Exhibit Number	Exhibit Title or Description
99.01	Press Release dated July 29, 2003.

**Item 12: Results of Operations and Financial Condition.**

On July 29, 2003, FormFactor, Inc., a Delaware corporation, issued a press release announcing, among other things, earnings for the quarter ended June 28, 2003. A copy of the press release is furnished as Exhibit 99.01 to this report. FormFactor made reference to non-GAAP financial information in this press release.

Use of Non-GAAP Financial Information

To supplement its consolidated financial statements presented in accordance with Generally Accepted Accounting Principles (GAAP) in the press release, FormFactor, Inc. used non-GAAP measures of net income per share, which were adjusted from results based on GAAP assuming FormFactor's initial public offering had already happened at the beginning of fiscal year 2002. The adjustment assumes the conversion to common stock of all redeemable convertible preferred stock, and the issuance of the common shares issued in the initial public offering. FormFactor believes the pro forma net income per share presentation represents a better basis for the comparison of its current results to results during fiscal periods occurring prior to FormFactor's initial public offering. The presentation of this additional information is not meant to be considered in isolation or as a substitute for results prepared in accordance with accounting principles generally accepted in the United States. The non-GAAP financial measures included in our press release have been reconciled to the nearest GAAP financial measure as is required under the rules of the Securities and Exchange Commission regarding the use of non-GAAP financial measures.
