed not to reflect fair value are valued in a manner that is intended to reflect their fair value as determined in accordance with procedures approved by the Board and are generally categorized as Level 3. In accordance with the Fund's valuation procedures, factors considered in determining value may include, but are not limited to, the type of the security; the size of the holding; the initial cost of the security; the existence of any contractual restrictions on the security's disposition; the price and extent of public trading in similar securities of the issuer or of comparable companies; quotations or evaluated prices from broker-dealers and/or the appropriate stock exchange (for exchange-traded securities); an analysis of the company's or issuer's financial statements; an evaluation of the forces that influence the issuer and the market(s) in which the security is purchased and sold; and, with respect to debt securities, the maturity, coupon, creditworthiness, currency denomination and the movement of the market in which the security is normally traded. The value determined under these procedures may differ from published values for the same securities.

Disclosure about the classification of the fair value measurements is included in a table following the Fund's Schedule of Investments.

**Securities Transactions and Investment Income.** Investment transactions are accounted for on a trade date plus one basis for daily NAV calculation. However, for financial reporting purposes, investment security transactions are reported on trade date. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date net of foreign withholding taxes. Certain dividends from foreign securities may be recorded subsequent to the ex-dividend date as soon as the Fund is informed of such dividends. Realized gains and losses from investment transactions are recorded on an identified cost basis. Proceeds from litigation payments, if any, are included in net realized gain (loss) for investments.

**Securities Lending.** Brown Brothers Harriman & Co., as lending agent, lends securities of the Fund to certain financial institutions under the terms of the Security Lending Agreement. The Fund retains the benefit of owning the securities it has loaned and continues to receive interest and dividends generated by the securities and to participate in any

changes in their market value. The Fund requires the borrowers of the securities to maintain collateral with the Fund consisting of either cash or liquid, unencumbered assets having a value at least equal to the value of the securities loaned. When the collateral falls below specified amounts, the lending agent will use its best effort to obtain additional collateral on the next business day to meet required amounts under the security lending agreement. The Fund may invest the cash collateral into a joint trading account in an affiliated money market fund pursuant to Exemptive Orders issued by the SEC. Deutsche Investment Management Americas Inc. receives a management/administration fee (0.12% annualized effective rate as of June 30, 2015) on the cash collateral invested in the affiliated money fund. The Fund receives compensation for lending its securities either in the form of fees or by earning interest on invested cash collateral net of borrower rebates and fees paid to a lending agent. Either the Fund or the borrower may terminate the loan. There may be risks of delay and costs in recovery of securities or even loss of rights in the collateral should the borrower of the securities fail financially. If the Fund is not able to recover securities lent, the Fund may sell the collateral and purchase a replacement investment in the market, incurring the risk that the value of the replacement security is greater than the value of the collateral. The Fund is also subject to all investment risks associated with the reinvestment of any cash collateral received including, but not limited to, interest rate, credit and liquidity risk associated with such investments.

As of the six months ended June 30, 2015, the Fund had securities on loan. The value of the related collateral exceeded the value of the securities loaned at period end.

Foreign Currency Translation. The books and records of the Fund are maintained in United States dollars.

Assets and liabilities denominated in foreign currency are translated into United States dollars at the 11:00 a.m. midpoint of the buying and selling spot rates quoted by the Federal Reserve Bank of New York. Purchases and sales of investment securities, income and expenses are translated at the rate of exchange prevailing on the respective dates of such transactions. Net realized and unrealized gains and losses on foreign currency transactions represent net gains and losses between trade and settlement dates on securities transactions, the acquisition and disposition of foreign currencies, and the difference between the amount of net investment income accrued and the U.S. dollar amount actually received. That portion of both realized and unrealized gains and losses on investments that results from fluctuations in foreign currency exchange rates is not separately disclosed but is included with net realized and unrealized gain/appreciation and loss/depreciation on investments.

At June 30, 2015, the exchange rate was EUR €1.00 to USD \$1.11.

Contingencies. In the normal course of business, the Fund may enter into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

Taxes. The Fund's policy is to comply with the requirements of the Internal Revenue Code, as amended, which are applicable to regulated investment companies, and to distribute all of its taxable income to its shareholders.

Additionally, the Fund may be subject to taxes imposed by the governments of countries in which it invests and are generally based on income and/or capital gains earned or repatriated. Estimated tax liabilities on certain foreign securities are recorded on an accrual basis and are reflected as components of interest income or net change in unrealized gain/loss on investments. Tax liabilities realized as a result of security sales are reflected as a component of net realized gain/loss on investments.

The Fund has reviewed the tax positions for the open tax years as of December 31, 2014 and has determined that no provision for income tax and/or uncertain tax provisions is required in the Fund's financial statements. The Fund's federal tax returns for the prior three fiscal years remain open subject to examinations by the Internal Revenue Service.

Dividends and Distributions to Shareholders. The Fund records dividends and distributions to its shareholders on the ex-dividend date. The timing and character of certain income and capital gain distributions are determined annually in accordance with United States federal income tax regulations, which may differ from accounting principles generally accepted in the United States of America. These differences primarily relate to investments in foreign denominated investments, investments in foreign passive investment companies, recognition of certain foreign currency gains (losses) as ordinary income (loss) and certain securities sold at a loss. As a result, net investment income (loss) and net realized gain (loss) on investment transactions for a reporting period may differ significantly from distributions during such period. Accordingly, the Fund may periodically make reclassifications among certain of its capital accounts without impacting the NAV of the Fund.

The tax character of current year distributions will be determined at the end of the current fiscal year.

#### B. Investment Advisory and Administration Agreements

The Fund is party to an Investment Advisory Agreement with Deutsche Asset & Wealth Management International GmbH ("DeAWMI"). The Fund also has an Administration Agreement with Deutsche Investment Management Americas Inc. ("DIMA"). DeAWMI and DIMA are affiliated companies.

Under the Investment Advisory Agreement with DeAWMI, DeAWMI directs the investments of the Fund in accordance with its investment objectives, policies and restrictions. DeAWMI determines the securities, instruments and other contracts relating to investments to be purchased, sold or entered into by the Fund.

The Investment Advisory Agreement provides DeAWMI with a fee, computed weekly and payable monthly, at the annual rate of 0.80% of the Fund's average weekly net assets up to and including \$100 million, 0.60% of such assets in excess of \$100 million and up to and including \$500 million, and 0.55% of such assets in excess of \$500 million.

Accordingly, for the six months ended June 30, 2015, the fee pursuant to the Investment Advisory Agreement was equivalent to an annualized rate of 0.68% of the Fund's average daily net assets.

Under the Administration Agreement with DIMA, DIMA provides all of the non-investment advisory services to the Fund. The Administration Agreement provides DIMA with a fee, computed weekly and payable monthly, of 0.20% of the Fund's average weekly net assets.

#### C. Transactions with Affiliates

DeAWM Service Company ("DSC"), an affiliate of DIMA, is the transfer agent, dividend-paying agent and shareholder service agent of the Fund. Pursuant to a sub-transfer agency agreement between DSC and DST Systems, Inc. ("DST"), DSC has delegated certain transfer agent and dividend-paying agent paying functions to DST. DSC compensates DST out of the shareholder servicing fee it receives from the Fund. For the six months ended June 30, 2015, the amount charged to the Fund by DSC aggregated \$11,261, of which \$1,692 is unpaid.

Under an agreement with DIMA, DIMA is compensated for providing typesetting and certain regulatory filing services to the Fund. For the six months ended June 30, 2015, the amount charged to the Fund by DIMA included in the Statements of Operations under "Reports to shareholders" aggregated \$14,641, of which \$7,221 is unpaid.

Deutsche Bank AG, the German parent of DIMA and DeAWMI, and its affiliates may receive brokerage commissions as a result of executing agency transactions in portfolio securities on behalf of the Fund, that the Board determined were effected in compliance with the Fund's Rule 17e-1 procedures. For the six months ended June 30, 2015, Deutsche Bank did not receive brokerage commissions from the Fund.

Certain Officers of the Fund are also officers of DIMA or DeAWMI.

The Fund pays each Director not an "interested person" of DIMA or DeAWMI retainer fees plus specified amounts for attended board and committee meetings.

The Fund may invest cash balances in Central Cash Management Fund, which is managed by DIMA. The Fund indirectly bears its proportionate share of the expenses of Central Cash Management Fund. Central Cash Management Fund does not pay DIMA an investment management fee. Central Cash Management Fund seeks a high level of current income consistent with liquidity and the preservation of capital.

#### D. Portfolio Securities

Purchases and sales of investment securities, excluding short-term investments, for the six months ended June 30, 2015, were \$65,356,788 and \$102,706,721, respectively.

#### E. Capital

During the six months ended June 30, 2015 and the year ended December 31, 2014, the Fund purchased 69,400 and 1,216,464 of its shares of common stock on the open market at a total cost of \$1,024,188 and \$22,293,050 (\$14.76 and \$18.33 average per share), respectively. The average discount of these purchased shares comparing the purchased price to the NAV at the time of purchase was 9.25% and 9.58%, respectively.

During the six months ended June 30, 2015 and the year ended December 31, 2014, the Fund issued for dividend reinvestment 1,271,320 and 1,196,343 shares, respectively. The average discount of these issued shares, comparing the issue price to the NAV at the time of issuance, was 10.19% and 9.16%, respectively.

#### F. Share Repurchases and Tender Offers

On July 26, 2013, the Fund announced that the Board of Directors approved an extension of the repurchase authorization permitting the Fund to repurchase 900,000 shares during the period from August 1, 2013 through July 31, 2014. On June 4, 2014, the Fund announced that the Board of Directors approved a 400,000 increase to the previously announced share repurchase authorization, resulting in a total authorization of 1,300,000 shares for repurchase during the period from August 1, 2013 through July 31, 2014. The Fund repurchased 1,115,846 shares between August 1, 2013 and July 31, 2014. On July 28, 2014, the Fund announced that the Board of Directors approved an extension of the repurchase authorization permitting the Fund to repurchase up to 1,550,000 shares during the period from August 1, 2014 through July 31, 2015. The Fund repurchased 467,937 shares between August 1, 2014 and June 30, 2015. On July 27, 2015, the Fund announced that the Board of Directors approved an extension of the current repurchase authorization permitting the Fund to repurchase up to 1,610,000 shares during the period from August 1, 2015 through July 31, 2016.

Repurchases will be made from time to time when they are believed to be in the best interests of the Fund. There can be no assurance that the Fund's repurchases or Discount Management Program will reduce the spread between the market price of the Fund's shares referred to below and its NAV per share.

Monthly updates concerning the Fund's repurchase program are available on its Web site at [deutschefunds.com](http://deutschefunds.com).

On January 31, 2012, the Fund announced that the Board of Directors approved a Discount Management Program (the "New Program") on the same terms as the Fund's then current program. Pursuant to the New Program, the Fund's Board of Directors approved a series of up to four consecutive semiannual tender offers each for up to 5% of the Fund's outstanding shares of common stock at a price equal to 98% of NAV per share. The Fund would conduct a tender offer if its shares trade at an average discount to NAV of more than 10% during the applicable 12-week

measurement period. During the fourth measurement period that commenced on April 7, 2014 and expired on June 27, 2014, the Fund's shares traded at an average discount to NAV of less than 10%. Therefore, the Fund was not required to conduct a tender offer.

During the third measurement period that commenced on September 16, 2013 and expired on December 6, 2013 and the fourth measurement period that commenced on April 7, 2014 and expired on June 27, 2014, the Fund's shares traded at an average discount to NAV of less than 10%. Therefore, the Fund was not required to conduct a tender offer.

On July 28, 2014, the Fund announced that the Board of Directors adopted a new Discount Management Program whereby the Fund would initiate one contingent tender offer during the period from August 1, 2014 through July 31, 2015 for up to 5% of the Fund's shares outstanding at 98% of the Fund's NAV per share. The terms of the Discount Management Program required the Fund to conduct a tender offer if its shares traded at an average discount to NAV of more than 10% during a 15-week measurement period determined by the Board of Directors. During the measurement period that commenced on September 2, 2014 and expired on December 12, 2014, the Fund's shares traded at an average discount to NAV of less than 10%. Therefore, the Fund was not required to conduct a tender offer.

#### G. Concentration of Ownership

From time to time, the Fund may have a concentration of several shareholder accounts holding a significant percentage of shares outstanding. Investment activities of these shareholders could have a material impact on the Fund. At June 30, 2015, there were three shareholders that held approximately 17%, 11% and 7%, respectively, of the outstanding shares of the Fund.

#### Report of Annual Meeting

##### of Stockholders (Unaudited)

The Annual Meeting of Stockholders (the "Meeting") of The New Germany Fund, Inc. was called to order on June 26, 2015. The Meeting was adjourned until, and reconvened on, July 10, 2015 to permit the solicitation of additional votes. At the close of business on May 12, 2015, the record date for the determination of stockholders entitled to vote at the Meeting, there were issued and outstanding 15,933,822 shares of the Fund's common stock, each share being entitled to one vote, constituting all of the Fund's outstanding voting securities. At the Meeting, the holders of 14,046,814 shares of the Fund's common stock were represented in person or by proxy, constituting a quorum. At the Meeting, the following matters were voted upon by the stockholders. The resulting votes are presented below:

Amended and Restated Bylaws (Unaudited)

On May 1, 2015, the Fund announced that the Board had approved amended and restated bylaws of the Fund. The amended and restated bylaws reflect a number of changes, including changes to: (1) the period of time during which a stockholder's notice of director nominations or proposals of other business to be brought before an annual meeting of the Fund's stockholders must be submitted to the secretary of the Fund in order to be "timely"; (2) the requirements for provision of information by a stockholder with respect to stockholder proposals for nominations or other business to be considered at a stockholder meeting, and to the procedures for the verification and updating of such information by such stockholder upon the written request of the Secretary or Board of the Fund; and (3) the Fund's director qualification provisions. In addition, the amended and restated bylaws add an exclusive forum provision for certain actions against the Fund and its Directors, officers or employees (specifying that the Circuit Court for Baltimore City, Maryland, or, if that court does not have jurisdiction, the United States District Court for the District of Maryland, Baltimore Division, would be the sole and exclusive forum for such actions).

FACTS

Why?

What Does Deutsche Asset & Wealth Management Do With Your Personal Information?

Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share and protect your personal information. Please read this notice carefully to understand what we do.

What?

The types of personal information we collect and share can include:

- Social Security number
- Account balances
- Purchase and transaction history
- Bank account information
- Contact information such as mailing address, e-mail address and telephone number

How?

All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information, the reasons Deutsche Asset & Wealth Management chooses to share and whether you can limit this sharing.

Who we are

Who is providing this notice?

The New Germany Fund, Inc.

What we do

How does Deutsche Asset & Wealth Management protect my personal information?

To protect your personal information from unauthorized access and use, we use security measures that comply with federal law. These measures include computer safeguards and secured files and buildings.

How does Deutsche Asset & Wealth Management collect my personal information?

We collect your personal information, for example. When you:

- open an account
- give us your contact information
- provide bank account information for ACH or wire transactions
- tell us where to send money
- seek advice about your investments

Why can't I limit all sharing?

Federal law gives you the right to limit only

- sharing for affiliates' everyday business purposes — information about your creditworthiness
- affiliates from using your information to market to you
- sharing for non-affiliates to market to you

State laws and individual companies may give you additional rights to limit sharing.

Definitions

Affiliates

Companies related by common ownership or control. They can be financial or non-financial companies. Our affiliates include financial companies with the DWS or Deutsche Bank ("DB") name, such as DB AG Frankfurt and DB Alex Brown.

Non-affiliates

Companies not related by common ownership or control. They can be financial and non-financial companies. Non-affiliates we share with include account service providers, service quality monitoring services, mailing service providers and verification services to help in the fight against money laundering and fraud.

Joint marketing

A formal agreement between non-affiliated financial companies that together market financial products or services to you. Deutsche Asset & Wealth Management does not jointly market.

There are three closed-end funds investing in European equities advised and administered by wholly owned subsidiaries of the Deutsche Bank Group:

— The Central Europe, Russia and Turkey Fund, Inc. — investing primarily in equity or equity-linked securities of issuers domiciled in Central Europe, Russia and Turkey (with normally at least 80% in securities of issuers in such countries).

— The European Equity Fund, Inc. — investing primarily in equity or equity-linked securities of companies domiciled in countries that are members of the European Union (with normally at least 80% in securities of issuers in such countries).

— The New Germany Fund, Inc. — investing primarily in equity or equity-linked securities of middle market German companies with up to 20% in other Western European companies (with no more than 15% in any single country).

Please consult your broker for advice on any of the above or call 1-800-349-4281 (in the U.S.) or 00-800-2287-2750 (outside of the U.S.) for shareholder reports.

The New Germany Fund, Inc. is diversified, but primarily focuses its investments in Germany, thereby increasing its vulnerability to developments in that country. Investing in foreign securities presents certain risks, such as currency fluctuations, political and economic changes and market risks. Any fund that concentrates in a particular segment of the market will generally be more volatile than a fund that invests more broadly.

Total	69,400	\$14.76	69,400	

On July 28, 2014, the Fund announced that the Board of Directors approved the extension of the current repurchase authorization permitting the Fund to repurchase up to 1,550,000 shares during the period from August 1, 2014 through July 31, 2015. The Fund repurchased 467,937 shares between August 1, 2014 and June 30, 2014.

On July 27, 2015, the Fund announced that the Board of Directors approved the extension of the current repurchase authorization permitting the Fund to repurchase up to 1,610,000 shares during the period from August 1, 2015 through July 31, 2016.

In addition, on July 28, 2014 the Fund announced that its Board adopted a new Discount Management Program whereby the Fund will initiate one contingent tender offer during the period from August 1, 2014 through July 31, 2015 for 5% of the Fund's shares outstanding at 98% of net asset value ("NAV"). The terms of the Discount Management Program require the Fund to conduct a tender offer if its shares trade at an average discount to NAV of more than 10% during a fifteen-week measurement period that has been determined by the Fund's Board of Directors. During the measurement period that commenced on September 2, 2014 and expired on December 12, 2014, the Fund's shares traded at an average discount to NAV of less than 10%. Therefore the Fund was not required to conduct a tender offer.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no material changes to the procedures by which stockholders may recommend nominees to the Fund's Board. The Nominating and Governance Committee will consider nominee candidates properly submitted by stockholders in accordance with applicable law, the Fund's Articles of Incorporation or By-laws, resolutions of the Board and the qualifications and procedures set forth in the Nominating and Governance Committee Charter and this proxy statement. The Nominating and Governance Committee's Charter requires that a stockholder or group of stockholders seeking to

submit a nominee candidate (i) must have beneficially owned at least 5% of the Fund's common stock for at least two years, (ii) may submit only one nominee candidate for any particular meeting of stockholders, and (iii) may submit a nominee candidate for only an annual meeting or other meeting of stockholders at which directors will be elected. The stockholder or group of stockholders must provide notice of the proposed nominee pursuant to the requirements found in the Fund's By-laws. Generally, this notice must be received not less than 90 days nor more than 120 days prior to the first anniversary of the date of mailing of the notice for the preceding year's annual meeting. Such notice shall include the specific information required by the Fund's By-laws. The Nominating and Governance Committee will evaluate nominee candidates properly submitted by stockholders on the same basis as it considers and evaluates candidates recommended by other sources.
