CENTRAL SECURITIES CORPORATION
NOTES TO STATEMENT OF INVESTMENTS

1. Security Valuation Marketable securities are valued at the last or closing sale price or, if unavailable, at the closing bid price. Investments in money market funds are valued at net asset value per share. Securities for which no ready market exists are valued at estimated fair value by the Board of Directors.

As of September 30, 2010, the tax cost of investments was \$316,789,418. Net unrealized appreciation was \$231,743,411 consisting of gross unrealized appreciation and gross unrealized depreciation of \$278,077,860 and \$46,334,449, respectively.

2. Fair Value Measurements The Corporation's investments are categorized below in three broad hierarchical levels based on market price observability as follows:

- Level 1 Quoted prices in active markets for identical investments;
- Level 2 Other significant observable data obtained from independent sources, for example, quoted prices for similar investments, quoted prices for identical investments in markets that are not active, or the use of models or other valuation methodologies;
- Level 3 Significant unobservable inputs including the Corporation's own assumptions based upon the best information available. Investments categorized as Level 3 include securities in which there is little, if any, market activity. The Corporation's Level 3 investments consist of The Plymouth Rock Company, Inc. and Aerogroup International, Inc.

The designated Level for a security is not necessarily an indication of the risk associated with investing in that security.

The Corporation's investments as of September 30, 2010 are classified as shown below. All investments are classified as Level 1 except as those indicated in the Statement of Investments as Level 2 or Level 3.

Valuation Inputs	Investments in Securities
Level 1	\$ 378,170,215
Level 2	1,907,614
Level 3	168,455,000
	\$ 548,532,829

There were no significant transfers of investments between Levels 1, 2, or 3 during the nine months ended September 30, 2010. The following is a reconciliation of assets for which significant unobservable inputs (Level 3) were used in determining fair value:

Balance at December 31, 2009	\$ 154,324,886
Net realized gains and change in unrealized appreciation in investments included in net increase in net assets from operations	14,329,199
Sales	(199,085)
Balance at September 30, 2010	\$ 168,455,000

Edgar Filing: CENTRAL SECURITIES CORP - Form N-Q

The change in unrealized appreciation of Level 3 investments held at September 30, 2010 included in the above table was \$14,229,000. The Corporation's Level 3 investments are valued by the Board of Directors. These valuations are primarily based on comparable company valuation analysis, a discounted future cash flow model and/or a review of independent appraisals. Consideration is also given to corporate governance, marketability, recent private transactions, company and industry outlooks and general market conditions. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the price used by other investors or the price that may be realized upon the actual sale of the security.

3. Restricted Securities - The Corporation from time to time invests in securities the resale of which is restricted. The Corporation does not have the right to demand registration of the restricted securities. On September 30, 2010, such investments had an aggregate value of \$168,455,000, which was equal to 30.7% of the Corporation's net assets. Investments in restricted securities at September 30, 2010, including acquisition dates and cost, were:

Company	Shares	Security	Date Acquired	Cost
AeroGroup International, Inc.	20,000	Common Stock	6/14/05	\$ 11,965
The Plymouth Rock Company, Inc.	60,000	Class A Common Stock	12/15/82	1,500,000
The Plymouth Rock Company, Inc.	10,000	Class A Common Stock	6/9/84	699,986
