Dear
Shareholder

I am pleased to report that during the period covered by this report, your Fund continued to meet its primary objective of providing attractive monthly income, while at the same time offering opportunities to reduce overall portfolio volatility. Detailed information on your Fund's performance can be found in the Portfolio Managers' Comments and Performance Overview sections of this report. I urge you to take the time to read them.

I also urge you to consider receiving future Fund reports and other information electronically via the Internet and e-mail rather than in hard copy. Not only will you be able to receive the information faster, but this also may help lower Fund expenses. Sign up is quick and easy - see the inside front cover of this report for detailed instructions.

In addition to providing you with steady tax-free income, your Nuveen Fund also features several characteristics that can help make it an essential part of your overall investment strategy. These include careful research, constant surveillance and judicious trading by Nuveen's seasoned portfolio management team, with every action designed to supplement income, improve Fund structure, better adapt to current market conditions or increase diversification. In uncertain markets like these, prudent investors understand the importance of diversification, balance, and risk management, all attributes your Nuveen Fund can bring to your portfolio.

For more than 100 years, Nuveen has specialized in offering quality investments such as these Nuveen Funds to those seeking to accumulate and preserve wealth. Our mission continues to be to assist you and your financial advisor by offering the investment services and products that can help you meet your financial objectives. We thank you for continuing to choose Nuveen Investments as a partner as you work toward that goal.

Sincerely,

Portfolio Managers'
Comments

Portfolio managers Paul Brennan, Tom O'Shaughnessy and Tom Futrell review economic and market conditions, key strategies, and recent Fund performance. Paul assumed portfolio management responsibility for NTC in 1999, for NFC at its inception in 2001, and for NGK upon its inception in 2002. Tom O'Shaughnessy has managed NPG since 1998 and NZX since its inception in 2001. Tom Futrell assumed management responsibilities for NMT in 1998, and for NMB and NOM in 2001.

WHAT FACTORS HAD THE GREATEST INFLUENCE ON THE U.S. ECONOMY AND THE MUNICIPAL MARKET DURING THIS REPORTING PERIOD? The two major forces at work during the twelve months ended May 31, 2002, were the general slowdown in economic growth and the Federal Reserve's aggressive easing of short-term interest rates. In addition, the events of September 11, 2001, and the uncertain geopolitical climate that followed also impacted the economy and the markets.

In the municipal markets, the generally sluggish economic environment of the past twelve months helped many securities perform well. In addition, the trend toward increased issuance remained strong. Looking at the first five months of 2002, all the states represented in this report saw significant increases in municipal issuance when compared with the same period in 2001. On the demand side, municipal bonds continued to be highly sought after by individual investors looking for diversification, tax-free income and an alternative to a volatile stock market. Institutional investors, especially traditional purchasers such as property/ casualty insurance companies, also have been active buyers.

HOW DID THESE NUVEEN FUNDS PERFORM OVER THE PAST TWELVE MONTHS? For the fiscal year ended May 31, 2002, the Funds covered in this report produced total annual returns on net asset value (NAV) as shown in the accompanying table. The annual returns for the Lehman Brothers Municipal Bond Index¹ and relevant Lipper Peer Group² also are presented.

	MARKET YIELD	TOTAL RETURN ON NAV	LEHMAN

For additional information, see the individual Performance Overview for your Fund in this report.

Over the past twelve months, the Fed's policy to keep short-term interest rates relatively low, combined with generally favorable market conditions, created a positive total return environment for municipal bonds. The Funds' participation in the market's gains is reflected, in part, in the total returns on NAV listed in the above table. In a market characterized by rising bond values, funds with longer durations⁴ typically would be expected to outperform funds or indexes with shorter durations. As of May 31, 2002, the durations of the Nuveen Funds with at least one-year of history ranged from 8.73 to 13.83 compared with 7.82 for the unleveraged Lehman Brothers Municipal Bond Index.

- 1 The Funds' performances are compared with that of the Lehman Brothers Municipal Bond Index, a national unleveraged index comprising a broad range of investment-grade municipal bonds. Results for the Lehman index do not reflect any expenses.
- 2 The Funds' total returns are compared with the average annualized return of the 26 funds in the Lipper Other States Municipal Debt Funds category. Fund and Lipper returns assume reinvestment of dividends.
- 3 The taxable-equivalent yield represents the yield that must be earned on a taxable investment in order to equal the yield of the Nuveen Fund on an after-tax basis. The taxable-equivalent yield is based on the Fund's market yield on the indicated date and a federal income tax rate of 30% plus the applicable state income tax rate. The combined federal and state tax rates used in this report are as follows: Connecticut 33%, Georgia 34%, Massachusetts 33.5%, and Missouri 34%.
- 4 Duration is a measure of a Fund's NAV volatility in reaction to interest rate movements. Fund duration, also known as leverage-adjusted duration, takes into account the leveraging process for a Fund and therefore is generally longer than the duration of the actual portfolio of individual bonds that make up the Fund. Unless otherwise noted, references to duration in this commentary are intended to indicate Fund duration.

Among the newer Funds, the durations of NGK and NZX, which were introduced within the past year, were 15.21 and 16.50, respectively. Relatively high durations like these are typical of newer Nuveen funds, and over time, we expect these durations will get shorter to come more closely in line with the older Nuveen Funds.

HOW DID THE MARKET ENVIRONMENT AFFECT THE FUNDS' DIVIDENDS AND SHARE PRICES?

With the Fed keeping short-term interest rates relatively low, the dividend-payment capabilities of these Funds benefited from the use of leverage, a strategy that can potentially enhance the dividends paid to common shareholders. This benefit is tied in part to the short-term rates the leveraged Funds pay their MuniPreferred(R) shareholders. For example, low short-term rates can enable the Funds to reduce the amount of income they pay preferred shareholders, which can leave more earnings to support common share dividends.

During the year ended May 31, 2002, steady or falling short-term interest rates enabled us to implement dividend increases in NTC, NPG, NMT, and NOM. The newer funds, NFC, NZX and NMB all maintained steady, attractive dividends during the period, and NGK, which was introduced in March 2002, paid its first monthly dividend in June.

Over the past year, the share prices of these Nuveen Funds tended to remain relatively stable (see the charts on the individual Performance Overview pages). This steady performance helped keep all of the Funds' share prices at premiums to their net asset values.

WHAT KEY STRATEGIES WERE USED TO MANAGE THESE NUVEEN FUNDS DURING THE FISCAL YEAR ENDED MAY 31, 2002?

Two areas of emphasis during this reporting period were enhancing the dividend-paying capabilities of the Funds and improving their diversification and call protection. New issuance in several of these states tends to be irregular, with periods of relatively strong issuance followed by periods of relatively light new issue supply. As a result, our approach has been to look for opportunities as they occur and to respond quickly as favorable situations develop. Over the past year, we often focused on essential services (such as water and sewer systems), some selected airport and utility issues, and certain general obligation bonds. When we were able to obtain attractive prices, we selectively sold some healthcare and multifamily housing bonds from the portfolios.

We also were trying to modestly shorten each of the Funds' duration, which would help to better position them in the event that interest rates start to creep higher in the coming months. By shortening durations, we believe we can help make the portfolios less sensitive to possible interest rate changes while still providing yields and returns that are competitive with longer duration funds.

In the current geopolitical climate, we believe that maintaining strong credit quality is a key requirement for all the Funds. As of May 31, 2002, each of these Nuveen Funds continued to offer excellent credit quality, with allocations of bonds rated AAA/U.S. guaranteed and AA ranging from 74% to 93%. All of the Funds also had a portion of their assets invested in BBB bonds, which serve to enhance the Funds' income streams.

All of the Funds also continued to offer excellent levels of call protection through 2002 and 2003. Among the newer Funds, NGK, NZX and NMB have virtually no call exposure over this period, while 2% of NFC becomes callable in 2003. The four older Funds - NTC, NPG, NMT and NOM - all reach their 10-year anniversaries in 2003, a point in their life cycles that normally is associated with an increase in call exposure. However, we have been successful in our recent

efforts to significantly reduce this exposure. NOM now has expected call exposure of 3% over this two-year period, while the other three Funds could see up to 13-22% of their portfolios called over the next two years. The number of actual calls will depend largely on market interest rates over this time. In general, we believe this call exposure is very manageable, and we foresee no problems in working through it. Given the current level of rates, our general approach has been to hold higher-yielding bonds as long as possible to help support the Funds' dividends, while we look for attractive replacement opportunities.

WHAT IS YOUR OUTLOOK FOR THE MUNICIPAL MARKET IN GENERAL AND THESE NUVEEN FUNDS IN PARTICULAR?

In general, our outlook for the fixed-income markets over the next twelve months remains positive. We believe the U.S. economy is headed for recovery, but one that may take longer and see a slower pace of growth than some are now predicting. We believe inflation and interest rates should remain relatively low over the near term, and that new municipal issuance should continue to be strong. We anticipate the demand for tax-exempt municipal bonds will remain firm as investors look for ways to rebalance their portfolios and reduce risk.

We plan to remain focused on strategies that add value for our shareholders, provide support for the Funds' dividends, and fully utilize Nuveen's experience and research expertise. As noted, shareholders may see these Funds' durations shorten.

Overall, we believe these Funds can continue to play an important role in investors' long-range financial programs, providing balance and diversification, dependable tax-free income, and a measure of security in uncertain times. We believe the Funds currently are well positioned for the market environment ahead, and we will continue to closely monitor and respond to events as appropriate.

Bond surveillance -
a HIGH PRIORITY at NUVEEN

The Enron scandal has raised numerous questions about the real value of American securities. Investors want to know what safeguards are in place to inspire their trust and ensure their holdings are dependable. The Nuveen Investor recently spoke with David Blair, Assistant Vice President and Senior Analyst at Nuveen, about the research and surveillance processes used for Nuveen funds.

HOW DO NUVEEN'S RESEARCH ANALYSTS EVALUATE BONDS PRIOR TO PURCHASE?

We evaluate factors impacting market sectors, issuers and specific bonds and assign credit ratings to bonds we consider for purchase. We seek to purchase bonds with stable and improving credit characteristics, which have attractive prices and yields relative to other bonds in their sectors.

HOW DO YOU CONDUCT YOUR RESEARCH?

We conduct detailed analyses that often involve site visits and discussions with managers of the projects being financed. Since Nuveen is a major investor with large buying power, issuers and project managers are willing to listen to us and respond to our concerns.

IS THE RESEARCH AND ANALYSIS PROCESS ANY DIFFERENT WHEN CONSIDERING HIGH-YIELD BONDS?

Up to 20 percent of some funds can be invested in below investment grade bonds to help the fund attain a higher yield. This underscores the need for research. If one of our 16 analysts believes a high-yield bond should be purchased, a second analyst reviews the issue as well.

HOW DO YOU MONITOR THE VARIOUS BONDS ONCE THEY'VE BEEN PURCHASED?

We have a proprietary database with information and analysis on the bonds Nuveen holds in its funds. Among other things, we are able to evaluate risk exposure to sectors, issuers and specific bonds on an on-going basis.

HOW DOES THE RESEARCH DEPARTMENT COMMUNICATE THE INFORMATION GATHERED?

We conduct biweekly meetings within the research department and weekly meetings with portfolio managers. We also write-up our findings and distribute them with "buy," "hold" or "sell" recommendations to portfolio managers.

IS IT TIME TO RETHINK YOUR BOND STRATEGY?

Significant stock market losses in recent history have sent many investors toward bonds as a way to potentially cut their losses and balance equity-dominated portfolios. While many consider bonds a set-and-forget investment, there are several circumstances that might prompt you to reassess -- and perhaps revamp -- your bond holdings.

TAX BRACKET CHANGES

The Economic Growth and Tax Relief Reconciliation Act of 2001 has dropped tax brackets a percentage point this year, but a higher salary, large bonus, sale of assets or retirement may push you into a higher tax bracket for 2002.

If you are in a higher tax bracket and want to generate an income stream without raising your tax burden, tax-free municipal bonds may be a prudent option. Even if you are in a lower tax bracket, municipal bonds could make sense. The question is whether municipal or taxable bonds will deliver a better taxable yield.

RETIREMENT PLANS CHANGE

Whether you are near retirement or are currently enjoying it, you may want to consider rebalancing your retirement accounts with less stock and more bonds, to potentially reduce risk and try to preserve the assets that you have accumulated. If you are just entering retirement you may want to make tax-free municipal bonds a part of your portfolio to emphasize income generation and protection from taxation.

RISK TOLERANCE CHANGES

The recent market volatility and market downturn may have caused many investors to reevaluate their tolerance for risk. On the other hand, your portfolio might have performed well over the last few years and you may not need to take on extra risk to meet your long-term goals. In either situation you could take a look at your bond portfolio and determine whether you need to make changes to correspond with your tolerance for risk.

PORTFOLIO CHANGES

If you make significant changes to one or more of your investments, you'll want to look at your portfolio as a whole, particularly with regard to overall asset allocation. You may need to do some rebalancing to stay on track with your investment strategy.

Your financial advisor can help. Regardless of how your circumstances change, he or she can provide up-to-date information on the bond market and various funds to help you decide how to maximize your returns consistent with your short- and long-term financial goals.

No investment is risk free and some investments carry more risk than others. It is important to know what the risks are, to evaluate them against any potential rewards, and to determine your tolerance for risk when selecting an investment.

MANY INVESTORS CONTINUE
TO FIND SOLUTIONS WITH
PROFESSIONAL ADVICE

For many investors, current financial markets are confusing and frustrating. According to research conducted for the Forum for Investor Advice*, that's the number one reason many turn to a financial advisor. They want someone to suggest ideas and provide consultation, dialogue and professional advice.

Investors say their advisors are helpful in other key ways, including...

- o Saving time. After consultation, investors note that the second most important reason for using an advisor is to have someone else monitor their portfolio, reducing the amount of time they spend on investing.
- o Help in sorting through information. Investors in the 21st century have more products from which to choose than in the past. For example, there are approximately 8,000 mutual funds today, up from 3,000 in 1990.
- o Assistance in setting financial goals. According to investors who use a financial advisor, they are more likely to have a plan for a specific financial goal than do-it-yourself investors.
- o Staying focused. Advisor-assisted investors are more likely than do-it-yourself investors to have developed a comprehensive investment program.
- o Peace of mind. Investors say their comfort level in all types of markets is higher when using an advisor for a "second opinion" on an investment decision.

*The survey of 324 investors was conducted in December of 2000 by Market Facts and analyzed by New York based Neuwirth Research. Of the 324, 166 said they had an ongoing relationship with a financial advisor, while 157 described themselves as do-it-yourselfers.

(continued from page 13)

HOW ARE PROBLEM BONDS IDENTIFIED AND HANDLED?

We conduct surveillance on our bonds on a regular basis to ensure, among other things, that deteriorating bonds are identified early. We then discuss any emerging problems and potential courses of action with the portfolio manager.

HOW MANY ISSUES DOES THE RESEARCH DEPARTMENT FOLLOW?

We follow 12 sectors and 1,500 uninsured bonds, worth about \$18 billion of Nuveen's \$45 billion in total municipal assets. The remaining \$27 billion in municipal assets are insured or escrowed (backed by Treasury bonds). For the insured bonds, we monitor closely on a regular basis the insurers guaranteeing the bonds.

WILL RESEARCH AND SURVEILLANCE CHANGE IN LIGHT OF PROBLEMS WITH ENRON SECURITIES?

Overall, our investment process and surveillance have worked well and been effective. However, we meet as a group on a regular basis and are constantly evaluating ways to improve the process to respond to issues and the market environment.

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The state Funds (the "Funds") covered in this report and their corresponding stock exchange symbols are Nuveen Connecticut Premium Income Municipal Fund (NTC), Nuveen Connecticut Dividend Advantage Municipal Fund (NFC), Nuveen Connecticut Dividend Advantage Municipal Fund 2 (NGK), Nuveen Georgia Premium Income Municipal Fund (NPG), Nuveen Georgia Dividend Advantage Municipal Fund (NZX), Nuveen Massachusetts Premium Income Municipal Fund (NMT), Nuveen Massachusetts Dividend Advantage Municipal Fund (NMB) and Nuveen Missouri Premium Income Municipal Fund (NOM). Connecticut Premium Income (NTC) and

Massachusetts Premium Income (NMT) are traded on the New York Stock Exchange while Connecticut Dividend Advantage (NFC), Connecticut Dividend Advantage 2 (NGK), Georgia Premium Income (NPG), Georgia Dividend Advantage (NZX), Massachusetts Dividend Advantage (NMB) and Missouri Premium Income (NOM) are traded on the American Stock Exchange. Prior to the commencement of operations of Connecticut Dividend Advantage (NFC), Connecticut Dividend Advantage 2 (NGK), Georgia Dividend Advantage (NZX) and Massachusetts Dividend Advantage (NMB), each Fund had no operations other than those related to organizational matters, the initial capital contribution of \$100,275 by Nuveen Advisory Corp. (the "Adviser"), a wholly owned subsidiary of The John Nuveen Company, and the recording of the organization expenses (\$15,000, \$11,500, \$11,500 and \$15,000, respectively) and their reimbursement by Nuveen Investments, also a wholly owned subsidiary of The John Nuveen Company.

Each Fund seeks to provide current income exempt from both regular federal and designated state income taxes by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities within a single state. The Funds are registered under the Investment Company Act of 1940 as closed-end management investment companies.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with accounting principles generally accepted in the United States.

Securities Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Trustees. When price quotes are not readily available (which is usually the case for municipal securities), the pricing service establishes fair market value based on yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers and general market conditions. If it is determined that market prices for a security are unavailable or inappropriate, the Board of Trustees of the Funds may establish a fair value for the security. Temporary investments in securities that have variable rate and demand features qualifying them as short-term securities are valued at amortized cost, which approximates market value.

Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined on the specific identification method. Securities purchased or sold on a when-issued or delayed delivery basis may have extended settlement periods. The securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets in a separate account with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At May 31, 2002, Connecticut Dividend Advantage 2 (NGK), Georgia Premium Income (NPG) and Georgia Dividend Advantage (NZX) had outstanding when-issued purchase commitments of \$1,685,069, \$4,908,786 and \$1,037,707, respectively. There were no such outstanding purchase commitments in any of the other Funds.

Investment Income

Interest income is determined on the basis of interest accrued, adjusted for amortization of premiums and accretion of discounts on long-term debt securities for financial reporting purposes.

Financial Statements (continued)

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its net investment income to its shareholders. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal and designated state income taxes, to retain such tax-exempt status when distributed to shareholders of the Funds. All monthly tax-exempt income dividends paid during the period ended May 31, 2002, have been designated Exempt Interest Dividends.

Dividends and Distributions to Shareholders

Tax-exempt net investment income is declared monthly as a dividend. Generally, payment is made or reinvestment is credited to shareholder accounts on the first business day after month-end. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from accounting principles generally accepted in the United States. Accordingly, temporary over-distributions as a result of these differences may occur and will be classified as either distributions in excess of net investment income, distributions in excess of net realized gains and/or distributions in excess of net ordinary taxable income from investment transactions, where applicable.

Preferred Shares

The Funds have issued and outstanding \$25,000 stated value Preferred shares. Each Fund's Preferred shares are issued in one Series. The dividend rate on each Series may change every seven days, as set by the auction agent. The number of shares outstanding for each Fund is as follows:

	CONNECTICUT PREMIUM INCOME (NTC)	CONNECTICUT DIVIDEND ADVANTAGE (NFC)	CONNECTICUT DIVIDEND ADVANTAGE 2 (NGK)	GEORGIA PREMIUM INCOME (NPG)

Effective November 16, 2001, Georgia Dividend Advantage (NZX) issued 600 Series M \$25,000 stated value Preferred shares. Effective May 17, 2002, Connecticut Dividend Advantage 2 (NGK) issued 700 Series W \$25,000 stated value Preferred shares.

Derivative Financial Instruments

The Funds may invest in certain derivative financial instruments including futures, forward, swap and option contracts, and other financial instruments with similar characteristics. Although the Funds are authorized to invest in such financial instruments, and may do so in the future, they did not make any such investments during the period ended May 31, 2002.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Offering Costs

Nuveen Investments has agreed to pay all offering costs (other than the sales load) that exceed \$.03 per Common share for Connecticut Dividend Advantage (NFC), Connecticut Dividend Advantage 2 (NGK), Georgia Dividend Advantage (NZX) and Massachusetts Dividend Advantage (NMB). Connecticut Dividend Advantage's (NFC), Connecticut Dividend Advantage 2's (NGK), Georgia Dividend Advantage's (NZX) and Massachusetts Dividend Advantage's (NMB) share of offering costs (\$76,005, \$69,000, \$58,470 and \$58,050, respectively) were recorded as a reduction of the proceeds from the sale of common shares.

Costs incurred by Connecticut Dividend Advantage (NFC), Connecticut Dividend Advantage 2 (NGK), Georgia Dividend Advantage (NZX) and Massachusetts Dividend Advantage (NMB) in connection with their offering of Preferred shares (\$339,375, \$280,610, \$315,750 and \$293,250, respectively) were recorded as a reduction to paid-in surplus.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common Shares from operations during the reporting period. Actual results may differ from those estimates.

Change in Accounting Policy

As required, effective June 1, 2001, the Funds have adopted the provisions of the new AICPA Audit and Accounting Guide for Investment Companies and began accreting taxable market discount on debt securities. Prior to June 1, 2001, the Funds did not accrete taxable market discount on debt securities until they were sold. The cumulative effect of this accounting change had no impact on the total

Edgar Filing: NUVEEN MASSACHUSETTS DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-30D

net assets applicable to Common Shares or the Common share net asset values of the Funds, but resulted in an increase in the cost of securities and a corresponding decrease in net unrealized appreciation or increase in net unrealized depreciation based on securities held by the following Funds on June 1, 2001, as follows:

CONNECTICUT PREMIUM INCOME (NTC)	CONNECTICUT DIVIDEND ADVANTAGE (NFC)	GEORGIA PREMIUM INCOME (NPG)	MASSACHUSETTS PREMIUM INCOME (NMT)	MASSACHUSETTS DIVIDEND ADVANTAGE (NMB)
\$104,083	\$2,201	\$143,208	\$200,475	\$2,288

The effect of this change for the fiscal year ended May 31, 2002, was to increase investment income with a corresponding decrease in net unrealized appreciation as follows:

The Statement of Changes in Net Assets and Financial Highlights for the prior periods have not been restated to reflect this change in presentation.

CONNECTICUT PREMIUM INCOME (NTC)	CONNECTICUT DIVIDEND ADVANTAGE (NFC)	GEORGIA PREMIUM INCOME (NPG)	MASSACHUSETTS PREMIUM INCOME (NMT)	MASSACHUSETTS DIVIDEND ADVANTAGE (NMB)
\$14,611	\$7,336	\$21,549	\$38,158	\$8,795

Classification and Measurement of Redeemable Securities

The Funds have adopted the classification requirement of EITF D-98, Classification and Measurement of Redeemable Securities. EITF D-98 requires that Preferred shares, at liquidation value, be presented separately in the Statement of Assets and Liabilities. Accordingly, certain reclassifications have been made to the financial statements and financial highlights for all prior periods presented. The adoption of EITF D-98 had no impact on the Funds' Common share net asset values.

(b)As required, effective June 1, 2001, the Funds have adopted the provisions of the new AICPA Audit and Accounting Guide for Investment Companies and began accreting taxable market discount on debt securities. The effect of this change for the fiscal year ended May 31, 2002, was to increase net investment income per share with a corresponding decrease in net realized/unrealized investment gain (loss) per share and increase each ratio of net investment income to average net assets as follows:

	MASSACHUSETTS PREMIUM INCOME (NMT)	MASSACHUSETTS DIVIDEND ADVANTAGE (NMB)	MISSOURI PREMIUM INCOME (NOM)
2002 per share impact (\$)	.01	--	--
2002 income ratio impact (%)	.06	.03	.01

The Financial Highlights for the prior periods have not been restated to reflect this change in presentation.

Trustees

and Officers

The management of the Funds, including general supervision of the duties performed for the Funds under the Management Agreement, is the responsibility of the Board of Trustees of the Funds. The number of trustees of the Funds is currently set at seven, one of whom is an "interested person" (as the term is defined in the Investment Company Act of 1940) and six of whom are not interested persons. None of the trustees who are not interested persons of the Funds have ever been a director or employee of, or consultant to, Nuveen or its affiliates. The names and business addresses of the trustees and officers of the Funds, their principal occupations and other affiliations during the past five years, the number of portfolios each oversees and other directorships they hold are set forth below.

The Funds' Statement of Additional Information ("SAI") includes more information about the Trustees. To request a free copy, call Nuveen Investments at (800) 257-8787.

Build Your Wealth
Automatically

Sidebar text: Nuveen makes reinvesting easy. A phone call is all it takes to set up your reinvestment account.

NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBILITY

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.
