Second Quarter 2004 Results

Mexico City, July 23, 2004 - Grupo Iusacell, S.A. de C.V. (Iusacell or the Company) [BMV and NYSE: CEL] today announced unaudited financial results for the second quarter ended June 30, 2004.

Financial Results

Revenue during the second quarter of 2004 decreased 4% from the previous quarter to P\$1,269 million due to lower handsets sales volume. Revenues for the quarter increased 7% compared to the second quarter in 2003 mainly due to higher handset sales volume, offset in part by a 3% decrease in service revenues due a reduction in our rates to contend in the highly competitive Mexican market. As of June 30, 2004, subscribers totaled approximately 1.3 million.

Cost of sales during the second quarter of 2004 decreased 18% from the previous quarter to P\$704 million due to lower handset sales volume. However, this item increased 101% from the second quarter in 2003 mainly driven by the change in our accounting policy adopted as of the third quarter of 2003 whereby we now expense the postpaid handset-related costs rather than amortize them over the average life of the postpaid contracts, and by higher costs related to higher traffic.

Operating expenses increased 55% during the second quarter of 2004 as compared to the first quarter of 2004, primarily due to other income of P\$95 million reflected in the first quarter of 2004 in connection to the sale of 46 towers to American Tower Corporation. The increase was also due, to a lesser extent, i) to an increase of 6% in sales and advertising expenses mainly driven by an increase in temporary sales employees ii) an increase of 26% in general and administrative expenses and iii) other loss related to sales of fixed assets of P\$5 million in the second quarter of 2004. Excluding the other income generated by the sales of towers in the first quarter of 2004, the increase of the operating expense would had been 11%.

Operating expenses decreased 5% in the second quarter of 2004 in comparison with the second quarter of 2003 mainly due to higher sales and advertising expenses of 3% and a reduction of 27% in administrative expenses as a result of the implementation of cost reduction measures.

Operating income before depreciation and amortization decreased 18% to P\$188 million from P\$228 million in the previous quarter and also decreased 58% from the second quarter in 2003, both decreases due to the reasons described above. Excluding the other income generated by the sale of towers in the first quarter of 2004 and the other loss from the sale of fixed assets during the second quarter of 2004, our operating income before depreciation and amortization would have increased 45% as compared to the previous quarter.

Depreciation and amortization decreased 25% in the second quarter of 2004 to P\$483 million compared with the second quarter of 2003 reflecting the Company's decision, adopted during the third quarter of 2003, of expensing the postpaid handset-related costs rather than amortizing them over the average life of the postpaid contracts.

Operating loss in the second quarter of 2004 increased 10% to P\$296 million compared to the previous quarter and increased 48% from the second quarter in 2003, both as a result of the factors described above.

Edgar Filing: GRUPO IUSACELL SA DE CV - Form 6-K

1 Unless otherwise noted, all monetary figures are expressed in Mexican pesos as of June 30, 2004 in accordance to Mexican GAAP. The symbols "P\$" and "US\$" refer to Mexican pesos and U.S. dollars, respectively.

Integral financing cost during the second quarter of 2004 increased to P\$605 million from P\$22 million reflected during the previous quarter and an integral financing gain of P\$19 million during the same quarter of 2003. This result was mainly driven by an exchange loss of P\$357 million caused by the effect on the Company's U.S. dollar-denominated indebtedness of the depreciation of the peso compared with the dollar, and a monetary gain of P\$1 million caused by the effect on our net monetary position of an inflation experienced, both during the second quarter of 2004.

Net loss during the quarter amounted to P\$946 million. This compares to a net loss of P\$346 million in the previous quarter and P\$130 million in the first quarter of 2003.

Capital expenditures: Iusacell invested approximately US\$11 million during this quarter to expand coverage throughout its regions.

Recent Developments

Iusacell launched 3rd Generation (3G) services: On July 14, 2004, Iusacell launched 3G Services; a 3G CDMA third-generation technology that offers a wide range of multimedia applications that enables subscribers to use their mobile phones as a communication tool that complements their lifestyles. Iusacell is the first mobile telephone company in Mexico to offer full coverage using third generation technology.

Iusacell also integrated QUALCOMM'S BREW solution to its system, thus allowing subscribers to surf and download a variety of applications, such as e-mail, ring tones, screen savers, games, and photo transmission, through its mobile telephones. Iusacell plans to offer video transmission features under this technology soon.

Debt Restructuring: As part of the Company's ongoing debt restructuring process, the Company hired in March 2004 the services of Hill Street Capital LLC, as its financial advisor. Hill Street Capital LLC is an investment banking firm established in New York, with experience providing advice and assistance in the execution of financial strategy, merger and acquisitions, restructurings and raising of debt and equity.

The Company, represented by its financial advisor, has held discussions with a group of its creditors aiming to reach a comprehensive restructuring agreement in the shortest possible period. However, the Company can not predict if, when or how such an agreement would be reached. Given its difficult financial situation, the Company does not plan to service the great majority of its financial indebtedness until a comprehensive restructuring agreement with its creditors has been reached.

While the Company works with its advisors towards a comprehensive debt restructuring plan, it continues with its normal daily operations, offering quality products and services that satisfy the need of its customers, with a constant commitment to renew and launch new products and state-of-the-art technology services.

About Iusacell

Edgar Filing: GRUPO IUSACELL SA DE CV - Form 6-K

Grupo Iusacell, S.A. de C.V. (Iusacell, NYSE and BMV: CEL) is a wireless cellular and PCS service provider in Mexico encompassing a total of approximately 92 million POPs, representing approximately 90% of the country's total population. Independent of the negotiations towards the restructuring of its debt, Iusacell reinforces its commitment with customers, employees and suppliers and guarantees the highest quality standards in its daily operations offering more and better voice communication and data services through state-of-the-art technology, such as its new 3G network, throughout all of the regions in which it operates.

Legal Disclaimer

Grupo Iusacell, S.A. de C.V. quarterly reports and all other written materials may from time to time contain statements about expected future events and financial results that are forward-looking and subject to risks and uncertainties. For those statements, the Company claims the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. Discussion of factors that may affect future results is contained in our filings with the Securities and Exchange Commission.

Attached are the Consolidated Income Statements of each of Grupo Iusacell, S.A. de C.V. and Grupo Iusacell Celular, S.A. de C.V. for the three-month period ended June 30, 2004, and the Consolidated Balance Sheet of Grupo Iusacell, S.A. de C.V. and Grupo Iusacell Celular, S.A. de C.V. at June 30, 2004.
