NOTES TO FINANCIAL STATEMENTS — (Unaudited)

1. *Significant Accounting Policies* — Central Securities Corporation (the “Corporation”) is registered under the Investment Company Act of 1940, as amended, as a non-diversified, closed-end management investment company. The following is a summary of the significant accounting policies consistently followed by the Corporation in the preparation of its financial statements. These policies are in conformity with generally accepted accounting principles.

Security Valuation — Marketable common and preferred stocks are valued at the last or closing sale price or, if unavailable, at the closing bid price. Written options are valued at the last quoted asked price. Securities for which no ready market exists are valued at estimated fair value pursuant to procedures adopted by the Board of Directors.

Federal Income Taxes — It is the Corporation’s policy to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income and net capital gains to its stockholders. Management has analyzed positions taken on the Corporation’s tax returns and has determined that no provision for income taxes is required in the accompanying financial statements.

Use of Estimates — The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported. Actual results may differ from those estimates.

Other — Security transactions are accounted for as of the trade date, and cost of securities sold is determined by specific identification. Dividend income and distributions to stockholders are recorded on the ex-dividend date.

2. *Fair Value Measurements* — The Corporation’s investments are categorized below in three broad hierarchical levels based on market price observability as follows:

- *Level 1* — Quoted prices in active markets for identical investments;
- *Level 2* — Other significant observable inputs obtained from independent sources, for example, quoted prices for similar investments or the use of models or other valuation methodologies;
- *Level 3* — Significant unobservable inputs including the Corporation’s own assumptions based upon the best information available. Investments categorized as Level 3 include securities in which there is little, if any, market activity. The Corporation’s Level 3 investments consist of The Plymouth Rock Company, Inc. (“Plymouth Rock”) and Aerogroup International, Inc.

The designated Level for a security is not necessarily an indication of the risk associated with investing in that security.

The Corporation's investments as of June 30, 2013 are classified as follows:

	Level 1	Level 2	Level 3	Total Value
Common Stocks	\$385,895,596	—	\$181,544,400	\$567,439,996
Preferred Stocks	—	\$2,187,931	—	2,187,931
Total	\$385,895,596	\$2,187,931	\$181,544,400	\$569,627,927

The Corporation's investment in GeoMet, Inc. Series A Preferred Stock will be transferred from Level 1 to Level 2 if there are no actual market trades in the security on a valuation date. The security will be transferred back to Level 1 if there are market trades on a subsequent valuation date. On June 30, 2013, this investment was considered Level 2, and its value was based on the closing bid price. On December 31, 2012, this investment was considered Level 1, and its value was based on the closing sale price. There were no other transfers of investments between Levels 1, 2 and 3 during the six months ended June 30, 2013.

The following is a reconciliation of the change in the value of Level 3 investments:

Balance as of December 31, 2012	\$ 164,410,200
Net realized gains and change in net unrealized appreciation of investments included in net increase in net assets resulting from operations	17,532,600
Sales	(398,400)
Balance as of June 30, 2013	\$ 181,544,400

Unrealized appreciation of Level 3 investments held at June 30, 2013 increased during the six months ended June 30, 2013 by \$17,416,200, which is included in the above table. In valuing Level 3 investments, the Corporation considers the results of various valuation methods. Consideration is also given to corporate governance, marketability, professional appraisals of portfolio companies, company and industry results and outlooks, and general market conditions. Management then recommends a value for each investment in light of all the information available. All of this information is subsequently presented to and discussed with the Corporation's Board of Directors, which selects the value. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the price used by other investors or the price that may be realized upon the actual sale of the security.

In valuing the Plymouth Rock Level 3 investment as of June 30, 2013, management used a number of significant unobservable inputs to develop a range of possible values for the investment. It used a comparable company approach that applied market multiples from selected publicly traded companies to financial information from each of Plymouth Rock's major business segments. The market multiples used were price-to-book value, price-to-earnings and price-to-revenue. Management also used a discounted cash flow model based on a forecasted earnings growth rate ranging from 0%–4% and a weighted average cost of capital of 10%. Transactions in Plymouth Rock's shares were also considered.

NOTES TO FINANCIAL STATEMENTS — continued (unaudited)

The values obtained from weighting the three methods described above (with greater weight given to the comparable company approach) were then discounted by 20% and 40% for the lack of marketability of the shares, which represents the range of rates management believes market participants would apply. The resulting range of values, together with the underlying support, other information about Plymouth Rock's financial condition and results of operations and its industry outlook, were considered by management, which recommended a value for the investment. All of this information was subsequently considered by the Corporation's directors, who selected the value.

Significant increases (decreases) in the price-to-book value multiple, price-to-earnings multiple, price-to-revenue multiple and earnings growth rate in isolation would result in a higher (lower) range of fair value measurements. Significant increases (decreases) in the discount for lack of marketability or weighted average cost of capital in isolation would result in a lower (higher) range of fair value measurements.

3. *Common Stock Purchases* — The Corporation purchased 67,455 shares of its Common Stock in the first six months of 2013 at an average price of \$20.773 per share representing an average discount from net asset value of 21.1%. It may from time to time purchase Common Stock in such amounts and at such prices as the Board of Directors may deem advisable in the best interests of the stockholders. Purchases will only be made at less than net asset value per share, thereby increasing the net asset value of shares held by the remaining stockholders. Shares so acquired may be held as treasury stock available for stock distributions, or may be retired.

4. *Investment Transactions* — The aggregate cost of securities purchased and the aggregate proceeds of securities sold during the six months ended June 30, 2013, excluding short-term investments, were \$32,874,545 and \$52,275,881, respectively.

As of June 30, 2013, based on cost for Federal income tax purposes, the aggregate gross unrealized appreciation and depreciation for all securities were \$324,413,319 and \$46,506,589, respectively.

5. *Affiliated Companies* — Plymouth Rock and GeoMet, Inc., are affiliated companies as defined in the Investment Company Act of 1940 due to the Corporation's ownership of 5% or more of these companies' outstanding voting securities. During the six months ended June 30, 2013, the Corporation sold 120 shares of Plymouth Rock at a gain of \$390,000 and received as dividends 17,070 additional shares of GeoMet Series A Preferred Stock. The President of the Corporation is a director of Plymouth Rock.

The Corporation does not have the right to demand registration of the restricted securities. Investments in restricted securities at June 30, 2013, including acquisition dates and cost, were:

Company	Shares	Security	Date Acquired	Cost
Aerogroup International, Inc.	20,000	Common Stock	6/14/05	\$ 11,719
The Plymouth Rock Company, Inc.	60,000	Class A Stock	12/15/82	1,500,000
The Plymouth Rock Company, Inc.	9,660	Class A Stock	6/9/84	676,186

7. *Bank Line of Credit* — The Corporation has entered into a \$25 million uncommitted, secured revolving line of credit with UMB Bank, n.a. (“UMB”), the Corporation's custodian. All borrowings are payable on demand of UMB. Interest on any borrowings is payable monthly at a rate based on the federal funds rate, subject to a minimum annual rate of 2.50%. During the six months ended June 30, 2013, there were no outstanding borrowings.

8. *Compensation and Benefit Plans* — The aggregate remuneration paid during the six months ended June 30, 2013 to all officers was \$960,000. This amount represents the taxable income to these officers and therefore differs from the amounts included in the accompanying Statement of Operations that are expensed in accordance with generally accepted accounting principles.

Officers and other employees participate in a 401(k) and profit sharing plan. The Corporation has agreed to contribute 3% of each participant's qualifying compensation to the plan, which is immediately vested. Contributions in excess of 3% may be made at the discretion of the Board of Directors and vest after three years of service. During the six months ended June 30, 2013, the Corporation accrued \$90,400 related to the plan.

The Corporation has adopted and its stockholders have approved an incentive compensation plan (the “2012 Plan”) that is administered by the Corporation's Compensation and Nominating Committee (the “Committee”). The 2012 Plan permits the grant of awards of unrestricted stock, restricted stock, restricted stock units and cash to full-time employees and non-employee directors of the Corporation. The 2012 Plan provides for the issuance of up to 1,000,000 shares of the Corporation's Common Stock over the ten-year life of the 2012 Plan, of which 987,320 remain available for future grants at June 30, 2013. The 2012 Plan limits the amount of shares that can be awarded to any one person in total or within a certain time period. Any award made under the 2012 Plan may be subject to performance conditions.

[15]

NOTES TO FINANCIAL STATEMENTS — continued (unaudited)

Pursuant to the terms of the 2012 Plan, each non-employee director is awarded 500 shares of vested unrestricted Common Stock at his initial election to the Board of Directors or at his continuation of service as a director after the Corporation's annual meeting. During the six months ended June 30, 2013, non-employee directors were granted a total of 3,000 shares of Common Stock valued at \$20.80 per share, which was the average of the high and low prices of the Corporation's Common Stock on the grant date. The aggregate share value of \$62,400 plus cash payments of \$78,500 made to all non-employee directors are included in Directors' Fees expense in the accompanying Statement of Operations. No other awards were made under the 2012 Plan during the six months ended June 30, 2013.

On December 12, 2012, the Corporation granted a performance-based award to an officer. Achievement of this award is based on the Corporation satisfying at least one of three performance goals determined by the Committee over the period from January 1, 2013 through June 30, 2014 (the "Performance Period"). The maximum amount that can be paid under this grant is \$1,000,000, of which a maximum of one-third relates to each performance goal. The Committee has full discretion to reduce the amount awarded for the achievement of any of the performance goals to zero. The Corporation accrues compensation expense relating to this award ratably during the Performance Period based on management's estimate of the final amount to be awarded when it believes any of the goals are probable of achievement. For the six months ended June 30, 2013, the Corporation accrued \$65,800 relating to this award. When the Committee determines the final award amount, which may differ from the amount previously accrued, compensation expense will be adjusted to the final amount. Any amount actually awarded may be paid in cash or in Common Stock of the Corporation at the determination of the Committee.

Based on our review, we are not aware of any material modifications that should be made to the interim financial statements and financial highlights referred to above for them to be in conformity with U.S. generally accepted accounting principles.
